QUESTIONS AND ANSWERS

Q. Who can vote at the Annual Meeting?

- A. Shareholders who owned Common Stock as of the close of business on March 11, 2008, may attend and vote at the Annual Meeting. Each share is entitled to one vote. There were 62,093,149 shares of Common Stock outstanding on March 11, 2008.

Q. Why am I receiving this proxy statement?

- A. This proxy statement describes proposals on which we would like you, as a shareholder, to vote. It also gives you information on these proposals, as well as other information, so that you can make an informed decision.

Q. What is the proxy card?

- A. The proxy card enables you to vote whether or not you attend the meeting. Even if you plan to attend the meeting, we encourage you to complete and return your proxy card before the meeting date in case your plans change. By completing and returning the proxy card, you are authorizing Charles A. Ledsinger, Jr. and Ervin R. Shames to vote your shares of Common Stock at the meeting, as you have instructed them on the proxy card.

If a proposal is properly presented for a vote at the meeting that is not on the proxy card, Messrs. Ledsinger and Shames will vote your shares, under your proxy, according to their best judgment.

Q. On what issues am I voting?

- A. We are asking you to vote on:

- Proposal 1 the election of three Class II directors
- Proposal 2 the ratification of the appointment of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2008.

Q. How do I vote?

Table of Contents

You may vote in person at the meeting: We will pass out written ballots to anyone who wants to vote at the meeting. However, if you hold your shares in street name, you must request a proxy from your stockbroker in order to vote at the meeting. Holding shares in street name means you hold them in an account at a brokerage firm.

Q. What does it mean if I receive more than one proxy card?

A. It means that you have multiple accounts at the transfer agent or with brokerage firms. Please complete and return all proxy cards to ensure that all your shares are voted.

Q. What if I change my mind after I vote?

A. You may revoke your proxy and change your vote at any time before the polls close at the meeting. You may do this by any of the following means:

- signing another proxy with a later date,
- sending us a written notice of revocation at the following address: Corporate Secretary, Choice Hotels International, Inc., 10750 Columbia Pike, Silver Spring, Maryland 20901, or
- voting at the meeting.

Q. Will my shares be voted if I do not return my proxy card?

A. If your shares are held in street name, your brokerage firm, under certain circumstances, may vote your shares. Brokerage firms have authority under New York Stock Exchange (NYSE) rules to vote customers' unvoted shares on certain routine matters. A brokerage firm cannot vote customers' unvoted shares on non-routine matters. Proposals One and Two are both considered routine matters under the NYSE rules.

If you do not give a proxy to vote your shares, your brokerage firm may either:

- vote your shares on Proposals One and Two and other routine matters that are properly presented at the meeting, or
- leave your shares unvoted.

When a brokerage firm votes its customers' unvoted shares on routine matters, these shares are counted to determine if a quorum exists to conduct business at the meeting. When a brokerage firm does not vote a customers' unvoted shares, these shares are counted to determine if a quorum exists, however, they are not treated as voting on a matter.

We encourage you to provide instructions to your brokerage firm by giving your proxy. This ensures your shares will be voted at the meeting.

Edgar Filing: CHOICE HOTELS INTERNATIONAL INC /DE - Form DEF 14A

If you are a participant in the Choice Hotels Retirement Savings and Investment Plan or the Non-Qualified Retirement Savings and Investment Plan, the plan's purchasing agent may vote the shares you hold under the plan if the purchasing agent does not receive voting instructions from you. The purchasing agent will vote your unvoted shares in the same proportion as all other plan participants vote their shares.

Q. How many shares must be present to hold the meeting?

- A. To hold the meeting and conduct business, a majority of the Company's outstanding shares as of March 11, 2008, must be present in person or represented by proxy at the meeting. This is called a quorum.

PROPOSAL 1 ELECTION OF CLASS II DIRECTORS

Nomination

The Company's Certificate of Incorporation provides that the number of directors must be at least three (3) but not more than twelve (12), and must be divided into three classes as nearly equal in number as possible. The exact number of directors is determined from time to time by the Board of Directors, and currently consists of nine members. The term of each class is three years, and the term of one class expires each year in rotation.

Three Class II directors are to be elected at the 2008 Annual Meeting, to hold office until the 2011 Annual Meeting of Shareholders, or until their successors are elected and qualified. The remaining directors will continue to serve the terms consistent with their class, as noted below.

The Board has nominated Stewart Bainum, Jr., Ervin R. Shames and Gordon A. Smith to serve as Class II directors for terms of three years, expiring at the 2011 Annual Meeting of Shareholders, or until their successors are elected and qualified. Each of the nominees is currently a member of our Board of Directors.

Family Relationships

The Chairman of the Board of Directors, Stewart Bainum, Jr., is the uncle of one of our Directors, Scott A. Renschler. Other than the family relationship between Messrs. Bainum and Renschler, there are no other familial relationships among our Directors or executive officers.

Vote Required

The accompanying proxy will be voted in favor of each nominee unless the shareholder indicates to the contrary on the proxy. Nominees for director are elected by a plurality of the votes cast in person or by proxy at the meeting. Management expects that each of the nominees will be available for election, but if any nominee is unable to serve at the time the election occurs, the proxy will be voted for the election of another nominee to be designated by the Board of Directors.

Board Recommendation

CORPORATE GOVERNANCE

Board of Directors

The Board is responsible for overseeing the overall performance of the Company. Members of the Board are kept informed of the Company's business through discussions with the Chairman, the Chief Executive Officer and other members of the Company's management, by reviewing materials provided to them and by participating in Board and committee meetings.

In 2007, the Board held six meetings and each director attended at least 75% of all meetings of the Board and the standing committees of the Board on which he or she served. The Company requires that all Board members attend the annual meeting. In 2007, all of the then current Board members attended the annual meeting. The non-management members of the Board are required to meet twice a year in executive session without management. Mr. Shames, the lead independent director, chairs these meetings. Four such meetings were held in 2007.

The Board has adopted Corporate Governance Guidelines, a Corporate Ethics Policy, and charters for each of its standing committees, including the Audit Committee, Compensation Committee, Nominating and Corporate Governance Committee and Diversity Committee, each of which is discussed further below. Each of these documents is included in the investor relations section of the Company's website at www.choicehotels.com, and printed copies are available upon request to the Company's Investor Relations department at Choice Hotels International, Inc., 10750 Columbia Pike, Silver Spring, Maryland 20901.

Director Independence

The Board currently has nine directors, a majority (six) of whom the Board has determined to be independent under the listing standards of the NYSE. The independent directors are Fiona Dias, William L. Jews, John T. Schwieters, Ervin R. Shames, Gordon A. Smith and David C. Sullivan.

In determining director independence, the Board applies the analysis as set forth in the listing standards of the NYSE, and additional independence standards adopted by our Board as follows:

- No director can be independent until five years following the termination or expiration of a director's employment with the Company, rather than three years as currently required under the NYSE rules;

Table of Contents

- No director can be independent who is, or in the past five years has been, affiliated with or employed by a present or former outside auditor of the Company until five years after the end of either the affiliation or the auditing relationship, rather than three years as currently required under the NYSE rules; and
- No director can be independent if he or she in the past five years has been part of an interlocking directorate, rather than three years as currently required under the NYSE rules.

In assessing independence, the Board took into account the fact that Mr. Smith was an officer of American Express Travel Related Services, Inc. during part of 2007, and that in each of the last three years, the Company has paid American Express for goods and services. Such payments in each year represented significantly less than 2% of American Express's revenues.

Corporate Governance Guidelines

The Corporate Governance Guidelines, adopted by the Board of Directors, are a set of principles that provide a framework for the Company's corporate governance. The main tenets of the Guidelines are:

- Create value for shareholders by promoting their interests
- Focus on the future, formulate and evaluate corporate strategies
- Duty of loyalty to the Company by Directors
- Annual CEO evaluation by independent directors
- Annual approval of three-year strategic plan and one-year operating plan or as the Board deems necessary in the event there are no material changes to the strategic and operating plans then in effect
- Annual assessment of Board and Committee effectiveness by Nominating & Corporate Governance Committee
- No interlocking directorships except with respect to joint ventures
- Directors are required to reach and maintain ownership of \$175,000 of Company stock
- Annual report of succession planning and management development by CEO

Corporate Ethics Policy

The Board of Directors has established a Corporate Ethics Policy to aid each director, officer and employee of the Company (including the chief executive officer, chief financial officer and corporate controller) and its subsidiaries in making ethical and legal decisions in his or her daily work. The Company intends to post amendments to or waivers from the Corporate Ethics Policy (to the extent applicable to the chief executive officer, chief financial officer and corporate controller) on the Company's website.

Committees of the Board

Edgar Filing: CHOICE HOTELS INTERNATIONAL INC /DE - Form DEF 14A

The standing committees of the Board of Directors include the Audit Committee, the Compensation Committee, the Nominating and Corporate Governance Committee and the Diversity Committee. The charter for each of these committees is included in the investor relations section of the Company's website at www.choicehotels.com. All of the current members of each standing committee are independent, as required by the committee charters and the current listing standards of the NYSE and the rules of the SEC, as applicable.

Table of Contents

The following provides a description of functions, current membership and meeting information for each of the Board committees for 2007.

Compensation/Key Executive Stock Option Plan Committee

Under the terms of its charter, the Compensation/Key Executive Stock Option Plan Committee discharges the Board's responsibilities relating to compensation of the Company's executives through the following functions:

- administering the Company's equity compensation plans and granting stock options and restricted stock thereunder;
- reviewing the compensation of officers and key management employees;
- setting the compensation for the non-management members of the Board of Directors;
- recommending development programs for employees such as training, bonus and incentive plans, pensions and retirement;

- producing the annual committee report for the Company's proxy statement.

At the direction of the Chairman of the Compensation Committee, during 2007, Mr. Ledsinger, our Vice Chairman and Chief Executive Officer, and Mr. Mirgon, our Senior Vice President, Human Resources and Administration, prepared and distributed to Committee members meeting agenda, consultant-provided survey information and company data in preparation for Committee meetings. In addition, in conjunction with the Committee Chairman, these officers prepared and presented specific compensation proposals to the Committee, including Mr. Ledsinger's assessment of individual executive officer performance and recommended compensation amounts. See the Compensation Discussion and Analysis below for more information on Mr. Ledsinger's role in recommending the compensation paid to our Named Executive Officers in 2007. None of our executive officers determined or recommended the amount or form of non-employee director compensation.

In accordance with its charter, the Committee has the authority to retain, terminate and approve professional arrangements for outside compensation consultants to assist the Committee. Beginning in 2005, and during 2007, the Compensation Committee retained Semler Brossy Consulting Group LLC (Semler Brossy). During 2007, at the request of the Committee, Semler Brossy primarily provided the Committee with the following information:

Edgar Filing: CHOICE HOTELS INTERNATIONAL INC /DE - Form DEF 14A

- competitive market data with respect to the modifications to our severance and termination arrangements for certain of our executive officers, including Mr. Mirgon and Mr. Haase, two of our Named Executive Officers; and
- market data to support outside succession planning searches and negotiations in accordance with the Committee's succession planning activities during 2007.

Mr. Ledsinger and Mr. Mirgon, at the direction of the Committee, worked with Semler Brossy to provide this information to the Committee. While Semler Brossy provided general competitive market data to the Committee, Semler Brossy did not determine or recommend any particular executive officer's form or amount of compensation during 2007, and did not determine or recommend the form or amount of director compensation

during 2007. To avoid conflicts of interest or the appearance of conflicts of interest, Semler Brossy performed no work for the Company that was not requested or approved by the Compensation Committee.

In 2007, the Committee consisted of Ervin R. Shames, Chair, Gordon A. Smith and David C. Sullivan. The Committee met three times during 2007.

While the charter authorizes the Committee to delegate its responsibilities to subcommittees, to date, the Committee has not delegated any of its responsibilities in this manner.

Audit Committee

Under the terms of its charter, the Audit Committee assists the Board in fulfilling its oversight responsibilities with respect to the Company's auditing, accounting and financial reporting processes generally. The Committee discharges these duties through the following functions:

- Conferring separately with the Company's independent accounting firm and internal auditors regarding scope of management examinations;
- Reviewing reports of independent accountants and internal auditors, press releases and annual and quarterly reports for filing with the SEC;
- Reviewing reports of the Company's independent accountants concerning internal controls;
- Establishing and monitoring a complaints procedure regarding accounting and auditing matters;
- Pre-approving all audit and non-audit services provided by the Company's independent accounting firm;
- Self-evaluating annually;
- Determining the selection, compensation and appointment of independent accountants and overseeing their work; and
- Reviewing the Company's policies with respect to risk management.

In 2007, the Committee consisted of John T. Schwieters, Chair, Ervin R. Shames and David C. Sullivan. The Committee met five times during 2007. The Board has determined that Mr. Schwieters is qualified as an audit committee financial expert within the meaning of SEC regulations, and has accounting and related financial management expertise within the meaning of the listing standards of the NYSE. Mr. Schwieters currently serves on the audit committees of three other public companies. The Board of Directors has determined that such service does not impair the ability of Mr. Schwieters to continue to serve on our Audit Committee.

Diversity Committee

Under the terms of its charter, the Diversity Committee seeks to continue to develop a diverse culture and to further efforts to develop a workforce, franchise and vendor base that is reflective of the community in which the Company does business. The Committee seeks to achieve these goals through the following functions:

- Developing policies to ensure equality of opportunities within the Company;
- Reviewing and overseeing with management the Company's diversity initiative and programs; and
- Reviewing the Company's efforts to increase relationships and links with female and minority-owned suppliers and service providers.

In 2007, the Committee consisted of Fiona Dias, Chair, Gordon A. Smith and William L. Jews. The Committee met two times during 2007.

Consideration of Director Candidates

The Nominating and Corporate Governance Committee administers the process for nominating candidates to serve on the Company's Board of Directors. The Committee recommends candidates for consideration by the Board as a whole, which is responsible for appointing candidates to fill any vacancy that may be created between meetings of the shareholders and for nominating candidates to be considered for election by shareholders at the Company's Annual Meeting.

The Board has established selection criteria to be applied by the Nominating and Corporate Governance Committee and by the full Board in evaluating candidates for election to the Board. These criteria include: (i) independence, (ii) integrity, (iii) experience and sound judgment in areas relevant to the Company's business, (iv) a proven record of accomplishment, (v) willingness to speak one's mind, (vi) the ability to commit sufficient time to Board responsibilities, (vii) the ability to challenge and stimulate management, and (viii) belief in and passion for the Company's mission and vision. The Committee also periodically reviews with the Board the appropriate skills and characteristics required of Board members in the context of the current membership of the

Board. This assessment includes considerations such as diversity, age and functional skills in relation to the perceived needs of the Board from time to time.

The Nominating and Corporate Governance Committee uses a variety of methods for identifying potential nominees for election to the Board, including consideration of candidates recommended by directors, officers or shareholders of the Company. The Committee also uses one or more professional search firms or other advisors to assist the Committee in identifying candidates for election to the Board.

The Nominating and Corporate Governance Committee will consider director candidates recommended by shareholders and evaluate them using the same criteria as for candidates identified through other means, as set forth above. Shareholders seeking to recommend a prospective candidate for the Committee's consideration should submit the candidate's name and qualifications including the candidate's consent to serve as a director of the Company if nominated by the Committee and so elected by mail to: Corporate Secretary, Choice Hotels International, Inc., 10750 Columbia Pike, Silver Spring, Maryland 20901.

EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

Overview of Executive Compensation Program

Choice's compensation program reflects a belief that superior executive talent is attracted to a company that recognizes and rewards superior performance, and with superior talent the company can continue to deliver consistent results for shareholders that are superior to those generally found among Choice's peers. In selecting and rewarding executives, the company intends to continue its practice of providing direct accountability for individual and organizational results for each executive, and ensuring the rewards are commensurate with the contributions and results delivered for shareholders.

For purposes of this Compensation Disclosure and Analysis section and the compensation tables and narratives that follow, the Named Executive Officers are: Charles A. Ledsinger, Jr., Vice Chairman and Chief Executive Officer; David L. White, Senior Vice President, Chief Financial Officer; Thomas L. Mirgon, Senior Vice President, Human Resources and Administration; Bruce Haase, Senior Vice President, Brand Operations and International; David A. Pepper, Senior Vice President, Franchise Development & Emerging Brands; Joseph M. Squeri, former President and Chief Operating Officer; and Wayne W. Wielgus, former Executive Vice President, Chief Marketing Officer. As previously announced, Mr. Squeri and Mr. Wielgus terminated their employment with Choice on March 31, 2007 and July 5, 2007, respectively. In addition, Mr. White was promoted to Senior Vice President, in addition to his role as Chief Financial Officer, on December 11, 2007.

Compensation Objectives

Choice's executive compensation philosophy has been developed to enable Choice to hire and retain qualified, motivated executives while meeting its business needs and objectives. Consistent with this philosophy, the compensation program has been designed to achieve the following objectives:

- provide an attractive mix of salary, annual and long-term incentive compensation at competitive compensation levels to enable the recruitment and retention of highly qualified executives, while not disadvantaging the company with high costs;
- link pay to corporate and individual performance to encourage and reward excellence and contributions that further Choice's success;
- align the interests of executives with those of our shareholders through grants of equity-based compensation that also provide opportunities for ongoing executive ownership; and
- foster long-term focus required for success in the hospitality industry through equity incentives that vest over time.

Comparative Market Information

The Compensation Committee annually reviews comparative market data as part of its process of determining base salary increases, annual incentive opportunities and the annual long-term incentive value awarded to each of the Named Executive Officers (other than Messrs. Squeri and Wielgus who terminated in early 2007). For 2007 compensation decisions, the basis for the Committee's comparative review was survey information provided by Semler Brossy as part of a comprehensive market review undertaken by the Committee in 2005. As requested by the Committee, the 2005 survey information was generally supplemented by Mr. Mirgon and other members of our human resources department, primarily to provide a summary of base salary merit increase planning for 2007. No separate comparative market study was performed during 2007. The survey information reviewed by our human resources department for the benefit of the Committee during 2007 was the following:

- Watson Wyatt Top Management Compensation Survey;

Table of Contents

- Mercer Executive Benchmarking Database; and
- Tower Perrin General Industry Executive Compensation Database.

Choice believes that these general industry executive compensation surveys are widely reviewed and used by other public companies and that they provided a good representation of market trends and comparative information to supplement the more comprehensive executive compensation review conducted in 2005. Neither Choice nor the Committee considered the identities or characteristics of the component companies underlying the comparative market survey data in selecting or reviewing the survey information.

We do not specifically target, or benchmark, the amount of each element of compensation paid to the Named Executive Officers (or our executives generally) to any particular percentile or level within the comparative market survey information. In 2007, as it has in recent years, the Committee generally referenced the market median of the survey information, on a size-adjusted basis, as one of the factors in its discussion and ultimate determination of the base salary, annual and long-term incentive compensation opportunity and the total compensation paid to each Named Executive Officer (other than Messrs. Squeri and Wielgus). Consistent with our compensation objectives, the Committee looks to the median of the survey information as we believe Choice must pay competitively with respect to each compensation element and in total compensation in order to keep our executive talent.

As discussed above, the Committee's review of the median of the survey information was only one factor considered by the Committee in determining the actual compensation paid to each Named Executive Officer during 2007. The Committee also considered other, more subjective, factors, including Choice's overall financial performance during the year (to keep compensation affordable to Choice, consistent with our objectives), an assessment of each officer's performance during the year (which included, for each officer other than himself, Mr. Ledsinger's assessment of the officer's performance), any new or different responsibilities requested of the officer by Choice during the year, and each officer's unique or special experience and skill set. We discuss how each of these factors affected each Named Executive Officer's 2007 compensation, as applicable, below.

Elements of Named Executive Officer Compensation

During 2007, our executive compensation program consisted of four elements: base salary; annual incentive cash compensation; long-term equity incentives; and perquisites and other personal benefits. Consistent with prior years and as discussed above, there was no pre-established policy or target for the allocation between cash and non-cash or short-term and long-term incentive compensation. In addition, the Committee reviewed each element of compensation individually and its decisions regarding one element generally did not affect its decisions regarding other elements.

In 2007, as has been the case in recent years, the largest component of total compensation for our Named Executive Officers, as well as our executive officers generally, was in the form of long-term equity incentive compensation.

Base Salary

We believe the primary purpose of base salaries is to provide a level of competitive, fixed compensation in order to aid in attracting and keeping our executives. Based on its review of the comparative market information and the summary of base salary merit increase planning, as discussed above, the Compensation Committee noted that base salaries for executive officers were projected to increase an average of 3.9% from 2006 to 2007. Based on his review of this same information, and subject to the other factors considered by Mr. Ledsinger and the Compensation Committee discussed below, Mr. Ledsinger recommended to the Committee that each of the applicable Named Executive Officers (other than himself) generally receive the average base salary merit increase in line with the average merit increase for the top executives contained within the market data.

Table of Contents

The actual merit increases in base salary for each of the applicable Named Executive Officers in 2007 are set forth below:

Officer	Merit Increase (%)	2007 Base Compensation
Ledsinger.	5.3	795,000
White ⁽¹⁾	4.0	250,000
Mirgon	2.8	325,000
Haase ⁽²⁾	5.5	300,000
Pepper	3.8	275,000

- (1) In January 2007, Mr. White received an additional increase in base salary of approximately 7% based upon the Committee's belief that Mr. White's base salary was below the market median for his position and role at Choice. Upon his promotion to Senior Vice President in December 2007, the Committee approved a base salary increase for Mr. White equal to approximately 10%, to \$275,000, effective January 1, 2008. The amount in the table above reflects solely his merit increase for 2007.
- (2) The Committee initially approved an increase in Mr. Haase's base salary in February 2007, from \$256,000 to \$270,000, and a subsequent increase of \$30,000 in May 2007, to \$300,000. The amount in the table above reflects solely his merit increase for 2007.

The Committee approved a higher merit increase for Mr. Ledsinger in 2007 because of his overall performance and because his base salary remained slightly below the market median. Mr. Mirgon received a slightly lower merit increase for 2007 as the Committee considered the fact that Mr. Mirgon's base salary for 2006 already approximated the market median.

Mr. Haase also received a slightly higher merit increase for 2007 because his base salary remained below the market median given his rapid increase in responsibilities at Choice over the prior year. In addition, in early 2007, Mr. Haase took over responsibility for both our international and domestic brand operations for two of our brands as compared to solely the international division efforts prior to such time. In May 2007, the Committee approved a further base salary increase for Mr. Haase (as described above) upon his assumption of additional domestic operations responsibility for five additional brands.

Annual Incentive Cash Compensation

During 2007, the Choice Officer Cash Incentive Plan provided each of the Named Executive Officers with the opportunity to earn an annual cash bonus primarily based upon achievement of a company-wide diluted earnings per share (EPS) goal established by the Committee at the start of each year. Despite their terminations from Choice in March 2007 and July 2007, respectively, each of Mr. Squeri and Mr. Wielgus also participated in our 2007 annual incentive plan based on the terms of their respective employment agreements (see Severance and Change in Control Arrangements below).

Consistent with recent history, the Committee chose EPS as the objective measurement for our 2007 bonus plan in order to provide a direct link between company performance and the increase in earnings attributable to each share of Choice common stock. EPS also provides an easily understood, clearly reported number that provides for clear performance comparison with internal as well as external performance metrics. The EPS target for 2007 was \$1.61, which was increased from the target goal of \$1.37 per share in 2006 and was recommended to the Committee by Mr. Ledsinger based on our target growth as set forth in the 2007 business plan.

Under the annual plan, each participating Named Executive Officer has a target bonus opportunity which is set as a percentage of each officer's base salary. Based on his review of the survey information discussed above, Mr. Ledsinger recommended the target bonus opportunity for each officer, other than Messrs. Squeri and

Table of Contents

Wielgus and himself. The target bonus levels for each of the participating Named Executive Officers during 2007 are presented below:

Officer	2007 Target Bonus
Ledsinger.	100% of Salary
White	40% of Salary
Mirgon	50% of Salary
Haase	50% of Salary
Pepper	50% of Salary
Squeri	65% of Salary
Wielgus	55% of Salary

In connection with Mr. White's promotion to Senior Vice President in December 2007, his target bonus for 2008 will be 50%, similar to our other Senior Vice Presidents.

Upon the recommendation of Mr. Ledsinger and due to the Committee's belief that the annual plan structure has been successful in incentivizing and rewarding the Named Executive Officers from year-to-year, the Committee approved the same annual incentive plan structure for 2007 as was in place in 2006 and prior years. The annual plan is structured to pay the target bonus level for each Named Executive Officer upon achievement of the EPS goal, and to pay a varying percentage of the target for EPS performance above or below the annual goal as follows:

- no payment unless Choice achieves the minimum performance level, or 90% of the EPS goal (\$1.449 per share);
- payment equal to 50% of the target award for achievement of this minimum performance level;
- payment equal to 100% of the target award for achievement of the target performance level (\$1.61 per share);
- payment equal to 200% of the target award for achievement of the maximum performance level, or 120% of the EPS goal (\$1.9320 per share); and
- payment is interpolated between these values accordingly depending on actual EPS results.

The level of achievement of the EPS target, combined with each officer's target bonus, is the primary driver of each officer's annual bonus for the year. However, for each participating Named Executive Officer, other than Messrs. Ledsinger, Squeri and Wielgus, the bonus payout as determined by the formula under the annual plan may be further adjusted based on Mr. Ledsinger's assessment of each officer's degree of achievement of certain pre-determined individual performance objectives for the year. These performance objectives, where applicable, are based in part upon a qualitative evaluation of performance, but could also include franchisee/customer satisfaction and RevPAR (Revenue Per Available Room) improvement, in addition to other relevant measures, and incorporate each executive officer's accountability for the successful execution of key initiatives tied to achievement of Choice's strategic plan. Individual performance may result in an adjustment of the bonus payout of up to 50% (increase or decrease); however, for 2007, no Named Executive Officer's individual performance resulted in an increase or decrease of more than 10% of his annual cash bonus amount.

Mr. Ledsinger's annual bonus was based solely upon the level of attainment of the EPS goal because the Committee believes, as Chief Executive Officer of Choice, his annual bonus, if any, should be directly tied to the EPS we deliver to our shareholders, for which Mr. Ledsinger has the primary responsibility. Messrs. Squeri and Wielgus' annual bonus was also based solely upon the level of attainment of the EPS target.

Choice's actual EPS in 2007 was \$1.70 per share. Pursuant to the plan, EPS may be adjusted at the discretion of the Committee for certain non-recurring items. For 2007, the Committee exercised its discretion to

Table of Contents

adjust EPS for severance charges relating to the departure of certain senior executives, including Messrs. Squeri and Wielgus, due to the fact that these charges were not part of our 2007 operating plan. These charges represented approximately \$2.5 million (net of tax), or \$0.04 diluted EPS. As a result, the adjusted EPS for purposes of the annual incentive plan in 2007 was \$1.74, or approximately 8.0% above the established target award level of \$1.61 per share.

The actual payouts to the participating Named Executive Officers under the 2007 annual incentive plan are reflected in the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table below.

Long-Term Equity Incentives

2007 Equity Awards

As described under our compensation objectives above, we believe annual awards of longer-term equity is imperative in order to foster the long-term focus required for success in the hospitality industry. Similar to 2006 and prior years, and based upon the recommendation of Mr. Ledsinger, the aggregate annual equity award paid to each of Messrs. Mirgon, Haase and Pepper in 2007 (the participating Senior Vice Presidents at the time of the award) was based on a combination of stock options and performance-vested restricted stock units (PVRsUs), with stock options targeted at approximately 75% of the long-term incentive opportunity and PVRsUs targeted as the remaining approximately 25% of the award. Mr. Ledsinger's aggregate annual equity grant was also awarded in this manner. In 2006, we replaced restricted stock grants with PVRsUs for Mr. Ledsinger and our Senior Vice Presidents to improve the alignment between compensation and the cumulative contribution of these executives to increasing our performance as they are the executives most responsible for this performance. In addition, the addition of the performance feature permits Choice to deduct these awards whereas service-based restricted stock is otherwise not deductible under Section 162(m). The combination of stock options and PVRsUs is intended to maintain the primary focus of the long-term incentive on driving increases in shareholder value through stock options, while directly linking a portion of the incentive to consistent earnings growth through the PVRsU awards. In addition, the combination of stock options and PVRsUs serves as a significant retention tool.

Other senior executives of Choice, including Mr. White, receive 100% of their annual equity award in the form of service-based restricted stock. Due to his promotion to Senior Vice President in December 2007, Mr. White's 2008 equity award consisted of approximately 75% in stock options and 25% in PVRsUs. Messrs. Squeri and Wielgus did not receive any equity awards during 2007 due to their terminations from Choice.

Like the PVRsU awards granted to the applicable Named Executive Officers for the 2006-2008 performance period, the number of PVRsUs that actually vest under the 2007-2009 performance period award will range from 0% to 200% of the initial grant based on our three-year cumulative EPS performance as compared to the target EPS goal for the period. Similar to the adjustments to EPS under our annual incentive plan, as discussed above, the Compensation Committee has the discretion to adjust EPS at the end of the performance period for non-recurring charges, which we anticipate will be same the adjustments, if any, as determined appropriate under the annual bonus plan for each year within the performance period. In addition, similar to the annual incentive plan, 50% of the PVRsU award will vest if threshold (90% of target) EPS growth is obtained, and 200% of the award will vest if maximum (120% of target) EPS growth is achieved. We believe it is appropriate to structure the plans similarly because both plans are designed to achieve a similar purpose - performance growth - over their respective shorter-term and longer-term periods.

Because disclosure of the cumulative EPS targets for the ongoing performance periods could easily be used in a competitively harmful way by our franchisees and potential franchisees, we are not disclosing our actual PVRsU EPS targets until the end of the respective performance periods. However, in determining the cumulative EPS target for the 2007-2009 performance period, the Compensation Committee considered and approved

Table of Contents

Mr. Ledsinger's recommendation based on our projected target growth under our strategic plan over the next three years.

In order to determine the actual equity award value for each participating Named Executive Officer in 2007, consistent with prior years, each officer generally receives an equity value based upon a multiplier of the officer's base salary for the prior year. Each officer's multiplier was established as part of the comprehensive competitive market review in 2005 and has not changed since 2006, except for Mr. White, whose multiplier was increased in connection with his assumption of the role of Chief Financial Officer in September 2006. Mr. Ledsinger, with the assistance of Mr. Mirgon, then provided a range of potential values to the Committee for each officer's potential stock option and PVRSU award, with low, target and high values set forth for each officer. The ranges were determined based on the low and high ranges contained within the survey information discussed above.

Mr. Ledsinger recommended that Mr. Mirgon receive the target equity value for his 2007 equity awards as he was in compliance with our share ownership holding guidelines (described below) and, based on the comparative market survey information, Mr. Mirgon's equity holdings already approximated the median of the survey data. Mr. Ledsinger recommended that each of Messrs. White, Haase and Pepper receive a 2007 equity award value at the higher end of the range for each type of award. As discussed under Annual Incentive Cash Compensation above, for Messrs. White and Haase, such award values were recommended by Mr. Ledsinger, and approved by the Committee, based on each officer's increased responsibilities during 2006. Mr. Pepper received a slightly above target equity award for similar reasons, as in early 2007 he assumed additional responsibilities related to our franchise sales and development efforts.

As discussed in the preamble to the Grants of Plan-Based Awards Table below, the number of shares subject to the stock option portion of the equity award granted to each officer is based on the Black Scholes option-pricing model. The expected term assumption used in the option-pricing model for purposes of determining grant size differs from the term assumption used for determining accounting expense pursuant to FAS 123(R) in that the full contractual term of the option was used when determining grant size to represent the full potential value of the award conveyed by Choice to the officers. See the preamble to the Grants of Plan-Based Awards Table for more information on how we determine the actual number of shares subject to each type of equity award.

The following table sets forth the equity award value targets for each applicable Named Executive Officer in 2007:

Officer	2006 Base Salary (\$)⁽¹⁾	Median LTI Guideline % of Salary (%)	Aggregate Annual Equity Award Value (\$)
Ledsinger	755,000	200%	1,510,000
White	225,000	45%	101,250
Mirgon	316,000	100%	316,000
Haase	256,000	100%	256,000
Pepper	265,000	100%	265,000

(1) 2007 annual equity awards were made prior to each officer's base salary increase for 2007.

In addition to these annual equity awards, upon his promotion to Senior Vice President in December 2007, Mr. White received an additional stock option grant exercisable for 20,000 shares. In addition, Messrs. Haase and Pepper received an additional award of 25,000 options and 7,500 shares of restricted stock, respectively, in May 2007 in connection with the Committee's recognition of their increased responsibilities and the need to bring these officers more in line with comparable positions set forth in the survey information.

For the actual equity awards made to each applicable Named Executive Officer in 2007, see the Grants of Plan-Based Awards Table below.

Table of Contents

Equity Grant Practices

Equity awards to the Named Executive Officers are granted annually at the February Compensation Committee meeting (except for Mr. Ledsinger, whose awards are granted at the February Board meeting which is typically immediately after the February Compensation Committee meeting). Board and Committee meetings are generally scheduled at least a year in advance. The exercise price of each stock option awarded to the executives, in 2007 and historically, was the average of the high and low price on the date of grant. Beginning in 2008, we have determined to set the exercise price of stock options at the closing market price on the date of grant as we believe this represents market practice with respect to the stock option grant process. Choice prohibits the repricing of stock options.

Share Ownership Guidelines

Consistent with our compensation objectives, we believe that our executive officers individually, and as a group, should have a significant ownership stake in Choice. Thus, in November 2003, the Board of Directors established executive share ownership guidelines. The guidelines require that Mr. Ledsinger own Choice common stock valued at five times base salary. Each of the other Named Executive Officers (other than Messrs. Squeri and Wielgus) are required to hold common stock worth three times base salary. We believe these guidelines are competitive with the market for comparable positions based on the comprehensive review performed by Semler Brossy in 2005. While Mr. White was not subject to the share ownership guidelines during 2007, upon his promotion to Senior Vice President in December 2007, he is now subject to the guidelines and will be required to acquire and maintain the required ownership target for his position (three times base salary).

The ownership targets must be met within five years of being subject to the guidelines. Common stock counting towards satisfaction of the requirement includes:

- shares owned outright by the executive or his or her immediate family members residing in the same household;
- stock held in the 401(k) plan or the nonqualified deferred compensation plan;
- stock held in Choice employee stock purchase plan;
- restricted stock, whether or not vested, and stock acquired upon the reinvestment of dividends on such shares;
- shares acquired upon stock option exercises;
- shares held in trust; and
- PVRsUs, once vested.

In addition, the applicable Named Executive Officers are not permitted to sell any of the vested shares granted to them under restricted stock awards or PVRsUs until they have met their target share ownership. To date, each of the applicable Named Executive Officers are in compliance with the guidelines, except that, as of December 31, 2007, Mr. Haase is not in compliance with his ownership requirement as a result of the significant increase in his base salary since 2006 (\$256,000 to \$300,000) and the corresponding decrease in the price of our stock during such time (approximately \$42 to approximately \$33). We anticipate Mr. Haase will be back into compliance with his ownership guideline during 2008. Each of Mr. White, promoted to Senior Vice President in December 2007, and Mr. Pepper, promoted to Senior Vice President in January 2005, are still within the five-year window pursuant to which they are required to satisfy their new ownership requirement of three times base salary.

Rule 10b-5 Trading Plan

Edgar Filing: CHOICE HOTELS INTERNATIONAL INC /DE - Form DEF 14A

Mr. Ledsinger informed Choice that he recently entered into a written stock trading plan in accordance with Rule 10b5-1 under the Securities Exchange Act of 1934 to sell shares of Choice common stock, including shares

Table of Contents

issuable upon the exercise of stock options. The plan provides for sales of specified numbers of shares within specified price ranges, subject to certain limitations. The plan was established during one of our scheduled trading windows during which employees and directors may trade in Choice stock. We do not undertake to report written trading plans established by our employees, officers or directors, or any modifications, terminations, transactions or other activities thereunder. Mr. Ledsinger has confirmed to Choice, however, that, as required by securities laws, he will promptly publicly disclose any option exercises and/or stock sales made under the plan. Mr. Ledsinger has informed Choice that the plan will expire on the first to occur of (i) the date that the aggregate number of shares of stock eligible for sale under the plan are sold, and (ii) January 30, 2009.

Perquisites and Other Personal Benefits

Flexible Perquisites Program. Executive officers, including each of the Named Executive Officers, are eligible to receive certain benefits not available to other full-time employees. In particular, in 2000, Choice instituted a Flexible Perquisites Program. We implemented this program in connection with our efforts to recruit certain key executives at such time. The program design and covered expenses were based on our review of competitive market information at such time and how other companies structured their flexible perquisites program.

Pursuant to the Flexible Perquisites Program, each Named Executive Officer is entitled to receive an aggregate amount of reimbursement that may be used by the officers on a range of personal benefits, as follows: financial and estate planning and legal services, club membership dues, health care expenses and child care expenses. These reimbursements represent taxable income to the executive; however, pursuant to the program, Choice will gross up any associated tax. We believe the cost to Choice to provide this program, and any associated gross up expense, is minimal as compared to the goodwill and retention benefits the program offers to our executives.

In 2007, the aggregate amount of reimbursement available to each Named Executive Officer under the Flexible Perquisites Program was as set forth below. We have not increased the amounts available to our officers under the Flexible Perquisites Program since 2003. At such time, the level of benefits available under the Choice Flexible Perquisites Program were below those provided by other companies, as evidenced by the competitive market information reviewed at the time, and we continue to believe that our program is below the competitive market.

Officer	2007 Eligible Reimbursement (\$)
Ledsinger	31,800
White	8,000
Mirgon	15,000
Haase	15,000
Pepper	15,000
Squeri	15,000
Wielgus	15,000

For actual amounts reimbursed to each officer under the Flexible Perquisites Program during 2007, see the Summary Compensation Table below. In addition to the Flexible Perquisites Program, we offer our senior executives the Choice Stay at Choice program which provides reimbursements to these executives when staying at Choice hotels properties. We offer the Stay at Choice program as we seek to encourage our senior executives to use our hotels when traveling on personal matters as they are the best source of input and feedback as to the quality and comfort of our product. There is no limit on an executive's use of this program during the year, for the reasons set forth above.

Other Personal Benefits. In addition to his participation in the Flexible Perquisite Program, Mr. Ledsinger's employment agreement, as specifically negotiated at the time, provides for an allowance for

Table of Contents

automobile expenses, initial and annual fees at a dining and/or recreational club at the choice of Mr. Ledsinger for the purpose of business entertainment, and use of the Company aircraft for personal use for up to 25 flight hours per year. Mr. Ledsinger is responsible for related taxes on imputed income for his (and his family's, other than his spouse's) personal use of Company aircraft.

Each of the remaining applicable Named Executive Officers are also given an annual car allowance. For the aggregate cost to Choice for each of the perquisites or other personal benefits described above, see the All Other Compensation column of the Summary Compensation Table below.

Retirement Plans

We offer our senior executives, including each of the Named Executive Officers, a competitive and reasonable retirement package, comprised of various nonqualified retirement plans which are not offered to our employees generally. Not only do we believe the combination of these retirement plans is reasonable and competitive, but we also believe these plans encourage retention of our executives and reward them for long, continued service to Choice. We provide the non-qualified plans due to the regulatory limits on the amount of compensation that can be contributed to qualified retirement plans. We believe these limits leave higher-paid executives without adequate retirement income replacement. Accordingly, the nonqualified plans are a vital part of an executive's financial planning to bridge the divide between Social Security and the retirement income they need.

For more information on these plans, see the Change in Pension Value and All Other Compensation columns of the Summary Compensation Table below, as well as the Pension Benefits and Non-Qualified Deferred Compensation Tables and accompanying narratives below. Since we instituted these plans, we have made no material changes to their structure or level of benefits provided thereunder.

Severance and Change in Control Arrangements

Each of the Named Executive Officers, other than Messrs. Squeri and Wielgus, are entitled to receive various payments and continued benefits upon various triggering events. These arrangements are set forth in employment agreements with each of Messrs. Ledsinger and Mirgon, a severance agreement with Mr. Haase and, for each of Messrs. White and Pepper, the Choice Severance Benefit Plan which is applicable to all of our employees who do not otherwise have an employment or severance agreement with Choice. Mr. Ledsinger's current employment agreement and the Choice Severance Plan were adopted in 2005 and 1998, respectively, and the terms of the severance provisions and benefits were each based on what the Committee believed was competitive with the market at the time. In addition, Mr. Ledsinger's agreement was based on negotiations with him at the time.

During 2007, the Compensation Committee reviewed the overall severance and termination/change in control arrangements applicable to the Named Executive Officers. The Committee determined to undergo the review at this time due to the departure of three of our senior executives in early 2007, including each of Messrs. Squeri and Wielgus. While our succession planning allowed Choice to rebound from these departures, the Committee felt it was important to prevent further departures of senior executives from the company.

Based on data provided by Semler Brossy, the Compensation Committee determined that a period of 18 to 24 months of severance (based on the executive's salary and bonus) in the event of termination without cause or constructive termination was consistent with the median of our market, with continued vesting of equity awards granted after the date of any new severance arrangements during this severance period (equity awards prior to any new severance arrangements could not be amended without Choice incurring an earnings charge). In addition, the Committee determined that, for the protection of the company, a noncompete and nonsolicitation period of one to two years was typical within our industry, and was a further deterrent for our executives to terminate employment. As a result of this review, Mr. Ledsinger recommended, and the Committee approved, entering into a severance agreement with Mr. Haase and amending Mr. Mirgon's employment agreement to

Table of Contents

provide for 18 months of severance and continued equity vesting upon the termination events above, and a noncompete and nonsolicitation period of 18 months, which the Committee felt was reasonable and enforceable.

In addition, consistent with the provisions set forth in Messrs. Ledsinger and Mirgon's current employment agreements and company practice, the Committee approved payment upon termination following a change in control (i.e., a double trigger) for Mr. Haase equal to a lump sum payment of 200% of his base salary and annual bonus. 200% was chosen as it was consistent with Mr. Mirgon's employment agreement and the Committee desired to treat all Senior Vice Presidents equally.

The change in control provisions were adopted to ensure that, in the event Choice is considering a change in control transaction, these executives will not be tempted to act in their own interests rather than the interests of the shareholders. These executives may not be in a position to influence our performance after a change in control and may not be in a position to earn incentive awards or vest in equity awards, and thus might be biased against a transaction. These provisions are designed to make any transaction neutral to the executives' economic interests. With respect to the severance payments and continuation of benefits upon a constructive termination or termination without cause, outside of a change in control, the Committee believed these provisions ensure executives who are unexpectedly terminated for reasons outside of their control are appropriately compensated and provided for during a limited period of time following termination.

In connection with his termination on March 31, 2007, we entered into an Agreement and Release with Mr. Squeri in February 2007. We terminated Mr. Squeri's employment prior to end of the employment term under his existing employment agreement with Choice, or June 3, 2008. Pursuant to his employment agreement, upon his involuntary termination, Choice agreed to the continued payment of his salary and benefits, and his continued participation in our annual incentive compensation plan during 2007, with a target bonus equal to 65% of his base salary during 2007, for generally a 14-month period, from April 1, 2007 to June 3, 2008 (the original termination date under his employment agreement). Thus, the Agreement and Release reaffirmed our obligation to continue these payments and benefits through the term of his employment agreement. We also executed the Agreement and Release with Mr. Squeri in order to obtain a non-disparagement and non-solicitation agreement from Mr. Squeri during this same period, as well as to receive a general release in favor of Choice.

In September 2006, in connection with a reorganization of management responsibilities, we entered into an amendment to Mr. Wielgus's Employment Agreement pursuant to which we agreed to, in the event of involuntary termination of Mr. Wielgus, the continued payment of his salary and benefits, and his continued participation in our annual incentive compensation plan, with a target bonus equal to 55% of his base salary at the time of termination, for an 18-month period. The 18-month period, recommended by Mr. Ledsinger, was approved as reasonable and appropriate by the Committee for primarily two reasons. First, based on preliminary data from Semler Brossy, in connection with our more comprehensive severance review discussed above, 18 months appeared to be comparable to the market. In addition, the 18-month period was consistent with other recent severance periods provided to other recently-departed senior executives of Choice at the time. We provided Mr. Wielgus with notice of termination pursuant to this agreement on January 4, 2007 and his termination became effective July 5, 2007.

For a more detailed discussion of the arrangement applicable to each Named Executive Officer, including an estimated quantification of the benefits payable to each officer assuming a termination event as of December 31, 2007 (other than Messrs. Squeri and Wielgus, whose actual severance arrangements are described), see the Potential Payments upon Termination or Change in Control section below.

Tax Deductibility of Compensation

Section 162(m) of the Code imposes a \$1 million ceiling on tax-deductible compensation paid to the Chief Executive Officer and the next three most highly compensated executive officers (other than the CFO) who are employed as of the end of the year. Certain types of compensation are only deductible if performance criteria are

Table of Contents

set and shareholders have approved the compensation arrangements. The Company believes that while it is generally in the best interest of shareholders to structure compensation plans so that compensation is deductible under Section 162(m), there may be times when the benefit of the deduction would be outweighed by other corporate objectives, such as the need for flexibility.

Restricted stock awards are generally not tax deductible under Section 162(m); however, our PVRsUs are fully deductible for Section 162(m) purposes and thus all equity awards to our Named Executive Officers in 2007, other than the restricted stock awards, are fully deductible under Section 162(m). All 2007 compensation for the applicable Named Executive Officers was deductible under Section 162(m).

- for Mr. Ledsinger only, the aggregate incremental cost to the Company of the personal use of the Company's aircraft, which was \$13,524 in 2007.

Choice calculates the aggregate incremental cost of the personal use of the Company's aircraft by multiplying the total hours of personal use by Mr. Ledsinger during 2007 by the variable cost per hour of operating the aircraft during 2007. Per his employment agreement, Mr. Ledsinger is entitled to use the Company's aircraft for personal use for up to 25 hours per year. Periodically, Mr. Ledsinger's spouse and children may accompany him on business or personal trips on the aircraft; however, the aggregate incremental cost to the Company of their use of the aircraft is minimal, if any. Variable cost per hour was determined by aggregating the total variable costs for operating the aircraft during 2007 and dividing such amount by the number of hours of personal use. Variable costs included ongoing maintenance and repairs, fuel, and any travel expenses for the flight crew.

Table of Contents

Table of Contents**GRANTS OF PLAN-BASED AWARDS FOR 2007**

As discussed in Compensation Discussion and Analysis Long-Term Incentives above, the aggregate equity value to be awarded to each Named Executive Officer annually, including for 2007, is determined by the Committee. Of each officer's aggregate annual equity value, approximately 75% is awarded as stock options and 25% is awarded as performance-vested restricted stock units (PVRsUs), other than for Mr. White. For Mr. White, 100% of his aggregate annual equity value in 2007 was awarded as restricted stock. For each Named Executive Officer, the value of the aggregate equity grant to be delivered as options is divided by the Black Scholes value on the date of grant to determine the number of shares to be granted. For example, as discussed in the Compensation Discussion and Analysis, Mr. Ledsinger's long-term equity grant value in 2007 was 200% of his base salary, or \$1,510,000 (at the time of grant, Mr. Ledsinger's base salary was his 2006 base salary, or \$755,000). Seventy-five percent of this value, or \$1,132,500, was granted as stock options. The Black-Scholes value was \$16.232. Thus, the number of shares subject to his option grant on February 12, 2007 was determined as follows: $\$1,132,500 / \$16.232 = 69,770$ shares. The value of the aggregate equity grant to be delivered as PVRsUs, or restricted stock, as applicable, was divided by the 90-day average fair market value of Choice's common stock prior to the date of grant. Thus, Mr. Ledsinger's PVRsU grant was determined as follows: $\$377,500$ (25% of the aggregate equity award value for 2007) $/ \$43.497 = 8,679$ PVRsUs. As discussed in the Compensation Discussion and Analysis, the assumptions used for determining grant size differ from the assumptions used for accounting purposes to reflect the maximum potential value being granted to the executive.

(1) Threshold amount reflects the threshold payment level under the Company's 2007 Officer Cash Incentive Plan, which is 50% of the target amount. Maximum amount reflects 200% of the target amount. The threshold amount is paid if 90% of the performance goal is attained. The maximum amount is paid upon attaining 120% of the performance goal. For a discussion of the performance targets under the 2007 Officer Cash Incentive Plan, see Compensation Discussion and Analysis Annual Incentive Cash Compensation above. For the actual payments made to each Named Executive Officer pursuant to the 2007 Officer Cash Incentive Plan, see the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table above.

(2) Represents grants of PVRsUs to the applicable Named Executive Officers. For a discussion of the performance target applicable to the PVRsUs for the 2007-2009 performance period, see Compensation Discussion and Analysis Long-Term Incentives above. These awards will vest, if at all, depending upon Choice's actual three year cumulative EPS compared to the performance target, as described in more detail in the Compensation Discussion and Analysis Long-Term Equity Incentives above. During the performance periods, dividends accrue on the PVRsUs, if and at the same rate as dividends are paid on our outstanding common stock; provided, however, that dividends are only paid out if the PVRsUs are earned by the executives.

- (3) Represents grants of restricted stock to the applicable Named Executive Officers. These awards vest in equal installments on the anniversary of the grant date over a four-year period, based on the continued employment of the officer. Dividends are paid on the restricted stock, if and at the same rate as dividends are paid on our outstanding common stock.

- (4) Represents grants of stock options to each Named Executive Officer. These awards vest in equal installments on the anniversary of the grant date over a four-year period, based on the continued employment of the officer.
- (5) The exercise price of an option is equal to the fair market value (FMV) of Choice common stock on the date of grant. FMV was defined as the mean of the high and low prices reported on the New York Stock Exchange on the date of grant. If no shares were traded on the grant date, the Committee determines the FMV. The Committee selected the mean of the high and low prices reported on February 9, 2007 as the FMV for the grants awarded on Sunday, February 11, 2007.
- (6) As discussed in Compensation Discussion and Analysis Long-Term Equity Incentives Equity Grant Practices, the exercise price of stock options granted during 2007 was based on the average of the high and low price of Choice Hotels common stock on the date of grant.

NARRATIVE TO THE SUMMARY COMPENSATION TABLE AND

GRANTS OF PLAN-BASED AWARDS TABLE

Employment Agreements

Choice has entered into employment agreements with each of Mr. Ledsinger and Mr. Mirgon. Mr. Ledsinger's employment agreement was effective December 20, 2005 and has a term of four years. Pursuant to his employment agreement, Mr. Ledsinger is employed as President and Chief Executive Officer with an initial base salary of \$720,000 per year. Mr. Ledsinger is also entitled to participate in our annual incentive bonus plan in an initial amount equal to 100% of his base salary. Additionally, as set forth in the Compensation Discussion and Analysis Perquisites and Other Related Benefits above, pursuant to the employment agreement, Mr. Ledsinger also receives an automobile allowance (in an initial amount of \$1,100 per month), annual fees for a club membership, access to the Company aircraft for 25 flight hours per year (with Mr. Ledsinger responsible for the taxes associated with such use) and other fringe benefits accorded our other most senior executives.

Mr. Mirgon is employed as Senior Vice President, Human Resources and Administration pursuant to an amended and restated employment agreement dated April 13, 1999, as further amended on January 23, 2008. The agreement is for an indefinite term and may be terminated by either party, including for the events described under Potential Payments upon Termination or Change in Control below. Under Mr. Mirgon's employment agreement, he is entitled to receive an initial base salary of \$325,000 per year, may participate in our annual incentive bonus plan in an initial amount equal to 50% of his base salary. In addition, Mr. Mirgon is entitled to receive a monthly automobile allowance and to participate in all other fringe benefits afforded Choice employees of similar status.

Please see the Payment Upon Termination or Change in Control section below for a more detailed discussion on the termination and severance provisions set forth in each employment agreement described above, as well as the severance and termination provisions and arrangements applicable to our other Named Executive Officers.

OUTSTANDING EQUITY AWARDS AT YEAR-END 2007

The following table provides information on the current holdings of stock option and stock awards by the Named Executive Officers. This table includes unexercised and unvested option awards, unvested restricted stock awards and unvested PVRsUs with performance conditions that have not yet been satisfied. The market value of the restricted stock and PVRsU awards is based on the closing market price of Choice's stock as of December 31, 2007, which was \$33.20. Because the PVRsUs will be earned, if at all, based on our three-year cumulative EPS performance as compared to the target EPS goal for the respective period, the market value of the PVRsUs is based on achievement of the target level of performance under the awards.

Restricted stock awards granted on and after December 20, 2005 vest at the rate of 25% each year for four years from the date of grant. - (3) The PVRsU awards shown as outstanding and unearned as of December 31, 2007 for each of Messrs. Squeri and Wielgus are expected to be forfeited upon the conclusion of their severance periods on June 3, 2008 and January 5, 2009, respectively; provided, however, that in the event there is a change in control of Choice prior to such dates, the PVRsUs held by each officer will accelerate and vest in full, at the maximum performance level. Table of Contents**PENSION BENEFITS FOR 2007**

Choice's supplemental executive retirement plan (SERP) is a non-contributory defined benefit pension plan covering key executives defined by the Board of Directors. In 2007, each of the Named Executive Officers, other than Mr. White, participated in the SERP.

Pursuant to the SERP, retirement benefits are determined under a formula based on each participant's years of service and final average salary, defined as base salary and annual bonuses earned by the participant in a 60-month period that produces the highest average amount out of the 120 months of employment prior to the retirement date. The formula provides a benefit equal to 1% per year of service up to 15% and 1.5% per year of service thereafter up to 30%. Participants become vested in their benefits under the SERP upon completion of five years of service. Each of the participating Named Executive Officers were fully vested as of December 31, 2007. Benefits paid under the SERP are straight life annuity amounts, although participants have the option of selecting a joint and 50% survivor annuity or ten-year certain payments. The benefits are not subject to offset for social security and other amounts.

Pursuant to his employment agreement, upon attaining age 55, Mr. Ledsinger was credited an additional ten years of service for purposes of the SERP. This provision was negotiated with Mr. Ledsinger pursuant to an arms-length negotiation at the time of the amendment and restatement of Mr. Ledsinger's employment agreement in 2002.

Unreduced benefits are available upon retirement at age 65 (the normal retirement age under the plan), or upon retirement at age 55 provided the participant has a minimum of ten years of service. The SERP does not provide for early retirement with reduced benefits; if a participant terminates prior to age 65, or prior to age 55 with ten years of service, benefit payments commence on the first day of the month following his or her 65th birthday. Upon termination for cause, participants forfeit any accumulated benefit under the SERP, even if vested. Further, upon the death or disability of a participant, his or her beneficiary is generally entitled to receive 50% of vested amount under the participant's SERP balance.

Only Mr. Ledsinger is entitled to an unreduced benefit as he has attained age 55 with at least ten years of service. All other Named Executive Officers, including Messrs. Squeri and Wielgus, are entitled to an unreduced benefit at age 65.

Name	Plan Name	Number of Years of Credited Service	Present Value of Accumulated Benefit (\$) ⁽¹⁾	Payments During Last Fiscal Year (\$)
Ledsinger	SERP	19 ⁽²⁾	4,761,295	
White				
Mirgon	SERP	10	616,125	
Haase	SERP	7	289,623	
Pepper	SERP	5	134,749	
Squeri	SERP	10	166,308	
Wielgus	SERP	6	211,972	

- (1) Present value of each Named Executive Officer's accumulated benefit under the SERP computed as of the same pension plan measurement date used for financial statement reporting purposes with respect to Choice's 2007 audited financial statements, as required by the rules of the SEC. For a discussion of the assumptions used in quantifying the present value of each officer's SERP benefit, see Note 16, Pension, Profit Sharing, and Incentive Plans, on page 84 of our 2007 Form 10-K, filed on February 29, 2008. For Messrs. Squeri and Wielgus, present value calculated through their termination dates of March 31, 2007 and July 5, 2007, respectively.

Table of Contents

- (2) Reflects an additional ten years of service credited to Mr. Ledsinger, upon attaining age 55, in accordance with the terms of his employment agreement. The estimated value of the additional ten years of service credited to Mr. Ledsinger was \$2,462,781 as of December 31, 2007. No other participating Named Executive Officer has been credited additional years of service under the SERP.

NONQUALIFIED DEFERRED COMPENSATION FOR 2007

Executive Deferred Compensation Plan. In 2002, Choice adopted the Choice Hotels International, Inc. Executive Deferred Compensation Plan (EDCP), which became effective January 1, 2003. Our CEO and the executive officers reporting directly to him or her are eligible to participate in the EDCP. During 2007, each of the Named Executive Officers, other than Mr. White, participated in the EDCP. Mr. White became eligible to participate in the EDCP upon his promotion to Senior Vice President in December 2007. It is anticipated that his account balance under the Non-Qualified Plan will be transferred to the EDCP during 2008. Participants in the EDCP are not entitled to participate in the Non-Qualified Plan, described below.

Under the EDCP, participants may defer up to 90% of their base salary and up to 100% of their bonus each year. Choice matches up to 15% of any deferred salary under the EDCP and the Choice 401(k) plan, offset by the amount of matching contributions made under the 401(k) plan. The participant's right to any company match vests at 20% per year from the time the participant was first hired, with all past and future match amounts 100% vested after the participant's fifth year of service. As of December 31, 2007, each of the participating Named Executive Officers was fully vested in his company match amounts.

Pursuant to his employment agreement, upon attaining age 55, Mr. Ledsinger was credited an additional ten years of service for purposes of the EDCP. This provision was negotiated with Mr. Ledsinger pursuant to an arms-length negotiation at the time of the amendment and restatement of his employment agreement in December 2005.

A participant may elect a return at either the annual yield of the Moody's Average Corporate Bond Rate Yield Index plus 300 basis points (the Moody's Plus Rate of Return), or a return based on a selection of investment options selected by the EDCP's administrators. The preferential rate (i.e., 300 basis points) is intended to deliver a competitive retirement benefit when combined with the SERP benefit, as discussed above. Participants are entitled to change their investment options under the EDCP on a monthly basis.

Benefits commence under the EDCP upon the death of the participant (to the participant's beneficiary), or, at the participant's election, upon the participant's termination of employment or a January selected by the participant. If no election is made, benefits will commence upon termination of employment, subject to any requirements imposed by Section 409A of the Internal Revenue Code. Benefits are payable in a lump-sum payment or in annual installments over a period of up to 20 years, as elected by the participant. If no election is made, benefits will be paid in a lump-sum.

Stock Deferral Program. Each Named Executive Officer is entitled to defer all or any portion of any equity award (other than stock options). The executive may elect to defer the receipt of such equity until termination of their employment or until a specified future date. Any dividends or other distributions during the deferral period are credited to the executive's deferred equity account and reinvested in the purchase of additional Choice Hotels stock.

Non-Qualified Plan. In 1997, Choice adopted the Choice Hotels International, Inc. Nonqualified Retirement Savings and Investment Plan (Non-Qualified Plan). Generally, Choice employees employed at the director level and above, and who do not participate in the EDCP, are eligible to participate in the Non-Qualified Plan. During 2007, only Mr. White was an active participant in the Non-Qualified Plan. While Messrs. Ledsinger and Mirgon retained account balances under the plan upon our adoption of the EDCP, they no longer make contributions under the Non-Qualified Plan.

Table of Contents

The Non-Qualified Plan allows participants at the level of vice-president and above (which includes Mr. White) to defer up to 90% of their base salary and their annual bonus, reduced by the deferral limit in effect under the Choice 401(k) plan (which was \$15,500 for 2007). Choice matches up to 5% of any deferred salary under the Non-Qualified Plan and the Choice 401(k) plan, offset by the amount of matching contributions made under the 401(k) plan. Generally, company match contributions after January 1, 2006 are 100% vested. For company contributions prior to January 1, 2006, the contributions typically vest in full after five years of service. As of December 31, 2007, each of the participating Named Executive Officers was fully vested in his company match amounts.

Participants in the Non-Qualified Plan may elect to invest any amounts deferred under the plan in a range of investment options selected by the Non-Qualified Plan's administrators, which investment options are generally publicly-available mutual funds or other indices. Participants may elect to change their investment options under the plan at any time; provided, however, that participants subject to the Choice trading restrictions (which includes each of the Named Executive Officers, other than Messrs. Squeri and Wielgus) may not change any investment in Choice Hotels common stock during a trading blackout period.

Pursuant to the plan, benefits generally commence upon termination of a participant's employment, subject to any requirements imposed by Section 409A of the Internal Revenue Code. Payments under the plan are generally made in a lump-sum; however, a participant may elect to receive payments in equal annual installments over a period of two to 20 years, subject to the requirements of Section 409A. Upon a participant's death, the vested account balance is payable to the participant's beneficiary in a single lump sum.

Payments Made Upon Constructive Termination/Good Reason or Termination Without Cause

Messrs. Ledsinger, Mirgon and Haase

Mr. Ledsinger

Upon constructive termination or termination without cause, pursuant to his employment agreement, Mr. Ledsinger is entitled to receive continued base salary, participation in our annual incentive plan at 100% of target, his monthly automobile allowance, continued club membership, personal use of the company plane up to 25 hours per year and continued participation in the Choice Flexible Perquisites Program through the termination date of his employment agreement, or December 20, 2009. In addition, Mr. Ledsinger is eligible to receive continued medical and dental benefits to the same extent and at the same cost to him as applicable to Choice's senior executives, with Choice to continue its employer contributions for such continued benefits, until December 20, 2009. Choice also agreed to continued payment of the premiums for Mr. Ledsinger's life insurance through such date.

Further, all unvested stock options, restricted stock and PVRs then held by Mr. Ledsinger will accelerate and vest in full upon constructive termination.

As conditions to his continued receipt of the payments and benefits above, Mr. Ledsinger agreed that if he becomes employed prior to December 20, 2009, Choice is entitled to offset the payments required above with any compensation earned by Mr. Ledsinger as a result of his new employment, including unemployment insurance benefits, social security insurance or like amounts. The employment agreement also provides for two-year non-compete and non-solicitation period, and a general confidentiality provision in favor of Choice.

Generally, constructive termination is defined under Mr. Ledsinger's employment agreement as:

- our removal or termination of the executive other than for cause;

Messrs. Mirgon and Haase

Under the employment agreement for Mr. Mirgon, and a non-competition, non-solicitation and severance benefit agreement, dated January 25, 2008, with Mr. Haase, if either executive is terminated for "good reason" or without cause, each officer is entitled to receive continued base salary and continued payment of the premiums for his supplemental executive life insurance and, with respect to Mr. Mirgon only, continued payment of his automobile allowance and continued participation in the Choice Flexible Perquisites Program, each as in effect as of the termination date, for 18 months, payable in installments in accordance with Choice's normal payroll practices and subject to standard deductions. In addition, each executive will be entitled to any annual bonuses that would have otherwise been paid during the 18-month period at 100% of the executive's target. Each executive will also be eligible to receive continued medical and dental benefits during the 18-month period to the same extent and at the same cost to him as applicable to Choice's senior executives, with Choice to continue its employer contributions for such continued benefits.

Choice is also obligated to provide each executive with its standard outplacement services for executive-level employees during the 18-month period, subject to termination in the event the executive secures new employment.

In addition, Mr. Mirgon will continue to vest in all unvested stock options, restricted stock and PVRsUs during the 18-month period following the termination. Pursuant to Mr. Haase's agreement, he will continue to vest in any unvested stock options and other stock awards granted *after* the date of his severance agreement (January 25, 2008) during the 18-month period.

As conditions to their continued receipt of the payments and benefits above, each executive agreed that if he becomes employed prior to the end of the 18-month period, Choice is entitled to offset the payments required above with any compensation earned by the executive as a result of his new employment, including unemployment insurance benefits, social security insurance or like amounts. In addition, each executive must execute a release in favor of Choice, releasing Choice and its affiliates from any claims relating to his employment with Choice. The agreements also provide for an 18-month non-compete and non-solicitation period, and a general confidentiality provisions in favor of Choice.

Generally, "good reason" is defined under each agreement as a material, substantial change in either the executive's compensation or position and responsibilities.

Messrs. White and Pepper

If Messrs. White or Pepper are terminated without reasonable cause by Choice, each executive is entitled to severance payments under the Choice Severance Benefit Plan, which applies equally to all company employees except for those employees who are subject to an employment agreement. Under the Severance Benefit Plan, each participant's severance benefit, and the length of time after termination for which the participant is eligible for the benefit, is determined based on his or her base salary, position and years of service as of the termination date. In addition, each participant is entitled to continuation of medical and dental coverage during the severance period, at the same level the participant was receiving at termination.

Pursuant to the Severance Benefit Plan, corporate officers, which includes each of Messrs. White and Pepper, are entitled to one month of base salary (as in effect at termination of employment) per year of service with Choice, with a minimum of three months of base salary and a maximum of 12 months. Assuming a termination as of December 31, 2007, each of Messrs. White and Pepper would be entitled to five months of

continued base salary, as well as continued medical and dental benefits during this period. The severance benefit terminates prior to the end of the severance benefit period provided under the Plan upon the earlier to occur of (i) death of the participant, and (ii) employment with a new employer. In addition, the severance benefit is subject to the participant's periodic execution of employment certifications and execution of a standard release agreement in favor of Choice.

Payments Made Upon Death or Disability

Our disability program provides that each of the executives, other than Mr. White, will receive an annual benefit equal to 70% of the previous year's base salary and annual bonus, with such amount capped at \$25,000 per month. Mr. White's benefit will equal 60% of the previous year's base salary, with such amount also capped at \$15,000 per month. In each case, the disability benefit continues until the executive reaches age 65.

Each of the Named Executive Officers, other than Mr. Ledsinger, has a supplemental executive individual life insurance policy, paid for by Choice, in the amount of \$1,000,000. Premiums on this policy are added to each executive's taxable income for the year.

Pursuant to his employment agreement, upon the death of Mr. Ledsinger, any unvested shares of restricted stock granted to Mr. Ledsinger on December 20, 2005 (the date of his employment agreement) will accelerate and vest in full. In addition, upon his death or disability (generally defined as his inability to perform the essential functions of his job for more than 180 days in any period of 365 consecutive days), all unvested stock options, restricted stock and PVRsUs granted prior to December 20, 2005 will terminate, while any unvested stock option, restricted stock and PVRsUs granted after such date will continue to vest according to their terms.

Messrs. Ledsinger, Mirgon and Haase

Ledsinger, Mirgon and Haase, if his employment is terminated within 12 months following a change of control, and such termination is by Choice without cause, by the executive for constructive termination or good reason, as applicable, or, for Mr. Ledsinger only, upon voluntary resignation, each executive is entitled to receive:

- a lump sum severance payment of 250% in the case of Mr. Ledsinger, and 200% for Messrs. Mirgon and Haase, of their base salary then in effect and the full amount of the previous year's annual incentive bonus (or if no bonus was paid in the prior year, the maximum target bonus);
- all unvested stock options and restricted stock will accelerate and vest in full, and the performance periods for any outstanding PVRsUs will be deemed completed with the maximum level of performance attained;
- for Mr. Mirgon only, continued family health insurance for 12 months following termination (or until he secures new employment); and
- an amount equal to the excise tax charged to the executive, if applicable, as a result of the receipt of the payments and benefits described above.

While these executives are entitled to receipt of any excise tax charged to the executive pursuant to their employment agreements, none of the executives' compensation, as of December 31, 2007, rose to the limit set forth by Section 280G(b) of the Internal Revenue Code wherein an excise tax would be imposed.

In addition to the other conditions applicable to Messrs. Ledsinger, Mirgon and Haase in order to receive their severance payments, as described above, each is required to execute a general release in favor of Choice in order to receive any severance payments upon a qualifying termination following a change in control.

Table of Contents

Generally, change in control is defined under the agreements described above as:

- any person (with certain exceptions, including Mr. Bainum and his family members) becomes the beneficial owner of 33% or more of the outstanding voting securities of Choice;
- individuals constituting the Board of Directors of Choice, and the successors of such individuals (as nominated by the Board or committee thereof), cease to constitute a majority of the Board; and

Mr. Squeri Agreement and Release

In connection with Mr. Squeri's termination from Choice on March 31, 2007, Mr. Squeri and Choice entered into an Agreement and Release, dated February 9, 2007. We terminated Mr. Squeri's employment prior to end of the employment term under his existing employment agreement with Choice, or June 3, 2008. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The Company's policy for the review and approval of related person transactions is contained in the Company's written Amended and Restated Basic Policies of the Board of Directors. This policy requires Board approval of any material transactions between the Company and its directors, officers, stockholders, employees or agents and affiliates. For this purpose, the Company's Legal Department determines which transactions may be viewed as material transactions requiring Board approval under the policy. Except as described in this paragraph, the Board does not apply pre-determined standards in reviewing material transactions. Board approval is also required for investments by directors, officers or employees in certain entities that compete with, supply to or purchase from the Company unless such investments are in securities of a company that is listed on a national securities exchange or is regularly traded by national securities dealers (provided that the investments do not exceed one percent of the market value of the outstanding securities of such company). Investments in Manor Care, Inc. and Sunburst Hospitality Corporation and their affiliates are exempted from the policy. Set forth below is information regarding certain transactions in which our executives, directors or entities associated with them had a direct or indirect material interest.

Sunburst Hospitality Corporation (Sunburst) is one of the Company's franchisees, with a portfolio of 26 Choice franchised hotels as of December 31, 2007. The Chairman of the Board, Stewart Bainum, Jr., along with other Bainum family members, own a controlling interest in Sunburst. Total revenue paid by Sunburst to the Company for franchising, royalty, marketing and reservation fees for 2007 was \$5,174,088.62. The franchise agreements require the payment of certain fees and charges, including the following: (a) a royalty fee of between 1.93% to 5.0% of monthly gross room revenues; (b) a marketing fee of between 0.7% and 2.5% plus \$0.28 per day multiplied by the specified room count; and (c) a reservation fee of 0.88% to 1.75% of monthly gross room revenues (or 1% of monthly gross room revenues plus \$1.00 per room confirmed through Choice's reservation system). The marketing fee and the reservation fee are subject to reasonable increases during the term of the franchise if the Company raises such fees uniformly among all its franchisees, generally.

In connection with Sunburst's recapitalization in 2000, Choice and Sunburst entered into an Omnibus Amendment of the franchise agreements. The Omnibus Amendment provides that (i) Sunburst shall pay an application fee of \$20,000 on all future franchise agreements, and (ii) no royalties, marketing or reservation fees shall be payable for a period of two years for the next ten franchise agreements entered into after December 28, 1998, (iii) Sunburst is not required to pay liquidated damages upon the termination of any franchise agreements unless the related hotel owned by Sunburst that carried a Choice Hotels brand is not sold by Sunburst within three years from the date such hotel was reflagged with a different non-Choice Hotels brand, in which case liquidated damages will be paid with respect to any such hotel; not to exceed a maximum of \$100,000, (iv) that if Sunburst sells any property that is the subject of an existing Franchise Agreement with Choice Hotels, if that property is not past due on any fees and (a) is not failing a quality assurance review, Choice Hotels will enter into a new Franchise Agreement on customary market terms with the buyer (without addendum or property improvement plan), or (b) is failing a quality assurance review, Choice Hotels will enter into a Franchise Agreement on customary market terms with a property improvement plan containing only those items necessary to pass such quality assurance review.

In October 2007, the Company entered into a lease for certain office space in Chevy Chase, Maryland for the purpose of providing office space to Stewart Bainum, Sr., a principal stockholder of the Company. The terms of the lease require the Company to make rent payments totaling approximately \$360,250 over the next five years. The Company currently provides use of the entire leased space to Stewart Bainum, Sr. free of charge.

The Company subleases space in its Silver Spring, Maryland headquarters complex to the Commonweal Foundation (Commonweal), a non-profit organization that supports educational programs and projects assisting disadvantaged youth. Stewart Bainum, Sr., the father of Stewart Bainum, Jr., is the Chairman of the Board of Commonweal and other Bainum family members, including Scott Renschler, are members of the board of directors of Commonweal. Mr. Bainum retired from the Company Board of Directors in August 1998.

Table of Contents

Beginning in August 2004, the Company has donated a portion of the value of the subleased space to Commonweal. The Company is able to claim a deduction for the value of that portion of the subleased space, based on the Company's costs under the master lease. Mr. Bainum pays the remaining portion of rent for the space used by Commonweal. During 2007, the Company received rent payments of \$44,004 from Mr. Bainum. The rental payments under the sublease are a pass through of the Company's costs under the master lease. As such, the Company believes the sublease is on terms at least as favorable as if obtained from non-related parties.

The Company maintains Master Aircraft Lease Agreements with Cedar Hill Investment Company, LLC (Cedar Hill), which is solely owned by Stewart Bainum, and LP_C, LLC (LPC), which is owned by Stewart Bainum, Stewart Bainum, Jr., Barbara Bainum and Roberta Bainum. The leases permit the Company to lease from time to time aircraft owned by Cedar Hill and LPC. During 2007, the Company incurred a total of \$213,275 for aircraft usage pursuant to the leases. The Company believes the terms of the aircraft leases are at least as favorable as if obtained from non-related parties.

In addition, the Company and Cambridge Flight Support, LLC, a wholly owned subsidiary of Realty, entered into a Flight Crew Services Agreement, pursuant to which Realty provides a pilot, co-pilot and fuel for the Company to use upon request. During 2007, the Company incurred a total of \$249,722 for flight crew services pursuant to the agreements. The Company believes the terms of the agreement are at least as favorable as if obtained from non-related parties.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Based solely on the Company's review of the forms filed with the Commission and written representations from reporting persons that they were not required to file Form 5 for certain specified years, the Company believes that all of its reporting officers, directors and greater than ten percent beneficial owners complied with all filing requirements applicable to them during the year ended December 31, 2007, except that the following reports were filed untimely due to administrative oversight: a Form 4 for David E. Goldberg reporting two transactions, two Forms 4 for Bruce Haase reporting two transactions, a Form 4 for Daniel M. Head reporting one transaction, a Form 4 for Charles A. AUDIT COMMITTEE REPORT

Upon the recommendation of the Audit Committee and in compliance with the regulations of the NYSE, the Board of Directors has adopted an Audit Committee Charter setting forth the requirements for the composition of the Audit Committee, the qualifications of its members, the frequency of meetings, and the responsibilities of the Audit Committee. A copy of the Audit Committee charter is available at the investor relations section of the Company's website at www.choicehotels.com. The Audit Committee consists of Mr. Schwieters as Chairman, Mr. Shames and Mr. Sullivan. The Audit Committee is composed of three independent directors within the meaning of the NYSE's rules.

Report of Audit Committee

The Audit Committee is responsible for providing independent, objective oversight of the Company's accounting functions and internal controls. The Audit Committee possesses sole authority to engage and discharge independent registered public accounting firms and to approve all significant non-audit engagements with such firms. Further responsibilities of the Audit Committee include review of SEC filings and financial statements and ultimate supervision of the Company's internal auditing function.

Management is responsible for the Company's system of internal controls and the financial reporting process. The independent registered public accounting firm is responsible for performing an independent audit of the Company's consolidated financial statements and management's assessment of internal controls pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 in accordance with Public Company Accounting Oversight Board (PCAOB) standards and to issue a report thereon. The Audit Committee's responsibility is to monitor and oversee those processes.

In this context, the Audit Committee has reviewed and discussed with management and independent registered public accounting firm, PricewaterhouseCoopers LLP, the Company's audited financial statements as of and for the year ended December 31, 2007. Management represented that the consolidated financial statements were prepared in accordance with Generally Accepted Accounting Principles (GAAP). The Audit Committee discussed with the independent registered public accounting firm matters required to be discussed by Statement on Auditing Standards (SAS) No. 90, Audit Committee Communications, SAS No. 89, Audit Adjustments and SAS No. 61, Communications with Audit Committees, as adopted by the PCAOB in Rule 3200T. All of these statements were issued by the American Institute of Certified Public Accountants.

In addition, the Audit Committee has discussed with PricewaterhouseCoopers LLP their independence from the Company and its management, including matters in the written disclosure required by the Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, as adopted by the PCAOB in Rule 3600T, also issued by the American Institute of Certified Public Accountants, and the provision of non-audit services by the independent registered public accounting firm. A disclosure summarizing the fees paid to PricewaterhouseCoopers LLP in 2007 for audit and non-audit services appears below under the heading Principal Auditor Fees and Services. All of the services provided by PricewaterhouseCoopers LLP were pre-approved by the Audit Committee in accordance with its policies and procedures. The Audit Committee received a description of the services and approved them after determining that they would not affect the auditor's independence.

The Audit Committee discussed with the Company's internal auditors and independent registered public accounting firm the overall scopes and plans for their respective audits. The Audit Committee met with the internal auditors and independent registered public accounting firm, with and without management present, to discuss the results of their examinations, the evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting.

Based on the Audit Committee's discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2007, for filing with the Securities and Exchange Commission.
