Item 5.03 Amendments to Articles of Incorporation or Bylaws; Change in Fiscal Year.

The information regarding an amendment to the articles of incorporation provided below in Item 8.01 is incorporated herein by this reference.

Item 8.01 Other Events.

Clean Coal Technologies, Inc. (the "Company") announced today that its Board of Directors (the "Board") has determined to implement a 1-for-35 reverse stock split of the Company's common stock and a change in the authorized capital. The Company's shareholders approved the reverse stock split and change in capitalization, and granted the Board the authority to determine the exact split ratio and proceed with the reverse stock split and change in capitalization at the Company's annual meeting of shareholders held on May 8, 2013.

The reverse stock split will take effect as of 8am Eastern on Friday, April 25, 2014. A new CUSIP number, 18450P 200, has been assigned to the Company's common stock when the reverse stock split becomes effective. The Company's stock symbol will be CCTCD for 20 days and then the "D" will drop off. In conjunction with the reverse stock split, the Company has filed an amendment to its articles of incorporation changing the authorized common stock to 45,000,000 shares from 975,000,000. The par value of \$0.00001 is unchanged. The amendment to the articles is filed as an exhibit to this Report.

When the reverse stock split becomes effective, every 35 shares of the Company's issued and outstanding common stock will be automatically combined into one issued and outstanding share of common stock without any change in the par value per share. This will reduce the number of outstanding shares of the Company's common stock from approximately 920,816,641 shares to approximately 26,309,046 shares.

No fractional shares will be issued in connection with the reverse split of the issued and outstanding common stock. Any fractional shares will be rounded up to the next whole share. Shareholders do not need to take any further action or exchange certificates representing shares. The Company's transfer agent, Worldwide Stock Transfer, LLC, will automatically adjust any pre-split certificates into the correct post-reverse split number of shares whenever such certificates are submitted for transfer.
