NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

1. BASIS OF PRESENTATION

The accompanying interim unaudited condensed consolidated financial statements have been prepared by Maui Land & Pineapple Company, Inc. (together with its subsidiaries, the “Company”) in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information that are consistent in all material respects with those applied in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2015, and pursuant to the instructions to Form 10-Q and Article 8 promulgated by Regulation S-X of the Securities and Exchange Commission (SEC). Accordingly, they do not include all of the information and notes to financial statements required by GAAP for complete financial statements. In the opinion of management, the accompanying condensed consolidated financial statements contain all normal and recurring adjustments necessary to fairly present the Company’s financial position, results of operations and cash flows for the interim periods ended March 31, 2016 and 2015. The condensed consolidated financial statements and notes should be read in conjunction with the consolidated financial statements and notes thereto included in the Company’s Form 10-K for the fiscal year ended December 31, 2015.

LIQUIDITY

The Company had outstanding borrowings under two credit facilities totaling \$40.6 million as of March 31, 2016. The Company has pledged a significant portion of its real estate holdings as security for borrowings under its credit facilities, limiting its ability to borrow additional funds. The Company’s credit facilities mature on August 1, 2016.

Absent the sale of some of its real estate holdings, refinancing, or extending the maturity date of its credit facilities, the Company does not expect to be able to repay its outstanding borrowings on the maturity date.

The credit facilities have covenants requiring among other things, a minimum of \$3 million in liquidity (as defined), a maximum of \$175 million in total liabilities, and a limitation on new indebtedness. The Company’s ability to continue

to borrow under its credit facilities to fund its ongoing operations and meet its commitments depends upon its ability to comply with its covenants. If the Company fails to satisfy any of its loan covenants, each lender may elect to accelerate its payment obligations under such lender's credit agreement.

The Company's cash outlook for the next twelve months and its ability to continue to meet its loan covenants is highly dependent on selling certain real estate assets at acceptable prices. If the Company is unable to meet its loan covenants, borrowings under its credit facilities may become immediately due, and it would not have sufficient liquidity to repay such outstanding borrowings.

The Company's credit facilities require that a portion of the proceeds received from the sale of any real estate assets be repaid toward its loans. The amount of proceeds paid to its lenders will reduce the net sale proceeds available for working capital purposes.

The aforementioned circumstances raise substantial doubt about the Company's ability to continue as a going concern. There can be no assurance that the Company will be able to successfully achieve its initiatives summarized below in order to continue as a going concern. The accompanying financial statements have been prepared assuming the Company will continue as a going concern and do not include any adjustments that might result should the Company be unable to continue as a going concern.

In response to these circumstances, the Company continues to undertake efforts to generate cash flow by employing its real estate assets in leasing and other arrangements, by the sale of several real estate assets, and by continued cost reduction efforts.

2. USE OF ESTIMATES AND RECLASSIFICATIONS

The Company's reports for interim periods utilize numerous estimates of general and administrative expenses and other costs for the full year. Future actual amounts may differ from these estimates. Amounts reflected in interim reports are not necessarily indicative of results for a full year. Certain amounts in the December 31, 2015 condensed consolidated balance sheet and condensed consolidated statement of operations and comprehensive loss for the three months ended March 31, 2015 were reclassified to conform to the presentation for the three months ended March 31, 2016. Such amounts had no impact on total assets and liabilities or net loss and comprehensive loss previously reported.

Table Of Contents**3. BASIC AND DILUTED SHARES**

Basic and diluted weighted-average shares outstanding for the three months ended March 31, 2016 and 2015 were as follows:

	Three Months Ended March 31 ,	
	2016	2015
Basic and diluted	18,903,466	18,220,775
Potentially dilutive	22,604	47,500

Basic net income (loss) per share is computed by dividing net income (loss) by the weighted-average number of common shares outstanding. Diluted net income (loss) per share is computed similar to basic net income (loss) per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the dilutive potential common shares from share-based compensation arrangements had been issued.

Potentially dilutive shares arise from non-qualified stock options to purchase common stock and non-vested restricted stock. The treasury stock method is applied to determine the number of potentially dilutive shares for non-vested restricted stock and stock options assuming that the shares of non-vested restricted stock are issued for an amount based on the grant date market price of the shares and that the outstanding stock options are exercised. These amounts were excluded because the effect would be insignificant.

All unvested restricted shares are forfeited upon the grantee's termination of directorship or employment from the Company.

Each of the Company's non-employee directors receive restricted shares of common stock upon their annual appointment to the Company's board of directors. 10. REPORTABLE OPERATING SEGMENTS

The Company's reportable operating segments are comprised of the discrete business units whose operating results are regularly reviewed by the Company's Chief Executive Officer – its chief decision maker – in assessing performance and determining the allocation of resources. There are various other claims and legal actions pending against the Company. In the opinion of management, after consultation with legal counsel, the resolution of these other matters is not expected to have a material adverse effect on the Company's results of operations.

12. FAIR VALUE MEASUREMENTS

GAAP establishes a framework for measuring fair value, and requires certain disclosures about fair value measurements to enable the reader of the financial statements to assess the inputs used to develop those measurements by establishing a hierarchy for ranking the quality and reliability of the information used to determine fair values. GAAP requires that financial assets and liabilities be classified and disclosed in one of the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

The fair value of cash, receivables and payables approximate their carrying value due to the short-term nature of the instruments. The valuation is based on settlements of similar financial instruments all of which are short-term in nature and are generally settled at or near cost. The fair value of debt was estimated based on borrowing rates currently available to the Company for debt with similar terms and maturities. The carrying amount of debt at March 31, 2016 and December 31, 2015 was \$40.6 million, which approximated fair value. The fair value of debt has been classified in the level 2 category.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our audited consolidated financial statements and related notes included in our Annual Report on Form 10-K for the year ended December 31, 2015 and the unaudited condensed consolidated financial statements and related notes included in this Quarterly Report on Form 10-Q. Depending upon the context, the terms the "Company,"

“we,” “our,” and “us,” refer to either Maui Land & Pineapple Company, Inc. alone, or to Maui Land & Pineapple Company, Inc. and its subsidiaries collectively.

Overview

Maui Land & Pineapple Company, Inc. is a Hawaii corporation and the successor to a business organized in 1909. The Company consists of a landholding and operating parent company, its principal subsidiary, Kapalua Land Company, Ltd. and certain other subsidiaries of the Company.

Leasing—Our leasing activities include residential, resort, commercial, industrial and agricultural land and property leases, licensing of our registered trademarks and trade names, and stewardship and conservation efforts.

Utilities—We operate two publicly-regulated utility companies which provide potable and non-potable water and wastewater transmission services to the Kapalua Resort. In addition, we also manage several major non-potable irrigation water systems in West and Upcountry Maui.

Table Of Contents**Critical Accounting Policies and Estimates**

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of accounting estimates. Changes in these estimates and assumptions are considered reasonably possible and may have a material effect on the consolidated financial statements and thus actual results could differ from the amounts reported and disclosed herein. Our critical accounting policies that require the use of estimates and assumptions were discussed in detail in our most recently filed Form 10-K. There have been no significant changes in our critical accounting policies during the first three months of 2016.

There are no accounting pronouncements or interpretations that have been issued but not yet applied by us that we believe will have a material impact on our consolidated financial statements.

CONSOLIDATED

	Three Months Ended March 31, 2016 2015 (in thousands)	
<i>Operating revenues</i>	\$2,976	\$2,794
<i>Operating costs and expenses</i>	(1,840)	(1,525)
<i>General and administrative</i>	(754)	(582)
<i>Share-based compensation</i>	(380)	(549)
<i>Depreciation</i>	(495)	(558)
<i>Pension and other postretirement expenses</i>	(284)	(76)
<i>Operating loss</i>	(777)	(496)
<i>Interest expense</i>	(581)	(597)
<i>Net loss</i>	\$(1,358)	\$(1,093)
<i>Net loss per common share</i>	\$(0.07)	\$(0.06)

The increase in operating revenues during the three months ended March 31, 2016 compared to the three months ended March 31, 2015 was due to higher commission revenues in our real estate segment, higher sales of potable and non-potable water in our utilities business segment, and higher rent revenues from our leasing business segment. The increase in operating costs and expenses was primarily due to higher legal expenses in our real estate segment and higher maintenance expenses in the leasing segment during the three months ended March 31, 2016. The increase in general and administrative expenses was primarily due to higher professional fees and other repairs and maintenance costs in the current period. The decrease in share-based compensation for the periods compared was due to lower stock awards for annual incentive awards paid to the Company's officers and certain members of management in March 2016.

REAL ESTATE

	Three Months Ended March 31, 2016 2015 (in thousands)	
<i>Operating revenues</i>	\$ 168	\$ 112
<i>Operating costs and expenses</i>	(300)	(168)
<i>Operating loss</i>	\$(132)	\$(56)

We had no sales of real estate inventory during the three months ended March 31, 2016 or 2015. Operating revenues were real estate sales commissions from resales of properties in the Kapalua Resort and surrounding areas by our wholly-owned subsidiary, Kapalua Realty Company, Ltd.

We did not have any significant real estate development expenditures during the three months ended March 31, 2016 or 2015.

Real estate development and sales are cyclical and depend on a number of factors. Results for one period are therefore not necessarily indicative of future performance trends in this business segment.

We have contracted a third-party property management company to manage our commercial leasing portfolio. The increase in operating revenues and operating income during the three months ended March 31, 2016 compared to the prior period was primarily due to higher occupancy levels for our Kapalua Resort and Hali'imaile Town commercial spaces.

Other West Maui leased properties are mainly large-acre former pineapple field parcels and maintenance facilities.

Our leasing operations face substantial competition from other property owners in Maui and Hawaii.

The increase in operating revenues during the three months ended March 31, 2016 compared to the three months ended March 31, 2015 was primarily due to an increase in sales of non-potable water resulting from drier weather conditions in West Maui in the current period. The increase in operating costs and expenses for the periods compared was due to higher County of Maui utilities costs and repair and maintenance of our non-potable/ irrigation water system reservoirs in West Maui.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity

We had outstanding borrowings under two credit facilities totaling \$40.6 million and cash on hand of \$0.8 million as of March 31, 2016. We had \$3.5 million of available credit under our First Hawaiian Bank credit facility as of March 31, 2016.

Revolving Line of Credit with Wells Fargo

We have a \$25.9 million revolving line of credit with Wells Fargo that matures on August 1, 2016. Interest on borrowings is at LIBOR plus 3.65% and the line of credit is collateralized by approximately 850 acres of the Company's real estate holdings at the Kapalua Resort. The line of credit agreement contains various representations, warranties, affirmative, negative and financial covenants and events of default customary for financings of this type. Financial covenants include a required minimum liquidity (as defined) of \$3 million, maximum total liabilities of

\$175 million, and a limitation on new indebtedness. The credit agreement includes predetermined release prices for the real property securing the credit facility. There are no commitment fees on the unused portion of the revolving facility. Absent the sale of some of our real estate holdings or refinancing, we do not expect to be able to pay the outstanding balance of the revolving line of credit on the maturity date.

Term Loan with American AgCredit

We have a term loan with an outstanding principal balance of \$14.7 million with American AgCredit that matures on August 1, 2016. Interest on the loan is based on the greater of 7.00% or the 30-day LIBOR rate plus 6.75%. Interest on the loan balance decreases by 1.25% if the loan balance is reduced below \$10 million and an additional 1.25% if the loan balance is reduced below \$5 million. Interest is paid monthly at the greater of 5.50% or LIBOR plus 5.25%, with the remaining amount deferred until the maturity date. The loan is collateralized by approximately 3,700 acres of the Company's real estate holdings in West Maui and Upcountry Maui and a pledge of the Company's 100% equity interests in the Kapalua Water Company, Ltd. and the Kapalua Waste Treatment Company, Ltd.

The loan agreement contains various representations, warranties, affirmative, negative and financial covenants and events of default customary for financings of this type. Financial covenants include a required minimum liquidity (as defined) of \$3 million, maximum total liabilities of \$175 million and a limitation on new indebtedness. It also requires mandatory principal repayments of 100% of the net proceeds of the sale of any real property pledged as collateral for the loan and mandatory principal repayments of 75% of the net proceeds from the sale of non-collateralized real property. The Company has until June 15, 2016 to deliver: (a) a refinancing loan commitment, (b) escrowed real estate sales contracts, (c) a filed registration statement for an equity offering, or a combination thereof, in an amount sufficient to repay the outstanding balance of the term loan on the maturity date.

Revolving Line of Credit with First Hawaiian Bank

We have a \$3.5 million revolving line of credit with First Hawaiian Bank that matures on August 1, 2016. Interest on borrowings is at the Bank's Prime Rate and the line of credit is collateralized by the 1-acre Honolua Store property in the Kapalua Resort. The line of credit agreement contains various representations, warranties, affirmative, negative and financial covenants and events of default customary for financings of this type. Financial covenants include a required minimum liquidity (as defined) of \$3 million, maximum total liabilities of \$175 million, and a limitation on new indebtedness. There are no commitment fees on the unused portion of the revolving facility.

As of March 31, 2016, we believe we are in compliance with the covenants under our Wells Fargo, American AgCredit and First Hawaiian Bank credit facilities.

Table Of Contents

Cash Flows

During the first three months of 2016, net cash used in our operating activities was \$0.1 million as compared to \$0.2 million of net cash provided by our operating activities for the first three months of 2015.

Future Cash Inflows and Outflows

Our plans include continued efforts to generate cash flow by employing our real estate assets in leasing and other arrangements, by the sale of several real estate assets, and by continued cost reduction efforts. Proceeds from the sale of any of our real estate assets will be used principally to repay our outstanding indebtedness.

We presently do not expect to be required to make minimum contributions to our pension plans in 2016. Our current development activities are limited to planning, permitting and other efforts to secure and maintain project entitlements and we do not have any significant development or capital expenditures planned at this time.

Our cash outlook for the next twelve months and our ability to continue to meet our loan covenants and to continue as a going concern is highly dependent on successfully implementing our business initiatives and selling real estate assets at acceptable prices. There can be no assurance that we will be able to sell any of our real estate assets on acceptable terms, if at all. If we are unable to meet our loan covenants, borrowings under our credit facilities may become immediately due, and we would not have sufficient liquidity to repay such outstanding borrowings. In addition, absent the sale of some of our real estate holdings, refinancing, or extending the maturity date of our credit facilities, we do not expect to be able to repay our outstanding borrowings on the maturity date.

As required by Rules 13a-15(e) and 15d-15(e) under the Exchange Act, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the fiscal quarter covered by this report. Based upon the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed by us in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in applicable SEC rules and forms.
