AQUACELL TECHNOLOGIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2004 (Unaudited)

NOTE A - BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements include the accounts of AquaCell Technologies, Inc. and its wholly owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and with instructions to Form 10-QSB. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. The results of operations for the six months ended December 31, 2004 are not necessarily indicative of the results to be expected for the full year. For further information, refer to the Company's annual report filed on Form 10-KSB for the year ended June 30, 2004.

At December 31, 2004 the Company's ability to continue as a going concern, for the reasons outlined on the 10-KSB filed for the year ended June 30, 2004, still existed. During the six months ended December 31, 2004 the Company successfully obtained external financing through exercise of warrants and plans to continue to raise capital through the sale or exercise of equity securities on a just in time basis.

NOTE B - SUBSCRIPTIONS RECEIVABLE

At December 31, 2004 a part of subscriptions receivable in the amount of \$6,000 is reported as a current asset since such amount represented a receivable

Edgar Filing: AQUACELL TECHNOLOGIES INC - Form 10QSB

for exercise of warrants that has been subsequently collected prior to the issuance of the financial statements.

9

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

When used in this Form 10-QSB and in future filings by the Company with the Commission, statements identified by the words "believe", "positioned", "estimate", "project", "target", "continue", "will", "intend", "expect", "future", "anticipates", and similar expressions express management's present belief, expectations or intentions regarding the Company's future performance within the meaning of the Private Securities Litigation Reform Act of 1995.

Edgar Filing: AQUACELL TECHNOLOGIES INC - Form 10QSB

Readers are cautioned not to place undue reliance on any such forward-looking statements, each of which speaks only as of the date made. Such statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical earnings and those presently anticipated or projected. The Company has no obligations to publicly release the result of any revisions which may be made to any forward-looking statements to reflect anticipated or unanticipated events or circumstances occurring after the date of such statements.

Overview

The following discussions and analysis should be read in conjunction with the Company's condensed consolidated financial statements and the notes presented following the condensed consolidated financial statements. The discussion of results, causes and trends should not be constructed to imply any conclusion that such results or trends will necessarily continue in the future.

During the six months ended December 31, 2004 the Company raised net equity of \$1,127,000 to enable the Company to move forward with the "Message On The Bottle" advertising program through our Aquacell Media subsidiary. Aquacell Media installs our patented Aquacell 1000 Bottled Water Cooler Systems free of charge into various locations while retaining ownership of the coolers. Revenue is generated through the sale of advertising on the band of the cooler's permanently attached five-gallon bottle, as well as on the cup holder.

During the six months ended December 31, 2004, we commenced the initial rollout of installations in Rite Aid stores, the nation's third largest drug store chain with more than 3000 locations. Under the five year agreement, signed in October 2004 the Company installs its Aquacell 1000 coolers at no cost to Rite Aid, and sells the advertising space on the bottle band.

While securing advertisers is important to the success of our advertising program - as it is the source of revenue generation, securing locations, or "real estate", for the coolers is a critical first-step. Unlike other in-store advertising mechanisms, we actually own a piece of "real estate" in the stores for a five-year period, the intrinsic value of which cannot be measured. Having begun this program less than a year ago, we believe we have made remarkable progress in securing retail locations for our water cooler systems.

Aquacell Media has installed Aquacell 1000 systems on a test basis into other stores including the nationwide drug chain CVS and Winn Dixie supermarkets, as well as smaller regional drug and grocery chain stores.

10

During the quarter ended December 31, 2004, we secured our first advertiser, Unilever, one of the world's largest consumer products companies. This inaugural program is for Dove(R) Cool Moisture body wash and bar soap. The cooler advertising program is coinciding with the initial launch of this new product commencing February 2005, where Unilever saw a natural tie-in of utilizing our water cooler billboard to portray the refreshment attribute of Dove Cool Moisture. The Dove Cool Moisture advertising is displayed on our coolers in select Rite Aid stores nationwide, as well as on coolers installed in Duane Reade drug stores in the New York Metropolitan area.

In January 2005, we announced the hiring of Michael Dougherty as President of our AquaCell Media subsidiary. Mr. Dougherty spent over 30 years with Unilever, where he established programs with Advantage Sales and Marketing, the nation's leading sales and marketing agency for suppliers of food products and consumer goods. Mr. Dougherty will leverage his experience and relationship

Edgar Filing: AQUACELL TECHNOLOGIES INC - Form 10QSB

with Advantage, to facilitate both location placements and advertisers for our "Message On The Bottle" program.

In December 2004, we were notified by the American Stock Exchange that the Amex accepted the Company's 18-month plan (the "Plan") for continued listing, in connection with the Amex's listing requirements, following receipt of notification of non-compliance with the Amex's minimum stockholder equity requirement. The Plan was evaluated and accepted by the Amex, indicating that the Company made a reasonable demonstration of an ability to regain compliance with the continued listing standards within the allotted time frame.

We believe that maintaining our listing on the American Stock Exchange is very important for our stockholders and believe we will meet our objectives over the next year and a half to comply with the Exchange's requirements.

In December 2004, the Company announced it was spinning off its Aquacell Water subsidiary to AquaCell Technologies stockholders, who will receive one share of common stock in Aquacell Water for every share of common stock held in AquaCell Technologies. Aquacell Water will operate as a holding company to acquire companies in the water industry with the first acquisition to be Water Science Technologies, Inc. (WST), currently a wholly owned subsidiary of AquaCell Technologies. The pay date for the shares will coincide with the effectiveness of the Aquacell Water registration statement which is intended to be filed with the Securities and Exchange Commission in the first quarter of the calendar year.

During the six months ended December 31, 2004 we continued to incur non-cash charges for stock based compensation for warrants issued to consultants, which we believe is a continuing benefit to the Company and its stockholders for the future growth of the Company. Such charges were \$483,000.

Critical Accounting Policies

The accompanying discussion and analysis of our financial condition and results of operations are based upon our condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP"). The preparation of these condensed consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues, and expenses, and related disclosure of contingent assets and liabilities. These estimates form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from

11

other sources. We base our estimates and judgments on historical experience and all available information. However, future events are subject to change, and the best estimates and judgments routinely require adjustment. US GAAP requires us to make estimates and judgments in several areas, including those related to recording various accruals, income taxes, the useful lives of long-lived assets, such as property and equipment and intangible assets, and potential losses from contingencies and litigation. We believe the policies discussed below are the most critical to our condensed consolidated financial statements because they are affected significantly by management's judgments, assumptions and estimates.

Goodwill:

Goodwill represents the excess of the purchase price over the fair value of net assets of a business acquired. The Company has adopted Statements of Financial Accounting Standards No. 142 (SFAS 142), "Goodwill and Other

Edgar Filing: AQUACELL TECHNOLOGIES INC - Form 10QSB

Intangible Assets". The Company operates as a single integrated business, and as such has one operating segment which is also the reportable unit. Fair value of the reporting unit is determined by comparing the fair value of the unit with its carrying value, including goodwill. Impairment tests are performed using discounted cash flow analysis and estimates of sales proceeds. The annual evaluation of goodwill is performed at June 30th, the end of the Company's fiscal year.

Income taxes:

The Company accounts for income taxes using the asset and liability method described on SFAS No. 109, "Accounting For Income Taxes", the objective of which is to establish deferred tax assets and liabilities for the temporary differences between the financial reporting and the tax bases of the Company's assets and liabilities at enacted tax rates expected to be in effect when such amounts are realized or settled. A valuation allowance related to deferred tax assets is recorded when it is more likely than no that some portion or all of the deferred tax assets will not be realized.

Long-lived assets:

The Company accounts for the impairment and disposition of long-lived assets in accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-lived Assets." In accordance with SFAS No. 144, long-lived assets to be held are reviewed whenever events or changes in circumstances indicate that their carrying value may not be recoverable. The Company periodically reviews the carrying value of long-lived assets to determine whether or not an impairment to such value has occurred, and has determined that as of June 30, 2004 that impairment, where appropriate, was recorded in the financial statements.

Results of Operations

During the six months ended December 31, 2004 on a consolidated basis, revenues were \$310,000 as compared to \$401,000 for the similar period of the preceding year, resulting primarily from a decrease in sales by our WST subsidiary, and cost of sales was 65% for the six months ended December 31, 2004 as compared to 69% for the same period of the prior year. The decrease in cost of sales percentage resulted from a lower contribution to total revenues by our WST subsidiary which operates at a higher cost of sales percentage.

Net loss on a consolidated basis, attributable to common stockholders, for the six months ended December 31, 2004 decreased to \$1,741,000 or \$0.12 per share, as compared to \$2,388,000 or \$.24 per share for the same period of the prior year. The decrease in the loss is primarily attributable to the decrease

in stock based compensation in the amount of \$119,000, a fair value adjustment of a derivative in the amount of \$394,000, and write-off of accrued interest on notes receivable in the amount of \$48,000.

Salaries and wages decreased by \$117,000 for the six months ended December 31, 2004 over the prior year resulting primarily from bonuses paid in the prior year. Legal, accounting and other professional expenses increased by approximately \$11,000 for the six months ended December 31, 2004 resulting primarily from a professional fee paid for one-time consulting services. Consulting fees and expenses in connection with the research and development of new business opportunities decreased by \$21,000 for the six months ended

Edgar Filing: AQUACELL TECHNOLOGIES INC - Form 10QSB

December 31, 2004 primarily because these fees and expenses were utilized in the installations of our billboard coolers during the quarter ended December 31, 2004 and were capitalized as part of the asset cost. Stock based compensation decreased by \$119,000 to \$483,000 for the six months ended December 31, 2004 resulting from a direct write-off of certain warrants issued during the prior year. Other selling, general and administrative expenses, increased by approximately \$56,000 to \$630,000 for the six months ended December 31, 2004. Current period expenses consisted primarily of rent - \$98,000, telephone and utilities- \$32,000, travel- \$42,000, business promotion- \$51,000, insurance- \$73,000, and vehicle expenses-\$48,000.

Liquidity and Capital Resources

The Company has developed a plan to address liquidity, in connection with its ability to continue as a going concern, in several ways. It will continue to raise capital through the sale or exercise of equity securities. Toward that end the Company raised net equity of approximately \$1,127,000 through the exercise of warrants to purchase common shares during the six months ended December 31, 2004. The Company has continued to pursue the placement of our water cooler billboards in various locations and the Company is seeking to increase its revenues through the sale of advertising on the band of the cooler's permanently attached five-gallon bottle as outlined in the Overview section of Management's Discussion.

The spinoff of our Aquacell Water, Inc. subsidiary will have no material effect on the financial statements because this is an inactive company without assets, liabilities or operations.

Cash used by operations during the six months ended December 31, 2004 amounted to \$1,308,000. Net loss of \$1,723,000 was reduced by non-cash stock based compensation in the amount of \$483,000, depreciation and amortization of \$22,000 and a bad debt provision of \$4,000. Cash used by operations was further increased by a decrease in accounts payable in the amount of \$197,000. Net loss was further decreased by net changes in prepaid expenses, accrued liabilities, customer deposits, accounts receivable and inventories aggregating \$103,000.

Cash used by investing activities during the six months ended December 31, 2004 represented capital expenditures in the amount of \$185,000 primarily for billboard coolers and by payments on notes issued for the purchase of equipment in the amount of \$2,000.

Cash provided by financing activities was approximately \$1,095,000. Proceeds from sales of common stock purchase warrants amounted to \$1,055,000 net of expenses of \$3,000. Proceeds from subscriptions receivable were \$40,000.

We have granted warrants, subsequent to our initial public offering, in connection with private placements, consulting, marketing and financing agreements that remain outstanding at the date of this filing and may generate additional capital of up to approximately \$10,350,000 if exercised. As of

13

December 31, 2004 250,000 warrants generating \$42,000 were in the money and 6,038,000 warrants generating \$10,308,000 were out of the money. Historically, the Company has repriced out of the money warrants to generate additional capital. There is no assurance however, that any of the warrants will be exercised.

Management believes that its present cash position combined with subsequent

equity raises and conversion of warrants and cash flows expected to be generated from future operations will be sufficient to meet presently anticipated needs for working capital and capital expenditures through at least the next 12 months; however, there can be no assurance in that regard. The Company presently has no material commitments for future capital expenditures.
