#### Restructuring and Impairment Charges

For the three months ended March 31, 2017, the Company recorded net restructuring charges of \$6.4 million for employee termination costs. These charges primarily relate to ceasing the Company's relationship in a joint venture within the International segment, the reorganization of selling and general and administrative functions primarily within the Corporate and Variable Print segments and one facility closure in the Strategic Services segment. The Company also recorded impairment charges of \$0.5 million related to equipment associated with a facility closure in the Strategic Services segment. Additionally, the Company incurred lease termination and other restructuring charges of \$1.6 million for the three months ended March 31, 2017.

For the first quarter of 2016, the Company recorded net restructuring charges of \$4.9 million for employee termination costs. These charges primarily related to two facility closures in the International segment and the reorganization of certain operations. Additionally, the Company incurred lease termination and other restructuring charges of \$1.5 million for the first quarter of 2016. During the first quarter of 2016, the Company also recorded \$1.6 million of net gains on the sale of previously impaired assets, partially offset by impairment charges related to buildings and machinery and equipment associated with facility closures.

Other Charges

For the three months ended March 31, 2017 and 2016, the Company recorded other charges of \$0.6 million and \$0.5 million, respectively, for multi-employer withdrawal pension plan obligations unrelated to facility closures. The total liabilities for the withdrawal obligations associated with the Company's decision to withdraw from multi-employer pension plans included in accrued liabilities and other noncurrent liabilities are \$4.9 million and \$34.1 million, respectively, as of March 31, 2017.

The Company's multi-employer pension plan withdrawal liabilities could be affected by the financial stability of other employers participating in the plans and any decisions by those employers to withdraw from the plans in the future. While it is not possible to quantify the potential impact of future events or circumstances, reductions in other employers' participation in multi-employer pension plans, including certain plans from which the Company has previously withdrawn, could have a material impact on the Company's previously estimated withdrawal liabilities, consolidated results of operations, financial position or cash flows.

#### **Restructuring Reserve**

The restructuring reserve as of December 31, 2016 and March 31, 2017, and changes during the three months ended March 31, 2017, were as follows:

			Foreign	
	December		Exchange	
	31,	Restructuring	and	Cash March 31,
	2016	Charges	Other	Paid 2017
Employee terminations	\$ 7.6	\$ 6.4	\$ 0.1	\$(4.2) \$ 9.9
Multi-employer pension withdrawal obligations	11.8	0.2		(0.4) 11.6
Lease terminations and other	1.6	1.4	1.0	(0.5) 3.5
Total	\$ 21.0	\$ 8.0	\$ 1.1	\$(5.1) \$ 25.0

The current portion of restructuring reserves of \$10.0 million at March 31, 2017 was included in accrued liabilities, while the long-term portion of \$15.0 million, primarily related to multi-employer pension plan withdrawal obligations related to facility closures and lease termination costs, was included in other noncurrent liabilities at March 31, 2017.

The Company anticipates that payments associated with the employee terminations reflected in the above table will be substantially completed by March 2018.

Payments on all of the Company's multi-employer pension plan withdrawal obligations are scheduled to be completed by 2036. Changes based on uncertainties in these estimated withdrawal obligations could affect the ultimate charges related to multi-employer pension plan withdrawals.

(in millions, except per share data, unless otherwise indicated)

The restructuring liabilities classified as "lease terminations and other" consisted of lease terminations, other facility closing costs and contract termination costs. Payments on certain of the lease obligations are scheduled to continue until 2018. Market conditions and the Company's ability to sublease these properties could affect the ultimate charges related to the lease obligations. Any potential recoveries or additional charges could affect amounts reported in the Company's financial statements.

## 11. Earnings per Share

Basic earnings per share is calculated by dividing net earnings attributable to RRD common stockholders by the weighted average number of common shares outstanding for the period. In computing diluted earnings per share, basic earnings per share is adjusted for the assumed issuance of all potentially dilutive share-based awards, including stock options, restricted stock units and performance share units. Performance share units are considered anti-dilutive and excluded if the performance targets upon which the issuance of the shares is contingent have not been achieved and the respective performance period has not been completed as of the end of the current period. Additionally, stock options are considered anti-dilutive when the exercise price exceeds the average of the Company's stock price during the applicable period. In periods when the Company is in a net loss from continuing operations, share-based awards are excluded from the calculation of earnings per share as their inclusion would have an anti-dilutive effect.

During the three months ended March 31, 2017 and 2016, no shares of common stock were purchased by the Company; however, shares were withheld for tax liabilities upon the vesting of equity awards.
