METHODE ELECTRONICS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
(Dollar amounts in thousands, except share and per share data)

1. BASIS OF PRESENTATION

Methode Electronics, Inc. was incorporated in 1946 as an Illinois corporation and reincorporated in Delaware in 1966. As used herein, “we,” “us,” “our,” the “Company” or “Methode” means Methode Electronics, Inc. and its subsidiaries. Our business is managed and our financial results are reported on a segment basis, with those segments being Automotive, Interconnect, Power Products and Other. The condensed consolidated financial statements and related disclosures as of July 27, 2013 and results of operations for the three months ended July 27, 2013 and July 28, 2012 are unaudited, pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). The April 27, 2013 condensed consolidated balance sheet was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America (“U.S. GAAP”). Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to such rules and regulations. In our opinion, these financial statements include all adjustments (consisting only of normal recurring adjustments) necessary for the fair statement of the results for the interim periods. These financial statements should be read in conjunction with the financial statements included in our Form 10-K for the year ended April 27, 2013, filed with the SEC on June 20, 2013. Results may vary from quarter to quarter for reasons other than seasonality.

2. RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS

In February 2013, the FASB issued ASU 2013-02, Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. The update requires disclosure of amounts reclassified out of accumulated other comprehensive income by component. In addition, an entity is required to present either on the face of the consolidated statements of income or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amount reclassified is required to be reclassified to net income in its entirety in the same reporting period. For amounts not reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures that provide additional detail about those amounts. ASU 2013-02 was effective prospectively for the Company for the first quarter of fiscal 2014, which began April 28, 2013. The adoption of ASU 2013-02 did not have a material impact on our financial statements.

3. GOODWILL AND INTANGIBLE ASSETS

We review our goodwill and other intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of these assets may not be recoverable, and at least annually in accordance with Accounting Standards Codification, (“ASC”) No. 350, “Intangibles — Goodwill and Other”. The values assigned to goodwill and intangible assets are normally based on estimates and judgments regarding expectations for the success and life cycle of products and technologies acquired. A severe decline in expectations could result in significant impairment charges, which could have a material adverse effect on our financial condition and results of operations.

The following table shows the roll-forward of goodwill in the financial statements for the three months ended July 27, 2013:

As of July 27, 2013

Edgar Filing: METHODE ELECTRONICS INC - Form 10-Q

	Interconnect	Power Products	Total
Balance as of April 27, 2013	\$11,957	\$950	\$12,907
Foreign currency translation	15	—	15
Balance as of July 27, 2013	\$11,972	\$950	\$12,922

6

METHODE ELECTRONICS, INC. AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
 (Dollar amounts in thousands, except share and per share data)

The following tables present details of the Company's intangible assets:

As of July 27, 2013

	Gross	Accumulated Amortization	Net	Wtd. Avg. Remaining Amortization Periods (Years)
Customer relationships and agreements	\$16,579	\$14,347	\$2,232	10.6
Trade names, patents and technology licenses	25,774	12,073	13,701	10.1
Covenants not to compete	119	20	99	4.2
Total	\$42,472	\$26,440	\$16,032	

As of April 27, 2013

	Gross	Accumulated Amortization	Net	Wtd. Avg. Remaining Amortization Periods (Years)
Customer relationships and agreements	\$16,579	\$14,213	\$2,366	10.9
Trade names, patents and technology licenses	25,774	11,779	13,995	10.4
Covenants not to compete	119	14	105	4.4
Total	\$42,472	\$26,006	\$16,466	

The estimated aggregate amortization expense for the current fiscal year and each of the four succeeding fiscal years is as follows:

2014	\$1,746
2015	1,725
2016	1,541
2017	1,476
2018	1,379

As of July 27, 2013 and April 27, 2013, the trade names, patents and technology licenses include \$1,800 of trade names that are not subject to amortization.

4. INCOME TAXES

At July 27, 2013 and April 27, 2013, we had valuation allowances against our deferred tax assets of \$44,508 and \$42,436, respectively. In accordance with ASC No. 740, "Income Taxes," a valuation allowance is required to be recorded when it is more likely than not that deferred tax assets will not be realized. Future realization depends on the existence of sufficient taxable income within the carry-forward period available under the tax laws. Sources of future taxable income include future reversals of taxable temporary differences, future taxable income exclusive of reversing taxable differences, taxable income in carry-back years and tax planning strategies. These sources of positive evidence of realizability must be weighed against negative evidence, such as cumulative losses in recent years.

In forming a judgment about the future realization of our deferred tax assets, we considered both the positive and negative evidence of realizability and gave significant weight to the negative evidence from our recent cumulative loss in the U.S. We will continue to assess this situation and make appropriate adjustments to the valuation allowance

based on our evaluation of the positive and negative evidence existing at the time. We are currently unable to forecast when there will be sufficient positive evidence for us to reverse the valuation allowances that we have recorded.

The Company recognized an income tax provision of \$1,299 and \$430 for the three months ended July 27, 2013 and July 28, 2012, respectively. The Company's effective tax rate was 8.7% and 10.0% for the three months ended July 27, 2013 and July 28, 2012, respectively. The income tax provision for the three months ended July 27, 2013 and July 28, 2012 is lower than the U.S. statutory rate primarily due to foreign investment tax credits, foreign operations with lower statutory rates and utilization of net operating loss carryovers.

METHODE ELECTRONICS, INC. AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
 (Dollar amounts in thousands, except share and per share data)

We recognize interest and penalties accrued related to the unrecognized tax benefits in the provision for income taxes. We had approximately \$60 accrued at July 27, 2013 for the payment of interest and penalties. The total unrecognized tax benefit as of July 27, 2013 was \$393. There have been no changes to the accrued amounts in the current fiscal year.

The Company and all of its domestic subsidiaries file income tax returns in the U.S. federal jurisdiction and various states. Our foreign subsidiaries file income tax returns in certain foreign jurisdictions since they have operations outside the U.S. The Company and its subsidiaries are generally no longer subject to U.S. federal, state and local examinations by tax authorities for all years except fiscal 2013, 2012, 2011 and 2010.

5. COMMON STOCK AND STOCK-BASED COMPENSATION

The following table sets forth the changes in the number of issued shares of common stock during the three-month periods presented:

	Three Months Ended	
	July 27, 2013	July 28, 2012
Balance at the beginning of the period	38,455,853	38,375,678
Options exercised	97,007	—
Restricted stock awards vested	27,000	27,000
Balance at the end of the period	38,579,860	38,402,678

On July 26, 2013, we paid a quarterly dividend of \$2,605.

Stock Options Granted Under the 2010 Stock Plan

In July 2013, the Compensation Committee approved the grant of options to purchase 120,000 shares of our common stock to our executive officers. The stock options have a ten-year term and will vest one-third per year on each anniversary of the date of grant. The exercise price is the closing price on the date granted.

The following tables summarize the stock option activity and related information for the stock options granted under the 2010 Stock Plan for the three months ended July 27, 2013:

	Summary of Option Activity	
	Shares	Wtd. Avg. Exercise Price
Outstanding at April 27, 2013	360,000	\$ 9.53
Granted	120,000	17.27
Exercised	—	—
Cancelled	—	—
Outstanding at July 27, 2013	480,000	\$ 11.46

Options Outstanding at July 27, 2013

Average Exercise Price	Shares	Avg. Remaining Life (Years)
\$9.24	120,000	7.3
\$10.70	120,000	8.1

Edgar Filing: METHODE ELECTRONICS INC - Form 10-Q

\$8.64	120,000	9.1
\$17.27	120,000	10.0
\$11.46	480,000	

8

METHODE ELECTRONICS, INC. AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
 (Dollar amounts in thousands, except share and per share data)

Options Exercisable at July 27, 2013

Average Exercise Price	Shares	Avg. Remaining Life (Years)
\$9.24	80,000	7.3
\$10.70	80,000	8.1
\$8.64	40,000	9.1
\$9.70	200,000	

The options outstanding had an intrinsic value of \$3,618 at July 27, 2013. The intrinsic value represents the total pre-tax intrinsic value (the difference between the Company's closing stock price on the last trading day of the first quarter of fiscal 2014 and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holders had all option holders exercised their options on July 27, 2013.

We estimated the fair value of our employee stock options on the date of grant using the Black-Scholes option-pricing model with the following assumptions:

	Fiscal 2014 Awards	Fiscal 2013 Awards	
Average expected volatility	65.77	% 66.15	%
Average risk-free interest rate	0.65	% 0.39	%
Dividend yield	2.81	% 2.94	%
Expected life of options (in years)	7.61	7.18	
Weighted-average grant-date fair value	\$8.36	\$4.13	

Restricted Stock Awards ("RSAs") and Restricted Stock Units ("RSUs") Outstanding Under the 2010 Stock Plan

The following table summarizes the RSA and RSU activity for the three months ended July 27, 2013 for the RSA's and RSU's granted under the 2010 Stock Plan:

			RSA Shares	RSU Shares
Unvested and unissued at April 27, 2013			700,000	120,000
Awarded			—	—
Vested			—	—
Forfeited and cancelled			—	—
Unvested and unissued at July 27, 2013			700,000	120,000
			Probable Unearned Compensation Expense at	Target Unearned Compensation Expense at
Grant Fiscal Year	Number of Shares Granted, less Forfeitures	Vesting Period	Weighted Average Value	July 27, 2013
2011	600,000	5-year cliff, performance based	\$9.70	\$2,277
2011	300,000	5-year, equal annual installments	9.70	353
2012	100,000	One-third per year, beginning in fiscal 2015, performance based	8.10	440
				July 27, 2013

Stock Options Granted Under the 2007 Stock Plan

In July 2013, our Compensation Committee awarded options to purchase 42,500 shares of our common stock to some non-executive members of the management team that vest one-third per year on each anniversary of the date of the grant. The stock options awarded under the 2007 Stock Plan have a ten-year term. The exercise price is the closing price on the date granted.

METHODE ELECTRONICS, INC. AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
 (Dollar amounts in thousands, except share and per share data)

The following tables summarize the stock option activity and related information for the stock options granted under the 2007 Stock Plan for the three months ended July 27, 2013:

	Summary of Option Activity	
	Shares	Wtd. Avg. Exercise Price
Outstanding at April 27, 2013	778,000	\$5.94
Granted	42,500	17.27

10

METHODE ELECTRONICS, INC. AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
 (Dollar amounts in thousands, except share and per share data)

Restricted Stock Awards and Restricted Stock Units Outstanding Under the 2007 Stock Plan

In April 2007, 225,000 shares of common stock subject to performance-based RSAs granted to our CEO in fiscal 2006 and 2007 were converted to RSUs. The RSUs were subject to the same vesting schedule and other major provisions of the RSAs they replaced, except the shares for stock underlying the RSUs will not be issued and delivered until the earlier of: (1) thirty days after the CEO's date of termination of employment with the Company and all of its subsidiaries and affiliates; or (2) the last day of our fiscal year in which the payment of common stock in satisfaction of the RSUs becomes deductible to the Company under Section 162(m) of the Internal Revenue Code. The RSUs are not entitled to voting rights or the payment of dividends, however, a bonus in lieu of dividends is paid. The RSU's are fully vested as of July 27, 2013. As of July 27, 2013, no shares have been delivered pursuant to the RSUs.

At the end of fiscal 2013, there were no RSAs outstanding under the 2007 Stock Plan. During the first quarter of fiscal 2014, we awarded 27,000 shares to our independent directors, all of which vested immediately upon grant.

Stock Options Outstanding Under the 2000 and 2004 Stock Plans

There were no options to purchase shares of our common stock granted in previous years under the 2000 and 2004 Stock Plans outstanding of July 27, 2013. Options to purchase 1,410 shares of our common stock expired in the first quarter of fiscal 2014.

The following tables summarize the stock option activity and related information for the stock options outstanding under the 2000 and 2004 Stock Plans for the three months ended July 27, 2013:

	Summary of Option Activity	
	Shares	Wtd. Avg. Exercise Price
Outstanding at April 27, 2013	73,185	\$11.44

 (Dollar amounts in thousands, except share and per share data)

Stock-based Compensation

We recognize pre-tax compensation expense for stock options, RSA's and RSU's under our 2010 and 2007 stock plans in the selling and administrative section of our consolidated statement of operations. There was no pre-tax compensation expense related to the 2000 and 2004 stock plans in either period presented. The table below summarizes the expense for the three months ended July 27, 2013 and July 28, 2012.

	Compensation Expense Three Months Ended	
	July 27, 2013	July 28, 2012
2010 Stock Plan:		
RSAs	\$369	\$366
RSUs	74	132
Stock options	101	133
Total 2010 Stock Plan	\$544	\$631
2007 Stock Plan:		
RSAs	\$466	\$233
Stock options	156	127
Total 2007 Stock Plan	\$622	\$360
Total Compensation Expense	\$1,166	\$991

6. NET INCOME PER SHARE

Basic net income per share is calculated by dividing net income by the weighted average number of common shares outstanding for the applicable period. Diluted net income per share is calculated after adjusting the denominator of the basic net income per share calculation for the effect of all potentially dilutive stock compensation awards outstanding during the period.

The following table sets forth the computation of basic and diluted net income per share:

	Three Months Ended	
	July 27, 2013	July 28, 2012
Numerator - net income attributable to Methode Electronics, Inc.	\$13,611	3,889
Denominator:	—	—
Denominator for basic net income per share-weighted average shares	37,552,740	37,391,831
Dilutive potential common shares	698,572	502,042
Denominator for diluted net income per share-adjusted weighted average shares and assumed conversions	38,251,312	37,893,873
Net income per share:		
Basic	\$0.36	\$0.10
Diluted	\$0.36	\$0.10

METHODE ELECTRONICS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
(Dollar amounts in thousands, except share and per share data)

For the three months ended July 27, 2013 and July 28, 2012, options to purchase 162,500 shares and 761,685 shares, respectively, have been excluded in the computation of net income per share because the exercise price was greater than the average market price for that period, and therefore, would have been anti-dilutive. In addition, options to purchase 700,000 shares have been excluded in the computation of net income per share for the three months ended July 27, 2013, as these shares are contingent on the Company's performance in fiscal 2015.

7. SEGMENT INFORMATION

We are a global manufacturer of component and subsystem devices. We design, manufacture and market devices employing electrical, electronic, wireless, sensing and optical technologies. Our components are found in the primary end markets of the automotive, appliance, communications (including information processing and storage, networking equipment, wireless and terrestrial voice/data systems), aerospace, rail and other transportation industries; and the consumer and industrial equipment markets.

ASC No. 280, "Segment Reporting", establishes annual and interim reporting standards for an enterprise's operating segments and related disclosures about its products, services, geographic areas and major customers. An operating segment is defined as a component of an enterprise that engages in business activities from which it may earn revenues and incur expenses, and about which separate financial information is regularly evaluated by the Chief Operating Decision Maker ("CODM") in deciding how to allocate resources. The CODM, as defined by ASC No. 280, is the Company's President and Chief Executive Officer ("CEO").

We have multiple operating segments that are aggregated in four reportable segments. Those segments are Automotive, Interconnect, Power Products and Other.

The Automotive segment supplies electronic and electromechanical devices and related products to automobile Original Equipment Manufacturers, ("OEMs"), either directly or through their tiered suppliers. Our products include control switches for electrical power and signals, connectors for electrical devices, integrated control components, switches and sensors that monitor the operation or status of a component or system, and packaging of electrical components.

The Interconnect segment provides a variety of copper and fiber-optic interconnect and interface solutions for the aerospace, appliance, commercial, computer, construction, consumer, material handling, medical, military, mining, networking, storage, and telecommunications markets. Solutions include conductive polymers, connectors, custom cable assemblies, industrial safety radio remote controls, optical and copper transceivers, personal computer and express card packaging and terminators, solid-state field effect interface panels, and thick film inks. Services include the design and installation of fiber optic and copper infrastructure systems, and manufacturing active and passive optical components.

The Power Products segment manufactures braided flexible cables, current-carrying laminated bus devices, custom power-product assemblies, high-current low voltage flexible power cabling systems and powder coated bus bars that are used in various markets and applications, including aerospace, computers, industrial and power conversion, inverters and battery systems, insulated gate bipolar transistor solutions, military, telecommunications, and transportation.

The Other segment includes a designer and manufacturer of magnetic torque sensing products, and independent laboratories that provide services for qualification testing and certification, and analysis of electronic and optical

components.

The accounting policies of the segments are the same as those described in the summary of significant accounting policies in our Form 10-K for the fiscal year ended April 27, 2013. We allocate resources to segments based on operating income. Transfers between segments are recorded using internal transfer prices set by us. The following tables present information regarding our segments:

8. CONTINGENCIES

Certain litigation arising in the normal course of business is pending against us. We are from time to time subject to various legal actions and claims incidental to our business, including those arising out of alleged defects, breach of contracts, employment-related matters and environmental matters. We consider insurance coverage and third-party indemnification when determining required accruals for pending litigation and claims. Although the outcome of potential legal actions and claims cannot be determined, it is our opinion, based on the information available, that we have adequate reserves for these liabilities.

9. PRE-PRODUCTION COSTS RELATED TO LONG-TERM SUPPLY ARRANGEMENTS

We incur pre-production tooling costs related to certain products produced for our customers under long-term supply agreements. We had \$14,891 and \$11,511 as of July 27, 2013 and April 27, 2013, respectively, of pre-production tooling costs related to customer-owned tools for which reimbursement is contractually guaranteed by the customer or for which the customer has provided a non-cancelable right to use the tooling. Engineering, testing and other costs incurred in the design and development of production parts are expensed as incurred, unless the costs are reimbursable, as specified in a customer contract.

10. DEBT AND CREDIT AGREEMENT

We are party to an Amended and Restated Credit Agreement with Bank of America, N.A., as administrative agent, and certain other financial institutions, which has a maturity of September 21, 2017. The credit facility is in the aggregate principal amount of \$100,000, with an option to increase the principal amount by an additional \$50,000, subject to customary conditions and approval of the lender(s) providing new commitment(s). The credit facility provides for variable rates of interest based on the type of borrowing and the Company's debt to EBITDA financial ratio. The Amended and Restated Credit Agreement is guaranteed by certain of our U.S. subsidiaries. At July 27, 2013 the interest rate on the credit facility was 1.5% plus LIBOR. At July 27, 2013, we were in compliance with the covenants of the agreement. During the first quarter of fiscal 2014, we had borrowings of \$14,500 and payments of \$5,727, which includes interest of \$227 under this credit facility. As of July 27, 2013, there were outstanding balances against the credit facility of \$52,500. There was \$47,500 available to borrow under the credit facility as of July 27, 2013, which does not include the option to increase the principal amount. We believe the fair value approximates the carrying amount as of July 27, 2013.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Cautionary Statement

Certain statements in this report are forward-looking statements that are subject to certain risks and uncertainties. We undertake no duty to update any such forward-looking statements to conform to actual results or changes in our expectations. Our business is highly dependent upon two large automotive customers and specific makes and models of automobiles. Our results will be subject to many of the same risks that apply to the automotive, appliance, computer and communications industries, such as general economic conditions, interest rate fluctuations, consumer spending patterns and technological changes. Other factors which may result in materially different results for future periods include the following risk factors. Additional risks and uncertainties not presently known or that our management currently believe to be insignificant may also adversely affect our financial condition or results of operations. These risk factors should be considered in connection with evaluating the forward-looking statements contained in this report because these factors could cause our actual results and condition to differ materially from those projected in forward-looking statements. The forward-looking statements in this report are subject to the safe harbor protection provided under the securities laws and are made as of the date of this report.

Our business is highly dependent on two large automotive customers. If we were to lose either of these customers or experienced a significant decline in the volume or price of products purchased by these customers, or if either of the customers declare bankruptcy, our future results could be adversely affected.

Because we derive a substantial portion of our revenues from customers in the automotive, appliance, computer and communications industries, we are susceptible to trends and factors affecting those industries.

We face risks relating to our international operations, including political and economic instability, expropriation, or the imposition of government controls.

Our inability to effectively manage the timing, quality and cost of new program launches could adversely affect our financial performance.

Products we manufacture may contain design or manufacturing defects that could result in reduced demand for our products or services and liability claims against us.

Our technology-based business and the markets in which we operate are highly competitive. If we are unable to compete effectively, our sales could decline.

We are dependent on the availability and price of materials.

Disruption of our supply chain could have an adverse effect on our business, financial condition and results of operations.

Downturns in the automotive industry or the bankruptcy of certain automotive customers could reduce the sales and profitability of our business.

We may be unable to keep pace with rapid technological changes, which could adversely affect our business.

If we are unable to protect our intellectual property or we infringe, or are alleged to infringe, on another person's intellectual property, our business, financial condition and operating results could be materially adversely affected.

• We are subject to continuing pressure to lower our prices.

- We currently have a significant amount of our cash located outside the U.S.

• We may be required to recognize impairment charges for our goodwill and indefinite-lived intangible assets.

• A significant fluctuation between the U.S. dollar and other currencies could adversely impact our operating results.

• We may acquire businesses or divest business operations. These transactions may pose significant risks and may materially adversely affect our business, financial condition and operating results.

Table of Contents

• We could suffer significant business interruptions.

• Unfavorable tax law changes may adversely affect our financial results.

• Our information technology (“IT”) systems could be breached.

• The SEC's annual disclosure and reporting requirements for those companies who use conflict minerals mined from the Democratic Republic of Congo (DRC) and adjoining countries may be difficult and costly to implement.

Any such forward-looking statements are not guarantees of future performance and actual results, developments and business decisions may differ materially from those foreseen in such forward-looking statements. These forward-looking statements speak only as of the date of the report, press release, statement, document, webcast or oral discussion in which they are made. We do not intend to update any forward-looking statements, all of which are expressly qualified by the foregoing. See Part I — Item 1A, Risk Factors of our Form 10-K for the fiscal year ended April 27, 2013, for a further discussion regarding some of the reasons that actual results may be materially different from those we anticipate.

Overview

We are a global manufacturer of component and subsystem devices with manufacturing, design and testing facilities in China, Egypt, Germany, India, Italy, Lebanon, Malta, Mexico, the Philippines, Singapore, Switzerland, the United Kingdom and the United States. We are a global designer and manufacturer of electronic and electro-mechanical devices. We design, manufacture and market devices employing electrical, radio remote control, electronic, wireless, sensing and optical technologies. Our business is managed on a segment basis, with those segments being Automotive, Interconnect, Power Products and Other. For more information regarding the business and products of these segments, see “Item 1. Business.” of our Form 10-K for the fiscal year ended April 27, 2013.

Our components are found in the primary end markets of the aerospace, appliance, automotive, construction, consumer and industrial equipment markets, communications (including information processing and storage, networking equipment, wireless and terrestrial voice/data systems), rail and other transportation industries.

Delphi Settlement

In September 2012, the Company and various Delphi parties settled all Delphi related litigation matters. In addition to resolving all claims between the parties, the Company assigned certain patents to Delphi and entered into a non-compete with respect to the related technology. In exchange, the Company received a payment of \$20.0 million, half of which was paid in October 2012 and half of which was paid in January 2013. The Company recorded the entire gain in the second quarter of fiscal 2013, in the income from settlement section of our consolidated statement of operations.

Recent Transactions

In September 2012, we acquired certain assets of Hetronic South Europe S.R.L. for \$1.4 million in cash, as well as the forgiveness of debt owed to the Company of \$1.3 million, for total consideration of \$2.7 million. We operate this business under the name Hetronic Italy. The business, located in Milan, Italy, is a market leader in industrial safety radio remote controls, primarily serving the Italian market. The accounts and transactions of Hetronic Italy have been included in the Hetronic Group in the Interconnect segment in the consolidated financial statements from the effective date of the acquisition.

Table of Contents

Results of Operations for the Three Months Ended July 27, 2013 as Compared to the Three Months Ended July 28, 2012

Consolidated Results

Below is a table summarizing results for the three months ended:

(in millions)

("N/M" equals not meaningful)

	July 27, 2013	July 28, 2012	Net Change	Net Change	
Net sales	\$167.3	\$118.7	\$48.6	40.9	%
Cost of products sold	133.3	97.3	36.0	37.0	%

Net sales	100.0	% 100.0	%		
Cost of products sold	79.7	% 82.0	%		
Gross margins	20.3	% 18.0	%		
Selling and administrative expenses	11.3	% 14.5	%		
Interest expense	0.1	% —	%		
Other expense	0.1	% —	%		
Income tax expense	0.8	% 0.3	%		
Net loss attributable to noncontrolling interest	—	% (0.1)	%		
Net income attributable to Methode Electronics, Inc.	8.1	% 3.3	%		

Net Sales. Consolidated net sales increased \$48.6 million, or 40.9%, to \$167.3 million for the three months ended July 27, 2013, from \$118.7 million for the three months ended July 28, 2012. The Automotive segment net sales increased \$32.5 million, or 45.8%, to \$103.5 million for the first quarter of fiscal 2014, from \$71.0 million for the first quarter of fiscal 2013 primarily due to higher sales volumes. The Interconnect segment net sales increased \$12.0 million, or 37.9%, to \$43.7 million for the first quarter of fiscal 2014, compared to \$31.7 million for the first quarter of fiscal 2013, primarily due to higher sales volumes in white goods and data products. The Power Products segment net sales increased \$5.2 million, or 43.0%, to \$17.3 million for the first quarter of fiscal 2014, compared to \$12.1 million for the first quarter of fiscal 2013, primarily due to higher sales volumes for cabling and busbar products. The Other segment net sales decreased \$1.2 million, or 30.8%, to \$2.7 million for the first quarter of fiscal 2014, as compared to \$3.9 million for the first quarter of fiscal 2013, primarily due to lower sales volumes for our torque-sensing products. Translation of foreign operations net sales for the three months ended July 27, 2013 increased reported net sales by \$1.1 million or 0.7% due to average currency rate fluctuations in the first quarter of fiscal 2014, compared to the first quarter of fiscal 2013, primarily due to the strengthening of the Euro compared to the U.S. dollar.

Cost of Products Sold. Consolidated cost of products sold increased \$36.0 million, or 37.0%, to \$133.3 million for the three months ended July 27, 2013, compared to \$97.3 million for the three months ended July 28, 2012. Consolidated cost of products sold as a percentage of sales was 79.7% for the first quarter of fiscal 2014, compared to 82.0% for the first quarter of fiscal 2013. The Automotive segment experienced a decrease in cost of goods sold as a percentage of sales due to increased manufacturing efficiencies related to the increased sales volumes and the vertical integration of our paint and decorative molding operation into our manufacturing processes. The Interconnect segment experienced an increase in cost of products

Table of Contents

sold as a percentage of sales primarily due to higher sales volumes for our white goods products, which have a higher material content than other product lines in the segment. The Power Products segment experienced a decrease in cost of products sold as a percentage of sales primarily due to favorable commodity pricing for raw materials and favorable product mix.

Gross Profit. Consolidated gross profit increased \$12.6 million, or 58.9%, to \$34.0 million for the three months ended July 27, 2013, as compared to \$21.4 million for the three months ended July 28, 2012. Gross margins as a percentage of net sales increased to 20.3% for the three months ended July 27, 2013, compared to 18.0% for the three months ended July 28, 2012. The increase is primarily due to increased manufacturing efficiencies related to the increased sales volumes and the vertical integration of our paint and decorative molding facility in our manufacturing process in the Automotive segment. The Interconnect segment experienced a decrease in gross margins as a percentage of sales primarily due to higher sales volumes for our white goods products, which have a higher material content than other product lines in the segment. The Power Products segment experienced an increase in gross margins as a percentage of sales primarily due to favorable commodity pricing for raw materials and favorable product mix.

Selling and Administrative Expenses. Selling and administrative expenses increased by \$1.7 million, or 9.9%, to \$18.9 million for the three months ended July 27, 2013, compared to \$17.2 million for the three months ended July 28, 2012. Selling and administrative expenses as a percentage of net sales decreased to 11.3% for the three months ended July 27, 2013 from 14.5% for the three months ended July 28, 2012. The decrease is primarily due to higher sales volumes. In the first quarter of fiscal 2014, compensation expense increased \$1.7 million. In addition, expenses for marketing, depreciation and stock award amortization expense increased by \$0.6 million, which was offset by lower legal fees of \$0.6 million.

Income Tax Expense. Income tax expense increased \$0.9 million, or 225.0%, to \$1.3 million for the three months ended July 27, 2013, compared to \$0.4 million for the three months ended July 28, 2012. The income tax expense for both the first quarter of fiscal 2014 and fiscal 2013 relates to income taxes on foreign profits.

Net Income Attributable to Methode Electronics, Inc. Net income attributable to Methode Electronics, Inc. increased \$9.7 million, or 248.7%, to \$13.6 million for the three months ended July 27, 2013, compared to \$3.9 million for the three months ended July 28, 2012. The increase is primarily due to higher sales volumes, increased manufacturing efficiencies related to the increased sales volumes and the vertical integration of our paint and decorative molding facility in our manufacturing process, partially offset with higher compensation expense.

Table of Contents

Operating Segments

Automotive Segment Results

Below is a table summarizing results for the three months ended:
(in millions)

	July 27, 2013	July 28, 2012	Net Change	Net Change	
Net sales	\$103.5	\$71.0	\$32.5	45.8	%
Cost of products sold	84.6	61.6	23.0	37.3	%
Gross profit	18.9	9.4	9.5	101.1	%
Selling and administrative expenses	6.5	6.7	(0.2)	(3.0))%
Income from operations	\$12.4	\$2.7	\$9.7	359.3	%
Percent of sales:	July 27, 2013	July 28, 2012			
Net sales	100.0	% 100.0	%		
Cost of products sold	81.7	% 86.8	%		
Gross margins	18.3	% 13.2	%		
Selling and administrative expenses	6.3	% 9.4	%		
Income from operations	12.0	% 3.8	%		

Net Sales. Automotive segment net sales increased \$32.5 million, or 45.8%, to \$103.5 million for the three months ended July 27, 2013, from \$71.0 million for the three months ended July 28, 2012. Net sales increased in North America \$21.0 million, or 86.1%, to \$45.4 million in the first quarter of fiscal 2014, compared to \$24.4 million in the first quarter of fiscal 2013 due to the launch of our GM Center Console Program and increased sales volumes for our Ford Center Console Program and our transmission lead-frame assembly. Net sales increased in Europe by \$7.6 million, or 26.1%, to \$36.7 million in the first quarter of fiscal 2014, compared to \$29.1 million in the first quarter of fiscal 2013, primarily due to new product launches for our hidden-switch products. Net sales in Asia increased \$3.9 million, or 22.3%, to \$21.4 million in the first quarter of fiscal 2014, compared to \$17.5 million in the first quarter of fiscal 2013, primarily due to increased sales volumes for our steering-angle sensor and transmission lead-frame assembly products. Translation of foreign operations net sales for the three months ended July 27, 2013 increased reported net sales by \$1.1 million, or 1.1%, due to average currency rates in the first quarter of fiscal 2014, compared to the average currency rates in the first quarter of fiscal 2013, primarily due to the strengthening of the Euro as compared to the U.S. dollar.

Cost of Products Sold. Automotive segment cost of products sold increased \$23.0 million, or 37.3%, to \$84.6 million for the three months ended July 27, 2013, from \$61.6 million for the three months ended July 28, 2012. The Automotive segment cost of products sold as a percentage of sales decreased to 81.7% in the first quarter of fiscal 2014, compared to 86.8% in the first quarter of fiscal 2013. The decrease is primarily due to increased manufacturing efficiencies related to the increased sales volumes and the vertical integration of our paint and decorative molding operation into our manufacturing processes.

Gross Profit. Automotive segment gross profit increased \$9.5 million, or 101.1%, to \$18.9 million for the three months ended July 27, 2013, as compared to \$9.4 million for the three months ended July 28, 2012. The Automotive

segment gross margins as a percentage of net sales were 18.3% for the three months ended July 27, 2013, as compared to 13.2% for the three months ended July 28, 2012. The increase is primarily due to increased manufacturing efficiencies related to the increased sales volumes and the vertical integration of our paint and decorative molding facility in our manufacturing process.

Selling and Administrative Expenses. Selling and administrative expenses decreased \$0.2 million, or 3.0%, to \$6.5 million for the three months ended July 27, 2013, compared to \$6.7 million for the three months ended July 28, 2012. Selling and administrative expenses as a percentage of net sales were 6.3% for the three months ended July 27, 2013 and 9.4% for the

Table of Contents

three months ended July 28, 2012. Legal expenses decreased \$0.6 million due to the settlement of the Delphi litigation in the second quarter of fiscal 2013, partially offset with higher selling and administrative expenses at our China operation of \$0.2 million and \$0.2 million of severance costs at our North American automotive operation.

Income from Operations. Automotive segment income from operations increased \$9.7 million, or 359.3%, to \$12.4 million for the three months ended July 27, 2013, compared to \$2.7 million for the three months ended July 28, 2012 due to increased sales, increased manufacturing efficiencies related to the increased sales volumes and the vertical integration of our paint and decorative molding facility in our manufacturing process and lower selling and administrative expenses.

Interconnect Segment Results

Below is a table summarizing results for the three months ended:
(in millions)

	July 27, 2013	July 28, 2012	Net Change	Net Change	
Net sales	\$43.7	\$31.7	\$12.0	37.9	%
Cost of products sold	31.8	22.4	9.4	42.0	%
Gross profit	11.9	9.3	2.6	28.0	%
Selling and administrative expenses	4.5	4.4	0.1	2.3	%
Income from operations	7.4	4.9	2.5	51.0	%
Percent of sales:	July 27, 2013	July 28, 2012			
Net sales	100.0	% 100.0	%		
Cost of products sold	72.8	% 70.7	%		
Gross margins	27.2	% 29.3	%		
Selling and administrative expenses	10.3	% 13.9	%		
Income from operations	16.9	% 15.5	%		

Net Sales. Interconnect segment net sales increased \$12.0 million, or 37.9%, to \$43.7 million for the three months ended July 27, 2013, from \$31.7 million for the three months ended July 28, 2012. Net sales increased in North America by \$12.2 million, or 55.7%, to \$34.1 million in the first quarter of fiscal 2014, compared to \$21.9 million in the first quarter of fiscal 2013, primarily due to stronger sales volumes for our white goods and data solutions products. Net sales in Europe increased \$0.6 million, or 10.3%, to \$6.4 million in the first quarter of fiscal 2014, compared to \$5.8 million in the first quarter of fiscal 2013, primarily due to higher radio remote control sales volumes as a result of the acquisition of our Hetricon Italy operation in September 2012. Net sales in Asia decreased \$0.8 million, or 20.0%, to \$3.2 million in the first quarter of fiscal 2014, compared to \$4.0 million in the first quarter of fiscal 2013, primarily due to lower sales from certain legacy products resulting from the planned exit of a product line and lower radio remote control sales volumes.

Cost of Products Sold. Interconnect segment cost of products sold increased \$9.4 million, or 42.0%, to \$31.8 million for the three months ended July 27, 2013, compared to \$22.4 million for the three months ended July 28, 2012. Interconnect segment cost of products sold as a percentage of net sales increased to 72.8% for the three months ended

July 27, 2013, compared to 70.7% for the three months ended July 28, 2012. The increase in cost of products sold as a percentage of sales is primarily due to higher sales volumes for our white goods products, which have a higher material content than other product lines in the segment.

Gross Profit. Interconnect segment gross profit increased \$2.6 million, or 28.0%, to \$11.9 million for the three months ended July 27, 2013, compared to \$9.3 million for the three months ended July 28, 2012. Gross margins as a percentage of net sales decreased to 27.2% for the three months ended July 27, 2013, from 29.3% for the three months ended July 28, 2012. The

Table of Contents

decrease in gross margins is primarily due to higher sales volumes for our white goods products, which have a higher material content, thus lower gross margins, than other product lines in the segment.

Selling and Administrative Expenses. Selling and administrative expenses increased \$0.1 million, or 2.3%, to \$4.5 million for the three months ended July 27, 2013, compared to \$4.4 million for the three months ended July 28, 2012. The increase is primarily due to the Hetronic Italy acquisition. Selling and administrative expenses as a percentage of net sales decreased to 10.3% for the three months ended July 27, 2013, from 13.9% for the three months ended July 28, 2012. The decrease is primarily due to higher sales volumes.

Income from Operations. Interconnect segment income from operations increased \$2.5 million, or 51.0%, to \$7.4 million for the three months ended July 27, 2013, compared to \$4.9 million for the three months ended July 28, 2012, primarily due to higher sales volumes, partially offset with sales mix within the segment and higher selling and administrative expenses.

Power Products Segment Results

Below is a table summarizing results for the three months ended:
(in millions)

	July 27, 2013	July 28, 2012	Net Change	Net Change	
Net sales	\$17.3	\$12.1	\$5.2	43.0	%
Cost of products sold	13.4	10.1	3.3	32.7	%
Gross profit	3.9	2.0	1.9	95.0	%
Selling and administrative expenses	1.6	1.7	(0.1)	(5.9))%
Income from operations	\$2.3	\$0.3	\$2.0	666.7	%
Percent of sales:	July 27, 2013	July 28, 2012			
Net sales	100.0	% 100.0	%		
Cost of products sold	77.5	% 83.5	%		
Gross margins	22.5	% 16.5	%		
Selling and administrative expenses	9.2	% 14.0	%		
Income from operations	13.3	% 2.5	%		

Net Sales. Power Products segment net sales increased \$5.2 million, or 43.0%, to \$17.3 million for the three months ended July 27, 2013, compared to \$12.1 million for the three months ended July 28, 2012. Net sales increased in North America \$1.5 million, or 19.0%, to \$9.4 million in the first quarter of fiscal 2014, compared to \$7.9 million in the first quarter of fiscal 2013, primarily due to higher sales volumes for our cabling and busbar products, partially offset by lower sales volumes for our heat sink products. Net sales in Europe increased \$2.5 million, or 625.0%, to \$2.9 million in the first quarter of fiscal 2014, compared to \$0.4 million in the first quarter of fiscal 2012, due to launches of a by-pass switch for a substation and busbars for electric vehicles, both of which launched in the second half of fiscal 2013. Net sales in Asia increased \$1.2 million, or 31.6%, to \$5.0 million in the first quarter of fiscal 2014, compared to \$3.8 million in the first quarter of fiscal 2013, primarily due to increased sales volumes of busbar and cabling assemblies.

Cost of Products Sold. Power Products segment cost of products sold increased \$3.3 million, or 32.7%, to \$13.4 million for the three months ended July 27, 2013, compared to \$10.1 million for the three months ended July 28, 2012. The Power Products segment cost of products sold as a percentage of sales decreased to 77.5% for the three months ended July 27, 2013, from 83.5% for the three months ended July 28, 2012. The decrease in cost of products sold as a percentage of sales is primarily due to favorable commodity pricing for raw materials and favorable product mix.

Table of Contents

Gross Profit. Power Products segment gross profit increased \$1.9 million, or 95.0%, to \$3.9 million in the first quarter of fiscal 2014, compared to \$2.0 million in the first quarter of fiscal 2013. Gross margins as a percentage of net sales increased to 22.5% for the three months ended July 27, 2013 from 16.5% for the three months ended July 28, 2012. The increase in gross margins is primarily due to favorable commodity pricing for raw materials and favorable product mix.

Selling and Administrative Expenses. Selling and administrative expenses decreased \$0.1 million, or 5.9%, to \$1.6 million for the three months ended July 27, 2013, compared to \$1.7 million for the three months ended July 28, 2012. Selling and administrative expenses as a percentage of net sales decreased to 9.2% for the three months ended July 27, 2013 from 14.0% for the three months ended July 28, 2012. Selling and administrative expenses decreased due to lower commission and bonus expense in North America.

Income From Operations. Power Products segment income from operations increased \$2.0 million, or 666.7%, to \$2.3 million for the three months ended July 27, 2013, compared to \$0.3 million for the three months ended July 28, 2012, due to higher sales, favorable commodity pricing for raw materials, favorable product mix and lower selling and administrative expenses.

Other Segment Results

Below is a table summarizing results for the three months ended:
(in millions)

	July 27, 2013	July 28, 2012	Net Change	Net Change
Net sales	\$2.7	\$3.9	\$(1.2)	(30.8)%
Cost of products sold	1.9	2.4	(0.5)	(20.8)%
Gross profit	0.8	1.5	(0.7)	(46.7)%
Selling and administrative expenses	0.6	0.5	0.1	20.0%
Income from operations	\$0.2	\$1.0	\$(0.8)	(80.0)%
Percent of sales:	July 27, 2013	July 28, 2012		
Net sales	100.0	% 100.0	%	
Cost of products sold	70.4	% 61.5	%	
Gross margins	29.6	% 38.5	%	
Selling and administrative expenses	22.2	% 12.8	%	
Income from operations	7.4	% 25.6	%	

Net Sales. The Other segment net sales decreased \$1.2 million, or 30.8%, to \$2.7 million for the three months ended July 27, 2013, compared to \$3.9 million for the three months ended July 28, 2012. Net sales from our torque-sensing business decreased 60.0% in the first quarter of fiscal 2014, compared to the first quarter of fiscal 2013, primarily due to the planned exit of certain product lines and lower demand in the e-bike and motorcycle markets. Net sales from our testing facilities increased 13.3% in the first quarter of fiscal 2014, compared to the first quarter of fiscal 2013.

Cost of Products Sold. Other segment cost of products sold decreased \$0.5 million to \$1.9 million for the three months ended July 27, 2013, compared to \$2.4 million for the three months ended July 28, 2012. Cost of products sold

as a percentage of sales increased to 70.4% in the first quarter of fiscal 2014, compared to 61.5% in the first quarter of fiscal 2013. The increase in cost of products sold as a percentage of sales is primarily due to manufacturing inefficiencies as a result of lower sales volumes in our torque-sensing business. In addition, our torque sensing business experienced additional manufacturing inefficiencies due to a planned move of production from our North American facility to our Malta facility. The Malta facility is expected to begin full production in the second quarter of fiscal 2014.

Table of Contents

Gross Profit. The Other segment gross profit decreased \$0.7 million, or 46.7%, to \$0.8 million for the three months ended July 27, 2013, compared to \$1.5 million for the three months ended July 28, 2012. The decrease in gross margins as a percentage of sales is primarily due to efficiencies caused by significantly lower sales volumes and the planned move of production.

Selling and Administrative Expenses. Selling and administrative expenses increased \$0.1 million, or 20.0%, to \$0.6 million for the three months ended July 27, 2013, compared to \$0.5 million for the three months ended July 28, 2012. Selling and administrative expenses as a percentage of net sales increased to 22.2% for the three months ended July 27, 2013, from 12.8% for the three months ended July 28, 2012. Selling and administrative expenses increased primarily due to higher travel expenses in the first quarter of fiscal 2014, compared to the first quarter of fiscal 2013.

Income From Operations The Other segment income from operations decreased \$0.8 million, or 80.0%, to \$0.2 million for the three months ended July 27, 2013, compared to \$1.0 million for the three months ended July 28, 2012. The decrease was primarily due to significantly lower sales volumes, production inefficiencies and higher travel expenses.

Liquidity and Capital Resources

We believe our current world-wide cash balances together with expected future cash flows to be generated from operations and our committed credit facility will be sufficient to support current operations. Due to the shifting of operations from the U.S. to foreign locations, a significant amount of cash and expected future cash flows are located outside of the U.S. Of the \$73.4 million of cash and cash equivalents, as of July 27, 2013, \$69.2 million was held in subsidiaries outside the U.S. and all of this amount is deemed to be permanently reinvested and therefore not available to fund our domestic operations. We currently have \$28.1 million of net operating loss carry-forwards in the U.S. which would reduce the cash tax obligation (if the carry-forward has not otherwise been used) upon any future repatriation of funds.

We are party to an Amended and Restated Credit Agreement with Bank of America, N.A., as administrative agent, and certain other financial institutions, which has a maturity of September 21, 2017. The credit facility is in the aggregate principal amount of \$100.0 million, with an option to increase the principal amount by an additional \$50.0 million, subject to customary conditions and approval of the lender(s) providing new commitment(s). The credit facility provides for variable rates of interest based on the type of borrowing and the Company's debt to EBITDA financial ratio. The Amended and Restated Credit Agreement is guaranteed by certain of our U.S. subsidiaries. At July 27, 2013 the interest rate on the credit facility was 1.5% plus LIBOR. At July 27, 2013, we were in compliance with the covenants of the agreement. During the first quarter of fiscal 2014, we had borrowings of \$14.5 million and payments of \$5.7 million, which includes interest of \$0.2 million under this credit facility. As of July 27, 2013, there were outstanding balances against the credit facility of \$52.5 million. There was \$47.5 million available to borrow under the credit facility as of July 27, 2013, which does not include the option to increase the principal amount.

Cash Flow Operating Activities

Net cash provided by operating activities increased \$2.5 million to \$8.7 million for the first quarter of fiscal 2014, compared to \$6.2 million for the first quarter of fiscal 2012, primarily driven by the increase of \$9.8 million in net income, to \$13.6 million in the first quarter of fiscal 2014, compared to \$3.8 million in first quarter of fiscal 2013. The net changes in assets and liabilities resulted in a cash use of \$12.0 million in first quarter of fiscal 2014, compared to cash use of \$2.9 million in the first quarter of fiscal 2013. The increased cash use for these components in the first quarter of fiscal 2014 compared to the first quarter of fiscal 2013 is primarily driven by increased sales and overall business levels in the first quarter of fiscal 2014, as compared to the first quarter of fiscal 2013.

Table of Contents

Cash Flow Investing Activities

Net cash used in investing activities decreased by \$2.1 million due to purchases of property, plant and equipment of \$9.3 million for the three months ended July 27, 2013, compared to \$11.4 million for the three months ended July 28, 2012. Purchases for both periods primarily relate to plant expansion and equipment purchases in Europe and North America for products which launched in fiscal 2013 and the first quarter of fiscal 2014.

Cash Flow Financing Activities

Net cash provided by financing activities increased \$1.6 million to cash provided of \$7.5 million in the first three months of fiscal 2014, compared to cash provided of \$5.9 million for the first three months of fiscal 2013. During the first three months of fiscal 2014, the Company had net borrowings against the credit facility of \$9.0 million, compared to \$8.5 million in the first three months of fiscal 2013. We paid dividends of \$2.6 million for both the first three months of fiscal 2014 and 2013. The first three months of fiscal 2014 includes \$1.1 million of proceeds for the exercise of stock options.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements, other than operating leases and purchase obligations entered into in the normal course of business.

Item 3. Quantitative And Qualitative Disclosures About Market Risk

Certain of our foreign operations enter into transactions in currencies other than their functional currency, primarily the U.S. dollar and the Euro. A 10% change in foreign currency exchange rates from balance sheet date levels could impact our income before income taxes by \$2.6 million as of July 27, 2013 and \$2.5 million as of April 27, 2013. We also have foreign currency exposure arising from the translation of our net equity investment in our foreign operations to U.S. dollars. We generally view our investments in foreign operations with functional currencies other than the U.S. dollar as long-term. The currencies to which we are exposed are the British pound, Chinese yuan, Euro, Indian Rupee, Mexican peso, Singapore dollar and Swiss franc. A 10% change in foreign currency exchange rates from balance sheet date levels could impact our net foreign investments by \$21.0 million at July 27, 2013 and \$19.5 million at April 27, 2013.

We are exposed to market risk from changes in interest rates. Our exposure to interest rate risk from our credit agreement, under which we had \$52.5 million of net borrowings at July 27, 2013. We estimate that a one percentage point change in interest rates would not have a material impact on our results of operations for fiscal 2014 based upon our current and expected levels of our debt.

Item 4. Controls And Procedures

As of the end of the period covered by this quarterly report on Form 10-Q, we performed an evaluation under the supervision and with the participation of the Company's management, including our Chief Executive Officer and our Chief Financial Officer, of our "disclosure controls and procedures" (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934). The Company's disclosure controls and procedures are designed to ensure that the information required to be disclosed by the Company in the reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's applicable rules and forms. As a result of this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this report, the

Company's disclosure controls and procedures were effective.

There have been no changes in our internal control over financial reporting during the quarter ended July 27, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
