**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

(Amounts in thousands except share data and where otherwise indicated) (Unaudited)

**1. Basis of Presentation**

The accompanying unaudited interim Condensed Consolidated Financial Statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC") for interim periods and do not include all of the information and note disclosures required by accounting principles generally accepted in the United States of America ("GAAP") for complete financial statements. These unaudited interim Condensed Consolidated Financial Statements should therefore be read in conjunction with the Consolidated Financial Statements and Notes for Dover Corporation ("Dover" or the "Company") for the year ended December 31, 2018, included in the Company's Annual Report on Form 10-K filed with the SEC on February 15, 2019. The year end Condensed Consolidated Balance Sheet was derived from audited financial statements. Certain amounts in the prior periods have been reclassified to conform to the current year presentation.

On May 9, 2018, the Company completed a pro-rata distribution of the common stock of Apergy Corporation ("Apergy") to the Company's shareholders of record as of the close of business on April 30, 2018. Apergy holds entities conducting upstream energy businesses previously included in the Energy segment. As discussed in Note 5 - Discontinued and Disposed Operations, the Apergy businesses met the criteria to be reported as discontinued operations because the spin-off is a strategic shift in business that has a major effect on the Company's operations and financial results. Therefore, the Company is reporting the historical results of Apergy, including the results of operations, cash flows, and related assets and liabilities, as discontinued operations for all periods presented herein. Subsequent to the spin-off of Apergy, effective the second quarter of 2018, the Company no longer has the Energy segment and is aligned into three reportable segments. See Note 18 —Segment Information for additional information regarding the updated segments, including segment results for the three months ended March 31, 2019 and 2018. Unless otherwise noted, the accompanying Notes to the Consolidated Financial Statements have all been revised to reflect the effect of the separation of Apergy and all prior year balances have been revised accordingly to reflect continuing operations only.

The accompanying unaudited interim Condensed Consolidated Financial Statements have been prepared in accordance with U.S. GAAP, which requires management to make estimates and assumptions that affect amounts reported in the Condensed Consolidated Financial Statements and accompanying disclosures. Although these estimates are based on management's best knowledge of current events and actions that the Company may undertake in the future, actual results may differ from those estimates. The Condensed Consolidated Financial Statements reflect all adjustments of a normal, recurring nature that are, in the opinion of management, necessary for a fair statement of results for these interim periods. The results of operations of any interim period are not necessarily indicative of the results of operations for the full year.

**2. Spin-off of Apergy Corporation**

On May 9, 2018, Dover completed the distribution of Apergy to its shareholders. The transaction was completed through the pro rata distribution of 100% of the common stock of Apergy to Dover's shareholders of record as of the close of business on April 30, 2018. Each Dover shareholder received one share of Apergy common stock for every two shares of Dover common stock held as of the record date.

The following is a summary of the assets and liabilities transferred to Apergy as part of the separation on May 9, 2018:

**Assets:**

Cash and cash equivalents	\$	10,357
Current assets		462,620
Non-current assets		1,438,760
	\$	1,911,737

**Liabilities:**

**Net assets distributed to Apergy Corporation**

Less: Cash received from Apergy Corporation		700,000
---	--	---------

<b>Net distribution to Apergy Corporation</b>	\$	906,815
---	----	---------

In connection with the spin-off from the company, Apergy issued and sold \$300.0 million in aggregate principal amount of its 6.375% senior notes due May 2026 in a private offering exempt from the registration requirements of the Securities Act of 1933, as amended, and incurred \$415.0 million in borrowings under its new senior secured term loan facility to fund a one-time cash payment of \$700.0 million to Dover. Dover received net cash of \$689.6 million upon separation, which reflects \$10.4 million of cash held by Apergy on the distribution date and retained by it in connection with its separation from Dover. Dover utilized the proceeds from Apergy as the primary source of funding for \$1 billion of share repurchases started in December 2017 and completed in December 2018.

Included within the net assets distributed to Apergy is approximately \$33 million of accumulated other comprehensive earnings attributable to Apergy, relating primarily to foreign currency translation gains, offset by unrecognized losses on pension obligations.

The historical results of Apergy, including the results of operations, cash flows, and related assets and liabilities have been reclassified to discontinued operations for all periods presented herein. See Note 5 — Held for Sale, Disposed and Discontinued Operations. Pursuant to the separation of Apergy from Dover, and the related separation and distribution agreements, any liabilities due from Dover to Apergy are not significant.

**3. Revenue**

Effective January 1, 2018, the Company adopted Accounting Standard Codification ("ASC") Topic 606, Revenue from Contracts with Customers ("Topic 606" or "ASC 606"), using the modified retrospective method applied to those contracts which were not completed as of January 1, 2018.

Under Topic 606, a contract with a customer is an agreement which both parties have approved, that creates enforceable rights and obligations, has commercial substance and where payment terms are identified and collectability is probable. Once the Company has entered a contract, it is evaluated to identify performance obligations. For each performance obligation, revenue is recognized as control of promised goods or services transfers to the customer in an amount that reflects the consideration the Company expects to receive in exchange for those goods or services. The amount of revenue recognized takes into account variable consideration, such as discounts and volume rebates.

Over 95% of the Company's performance obligations are recognized at a point in time that relate to the manufacture and sale of a broad range of products and components. Revenue is recognized when control transfers to the customer upon shipment or completion of installation, testing, certification, or other substantive acceptance provisions required under the contract. Less than 5% of the Company's revenue is recognized over time and relates to the sale of engineered to order equipment or services that have no alternative use and in which the contract specifies the Company has a right to payment for its costs, plus a reasonable margin.

## Americas

Other	67,752	69,744
<b>Total</b>	\$ 1,724,757	\$ 1,637,671

At March 31, 2019, we estimated that \$83.0 million in revenue is expected to be recognized in the future related to performance obligations that are unsatisfied (or partially unsatisfied) at the end of the reporting period. We expect to recognize approximately 65% of our unsatisfied (or partially unsatisfied) performance obligations as revenue through 2020, with the remaining balance to be recognized in 2021 and thereafter.

The following table provides information about contract assets and contract liabilities from contracts with customers:

	<b>March 31, 2019</b>	<b>December 31, 2018</b>	<b>At Adoption</b>

**4. Acquisitions*****2019 Acquisitions***

On January 25, 2019, the Company acquired the assets of Belanger, Inc. ("Belanger"), a leading full-line car wash equipment manufacturer for \$175,083, net of cash acquired. The Belanger acquisition strengthens Dover's position in the vehicle wash business within the Fueling & Transport end market of the Fluids segment. The following presents the preliminary allocation of acquisition cost to the assets acquired and liabilities assumed, based on their estimated fair values:

	<b>Belanger</b>	
Current assets, net of cash acquired	\$	9,392
Property, plant and equipment		597
Goodwill		97,817
Intangible assets		77,000
Other assets and deferred charges		
Current liabilities	(9,743)	
Net assets acquired	\$	175,083

The amounts assigned to goodwill and major intangible asset classifications are as follows:

	<b>Amount allocated</b>	<b>Useful life (in years)</b>
Goodwill - Tax deductible	97,817	na
Customer intangibles	54,500	9
Patents	16,000	9
Trademarks	6,500	15
	\$ 174,817	

The goodwill recorded as a result of this acquisition reflects the benefits expected to be derived from product line expansions and operational synergies.

### ***2018 Acquisitions***

During the three months ended March 31, 2018, the Company acquired two businesses in separate transactions for total consideration of \$68,385, net of cash acquired. These businesses were acquired to complement and expand upon existing operations within the Fluids and Refrigeration & Food Equipment segments. The goodwill recorded as a result of these acquisitions reflects the benefits expected to be derived from product line expansions and operational synergies. The goodwill is non-deductible for U.S. federal income tax purposes for these acquisitions.

On January 2, 2018, the Company acquired 100% of the voting stock of Ettlenger Group ("Ettlenger"), within the Fluids segment for \$53,046, net of cash acquired. In connection with this acquisition, the Company recorded goodwill of \$36,505 and intangible assets of \$20,084, primarily related to customer intangibles. The intangible assets are being amortized over 8 to 15 years.

On January 12, 2018, the Company acquired 100% of the voting stock of Rosario Handel B.V. ("Rosario"), within the Refrigeration & Food Equipment segment for total consideration of \$15,339, net of cash acquired. In connection with this acquisition, the Company recorded goodwill of \$10,402 and a customer intangible asset of \$4,149. The customer intangible asset is being amortized over 10 years.

### **Pro Forma Information**

The following unaudited pro forma information illustrates the impact of 2019 and 2018 acquisitions on the Company's revenue and earnings from operations for the three months ended March 31, 2019 and 2018, respectively.

**5. Held for Sale, Disposed and Discontinued Operations**

Management evaluates Dover's businesses periodically for their strategic fit within its operations and may from time to time sell or discontinue certain operations for various reasons.

***Assets and Liabilities Held for Sale***

On March 31, 2019, the Company entered into a definitive agreement to sell Finder Pompe S.r.l ("Finder"), a wholly owned subsidiary, to Gruppo Aturia S.p.A ("Aturia") for a total consideration of approximately \$23,629 net of estimated selling costs. As of March 31, 2019, Finder met the criteria to be classified as held for sale. The Company classified Finder's assets and liabilities separately on the consolidated balance sheet as of March 31, 2019.

The Finder business is included in the results of the Fluids segment. The sale does not represent a strategic shift that will have a major effect on operations and financial results and, therefore,

#### ***Disposed Operations***

There were no dispositions during the three months ended March 31, 2019 and 2018.

#### ***Discontinued Operations***

There were no discontinued operations as of and for the three months ending March 31, 2019.

In 2018, the Apergy businesses, as discussed in Note 2, met the criteria to be reported as discontinued operations because the spin-off was a strategic shift in business that has a major effect on the Company's operations and financial results. Therefore, the results of discontinued operations for the three months ended March 31, 2018 include the historical results of Apergy prior to its distribution on May 9, 2018. The three months ended March 31, 2018 included costs incurred by Dover to complete the spin-off of Apergy amounting to \$11,746, reflected in selling, general and administrative expenses in discontinued operations. See Note 2 — Spin-off of Apergy Corporation for further information.

Table of Contents**DOVER CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**8. Leases**

The Company adopted ASC Topic 842 - Leases as of January 1, 2019, using the transition method per ASU No. 2018-11 issued on July 2018 wherein entities were allowed to initially apply the new leases standard at adoption date and recognize a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption. Accordingly, all periods prior to January 1, 2019 were presented in accordance with the previous ASC Topic 840, Leases, and no retrospective adjustments were made to the comparative periods presented. Adoption of ASC 842 resulted in an increase to total assets and liabilities due to the recording of operating lease right-of-use assets ("ROU") and operating lease liabilities of approximately \$163 million, as of January 1, 2019. Finance leases were not impacted by the adoption of ASC 842, as finance lease liabilities and the corresponding ROU assets were already recorded in the balance sheet under the previous guidance, ASC 840. The adoption did not materially impact the Company's Consolidated Statements of Earnings or Cash Flows.

**(Amounts in thousands except share data and where otherwise indicated) (Unaudited)**

The Company has operating and finance leases for corporate offices, manufacturing plants, research and development facilities, shared services facilities, vehicle fleets and certain office and manufacturing equipment. Leases with an initial term of 12 months or less are not recorded in the balance sheet. The Company has elected the practical expedient to account for each separate lease component of a contract and its associated non-lease components as a single lease component, thus causing all fixed payments to be capitalized. The Company also elected the package of practical expedients permitted within the new standard, which among other things, allows the Company to carry forward historical lease classification. Variable lease payment amounts that cannot be determined at the commencement of the lease such as increases in lease payments based on changes in index rates or usage, are not included in the ROU assets or liabilities. These are expensed as incurred and recorded as variable lease expense.

The Company determines if an arrangement is a lease at inception of a contract. Operating lease ROU assets are included in other assets and deferred charges and operating lease liabilities are included in other accrued expenses and other liabilities in the Consolidated Balance Sheet. Finance lease ROU assets are included in property and equipment, and the related lease liabilities are included in other accrued expenses and other liabilities in the Consolidated Balance Sheet.

ROU assets represent the Company's right to use an underlying asset during the lease term and lease liabilities represent the Company's obligation to make lease payments arising from the lease. ROU assets and liabilities are recognized at commencement date based on the net present value of fixed lease payments over the lease term. The Company's lease term include options to extend or terminate the lease when it is reasonably certain that we will exercise that option. ROU assets also include any advance lease payments made and exclude lease incentives. As most of the Company's operating leases do not provide an implicit rate, the Company uses its incremental borrowing rate based on the information available at commencement date in determining the present value of lease payments. Finance lease agreements generally include an interest rate that is used to determine the present value of future lease payments. Operating fixed lease expense and finance lease depreciation expense are recognized on a straight-line basis over the lease term.

The Company maintains a \$1.0 billion five-year unsecured revolving credit facility (the "Credit Agreement") with a syndicate of banks which expires on November 10, 2020. The Company was in compliance with all covenants in the Credit Agreement and other long-term debt covenants at March 31, 2019 and had a coverage ratio of 9.7 to 1.0. The Company uses the Credit Agreement as liquidity back-up for its commercial paper program and has not drawn down any loans under the Credit Agreement and does not anticipate doing so. The Company generally uses commercial paper borrowings for general corporate purposes, funding of acquisitions and repurchases of its common stock.

As of March 31, 2019, the Company had approximately \$142.4 million outstanding in letters of credit and performance and other guarantees which expire on various dates through 2028. These letters of credit are primarily maintained as security for insurance, warranty and other performance obligations. In general, we would only be liable for the amount of these guarantees in the event of default in the performance of our obligations.

**12. Financial Instruments****Derivatives**

The Company is exposed to market risk for changes in foreign currency exchange rates due to the global nature of its operations and certain commodity risks. In order to manage these risks, the Company has hedged portions of its forecasted sales and purchases to occur within the next twelve months that are denominated in non-functional currencies, with currency forward contracts designated as cash flow hedges. At March 31, 2019 and December 31, 2018, the Company had contracts with U.S. dollar equivalent notional amounts of \$210,787 and \$153,873, respectively, to exchange foreign currencies, principally the Pound Sterling, Chinese Yuan, Swedish Krona, Swiss Franc, and Canadian Dollar. The Company believes it is probable that all forecasted cash flow transactions will occur.

In addition, the Company had outstanding contracts with a total notional amount of \$91,749 and \$66,906 as of March 31, 2019 and December 31, 2018, respectively, that are not designated as hedging instruments. These instruments are used to reduce the Company's exposure for operating receivables and payables that are denominated in non-functional currencies. Gains and losses on these contracts are recorded in other (income) expense, net in the Condensed Consolidated Statements of Earnings.

The following table sets forth the fair values of derivative instruments held by the Company as of March 31, 2019 and December 31, 2018 and the balance sheet lines in which they are recorded:

	<b>Fair Value Asset (Liability)</b>		<b>Balance Sheet Caption</b>
	<b>March 31, 2019</b>	<b>December 31, 2018</b>	
Foreign currency forward	\$ 3,996	\$ 1,874	Prepaid / Other current assets
Foreign currency forward	(637)	(1,165)	Other accrued expenses

For a cash flow hedge, the effective portion of the change in estimated fair value of a hedging instrument is recorded in accumulated other comprehensive loss (earnings) as a separate component of the Condensed Consolidated

Statement of Stockholders' Equity and is reclassified into revenues and cost of goods and services in the Condensed Consolidated Statements of Earnings during the period in which the hedged transaction is recognized. The amount of gains or losses from hedging activity recorded in earnings is not significant, and the amount of unrealized gains and losses from cash flow hedges that are expected to be reclassified to earnings in the next twelve months is not significant; therefore, additional tabular disclosures are not presented. There are no amounts excluded from the assessment of hedge effectiveness and the Company's derivative instruments that are subject to credit risk contingent features were not significant.

The Company is exposed to credit loss in the event of nonperformance by counterparties to the financial instrument contracts held by the Company; however, nonperformance by these counterparties is considered unlikely as the Company's policy is to contract with highly-rated, diversified counterparties.

The Company has designated the €600,000 and €300,000 of euro-denominated notes issued November 9, 2016 and December 4, 2013, respectively, as hedges of a portion of its net investment in euro-denominated operations. Changes in the value of the euro-denominated debt are recognized in foreign currency translation adjustments within other comprehensive earnings of the Condensed Consolidated Statements of Comprehensive Earnings to offset changes in the value of the net investment in euro-denominated operations.

Amounts recognized in other comprehensive earnings for the gains (losses) on net investment hedges were as follows:

	<b>Three Months Ended March</b>	
	<b>31,</b>	
	<b>2019</b>	<b>2018</b>
Gain (loss) on euro-denominated debt	\$ 3,557	\$ (44,109)

Net gain (loss) on net investment hedges, net of tax	\$ 2,810	\$ (34,846)

**Fair Value Measurements**

ASC 820, Fair Value Measurements and Disclosures, establishes a fair value hierarchy that requires the Company to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the hierarchy is based on the lowest level of input that is significant to the fair value measurement. ASC 820 establishes three levels of inputs that may be used to measure fair value.

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 inputs include inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets and liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of assets or liabilities.

Level 3 inputs are unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The following table presents the Company's assets and liabilities measured at fair value on a recurring basis as of March 31, 2019 and December 31, 2018:

	Level 2	Level 2
Assets:		
Foreign currency cash flow hedges	\$ 3,996	\$ 1,874
Liabilities:		
Foreign currency cash flow hedges	637	1,165

In addition to fair value disclosure requirements related to financial instruments carried at fair value, accounting standards require interim disclosures regarding the fair value of all of the Company's financial instruments.

The estimated fair value of long-term debt, net at March 31, 2019 and December 31, 2018 as \$3,190,794 and \$3,132,330, respectively, compared to the carrying value of \$2,940,967 and \$2,943,660, respectively. The estimated fair value of long-term debt is based on quoted market prices for similar instruments and is, therefore, classified as Level 2 within the fair value hierarchy.

The carrying values of cash and cash equivalents, trade receivables, accounts payable and notes payable are reasonable estimates of their fair values as of March 31, 2019, and December 31, 2018 due to the short-term nature of these instruments.

### **13. Income Taxes**

The effective tax rates for the three months ended March 31, 2019 and 2018 were 23.6% and 18.5%, respectively. The increase in the effective tax rate for the three months ended March 31, 2019 relative to the prior comparable period was predominantly driven by the exclusion of capital losses on assets held for sale of Finder under local tax law. Additionally, the effective tax rates for the three months ended March 31, 2019 and 2018 included discrete tax benefits principally from stock award exercises.

Dover and its subsidiaries file tax returns in the U.S., including various state and local returns and in other foreign jurisdictions. We believe adequate provision has been made for all income tax uncertainties. The Company is routinely audited by taxing authorities in its filing jurisdictions, and a number of these audits are currently underway. The Company believes that within the

Table of Contents**DOVER CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

next twelve months uncertain tax positions may be resolved and statutes of limitations will expire, which could result in a decrease in the gross amount of unrecognized tax benefits of approximately zero to \$12.2 million.

**14. Equity Incentive Program**

The Company typically grants equity awards annually at its regularly scheduled first quarter meeting of the Compensation Committee of the Board of Directors. During the three months ended March 31, 2019, the Company issued stock-settled appreciation rights ("SARs") covering 610,979 shares, performance share awards of 34,402 and restricted stock units ("RSUs") of 121,560.

The Company uses the Black-Scholes option pricing model to determine the fair value of each SAR on the date of grant. Expected volatilities are based on Dover's stock price history, including implied volatilities from traded options on Dover stock. The Company uses historical data to estimate SAR exercise and employee termination patterns within the valuation model. The expected life of SARs granted is derived from the output of the option valuation model and represents the average period of time that SARs granted are expected to be outstanding. The interest rate for periods within the contractual life of the SARs is based on the U.S. Treasury yield curve in effect at the time of grant.

The range of assumptions used in determining the fair value of the SARs awarded during the respective periods were as follows:

	<b>SARs</b>		
	<b>2019</b>	<b>2018</b>	
Risk-free interest rate	<del>2%</del> 1	<del>2%</del> 8	- <del>2%</del> 7
Dividend yield	<del>2%</del> 3	<del>1%</del> 9	- <del>2%</del> 3
Expected life (years)	5.6	5.6	- 5.7
Volatility	<del>2%</del> 35	<del>20%</del> 95	- <del>2%</del> 20
Grant price	\$91.20	\$79.75	\$82.09
Fair value per share at date of grant	\$17.55	\$14.58	\$15.41

The performance share awards granted in 2019 and 2018 are considered performance condition awards as attainment is based on Dover's performance relative to established internal metrics. The fair value of these awards was determined using Dover's closing stock price on the date of grant. The expected attainment of the internal metrics for these awards is analyzed each reporting period, and the related expense is adjusted based on expected attainment, if that attainment differs from previous estimates. The cumulative effect on current and prior periods of a change in attainment is recognized in selling, general and administrative expenses in the Condensed Consolidated Statements of Earnings in the period of change.

Edgar Filing: DOVER Corp - Form 10-Q

The fair value and average attainment used in determining stock-based compensation cost for the performance shares issued in 2019 and 2018 is as follows for the three months ended March 31, 2019:

	<b>2019</b>	<b>2018</b>

The Company also has granted RSUs, and the fair value of these awards was determined using Dover's closing stock price on the date of grant.

Stock-based compensation is reported within selling, general and administrative expenses of continuing operations in the Condensed Consolidated Statements of Earnings. The following table summarizes the Company's compensation expense relating to all stock-based incentive plans:

	<b>Three Months Ended March</b>	
	<b>31,</b>	
	<b>2019</b>	<b>2018</b>
Pre-tax stock-based compensation expense (continuing)	\$ 8,182	\$ 6,745

Total stock-based compensation expense, net of tax	\$ 7,134	\$ 5,249

Stock-based compensation expense attributable to Apergy employees for the three months ended March 31, 2018 was \$569. These costs are reported within earnings from discontinued operations in the Condensed Consolidated Statement of Earnings.

**15. Commitments and Contingent Liabilities****Litigation**

Certain of the Company's subsidiaries are involved in legal proceedings relating to the cleanup of waste disposal sites identified under federal and state statutes that provide for the allocation of such costs among "potentially responsible parties." In each instance, the extent of the Company's liability appears to be very small in relation to the total projected expenditures and the number of other "potentially responsible parties" involved and is anticipated to be immaterial to the Company. In addition, certain of the Company's subsidiaries are involved in ongoing remedial activities at certain current and former plant sites, in cooperation with regulatory agencies, and appropriate reserves have been established. At March 31, 2019 and December 31, 2018, the Company has reserves totaling \$31,555 and \$31,797, respectively, for environmental and other matters, including private party claims for exposure to hazardous substances that are probable and estimable.

The Company and certain of its subsidiaries are also parties to a number of other legal proceedings incidental to their businesses. These proceedings primarily involve claims by private parties alleging injury arising out of use of the Company's products, patent infringement, employment matters, and commercial disputes. Management and legal counsel, at least quarterly, review the probable outcome of such proceedings, the costs and expenses reasonably expected to be incurred and currently accrued to-date, and the availability and extent of insurance coverage. The Company has reserves for legal matters that are probable and estimable and not otherwise covered by insurance, and at March 31, 2019 and December 31, 2018, these reserves were not significant. While it is not possible at this time to

predict the outcome of these legal actions, in the opinion of management, based on the aforementioned reviews, the Company is not currently involved in any legal proceedings which, individually or in the aggregate, could have a material effect on its financial position, results of operations, or cash flows.

### Warranty Accruals

Estimated warranty program claims are provided for at the time of sale of the Company's products. Amounts provided for are based on historical costs and adjusted for new claims and are included within other accrued expenses and other liabilities in the Condensed Consolidated Balance Sheet. The changes in the carrying amount of product warranties through March 31, 2019 and 2018, were as follows:

	<b>2019</b>		<b>2018</b>
<b>Beginning Balance, December 31 of the Prior Year</b>	\$ 50,073	\$	59,403
Provision for warranties	13,955		12,447

**16. Employee Benefit Plans****Retirement Plans**

The Company offers defined contribution retirement plans which cover the majority of its U.S. employees, as well as employees in certain other countries. In addition, the Company sponsors qualified defined benefit pension plans covering certain employees of the Company and its subsidiaries. The plans' benefits are generally based on years of service and employee compensation. The Company also provides to certain management employees, through non-qualified plans, supplemental retirement benefits in excess of qualified plan limits imposed by federal tax law.

The tables below set forth the components of the Company's net periodic (income) expense relating to retirement benefit plans. The service cost component is recognized within selling, general and administrative expenses and cost of goods and services, depending on the functional area of the underlying employees included in the plans, and the non-operating components of pension costs are included within other income, net in the Condensed Consolidated Statements of Earnings. The amounts recorded to discontinued operations represent the net periodic benefit expense for several non-U.S. qualified and U.S. non-qualified plans that were transferred to Apergy at the spin-off date of May 9, 2018.

***Post-Retirement Benefit Plans***

The Company also maintains post-retirement benefit plans, although these plans are closed to new entrants. The supplemental and post-retirement benefit plans are supported by the general assets of the Company. The following table sets forth the components of the Company's net periodic expense relating to its post-retirement benefit plans:

	<b>Three Months Ended March 31,</b>

The total amount amortized out of accumulated other comprehensive earnings into net periodic pension and post-retirement expense totaled \$952 and \$3,410 for the three months ended March 31, 2019 and 2018, respectively.

**Defined Contribution Retirement Plans**

The Company also offers defined contribution retirement plans which cover the majority of its U.S. employees, as well as employees in certain other countries. The Company's expense relating to defined contribution plans were \$12,906 and \$12,870 for the three months ended March 31, 2019 and 2018, respectively.

The reclassification of foreign currency translation losses to earnings relates to the Finder assets and liabilities held for sale. See Note 5 — Held for Sale, Disposed and Discontinued Operations for further details.

The Company recognizes the amortization of net actuarial gains and losses and prior service costs in other income, net within the Condensed Consolidated Statements of Earnings.

Cash flow hedges consist mainly of foreign currency forward contracts. The Company recognizes the realized gains and losses on its cash flow hedges in the same line item as the hedged transaction, such as revenue, cost of goods and services, or selling, general and administrative expenses.

### **18. Segment Information**

The Company categorizes its operating companies into three distinct reportable segments. Segment financial information and a reconciliation of segment results to consolidated results is as follows:

- Engineered Systems segment is comprised of two platforms, Printing & Identification and Industrials, and is focused on the design, manufacture and service of critical equipment and components serving the fast-moving consumer goods, digital textile printing, vehicle service, environmental solutions and industrial end markets.
- Fluids segment, serving the Fueling & Transport, Pumps and Process Solutions end markets, is focused on the safe handling of critical fluids, and providing critical components to the retail fueling, chemical, hygienic, oil and gas, power generation and industrial markets.
- Refrigeration & Food Equipment segment is a provider of innovative and energy efficient equipment and systems serving the commercial refrigeration and food equipment end markets.

(1) Segment earnings includes non-operating income and expense directly attributable to the segments.

(2) The three months ended March 31, 2019 includes a \$46,946 loss on assets held for sale for Finder. Excluding this loss, Fluids segment earnings was \$99,167.

(3) Certain expenses are maintained at the corporate level and not allocated to the segments. These expenses include executive and functional compensation costs, non-service pension costs, non-operating insurance expenses, shared business services costs and various administrative expenses relating to the corporate headquarters.

## **19. Share Repurchases**

Under the January 2015 authorization which expired on January 9, 2018, the Company repurchased 440,608 shares of common stock during the three months ended March 31, 2018 at a total cost of \$44,977, or \$102.08 per share. There were 5,271,168 shares available for repurchase under this authorization upon expiration.

In February 2018, the Company's Board of Directors approved a new standing share repurchase authorization, whereby the Company may repurchase up to 20 million shares of its common stock through December 31, 2020. This share repurchase authorization replaced the January 2015 share repurchase authorization. There were no repurchases under the February 2018 authorization during the three months ended March 31, 2019 and 2018.

As of March 31, 2019, 9,703,666 shares remain authorized for repurchase under the February 2018 share repurchase authorization.

Net earnings	\$ 0.72	\$ 0.84
Weighted average shares outstanding	146,911,000	157,090,000

The following table is a reconciliation of the share amounts used in computing earnings per share:

**Three Months Ended  
March 31,  
2019            2018**

Weighted average shares outstanding - Basic	145,087,000	154,520,000
Dilutive effect of assumed exercise of SARs and vesting of performance shares and RSUs	1,824,000	2,570,000
Weighted average shares outstanding - Diluted	146,911,000	157,090,000

Diluted earnings per share amounts are computed using the weighted average number of common shares outstanding and, if dilutive, potential common shares outstanding during the period. Potential common shares consist of the incremental common shares issuable upon the exercise of SARs and vesting of performance shares and RSUs, as determined using the treasury stock method.

The weighted average number of anti-dilutive potential common shares excluded from the calculation above were approximately 42,000 and 13,000 for the three months ended March 31, 2019 and 2018, respectively.

## **21. Recent Accounting Pronouncements**

### **Recently Issued Accounting Standards**

The following standards, issued by the Financial Accounting Standards Board ("FASB"), will, or are expected to, result in a change in practice and/or have a financial impact to the Company's Consolidated Financial Statements:

In June 2016, the FASB issued ASU No. 2016-13, Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments, which amends the impairment model by requiring entities to use a forward-looking approach based on expected losses rather than incurred losses to estimate credit losses on certain types of financial instruments, including trade receivables. This may result in the earlier recognition of allowances for losses. The guidance is effective for interim and annual periods for the Company on January 1, 2020, with early adoption permitted. Management has not yet completed its assessment of the impact of the new standard on the Company's Consolidated Financial Statements. Currently, the Company believes that the most notable impact of this ASU may relate to its processes around the assessment of the adequacy of its allowance for doubtful accounts on trade accounts receivable and the recognition of credit losses.

**Recently Adopted Accounting Standards**

In August 2018, the FASB issued ASU 2018-15, Intangibles-Goodwill and Other-Internal-Use Software (Subtopic 350-40): Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract. The amendments in this update align the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software (and hosting arrangements that include an internal-use software license). The accounting for the service element of a hosting arrangement that is a service contract is not affected by the amendments in this update. The Company early adopted this guidance prospectively beginning on January 1, 2019. The adoption of this ASU did not have a material impact on the Company's Consolidated Financial Statements.

In August 2017, the FASB issued ASU 2017-12, Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities. This ASU provides new guidance about income statement classification and eliminates the requirement to separately measure and report hedge ineffectiveness. The entire change in fair value for qualifying hedge instruments included in the effectiveness will be recorded in Other Comprehensive Income ("OCI") and amounts deferred in OCI will be reclassified to earnings in the same income statement line item in which the earnings effect of the hedged item is reported. The Company adopted this guidance on January 1, 2019. The adoption of this ASU did not have a material impact on the Company's Consolidated Financial Statements.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842), which amends existing guidance to require lessees to recognize assets and liabilities on the balance sheet for the rights and obligations created by long-term leases and to disclose additional quantitative and qualitative information about leasing arrangements. This ASU also provides clarifications surrounding the presentation of the effects of leases in the income statement and statement of cash flows. The Company adopted this guidance on January 1, 2019.

The Company commenced its assessment of ASU 2016-02 in the second half of 2017 and developed a project plan to guide the implementation. The Company completed this project plan, in which it analyzed the ASU's impact on its leases, surveyed the Company's businesses, assessed the portfolio of leases, compiled a central repository of active leases, and established a future lease process to keep the lease accounting portfolio up to date. The Company evaluated the key policy elections and considerations under the standard and completed the internal policy documentation and training to address the new standard requirements. The Company also implemented a new lease accounting software solution to support the new reporting requirements. The Company adopted this new guidance using the updated modified transition method allowed per ASU 2018-11. Upon adoption on January 1, 2019, total assets and liabilities increased due to the recording of right-of-use assets and lease liabilities amounting to approximately \$163 million. See Note 8 — Leases for further details.

**22. Subsequent Events**

On April 2, 2019 Dover completed the sale of Finder to Aturia, which generated total cash proceeds of \$24,218, of which \$2,245 was received on March 29, 2019. Any final working capital adjustments, which are not expected to be significant, will be recorded in the second quarter of 2019. The assets and liabilities of Finder were classified as held for sale as of March 31, 2019. See Note 5 — Held for Sale, Disposed and Discontinued Operations for further details.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

Refer to the section below entitled "Special Notes Regarding Forward-Looking Statements" for a discussion of factors that could cause our actual results to differ from the forward-looking statements contained below and throughout this quarterly report.

Throughout this Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A"), we refer to measures used by management to evaluate performance as well as liquidity, including a number of financial measures that are not defined under accounting principles generally accepted in the United States of America ("GAAP"). We believe these measures provide investors with important information that is useful in understanding our business results and trends. Explanations within this MD&A provide more details on the use and derivation of these measures.

**OVERVIEW**

Dover is a diversified global manufacturer delivering innovative equipment and components, specialty systems, consumable supplies, software and digital solutions and support services through three operating segments: Engineered Systems, Fluids, and Refrigeration & Food Equipment. The Company's entrepreneurial business model encourages, promotes and fosters deep customer engagement and collaboration, which has led to Dover's well-established and valued reputation for providing superior customer service and industry-leading product innovation. Unless the context indicates otherwise, references herein to "Dover," "the Company," and words such as "we," "us," or "our" include Dover Corporation and its consolidated subsidiaries.

Dover's three operating segments are as follows:

- Our Engineered Systems segment is comprised of two platforms, Printing & Identification and Industrials, and is focused on the design, manufacture and service of critical equipment and components serving the fast-moving consumer goods, digital textile printing, vehicle service, environmental solutions and industrial end markets.
- Our Fluids segment, serving the Fueling & Transport, Pumps and Process Solutions end markets, is focused on the safe handling of critical fluids, and providing critical components to the retail fueling, chemical, hygienic, oil and gas, power generation and industrial markets.
- Our Refrigeration & Food Equipment segment is a provider of innovative and energy efficient equipment and systems serving the commercial refrigeration and food equipment end markets.

In the first quarter of 2019, revenue was \$1.7 billion, which increased \$87.1 million as compared to the first quarter of 2018. Results were driven by organic revenue growth of 8.3% and acquisition-related revenue growth of 0.5%. This growth was offset by an unfavorable impact from foreign currency translation of 3.4% and decline of 0.1% due to previously disposed businesses in 2018.

The 8.3% organic revenue growth was led by 15.1% organic growth in our Fluids segment, which was driven by strong activity in international retail fueling, industrial pumps, biopharma and other industrial markets. Engineered Systems segment organic revenue increased 5.8%, reflecting broad-based growth across the segment with particular strength in our Printing & Identification platform, environmental solutions, vehicle service and industrial winch businesses. Organic revenue increased 0.7% in our Refrigeration & Food Equipment segment driven by increased refrigeration remodel activity and increased demand for heat exchanger products, partially offset by project timing in our can-shaping business.

During the three months ended March 31, 2019, we acquired Belanger, Inc. ("Belanger"), a leading full-line car wash equipment manufacturer for \$175.1 million, net of cash acquired. The acquisition of Belanger strengthens our position in the vehicle wash business within the Fueling & Transport end market of the Fluids segment.

On \_\_\_\_\_ entered into a definitive agreement to sell Finder Pompe S.r.l ("Finder"), a wholly owned subsidiary, to Gruppo Aturia S.p.A for total consideration of approximately \$23.6 million net of estimated selling costs. As of March 31, 2019, Finder met the criteria to be classified as held for sale. We classified Finder's assets and liabilities separately on the

consolidated balance sheet as of March 31, 2019 and recorded a loss of \$46.9 million on the net assets held for sale. Subsequently, on April 2, 2019, we completed the sale of Finder.

During the three months ended March 31, 2019, we continued to execute on our previously announced rightsizing initiatives to further optimize operations. Rightsizing programs in 2019 include: 1) broad-based selling, general and administrative expense reduction initiatives and 2) footprint consolidation actions. These actions resulted in approximately \$4.0 million of rightsizing and other related costs across our segments, inclusive of restructuring costs. These charges relate to employee reductions and facility restructuring costs. We incurred rightsizing and other related costs of \$0.5 million in Engineered Systems, \$1.2 million in Fluids and \$2.3 million in Refrigeration & Food Equipment. These charges were recorded in cost of goods and services and selling, general and administrative expenses in the Condensed Consolidated Statement of Earnings. In 2019 and 2020, we expect to incur total rightsizing and other related charges, inclusive of restructuring costs, of approximately \$20 million related to the completion of our selling, general and administrative expense reduction actions and continuation of our footprint consolidation initiatives. We incurred \$4.0 million of charges during the three months ended March 31, 2019 and expect to incur approximately \$11 million during the remainder of 2019 and approximately \$5 million in 2020.

### ***Revenue***

In the first quarter of 2019, revenue increased \$87.1 million, or 5.3%, from the comparable period. Results included organic revenue growth of 8.3% led by our Fluids and Engineered Systems segments and acquisition-related revenue growth of 0.5% from our Fluids segment. This growth was partially offset by an unfavorable impact from foreign currency translation of 3.4% and a revenue decline of 0.1% due to businesses previously disposed of in 2018 within the Fluids segment. Customer pricing favorably impacted revenue by approximately 1.1% in the first quarter of 2019.

### ***Gross Profit***

Gross profit for the three months ended March 31, 2019 increased \$20.7 million, or 3.4%, from the comparable period, primarily due to organic revenue growth of 8.3%, benefits from productivity initiatives and the benefits of rightsizing and other restructuring actions taken in 2018, partially offset by increased material costs and U.S. Sections 232 and 301 tariff exposure as well as unfavorable business and regional mix. Gross profit margin decreased by 60 basis points for the three months ended March 31, 2019 from the comparable period.

### ***Selling, General and Administrative Expenses***

Selling, general and administrative expenses for the three months ended March 31, 2019 decreased \$26.6 million, or 6.1%, from the comparable period, primarily due to \$28 million of benefits from rightsizing actions started in 2018. As a percentage of revenue, selling, general and administrative expenses decreased 290 basis points to 23.7%, reflecting the leverage of costs on a higher revenue base and the decrease in expenses.

Table of Contents

Research and development costs, including qualifying engineering costs, are expensed when incurred and amounted to \$34.6 million and \$35.8 million, for the three months ended March 31, 2019 and 2018, respectively. These costs as a percent of revenue were 2.0% and 2.2% for the three months ended March 31, 2019 and 2018, respectively.

***Loss on assets held for sale***

On \_\_\_\_\_ mpany entered into a definitive agreement to sell Finder for total consideration of approximately \$23.6 million net of estimated selling costs. As of March 31, 2019, Finder met the criteria to be classified as held for sale and based on the total consideration from the sale, net of selling costs, the Company recorded a loss on the assets held for sale of \$46.9 million. Th \_\_\_\_\_ d of an impairment on assets held for sale of \$21.6 million an

***Income Taxes***

The effective tax rates for the three months ended March 31, 2019 and 2018 were 23.6% and 18.5%, respectively. The increase in the effective tax rate for the three months ended March 31, 2019 relative to the prior comparable period was predominantly driven by the exclusion of capital losses on assets held for sale of Finder under local tax law. Additionally, the effective tax rates for the three months ended March 31, 2019 and 2018 included discrete tax benefits principally from stock award exercises.

Dover and its subsidiaries file tax returns in the U.S., including various state and local returns and in other foreign jurisdictions. We believe adequate provision has been made for all income tax uncertainties. The Company is routinely audited by taxing authorities in its filing jurisdictions, and a number of these audits are currently underway. The Company believes that within the next twelve months uncertain tax positions may be resolved and statutes of limitations will expire, which could result in a decrease in the gross amount of unrecognized tax benefits of approximately zero to \$12.2 million.

***Earnings from Continuing Operations***

Earnings from continuing operations for the three months ended March 31, 2019 decreased 3.4% to \$105.7 million, or \$0.72 diluted earnings per share, from \$109.4 million, or \$0.70 diluted earnings per share, from the comparable period. The decrease in earnings from continuing operations is mainly attributable to the loss on assets held for sale for Finder in the Fluids segment of \$46.9 million. Excluding the loss on assets held for sale, earnings from continuing operations increased by \$43.2 million or 39.5% or \$0.29 diluted earnings per share, mainly driven by the 3.4% increase in gross profit due to an increase in revenues led by the Fluids and Engineered Systems segments and 6.1% decrease in selling, general and administrative expenses due to benefits from restructuring programs initiated in 2018.

***Discontinued Operations***

For the three months ended March 31, 2018, the historical results of Apergy were presented as discontinued operations as the May 9, 2018 spin-off represented a strategic shift in operations with a major impact on our operations and financial results.

Engineered Systems segment earnings increased \$21.0 million, or 20.6%, compared to the first quarter of 2018. This increase was primarily driven by conversion on organic volume growth, favorable pricing and productivity initiatives including the benefits of rightsizing actions and cost reduction initiatives across both platforms. These benefits more than offset increases in material costs primarily driven by U.S. Section 232 tariffs, most notably commodity cost increases impacting steel, U.S. Section 301 tariffs, and unfavorable foreign currency translation. Segment margins increased 270 basis points to 17.9% from 15.2 % as compared to the prior year quarter.

Our Environmental Solutions segment earnings decreased 11.1%, compared to the prior year quarter, driven by a strong prior period for our environmental solutions and vehicle service businesses, along with the unfavorable impact of foreign currency translation.

Fluids revenue for the first quarter of 2019 increased \$75.1 million, or 12.0%, comprised of organic growth of 15.1% and acquisition-related growth of 1.3%, partially offset by an unfavorable impact from foreign currency translation of 4.1% and a 0.3% decrease due to businesses previously disposed of in 2018. Customer pricing favorably impacted revenue by approximately the first quarter of 2019.

- Fueling & Transport revenue (representing 53.0% of segment revenue) increased \$53.7 million, or 16.8%, as compared to the prior year quarter, primarily driven by continued strong international retail fueling activity, specifically in the Asia Pacific region, strong dispenser growth in North America, and the acquisition of Belanger. Transport revenue improved over the prior year and the rail business experienced strong growth, in part, due to softer volumes experienced in the prior year quarter and the continued rebound of aftermarket volumes.
- Pumps revenue (representing 25.2% of segment revenue) increased \$15.1 million, or 9.3%, as compared to the prior year quarter. This increase reflects growth in North America where bookings increased 17.0% over the prior year, and continued strength from industrial pump sales to lar

***First Quarter 2019 Compared to the First Quarter 2018***

Refrigeration & Food Equipment revenue decreased \$3.6 million, or 1.1%, as compared to the first quarter of 2018, reflecting organic revenue growth of 0.7% which was more than offset by an unfavorable impact from foreign currency translation of 1.8%. Customer pricing did not have a significant impact on revenue in the first quarter of 2019.

•Refrigeration revenue (representing 83.0% of segment revenue) decreased \$1.1 million, or 0.4%, as compared to the prior year quarter. Organic revenue growth of 1.8% was more than offset by the unfavorable impact of foreign currency translation of 2.2%. Organic growth was principally driven by increased remodel activity across a broad based group of retailers and increased demand for heat exchanger products, most notably in Europe.

•Food Equipment revenue (representing 17.0% of segment revenue) decreased \$2.5 million, or 4.3%, as compared to the prior year quarter, due to project timing in our can-shaping equipment business, partially offset by modest growth in foodservice equipment driven by increased demand from restaurant chains.

Refrigeration & Food Equipment segment earnings decreased \$4.4 million, or 15.0%, as compared to the first quarter of 2018. Segment margin decreased to 7.4% from 8.6% in the prior year quarter due to unfavorable business mix primarily in our can-shaping business, higher material costs, and expenses related to footprint consolidation activities more than offsetting benefits from prior year restructuring actions and improved productivity.

Bookings in the first quarter of 2019 increased 1.2% from the prior year quarter driven by increased project orders in our can-shaping business partially offset by unfavorable foreign currency translation. Segment book to bill for the first quarter of 2019 was 1.13. Backlog increased 10.0% over the prior year quarter as a result of increased demand for retail refrigeration and can-shaping equipment products.

Table of Contents**FINANCIAL CONDITION**

We assess our liquidity in terms of our ability to generate cash to fund our operating, investing and financing activities. Significant factors affecting liquidity are: cash flows generated from operating activities, capital expenditures, acquisitions, dispositions, dividends, repurchases of outstanding shares, adequacy of available commercial paper and bank lines of credit, and the ability to attract long-term capital with satisfactory terms. We generate substantial cash from the operations of our businesses and remain in a strong financial position, with sufficient liquidity available for reinvestment in existing businesses and strategic acquisitions, while managing our capital structure on a short and long-term basis.

**Cash Flow Summary**

The following table is derived from our Condensed Consolidated Statements of Cash Flows:

**Three Months Ended March 31,**

<b>Cash Flows from Continuing Operations (in thousands)</b>	<b>2019</b>	<b>2018</b>

Investing activities	(217,690)	(122,597)
Financing activities	36,067	(289,103)

***Operating Activities***

Cash provided by operating activities for the three months ended March 31, 2019 increased approximately \$9.0 million compared to the comparable period in 2018. This increase

*Adjusted Working Capital:* We believe adjusted working capital (a non-GAAP measure calculated as accounts receivable, plus inventory, less accounts payable) provides a meaningful measure of our operational results by showing changes caused solely by revenue.

<b>Adjusted Working Capital (dollars in thousands)</b>	<b>March 31, 2019</b>	<b>December 31, 2018</b>

during the period. primarily driven by higher investments in working capital to support strong sales

### ***Investing Activities***

Cash provided by or used in investing activities generally results from cash outflows for capital expenditures and acquisitions, offset by proceeds from sales of businesses and property, plant and equipment. For the three months ended March 31, 2019 and 2018, we used cash through investing activities of \$217.7 million and \$122.6 million, respectively, driven mainly by the following factors:

- Acquisitions:* During the three months ended March 31, 2019, we acquired Belanger, within the Fluids segment for \$175.1 million, net of cash acquired. During the three months ended March 31, 2018, we acquired Ettlinger, within the Fluids segment for \$53.1 million, net of cash acquired, and Rosario, within the Refrigeration & Food Equipment segment for \$15.3 million, net of cash acquired.

- Capital spending:* Our capital expenditures decreased \$7.6 million during the three months ended March 31, 2019 compared to the three months ended March 31, 2018.

Table of Contents

•*Proceeds from sale of businesses:* For the three months ended March 31, 2019, we received partial proceeds of \$2.2 million from the sale of Finder in the second quarter of 2019. This sale was completed on April 2, 2019 at which time the remainder of the cash on sale was received. For the three months ended March 31, 2018, we generated cash of \$2.1 million primarily from the sale of a small business in the fourth quarter of 2017.

We anticipate that capital expenditures and any acquisitions we make through the remainder of 2019 will be funded from available cash and internally generated funds and through the issuance of commercial paper, use of established lines of credit or public or private debt or equity markets, as necessary.

***Financing Activities***

Our cash flow from financing activities generally relates to the use of cash for the repurchase of our common stock and payments of dividends, offset by net borrowing activity and proceeds from the exercises of share-based awards. For the three months ended March 31, 2019 and 2018, we generated cash totaling \$36.1 million and used cash totaling \$289.1 million, respectively, for financing activities, with the activity primarily attributable to the following:

•*Repurchase of common stock:* There were no shar

•*Dividend payments:* Dividends paid to shareholders during the three months ended March 31, 2019 totaled \$69.8 million as compared to \$72.7 million during the same period in 2018. Our dividends paid per common share increased 2.0% to \$0.48 during the three months ended March 31, 2019 compared to \$0.47 during the same period in 2018. The number of common shares outstanding decreased during the three months ended March 31, 2019 compared to the same period in 2018 as a result of share buyback programs completed in 2018.

•*Payments to settle employee tax obligations:* Payments to settle tax obligations from the exercise of share based awards increased \$4.7 million compared to the prior year period. This increase is primarily due to the increased number of shares exercised as well as an increase in the average stock price compared to the prior year period.

**Liquidity and Capital Resources**

***Free Cash Flow***

In addition to measuring our cash flow generation and usage based upon the operating, investing and financing classifications included in the Condensed Consolidated Statements of Cash Flows, we also measure free cash flow (a

non-GAAP measure) which represents net cash provided by operating activities minus capital expenditures. We believe that free cash flow is an important measure of operating performance because it provides management and investors a measurement of cash generated from operations that is available for mandatory payment obligations and investment opportunities, such as funding acquisitions, paying dividends, repaying debt and repurchasing our common stock.

Table of Contents

The following table reconciles our free cash flow to cash flow provided by operating activities:

	<b>Three Months Ended March 31,</b>	
<b>Free Cash Flow</b> ( <i>dollars in thousands</i> )	<b>2019</b>	<b>2018</b>

Free cash flow	\$ (12,598)	\$ (29,143)
Free cash flow as a percentage of revenue	(0.7)%	(1.8)%

For the three months ended March 31, 2019, we used free cash flow of \$12.6 million, representing 0.7% of revenue. Free cash flow for the three months ended March 31, 2019 increased \$16.5 million compared to the prior year period, primarily due to higher cash flow provided by operations, as previously noted, as well as lower capital expenditures. The adoption of Accounting Standard Codification Topic 842 - Leases on January 1, 2019 did not materially impact free cash flow.

**Capitalization**

We use commercial paper borrowings for general corporate purposes, including the funding of acquisitions and the repurchase of our common stock. We maintain a \$1.0 billion, five-year, unsecured committed revolving credit facility (the "Credit Agreement") with a syndicate of banks which will expire on November 10, 2020. The Credit Agreement is used as liquidity back-up for our commercial paper program. We have not drawn down any loans under the Credit Agreement nor do we anticipate doing so. Under the Credit Agreement, we are required to pay a facility fee and to maintain an interest coverage ratio of consolidated EBITDA to consolidated net interest expense of not less than 3.0 to 1.0. We were in compliance with this covenant and our other long-term debt covenants at March 31, 2019 and had a coverage ratio of 9.7 to 1.0. We are not aware of any potential impairment to our liquidity and expect to remain in compliance with all of our debt covenants.

We also have a current shelf registration statement filed with the Securities and Exchange Commission that allows for the issuance of additional debt securities that may be utilized in one or more offerings on terms to be determined at the time of the offering. Net proceeds of any offering would be used for general corporate purposes, including repayment of existing indebtedness, capital expenditures and acquisitions.

At March 31, 2019, our cash and cash

and cash equivalents are invested in highly liquid investment-grade money market instruments and bank deposits with maturities of three months or less. We regularly invest cash in excess of near-term requirements in money market instruments or short-term investments, which consist of investment

grade time deposits with original maturity dates at the time of purchase of no greater than three months.

We utilize the net debt to net capitalization calculation (a non-GAAP measure) to assess our overall financial leverage and capacity and believe the calculation is useful to investors for the same reason. Net debt represents total debt minus cash and cash equivalents. Net capitalization represents net debt plus stockholders' equity. The following table provides a reconciliation of net debt to net capitalization to the most directly comparable GAAP measures:

<i>Net Debt to Net Capitalization Ratio</i> (dollars in thousands)	<b>March 31, 2019</b>	<b>December 31, 2018</b>
Current maturities of long-term debt	\$ 1,355	\$ —
Commercial paper	344,900	220,318
Notes payable and current maturities of long-term debt	346,255	220,318
Long-term debt	2,940,967	2,943,660
Total debt	3,287,222	3,163,978
Less: Cash and cash equivalents	(243,014)	(396,221)
Net debt	3,044,208	2,767,757
Add: Stockholders' equity	2,837,453	2,768,666
Net capitalization	\$ 5,881,661	\$ 5,536,423
Net debt to net capitalization	51.8 %	50.0 %

Table of Contents

Our net debt to net capitalization ratio increased to 51.8% at March 31, 2019 from 50.0% at December 31, 2018. The increase in this ratio was driven primarily by the increase in net debt which exceeded the increase in stockholders' equity during the period. Net debt increased \$276.5 million during the period primarily due to an increase in commercial paper and a reduction in cash levels to fund the acquisition of Belanger, dividends, and other operating purposes. Stockholders' equity increased \$68.8 million primarily as a result of higher earnings during the period.

Operating cash flow and access to capital markets are expected to satisfy our various cash flow requirements, including acquisitions and capital expenditures. Acquisition spending and/or share repurchases could potentially increase our debt.

### **Critical Accounting Policies and Estimates**

Our Condensed Consolidated Financial Statements and related public financial information are based on the application of GAAP which requires the use of estimates, assumptions, judgments and subjective interpretations of accounting principles that have an impact on the assets, liabilities, revenue and expense amounts reported. These estimates can also affect supplemental information contained in our public disclosures, including information regarding contingencies, risk and our financial condition. We believe our use of estimates and underlying accounting assumptions conform to GAAP and are consistently applied. We review valuations based on estimates for reasonableness on a consistent basis.

### **Recent Accounting Standards**

See Part 1, Notes to Condensed Consolidated Financial Statements, Note 21 — Recent Accounting Pronouncements. The adoption of recent accounting standards as included in Note 21 — Recent Accounting Pronouncements in the Condensed Consolidated Financial Statements has not had and is not expected to have a significant impact on our revenue, earnings or liquidity.

### **Special Notes Regarding Forward-Looking Statements**

This Quarterly Report on Form 10-Q, especially "Management's Discussion and Analysis of Financial Condition and Results of Operations," contains "forward-looking" statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements in this document other than statements of historical fact are statements that are, or could be deemed, "forward-looking" statements. Some of these statements may be indicated by words such as "may", "anticipate", "expect", "believe", "intend", "guidance", "estimates", "suggest", "will", "plan", "should", "would", "could", "for" words and terms that use the future tense or have a similar meaning. Forward-looking statements are based on current expectations and are subject to numerous important risks, uncertainties, assumptions and other factors, some of which are beyond the Company's control. Factors that could cause actual results to differ materially from current expectations include, among other things, general economic conditions and conditions in the particular markets in which we operate, changes in customer demand and capital spending, competitive factors and pricing pressures, our ability to develop and launch new products in a cost-effective manner, changes in law, including the effect of U.S. tax reform and developments with respect to trade policy and tariffs, our ability to identify and complete acquisitions and integrate and realize synergies from newly acquired businesses, the impact of interest rate and currency exchange rate fluctuations, capital allocation plans and changes in those plans, including with respect to dividends, share repurchases, investments in research and development, capital expenditures and acquisitions, our ability to derive expected benefits from restructuring, productivity initiatives and other cost reduction actions, changes in material costs or the supply of input materials, the impact of legal compliance risks and litigation, including with respect to product quality and safety, cybersecurity and privacy, our ability to capture and protect intellectual property rights, and various other factors that are described in our periodic reports filed with or furnished to the Securities and

Edgar Filing: DOVER Corp - Form 10-Q

Exchange Commission, including our Annual Report on Form 10-K for the year ended December 31, 2018. The Company undertakes no obligation to publicly update any forward-looking statement, whether as a result of new information, future events or otherwise.

The Company may, from time to time, post financial or other information on its website, [www.dovercorporation.com](http://www.dovercorporation.com). The website is for informational purposes only and is not intended for use as a hyperlink. The Company is not incorporating any material on its website into this report.

**Non-GAAP Disclosures**

In an effort to provide investors with additional information regarding our results as determined by GAAP, we also disclose non-GAAP information that we believe provides useful information to investors. Segment EBITDA, segment EBITDA margin, free cash flow, net debt, net capitalization, the net debt to net capitalization ratio, adjusted working capital and organic revenue growth are not financial measures under GAAP and should not be considered as a substitute for cash flows from operating activities, debt or equity, earnings, revenue or working capital as determined in accordance with GAAP, and they may not be comparable to similarly titled measures reported by other companies. We believe that segment EBITDA and segment EBITDA margin are useful to investors and other users of our financial information in evaluating ongoing operating profitability as they exclude the depreciation and amortization expense related primarily to capital expenditures and acquisitions that occurred in prior years, as well as in evaluating operating performance in relation to our competitors. Segment EBITDA is calculated by adding back depreciation and amortization expense to segment earnings, which is the most directly comparable GAAP measure. We do not present segment net income because corporate expenses are not allocated at a segment level. Segment EBITDA margin is calculated as segment EBITDA divided by segment revenue.

We believe the net debt to net capitalization ratio and free cash flow are important measures of liquidity. Net debt to net capitalization is helpful in evaluating our capital structure and the amount of leverage we employ. Free cash flow provides both management and investors a measurement of cash generated from operations that is available to fund acquisitions, pay dividends, repay debt and repurchase our common stock. Reconciliations of free cash flow, net debt and net capitalization can be found above in this Item 2, MD&A. We believe that reporting adjusted working capital, which is calculated as accounts receivable, plus inventory, less accounts payable, provides a meaningful measure of our operational results by showing the changes caused solely by revenue. We believe that reporting organic revenue and organic revenue growth, which exclude the impact of foreign currency exchange rates and the impact of acquisitions and divestitures, provides a useful comparison of our revenue performance and trends between periods.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

There has been no significant change in our exposure to market risk during the three months ended March 31, 2019. For a discussion of our exposure to market risk, refer to Item 7A, "Quantitative and Qualitative Disclosures about Market Risk," contained in our Annual Report on Form 10-K for the fiscal year ended December 31, 2018.

**Item 4. Controls and Procedures**

At the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(e). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of March 31, 2019.

During the first quarter of 2019, there were no changes in the Company's internal control over financial reporting that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
