SEACOAST REPORTS AN INCREASE OF 7% IN CORE OPERATING EARNINGS FOR THE FIRST QUARTER

STUART, FL., April 16, 2003 - Seacoast Banking Corporation of Florida (NASDAQ-NMS: SBCF), a bank holding company whose principal subsidiary is First National Bank and Trust Company of the Treasure Coast, today reported net income totaling \$3,223,000 or \$0.23 diluted earnings per share ("DEPS") for the first quarter of 2003, compared to \$3,686,000 or \$0.26 DEPS for the first quarter a year ago. Core operating earnings, which exclude the impacts of security gains and losses, totaled \$3,955,000 or \$0.28 DEPS, up \$269,000 or 7.3 percent from a year ago. Included in the first quarter results is the impact on earnings from restructuring the Company's investment portfolio for better performance in the current interest rate environment. A total of \$1,157,000 or \$0.05 DEPS in investment security losses were recorded in first quarter earnings versus \$66,000 of gains in the prior year's first quarter. "Seacoast begins 2003 with quality growth, a very strong balance sheet and the people, processes, capital, and expanded markets to allow for stronger future performance," commented Dennis S. Hudson, III, Chief Executive Officer of Seacoast.

The need to restructure the investment portfolio was caused by increased prepayments of collateralized mortgage obligations, resulting in unacceptable asset sensitivity, accelerated premium amortization and a decline in investment portfolio yields. The Company's investment portfolio yield for the first quarter was 36 basis points lower than the fourth quarter yield.

Highlights for the quarter included the following:

- o Return on average assets was 1.02 percent (1.25% excluding impacts from securities gains and losses), compared to 1.18 percent for the first quarter of 2002;
- o The return on average equity for the first quarter was 13.07 percent (16.04 percent excluding impacts from securities gains and losses), compared to 15.45 percent the first quarter of 2002;
- o Average equity to average assets remained strong at 7.81 percent compared to 7.67 percent one year earlier;
- o Exceptional residential mortgage production continued with a total of \$85.5 million in residential applications processed in the first quarter of 2003 compared to \$42 million in 2002, an increase of 103.6 percent;
- o Average noninterest bearing deposits increased \$19 million or 11.3 percent from the first quarter last year, and now total 18.5% of total deposits;
- o Asset quality exhibited little change with nonperforming assets ratio of 0.29 percent compared to 0.33 percent at year-end and 0.22 percent in the first quarter 2002; and
- o Seacoast Marine originated loans totaling \$38.3 million for the

Edgar Filing: SEACOAST BANKING CORP OF FLORIDA - Form 8-K

period ended March 31, 2003, compared to \$15.4 million in the same period for 2002.

The net interest margin for the quarter was 3.89 percent, representing a decline from the 4.05 percent achieved in last year's first quarter and the 4.02 percent in the fourth quarter of 2002. The decline in the net interest margin resulted from interest sensitive assets repricing, as a result of a flatter yield curve and the Fed's last 50-basis point rate cut on November 6 without a comparable decline in deposit rates and other interest sensitive liabilities.

Net interest income declined to \$11,639,000 by \$177,000 or 1.5 percent from last year's first quarter, but was flat when compared to fourth quarter 2002's \$11,648,000. The marginal decline in interest income comes from the shift in the Company's balance sheet during 2002 to a slightly asset sensitive position in anticipation of higher interest rates in 2003. However, the fundamentals of the Company remain very good and the prospects for margin improvement, as a result of increased loan growth from the expansion into Palm Beach County, will be a key to future increased shareholder value.

The cost for interest bearing deposits declined to 1.71 percent from 2.74 percent in the first quarter 2002 and 2.01 percent in the fourth quarter. Interest bearing deposits increased \$18.6 million, representing an 8.8 percent annualized growth during the first quarter 2003. Lower cost savings, NOW and money market balances increased \$18.0 million or an annualized growth of 15.2 percent in the first three months of 2003 and noninterest bearing demand deposits increased \$11.5 million or 24.9 percent annualized.

Although total loans outstanding were lower than prior year, the Company's commercial and commercial real estate portfolio increased \$7.2 million in the first quarter or 9.8 percent annualized. The response to the expansion into Palm Beach County in late 2002 has been very positive. The addition of two full service branches in January 2003, combined with three commercial loan officers, has resulted in a pipeline of over \$31 million in loans in this new market. The recent acquisition of Palm Beach County's two largest community banks by large out-of-market competitors has further enhanced the prospects for future loan and deposit growth from this market.

Noninterest income, excluding securities gains and losses, increased 34.8 percent when compared to the prior year's first quarter, reflecting reduced revenues from investment management services, offset by growing revenues from mortgage banking and marine lending. During the first quarter 2003, noninterest income related to mortgage loan production grew by 111.1 percent to \$1,638,000 compared with \$776,000 earned in the first quarter of 2002. Likewise, revenues from marine loan production increased to \$807,000 or an increase of \$640,000 from the prior year's first quarter. Both business lines benefited from expansion and the favorable interest rate environment. Mortgage banking has added resources in the existing Treasure Coast markets, where Seacoast ranks second in deposit market share and has the convenience of 25 full service branches, and in the fast growing Palm Beach County market, where we now have three offices and three more planned for 2004 and 2005. The Seacoast Marine Finance division added seven employees in California to its production team to fully serve the western marine markets, including the states of Washington and Oregon. The decline in revenues from investment management has been disappointing and remains extremely challenging due to the economic environment and the uncertainties for improvement; however, continuing to provide these services is an important part of our SuperCommunity banking strategy. In addition, when the economy does improve, these revenues will expand and contribute to future earnings results.

Noninterest expenses increased \$776,000 or 7.7 percent from the fourth quarter, as a result of opening two new branches in the first quarter and increased commission expenses due to higher volumes of mortgage banking and

Edgar Filing: SEACOAST BANKING CORP OF FLORIDA - Form 8-K

marine lending business.

Core deposit growth continued to enhance fees by increasing the customer base and usage of check cards. During the first quarter 2003, a total of \$289,000 in interchange income was earned compared to \$223,000 for the same period in 2002.

Net loan charge offs were \$280,000 for the first quarter of 2003, compared to net charge-offs of \$124,000 for 2002. Loan delinquencies, nonaccruals and the percentage of loans past due 90 days to average loans declined to 0.29 percent at March 31, 2003, compared to 0.33 percent for the fourth quarter 2002. Nonperforming assets totaled \$1,901,000, representing little change from the \$1,670,000 for the same quarter a year ago. The consistent credit quality and low net charge-offs allowed the Company to eliminate the provision for loan losses for the quarter. No provision was made in the prior year's first quarter.

The Company's effective tax rate for the first quarter 2003 was 34.7 percent compared to 39.2 percent for the same quarter in 2002. At the beginning of 2003 the Company formed a Real Estate Investment Trust to more efficiently manage its real estate assets and to reduce its effective tax rate and tax expenses.

Seacoast Banking Corporation of Florida has approximately \$1.3 billion in assets. It is one of the largest independent commercial banking organizations in Florida, headquartered on Florida's Treasure Coast, one of the wealthiest and fastest growing areas in the nation.

This press release contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934.

Forward-looking statements include statements with respect to our beliefs, plans, objectives, goals, expectations, anticipations, estimates and intentions, and involve known and unknown risks, uncertainties and other factors, which may be beyond our control, and which may cause the actual results, performance or achievements of Seacoast Banking Corporation of Florida ("Seacoast" or the "Company") to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. You should not expect us to update any forward-looking statements.

You can identify these forward-looking statements through our use of words such as "may", "will", "anticipate", "assume", "should", "indicate", "would", "believe", "contemplate", "expect", "estimate", "continue", "point to", "project", "could", "intend" or other similar words and expressions of the future. These forward-looking statements may not be realized due to a variety of factors, including, without limitation: the effects of future economic conditions; governmental monetary and fiscal policies, as well as legislative and regulatory changes; the risks of changes in interest rates on the level and composition of deposits, loan demand, and the values of loan collateral, securities, and interest sensitive assets and liabilities; interest rate risks and sensitivities; the effects of competition from other commercial banks, thrifts, mortgage banking firms, consumer finance companies, credit unions, securities brokerage firms, insurance companies, money market and other mutual funds and other financial institutions operating in the Company's market area and elsewhere, including institutions operating regionally, nationally and internationally, together with such competitors offering banking products and services by mail, telephone, computer and the Internet; the failure of assumptions underlying the establishment of reserves for possible loan losses, and the risks of mergers and acquisitions, including, without limitation, the

Edgar Filing: SEACOAST BANKING CORP OF FLORIDA - Form 8-K

related costs, including integrating operations as part of these transactions, and the failure to achieve the expected gains, revenue growth and/or expense savings from such transactions.

All written or oral forward looking statements attributable to the Company are expressly qualified in their entirety by this Cautionary Notice including, without limitation, those risks and uncertainties, described in the Company's annual report on Form 10-K for the year ended December 31, 2002 under "Special Cautionary Notice Regarding Forward Looking Statements", and otherwise in the Company's SEC reports and filings. Such reports are available upon request from Seacoast, or from the Securities and Exchange Commission, including the SEC's website at <http://www.sec.gov>.
