ITEM 1.01 ENTRY INTO A MATERIAL DEFINITIVE AGREEMENT.

On October 11, 2006, Cytogen Corporation ("Cytogen") announced the execution of a license agreement with InPharma AS ("InPharma") granting Cytogen exclusive rights for CAPHOSOL(R) in North America. CAPHOSOL, a topical oral agent, is a prescription medical device indicated in the U.S. as an adjunct to standard oral care in treating oral mucositis caused by radiation or high dose chemotherapy. CAPHOSOL is also indicated for dryness of the mouth (hyposalivation) or dryness of the throat (xerostomia) regardless of the cause or whether the conditions are temporary or permanent.

Under the terms of the agreement, InPharma will receive upfront fees of \$5 million upon the closing of the transaction and an additional \$1 million payment after six months. In addition, InPharma will receive royalties and sales-based milestone payments. The transaction also provides Cytogen with the option to acquire the rights to CAPHOSOL for the European and Asian markets.

Attached hereto and incorporated by reference herein as Exhibit 99.1 is a copy of the related press release of Cytogen, dated October 11, 2006.
