Commission File number 1-8777

VIRCO MFG. CORPORATION
(Exact Name of Registrant as Specified in its Charter)
Delaware 95-1613718
(State or Other Jurisdiction of (I.R.S. Employer
Incorporation or Organization) Identification No.)

2027 Harpers Way, Torrance, CA 90501
(Address of Principal Executive Offices) (Zip Code)
Registrant's Telephone Number, Including Area Code: (310) 533-0474
No change
Former Name, Former Address and Former Fiscal Year, if Changed Since Last Report.

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares outstanding for each of the registrant's classes of common stock, as of the latest practicable date:

Common Stock, \$.01 par value — 15,179,664 shares as of December 9, 2016.

VIRCO MFG. CORPORATION

Notes to unaudited Condensed Consolidated Financial Statements

October 31, 2016

Note 1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the nine months ended October 31, 2016, are not necessarily indicative of the results that may be expected for the fiscal year ending January 31, 2017. The balance sheet at January 31, 2016, has been derived from the audited financial statements at that date, but does not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended January 31, 2016 ("Form 10-K"). All references to the "Company" refer to Virco Mfg. Corporation and its subsidiaries.

Note 2. Seasonality

The market for educational furniture is marked by extreme seasonality, with approximately 50% of the Company's total sales typically occurring from June to August each year, the Company's peak season. Hence, the Company typically builds and carries significant amounts of inventory during and in anticipation of this peak summer season to facilitate the rapid delivery requirements of customers in the educational market. This requires a large up-front investment in inventory, labor, storage and related costs as inventory is built in anticipation of peak sales during the summer months. As the capital required for this build-up generally exceeds cash available from operations, the Company has generally relied on third-party bank financing to meet cash flow requirements during the build-up period immediately preceding the peak season. In addition, the Company typically is faced with a large balance of accounts receivable during the peak season. This occurs for two primary reasons. First, accounts receivable balances typically increase during the peak season as shipments of products increase. Second, many customers during this period are government institutions, which tend to pay accounts receivable more slowly than commercial customers. The Company's working capital requirements during and in anticipation of the peak summer season require management to make estimates and judgments that affect assets, liabilities, revenues and expenses, and related contingent assets and liabilities. On an ongoing basis, management evaluates its estimates, including those related to market demand, labor costs, and stocking inventory.

Note 3. New Accounting Standards

In April 2015, the FASB amended its existing accounting standards for the presentation of debt issuance costs in the statement of financial position. The amendments generally require that the issuance costs related to a recognized debt obligation be presented as a deduction from the carrying amount of the debt obligation, with the associated amortization recognized as a component of interest expense. The amendments were effective for beginning February 1, 2016 on a retrospective basis; the Company adopted the standard for issuance costs incurred related to its revolving line of credit. The adoption resulted in the reclassification of \$84,000 from prepaid expenses and other current assets to current portion of long-term debt, \$125,000 from other accrued liabilities to current portion of long-term debt and \$69,000 from other assets to long-term debt to as of January 31, 2016. The adoption resulted in the reclassification of \$84,000 from prepaid expenses and other current assets to current portion of long-term debt, \$125,000 from other accrued liabilities to current portion of long-term debt and \$90,000 from other assets to long-term debt as of October 31, 2015.

In November 2015, the FASB issued Accounting Standard Update No. 2015-17, "Balance Sheet Classification of Deferred Taxes", an update to ASC 740, Income Taxes. Current GAAP requires an entity to separate deferred income tax liabilities and assets into current and noncurrent amounts in a classified statement of financial position. To simplify the presentation of deferred income taxes, the amendments in this Update require that deferred tax liabilities and assets be classified as noncurrent in a classified statement of financial position. The current requirement that

deferred tax liabilities and assets of a tax-paying component of an entity be offset and presented as a single amount is not affected by the amendments in this Update. For public business entities, the amendments in this update are effective for financial statements issued for annual periods beginning after December 15, 2016, and interim periods within those annual periods. The Board also decided to permit earlier application by all entities as of the beginning of any interim or annual reporting period. The Company has chosen to early adopt the Update for the year ended January 31, 2016. The Company chose to retrospectively adopt these provisions, which

resulted in reclassifications in the Consolidated Balance Sheet as of October 31, 2015, of \$156,000 from current Deferred income taxes to long-term Deferred income taxes .

Note 4. Inventories

Inventory is valued at the lower of cost (determined on a first-in, first-out basis) or Net Realizable Value and includes material, labor, and factory overhead. The Company maintains allowances for estimated slow moving and obsolete inventory to reflect the difference between the cost of inventory and the estimated market value. Allowances for slow moving and obsolete inventory are determined through a physical inspection of the product in connection with a physical inventory, a review of slow-moving product, and consideration of active marketing programs. The market for education furniture is traditionally driven by value, not style, and the Company has not typically incurred significant obsolescence expenses. If market conditions are less favorable than those anticipated by management, additional allowances may be required. Due to reductions in sales volume in the past years, the Company's manufacturing facilities are operating at reduced levels of capacity. The Company records the cost of excess capacity as a period expense, not as a component of capitalized inventory valuation.

The following table presents an updated breakdown of the Company's net inventory (in thousands) as of October 31, 2016, January 31, 2016 and October 31, 2015:

	10/31/2016	1/31/2016	10/31/2015
Finished goods	9,498	10,233	7,574
WIP	11,906	13,443	11,446
Raw materials	10,251	10,927	8,148
Inventories, net	31,655	34,603	27,168

In connection with the preparation of the January 31, 2016 consolidated financial statements, the Company determined that its reserve for excess and obsolete inventory had previously been applied exclusively to the Finished goods portion of inventory, when it should have been applied against Finished goods, Work in process, and Raw materials and supplies, based on the identification of the specific parts determined to be held in excess or obsolete. The Company evaluated the impact of this error on prior year financial statements and concluded that it was immaterial for the quarter ended October 31, 2015, and for all interim periods within the fiscal year ending January 31, 2016. While the amounts included in the prior year disclosure were considered to be immaterial, the Company elected to revise the disclosure of previously reported amounts to be consistent with the presentation as of October 31, 2016 and January 31, 2016. The changes resulted in no change to Inventories, net. The changes resulted in an increase to Finished goods of \$2,395,000, a decrease to Work in process of \$1,412,000, and a decrease to Raw materials and supplies of \$983,000 as of October 31, 2015.

Management continually monitors production costs, material costs and inventory levels to determine that interim inventories are fairly stated.

Note 5. Debt

Outstanding balances (in thousands) for the Company's long-term debt were as follows:

	10/31/2016	1/31/2016	10/31/2015
	(in thousands)		
Revolving credit line	\$4,602	\$ 6,595	\$ 3,950
Other	34	12	133
Total debt	4,636	6,607	4,083
Less current portion	89	579	109
Non-current portion	\$4,547	\$ 6,028	\$ 3,974

On December 22, 2011, the Company entered into a Revolving Credit and Security Agreement (the "Credit Agreement") with PNC Bank, National Association ("PNC"). The credit agreement currently matures on December 22, 2019 and has a maximum availability of \$49,750,000, including sub-lines for letters of credit and equipment

financing. Borrowings under the Credit Agreement bear interest at either the Alternate Base Rate (as defined in the Credit Agreement) plus 0.50% to 1.50% or the

Eurodollar Currency Rate (as defined in the Credit Agreement) plus 1.50% to 2.50%. The interest rate at October 31, 2016 was 4.5%. Approximately \$15,020,000 was available for borrowing as of October 31, 2016.

The Credit Agreement restricts the Company from issuing dividends or making payments with respect to the Company's capital stock to an annual limit of \$1.3 million, and contains numerous other covenants, including these financial covenants: (1) minimum tangible net worth, (2) fixed charge coverage ratio, and (3) minimum EBITDA amount, in each case as of the end of the relevant monthly, quarterly or annual measurement period. The Company was in compliance with its covenants during the third quarter of fiscal 2017. Pursuant to the Credit Agreement, substantially all of the Company's accounts receivable are automatically and promptly swept to repay amounts outstanding under the Revolving Credit Facility upon receipt by the Company. On April 4, 2016, the Company entered into Amendment No. 12 to the Credit Agreement which, among other things, increased the borrowing availability for the period from June 1, 2016 through August 15, 2016 and modified the clean down provision to reduce borrowings under the line to less than \$6,000,000 from a period of 60 consecutive days to 30 consecutive days. On October 27, 2016, the Company entered into Amendment No. 13 to the Credit Agreement which, among other things, reduced the maximum availability of \$49,750,000 to \$49,500,000 to allow for a sub-line for the company's credit card program.

The Company believes that the Revolving Credit Facility will provide sufficient liquidity to meet its capital requirements for at least in the next 12 months. Management believes that the carrying value of debt approximated fair value at October 31, 2016 and 2015, as all of the long-term debt bears interest at variable rates based on prevailing market conditions.

Note 6. Income Taxes

The Company recognizes deferred income taxes under the asset and liability method of accounting for income taxes in accordance with the provisions of ASC No. 740, Accounting for Income Taxes. Deferred income taxes are recognized for differences between the financial statement and tax basis of assets and liabilities at enacted statutory tax rates in effect for the years in which the differences are expected to reverse. The effect on deferred taxes of a change in tax rates is recognized in income in the period that includes the enactment date. In assessing the realizability of deferred tax assets, the Company considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income or reversal of deferred tax liabilities during the periods in which those temporary differences become deductible. At October 31, 2016, the Company determined that it was more-likely-than-not to realize the majority of its deferred tax assets, and therefore released its valuation against those assets resulting in a benefit to income taxes of \$17,962,000. The Company has left a partial valuation allowance against certain state deferred tax assets that the Company does not believe it is more-likely-than-not to realize.

The year January 31, 2014 and subsequent years remain open for examination by the IRS. The fiscal year ended January 31, 2012 and subsequent years remain open for examination by state tax authorities. The Company is not currently under IRS or state examination. We do not believe that there are any positions for which it is reasonably possible that the total amount of unrecognized tax benefits will significantly increase or decrease within the next 12 months.

Note 8. Stock-Based Compensation and Stockholders' Rights

Stock Incentive Plans

Under the 2011 Plan, the Company may grant an aggregate of 2,000,000 shares to its employees and non-employee directors in the form of stock options or awards. Restricted stock or stock units awarded under the 2011 Plan are expensed ratably over the vesting period of the awards. The Company determines the fair value of its restricted stock unit awards and related compensation expense as the difference between the market value of the awards on the date of grant less the exercise price of the awards granted. There were 87,284 awards granted and 223,174 awards were vested during the second quarter ended July 31, 2016. There were no additional awards granted or vested during the third quarter ended October 31, 2016. There were approximately 746,236 shares available for future issuance under the 2011 Plan as of October 31, 2016.

Accounting for the Plans

Restricted Stock Unit Awards

The following table presents a summary of restricted stock and stock unit awards at October 31, 2016 and 2015:

Note 9. Stockholders' Equity

In June 2015, the Board of Directors terminated the Company's common stock repurchase plan. Pursuant to the Company's Credit Agreement with PNC, the Company is generally prohibited from repurchasing any shares of its stock except in cases where a repurchase is financed by a substantially concurrent issuance of new shares of the Company's common stock. On April 4, 2016, the Company entered into Amendment No. 12 to the Credit Agreement with PNC which, among other things, amended the restrictions on cash dividends and share repurchases to allow repurchases under certain circumstances and within certain dollar limitations.

Note 10. Retirement Plans

The Company and its subsidiaries cover certain employees under a noncontributory defined benefit retirement plan, entitled the Virco Employees' Retirement Plan (the "Pension Plan"). Benefits under the Employees Retirement Plan are based on years of service and career average earnings. As more fully described in the Form 10-K, benefit accruals under the Employees Retirement Plan were frozen effective December 31, 2003.

The Company also provides a supplementary retirement plan for certain key employees, the VIP Retirement Plan (the "VIP Plan"). The VIP Plan provides a benefit of up to 50% of average compensation for the last 5 years in the VIP Plan, offset by benefits earned under the Pension Plan. As more fully described in the Form 10-K, benefit accruals under this plan were frozen effective December 31, 2003.

The Company also provides a non-qualified plan for certain former non-employee directors of the Company (the "Non-Employee Directors Retirement Plan"). The Non-Employee Directors Retirement Plan provides a lifetime annual

retirement

13

benefit equal to the director's annual retainer fee for the fiscal year in which the director terminated his or her position with the Board, subject to the director having provided 10 years of service to the Company. As more fully described in the Form 10-K, benefit accruals under this plan were frozen effective December 31, 2003.

The net periodic pension cost (income) for the Pension Plan, the VIP Plan, and the Non-Employee Directors Retirement Plan for the three months and nine months ended October 31, 2016 and 2015 were as follows (in thousands):

	Three Months Ended				Non-Employee Directors Retirement Plan	
	Pension Plan		VIP Plan		Directors Retirement Plan	
	10/31/2016	10/31/2015	10/31/2016	10/31/2015	10/31/2016	10/31/2015

Note 11. Warranty Accrual

The Company provides a warranty against all substantial defects in material and workmanship. In 2005 the Company extended its standard warranty from 5 years to 10 years. Effective February 1, 2014 the Company modified its warranty to a limited lifetime warranty. The new warranty effective February 1, 2014 is not anticipated to have a significant effect on warranty expense. The Company accrues an estimate of its exposure to warranty claims based upon both product sales data and an analysis of actual warranty claims incurred.

The following is a summary of the Company's warranty-claim activity for the three months and nine months ended October 31, 2016 and 2015.

	Three Months Ended		Nine Months Ended	
	10/31/2016	10/31/2015	10/31/2016	10/31/2015
	(In thousands)			
Beginning balance	\$1,000	\$ 1,000	\$1,000	\$ 950
Provision	155	89	331	332
Costs incurred	(155)	(89)	(331)	(282)
Ending balance	\$1,000	\$ 1,000	\$1,000	\$ 1,000

Note 12. Subsequent Events

We have evaluated subsequent events to assess the need for potential recognition or disclosure in this Quarterly Report on Form 10-Q. Such events were evaluated through the date these financial statements were issued. Based upon this evaluation, it was determined that no subsequent events occurred that required recognition or disclosure in the financial statements.

15

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

The Company's business activity and results of operations for the three and nine month periods ended October 31, 2016 reflected a modest improvement in revenue with stable operating profit compared to the prior year. Most states tax revenues have recovered to levels existing prior to the 2008 recession and the Company's order rates have been reflecting this improvement. However, bond funded new school construction and major renovations continue to remain at levels well below levels experienced prior to the recession.

Virco's business is extremely seasonal, with approximately 50% of the company's annual revenue occurring in the months of June, July, and August. Orders are nearly as seasonal with approximately 45% of annual orders received in May, June, and July. Typically, June is the largest month for orders followed by July. The current year largely followed the traditional seasonal norms, with a slight shift from orders traditionally received in July shifting to August.

Year-to-date net sales at October 31, 2016 increased by less than 1% to \$149,976,000 in the current year compared to \$149,100,000 in the same period last year. Our order backlog at October 31, 2016 increased by approximately \$0.5 million compared to the prior year.

For the three months ended October 31, 2016, the Company earned a pre-tax profit of \$6,206,000 compared to a pre-tax profit of \$6,140,000 in the same period last year.

Net sales for the three months ended October 31, 2016 increased to \$67,795,000, an increase of \$2,814,000, or 4.3%, compared to \$64,981,000 during the same period last year. The increase was primarily attributable to increases in selling volume.

Gross margin as a percentage of sales for the three months ended October 31, 2016 improved to 35.9% compared to 35.7% in the prior year. The increased gross margin was attributable to stable selling prices and material costs and efficiencies in production due to our enhanced stocking program. The Company incurred higher steel prices for purchases in the quarter, but the majority of goods sold were produced earlier in the year and did not bear the higher steel costs. For the current year the Company carried larger quantities of inventory going in to the seasonally high shipping season which facilitated efficiencies in both manufacturing and service costs.

Improvements in margin were offset by an increase in variable selling expenses, technology expenses, and general and administrative expenses. Interest expense decreased slightly compared to the prior year.

For the nine months ended October 31, 2016, the Company earned a pre-tax profit of \$10,123,000 compared to a pre-tax profit of \$10,490,000 in the same period last year.

Net sales for the nine months ended October 31, 2016 were \$149,976,000, an increase of \$876,000 or 0.6% increase, compared to \$149,100,000 in the same period last year. This increase was the result of an increase in unit volume.

Gross margin as a percentage of sales improved to 37.4% for the nine months ended October 31, 2016 compared to 37.2% in the same period last year. The improvement in gross margin was attributable to stable selling prices and material costs, and efficiencies related to our earlier build of inventory, which offset a slight reduction in production levels. Factory production hours for the nine months ended October 31, 2016 decreased by 3.5% compared to the prior year primarily due to the timing of production.

Selling, general and administrative expenses for the nine months ended October 31, 2016 increased by approximately \$1,144,000 compared to the same period last year. This increase was the result of variable selling expenses, technology expenses, and general and administrative expenses. Interest expense decreased slightly compared to the prior year.

The company incurred a significant increase in steel costs during the summer shipping season. Because the majority of the products shipped during this period were manufactured earlier in the year, the cost of steel did not significantly impact margins. The cost may adversely impact fourth quarter sales. The Company will implement pricing strategies beginning in the next fiscal year to recover increased costs for steel.

The Company recognizes deferred income taxes under the asset and liability method of accounting for income taxes. In assessing the realizability of deferred tax assets and net operating loss carryforwards, the Company considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. Due to operating losses, the Company established a valuation allowance against deferred tax assets in the fiscal year ended

January 31, 2011. During the third quarter ended October 31, 2016, management concluded that the Company's return to consistent profitability made it more likely than not that the majority of the deferred tax assets would be realized and a \$17,962,000 favorable adjustment to the valuation allowance was recorded. This was a non-cash benefit.

Liquidity and Capital Resources

Interest expense decreased for the nine months ended October 31, 2016 compared to the same period last year. This is primarily due to decreased average levels of borrowing under the Company's credit facility with PNC Bank to fund inventory. Borrowings under the Company's revolving line of credit with PNC Bank at October 31, 2016 increased by approximately \$650,000 compared to October 31, 2015 primarily due to increased levels of inventory and timing of payables.

Accounts receivable was lower at October 31, 2016 than at October 31, 2015. Because the Company carried larger inventories going in to the seasonally high summer shipping period, the Company was able to improve customer service and ship a higher proportion of complete orders. The enhanced customer service facilitated faster collection of receivables and contributed to a lower receivable balance at October 31, 2016 despite increasing sales by more than 4% in the third quarter revenue. The Company traditionally builds large quantities of inventory during the first and second quarters of each fiscal year in anticipation of seasonally high summer shipments. At the end of the third quarter, inventory increased by approximately \$2,950,000 compared to January 31, 2016 and increased by \$4,487,000 compared to October 31, 2015. The increased levels of inventory are carried to support an enhanced quick ship program which promises shipment of a variety of education products within 72 hours and improved performance on a wide variety of education furniture. The seasonal fluctuation in inventory levels (including the typically large buildup in inventory during the first and second quarters) was financed through the Company's credit facility with PNC Bank and cash provided by operations.

The Company adopted a goal of limiting capital spending to less than \$4,000,000 for fiscal year ending January 31, 2017, which is less than the Company's anticipated depreciation expense. Capital spending for the nine months ended October 31, 2016 exceeded our target and was \$3,239,000 compared to \$3,583,000 for the same period last year. The capital expenditures were largely attributable to spending on information systems and other technology. Capital expenditures are being financed through the Company's credit facility with PNC Bank and cash flow from operations. Net cash provided by operating activities for the nine months ended October 31, 2016, was \$6,967,000 compared to \$10,294,000 for the same period last year. The decrease was primarily attributable to increased levels of inventory and a decrease in accounts payable and accrued liabilities. The Company has generally relied upon its cash flows from operations and unused borrowing capacity with PNC Bank (which was \$15,020,000 as of October 31, 2016) to fund the Company's capital expenditures and working capital needs.

The Company believes that cash flows from operations, together with the Company's unused borrowing capacity with PNC Bank will be sufficient to fund the Company's capital expenditures and working capital needs for the next twelve months.

Off Balance Sheet Arrangements

None.

Critical Accounting Policies and Estimates

The Company's critical accounting policies are outlined in its Form 10-K. There have been no changes in the quarter ended October 31, 2016.

Forward-Looking Statements

From time to time, including in this Quarterly Report on Form 10-Q for the quarterly period ended October 31, 2016, the Company or its representatives have made and may make forward-looking statements, orally or in writing, including those contained herein. Such forward-looking statements may be included in, without limitation, reports to stockholders, press releases, oral statements made with the approval of an authorized executive officer of the Company and filings with the Securities and Exchange Commission. The words or phrases "anticipates," "expects," "will continue," "believes," "estimates," "projects," or similar expressions are intended to identify "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. The results contemplated by the Company's forward-looking statements are subject to certain risks and uncertainties that could cause actual results to vary materially from anticipated results, including without limitation, availability of funding for educational institutions, availability and cost of materials, especially steel, availability and cost of labor, demand for the Company's products, competitive conditions affecting selling prices and margins, capital costs and general economic conditions. Such risks and uncertainties are discussed in more detail in the Company's Form 10-K.

The Company's forward-looking statements represent its judgment only on the dates such statements were made. By making any forward-looking statements, the Company assumes no duty to update them to reflect new, changed or unanticipated events or circumstances.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

17

Not applicable.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

The Company carried out an evaluation, under the supervision and with the participation of the Company's management, including its Principal Executive Officer along with its Principal Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) under the Securities Exchange Act of 1934 ("Exchange Act") as of October 31, 2016. Based upon the foregoing, the Company's Principal Executive Officer along with the Company's Principal Financial Officer concluded that the Company's disclosure controls and procedures as of such date were effective to ensure that the information required to be disclosed in the Company's Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to Company management, including its Principal Executive Officer and Principal Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, Company management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Changes in Internal Control Over Financial Reporting

The Company carried out an evaluation, under the supervision and with the participation of the Company's management, including its Principal Executive Officer along with its Principal Financial Officer, of the effectiveness of the design and operation of disclosure controls and procedures. Based upon the foregoing, the Company's Principal Executive Officer along with the Company's Principal Financial Officer concluded that the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) were effective as of the end of the period covered by this Quarterly Report on Form 10-Q.

PART II — Other Information

Virco Mfg. Corporation

Item 1. Legal Proceedings

The Company is a party to various legal actions arising in the ordinary course of business which, in the opinion of the Company, are not material in that management either expects that the Company will be successful on the merits of the pending cases or that any liabilities resulting from such cases will be substantially covered by insurance. While it is impossible to estimate with certainty the ultimate legal and financial liability with respect to these actions, management believes that the aggregate amount of such liabilities will not be material to the results of operations, financial position, or cash flows of the Company.

Item 1A. Risk Factors

You should carefully consider and evaluate the information in this Quarterly Report and the risk factors set forth in our Annual Report on Form 10-K for the fiscal year ended January 31, 2016, which was filed with the SEC on April 26, 2016. The risk factors associated with our business have not materially changed compared to the risk factors disclosed in the Form 10-K.

Item 2. Unregistered Sales of Equity Securities, Use of Proceeds and Issuer Purchases of Equity Securities

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

Item 6. Exhibits

Exhibit 31.1 — Certification of Robert A. Virtue, Chief Executive Officer, pursuant to Rules 13a-14 and 15d-14 of the Securities Exchange Act, as adopted pursuant to section 302 of the Sarbanes-Oxley Act of 2002.

Exhibit 31.2 — Certification of Robert E. Dose, Vice President, Finance, pursuant to Rules 13a-14 and 15d-14 of the Securities Exchange Act, as adopted pursuant to section 302 of the Sarbanes-Oxley Act of 2002.

Exhibit 32.1 — Certification of Principal Executive Officer and Principal Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

Exhibit 101.INS — XBRL Instance Document.

Exhibit 101.SCH — XBRL Taxonomy Extension Schema Document.

Exhibit 101.CAL — XBRL Taxonomy Extension Calculation Linkbase Document.

Exhibit 101.LAB — XBRL Taxonomy Extension Label Linkbase Document.

Exhibit 101.PRE — XBRL Taxonomy Extension Presentation Linkbase Document.
