Item 7.01 Regulation FD Disclosure.

On March 27, 2018, Dominion Energy, Inc. (Dominion Energy) issued a press release announcing certain credit profile improvement initiatives and reaffirming earnings and dividend guidance. A copy of the press release is furnished herewith as Exhibit 99.1 and is incorporated by reference herein.

Item 8.01 Other Events.

On March 15, 2018, the Federal Energy Regulatory Commission (FERC) issued a policy revision indicating that it no longer will allow master limited partnership interstate natural gas and oil pipelines to recover an income tax allowance in cost-of-service rates. Dominion Energy expects that any future impacts to revenues of FERC-regulated interstate gas transmission assets held at Dominion Energy Midstream Partners, LP (DM) as a result of this policy revision will be applied prospectively and only after a multi-year rate proceeding process. Further, any potential future application of the revised policy on the partnership's assets is not expected to have a material impact on Dominion Energy's financial performance.

The reaction of master limited partnership equity capital markets to the FERC policy revision may have a material negative impact on the amount and price at which DM can raise public equity. Dominion Energy, the ultimate parent company of DM, is currently engaged in a review of options for DM and, in the interim, intends to recommend to the DM Board of Directors that the limited partner distribution per unit be increased for the first quarter of 2018 by 5% over the distribution per unit for the fourth quarter of 2017. DM is expected to utilize existing excess distributable cash flow coverage to support this increase.
