EATON CORPORATION plc

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Amounts are in millions unless indicated otherwise (per share data assume dilution).

Note 1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements of Eaton Corporation plc (Eaton or the Company) have been prepared in accordance with generally accepted accounting principles for interim financial information, the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by United States generally accepted accounting principles (US GAAP) for complete financial statements. However, in the opinion of management, all adjustments (consisting of normal recurring accruals) have been made that are necessary for a fair presentation of the condensed consolidated financial statements for the interim periods.

This Form 10-Q should be read in conjunction with the consolidated financial statements and related notes included in Eaton's 2013 Form 10-K. The interim period results are not necessarily indicative of the results to be expected for the full year. Management has evaluated subsequent events through the date this Form 10-Q was filed with the Securities Exchange Commission.

Certain prior year amounts have been reclassified to conform to the current year presentation.

Recently Issued Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers (ASU 2014-09). This accounting standard supersedes all existing US GAAP revenue recognition guidance. Under ASU 2014-09, a company will recognize revenue when it transfers the control of promised goods or services to customers in an amount that reflects the consideration which the company expects to collect in exchange for those goods or services. ASU 2014-09 will require additional disclosures in the notes to the consolidated financial statements and is effective for annual and interim reporting periods beginning after December 15, 2016. Eaton is evaluating the impact of ASU 2014-09 and an estimate of the impact to the consolidated financial statements cannot be made at this time.

Note 2. ACQUISITIONS AND SALE OF BUSINESSES

Eaton's most recently acquired businesses, and the related annual sales prior to acquisition, are summarized below:

| Acquired businesses | Date of transaction | Business segment | Annual sales |

Table of Contents**Sale of Aerospace Power Distribution Management Solutions and Integrated Cockpit Solutions**

On January 20, 2014, Eaton announced it entered into an agreement to sell the Aerospace Power Distribution Management Solutions and Integrated Cockpit Solutions businesses to Safran for \$270. The sale closed on May 9, 2014 and resulted in a pre-tax gain of \$156.

Note 3. ACQUISITION INTEGRATION AND RESTRUCTURING CHARGES

Eaton incurs integration charges and transaction costs related to acquired businesses. A summary of these charges follows:

| | Three months ended | | Six months ended | |
|---------------------------------------------------------------------------------|--------------------|---------|------------------|---------|
| | June 30 | June 30 | June 30 | June 30 |

| Total after income taxes | \$23 | \$25 | \$67 | \$47 |
| Per ordinary share - diluted | \$0.05 | \$0.05 | \$0.14 | \$0.10 |

Business segment integration charges in 2014 were related primarily to the integration of Cooper. Business segment integration charges in 2013 were related primarily to the integrations of Cooper, Polimer Kaucuk Sanayi ve Pazarlama, Jeil Hydraulics and Rolec Comercial e Industrial. These charges were included in Cost of products sold or Selling and administrative expense, as appropriate. In Business Segment Information the charges reduced Operating profit of the related business segment.

Corporate integration charges in 2014 and 2013 were related to the acquisition of Cooper. These charges were included in Selling and administrative expense. In Business Segment Information the charges were included in Other corporate income (expense) - net.

Acquisition-related transaction costs, such as investment banking, legal, other professional fees, and costs associated with change in control agreements, are not included as a component of consideration transferred in an acquisition but are expensed as incurred. Acquisition-related transaction costs in 2013 were related to the acquisition of Cooper. These charges were included in Selling and administrative expense, Interest expense - net and Other (income) expense - net. In Business Segment Information the charges were included in Interest expense - net and Other corporate income (expense) - net.

See Note 2 for additional information about business acquisitions.

Restructuring Charges

During 2013, Eaton undertook restructuring activities related to the acquisition and integration of Cooper in an effort to gain efficiencies in selling, marketing, traditional back-office functions and manufacturing and distribution. These actions, comprised primarily of severance costs, resulted in charges totaling \$55 and \$17 during the first six months of 2014 and 2013, respectively. These restructuring initiatives are expected to continue through 2015.

During April 2014, Eaton undertook certain restructuring activities in an effort to gain efficiencies in the Vehicle, Hydraulics and Aerospace business segments. These actions, comprised primarily of severance costs, resulted in

charges totaling \$39 in the second quarter of 2014.

7

Table of Contents

Restructuring charges were included in Cost of products sold or Selling and administrative expense, as appropriate. In Business Segment Information, the charges reduced Operating profit of the related business segment. See Note 12 for additional information about business segments. As of June 30, 2014 and December 31, 2013, liabilities related to restructuring actions totaled \$99 and \$32, respectively.

Note 4. GOODWILL

A summary of goodwill follows:

| | June 30, 2014 | December 31, 2013 |
|---------------------------------|------------------|----------------------|
| Electrical Products | \$7,191 | \$7,189 |
| Electrical Systems and Services | 4,467 | 4,517 |
| Hydraulics | 1,389 | 1,385 |
| Aerospace | 973 | 1,048 |
| Vehicle | 357 | 356 |
| Total goodwill | \$14,377 | \$14,495 |

The decrease in goodwill was primarily attributable to the sale of Eaton's Aerospace Power Distribution Management Solutions and Integrated Cockpit Solutions businesses. For additional information on the sale of businesses, see Note 2.

Note 6. LEGAL CONTINGENCIES

Eaton is subject to a broad range of claims, administrative and legal proceedings such as lawsuits that relate to contractual allegations, tax audits, patent infringement, personal injuries, antitrust matters and employment-related matters. Eaton is also subject to asbestos claims from historic products which may have contained asbestos. Historically, significant insurance coverage has been available to cover costs associated with these claims. Although it is not possible to predict with certainty the outcome or cost of these matters, the Company believes they will not have a material adverse effect on the consolidated financial statements.

In December 2010, a Brazilian court held that a judgment obtained by a Brazilian company, Raysul, against another Brazilian company, Saturnia, which was sold by Eaton in 2006, could be enforced against Eaton Ltda. This judgment is based on an alleged violation of an agency agreement between Raysul and Saturnia. At June 30, 2014, the Company has a total accrual of 80 Brazilian Reais related to this matter (\$36 based on current exchange rates), comprised of 60 Brazilian Reais recognized in the fourth quarter of 2010 (\$27 based on current exchange rates) with an additional 20 Brazilian Reais recognized through June 30, 2014 (\$9 based on current exchange rates). In 2010, Eaton filed motions for clarification with the Brazilian court of appeals which were denied on April 6, 2011. Eaton Holding and Eaton Ltda. filed appeals on various issues to the Superior Court of Justice in Brasilia. In April 2013, the Superior Court of Justice ruled in favor of Raysul. Additional motions for clarification have been filed with the Superior Court of Justice in Brasilia and an additional appeal is being considered. The Company expects that any sum it may be required to pay in connection with this matter will not exceed the amount of the recorded liability.

On October 5, 2006, ZF Meritor LLC and Meritor Transmission Corporation (collectively, Meritor) filed an action against Eaton in the United States District Court for Delaware. The action sought damages, which would be trebled under United States antitrust laws, as well as injunctive relief and costs. The suit alleged that Eaton engaged in anti-competitive conduct against Meritor in the sale of heavy-duty truck transmissions in North America. On June 23, 2014, Eaton announced it signed a settlement agreement with Meritor in the amount of \$500 that resolved the lawsuit and removed the uncertainty of a trial and appeal process. On July 16, 2014, Eaton paid Meritor the \$500.

Frisby Corporation, now known as Triumph Actuation Systems, LLC, and other claimants (collectively, Triumph) asserted claims alleging, among other things, unfair competition, defamation, malicious prosecution, deprivation of civil rights, and antitrust in the Hinds County Circuit Court of Mississippi in 2004 and in the Federal District Court of North Carolina in 2011. Eaton had asserted claims against Triumph regarding improper use of trade secrets and these claims were dismissed by the Hinds County Circuit Court. On June 18, 2014, Eaton announced it signed a settlement agreement with Triumph in the amount of \$147.5 that resolved all claims and lawsuits and removed the uncertainty of a trial and appeal process. On July 8, 2014, Eaton paid Triumph the \$147.5.

Note 7. INCOME TAXES

The effective income tax rate for the second quarter and first six months of 2014 was a benefit of 203% and 20%, respectively, compared to expense of 7% and 6% for the second quarter and first six months of 2013, respectively. Excluding the litigation settlements and related legal costs, as well as the gain on the sale of Eaton's Aerospace Power Distribution Management Solutions and Integrated Cockpit Solutions businesses, which represents a total pre-tax expense of \$494 and occurred in the second quarter of 2014, the effective income tax rate was expense of 8% for the second quarter of 2014 compared to 7% for the second quarter of 2013 and 6% for the first six months of 2014 and 2013. See Note 6 and Note 2 for additional information about legal contingencies and the sale of businesses, respectively.

During the next 12 months, the Company expects to reduce its uncertain tax position related to an international tax settlement by \$43 as the result of negotiations with a government outside of Ireland and the United States. Resolution of this issue is not expected to have a material impact on the Company's consolidated financial statements.

Note 8. EQUITY

Eaton has an ordinary share repurchase program (2013 Program) that authorizes the repurchase of 40 million ordinary shares. During the second quarter of 2014, 1.4 million ordinary shares were repurchased under the 2013 Program in the open market at a total cost of \$99.

For the second quarter and first six months of 2014, 0.5 million and 0.3 million stock options, respectively, were excluded from the calculation of diluted net income per ordinary share because the exercise price of the options exceeded the average market price of the ordinary shares during the period and their effect, accordingly, would have been antidilutive. For the second quarter and first six months 2013, 0.2 million and 0.1 million stock options, respectively, were excluded from the calculation of diluted net income per ordinary share because the exercise price of the options exceeded the average market price of the ordinary shares during the period and their effect, accordingly, would have been antidilutive.

Note 9. FAIR VALUE MEASUREMENTS

Fair value is measured based on an exit price, representing the amount that would be received to sell an asset or paid to satisfy a liability in an orderly transaction between market participants. Fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, a fair value hierarchy is established, which categorizes the inputs used in measuring fair value as follows: (Level 1) observable inputs such as quoted prices in active markets; (Level 2) inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and (Level 3) unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

A summary of financial instruments recognized at fair value, and the fair value measurements used, follows:

Eaton values its financial instruments using an industry standard market approach, in which prices and other relevant information is generated by market transactions involving identical or comparable assets or liabilities. No financial instruments were recognized using unobservable inputs.

Other Fair Value Measurements

Long-term debt and the current portion of long-term debt had a carrying value of \$9,031 and fair value of \$9,444 at June 30, 2014 compared to \$9,536 and \$9,665, respectively, at December 31, 2013. The fair value of Eaton's debt instruments were estimated using prevailing market interest rates on debt with similar creditworthiness, terms and maturities and are considered a Level 2 fair value measurement.

Note 10. DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES

In the normal course of business, Eaton is exposed to certain risks related to fluctuations in interest rates, currency exchange rates and commodity prices. The Company uses various derivative and non-derivative financial instruments, primarily interest rate swaps, currency forward exchange contracts, currency swaps and, to a lesser extent, commodity contracts, to manage risks from these market fluctuations. The instruments used by Eaton are straightforward, non-leveraged instruments. The counterparties to these instruments are financial institutions with strong credit ratings. Eaton maintains control over the size of positions entered into with any one counterparty and regularly monitors the credit rating of these institutions. Such instruments are not purchased and sold for trading purposes.

Derivative financial instruments are accounted for at fair value and recognized as assets or liabilities in the Condensed Consolidated Balance Sheets. Accounting for the gain or loss resulting from the change in the fair value of the derivative financial instrument depends on whether it has been designated, and is effective, as part of a hedging relationship and, if so, as to the nature of the hedging activity. Eaton formally documents all relationships between derivative financial instruments accounted for as designated hedges and the hedged item, as well as its risk-management objective and strategy for undertaking the hedge transaction. This process includes linking derivative financial instruments to a recognized asset or liability, specific firm commitment, forecasted transaction, or net investment in a foreign operation. These financial instruments can be designated as:

- Hedges of the change in the fair value of a recognized fixed-rate asset or liability, or the firm commitment to acquire such an asset or liability (a fair value hedge); for these hedges, the gain or loss from the derivative financial instrument, as well as the offsetting loss or gain on the hedged item attributable to the hedged risk, are recognized in income during the period of change in fair value.

Hedges of the variable cash flows of a recognized variable-rate asset or liability, or the forecasted acquisition of such an asset or liability (a cash flow hedge); for these hedges, the effective portion of the gain or loss from the derivative financial instrument is recognized in Accumulated other comprehensive loss and reclassified to income in the same period when the gain or loss on the hedged item is included in income.

Hedges of the currency exposure related to a net investment in a foreign operation (a net investment hedge); for these hedges, the effective portion of the gain or loss from the derivative financial instrument is recognized in Accumulated other comprehensive loss and reclassified to income in the same period when the gain or loss related to the net investment in the foreign operation is included in income.

The gain or loss from a derivative financial instrument designated as a hedge that is effective is classified in the same line of the Consolidated Statements of Income as the offsetting loss or gain on the hedged item. The change in fair value of a derivative financial instrument that is not effective as a hedge is immediately recognized in income.

For derivatives that are not designated as a hedge, any gain or loss is immediately recognized in income. The majority of derivatives used in this manner relate to risks resulting from assets or liabilities denominated in a foreign currency and certain commodity contracts that arise in the normal course of business. Gains and losses associated with commodity hedge contracts are classified in Cost of products sold.

Eaton uses certain of its debt denominated in foreign currency to hedge portions of its net investments in foreign operations against foreign currency exposure (net investment hedges). Foreign currency denominated debt designated on an after-tax basis as non-derivative net investment hedging instruments was \$99 and \$95 at June 30, 2014 and December 31, 2013, respectively.

| Fixed-to-floating interest rate swaps | \$ 3,090 | \$ 1 | \$ 36 | \$— | \$ 76 | Fair value | 3 months to 20 years |
| Floating-to-fixed interest rate swaps | 300 | — | — | 1 | — | Cash flow | 6 months |
| Currency exchange contracts | 393 | 12 | — | 3 | — | Cash flow | 12 to 36 months |
| Commodity contracts | 1 | — | — | — | — | Cash flow | 1 to 12 months |
| Total | | \$ 13 | \$ 36 | \$ 4 | \$ 76 | | |
| Derivatives not designated as hedges | | | | | | | |
| Currency exchange contracts | \$ 4,277 | \$ 22 | | \$ 26 | | | 1 to 12 months |
| Total | | \$ 22 | | \$ 26 | | | |

The currency exchange contracts shown in the table above as derivatives not designated as hedges are primarily contracts entered into to manage currency volatility or exposure on intercompany sales and loans. While Eaton does not elect hedge accounting treatment for these derivatives, Eaton targets managing 100% of the intercompany balance sheet exposure to minimize the effect of currency volatility related to the movement of goods and services in the normal course of its operations. This activity represents the great majority of these currency exchange contracts. Amounts recognized in Accumulated other comprehensive income (loss) follow:

Note 12. BUSINESS SEGMENT INFORMATION

Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated on a regular basis by the chief operating decision maker, or decision making group, in deciding how to allocate resources to an individual segment and in assessing performance. Eaton's operating segments are Electrical Products, Electrical Systems and Services, Hydraulics, Aerospace and Vehicle. Operating profit includes the operating profit from intersegment sales. For additional information regarding Eaton's business segments, see Note 14 to the Consolidated Financial Statements contained in the 2013 Form 10-K.

Note 13. CONDENSED CONSOLIDATING FINANCIAL STATEMENTS

On November 20, 2012, Eaton Corporation issued senior notes (the Senior Notes) totaling \$4,900 to finance part of the cash portion of the acquisition of Cooper. Eaton and certain other of Eaton's principal 100% owned subsidiaries (the Guarantors) fully and unconditionally guaranteed (subject, in the case of the Guarantors, other than Eaton, to customary release provisions as described below), on a joint and several basis, the Senior Notes. The following condensed consolidating financial statements are included so that separate financial statements of Eaton, Eaton Corporation and each of the Guarantors are not required to be filed with the Securities and Exchange Commission. The consolidating adjustments primarily relate to eliminations of investments in subsidiaries and intercompany balances and transactions. The condensed consolidating financial statements present investments in subsidiaries using the equity method of accounting.

The guarantee of a Guarantor that is not a parent of the issuer will be automatically and unconditionally released and discharged in the event of any sale of the Guarantor or of all or substantially all of its assets, or in connection with the release or termination of the Guarantor as a guarantor under all other U.S. debt securities or U.S. syndicated credit facilities, subject to limitations set forth in the indenture. The guarantee of a Guarantor that is a direct or indirect parent of the issuer will only be automatically and unconditionally released and discharged in connection with the release or termination of such Guarantor as a guarantor under all other debt securities or syndicated credit facilities (in both cases, U.S. or otherwise), subject to limitations set forth in the indenture.

Table of ContentsITEM MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF
2. OPERATIONS.

Amounts are in millions of dollars or shares unless indicated otherwise (per share data assume dilution).

COMPANY OVERVIEW

Eaton Corporation plc (Eaton or the Company) is a power management company providing energy-efficient solutions that help its customers effectively manage electrical, hydraulic and mechanical power. With 2013 net sales of \$22.0 billion, the Company is a global technology leader in electrical products, systems and services for power quality, distribution and control, power transmission, lighting and wiring products; hydraulics components, systems and services for industrial and mobile equipment; aerospace fuel, hydraulics and pneumatic systems for commercial and military use; and truck and automotive drivetrain and powertrain systems for performance, fuel economy and safety. Eaton has approximately 103,000 employees in over 60 countries and sells products to customers in more than 175 countries.

Summary of Results of Operations

During the second quarter of 2014, the Company's results of operations were impacted by the litigation settlements, partially offset by the gain on the divestiture of Eaton's Aerospace Power Distribution Management Solutions and Integrated Cockpit Solutions businesses. Additional information on the litigation settlements and sale of businesses is presented in Note 6 and Note 2, respectively, to the Condensed Consolidated Financial Statements.

A summary of Eaton's Net sales, Net income attributable to Eaton ordinary shareholders, and Net income per ordinary share-diluted follows:

| Net income per ordinary share - diluted | \$0.36 | \$1.04 | \$1.27 | \$1.83 |

RESULTS OF OPERATIONS

The following discussion of Consolidated Financial Results and Business Segment Results of Operations includes certain non-GAAP financial measures. These financial measures include operating earnings, operating earnings per ordinary share, and operating profit before acquisition integration charges for each business segment, as well as corporate expense, each of which excludes amounts that differ from the most directly comparable measure calculated in accordance with generally accepted accounting principles (GAAP). A reconciliation of each of these financial measures to the most directly comparable GAAP measure is included in the table below and in the discussion of the operating results of each business segment. Management believes that these financial measures are useful to investors because they exclude transactions of an unusual nature, allowing investors to more easily compare Eaton's financial performance period to period. Management uses this information in monitoring and evaluating the on-going performance of Eaton and each business segment. For additional information on acquisition integration charges, see Note 3 to the Condensed Consolidated Financial Statements.

Net Sales

Net sales in the second quarter and first six months of 2014 increased 3% compared to the second quarter and first six months of 2013 due to an increase in core sales. The increase in core sales is primarily due to modest growth in the Company's end markets. Eaton continues to anticipate its end markets will grow 3% for all of 2014.

Gross Profit

The gross profit margin decreased slightly for the second quarter and the first six months of 2014 from the second quarter and first six months of 2013, respectively. The decrease in gross profit margin was primarily due to certain restructuring activities Eaton undertook in April 2014 in an effort to gain efficiencies in the Vehicle, Hydraulics and Aerospace business segments. For additional information related to restructuring activities, see Note 3 to the Condensed Consolidated Financial Statements.

Income Taxes

The effective income tax rate for the second quarter and first six months of 2014 was a benefit of 203% and 20%, respectively, compared to expense of 7% and 6% for the second quarter and first six months of 2013, respectively. Excluding the litigation settlements and related legal costs, as well as the gain on the sale of Eaton's Aerospace Power Distribution Management Solutions and Integrated Cockpit Solutions businesses, which represents a total pre-tax expense of \$494 and occurred in the second quarter of 2014, the effective income tax rate was expense of 8% for the second quarter of 2014 compared to 7% for the second quarter of 2013 and 6% for the first six months of 2014 and 2013. See Note 6 and Note 2 for additional information about legal contingencies and the sale of businesses, respectively.

Net Income

Net income attributable to Eaton ordinary shareholders of \$171 in the second quarter of 2014 decreased 65% compared to Net income attributable to Eaton ordinary shareholders of \$494 in the second quarter of 2013. Net income per ordinary share of \$0.36 in the second quarter of 2014 decreased 65% compared to Net income per ordinary share of \$1.04 in the second quarter of 2013. Net income attributable to Eaton ordinary shareholders of \$610 in the first six months of 2014 decreased 30% compared to Net income of \$872 in the first six months of 2013. Net income per ordinary share of \$1.27 in the first six months of 2014 decreased 31% from Net income per ordinary share of \$1.83 in the first six months of 2013. The decrease in Net income attributable to Eaton ordinary shareholders and Net

income per ordinary share in the second quarter and the first six months of 2014 was primarily due to the litigation settlements, partially offset by the sale of Eaton's Aerospace Power Distribution Management Solutions and Integrated Cockpit Solutions businesses, as noted above.

Table of Contents

Business Segment Results of Operations

The following is a discussion of Net sales, operating profit and operating margin by business segment, which includes a discussion of operating profit and operating profit margin before acquisition integration charges. For additional information related to acquisition integration charges, see Note 3 to the Condensed Consolidated Financial Statements.

Electrical Products

| Operating margin | 17.0 | % 16.2 | % | | 16.6 | % 15.4 | % | |

Net sales increased 4% in the second quarter and the first six months of 2014 compared to the second quarter and the first six months of 2013 due to an increase in core sales. Core sales growth in the second quarter and the first six months of 2014 was due to strength in North American markets. Eaton continues to anticipate its Electrical Products markets will grow 3% for all of 2014.

Operating margin before acquisition integration charges increased from 16.2% in the second quarter of 2013 to 17.0% in the second quarter of 2014. Operating margin before acquisition integration charges increased from 15.4% in the first six months of 2013 to 16.6% in the first six months of 2014. The increase in operating margin in both the second quarter and first six months of 2014 was due to higher sales volumes, as noted above, and incremental synergies related to the acquisition of Cooper Industries plc.

| Operating margin | 12.7 | % 14.7 | % | | 12.8 | % 14.4 | % | |

Net sales increased slightly in the second quarter and first six months of 2014 from the second quarter and first six months of 2013, respectively, due to an increase in core sales of 1%, offset by a decrease of 1% from the impact of currency translation. Core sales growth in the second quarter and first six months of 2014 was primarily due to growth in North America and Europe. Eaton continues to anticipate its Electrical Systems and Services markets will grow 3% for all of 2014.

Operating margin before acquisition integration charges decreased from 14.7% in the second quarter of 2013 to 12.7% in the second quarter of 2014. Operating margin before acquisition integration charges decreased from 14.4% in the

first six months of 2013 to 12.8% in the first six months of 2014. The decrease in operating margin in the second quarter and first six months of 2014 was primarily due to higher logistics costs, unfavorable mix, and pricing pressures.

Net sales increased 2% in the second quarter of 2014 compared to the second quarter of 2013 due to an increase in core sales. Net sales increased 3% in the first six months of 2014 compared to the first six months of 2013 due to an increase in core sales of 4%, partially offset by a decrease of 1% from the impact of currency translation. The increase in core sales in the second quarter and first six months of 2014 was primarily due to strength in industrial applications, partially offset by weakness in the global agricultural equipment market and the China construction equipment market. Eaton now anticipates its Hydraulics markets will grow 1% for all of 2014.

Operating margin before acquisition integration charges decreased from 14.5% in the second quarter of 2013 to 12.6% in the second quarter of 2014. Operating margin before acquisition integration charges increased from 13.2% in the first six months of 2013 to 13.4% in the first six months of 2014. The decrease in operating margin in the second quarter of 2014 was primarily due to certain restructuring activities Eaton undertook in April 2014 in an effort to gain efficiencies in the segment. The increase in operating margin in the first six months of 2014 was primarily due to higher sales volumes, as noted above, partially offset by the restructuring charges described above.

Net sales increased 9% in the second quarter of 2014 compared to the second quarter of 2013 due to an increase in core sales of 10% and an increase of 2% from the impact of currency translation, partially offset by a decrease of 3% from the divestiture of Eaton's Aerospace Power Distribution Management Solutions and Integrated Cockpit Solutions businesses. Net sales increased 8% in the first six months of 2014 compared to the first six months of 2013 due to an increase in core sales of 8% and an increase of 2% from the impact of currency translation, partially offset by a decrease of 2% from the divestiture of Eaton's Aerospace Power Distribution Management Solutions and Integrated Cockpit Solutions businesses. The increase in core sales in the second quarter and first six months of 2014 was primarily due to continued strength in commercial OEM markets as well as growth in the commercial aftermarket. Eaton continues to anticipate its Aerospace markets will grow 3% for all of 2014.

Operating margin decreased from 15.0% in the second quarter of 2013 to 14.2% in the second quarter of 2014. Operating margin decreased from 14.7% in the first six months of 2013 to 13.8% in the first six months of 2014. The decrease in operating margin in the second quarter and first six months of 2014 was primarily due to certain restructuring activities Eaton undertook in April 2014 in an effort to gain efficiencies in the segment.

Net sales increased 3% in the second quarter of 2014 compared to the second quarter of 2013 due to an increase in core sales. Net sales increased 5% in the first six months of 2014 compared to the first six months of 2013 due to an increase in core sales of 6%, partially offset by a decrease of 1% from the impact of currency translation. The increase in core sales in the second quarter and first six months of 2014 was primarily due to improved global demand, particularly in North American markets, partially offset by weakness in South American markets. Eaton continues to anticipate its Vehicle markets will grow 5% for all of 2014.

Operating margin decreased from 17.2% in the second quarter of 2013 to 15.0% in the second quarter of 2014.

Operating margin decreased from 15.7% in the first six months of 2013 to 15.1% in the first six months of 2014. The decrease in operating margin in the second quarter and first six months of 2014 was primarily due to certain restructuring activities Eaton undertook in April 2014 in an effort to gain efficiencies in the segment.

Total Corporate expense increased 145% from \$308 in the second quarter of 2013 to \$755 in the second quarter of 2014 and 65% from \$631 in the first six months of 2013 to \$1,042 in the first six months of 2014 primarily due to litigation settlements totaling \$644, partially offset by a decrease in Other corporate (income) expense - net due to the divestiture of Eaton's Aerospace Power Distribution Management Solutions and Integrated Cockpit Solutions businesses.

For additional information on the litigation settlements and sale of businesses see Note 6 and Note 2, respectively, to the Condensed Consolidated Financial Statements.

LIQUIDITY, CAPITAL RESOURCES AND CHANGES IN FINANCIAL CONDITION

Financial Condition and Liquidity

Eaton's objective is to finance its business through operating cash flow and an appropriate mix of equity and long-term and short-term debt. By diversifying its debt maturity structure, Eaton reduces liquidity risk. The Company maintains access to the commercial paper markets through a commercial paper program, which is supported by credit facilities in the aggregate principal amount of \$2,000. There were no borrowings outstanding under these revolving credit facilities at June 30, 2014. Over the course of a year, cash, short-term investments and short-term debt may fluctuate in order to manage global liquidity. Eaton believes it has the operating flexibility, cash flow, cash and short-term investment balances, and access to capital markets in excess of the liquidity necessary to meet future operating needs of the business as well as scheduled payments of long-term debt.

Eaton was in compliance with each of its debt covenants for all periods presented.

Sources and Uses of Cash Flow

Operating Cash Flow

Net cash provided by operating activities was \$645 in the first six months of 2014, a decrease of \$64 compared to \$709 in the first six months of 2013. Lower operating cash flow in the first six months of 2014 compared to the first six months of 2013 was primarily due to higher contributions to defined benefits plans.

Investing Cash Flow

Net cash provided by investing activities was \$148 in the first six months of 2014, a decrease of \$458 compared to \$606 in the first six months of 2013. Investing cash flows in 2014 were primarily impacted by the absence of proceeds totaling \$761 from the sale of Apex Tool Group, LLC in the first six months of 2013, partially offset by proceeds totaling \$273 in the first six months in 2014, related to the sale of Eaton's Aerospace Power Distribution Management Solutions and Integrated Cockpit Solutions businesses in the second quarter of 2014. For additional information on the sale of businesses, see Note 2 to the Condensed Consolidated Financial Statements.

Financing Cash Flow

Net cash used in financing activities was \$1,078 in the first six months of 2014, a decrease of \$172 compared to \$1,250 in the first six months of 2013. The lower use of cash was primarily due to a decrease in payments on debt borrowings from \$977 in the first six months of 2013 to \$576 in the first six months of 2014, related to financing the acquisition of Cooper Industries plc, partially offset by share repurchases totaling \$99 during the first six months of 2014 and higher cash dividends. For additional information on business acquisitions and share repurchases, see Note 2 and Note 8, respectively, to the Condensed Consolidated Financial Statements.

FORWARD-LOOKING STATEMENTS

This Form 10-Q Report contains forward-looking statements. These statements may discuss goals, intentions and expectations as to future trends, plans, events, results of operations or financial condition, or state other information relating to Eaton, based on current beliefs of management as well as assumptions made by, and information currently available to, management. Forward-looking statements generally will be accompanied by words such as “anticipate,” “believe,” “could,” “estimate,” “expect,” “forecast,” “guidance,” “intend,” “may,” “possible,” “potential,” “predict,” “project” words, phrases or expressions. These statements should be used with caution and are subject to various risks and uncertainties, many of which are outside Eaton’s control. The following factors could cause actual results to differ materially from those in the forward-looking statements: unanticipated changes in the markets for the Company’s business segments; unanticipated downturns in business relationships with customers or their purchases from us; the availability of credit to customers and suppliers; competitive pressures on sales and pricing; increases in the cost of material and other production costs, or unexpected costs that cannot be recouped in product pricing; the introduction of competing technologies; unexpected technical or marketing difficulties; unexpected claims, charges, litigation or dispute resolutions; strikes or other labor unrest; the impact of acquisitions and divestitures; unanticipated difficulties integrating acquisitions; new laws and governmental regulations; interest rate changes; tax rate changes or exposure to additional income tax liability; stock market and currency fluctuations; and unanticipated deterioration of economic and financial conditions in the United States and around the world. Eaton does not assume any obligation to update these forward-looking statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

There have been no material changes in exposures to market risk since December 31, 2013.

ITEM 4. CONTROLS AND PROCEDURES.

Pursuant to Rule 13a-15 under the Securities Exchange Act of 1934 (the Exchange Act), an evaluation was performed, under the supervision and with the participation of Eaton’s management, including Alexander M. Cutler, Principal Executive Officer, and Richard H. Fearon, Principal Financial Officer, of the effectiveness of the design and operation of Eaton’s disclosure controls and procedures. Based on that evaluation, management concluded that Eaton’s disclosure controls and procedures were effective as of June 30, 2014.

Table of Contents

Disclosure controls and procedures are designed to ensure that information required to be disclosed in Eaton's reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in Eaton's reports filed under the Exchange Act is accumulated and communicated to management, including Eaton's Principal Executive Officer and Principal Financial Officer, to allow timely decisions regarding required disclosure.

There were no changes in Eaton's internal control over financial reporting that materially affected, or is reasonably likely to materially affect, Eaton's internal control over financial reporting.

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

Information regarding the Company's current legal proceedings is presented in Note 6 of the Notes to the Condensed Consolidated Financial Statements.

ITEM 1A. RISK FACTORS.

"Item 1A. Risk Factors" in Eaton's 2013 Form 10-K includes a discussion of the Company's risk factors. There have been no material changes from the risk factors described in the 2013 Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

(c) Issuer's Purchases of Equity Securities

During the second quarter of 2014, 1.4 million ordinary shares were repurchased in the open market at a total cost of \$99 million. These shares were repurchased under the program announced on April 24, 2013 and approved by Eaton's Board of Directors on October 22, 2013. A summary of the shares repurchased in the second quarter of 2014 follows:

| Month | Total number of shares purchased | Average price paid per share | Total number of shares purchased as part of publicly announced plans or programs | Maximum number of shares that may yet be purchased under the plans or programs |
