Report of Independent Registered Public Accounting Firm

The Retirement Committee

Armstrong World Industries, Inc.:

We have audited the accompanying statements of net assets available for benefits of the Retirement Savings Plan for Hourly-Paid Employees of Armstrong World Industries, Inc. (the Plan) as of September 30, 2007 and 2006, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of September 30, 2007 and 2006, and the changes in net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

RETIREMENT SAVINGS PLAN FOR HOURLY-PAID EMPLOYEES

OF ARMSTRONG WORLD INDUSTRIES, INC.

Notes to Financial Statements

September 30, 2007 and 2006

(1) Plan Description

The following description of the Retirement Savings Plan for Hourly-Paid Employees of Armstrong World Industries, Inc. (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan 's provisions. The Plan is a defined contribution plan established for the purpose of providing eligible hourly-paid employees a means for long-term savings intended for the accumulation of retirement income. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). On December 6, 2000 Armstrong World Industries, Inc. (AWI) filed a voluntary petition for relief under Chapter 11 of the U.S. Bankruptcy Code in the United States Bankruptcy Court for the District of Delaware in order to use the court-supervised reorganization process to achieve a resolution of its asbestos-related liability. On December 6, 2000 Armstrong filed a motion with the bankruptcy court to allow Armstrong to continue making contributions to the Plan. The motion was approved by the bankruptcy court. On October 2, 2006 AWI emerged from Chapter 11. See Note 11 for further discussion of Chapter 11 events.

Separate balances are maintained for contributions made by or on behalf of a participant. The balances in each fund reflect the participants contributions together with dividends, interest, other income, and realized and unrealized gains and losses allocated thereon.

Each participant may have up to seven accounts that make up the participant 's total balance:

Sheltered account Participants can contribute from 1% to 40% of pre-tax compensation (as defined in the Plan document) as deferred compensation, as permitted under Section 401(k) of the Internal Revenue Code.

Standard account - Participants may contribute from 1% to 10% of after-tax compensation (as defined in the Plan document).

Rollover account Participants may invest any untaxed amounts rolled over from another tax-qualified, employer-sponsored plan, qualified annuity contracts, tax-deferred annuity plans, governmental deferred compensation plans, and individual retirement arrangements.

Age 50 catch-up account Participants who are age 50 or older may make catch-up contributions, subject to the annual limits on catch-up contributions specified in the Internal Revenue Code.

Company match account For certain participants who are employed by Armstrong Wood Products, Inc., AWI contributes an amount equal to 50% of the first 6% of each participant 's sheltered account contributions. This account also holds any amount contributed by AWI before cash matching contributions were discontinued in 1989 and 1990, depending upon the participant 's work location (formerly referred to as the Old Match account).

AWP profit sharing account This account holds discretionary and non-discretionary profit sharing money contributed by Armstrong for certain employees.

Tax-deductible account (MIRA) This account holds any contributions made to the Plan before January 1, 1987. No new contributions can be made to this account.

Notes to Financial Statements, (Continued)

Participants have an immediate 100% vested interest with respect to their contributions. Participants hired prior to and actively employed on January 1, 2003 are fully vested with regard to any AWI contributions.

Participants hired on or after January 1, 2003 are fully vested in any AWI contributions after three years of service. Participants who were former participants in the Armstrong Wood Products Non-Union Hourly Employees 401(k) Plan, the Hartco Flooring Co. Bargaining Employees Retirement Savings Plan, the Hartco Flooring Co. Retirement Savings Plan and the Robbins Hardwood Flooring, Inc. Employees Retirement Savings Plan but were not actively employed on January 1, 2003 will become vested based upon the requirements of those predecessor plans (maximum vesting period of five years).

Amounts forfeited by participants are first used to pay administrative expenses and then to reduce future AWI contributions under the Plan. We used \$21,763 in the 2007 plan year and \$15,493 in the 2006 plan year to pay administrative expenses. In addition, we used \$33,000 in the 2007 plan year and \$0 in the 2006 plan year to reduce Armstrong matching contributions. As of September 30, 2007, we had \$40 of forfeitures available for future use.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis.

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from estimates recorded.

(b) Investments in Master Trust

The managed income portfolio is stated at cost, which approximates fair value. The value of the participant loans represents the unpaid principal of employee loans. The value of all other investments is based on quoted market price.

Securities transactions are recognized on the settlement date (the date on which payment for a buy or sell order is made or received), since adjustment to a trade-date basis would not be material. Dividend income is recorded on the ex-dividend date.

Deemed distributions occur when active participants default on their loans. Their loans are in default due to failure to make the required repayments or their loans mature and have not been repaid in full.

(c) Expenses

All legal, accounting and administrative expenses associated with Plan operations are paid by AWI.

(d) Payment of Benefits

Benefits are recorded when paid.

(4) **Benefits**

Under terms of the Plan, a participant (or a beneficiary) is eligible for benefits upon retirement, termination of employment, or death before retirement. Disbursement of the total amount credited to a participant's account is payable (i) in a lump sum or (ii) in the case of retirement, partial disbursements are allowed.

In addition, an active employee may elect to withdraw all or any part of his account attributable to after-tax contributions. Before reaching age 59 1/2, an active employee may withdraw his pre-tax contributions from the Sheltered Account, provided he can demonstrate financial hardship. Such employees shall be ineligible to make contributions for a 6 month period. An active employee may elect to withdraw all or any portion of his account balance in the Tax-Deductible (MIRA) and Rollover Accounts.

Under the rules of the Plan, the participant may borrow up to the lesser of 50% of his vested balance or \$50,000. The money borrowed must come from the Sheltered, Age 50 catch-up, Company match, AWP profit sharing, Rollover, or Standard Accounts. The amount of the loan is

transferred to a Loan Reserve pledged as security for the loan and is evidenced by a promissory note payable to the Plan. Interest rates are determined

periodically by the Retirement Committee in accordance with prevailing interest rates. The loans are reflected in the Loan Portfolio investment fund. Loan repayments are made by payroll deductions or in a manner agreed to by the employee and the Plan Administrator.

(5) Obligation for Benefits

All the funds of the Plan are held by investing institutions appointed by AWI under a trust agreement or investment contract. Benefits under the Plan are payable only out of these funds. AWI has no legal obligation to make any direct payment of benefits accrued under the Plan. Neither AWI nor any investing institution guarantees the funds of the Plan against any loss or depreciation or guarantees the payment of any benefit hereunder. Although AWI has not expressed any intent to terminate the Plan, it may do so at any time. In case of termination or partial termination, the total amount in each employee's account will be distributed as the Plan Administrator directs.

(6) Eligibility

Most hourly employees of AWI or any participating affiliated company which adopts this plan are eligible to participate. This includes hourly employees in a collective bargaining unit where the collective bargaining agent for that unit agrees to coverage under the Plan. Eligible participants who leave AWI and are later reemployed can resume participation in the Plan on the date of rehire.

(7) Federal Income Taxes

The Internal Revenue Service issued its latest determination letter on November 25, 2003, which stated that the Plan and its underlying trust qualify under the applicable provisions of the Internal Revenue Code and, therefore, are exempt from federal income taxes. The Plan has been amended since receiving the determination letter. In the opinion of the Plan administrator and the Plan's qualified tax adviser, the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan is qualified and the related trust is tax-exempt.

(8) Master Trust Agreement

The Plan established a Master Trust Agreement with Fidelity Management Trust Company whereby the Plan assets are commingled and invested with the assets of the Savings and Investment Plan of Armstrong World Industries, Inc. and the Bonus Replacement Retirement Plan of Armstrong World Industries, Inc. Separate accounting for each plan under the Master Trust Agreement is maintained. The Plan has an undivided interest in the assets of this trust, and ownership is represented by proportionate dollar interest. The following summarizes the financial information of the Master Trust at September 30, 2007 and 2006:

Matters Concerning Armstrong Holdings, Inc.

Armstrong Holdings, Inc. (AHI) was a Pennsylvania corporation and was the publicly held parent holding company of AWI. AHI's only operation was its indirect ownership, through Armstrong Worldwide, Inc., of all of the capital stock of AWI. Upon AWI's POR becoming effective on October 2, 2006, all then-current shares of AWI were cancelled, and AHI was not entitled to any distribution under the POR in respect of its former equity interest in AWI.

AWI's Chapter 11 Plan contemplated that AHI would dissolve following AWI's emergence from Chapter 11 reorganization. The Armstrong Holdings Board of Directors evaluated what future action was in the best interests of AHI, including the matter of dissolution and an evaluation of its assets, obligations and tax position. The Board, at a meeting on May 8, 2007, determined that it is in the best interests of shareholders to dissolve, and approved a plan of dissolution. The proposed plan of dissolution was submitted to shareholders and was approved at a special shareholder meeting on July 18, 2007. On November 16, 2007, AHI announced its timetable for dissolution including distribution of net assets to shareholders. See Note 12 for further information on the dissolution and distribution.

Common Shares

AWI's new common shares began trading on the New York Stock Exchange on October 10, 2006 under the ticker symbol AWI. Through December 5, 2007, AHI's common shares continued to trade in the over-the-counter (OTC) Bulletin Board under the ticker symbol ACKHQ. Shares held in the Plan traded under the ticker symbol ACKHQ.

(12) Subsequent Event

On November 16, 2007, AHI, the former parent company of AWI, announced its timetable for dissolution including distribution of net assets to shareholders. December 5, 2007 was the record date for shareholders entitled to receive a final distribution of the AHI's net assets. On December 12, 2007, the distribution agent, American Stock Transfer & Trust Company, distributed the assets to shareholders. Following this distribution, AHI filed Articles of Dissolution with the Commonwealth of Pennsylvania and ceased to exist. The Company's net assets for distribution totaled approximately \$28 million, which was divided pro-rata per share among the holders of the 40,551,975 outstanding shares of AHI common stock. This amounted to a distribution of approximately \$0.69 per share. Of the 40,551,975 outstanding shares, 318,287 shares were part of the Plan as of September 30, 2007. Shareholders who held AHI stock in their Plan accounts received the distribution in their accounts and their AHI holdings were cancelled after the distribution.
