Hanson PLC Annual General Meeting

Speaking today at the AGM of Hanson PLC, Alan Murray, Chief Executive, made the following comment

"Our view on the outlook for 2006 remains substantially the same as reported two months ago. We expect to remain strong and we have seen a good first quarter. As anticipated, the start to the year in the first period last year. Australia has had a good start although for the full year demand may be below last year. An increase in energy costs incurred in 2005 will impact our annual cost base in 2006, despite our efforts to remain focussed on increasing our prices to recover these costs.

Corporate Development progress has been very pleasing and we have completed or agreed eleven acquisitions under consideration of approximately GBP515m. 90% of this investment is represented by three acquisitions: the acquisition of PaverModule, one of the top two suppliers of concrete pavers in Florida. In March, we completed the acquisition of Civil and Marine, a leading producer of ground granulated blast furnace slag operations in Florida and the Czech Republic. Thirdly, we have agreed to acquire Material Services aggregates in the US, for approximately GBP170m. This transaction is expected to be completed

eight smaller transactions include operations in the UK, US, Australia and Spain.

Overall, we continue to expect to make further progress in 2006 based on our strong asset financial discipline and continued investment in acquisitions."
