UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934.

For the quarterly period ended October 27, 2018

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to

Commission File Number: 001-33261

AEROVIRONMENT, INC.

(Exact name of registrant as specified in its charter)

Delaware (State or other jurisdiction of incorporation or organization)	95-2705790 (I.R.S. Employer Identification No.)
900 Innovators Way Simi Valley, California (Address of principal executive offices)	93065 (Zip Code)

(805) 520-8350

(Registrant's telephone number, including area code)

800 Royal Oaks Drive, Suite 210

Monrovia, California 91016

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically, every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	Accelerated filer
Non-accelerated filer	Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes
No

As of November 21, 2018, the number of shares outstanding of the registrant's common stock, \$0.0001 par value, was 23,928,373.

AeroVironment, Inc.

Notes to Consolidated Financial Statements (Unaudited)

1. Organization and Significant Accounting Policies

Organization

AeroVironment, Inc., a Delaware corporation (the “Company”), is engaged in the design, development, production, support and operation of unmanned aircraft systems (“UAS”) for various industries and governmental agencies.

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”) for interim financial information and with the instructions of Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments, consisting only of normal recurring adjustments necessary for a fair presentation with respect to the interim financial statements have been included. The results of operations for the three and six months ended October 27, 2018 are not necessarily indicative of the results for the full year ending April 30, 2019. For further information, refer to the consolidated financial statements and footnotes thereto for the year ended April 30, 2018, included in the Company’s Annual Report on Form 10-K.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions, including estimates of anticipated contract costs and revenue utilized in the revenue recognition process, that affect the reported amounts in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

The Company’s consolidated financial statements include the assets, liabilities and operating results of wholly-owned subsidiaries. All intercompany accounts and transactions have been eliminated.

The accompanying consolidated financial statements include the balance sheet and results of operations of Altoy Savunma Sanayi ve Havacilik Anonim Sirketi (“Altoy”), in which the Company increased its ownership to a controlling

interest of 85% during the fourth quarter of the fiscal year ended April 30, 2017. Prior to the increase in ownership, the Company's investment in Altoy was accounted for under the equity method.

In December 2017, the Company and SoftBank Corp. (“SoftBank”) formed a joint venture, HAPSMobile, Inc. (“HAPSMobile”). As the Company has the ability to exercise significant influence over the operating and financial policies of HAPSMobile, the Company’s investment has been accounted for as an equity method investment. The Company has presented its proportion of HAPSMobile’s net loss in “Equity method investment activity, net of tax” in the consolidated statements of operations. The carrying value of the investment in HAPSMobile was recorded in “Other assets.” Refer to Note 6—Equity Method Investments for further details.

On June 29, 2018, the Company completed the sale of substantially all of the assets and related liabilities of its efficient energy systems business segment (“the EES Business”) to Webasto Charging Systems, Inc. (“Webasto”) pursuant to an Asset Purchase Agreement (the “Purchase Agreement”) between Webasto and the Company. The Company determined that the EES Business met the criteria for classification as an asset held for sale at April 30, 2018 and represents a strategic shift in the Company’s operations. Therefore, the assets and liabilities and the results of operations of the EES Business are reported as discontinued operations for all periods presented. Refer to Note 2—Discontinued Operations for further details.

Recently Adopted Accounting Standards

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows—Classification of Certain Cash Receipts and Cash Payments (Topic 230). This ASU adds and clarifies guidance on the classification of certain cash receipts and

Table of Contents

payments in the statement of cash flows. The Company's adoption of ASU No. 2017-01 effective May 1, 2018 did not have a material impact on its consolidated financial statements.

In January 2017, the FASB issued ASU 2017-01, Business Combinations—Clarifying the definition of a business (Topic 805). This ASU clarifies the definition of a business with the objective of providing a more robust framework to evaluate whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The Company's adoption of ASU No. 2017-01 effective May 1, 2018 did not have a material impact on its consolidated financial statements.

In May 2017, the FASB issued ASU 2017-09, Compensation—Stock Compensation (Topic 718). This ASU reduces the diversity in practice and cost and complexity when applying the guidance in Topic 718 to a change in terms or conditions of a share-based payment award. The Company's adoption of ASU No. 2017-09 effective May 1, 2018 did not have a material impact on its consolidated financial statements.

In the first quarter of its fiscal 2019, the Company adopted ASU 2014-09, Revenue from Contracts with Customers (Topic 606), using the full retrospective method. Topic 606 requires revenue to be recognized when promised goods or services are transferred to customers in amounts that reflect the consideration to which the Company expects to be entitled in exchange for those goods or services.

Revenue for small UAS product contracts with both the U.S. government and foreign governments under the new standard will be recognized at the point in time when the transfer of control passes to the customer, which is generally when title and risk of loss transfer. Revenue for Tactical Missile Systems ("TMS") contracts will now be recognized under the new standard over time as costs are incurred. Under previous U.S. GAAP, revenue was generally recognized when deliveries of the related TMS products were made. The new standard accelerates the timing of when the revenue is recognized; however, it does not change the total amount of revenue recognized on these contracts. The new standard does not affect revenue recognition for the Company's Customer-Funded Research and Development ("R&D") contracts. The Company continues to recognize revenue for these contracts over time as costs are incurred. The adoption of Topic 606 resulted in a cumulative adjustment to decrease retained earnings by \$1,084,000 at May 1, 2018 relating to both the Company's continuing and discontinued operations. For the Company's continuing operations, the adoption of Topic 606 resulted in a cumulative adjustment to increase retained earnings by \$1,063,000 at May 1, 2018.

The Company applied the standard's practical expedient that permits the omission of prior-period information about the Company's remaining performance obligations, the practical expedient that permits the Company to recognize the incremental costs of obtaining a contract as an expense when incurred if the amortization period of the asset the entity otherwise would have recognized is one year or less, and the practical expedient that permits the Company to not retrospectively restate contracts which were modified prior to the Company's initial date of adoption, or May 1, 2016. Instead the Company reflected the aggregate effect of all modifications when identifying the satisfied and unsatisfied performance obligations, determining the transaction price, and allocating the transaction price. No other practical

expedients were applied.

Revenue Recognition

The Company's revenue is generated pursuant to written contractual arrangements to design, develop, manufacture and/or modify complex products, and to provide related engineering, technical and other services according to the specifications of the customers. These contracts may be firm fixed price ("FFP"), cost plus fixed fee ("CPFF"), or time and materials ("T&M"). The Company considers all such contracts to be within the scope of ASC Topic 606.

Performance Obligations

A performance obligation is a promise in a contract to transfer distinct goods or services to a customer, and it is the unit of account in ASC Topic 606. A contract's transaction price is allocated to each distinct performance obligation and revenue is recognized when each performance obligation under the terms of a contract is satisfied. Revenue is measured at the amount of consideration the Company expects to receive in exchange for transferring goods or providing services. For contracts with multiple performance obligations, the Company allocates the contract's transaction price to each

Table of Contents

performance obligation using its observable standalone selling price for products and services. When the standalone selling price is not directly observable, the Company uses its best estimate of the standalone selling price of each distinct good or service in the contract using the cost plus margin approach. This approach estimates the Company's expected costs of satisfying the performance obligation and then adds an appropriate margin for that distinct good or service.

Contract modifications are routine in the performance of the Company's contracts. In most instances, contract modifications are for additional goods and/or services that are distinct and, therefore, accounted for as new contracts.

The Company's performance obligations are satisfied over time or at a point in time. Performance obligations are satisfied over time if the customer receives the benefits as the Company performs, if the customer controls the asset as it is being developed or produced, or if the product being produced for the customer has no alternative use and the Company has a contractual right to payment for the Company's costs incurred to date plus a reasonable margin. The contractual right to payment is generally supported by termination for convenience clauses that allow the customer to unilaterally terminate the contract for convenience, pay the Company for costs incurred plus a reasonable profit, and take control of any work in process. Revenue for TMS product deliveries and Customer-Funded R&D contracts is recognized over time as costs are incurred. Contract services revenue is composed of revenue recognized on contracts for the provision of services, including repairs and maintenance, training, engineering design, development and prototyping activities, and technical support services. Contract services revenue is recognized over time as services are rendered. Typically, revenue is recognized over time using an input measure (e.g., costs incurred to date relative to total estimated costs at completion) to measure progress. Training services are recognized over time using an output method based on days of training completed.

For performance obligations satisfied over time, revenue is generally recognized using costs incurred to date relative to total estimated costs at completion to measure progress. Incurred costs represent work performed, which correspond with, and thereby best depict, transfer of control to the customer. Contract costs include labor, materials, subcontractors' costs, other direct costs, and indirect costs applicable on government and commercial contracts.

For performance obligations which are not satisfied over time per the aforementioned criteria above, revenue is recognized at the point in time in which each performance obligation is fully satisfied. The Company's small UAS product sales revenue is composed of revenue recognized on contracts for the delivery of small UAS systems and spare parts. Revenue is recognized at the point in time when control transfers to the customer, which generally occurs when title and risk of loss have passed to the customer.

On October 27, 2018, the Company had approximately \$163,852,000 of remaining performance obligations under fully funded contracts with its customers, which the Company also refers to as funded backlog. The Company currently expects to recognize approximately 77% of the remaining performance obligations as revenue in fiscal 2019, an additional 17% in fiscal 2020, and the balance thereafter.

The Company collects sales, value add, and other taxes concurrent with revenue producing activities, which are excluded from revenue when they are both imposed on a specific transaction and collected from a customer.

Contract Estimates

Accounting for contracts and programs primarily with a duration of less than six months involves the use of various techniques to estimate total contract revenue and costs. For long-term contracts, the Company estimates the total expected costs to complete the contract and recognizes revenue based on the percentage of costs incurred at period end. Typically, revenue is recognized over time using costs incurred to date relative to total estimated costs at completion to measure progress toward satisfying the Company's performance obligations. Incurred costs represent work performed, which corresponds with, and thereby best depicts, the transfer of control to the customer. Contract costs include labor, materials, subcontractors' costs, other direct costs, and indirect costs applicable on government and commercial contracts.

Contract estimates are based on various assumptions to project the outcome of future events that may span several years. These assumptions include labor productivity and availability, the complexity of the work to be performed, the cost and

Table of Contents

availability of materials, the performance of subcontractors, and the availability and timing of funding from the customer.

The nature of the Company's contracts gives rise to several types of variable consideration, including penalty fees and incentive awards generally for late delivery and early delivery, respectively. The Company generally estimates such variable consideration as the most likely amount. In addition, the Company includes the estimated variable consideration to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the related uncertainty is resolved. These estimates are based on historical award experience, anticipated performance and the Company's best judgment at the time. Because of the certainty in estimating these amounts, they are included in the transaction price of the Company's contracts and the associated remaining performance obligations.

As a significant change in one or more of these estimates could affect the profitability of the Company's contracts, the Company regularly reviews and updates its contract-related estimates. Changes in cumulative revenue estimates, due to changes in the estimated transaction price or cost estimates, are recorded using a cumulative catch-up adjustment in the period identified for contracts with performance obligations recognized over time. If at any time the estimate of contract profitability indicates an anticipated loss on the contract, the Company recognizes the total loss in the quarter it is identified.

The impact of adjustments in contract estimates on the Company's operating earnings can be reflected in either operating costs and expenses or revenue. The aggregate impact of adjustments in contract estimates on revenue related to performance obligations satisfied or partially satisfied in previous periods was not significant for the three or six month periods ended October 27, 2018 and October 28, 2017. No adjustment on any one contract was material to the Company's unaudited consolidated financial statements for the three and six month periods ended October 27, 2018 and October 28, 2017.

Revenue by Category

Revenue from products and services during the six months ended October 27, 2018 consisted of revenue derived from over 230 active contracts. The following tables present the Company's revenue disaggregated by major product line, contract type, customer category and geographic location (in thousands):

	Three Months Ended		Six Months Ended	
	October 27, 2018	October 28, 2017	October 27, 2018	October 28, 2017
Revenue by major product line/program				
Small UAS	\$ 42,199	\$ 47,021	\$ 83,415	\$ 67,082

Total revenue	\$ 72,979	\$ 65,801	\$ 151,022	\$ 100,162

Table of Contents

Each of these contract types presents advantages and disadvantages. Typically, the Company assumes more risk with FFP contracts. However, these types of contracts generally offer additional profits when the Company completes the work for less than originally estimated. CPFF contracts generally subject the Company to lower risk. Accordingly, the associated base fees are usually lower than fees on FFP contracts. Under T&M contracts, the Company's profit may vary if actual labor hour rates vary significantly from the negotiated rates.

	Three Months Ended		Six Months Ended

Total revenue	\$ 72,979	\$ 65,801	\$ 151,022	\$ 100,162

Contract Balances

The timing of revenue recognition, billings and cash collections results in billed accounts receivable, unbilled receivables, and customer advances and deposits on the consolidated balance sheet. In the Company's services contracts, amounts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals, which is generally monthly, or upon the achievement of contractual milestones. Generally, billing occurs subsequent to revenue recognition, resulting in contract assets recorded in "Unbilled receivables and retentions" on the consolidated balance sheet. However, the Company sometimes receives advances or deposits from its customers before revenue is recognized, resulting in contract liabilities recorded in "Customer advances" on the consolidated balance sheet. Contract liabilities are not a significant financing component as they are generally utilized to pay for contract costs within a one-year period or are used to ensure the customer meets contractual requirements. These assets and liabilities are reported on the consolidated balance sheet on a contract-by-contract basis at the end of each reporting period. For the Company's product revenue, the Company generally receives cash payments subsequent to satisfying the performance obligation via delivery of the product, resulting in billed accounts receivable. Changes in the contract asset and liability balances during the six-month period ended October 27, 2018 were not materially impacted by any other factors. For the Company's contracts, there are no significant gaps between the receipt of payment and the transfer of the associated goods and services to the customer for material amounts of consideration.

Revenue recognized for the three month periods ended October 27, 2018 and October 28, 2017 that was included in contract liability balances at the beginning of each year were \$6,000 and \$0, respectively; and revenue recognized for

the six month periods ended October 27, 2018 and October 28, 2017 that was included in contract liability balances at the beginning of each year were \$1,554,000 and \$764,000, respectively.

Segments

Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the Chief Operating Decision Maker (“CODM”) in deciding how to allocate resources and in assessing performance. The Company’s CODM, who is the Chief Executive Officer, makes operating decisions, assesses performance and makes resource allocation decisions, including the focus of R&D, on a consolidated basis for the Company’s continuing operations. Accordingly, the Company operates its business as a single reportable segment.

Investments

The Company’s investments are accounted for as held-to-maturity and reported at amortized cost and fair value,

Table of Contents

respectively.

Fair Values of Financial Instruments

Fair values of cash and cash equivalents, accounts receivable, unbilled receivables and retentions, and accounts payable approximate cost due to the short period of time to maturity.

Government Contracts

Payments to the Company on government CPFF or T&M contracts are based on provisional, or estimated indirect rates, which are subject to an annual audit by the Defense Contract Audit Agency (“DCAA”). The cost audits result in the negotiation and determination of the final indirect cost rates that the Company may use for the period(s) audited. The final rates, if different from the provisional rates, may create an additional receivable or liability for the Company.

For example, during the course of its audits, the DCAA may question the Company’s incurred costs, and if the DCAA believes the Company has accounted for such costs in a manner inconsistent with the requirements under Federal Acquisition Regulations, the DCAA auditor may recommend to the Company’s administrative contracting officer to disallow such costs. Historically, the Company has not experienced material disallowed costs as a result of government audits. However, the Company can provide no assurance that the DCAA or other government audits will not result in material disallowances for incurred costs in the future.

The Company’s revenue recognition policy calls for revenue recognized on all CPFF or T&M government contracts to be recorded at actual rates unless collectability is not reasonably assured. During the fiscal year ended April 30, 2017, the Company settled rates for its incurred cost claims with the DCAA for fiscal years 2011 through 2014 without payment of any consideration. At October 27, 2018 and April 30, 2018, the Company had \$179,000 and \$77,000 reserved for incurred cost claim audits, respectively.

Earnings Per Share

Basic earnings per share is computed using the weighted-average number of common shares outstanding, excluding shares of unvested restricted stock.

Edgar Filing: AeroVironment Inc - Form 10-Q

The reconciliation of basic to diluted shares is as follows (in thousands except share data):

	Three Months Ended		Six Months Ended	
	October 27, 2018	October 28, 2017	October 27, 2018	October 28, 2017
Income (loss) from Continuing operations attributable to AeroVironment	\$ 7,047	\$ 7,756	\$ 27,384	\$ 3,385
Discontinued operations, net of tax	(990)	(33)	6,003	(1,521)
Net income attributable to AeroVironment	\$ 6,057	\$ 7,723	\$ 33,387	\$ 1,864
Denominator for basic earnings per share:				
Weighted average common shares	23,667,400	23,477,914	23,621,720	23,407,500
Dilutive effect of employee stock options, restricted stock and restricted stock units	431,433	355,045	437,674	308,497
Denominator for diluted earnings per share	24,098,833	23,832,959	24,059,394	23,715,997

Potentially dilutive shares not included in the computation of diluted weighted-average common shares because their effect would have been anti-dilutive were 598 and 7,130 for the three and six months ended October 27, 2018, respectively. There were no potentially dilutive shares for the three months ended October 27, 2018. Potentially dilutive shares not included in the computation of diluted weighted average common shares because their effect would have been antidilutive were 14,820 for the six months ended October 28, 2017, respectively.

Table of Contents

Recently Issued Accounting Standards

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). This ASU requires the lessee to recognize the assets and liabilities for the rights and obligations created by leases with terms of 12 months or more. The guidance is effective for fiscal years beginning after December 15, 2018 and interim periods therein, with early adoption permitted. The Company plans to adopt Topic 842 using the required modified retrospective approach with the election to recognize a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption. The Company currently does not hold a large number of leases that are classified as operating leases under the existing lease standard, with the only significant leases being the Company's various property leases. The Company is evaluating the potential impact of this adoption on its consolidated financial statements.

In February 2018, the FASB issued ASU 2018-02, Reclassification of Certain Tax Effects from Accumulated Other

Comprehensive Income. This ASU permits but does not require the Company to reclassify the disproportionate income tax effects of the Tax Cuts and Jobs Act of 2017 (the "Tax Act") on items within AOCI to retained earnings. The guidance is effective for fiscal years beginning after December 15, 2018 and interim periods therein, with early adoption permitted. The Company is evaluating the potential impact of this adoption on its consolidated financial statements.

2. Discontinued Operations

On June 29, 2018, the Company completed the sale of the EES Business to Webasto. In accordance with the terms of the Purchase Agreement, as amended by a Side Letter Agreement executed at the closing, the Company received cash consideration of \$31,994,000 upon closing, which resulted in a gain of \$11,420,000 which has been recorded in "Gain on sale of business, net of tax" in the consolidated statements of operations. During the three-months ended October 27, 2018, the Company recorded a reduction to the gain resulting from a working capital adjustment of \$504,000. In addition, the Company is in the process of submitting a Webasto working capital dispute in the amount of \$1,085,000 to an independent accounting firm for resolution pursuant to the terms of the Purchase Agreement. No amounts have been recorded in the consolidated financial statements related to the additional working capital dispute as Company has assessed the likelihood of a loss to be less than probable.

The Company is entitled to receive additional cash consideration of \$6,500,000 (the "Holdback") upon tendering consents to assignment of two remaining customer contracts to Webasto. The Holdback was not recorded in the Company's consolidated financial statements as the amount was not realized or realizable as of October 27, 2018. The Company's satisfaction of the requirements for the payment of the Holdback is currently in dispute.

During the three months ended October 27, 2018, Webasto filed a recall report with the National Highway Traffic Safety Administration that named certain of the Company's EES products as subject to the recall. The Company is continuing to assess the facts giving rise to the recall. Under the terms of the Purchase Agreement, the Company may be responsible for certain costs of such recall of named products the Company manufactured, sold or serviced prior to the closing of the sale of the EES Business.

Concurrent with the execution of the Purchase Agreement, the Company entered into a transition services agreement (the "TSA") to provide certain general and administrative services to Webasto for a defined period. Income from performing services under the TSA income of \$1,221,000 and \$1,620,000 has been recorded in "Other income, net" in the consolidated statements of operations for three and six months ended October 27, 2018, respectively.

Table of Contents

The Company determined that the EES Business met the criteria for classification as an asset held for sale as of April 30, 2018 and represents a strategic shift in in the Company's operations. Therefore, the assets and liabilities and the results of operations of the EES Business are reported as discontinued operations for all periods presented. The table below presents the statements of operations data for the EES Business (in thousands).

	Three Months Ended		Six Months Ended

3. Investments

Investments consist of the following (in thousands):

	October 27, 2018	April 30, 2018
Short-term investments:		
Held-to-maturity securities:		
Municipal securities	\$ 14,326	\$ 35,344
U.S. government securities	36,948	31,620
Corporate bonds	82,262	46,685
Certificates of deposit	5,000	—
Total held-to-maturity and short-term investments	\$ 138,536	\$ 113,649
Long-term investments:		
Held-to-maturity securities:		
Municipal securities	\$ 993	\$ 2,046
U.S. government securities	26,746	27,356
Corporate bonds	2,720	9,112
Total held-to-maturity investments	30,459	38,514
Available-for-sale securities:		
Auction rate securities	—	2,142
Total available-for-sale investments	—	2,142
Total long-term investments	\$ 30,459	\$ 40,656

Held-To-Maturity Securities

As of October 27, 2018 and April 30, 2018, the balance of held-to-maturity securities consisted of state and local government municipal securities, U.S. treasury securities, U.S. government-guaranteed agency securities, U.S. government-sponsored agency debt securities, highly rated corporate bonds, and certificates of deposit. Interest earned from these investments is recorded in interest income.

The amortized cost, gross unrealized gains, gross unrealized losses, and estimated fair value of the held-to-maturity investments as of October 27, 2018 were as follows (in thousands):

October 27, 2018

Gross

Gross

Edgar Filing: AeroVironment Inc - Form 10-Q

	Amortized Cost	Unrealized Gains	Unrealized Losses	Fair Value
Municipal securities	\$ 15,319	\$ —	\$ (12)	\$ 15,307

Certificates of deposit	5,000	—	—	5,000
Total held-to-maturity investments	\$ 168,995	\$ 5	\$ (359)	\$ 168,641

Table of Contents

The amortized cost, gross unrealized gains, gross unrealized losses, and estimated fair value of the held-to-maturity investments as of April 30, 2018 were as follows (in thousands):

	April 30, 2018			
	Amortized	Gross	Gross	Fair
	Cost	Unrealized	Unrealized	Value
		Gains	Losses	
Municipal securities	\$ 37,390	\$ 9	\$ (36)	\$ 37,363
U.S. government securities	58,976	—	(367)	58,609
Corporate bonds	55,797	2	(71)	55,728
Certificates of deposit	—	—	—	—
Total held-to-maturity investments	\$ 152,163	\$ 11	\$ (474)	\$ 151,700

The amortized cost and fair value of the held-to-maturity securities by contractual maturity at October 27, 2018 were as follows (in thousands):

	Cost	Fair Value
Due within one year	\$ 138,536	\$ 138,270
Due after one year through five years	30,459	30,371
Total	\$ 168,995	\$ 168,641

Available-For-Sale Securities

Auction Rate Securities

As of April 30, 2018, the balance of available-for-sale auction rate securities consisted of two investment grade auction rate municipal bonds with maturities ranging from 1 to 16 years. These investments have characteristics similar to short term investments, because at predetermined intervals, generally ranging from 30 to 35 days, there is a new auction process at which the interest rates for these securities are reset to current interest rates. At the end of such period, the Company chooses to roll over its holdings or redeem the investments for cash. A market maker facilitates the redemption of the securities and the underlying issuers are not required to redeem the investment within 365 days. Interest earned from these investments is recorded in interest income.

During the three months ended July 28, 2018, the remaining investment grade auction rate municipal bonds were redeemed at par value.

The amortized cost, gross unrealized gains, gross unrealized losses, and estimated fair value of the auction rate securities as of April 30, 2018, were as follows (in thousands):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Auction rate securities	\$ 2,250	\$ —	\$ (108)	\$ 2,142
Total available-for-sale investments	\$ 2,250	\$ —	\$ (108)	\$ 2,142

Table of Contents

4. Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The fair value hierarchy contains three levels as follows:

- Level 1—Inputs to the valuation based upon quoted prices (unadjusted) for identical assets or liabilities in active markets that are accessible as of the measurement date.
- Level 2—Inputs to the valuation include quoted prices in either markets that are not active, or in active markets for similar assets or liabilities, inputs other than quoted prices that are observable, and inputs that are derived principally from or corroborated by observable market data.
- Level 3—Inputs to the valuation that are unobservable inputs for the asset or liability.

The Company did not have any financial assets measured at fair value on a recurring basis at October 27, 2018 as the Company's remaining auction rate securities were redeemed during the three months ended July 28, 2018 at par value. The following table provides a reconciliation between the beginning and ending balances of items measured at fair value on a recurring basis that used significant unobservable inputs (Level 3) (in thousands):

Description	Fair Value Measurements Using Significant Unobservable Inputs (Level 3)
Balance at May 1, 2018	\$ 2,142
Transfers to Level 3	—
Total gains (realized or unrealized)	—
Included in earnings	—
Included in other comprehensive income	108
Settlements	(2,250)
Balance at October 27, 2018	\$ —
The amount of total gains or (losses) for the period included in earnings attributable to the change in unrealized gains or losses relating to assets still held at October 27, 2018	\$ —

The auction rate securities were valued using a discounted cash flow model. The analysis considered, among other items, the collateralization underlying the security investments, the creditworthiness of the counterparty, the timing of expected future cash flows and the estimated date upon which the security is expected to have a successful auction.

5. Inventories, net

Inventories consist of the following (in thousands):

	October 27, 2018	April 30, 2018
Raw materials	\$ 14,271	\$ 12,020
Work in process	12,311	14,780
Finished goods	24,241	14,578
Inventories, gross	50,823	41,378
Reserve for inventory excess and obsolescence	(4,727)	(3,953)
Inventories, net	\$ 46,096	\$ 37,425

Table of Contents

6. Equity Method Investments

In December 2017, the Company and SoftBank formed a joint venture, HAPSMobile. HAPSMobile is a Japanese corporation that is 5% owned by the Company and 95% owned by SoftBank and is governed by a Joint Venture Agreement (the “JVA”). The Company purchased its 5% stake in HAPSMobile for 210,000,000 yen (\$1,860,000) effective as of December 27, 2017 and 150,000,000 yen (\$1,407,000) on April 17, 2018. Under the JVA, the Company committed to make an additional capital contribution of 209,500,000 yen (approximately \$1,900,000) in or around January 2019 to maintain its 5% ownership stake. Additionally, under the JVA, the Company may purchase additional shares of HAPSMobile, at the same per share price for the purchase of its original 5% stake, to increase its ownership percentage of HAPSMobile up to 19% prior to the first flight test of the prototype aircraft produced under a design and development agreement between HAPSMobile and the Company.

As the Company has the ability to exercise significant influence over the operating and financial policies of HAPSMobile, the Company’s investment is accounted for as an equity method investment. For the three and six months ended October 27, 2018, the Company recorded 5% of the net loss of HAPSMobile, or \$752,000 and \$1,354,000, respectively, in “Equity method investment activity, net of tax” in the unaudited consolidated statement of operations. At October 27, 2018, the carrying value of the investment in HAPSMobile was \$625,000 and was recorded in “Other assets.”

7. Warranty Reserves

The Company accrues an estimate of its exposure to warranty claims based upon both current and historical product sales data and warranty costs incurred. The warranty reserve is included in other current liabilities. The related expense is included in cost of sales. Warranty reserve activity is summarized as follows for the three and six months ended October 27, 2018 and October 28, 2017, respectively (in thousands):

	Three Months Ended		Six Months Ended	
	October 27, 2018	October 28, 2017	October 27, 2018	October 28, 2017
Beginning balance	\$ 3,138	\$ 1,624	\$ 2,090	\$ 1,947
Warranty expense	(249)	632	361	911
Changes in estimates related to pre-existing warranties	(219)	—	493	—
Warranty costs settled	(239)	(326)	(513)	(928)
Ending balance	\$ 2,431	\$ 1,930	\$ 2,431	\$ 1,930

During the six months ended October 27, 2018, the Company revised its estimates based on the results of additional engineering studies and recorded incremental warranty reserve charges totaling \$519,000 related to the estimated costs

to repair a component of certain small UAS that were delivered in prior periods. At October 27, 2018, the total remaining warranty reserve related to the estimated costs to repair the impacted UAS was \$493,000. As of October 27, 2018 a total of \$26,000 of costs related to this warranty have been incurred.

8. Intangibles

Intangibles are included in other assets on the consolidated balance sheets. The components of intangibles are as follows:

	October 27, 2018	April 30, 2018
	(In thousands)	
Licenses	\$ 1,006	\$ 818
Customer relationships	733	733
Trademarks and tradenames	28	28
Other	3	3
Intangibles, gross	1,770	1,582
Less accumulated amortization	(1,104)	(954)
Intangibles, net	\$ 666	\$ 628

Table of Contents

The customer relationships, trademarks and tradenames, and other intangible assets were recognized in conjunction with the Company's acquisition of a controlling interest in Altoy on February 1, 2017.

9. Accumulated Other Comprehensive Income (Loss) and Reclassifications Adjustments

The components of accumulated other comprehensive loss and adjustments are as follows (in thousands):

	Available-for-Sale Securities	Foreign Currency Translation Adjustments	Accumulated Other Comprehensive Income (Loss)
Balance, net of \$76 of taxes, as of April 30, 2018	\$ (57)	\$ 36	\$ (21)
Reclassifications out of accumulated other comprehensive loss, net of taxes	—	—	—
Change in foreign currency translation adjustments, net of \$0 taxes	—	(31)	(31)
Unrealized gains, net of \$51 of taxes	57	—	57
Balance, net of \$0 of taxes, as of October 27, 2018	\$ —	\$ 5	\$ 5

10. Customer-Funded Research & Development

Customer-funded R&D costs are incurred pursuant to contracts (revenue arrangements) to perform R&D activities according to customer specifications. These costs are direct contract costs and are expensed to cost of sales as costs are incurred. Revenue from customer-funded R&D contracts are recognized in accordance with Topic 606 over time as costs are incurred. Revenue from customer-funded R&D was approximately \$18,790,000 and \$35,907,000 for the three and six months ended October 27, 2018, respectively. Revenue from customer-funded R&D was approximately \$11,864,000 and \$20,662,000 for the three and six months ended October 28, 2017, respectively.

11. Long-Term Incentive Awards

During the three months ended July 28, 2018, the Company granted awards under its amended and restated 2006 Equity Incentive Plan (the "Restated 2006 Plan") to key employees ("Fiscal 2019 LTIP"). Awards under the Fiscal 2019 LTIP consist of: (i) time-based restricted stock awards which vest in equal tranches in July 2019, July 2020 and July

2021, and (ii) performance-based restricted stock units (“PRSUs”) which vest based on the Company’s achievement of revenue and operating income targets for the three-year period ending April 30, 2021. At the award date, target achievement levels for each of the financial performance metrics were established for the PRSUs, at which levels the PRSUs would vest at 100% for each such metric. Threshold achievement levels for which the PRSUs would vest at 50% for each such metric and maximum achievement levels for which such awards would vest at 200% for each such metric were also established. The actual payout for the PRSUs at the end of the performance period will be calculated based upon the Company’s achievement of the established revenue and operating income targets for the performance period. Settlement of the PRSUs will be made in fully-vested shares of common stock. As of October 27, 2018, the Company recorded \$255,000 of compensation expense related to the Fiscal 2019 LTIP. At October 27, 2018, the maximum compensation expense that may be recorded for the performance-based portion of the Fiscal 2019 LTIP is \$3,733,000.

During the three months ended July 29, 2017, the Company granted awards under the Restated 2006 Plan to key employees (“Fiscal 2018 LTIP”). Awards under the Fiscal 2018 LTIP consist of: (i) time-based restricted stock awards which vest in equal tranches in July 2018, July 2019 and July 2020, and (ii) PRSUs which vest based on the Company’s achievement of revenue and operating income targets for the three-year period ending April 30, 2020. At the award date, target achievement levels for each of the financial performance metrics were established for the PRSUs, at which levels the PRSUs would vest at 100% for each such metric. Threshold achievement levels for which the PRSUs would vest at 50% for each such metric and maximum achievement levels for which such awards would vest at 200% for each such metric were also established. The actual payout for the PRSUs at the end of the performance period will be calculated based upon the Company’s achievement of the established revenue and operating income targets for the performance period. Settlement of the PRSUs will be made in fully-vested shares of common stock. As of October 27, 2018, the Company recorded \$603,000 of compensation expense related to the Fiscal 2018 LTIP. At October 27, 2018, the maximum compensation expense that may be recorded for the performance-based portion of the Fiscal 2018 LTIP is \$2,850,000.

Table of Contents

During the three months ended July 29, 2017, the Company also granted awards under the Restated 2006 Plan to key employees (“Fiscal 2017 LTIP”). Awards under the Fiscal 2017 LTIP consist of: (i) time-based restricted stock awards which vest in equal tranches in July 2017, July 2018 and July 2019, and (ii) PRSUs which vest based on the Company’s achievement of revenue and operating income targets for the three-year period ending April 30, 2019. At the award date, target achievement levels for each of the financial performance metrics were established for the PRSUs, at which levels the PRSUs would vest at 100% for each such metric. Threshold achievement levels for which the PRSUs would vest at 50% for each such metric and maximum achievement levels for which such awards would vest at 200% for each such metric were also established. The actual payout for the PRSUs at the end of the performance period will be calculated based upon the Company’s achievement of the established revenue and operating income targets for the performance period. Settlement of the PRSUs will be made in fully-vested shares of common stock. As of October 27, 2018, the Company recorded \$289,000 of compensation expense related to the Fiscal 2017 LTIP. At October 27, 2018, the maximum compensation expense that may be recorded for the performance-based portion of the Fiscal 2017 LTIP is \$2,630,000.

At each reporting period, the Company reassesses the probability of achieving the performance targets. The estimation of whether the performance targets will be achieved requires judgment, and, to the extent actual results or updated estimates differ from the Company’s current estimates, the cumulative effect on current and prior periods of those changes will be recorded in the period estimates are revised.

12. Income Taxes

On December 22, 2017, the Tax Act was signed into law, which resulted in significant changes to the Internal Revenue Code. Changes include, but are not limited to, a corporate tax rate decrease from 35% to 21% effective for tax years beginning after December 31, 2017, repeal of the corporate alternative minimum tax, repeal of the deduction for domestic production activities, a deduction for certain Foreign Derived Intangible Income (“FDII”), and limitation on the deductibility of certain executive compensation.

In accordance with ASC 740, Income Taxes, the Company is required to record the effects of tax law changes in the period enacted. As the Company has an April 30 fiscal year end, its U.S. federal corporate income tax rate was blended in fiscal 2018, resulting in a statutory federal rate of approximately 30.4% (8 months at 35% and 4 months at 21%), and 21% for subsequent fiscal years. The Company remeasured its existing deferred tax assets and liabilities at the rate the Company expects to be in effect when those deferred taxes will be realized and recorded a one-time deferred tax expense of approximately \$3,300,000 during the fiscal year ended April 30, 2018.

The Company followed the guidance in SEC Staff Accounting Bulletin 118 (“SAB 118”), which provides additional clarification regarding the application of ASC Topic 740 in situations where the Company does not have the necessary information available, prepared, or analyzed in reasonable detail to complete the accounting for certain income tax

effects of the Tax Act for the reporting period in which the Act was enacted. SAB 118 provides for a measurement period beginning in the reporting period that includes the Act's enactment date and ending when the Company has obtained, prepared, and analyzed the information needed in order to complete the accounting requirements but in no circumstances should the measurement period extend beyond one year from the enactment date.

The \$3,300,000 expense for the one-time deferred tax remeasurement is a provisional estimate of the impact of the Tax Act. In addition, for the year ending April 30, 2019 the Company has estimated that the FDII deduction will benefit the Company's full year estimated effective tax rate by approximately 2% and that it will not have an income tax payable as a result of the one-time deemed repatriation transition tax on unrepatriated foreign earnings. These amounts are considered provisional because they use estimates for which final tax computations or returns have not been completed and because estimated amounts may be impacted by future regulatory and accounting guidance if and when issued.

The Company's financial statements do not reflect the impact of certain aspects of the Tax Act as the Company did not have the necessary information available, prepared, or analyzed (including computations), or because sufficient guidance has not been issued in order to determine an actual or provisional amount for the tax effects of the Act. To date, these

Table of Contents

aspects include the new compensation related provisions under section 162(m) and the state income tax conformity to the Tax Act.

For the three and six months ended October 27, 2018, the Company recorded a provision for income taxes of \$1,211,000 and \$3,778,000, respectively, yielding effective tax rates of 13.5% and 11.6%, respectively. For the three and six months ended October 28, 2017, the Company recorded a provision for income taxes of \$3,358,000 and \$137,000, respectively, yielding effective tax rates of 30.8% and 4.2%, respectively. The variance from statutory rates for the three and six months ended October 27, 2018 was primarily due to federal R&D credits and the recording of discrete excess tax benefits of \$357,000 and \$1,507,000, respectively, resulting from the vesting of restricted stock awards and exercises of stock options. The variance from statutory rates for the three and six months ended October 28, 2017 was primarily due to federal R&D credits and the recording of discrete excess tax benefits of \$376,000 and \$1,401,000 resulting from the vesting of restricted stock awards and exercises of stock options.

13. Share Repurchase

In September 2015, the Company's Board of Directors authorized a program to repurchase up to \$25,000,000 of the Company's common stock with no specified termination date for the program. No shares were repurchased under the program during the three and six months ended October 27, 2018. As of October 27, 2018 and April 30, 2018, approximately \$21.2 million remained authorized for future repurchases under this program.

14. Related Party Transactions

Related party transactions are defined as transactions between the Company and entities either controlled by the Company or that the Company can significantly influence. Although SoftBank has a controlling interest in HAPSMobile, the Company determined that it has the ability to exercise significant influence over HAPSMobile. As such, HAPSMobile and SoftBank are considered related parties of the Company. Concurrent with the formation of HAPSMobile, the Company executed a Design and Development Agreement (the "DDA") with HAPSMobile. Under the DDA, the Company will use its best efforts, up to a maximum net value of \$76,589,000, to design and build prototype solar powered high altitude aircraft and ground control stations for HAPSMobile and conduct low altitude and high altitude flight tests of the prototype aircraft.

The Company recorded revenue under the DDA and preliminary design agreements between the Company and SoftBank of \$12,832,000 and \$24,395,000 for the three and six months ended October 27, 2018, respectively. The Company recorded revenue under the DDA and preliminary design agreements between the Company and SoftBank of \$7,071,000 and \$9,622,000 for the three and six months ended October 28, 2017, respectively. At October 27, 2018 and April 30, 2018, the Company had unbilled related party receivables from HAPSMobile of \$7,764,000 and \$3,145,000 recorded in "Unbilled receivables and retentions" on the consolidated balance sheets, respectively. During

the year ended April 30, 2018, the Company purchased a 5% stake in accordance with the JVA. Refer to Note 6—Equity Method Investments for further details.

15. Legal Settlements

In May 2018, the Company entered into a settlement agreement to dismiss its claims against MicaSense Inc. and former AeroVironment employees, Gabriel Torres, Justin McAllister, and Jeff McBride. The terms and amount of the settlement agreement are confidential. The proceeds of the settlement were received during the three months ended July 28, 2018 and have been recorded in “Other income, net” on the consolidated statements of operations.

Table of Contents

16. Impact of Adoption of New Accounting Standards

During the three months ended July 28, 2018, the Company adopted ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606). The impact to the Company's unaudited balance sheet as a result of adopting the standard was as follows (in thousands):

	April 30, 2018 As Reported	Effect of the Adoption of ASC Topic 606	April 30, 2018 As Adjusted

ITEM 2.MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following is a discussion and analysis of our financial condition and the results of operations as of and for the periods presented below. The following discussion and analysis should be read in conjunction with the “Consolidated Financial Statements” and notes thereto included elsewhere in this Quarterly Report on Form 10-Q. This section and other parts of this Quarterly Report on Form 10-Q contain forward-looking statements that involve risks and uncertainties. In some cases, forward-looking statements can be identified by words such as “anticipates,” “believes,” “could,” “estimates,” “expects,” “intends,” “may,” “plans,” “potential,” “predicts,” “projects,” “should,” “will,” “would” or similar. Such forward-looking statements are based on current expectations, estimates and projections about our industry, our management’s beliefs and assumptions made by our management. Forward-looking statements are not guarantees of future performance and our actual results may differ significantly from the results discussed in the forward-looking statements. Factors that might cause such differences include, but are not limited to, those discussed in Part I, Item 1A, “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended April 30, 2018, as updated by our subsequent filings under the Securities and Exchange Act of 1934, as amended (“the Exchange Act”).

Unless required by law, we expressly disclaim any obligation to update publicly any forward-looking statements, whether as result of new information, future events or otherwise.

Critical Accounting Policies and Estimates

The following should be read in conjunction with the critical accounting estimates presented in our Annual Report on Form 10-K for the fiscal year ended April 30, 2018.

Management’s Discussion and Analysis of Financial Condition and Results of Operations discusses our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. When we prepare these consolidated financial statements, we are required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Some of our accounting policies require that we make subjective judgments, including estimates that involve matters that are inherently uncertain. Our most critical estimates include those related to revenue recognition, inventories and reserves for excess and obsolescence, warranty liabilities, self-insured liabilities, accounting for stock-based awards, and income taxes. We base our estimates and judgments on historical experience and on various other factors that we believe to be reasonable under the circumstances, the results of which form the basis for our judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Our actual results may differ from these estimates under different assumptions or conditions.

In the first quarter of our fiscal 2019, we adopted ASU 2014-09, Revenue from Contracts with Customers (Topic 606), using the full retrospective method. Topic 606 requires revenue to be recognized when promised goods or services are transferred to customers in amounts that reflect the consideration to which we expect to be entitled in exchange for those goods or services.

Revenue for small unmanned aircraft systems (“UAS”) product contracts with both the U.S. government and foreign government’s under the new standard revenue will be recognized at the point in time when the transfer of control passes to the customer, which is generally when title and risk of loss transfer. Revenue for Tactical Missile Systems (“TMS”) contracts will now be recognized under the new standard over time as costs are incurred. Under previous U.S. generally accepted accounting principles (U.S. GAAP), revenue was generally recognized when deliveries of the related products were made. The new standard accelerates the timing of when the revenue is recognized, however, it does not change the total amount of revenue recognized on these contracts. The new standard does not affect revenue recognition for our Customer-Funded Research and Development (“R&D”) contracts. We continue to recognize revenue for these contracts over time as costs are incurred.

We review cost performance and estimates-to-complete at least quarterly and in many cases more frequently. Adjustments to original estimates for a contract’s revenue, estimated costs at completion and estimated profit or loss are

Table of Contents

often required as work progresses under a contract, as experience is gained and as more information is obtained, even though the scope of work required under the contract may not change, or if contract modifications occur. The impact of revisions in estimate of completion for all types of contracts are recognized on a cumulative catch-up basis in the period in which the revisions are made. During the three and six months ended October 27, 2018 and October 28, 2017, changes in accounting estimates on contracts recognized over time are presented below.

For the three months ended October 27, 2018 and October 28, 2017, favorable and unfavorable cumulative catch-up adjustments included in revenue were as follows (in thousands):

	Three Months Ended	
	October 27, 2018	October 28, 2017
Gross favorable adjustments	\$ 358	\$ 2,042
Gross unfavorable adjustments	(324)	(1,686)
Net favorable adjustments	\$ 34	\$ 356

For the three months ended October 27, 2018, favorable cumulative catch-up adjustments of \$0.4 million were primarily due to final cost adjustments on 16 contracts, which individually were not material. For the same period, unfavorable cumulative catch-up adjustments of \$0.3 million were primarily related to higher than expected costs on 24 contracts, which individually were not material.

For the three months ended October 28, 2017, favorable cumulative catch-up adjustments of \$2.0 million were primarily due to final cost adjustments on three contracts, which individually were not material. For the same period, unfavorable cumulative catch-up adjustments of \$1.7 million were primarily related to higher than expected costs on five contracts, which individually were not material.

For the six months ended October 28, 2017 and October 28, 2017, favorable and unfavorable cumulative catch-up adjustments included in cost of sales were as follows (in thousands):

	Six Months Ended	
	October 27, 2018	October 28, 2017
Gross favorable adjustments	\$ 622	\$ 724
Gross unfavorable adjustments	(465)	(1,498)

Net favorable adjustments	\$ 157	\$ (774)
---------------------------	--------	----------

For the six months ended October 27, 2018, favorable cumulative catch-up adjustments of \$0.6 million were primarily due to final cost adjustments on nine contracts, which individually were not material. For the same period, unfavorable cumulative catch-up adjustments of \$0.5 million were primarily related to higher than expected costs on 18 contracts, which individually were not material.

For the six months ended October 28, 2017, favorable cumulative catch-up adjustments of \$0.7 million were primarily due to final cost adjustments on seven contracts, which individually were not material. For the same period, unfavorable cumulative catch-up adjustments of \$1.5 million were primarily related to higher than expected costs on six contracts, which individually were not material.

Fiscal Periods

Due to our fixed year end date of April 30, our first and fourth quarters each consist of approximately 13 weeks. The second and third quarters each consist of exactly 13 weeks. Our first three quarters end on a Saturday. Our 2019 fiscal year ends on April 30, 2019 and our fiscal quarters end on July 28, 2018, October 27, 2018 and January 26, 2019, respectively.

Table of Contents

Results of Operations

The following table sets forth our revenue and gross margin generated for the periods indicated (in thousands):

Three Months Ended October 27, 2018 Compared to Three Months Ended October 28, 2017

	Three Months Ended	
	October 27, 2018	October 28, 2017
Revenue	\$ 72,979	\$ 65,801
Cost of sales	44,580	35,658
Gross margin	28,399	30,143
Selling, general and administrative	13,646	12,768
Research and development	8,109	6,844
Income from operations	6,644	10,531
Other income (expense):		
Interest income, net	1,068	432
Other expense, net	1,291	(55)
Income from continuing operations before income taxes	9,003	10,908
Provision for income taxes	1,211	3,358
Equity method investment activity, net of tax	(752)	—
Net income from continuing operations	\$ 7,040	\$ 7,550

Revenue. Revenue for the three months ended October 27, 2018 was \$73.0 million, as compared to \$65.8 million for the three months ended October 28, 2017, representing an increase of \$7.2 million, or 11%. The increase in revenue was due to an increase in service revenue of \$8.5 million, partially offset by a decrease in product deliveries of \$1.3 million. The increase in service revenue was primarily due to an increase in customer-funded R&D primarily associated with the HAPSMobile design and development agreement (“DDA”) and an increase in services for TMS and TMS variant programs. The decrease in product deliveries was primarily due to a decrease in product deliveries of small UAS, partially offset by an increase in product deliveries of TMS.

Cost of Sales. Cost of sales for the three months ended October 27, 2018 was \$44.6 million, as compared to \$35.7 million for the three months ended October 28, 2017, representing an increase of \$8.9 million, or 25%. The increase in cost of sales was a result of an increase in service costs of sales of \$7.5 million and an increase in product cost of sales of \$1.4 million. The increase in service costs of sales was primarily due to the increase in service revenue and unfavorable mix. The increase in product costs was primarily due to an unfavorable product mix. As a percentage of revenue, cost of sales increased from 54% to 61%, primarily due to an increase in the proportion of service revenue to total revenue and an unfavorable mix.

Gross Margin. Gross margin for the three months ended October 27, 2018 was \$28.4 million, as compared to \$30.1 million for the three months ended October 28, 2017, representing a decrease of \$1.7 million, or 6%. The decrease in gross margin was primarily due to a decrease in product margin of \$2.7 million, partially offset by an increase in service margin of \$1.0 million. The decrease in product margin was primarily due to an unfavorable product mix and a decrease in product deliveries. The increase in service margin was primarily due to an increase in service revenue, partially offset by an unfavorable mix. As a percentage of revenue, gross margin decreased from 46% to 39%, primarily due to an increase in the proportion of service deliveries to total revenue and an unfavorable mix.

Selling, General and Administrative. Selling, general and administrative (“SG&A”) expense for the three months ended October 27, 2018 was \$13.6 million, or 19% of revenue, compared to SG&A expense of \$12.8 million, or 19% of revenue, for the three months ended October 28, 2017. The increase in SG&A expense was primarily due to an increase in a number of miscellaneous expenses that were not individually significant.

Table of Contents

Research and Development. R&D expense for the three months ended October 27, 2018 was \$8.1 million, or 11% of revenue, compared to R&D expense of \$6.8 million, or 10% of revenue, for the three months ended October 28, 2017. R&D expense increased by \$1.3 million, or 18%, for the three months ended October 27, 2018, primarily due to an increase in development activities for certain strategic initiatives.

Interest Income, net. Interest income, net for the three months ended October 27, 2018 was \$1.1 million compared to interest income, net of \$0.4 million for the three months ended October 28, 2017. The increase in interest income was primarily due to an increase in the interest rates earned on our investment portfolio.

Other Income, net. Other income, net, for the three months ended October 27, 2018 was \$1.3 million compared to other expense, net of \$0.1 million for the three months ended October 28, 2017. The increase in other income, net was primarily due to income earned under a transition services agreement with the buyer of our former efficient energy systems business segment (“EES Business”).

Provision for Income Taxes. Our effective income tax rate was 13.5% for the three months ended October 27, 2018, as compared to 30.8% for the three months ended October 28, 2017. The decrease in effective income tax rate was primarily due to the reduction in the fiscal 2019 federal statutory rate from 35% to 21% resulting from the Tax Cuts and Jobs Act of 2017 (the “Tax Act”).

Equity Method Investment Activity, net of tax. Equity method investment activity, net of tax for the three months ended October 27, 2018 was a loss of \$0.8 million compared to no equity method investment activity, net of tax activity for the three months ended October 28, 2017. The increase was due to the equity method loss associated with our investment in the HAPSMobile joint venture formed in December 2017.

Six Months Ended October 27, 2018 Compared to Six Months Ended October 28, 2017

	Six Months Ended	
	October 27, 2018	October 28, 2017
Revenue	\$ 151,022	\$ 100,162
Cost of sales:	90,034	61,321
Gross margin	60,988	38,841
Selling, general and administrative	25,602	24,055
Research and development	14,544	12,386
Income from operations	20,842	2,400

Other income (expense):

Interest income, net	1,974	944
Other expense, net	9,679	(51)
Income from continuing operations before income taxes	32,495	3,293
Provision for income taxes	3,778	137
Equity method investment activity, net of tax	(1,354)	—
Net income from continuing operations	\$ 27,363	\$ 3,156

Revenue. Revenue for the six months ended October 27, 2018 was \$151.0 million, as compared to \$100.2 million for the six months ended October 28, 2017, representing an increase of \$50.8 million, or 51%. The increase in revenue was due an increase in product deliveries of \$35.1 million and an increase in service revenue of \$15.7 million. The increase in product deliveries was primarily due to an increase in product deliveries of small UAS and an increase in product deliveries of TMS. During the six months ended October 27, 2018, we continued to experience expansion in small UAS product deliveries to international customers. The increase in service revenue was primarily due to an increase in customer-funded R&D primarily associated with the HAPSMobile DDA and services for TMS and TMS variant programs, partially offset by decreases in sustainment activities in support of small UAS.

Table of Contents

Cost of Sales. Cost of sales for the six months ended October 27, 2018 was \$90.0 million, as compared to \$61.3 million for the six months ended October 28, 2017, representing an increase of \$28.7 million, or 47%. The increase in cost of sales was a result of an increase in product cost of sales of \$15.2 million and an increase in service costs of sales of \$13.5 million. The increase in product costs was primarily due to the increase in product deliveries. The increase in service costs of sales was primarily due to the increase in service revenue and unfavorable mix. As a percentage of revenue, cost of sales decreased from 61% to 60%, primarily due to an increase in sales volume, which resulted in an decrease in the per unit fixed manufacturing and engineering overhead support cost.

Gross Margin. Gross margin for the six months ended October 27, 2018 was \$61.0 million, as compared to \$38.8 million for the six months ended October 28, 2017, representing an increase of \$22.2 million, or 57%. The increase in gross margin was primarily due to an increase in product margin of \$20.0 million and an increase in service margin of \$2.2 million. The increase in product margin was primarily due to an increase in product deliveries. The increase in service margin was primarily due to an increase in service revenue, partially offset by unfavorable mix. As a percentage of revenue, gross margin increased from 39% to 40%, primarily due to an increase in sales volume, which resulted in an decrease in the per unit fixed manufacturing and engineering overhead support cost.

Selling, General and Administrative. Selling, general and administrative (“SG&A”) expense for the six months ended October 27, 2018 was \$25.6 million, or 17% of revenue, compared to SG&A expense of \$24.1 million, or 24% of revenue, for the six months ended October 28, 2017. The increase in SG&A expense was primarily due to an increase in corporate development expenses primarily related to the sale of our EES business and an increase in employee related costs, partially offset by a decrease in litigation-related expenses and a decrease in bad debt expense.

Research and Development. R&D expense for the six months ended October 27, 2018 was \$14.5 million, or 10% of revenue, compared to R&D expense of \$12.4 million, or 12% of revenue, for the six months ended October 28, 2017. R&D expense increased by \$2.2 million, or 17%, for the six months ended October 27, 2018, primarily due to an increase in development activities for certain strategic initiatives.

Interest Income, net. Interest income, net for the six months ended October 27, 2018 was \$2.0 million compared to interest income, net of \$0.9 million for the six months ended October 28, 2017. The increase in interest income was primarily due to an increase in the interest rates earned on our investment portfolio.

Other Income, net. Other income, net, for the six months ended October 27, 2018 was \$9.7 million compared to other expense, net of \$0.1 million for the six months ended October 28, 2017. The increase in other income, net was primarily due to a litigation settlement and income earned under a transition services agreement with the buyer of our former EES Business.

Provision for Income Taxes. Our effective income tax rate was 11.6% for the six months ended October 27, 2018, as compared to 4.2% for the six months ended October 28, 2017. The increase in effective income tax rate was primarily due to an increase in income before income taxes, partially offset by the reduction in the fiscal 2019 federal statutory rate from 35% to 21% resulting from the Tax Act.

Equity Method Investment Activity, net of tax. Equity method investment activity, net of tax for the six months ended October 27, 2018 was a loss of \$1.4 million compared to no equity method investment activity, net of tax activity for the six months ended October 28, 2017. The increase was due to the equity method loss associated with our investment in the HAPSMobile joint venture formed in December 2017.

Backlog

We define funded backlog as remaining performance obligations under firm orders for which funding is currently appropriated to us under a customer contract. As of October 27, 2018, our funded backlog was approximately \$163.9 million.

In addition to our funded backlog, we also had unfunded backlog of \$51.9 million as of October 27, 2018. Unfunded backlog does not meet the definition of a performance obligation under ASC Topic 606. We define unfunded backlog as

Table of Contents

the total remaining potential order amounts under cost reimbursable and fixed price contracts with multiple one-year options, and indefinite delivery, indefinite quantity, or IDIQ contracts. Unfunded backlog does not obligate the U.S. government to purchase goods or services. There can be no assurance that unfunded backlog will result in any orders in any particular period, if at all. Management believes that unfunded backlog does not provide a reliable measure of future estimated revenue under our contracts. Unfunded backlog does not include the remaining potential value associated with a U.S. Army IDIQ-type contract for small UAS because the contract was awarded to seven companies in 2018, including AeroVironment, and we cannot be certain that we will receive task orders issued against the contract.

Because of possible future changes in delivery schedules and/or cancellations of orders, backlog at any particular date is not necessarily representative of actual sales to be expected for any succeeding period, and actual sales for the year may not meet or exceed the backlog represented. Our backlog is typically subject to large variations from quarter to quarter as existing contracts expire or are renewed or new contracts are awarded. A majority of our contracts, specifically our IDIQ contracts, do not currently obligate the U.S. government to purchase any goods or services. Additionally, all U.S. government contracts included in backlog, whether or not they are funded, may be terminated at the convenience of the U.S. government.

Liquidity and Capital Resources

We currently have no material cash commitments, except for normal recurring trade payables, accrued expenses and ongoing R&D costs, all of which we anticipate funding through our existing working capital and funds provided by operating activities. The majority of our purchase obligations are pursuant to funded contractual arrangements with our customers. In addition, we believe that our existing cash, cash equivalents, cash provided by operating activities and other financing sources will be sufficient to meet our anticipated working capital and capital expenditure requirements during the next twelve months. There can be no assurance, however, that our business will continue to generate cash flow at current levels. If we are unable to generate sufficient cash flow from operations, then we may be required to sell assets, reduce capital expenditures or obtain financing. We anticipate that existing sources of liquidity and cash flows from operations will be sufficient to satisfy our cash needs for the foreseeable future.

Our primary liquidity needs are for financing working capital, investing in capital expenditures, supporting product development efforts, introducing new products, enhancing existing products and marketing to stimulate acceptance and adoption of our products and services. Our future capital requirements, to a certain extent, are also subject to general conditions in or affecting the defense and commercial industries and are subject to general economic, political, financial, competitive, legislative and regulatory factors that are beyond our control. To the extent that existing cash, cash equivalents, and cash from operations are insufficient to fund our future activities, we may need to raise additional funds through public or private equity or debt financing. We may also need to seek additional equity funding or debt financing if we become a party to any agreement or letter of intent for potential investments in, or acquisitions of, businesses, services or technologies.

Our working capital requirements vary by contract type. On cost-plus-fee programs, we typically bill our incurred costs and fees monthly as work progresses, and therefore working capital investment is minimal. On fixed-price contracts, we typically are paid as we deliver products, and working capital is needed to fund labor and other expenses incurred during the lead time from contract award until contract deliveries begin.

Table of Contents

Cash Flows

The following table provides our cash flow data for the six months ended October 27, 2018 and October 28, 2017 (in thousands):

	Six Months Ended	
	October 27, 2018	October 28, 2017
	(Unaudited)	
Net cash provided by operating activities	\$ 2,657	\$ 29,994
Net cash provided by investing activities	\$ 13,736	\$ 11,990
Net cash (used in) provided by financing activities	\$ (1,015)	\$ 1,678

Cash Provided by Operating Activities. Net cash provided by operating activities for the six months ended October 27, 2018 decreased by \$27.3 million to \$2.7 million, compared to net cash provided by operating activities of \$30.0 million for the six months ended October 28, 2017. The decrease in net cash provided by operating activities was primarily due to a decrease in cash as a result of changes in operating assets and liabilities of \$50.6 million, largely resulting from increases in unbilled receivables and retentions primarily due to the timing of revenue recognition and billings, partially offset by an increase in net income from continuing operations of \$24.2 million.

Cash Provided by Investing Activities. Net cash provided by investing activities increased by \$1.7 million to \$13.7 million for the six months ended October 27, 2018, compared to net cash provided by investing activities of \$12.0 million for the six months ended October 28, 2017. The increase in net cash provided by investing activities was primarily due to proceeds from the sale of our EES Business of \$32.0 million and an increase in redemptions of available-for-sale investments of \$1.8 million, partially offset by a decrease in net redemptions and purchases of investments of \$33.4 million.

Cash (Used in) Provided by Financing Activities. Net cash used in financing activities increased by \$2.7 million to \$1.0 million for the six months ended October 27, 2018, compared to net cash provided by financing activities of \$1.7 million for the six months ended October 28, 2017. The increase in cash used in financing activities was primarily due to a decrease in cash provided from the exercise of employee stock options of \$2.1 million.

Contractual Obligations

During the three and six months ended October 27, 2018, there were no material changes in our contractual obligations and commercial commitments from those disclosed in our Annual Report on Form 10-K for the fiscal year ended April 30, 2018.

Off-Balance Sheet Arrangements

As of October 27, 2018, we had no off balance sheet arrangements as defined in Item 303(a)(4) of the SEC's Regulation S-K.

Inflation

Our operations have not been, and we do not expect them to be, materially affected by inflation. Historically, we have been successful in adjusting prices to our customers to reflect changes in our material and labor costs.

New Accounting Standards

Please refer to Note 1 "Organization and Significant Accounting Policies" to our unaudited consolidated financial statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for a discussion of new accounting pronouncements and accounting pronouncements adopted during the six months ended October 27, 2018.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

In the ordinary course of business, we are exposed to various market risk factors, including fluctuations in interest rates, changes in general economic conditions, domestic and foreign competition, and foreign currency exchange rates.

Interest Rate Risk

It is our policy not to enter into interest rate derivative financial instruments. We do not currently have any significant interest rate exposure.

Foreign Currency Exchange Rate Risk

Since a significant part of our sales and expenses are denominated in U.S. dollars, we have not experienced significant foreign exchange gains or losses to date and do not expect to incur significant foreign exchange gains or losses in the future. We occasionally engage in forward contracts in foreign currencies to limit our exposure on non-U.S. dollar transactions.

ITEM 4. CONTROLS AND PROCEDURES

Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure.

In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of

possible controls and procedures.

As required by Rule 13a-15(b) under the Exchange Act, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as of October 27, 2018, the end of the period covered by this Quarterly Report on Form 10-Q.

Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that, as of October 27, 2018, the end of the period covered by this Quarterly Report on Form 10-Q, our disclosure controls and procedures were effective and were operating at a reasonable assurance level.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting or in other factors identified in connection with the evaluation required by paragraph (d) of Rules 13a-15 or 15d-15 under the Exchange Act that occurred during the quarter ended October 27, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act).

Table of Contents

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

On April 18, 2018, a former employee of AeroVironment, Mark Anderson, filed a lawsuit against us and Wahid Nawabi, our President and Chief Executive Officer, in the Superior Court of the State of California for the County of Los Angeles. Mr. Anderson's claims include whistle blower retaliation, race discrimination and wrongful termination related to the termination of his employment with the Company. Mr. Nawabi was subsequently dismissed as an individual defendant for the racial discrimination and wrongful terminations claims. On August 2, 2018, the defendants filed their answer to the complaint and a demurrer seeking dismissal of the whistle blower retaliation claim against Mr. Nawabi. The defendants filed a supplemental brief in support of the demurrer on October 23, 2018 and a supplemental reply in support of the demurrer on November 20, 2018. A hearing is scheduled for December 11, 2018 regarding the demurrer. Mr. Anderson is seeking special damages, general damages, punitive damages, attorneys' fees and other relief the court deems just and proper. We believe the complaint contains legal claims that are without merit and will defend ourselves vigorously.

We are subject to lawsuits, government investigations, audits and other legal proceedings from time to time in the ordinary course of our business. It is not possible to predict the outcome of any legal proceeding with any certainty. The outcome or costs we incur in connection with a legal proceeding could adversely impact our operating results and financial position.

ITEM 1A. RISK FACTORS

Except as set forth below, there have been no material changes to the risk factors disclosed under Part I, Item 1A, "Risk Factors," of our Annual Report on Form 10-K for the fiscal year ended April 30, 2018. Please refer to that section for disclosures regarding the risks and uncertainties related to our business.

The acquisition of the assets associated with our EES Business by Webasto may disrupt our business.

On June 1, 2018, we entered into an Asset Purchase Agreement (the "Purchase Agreement") with Webasto Charging Systems, Inc. ("Webasto"), pursuant to which Webasto agreed to acquire certain properties, assets and rights used or previously held for use in connection with our EES Business. On June 29, 2018, we and Webasto entered into a Side Letter Agreement related to the Purchase Agreement (the "Letter Agreement"), pursuant to which we and Webasto agreed that the purchase price to be paid by Webasto to us at the closing of the transactions contemplated by the Purchase Agreement would be reduced by \$6.5 million (the "Holdback Amount") at closing, with such balance payable

when we tendered certain consents of specified EES Business customers to Webasto. On June 29, 2018, we closed our disposition of the EES Business pursuant to the Purchase Agreement. As of November 21, 2018, we had not yet received the Holdback Amount from Webasto.

While we continue to provide transition services and other support to Webasto in connection with its acquisition of our EES Business, our post-closing activities and obligations under the Purchase Agreement and related transaction agreements may disrupt our sales and marketing or other business activities, including our relationships with customers, suppliers and other third parties, and divert management's and our employees' attention from our day-to-day operations, which may have an adverse impact on our financial performance. Further, in the event that we do not receive the Holdback Amount from Webasto or otherwise incur any further liabilities pursuant to the terms of the Purchase Agreement, our financial condition and results of operations may be negatively affected and the price per share of our common stock could decline.

We could be the subject of future product liability suits or product recalls, which could harm our business.

We may be subject to involuntary product recalls or may voluntarily conduct a product recall. The costs associated with any future product recalls could be significant. In addition, any product recall, regardless of direct costs of the recall, may harm consumer perceptions of our products and have a negative impact on our future revenues and results of operations. We also remain responsible for non-warranty costs of any recall of products we manufactured, sold or

Table of Contents

served prior to closing of our transaction with Webasto. In particular, on August 24, 2018, Webasto filed a recall report with the National Highway Traffic Safety Administration that named us as a brand of the affected equipment. To the extent we are obligated under the terms of the Purchase Agreement with Webasto or pursuant to applicable law for all or any portion of the costs incurred in connection with such recall, or any other such recall, our results of operations may be negatively affected.

In addition to government regulation, products that have been or may be developed by us may expose us to potential liability from personal injury or property damage claims by the users of such products. There can be no assurance that a claim will not be brought against us in the future. While we maintain insurance coverage for product liability claims, our insurance may be inadequate to cover any such claims. Any successful claim could significantly harm our business, financial condition and results of operations.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuer Purchases of Equity Securities

On September 24, 2015, we announced that on September 23, 2015 our Board of Directors authorized a share repurchase program (the “Share Repurchase Program”), pursuant to which we may repurchase up to \$25 million of our common stock from time to time, in amounts and at prices we deem appropriate, subject to market conditions and other considerations. Share repurchases may be executed through open market transactions or negotiated purchases and may be made under a Rule 10b5-1 plan. There is no expiration date for the program. The Share Repurchase Program does not obligate us to acquire any particular amount of common stock and may be suspended at any time by our Board of Directors. No shares were repurchased in the six months ended October 27, 2018. As of October 27, 2018, approximately \$21.2 million remained authorized for future repurchases under this program.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.
