PROXY STATEMENT
ANNUAL MEETING OF SHAREHOLDERS
TO BE HELD SEPTEMBER 13, 2012

The following Proxy Statement is made in connection with solicitation by the Board of Directors of Flow International Corporation (the "Company" or "Flow") of the enclosed proxy for use at the Annual Meeting of Shareholders to be held at the Drake Hotel, 140 East Walton Place, Chicago, Illinois, on September 13, 2012, at 10:00 a.m. local time.

Shares presented by properly executed proxy in the accompanying form will be voted at the meeting and, where instructions have been given by the shareholder, will be voted in accordance with such instructions. As stated in the proxy, if no instructions are given, the shareholder's shares will be voted "For" Proposal 1, the election of directors, "For" Proposal 2, an advisory, non-binding, vote, of executive compensation, "For" Proposal 3, the ratification of the appointment of Deloitte & Touche LLP as the independent registered public accounting firm of the Company for fiscal year 2013, and, with respect to any other business that may come before the meeting, as recommended by the Board of Directors.

The proxy may be revoked at any time before its exercise by sending written notice of revocation to the Secretary of the Company at the address set forth on page 1 of this Proxy Statement, or by signing and delivering a proxy which is dated later, or, if the shareholder attends the meeting in person, by giving notice of revocation to the inspector of the election. The right to revoke a proxy is not limited by or subject to compliance with a specified formal procedure, but written notice should be given to the Secretary of the Company at or before the Annual Meeting so that the number of shares represented by proxy can be recomputed.

At the date of this statement, the only matters that management of the Company intend to present are Proposal 1 (election of directors), Proposal 2 (approval, on an advisory, non-binding, vote of executive compensation), and Proposal 3 (ratification of the appointment of Deloitte & Touche LLP as the independent registered public accounting firm). If any other matters are properly brought before the meeting, the enclosed proxy gives discretionary authority to the Board of Directors to vote the shares in their best judgment.

The fiscal year 2012 Form 10-K of the Company is enclosed herewith.

The approximate mailing date of these proxy materials is August 10, 2012.

SHAREHOLDER PROPOSALS

To be considered for presentation to the 2013 Annual Meeting of Shareholders and inclusion in the Company's Proxy Statement related to such meeting, a shareholder proposal must be received at the offices of the Company, 23500 64th Avenue South, Kent, Washington 98032, not later than April 12, 2013. To be eligible to submit a proposal, a shareholder must have continually been a record or beneficial owner of shares of Common Stock having a market

value of at least \$2,000 (or representing at least 1% of the shares entitled to vote on the proposal), for a period of at least one year prior to submitting the proposal, and the shareholder must continue to hold the shares through the date on which the meeting is held. See the section on “Director Nomination Process” below for more information on the procedures related to recommending or nominating director candidates.

SECURITIES AND INFORMATION
CONCERNING SOLICITATION

The Company has only one class of capital stock outstanding entitled to be voted at the Annual Meeting: Common Stock with voting rights.

Record Date and Outstanding Shares

On July 10, 2012, the record date for determining the shareholders entitled to vote at the Annual Meeting, there were 48,200,446 shares of Common Stock outstanding and entitled to vote. The last sale on the record date of the Company's Common Stock, as reported by NASDAQ, was \$3.30 per share.

Voting

Each share entitles the holder to one vote on all matters presented for shareholder approval including one vote for each director standing for election. There are no cumulative voting rights. The presence, in person or by proxy, of holders of a majority of the outstanding shares of Common Stock is required to constitute a quorum for the transaction of business at the Annual Meeting.

If at the close of business on the record date, your shares were registered directly in your name with our transfer agent, Computershare Shareowner Services LLC, then you are a shareholder of record. As a shareholder of record, you may vote in person at the meeting or vote by proxy. Whether or not you plan to attend the meeting, we urge you vote your proxy to ensure your vote is counted.

If at the close of business on the record date, your shares were held, not in your name, but rather in an account at a brokerage firm, bank or other agent, then you are the beneficial owner of shares held in "street name," and these proxy materials are being forwarded to you by your broker, bank or other agent. The broker, bank or other agent holding your account is considered to be the shareholder of record for purposes of voting at the Annual Meeting. As a beneficial owner, you have the right to direct your broker, bank or other agent on how to vote the shares in your account. You are also invited to attend the Annual Meeting. If you choose to attend, you should be ready to present proof of your ownership of Flow International Corporation stock as of the record date, July 10, 2012, to attend the meeting. However, since you are not the shareholder of record, you may not vote your shares in person at the meeting unless you request and obtain a valid legal proxy issued in your name from your broker, bank or other agent.

If you do not give instructions to your broker, bank or other agent, they can vote your shares with respect to "discretionary" items, but not with respect to "non-discretionary" items. Under the rules of the New York Stock Exchange ("NYSE"), the election of directors (Proposal 1), and approval, by advisory vote, of executive compensation (Proposal 2) are considered non-discretionary items while the ratification of the selection of Deloitte & Touche LLP as our auditor (Proposal 3) is considered a discretionary item. Accordingly, if your broker holds your shares in its name, the broker is not permitted to vote your shares on the election of directors (Proposal 1), and approval, by an advisory, non-binding, vote of executive compensation (Proposal 2), but is permitted to vote your shares on the ratification of the selection of Deloitte & Touche LLP (Proposal 3), even if it does not receive voting instructions from you because Proposal 3 is considered "discretionary." When a broker votes a client's shares on some but not all of the proposals at the Annual Meeting, the missing votes are referred to as "broker non-votes." Broker non-votes will be included in determining the presence of a quorum at the Annual Meeting but are not considered a vote cast for purposes of voting on the non-discretionary items. Please vote your proxy so your vote can be counted.

In the vote on the election of the director nominees (Proposal 1), you may vote “FOR” one or some of the nominees, “AGAINST” one or some of the nominees, or you may vote “ABSTAIN” with respect to one or some of the nominees. For the proposal to approve, by an advisory, non-binding, vote of executive compensation (Proposal 2), you may vote “FOR,” “AGAINST” or “ABSTAIN.” For the proposal to ratify the appointment of Deloitte & Touche LLP (Proposal 3), you may vote “FOR,” “AGAINST” or “ABSTAIN.”

An abstention occurs when a shareholder affirmatively instructs the vote to be an “ABSTAIN” or otherwise to be withheld (or when a shareholder who has not given a proxy is present at a meeting and does not cast a ballot). Abstentions and “broker non-votes” (discussed above) are counted for purposes of determining the presence or absence of a quorum for the transaction of business at the Annual Meeting.

The election of directors is by majority voting. If a quorum is present, in uncontested elections such as this one, each of the nominees for election to the Board of Directors must receive a majority of the votes cast. A majority of votes cast means that the number of shares cast “FOR” a director's election exceeds the number of votes affirmatively voted as “AGAINST” that director.

Table of Contents

“ABSTAIN” votes or shares otherwise present at the meeting as to which a shareholder gives no authority or direction to vote do not count as cast votes and therefore do not factor into the results for the election. If a director does not receive the required majority of votes cast, then he or she remains on the Board until the earlier of (i) ninety (90) days after the vote is counted; (ii) the date that the Board appoints a replacement; or (iii) the director's resignation. During that ninety (90) day period, the Nominating and Governance Committee will consider and recommend to the Board, and the Board will decide and disclose publicly, whether to fill the office of the nominee who failed to receive a majority of the votes cast.

With respect to Proposal 2 (approval, by an advisory, non-binding vote, of executive compensation), the proposal will be approved if the number of votes cast “FOR” the proposal exceeds the number of votes cast “AGAINST” the proposal

With respect to Proposal 3 (ratification of the appointment of Deloitte & Touche LLP), the proposal will be approved if the number of votes cast “FOR” the proposal exceeds the number of votes cast “AGAINST” the proposal.

Abstentions and “broker non-votes” will have no practical effect on any of the proposals because abstentions and “broker non-votes” do not represent votes cast “For” or “Against” the proposals. For Proposal 2 regarding an advisory vote on executive compensation, please refer to the text of these proposals for more information on the advisory nature of these proposals.

Preliminary voting results will be announced at the Annual Meeting. Final voting results will be published on Form 8-K with the SEC within four business days after the Annual Meeting.

Postponement or Adjournment of Annual Meeting

If the Annual Meeting is postponed or adjourned for any reason, at any reconvening of the Annual Meeting all proxies will be voted in the same manner as the proxies would have been voted at the original convening of the Annual Meeting, except for any proxies that have at that time effectively been revoked or withdrawn, notwithstanding that they may have been effectively voted on the same or any other matter at a previous meeting.

Solicitation and Expenses of Solicitation

Proxies may be solicited by officers, directors and regular supervisory and executive employees of the Company, none of whom will receive any additional compensation for their services. In addition, the Company has retained Laurel Hill Advisory Group, LLC to assist in the solicitation of proxies. The Company has agreed to pay that firm \$7,000, plus reasonable out-of-pocket expenses, for proxy solicitation services. Proxies may be solicited personally or by mail, telephone, facsimile or messenger. The Company will also pay persons holding shares of the Common Stock in their names or in the names of the nominees, but not owning such shares beneficially, such as brokerage houses, banks and other fiduciaries, for the expense of forwarding soliciting materials to their principals. All of the costs of the solicitation of proxies will be paid by the Company.

Table of Contents

Proposal Number One -- ELECTION OF DIRECTORS

According to the Company's Articles of Incorporation and Bylaws, the Board of Directors shall be composed of such number of directors as shall from time to time be fixed by resolution adopted by the affirmative vote of seventy percent of the total number of directors then in office, split (as closely as possible) into three equal classes.

At the meeting, three directors will be elected to hold office for three-year terms ending at the 2015 Meeting of Shareholders, or until their respective successors are elected and qualified. Of the remaining directors, three are serving terms that will not expire until the 2013 Annual Meeting of Shareholders and two are serving terms that will not expire until the 2014 Annual Meeting of Shareholders. Each director elected will continue in office until his or her successor has been elected, or until his or her resignation or removal in the manner provided by the Articles of Incorporation and Bylaws of the Company.

The names of those persons nominated by the Board of Directors for the position of director of the Company and the names of the directors of the Company whose terms will continue after the Annual Meeting are listed below, accompanied by brief biographies. Each biographic summary is followed by a brief summary of certain experiences, qualifications, attributes or skills that led the Board to determine that each nominee should serve as a director for the Company. The summaries do not include all of the experiences, qualifications, attributes or skills of the nominees. General information regarding the nomination process is included in the Corporate Governance Section under the "The Director Nomination Process" heading. Shares represented by a properly executed proxy in the accompanying form will be voted for such nominees. Discretionary authority is reserved to vote such shares in the best judgment of the persons named in the proxy in the event that any person or persons other than the nominees listed below are to be voted upon at the meeting due to the unavailability of any nominee so listed.

There are no family relationships between any nominee, director, or executive officer of the Company.

Table of Contents

BOARD LEADERSHIP

Since 2003, the Company has separate roles of Chief Executive Officer and Chairman of the Board. Mr. Brown, the Chief Executive Officer, is responsible for setting the strategic direction of the Company and for the day to day leadership and performance of the Company. Mr. Calhoun, the Board Chair, sets the agenda for and presides at Board meetings, and coordinates the Board's communication with Mr. Brown and the management of the Company. As the Board Chair, Mr. Calhoun is fully independent. During fiscal year 2011, in connection with the scheduled retirement of Kathryn L. Munro, who had served as the Board's independent Chair since 2004, the Nominating and Governance Committee and the full Board of Directors discussed board leadership in detail and concluded that continuing to separate the Chair from the CEO position facilitates more effective board interaction, and improves management accountability. The Committee and the Board have concluded that although this might be achieved by appointing a lead independent director, the Company and its shareholders would be best served with a fully independent Chair. As a result, the Board appointed Mr. Calhoun as its independent chair in January 2011, to succeed Kathryn L. Munro, who retired from the Board in September 2011, having served the Company since 1996.

RISK OVERSIGHT

The Board oversees management's evaluation and planning for risks the Company faces. This oversight is conducted primarily through committees of the Board, as disclosed in the descriptions of each of the committees below and in the charters of each of the committees, but the full Board has retained responsibility for general oversight of risks. Management regularly discusses risk management at its internal meetings and reports to the Board the risks that it thinks are most critical and what it is doing in response to those risks. The Board selects key risks and assigns them to the relevant standing committee for detailed examination and the committee reports its finding back to the Board as a whole. The Board also exercises oversight by reviewing key strategic and financial plans with management at each of its quarterly meetings. The Board's risk oversight function is coordinated by the full Board, under the leadership of the independent Chair of the Board, and the Board does not believe that this oversight has any effect on the separation of the role of Chair from CEO, discussed above.

DIRECTOR INDEPENDENCE

The Board of Directors consists of a majority of "independent directors" as such term is defined under the NASDAQ's listing rules. For fiscal year 2012, the Board determined that all directors, other than Mr. Brown, who is the Company's CEO, were independent.

The Nominating and Governance Committee of the Board of Directors has included in its written charter a provision making it responsible for reviewing actual or potential conflicts of interest involving the Company's directors and executive officers. The Company's Guide to Ethical Conduct also requires that employees report conflicts of interest to the Company's General Counsel. The Company provides a confidential, anonymous means of reporting violations of the Guide to the Company and to the Chair of the Audit Committee. All employees are trained annually with regard to the Guide, and the Company vigorously investigates any reports.

MEETINGS AND COMMITTEES OF THE BOARD OF DIRECTORS

The Board of Directors held five meetings during the fiscal year ended April 30, 2012. All of the directors attended at least 75% of all Board and Committee meetings. The numbers of meetings by each Committee of the Board is described below.

The Company typically schedules a Board Meeting in connection with the Annual Shareholder Meeting. The Company expects that all directors will attend, absent a valid reason, such as a schedule conflict. Last year, all members of the Board of Directors attended the Annual Meeting.

The Board has three standing committees to facilitate and assist the Board in the execution of its responsibilities. In addition, from time to time, the Board may appoint ad hoc subcommittees to examine special projects or situations. The standing committees are currently the Audit Committee, the Compensation and Plan Administrator Committee and the Nominating and Governance Committee. In accordance with NASDAQ's listing rules, all the committees are comprised solely of non-employee, independent Directors. The charter of each committee is available in print to any shareholder who requests it, and on the Company's website as noted below. The table below shows the fiscal year 2013 membership for each of the standing Board committees.

Audit Committee. The primary function of the Audit Committee is to assist the Board of Directors in its oversight of the integrity of financial information provided to shareholders and others, its review of the adequacy of the system of internal controls established by the Company and its monitoring of the audit process. In performing these functions, the Audit Committee reviews the Company's financial reporting process and internal controls and reviews and appraises the audit efforts of the Company's independent registered public accounting firm and the Company's internal audit function. The Audit Committee also provides open lines of communication between the directors, the independent registered public accounting firm, the leader of internal audit, the leader of finance, and senior management of the Company. The Board of Directors has approved a written Charter for the Audit Committee, which is published on the Company's website at <http://www.flowwaterjet.com/en/investors/corporate-governance.aspx>. Among other things, the Audit Committee Charter requires that members of the Committee be independent of management, free of any relationship that would interfere with their independent judgment and have a minimum level of financial competency. For fiscal year 2012, all of the members are experienced in financial matters. The members of the Audit Committee, in addition to the foregoing criteria, meet the additional criteria of SEC Rule 10A-3 that they neither (1) accept any direct compensation from the Company other than director and committee fees and pension or other deferred compensation for prior service, nor (2) are affiliated persons of the Company. For fiscal year 2012, the Board of Directors determined that three Audit Committee members, Bradley D. Tilden, Richard P. Fox and Larry A. Kring, are "audit committee financial experts" as defined in the rules of the Securities and Exchange Commission ("SEC"). The Audit Committee held four meetings in fiscal year 2012.

Compensation and Plan Administrator Committee. The primary function of the Compensation and Plan Administrator Committee is to assist the Board of Directors to ensure that all officers and key management personnel of the Company and its subsidiaries are effectively compensated in terms of salary, supplemental compensation, and benefits which are internally equitable and externally competitive. The Committee establishes and maintains a competitive, fair, and equitable compensation and benefits policy designed to retain personnel, to stimulate their useful and profitable efforts on behalf of the Company, and to attract necessary additions to the staff with appropriate qualifications. The Committee also acts as Administrator of the Company's stock incentive plans, determining the terms, amounts and recipients of stock grants. There were six meetings of the Compensation and Plan Administrator Committee during fiscal year 2012. The Charter for the Committee is available at the Company's website at <http://www.flowwaterjet.com/en/investors/corporate-governance.aspx>.

Nominating and Governance Committee. The primary function of the Nominating and Governance Committee is to assist the Board of Directors in matters of Board organization and composition and to identify and recommend to the Board individuals to fill vacancies on the Board. The Nominating and Governance Committee met four times during fiscal year 2012. The Charter for the Committee is available at the Company's website at <http://www.flowwaterjet.com/en/investors/corporate-governance.aspx>. Information on the Company's website, however, does not form a part of this Proxy Statement.

THE DIRECTOR NOMINATION PROCESS

(i) Consideration of Director Nominees

The Nominating and Governance Committee will consider qualified nominees recommended by shareholders. Shareholders may submit recommendations to the Nominating and Governance Committee in care of our Chairman of the Board and Secretary at the address set forth on page 1 of this Proxy Statement. Nominees for director who are recommended by shareholders will be evaluated in the same manner as any other nominee for director.

Shareholder recommendations for director should include (i) the name and address of the shareholder recommending the person to be nominated, (ii) a representation that the shareholder is a holder of record of stock of the Company, including the number of shares held and the period of holding, (iii) a description of all arrangements or understandings between the shareholder and the recommended nominee, (iv) such other information regarding the recommended nominee as would be required to be included in a Proxy Statement filed pursuant to Regulation 14A promulgated by the SEC pursuant to the Securities Exchange Act of 1934, as amended and (v) the consent of the recommended nominee to serve as a director of the Company if so elected. We may require that the proposed nominee furnish us with other information as we may reasonably request to assist us in determining the eligibility of the proposed nominee to serve as a director.

To submit a recommendation for director for an upcoming annual shareholder meeting, it is necessary that a shareholder notify the Company not earlier than the close of business on the 120th day and not later than the close of business on the 90th day before the first anniversary of the date that the Proxy Statement for the preceding year's Annual Meeting was first sent to shareholders, provided, however, that in the event that the date of the annual meeting is more than 30 days before or more than 60 days after such anniversary date, notice by the shareholder to be timely must be so delivered not earlier than the close of business on the 120th day prior to the date of such annual meeting and not later than the close of business on the later of the 90th day prior to the date of such annual meeting or, if the first public announcement of the date of such annual meeting is less than 100 days prior to the date of such annual meeting, not later than the 10th day following the day on which public announcement of the date of such meeting is first made by the Company. In addition, the notice must meet all other requirements contained in the Company's Bylaws, if any.

(ii) Nominations by Shareholders

The Nominating and Governance Committee will consider director candidates recommended by shareholders on the same basis as are candidates recommended by the Nominating and Governance Committee. On June 23, 2009, the Company adopted a Bylaw regarding shareholder proposals and nominations for director. Any shareholder wishing to nominate a candidate should deliver the name and address of the shareholder as they appear on the Company's books (or if the shareholder holds for the benefit of another, the name and address of such beneficial owner) in a letter addressed to the Chair of the Nominating and Governance Committee in care of the Company's Secretary not earlier than the close of business on the 120th day and not later than the close of business on the 90th day prior to the first anniversary of the 2012 annual meeting (nominations for the 2013 annual meeting must be submitted between May 16, 2013 and June 15, 2013). In addition, the submitting shareholder should provide the following information:

the class or series and number of shares of the Company which are, directly or indirectly, owned beneficially and/or of record;

any option, warrant, convertible security, stock appreciation right, or similar right with an exercise or conversion privilege or a settlement payment or mechanism at a price related to any class or series of shares of the Company or with a value derived in whole or in part from the value of any class or series of shares of the Company, whether or not

such instrument or right shall be subject to settlement in the underlying class or series of capital stock of the Company or otherwise (a “Derivative Instrument”) that is directly or indirectly owned beneficially and any other direct or indirect opportunity to profit or share in any profit derived from any increase or decrease in the value of shares of the Company;

any proxy, contract, arrangement, understanding, or relationship pursuant to which the shareholder has a right to vote or has granted a right to vote any shares of any security of the Company;

any short interest in any security of the Company;

any rights to dividends on the shares of the Company owned beneficially by the shareholder that are separated or separable from the underlying shares of the Company;

any performance-related fees (other than an asset-based fee) that the shareholder is entitled to which is based on any increase or decrease in the value of shares of the Company or any Derivative Instruments; and

the information called for above for any members of the shareholder's immediate family sharing the same household.

For each person whom the shareholder proposes to nominate for election or re-election to the Board of Directors, the shareholder should also provide:

all information relating to the shareholder that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitations of proxies for election of directors in a contested election pursuant to Section 14 of the Exchange Act and the rules and regulations promulgated thereunder (including such person's written consent to being named in the proxy statement as a nominee and to serving as a director if elected); and

description of all direct and indirect compensation and other material monetary agreements, arrangements and understandings during the past three years, and any other material relationships, between or among the shareholder and respective affiliates and associates, or others acting in concert therewith, on the one hand, and each proposed nominee, and his or her respective affiliates and associates, or others acting in concert therewith, on the other hand, including, without limitation all information that would be required to be disclosed pursuant to Rule 404 promulgated under Regulation S-K if the shareholder making the nomination or on whose behalf the nomination is made, if any, or any affiliate or associate thereof or person acting in concert therewith, were the "registrant" for purposes of such rule and the nominee were a director or executive officer of such registrant.

To be eligible to be a nominee for election or re-election as a director of the Company, pursuant to a nomination by a shareholder a person must deliver (in accordance with the time periods prescribed) to the Secretary at the principal executive offices of the Company a written questionnaire with respect to the background and qualification of such person and the background of any other person or entity on whose behalf the nomination is being made (which questionnaire shall be provided by the Secretary upon written request) and a written representation and agreement (in the form provided by the Secretary upon written request) that such person:

is not and will not become a party to:

any agreement, arrangement or understanding with, and has not given any commitment or assurance to, any person or entity as to how such person, if elected as a director of the Company, will act or vote on any issue or question (a "Voting Commitment") that has not been disclosed to the Company, or

any Voting Commitment that could limit or interfere with such person's ability to comply, if elected as a director of the Company, with such person's fiduciary duties under applicable law;

is not and will not become a party to any agreement, arrangement or understanding with any person or entity other than the Company with respect to any direct or indirect compensation, reimbursement or indemnification in connection with service or action as a director that has not been disclosed therein; and

in such person's individual capacity and on behalf of any person or entity on whose behalf the nomination is being made, would be in compliance, if elected as a director of the Company, and will comply with all applicable publicly disclosed corporate governance, conflict of interest, confidentiality and stock ownership and trading policies and guidelines of the Company

Additional information may be requested to assist the Governance Committee in determining the eligibility of a proposed candidate to serve as a director. This may include requiring that a prospective nominee complete a director and officer questionnaire and provide any follow-up information requested. In addition, the notice must meet all other requirements contained in the Company's Bylaws.

Qualification of Directors

In evaluating the suitability of candidates to serve on the Board of Directors, including shareholder nominees, the Nominating and Governance Committee will seek candidates who are “independent” as defined in the NASDAQ rules and meet certain selection criteria, including:

each director should be chosen without regard to gender, race, age, religion or national origin;

each director should be an individual of the highest character and integrity and have an inquiring mind, vision and the ability to work well with others;

each director should be free of any conflict of interest that would violate applicable law or regulations or interfere with the proper performance of the responsibilities of a director;

each director should possess substantial and significant experience which would be of particular importance to the Company in the performance of the duties of a director;

each director should have sufficient time available to devote to the affairs of the Company in order to carry out the responsibilities of a director;

each director should have the capacity and desire to represent the balanced, best interests of the shareholders of the Company as a whole and not primarily a special interest group or constituency;

each director should have the ability to read and understand corporate financial statements; and

each director should have the ability to work effectively with other directors in collectively serving the long-term interests of all shareholders.

Prior to any meeting involving the election of directors, the Nominating and Governance Committee will evaluate the candidates based on the foregoing suitability criteria and recommend the most qualified candidates to the Board of Directors. The Board of Directors believes that it is necessary for each of the Company's directors to possess many qualities and skills and that it is also necessary for these qualities and skills of the Board as a whole to be complementary and to meet the needs of the Company. The Board carefully considers the qualities and skills necessary to meet these needs and evaluates nominees for the Board on this basis.

In evaluating director candidates, regardless of the source of the nomination, the Nominating and Governance Committee will consider, in accordance with its Charter, the composition of the Board as a whole, the requisite characteristics (including independence, diversity, skills and experience) of each candidate, and the performance and continued tenure of incumbent Board members. With respect to diversity, we broadly construe diversity to mean not only diversity of race, gender and ethnicity, but also diversity of opinions, perspectives, and professional and personal experiences. Nominees are not discriminated against on the basis of race, religion, national origin, sexual orientation, disability or any other basis proscribed by law. The board believes that the backgrounds and qualifications of the directors, considered as a group, should provide a significant composite mix of experience, knowledge and abilities that will allow the Board to fulfill its responsibilities. The Board therefore considers diversity in identifying nominees for director, but does not have a separate policy directed toward diversity.

(iii) Process for Identifying and Evaluating Nominees

The Nominating and Governance Committee may employ a variety of methods for identifying and evaluating nominees for director. The Nominating and Governance Committee regularly assesses the size of the Board, the need for particular expertise on the Board, the upcoming election cycle of the Board and whether any vacancies on the Board are expected due to retirement or otherwise. In the event that vacancies are anticipated, or otherwise arise, the Nominating and Governance Committee considers various potential candidates for director which may come to the Nominating and Governance Committee's attention through current Board members, management of the Company, professional search firms, shareholders or other persons. These candidates are evaluated at regular or special meetings of the Nominating and Governance Committee, and may be considered at any point during the year.

The Nominating and Governance Committee will consider candidates recommended by shareholders, when the nominations are properly submitted, under the criteria summarized above in "Consideration of Director Nominees." The deadlines and procedures for shareholder submissions of director nominees are described above. Following verification of the shareholder status of persons proposing candidates, the Nominating and Governance Committee makes an initial analysis of the qualifications of

Table of Contents

any candidate recommended by shareholders or others pursuant to the criteria summarized above to determine whether the candidate is qualified for service on the Board before deciding to undertake a complete evaluation of the candidate. If any materials are provided by a shareholder or professional search firm in connection with the nomination of a director candidate, such materials are forwarded to the Nominating and Governance Committee as part of its review. If the Nominating and Governance Committee determines that additional consideration is warranted, it may gather and review additional information about the nominee's background and experience (or may request a third-party search firm on its behalf to gather such additional information and report its findings to the Nominating and Governance Committee). Other than the verification of compliance with procedures and shareholder status, and the initial analysis performed by the Nominating and Governance Committee, a potential candidate nominated by a shareholder is treated like any other potential candidate during the review process by the Nominating and Governance Committee. In connection with this evaluation, the Nominating and Governance Committee determines whether to interview the prospective nominee, and if warranted, one or more members of the Nominating and Governance Committee, and others as appropriate, interview prospective nominees in person or by telephone. After completing this evaluation and interview, the Nominating and Governance Committee makes a recommendation to the full Board as to the persons who should be nominated by the Board, and the Board determines the nominees after considering the recommendation and report of the Nominating and Governance Committee.

Compensation Committee Interlocks and Insider Participation

The Compensation and Plan Administrator Committee (the "Compensation Committee") is comprised entirely of independent directors. During fiscal year 2012, none of the Company's executive officers served as a member of a compensation committee or board of directors of any other entity which had an executive officer serving as a member of the Company's Board of Directors.

Table of Contents

Compensation of Directors

The Compensation Committee is charged with ensuring that the Company will be able to continue to attract and retain directors having the qualifications necessary to serve the interests of the Company's shareholders. To achieve this goal and, based on a thorough review of director compensation at a peer group of 16 companies conducted by a nationally recognized independent compensation consulting firm, the Compensation Committee adopted a compensation program for Directors that remained in effect through the end of fiscal 2012. This program had been adopted in fiscal year 2004, but was modified in 2006 to raise the value of the stock grant. Effective March 2009, as a recession countermeasure and consistent with the salary cuts then being implemented at the Company, the Board agreed to a 5% reduction in its cash compensation. Directors' cash compensation was restored in October 2010, when all other employee pay had been restored and executive salaries were also restored to pre-recession levels. The cash compensation figures in the table below are based on this program.

In March and June 2012 the Compensation Committee again reviewed director compensation. After a review of director compensation at 21 peer companies and with the advice of an independent compensation consultant, the Committee and the Board concluded that in order to simplify director compensation and encourage management to seek the assistance of the Board without the concern that additional Board meetings incurred significant additional costs, Director compensation would be based solely on annual retainers, and would not include meeting fees. Beginning in fiscal 2013, Directors will be paid an annual cash retainer of \$50,000, paid quarterly, and will continue to receive an annual grant of shares of Company common stock worth \$40,000. The shares are granted at the time of the Annual Meeting, are valued based on the average closing price over the twenty (20) trading days preceding the Annual Meeting and are fully vested, although Company policy requires that Directors retain these shares as long as they serve on the Board. The Chair of the Audit Committee will receive an additional annual retainer of \$10,000, the Chair of the Compensation Committee will receive an additional annual retainer of \$5,000, and the Board Chair will receive an additional annual retainer of \$30,000 for his service as Board Chair and Chair of the Governance Committee. The Company also reimburses directors for travel and other expenses in connection with their service.

Through the end of fiscal 2012 Directors who were not employees of the Company received an annual retainer of \$20,000, payable quarterly, \$1,500 per meeting for attendance at Board meetings and \$1,000 per meeting for attendance at Committee meetings. In addition, the Compensation Committee Chair was paid an additional annual retainer of \$5,000, the Audit Committee Chair was paid an additional annual retainer of \$10,000, and the non-executive Chairman of the Board was paid an additional annual retainer of \$30,000. Non-employee Directors also received annual grants of shares of Common Stock having a value equal to \$40,000 that were vested at the time of grant.

The Board has also adopted a policy that directors may serve no more than four three-year terms.

The following table sets forth the total compensation awarded to, earned by, or paid to our non-employee directors for services rendered to the Company during fiscal year 2012.

Compliance with Section 16 (a) of the Securities Exchange Act of 1934

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's directors and executive officers, and persons who own more than ten percent (10%) of a registered class of the Company's equity securities, to file with the Securities and Exchange Commission initial reports of ownership and reports of changes in ownership of Common Stock. Officers, directors and greater-than-ten percent shareholders are required by SEC regulations to furnish the Company with copies of all Section 16(a) forms they file. To the Company's knowledge, based solely on review of the copies of such reports furnished to the Company and representations that no other reports were required, during the fiscal year ended April 30, 2012, all Section 16(a) filing requirements were complied with.

Proxy Proposal Number 2 - ADVISORY, NON-BINDING, VOTE ON EXECUTIVE COMPENSATION

Our Board, as required pursuant to Section 14A of the Securities Exchange Act of 1934, seeks your advisory vote approving the compensation of our named executive officers as set forth in this proxy statement under the heading “Executive Compensation,” including the Compensation Discussion and Analysis and the accompanying compensation tables and related material.

Our Board believes that holding an advisory vote on executive compensation every year is most consistent with our approach to executive compensation and will best facilitate meaningful response to shareholder feedback on executive compensation matters.

We believe that regular communication with our shareholders is important. We value the opinions of our shareholders and seek transparency in our executive compensation arrangements. We believe it is appropriate that shareholders have an opportunity to express their opinions regarding executive compensation every year. Last year, therefore, we recommended and our shareholders approved a yearly advisory vote on executive compensation. This is our yearly advisory vote.

We have designed our executive compensation program to attract and retain highly qualified executives, to reward Company and individual performance and to align the interests of our executives with our shareholders. The Compensation Discussion and Analysis below describes the elements of our executive compensation plan and our reasons for the plans' structures. Key elements of our executive compensation are base salary, short term cash incentive compensation, and long term equity compensation awards. Key considerations for each of these are as follows:

Company executives have shared the effect of the recession by electing to temporarily reduce their base salaries. Base salaries were restored to pre-recession levels but not increased during fiscal year 2011 or fiscal 2012 (other than in connection with a Company-wide 3% pay increase in April 2011), and we have carefully reviewed them to be sure they are consistent with pay at peer companies.

During the recession, when the Company's performance suffered, executives did not receive bonuses. Executives did not receive bonuses for fiscal year 2012, in spite of record revenue and greatly improved profitability because operating profit targets for the fiscal year had not been met. Future bonuses will continue to depend on the achievement of annual targets based on operating income.

Company executives receive equity awards to ensure that they are rewarded for increasing shareholder value. The long term equity incentive awards in June 2012 made to the CEO and senior management contain incentives to meet certain targets in order to receive grants of additional shares to ensure that executives will lead the Company to improve profitability.

This vote is advisory, and therefore not binding on the Company; however, we value the opinions of our shareholders. The Board and the Compensation Committee will consider the outcome of this vote in designing future executive compensation plans and in making future executive compensation decisions.

Compensation Discussion and Analysis

Introduction. The “Compensation Committee establishes and directs the administration of all programs under which executive compensation is paid or awarded to the Company's executive officers and incentive-eligible employees. The Compensation Committee also evaluates the performance of our Chief Executive Officer (“CEO”) and assesses the overall effectiveness of the Company's executive compensation programs.

Fiscal Year 2012. During fiscal year 2012, the Company returned to growth and profitability after an extended recessionary period. Although the Company reported record revenues and significantly improved profits, the Company did not achieve its operating income targets, and executives did not receive bonuses or salary increases (other than a Company-wide 3% pay increase in April 2011). During fiscal year 2011 the Company had restored, in stages, benefits and pay for employees, then for executives, as the Company gained confidence that the recession was ending. The base salaries of all Flow executives had been reduced beginning in May 2009 by 10% (Charles Brown, CEO, took a 5% reduction in March 2009, and an additional 10% in May 2009 for a total 15% reduction), and vacation and sick leave benefits as well as Company contributions to the 401(k) plan had been stopped as recession countermeasures. When pay and benefits were restored to other employees, vacation and sick leave benefits and executive salaries were restored for executives. Company contributions to the 401(k) plan were next restored, and CEO salary was finally restored to its pre-recession level.

Compensation Program Objectives. The objective of the Company's compensation programs is to provide compensation and benefits that are competitive, equitable and consistent with our commitment to provide a work environment promoting teamwork, outstanding performance and corporate pride. The compensation programs are designed to reward near term financial performance, long term increases in shareholder value and to retain key executives and employees.

In fiscal year 2012, the Compensation Committee reviewed executive compensation levels. In light of economic circumstances and the fact that executives had not received salary increases or bonuses for four years, the Compensation Committee sought to ensure that Company executive compensation was at competitive levels. The Compensation Committee retained an outside compensation consultant. The consultant compared (i) executive salaries, (ii) the combination of salaries and target bonus levels and (iii) the combination of salaries, target bonus and target equity grants with peers and with survey data. The Company selected its peer group companies using the following criteria: (a) the company had to be publicly traded; (b) the company had to be headquartered in the U.S.; (c) the company was in the Industrial Manufacturing Industry; and (d) the company had to have annual revenue ranging between \$100 million and \$400 million. These criteria resulted in a peer group of 20 companies, consisting of the following: Alamo Group, Inc. (ALG); Ampco-Pittsburgh Corp. (AP); Badger Meter, Inc. (BMI); CECO Environmental Corp. (CECE); Flanders Corp. (FLDR); Hardinge, Inc. (HDNG); Hurco Companies, Inc. (HURC); Kadant, Inc. (KAI); L.B. Foster Co. (FSTR); Lindsay Corp. (LNN); Material Sciences Corp. (MSC); MFRI, Inc. (MFRI); NN, Inc. (NNBR), Presstek, Inc. (PRST), RBC Bearings, Inc. (ROLL); Rofin-Sinar (RSTI); Sun Hydraulics Corp. (SNHY); Synalloy Corp. (SYNL), The Gorman-Rupp Co. (GRC); and Thermadyne Holdings Corp. (THMD). Peer data was derived from proxy statements and other public filings. After reviewing the data assembled for it, the Compensation Committee concluded that executive compensation, including salary, bonus and equity compensation, was competitive with peer group medians.

Elements of Executive Compensation. The elements of executive compensation during fiscal year 2012 were base salary, short-term incentive awards and long-term incentive awards. There were no short-term incentive program payouts during fiscal year 2012. We describe each of these elements below. While the elements of compensation described below are considered separately, the Compensation Committee takes into account the full compensation package afforded by the Company to each executive, including salary, targeted incentive compensation, equity compensation and other benefits. In reviewing the individual performance of the executives whose compensation is

detailed elsewhere in this Proxy Statement, the Compensation Committee works with the Company's Human Resources group, and takes into account the views of the CEO (other than in a review of the CEO himself).

Base Salaries. The Compensation Committee believes that base salaries should be competitive with relevant organizations with similar complexity, and internally consistent based upon each position's assigned responsibilities. Individual salary determinations are made considering qualifications, experience and performance. Base salaries of the executive officers, other than for the CEO, were determined by the Compensation Committee using the CEO's recommendations.

The base salaries of all Company's executives had been reduced beginning in May, 2009 by 10% (Charles Brown, CEO, took a 5% reduction in March 2009, and an additional 10% in May 2009 for a total 15% reduction), and vacation and sick leave benefits as well as Company contributions to the 401(k) plan were stopped as recession countermeasures. Base salaries for executives were restored to pre-recession levels after the pay and benefits of other employees had first been restored in fiscal 2011. The Compensation Committee has not made any upward adjustments to base salaries since base salaries were restored to pre-recession levels in fiscal year 2011, except in cases where an individual's responsibilities had changed or in connection with a Company-wide 3% pay increase in April 2011.

Table of Contents

Short-Term Incentive and Profit Sharing Plans. We believe it is important that those who are directly involved in contributing to the achievement of the Company's goals should have a meaningful portion of their total compensation opportunity tied to those goals. Executive officers and other key management and technical positions have a portion of their total compensation at risk, contingent upon meeting predefined short-term corporate, business unit and individual goals. Senior executives, who have a greater opportunity to contribute to the Company's goals, have a greater portion of their compensation at risk.

The Short-Term Incentive Plan, which was in effect from fiscal year 2009 to 2011, emphasized the achievement of financial goals. Executives' target bonus levels were 40 percent of base salary, the Chief Financial Officer's and Executive Vice President of Global Sales' target was 45 percent, and the CEO's target was 70 percent. Payouts could range from zero to two times the target amount, depending on achievement of goals. For executive officers, 80 percent of their short-term incentive award was to be based on the Company's achievement of company financial goals and 20 percent was based on the achievement of individual goals. For fiscal year 2011, as in fiscal years 2010 and 2009, payment of any short term incentives was based on the Company's operating income returning to 2008 levels. Since the operating income goal was not achieved, there were no payments of short-term incentives in fiscal year 2011 whatsoever.

For fiscal year 2012 the Company adopted a Profit Sharing Plan ("PSP") that replaced the prior Short-Term Incentive Plan. Payment of incentives under this plan initially required a minimum operating income of \$12 million and operating profit margins of 5% for a payout at 50% of target, \$20 million and 8% for a payout at target, and \$30 million and 11% for a payout at two times the target amount. These targets were amended in October 2011 to require at least \$20 million in operating income and operating income exceeding 8% of revenue. The Company believed that these targets better aligned executives' incentives with shareholders. Since these targets were not met, there were no payments of short-term incentives in fiscal year 2012.

For fiscal year 2013 the Company has modified the PSP so that all employees other than executives receive payouts on a quarterly basis as quarterly targets are met. Funding the PSP begins as operating income exceeds 8% of sales in a quarter. Executives only will receive payments at the end of the fiscal year based on funding of the PSP of operating income in excess of 8% each quarter. Executives' target bonus levels are set at 40-45% of base salary, and the CEO's target is set at 70% of base salary.

Long-Term Compensation. We also believe that executive officers and other key management positions should have a meaningful portion of their total compensation linked to sustained performance and to increasing long-term shareholder value. The Company has adopted, and the shareholders have approved, the 2005 Equity Incentive Plan which allows for the award of equity in the form of stock options, stock, stock units or stock appreciation rights. The 2005 Equity Incentive Plan serves as a framework for the Compensation Committee to establish sub-plans or procedures governing the grants of equity to employees, directors and consultants of the Company.

The Compensation Committee normally uses restricted stock for executive compensation believing it has a role in retention and alignment with shareholders. Stock ownership serves as a retention tool, and provides a strong incentive to manage the Company for maximum share value.

Beginning with fiscal year 2009, the Compensation Committee adopted the present Equity Incentive Plan ("EIP"). The purpose of the EIP is to provide a framework for the grant of stock to executives who assist the Company in meeting the Company's long-term financial goals and to align the interests of executives with the Company's shareholders. Under the plan, executives have the opportunity to receive restricted stock and options. Participating executives are assigned a target award. The size of the target EIP award is based on the participant's level in the organization. For

executive officers, the target EIP award is set at 40% of their base salary and for the Chief Executive Officer the target award is set at 200% of base salary. These actual awards may be modified up or down by 35% from the target amount depending on the participant's performance during the preceding year, and the potential value of their contributions during the upcoming year. Both the options and restricted stock vest in equal annual installments over a four-year period. In June 2009, EIP awards for executive officers who reported directly to the CEO were made two-thirds in the form of restricted shares and one-third in the form of options. However, due to the decrease in the price of the Company's stock, all grants in succeeding years have been in the form of restricted shares. EIP awards to executive officers in June of 2010 and 2011 were made at target amounts.

The Compensation Committee believes that a portion of the equity granted to executives should be based on the performance of the Company. In June 2011, one half of the EIP award to the CEO only began to vest based on the achievement of operating income targets for fiscal year 2012. Half of that portion began to vest if the Company met a \$12 million operating income target, with full vesting of that portion at a \$19 million operating income target. Based on the Company's operating income for fiscal year 2012, in the aggregate, 70% of the CEO's equity grant from June 2012 will now vest over a four-year period.

Table of Contents

For fiscal year 2013 the Compensation Committee has extended the scope of performance based equity awards. One half of the EIP award granted to the CEO in June 2012 only begins to vest if the Company meets an operating income target of \$18 million, scaling up to the entire award at a target of \$24.2 million. If the Company's operating income exceeds \$28 million, an additional amount of shares equal to 20% of the EIP award will begin to vest. Executive officers' EIP award also now have performance target. An additional grant of shares will begin to vest equal to 20% of the original grant, if operating income exceeds \$24.2 million, increasing up to an additional 35% if operating income exceeds \$28 million.

Other Benefits. Executives also receive reimbursement for fees paid for financial planning services. In fiscal year 2010 some executives received automobile allowances. In fiscal year 2011, to standardize benefits for all executive officers, separate payments for automobile allowances ended for all executives other than the CEO, beginning June 2010, and base salaries were adjusted accordingly. The Company provides a 401(k) plan as a retirement benefit and health insurance for all of its U.S.-based employees. Company contributions to the 401(k) plan were suspended in March 2009 as a recession countermeasure and were restored in September 2010.

Change In Control. In order to provide executives the assurance that executives will serve the interests of shareholders in the event of a potential sale of the Company or other change in control, the Company provides that in the event an executive loses his or her job without cause following a sale of the Company or other change in control, that executive will receive one year of salary and target bonus and all outstanding unvested equity awards will immediately vest. This benefit is provided to senior executives whose employment would be at risk following a change in control. See "Potential Payments upon Termination or Change in Control" on page under "Executive Compensation" below for quantitative information.

Chief Executive Officer Compensation. On September 21, 2010, the Company and Charles M. Brown, the Company's President and Chief Executive Officer entered into a Severance Agreement (the "Severance Agreement") to replace the Employment Agreement dated July 3, 2007, as amended on May 15, 2008 (the "Employment Agreement"), that was originally entered into when Mr. Brown joined the Company.

The Employment Agreement provided for a fixed term of employment. The Company and Mr. Brown desire that Mr. Brown continue his employment relationship with the Company on an at-will basis and without a definite term. Accordingly, the Employment Agreement has been terminated and the Company and Mr. Brown have entered into the Severance Agreement, which provides for severance payments that are substantially similar to what was provided for in the Employment Agreement.

Mr. Brown's current compensation includes:

an annual base salary of \$500,000;

an annual performance-based bonus set at a target of 70% of base salary (but not more than 140% of base salary);

the ability to participate in the EIP and acquire an annual grant of stock options and shares of restricted stock having an aggregate target value equal to 200% of base salary. During fiscal year 2012 and 2013, Mr. Brown received his grant in restricted shares, half of which vest only if certain company performance targets are met.

Mr. Brown is also eligible to participate in life insurance, health insurance, 401(k) and similar benefit plans of the Company.

The Severance Agreement provides that if Mr. Brown's employment with the Company terminates by reason of Disability, by reason of the termination of Mr. Brown's employment by the Company for Cause, or by reason of the

resignation of Mr. Brown other than for Good Reason, then Mr. Brown will be entitled to receive any accrued salary, any earned bonuses or compensation and any other entitlements earned by Mr. Brown or that otherwise are owed as of the date of termination to the extent not already paid. In the event that Mr. Brown's employment with the Company terminates by reason of death, then the Company shall pay to Mr. Brown's estate the same payments previously described and the Company shall also provide for immediate vesting in all outstanding stock options and restricted stock awards.

In the event that Mr. Brown's employment is terminated within one year after a Change in Control other than for Cause or by resignation of Mr. Brown for Good Reason, then Mr. Brown shall generally be entitled to receive as severance the following: two years of the then-current base salary, two annual bonuses, and the reimbursement for two years of premiums paid for life, hospitalization and disability insurance plan coverage.

Risk Assessment. In connection with the Company's overall enterprise risk assessment process described above, Company management and the Compensation Committee specifically reviewed the potential effects that the Company's compensation plans and programs might have on the Company. The Compensation Committee examined whether any program created an incentive for management to take excessive risk. The Compensation Committee concluded that there was no incentive to take excessive risk and that none of these plans or programs is likely to have a material adverse effect on the Company.

Conclusion. The Compensation Committee believes that the executive compensation policies and practices it has adopted will serve the interests of the shareholders and the Company effectively. The Compensation Committee also believes that the Company's compensation programs provide motivation for executive officers to contribute to the Company's future success and balance both the short and long-term interests of our shareholders. The Compensation Committee will continue to monitor the effectiveness of the Company's total compensation program to meet the ongoing needs of the Company.

Compensation Committee Report

The Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management, and based on such review and discussions, the Compensation Committee recommended that the Compensation Discussion and Analysis be included in this Proxy Statement.

(1) These columns show what the potential payout for each named executive officer was under the Profit Sharing Plan ("PSP") in fiscal year 2012, if the target, or maximum goals were satisfied for all performance measures. The potential payouts were performance-driven and therefore completely at risk. The payouts range from zero to two times the target bonus, depending on the degree of target achievement. However, as noted above, for fiscal year 2012, the financial goals were not achieved and no payment was made under this plan. The business measurements, performance goals, and salary multipliers for determining the payout are described in the Compensation Discussion and Analysis section, above. A column for "threshold" payments under the PSP has been omitted because the PSP does not have a threshold payment feature.

(2) This column represents awards of restricted stock granted in fiscal year 2012 to the named executive officers under the Equity Incentive Plan discussed in more detail in the "Long-Term Compensation" section of the Compensation Discussion and Analysis. Potential Payments upon Termination or Change in Control

Except for our Chief Executive Officer, the Named Executive Officers do not have employment or severance agreements with the Company. However, the Company does have a policy that in the event a member of the senior management team (those reporting directly to the Chief Executive Officer) loses his or her job without cause following a sale of the Company or other change in control, that executive will receive one year of salary and target bonus in addition to any rights under the Company's 2005 Equity Incentive Plan with respect to acceleration of vesting of stock and options. Although the Company does not have a written policy, its practice has been, in the case of termination of a Named Executive Officer, to pay one year of salary.

Certain of the Named Executive Officers have unvested stock options and awards of restricted stock under the Company's 2005 Equity Incentive Plan, the vesting of which may accelerate in the event of a Change in Control (as defined below). The information below is a summary of certain provisions of these arrangements and does not attempt to describe all aspects of the arrangements.

On September 21, 2010, the Company and Charles M. Brown, the Company's President and Chief Executive Officer entered into a Severance Agreement (the "Severance Agreement") to replace the Employment Agreement dated July 3, 2007, as amended on May 15, 2008, (the "Employment Agreement") that was originally entered into when Mr. Brown joined the Company.

The Employment Agreement provided for a fixed term of employment. The Company and Mr. Brown desire that Mr. Brown continue his employment relationship with the Company on an at-will basis and without a definite term. Accordingly, the Employment Agreement was terminated and the Company and Mr. Brown entered into the Severance Agreement, which provides for severance payments that are substantially similar to what was provided for in the Employment Agreement.

The Severance Agreement provides that if Mr. Brown's employment with the Company terminates by reason of Disability, by reason of the termination of Mr. Brown's employment by the Company for Cause, or by reason of the resignation of Mr. Brown other than for Good Reason, then Mr. Brown will be entitled to receive his salary, any earned bonuses or compensation and any other entitlements earned by Mr. Brown or that otherwise are owed as of the date of termination to the extent not already paid. In the event that Mr. Brown's employment with the Company terminates by reason of death, then the Company shall pay to Mr. Brown the same payments previously described and the Company shall also provide for immediate vesting in all outstanding stock options and restricted stock awards. In the event of a Change in Control, our Chief Executive Officer will be generally be entitled to receive, in addition to the accrued payments described in the preceding paragraph, (i) two years of Mr. Brown's then-current Base Salary, (ii) the average of the two most recent Bonuses paid to Mr. Brown (one or both of which may be zero), (iii) reimbursement for two years of premiums for life, hospitalization and disability insurance plan coverage, (iv) immediate vesting in all outstanding stock options and restricted stock awards and (v) outplacement services from a third party outplacement service provider in an amount not to exceed \$20,000.

There is a table below showing the potential payments the Named Executive Officers could have received under these arrangements in connection with a Change in Control if it would have occurred on April 30, 2012, the last day of the Company's fiscal year.

There is also presented a table showing the potential payments and benefits the Chief Executive Officer could receive in various termination and Change in Control scenarios if such events occurred on April 30, 2012, the last day of the Company's fiscal year. Some of the termination scenarios presented for the Chief Executive Officer depend on whether the termination involves "Cause," "Good Reason" and "Disability" as those terms are defined in the Severance

agreement between the Chief Executive Officer and the Company.

Acceleration of Stock Award Vesting

The Company's 2005 Equity Incentive Plan provides that in the event of a Change in Control (as defined below), if the surviving corporation does not assume or continue outstanding stock awards or substitute similar stock awards for those outstanding under the 2005 Equity Incentive Plan, then all such outstanding stock awards will be accelerated and become fully vested and exercisable immediately prior to the consummation of the Change in Control transaction.

For purposes of the 2005 Equity Incentive Plan, "Change in Control" means:

- (i) Approval by the holders of the Company's Common Stock of any merger or consolidation of the Company in which the Company is not the continuing or surviving corporation or pursuant to which shares of common stock are converted into cash, securities or other property, other than a merger of the Company in which the holders of the Common Stock immediately prior to the merger have substantially the same proportionate ownership of common stock of the surviving corporation immediately after the merger;
- (ii) Approval by the holders of the Common Stock of any sale, lease, exchange or other transfer in one transaction or a series of related transactions of all or substantially all of the Company's assets other than a transfer of the Company's assets to a majority-owned subsidiary of the Company; or
- (iii) Approval by the holders of the Common Stock of any plan or proposal for the liquidation or dissolution of the Company.

- (1) Represents payment of one year of salary plus the target Profit Sharing Plan award from the "Estimated Future Payouts Under Non-Equity Incentive Plan Awards" column in the "Grants of Plan-Based Awards" table.

- (2) The exercise prices of all options were greater than the closing price of the common stock on the last trading day of the 2012 fiscal year (April 30, 2012), which was \$4.11. See "Outstanding Equity Awards at Fiscal Year-End" table.

- (3) Represents the amount of unvested restricted stocks awarded with respect to which the vesting would accelerate as a result of a Change in Control (as defined in 2005 Equity Incentive Plan) multiplied by the number of restricted stock shares unvested at the closing price of a share of common stock on the last trading day of the 2012 fiscal year, which was \$4.11. See "Market Value of Shares or Units of Stock that Have Not Vested" column in the "Outstanding Equity Awards at Fiscal Year-End" table.

Charles M. Brown, Principal Executive Officer	1,869,245	—	—	3,029,826

Represents payment of 24 months of base salary or \$500,000 plus two years of Mr. Brown's FY2008 Short-Term Incentive Plan bonus of \$403,855. With respect to the bonus, Mr. Brown's Severance Agreement provide that in the event of resignation with Good Reason, or Termination without Cause not related to a Change in Control, Mr. Brown would be entitled to receive the average of the two most recent Bonuses paid to Mr. Brown (one or both of which may be zero). Since his fiscal year 2012 bonus would not have been paid should this triggering event have happened on April 30, 2012, and his fiscal year 2011 and 2010 bonuses were not paid, the only bonus he would have received would have been his fiscal year 2008 bonus, so that is the bonus used in this hypothetical scenario. This amount also includes a payment of \$34,423 for 24 months of COBRA health insurance premiums and a \$20,000 outplacement services payment per his Severance Agreement.

In this scenario, per his Severance Agreement, Mr. Brown would be entitled to receive the bonus earned at the date of the triggering event. As discussed in the "Compensation Discussion and Analysis" section, in fiscal year 2012, the Company financial goals were not achieved and no payouts were made pursuant to the Profit Sharing Plan, so if there was a triggering event on April 30, 2012, the bonus earned would have been zero.

The exercise prices of all of the options were greater than the closing price of the common stock on the last trading day of the 2012 fiscal year (April 30, 2012), which was \$4.11. See "Outstanding Equity Awards at Fiscal Year-End" table.

Represents the amount of unvested restricted stocks awarded with respect to which the vesting would accelerate as a result of Termination by the Company for Death or without Cause or termination by the CEO with Good Reason, or a Change Control multiplied by the number of restricted stock shares unvested at the closing price of a share of common stock on the last trading day of the 2012 fiscal year, which was \$4.11. See "Market Value of

Shares or Units of Stock that Have Not Vested” column in the “Outstanding Equity Awards at Fiscal Year-End” table.

It is anticipated that representatives of Deloitte will be present at the Annual Meeting to answer shareholders' questions and will have the opportunity to make a statement if they so desire.

	Deloitte Entities 2012	Deloitte Entities 2011
Audit Fees(1)	\$1,345,000	\$1,496,000
Audit-Related Fees(2)	—	\$14,200

Total	\$1,360,700	\$1,530,200

Fees for audit services billed or expected to be billed relating to fiscal years 2012 and 2011 consisted of: (a) audit of the Company's annual financial statements, (b) reviews of the Company's quarterly financial statements, (1) statutory and regulatory audits, and (c) audit of the Company's internal control over financial reporting with the objective of obtaining reasonable assurance about whether effective control over financial reporting was maintained in all material respects.

(2)

Audit-related fees represent fees for consents and other services, related to Security and Exchange Commission (“SEC”) matters.

- (3) Tax fees represent the aggregate fees paid for professional services, principally including fees for tax compliance and tax advice.

- (4) All other fees represent the aggregate fees paid for products and services that are not included in the “Audit Fees,” “Audit-Related Fees” and “Tax Fees” sections. The Audit Committee has considered whether the provision of non-audit services is compatible with maintaining the principal registered public accounting firm's independence.
