PITNEY BOWES INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited; table amounts in thousands unless otherwise noted, except per share amounts)

1. Description of Business and Basis of Presentation

Pitney Bowes Inc. (we, us, our, or the company), was incorporated in the state of Delaware in 1920. We are a global technology company offering innovative products and solutions that help our clients navigate the complex world of commerce. We offer products and solutions for customer information management, location intelligence and customer engagement to help our clients market to their customers, and products and solutions for shipping, mailing, and cross border ecommerce that enable the sending of packages across the globe. Clients around the world rely on our products, solutions and services. For more information about us, our products, services and solutions, visit www.pb.com.

We have prepared the accompanying unaudited Condensed Consolidated Financial Statements in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and the instructions to Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In addition, the December 31, 2015 Condensed Consolidated Balance Sheet data was derived from audited financial statements, but does not include all disclosures required by GAAP. In management's opinion, all adjustments, consisting only of normal recurring adjustments, considered necessary to fairly state our financial position, results of operations and cash flows for the periods presented have been included. Operating results for the periods presented are not necessarily indicative of the results that may be expected for any other interim period or for the year ending December 31, 2016.

These statements should be read in conjunction with the financial statements and notes thereto included in our Annual Report to Stockholders on Form 10-K for the year ended December 31, 2015 (2015 Annual Report).

In 2015, we determined that certain investments were classified as cash and cash equivalents and made reclassifications primarily between short-term investments and cash and cash equivalents. Accordingly, the Consolidated Statements of Cash Flows for the period ended March 31, 2015 has been revised to reduce beginning cash and cash equivalents by \$25 million and ending cash and cash equivalents by \$26 million and investments have been increased in these same periods.

New Accounting Pronouncements - Standards Adopted in 2016

In September 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) 2015-16, Business Combinations - Simplifying the Accounting for Measurement-Period Adjustments, which eliminates the requirement to restate prior period financial statements for measurement period adjustments. The new guidance requires that the cumulative impact of a measurement period adjustment (including the impact on prior periods) be recognized in the reporting period in which the adjustment is identified. Consistent with existing guidance, the new guidance requires an acquirer to disclose the nature and amount of measurement period adjustments.

We adopted this standard as of January 1, 2016, and will apply when applicable.

In April 2015, the FASB issued ASU 2015-05, Intangibles - Goodwill and Other - Internal-Use Software, Customer's Accounting for Fees Paid in a Cloud Computing Arrangement, which provides guidance on fees paid by an entity in a cloud computing arrangement and whether an arrangement includes a license to the underlying software. We adopted this standard as of January 1, 2016, and there was no impact to the financial statements.

In April 2015, the FASB issued ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs, which requires debt issuance costs to be presented in the balance sheet as a direct deduction from the associated debt liability. This standard is effective for fiscal periods beginning after December 15, 2015. We retrospectively adopted this ASU effective January 1, 2016. Accordingly, the Consolidated Balance Sheet at December 31, 2015, has been revised to reduce other assets and long-term debt by \$18 million.

In January 2015, the FASB issued ASU 2015-01, Income Statement - Extraordinary and Unusual Items, which removes the concept of extraordinary items, thereby eliminating the need for companies to assess transactions for extraordinary treatment. The standard retained the presentation and disclosure requirements for items that are unusual in nature and/or infrequent in occurrence. We adopted this standard as of January 1, 2016, and will apply when applicable.

New Accounting Pronouncements - Standards Not Yet Adopted

In January 2016, the FASB issued ASU 2016-01, Financial Instruments—Overall: Recognition and Measurement of Financial Assets and Financial Liabilities. Changes under this guidance primarily affect the accounting for equity investments, financial liabilities under the fair value option, and the presentation and disclosure requirements for financial instruments. The ASU is effective for fiscal years beginning after December 15, 2017 and interim periods therein. Early adoption is permitted. We are currently assessing the impact this standard will have on our consolidated financial statements and disclosures.

PITNEY BOWES INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited; table amounts in thousands unless otherwise noted, except per share amounts)

In February 2016, the FASB issued ASU 2016-02, Leases. Lessees will need to recognize almost all leases on their balance sheet as a right-of-use asset and a lease liability. For income statement purposes, the FASB retained a dual model, requiring leases to be classified as either operating or finance. Classification will be based on criteria that are largely similar to those applied in current lease accounting, but without explicit bright lines. Lessor accounting is similar to the current model, but updated to align with certain changes to the lessee model and the new revenue recognition standard. The standard will also result in enhanced disclosures. The ASU is effective for interim and annual periods beginning after December 15, 2018. The standard requires modified retrospective transition and early adoption is permitted. We are currently assessing the impact this standard will have on our consolidated financial statements and disclosures.

In March 2016, the FASB issued ASU 2016-09, Compensation—Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. The ASU includes multiple provisions intended to simplify various aspects of the accounting for share-based payments. The ASU is effective for interim and annual periods beginning after December 15, 2016 and early adoption is permitted. We are currently assessing the impact this standard will have on our consolidated financial statements and disclosures.

In July 2015, the FASB issued ASU 2015-11, Inventory - Simplifying the Measurement of Inventory, which requires inventory to be measured at the lower of cost and net realizable value (estimated selling price less reasonably predictable costs of completion, disposal and transportation). Prior to this guidance, inventory was measured at the lower of cost or market (where market was defined as replacement cost, with a ceiling of net realizable value and a floor of net realizable value of inventory, less a normal profit margin). Inventory measured using LIFO is not impacted by the new guidance. The ASU is effective for interim and annual periods beginning after December 15, 2016 and early adoption is permitted. We do not believe this standard will have a significant impact on our consolidated financial statements or disclosures.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers. The standard requires companies to recognize revenue for the transfer of goods and services to customers in amounts that reflect the consideration the company expects to receive in exchange for those goods and services. The standard will also result in enhanced disclosures about revenue. In July 2015, the FASB approved a one-year deferral of the effective date. This standard is now effective for fiscal periods beginning after December 15, 2017. The standard can be adopted either retrospectively or as a cumulative-effect adjustment. Companies are permitted to adopt the standard as early as the original public entity effective date (fiscal periods beginning after December 15, 2016). Early adoption prior to that date is prohibited. We are currently in the process of evaluating a sample of contracts with customers under the new standard and cannot currently estimate the financial statement impact of adoption. We have not decided on the transition method we will use to adopt the new standard. Areas of potential change include, but are not limited to: units of accounting; estimating and allocating variable consideration as well as changes in variable consideration and cumulative adjustments to revenue; determining standalone selling price of software; and capitalization of certain contract costs, including sales commissions. In addition, we continue to monitor additional changes, clarifications or interpretations being undertaken by the FASB.

PITNEY BOWES INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited; table amounts in thousands unless otherwise noted, except per share amounts)

2. Segment Information

The principal products and services of each of our reportable segments are as follows:

Small & Medium Business Solutions:

North America Mailing: Includes the revenue and related expenses from the sale, rental, financing and servicing of mailing equipment, software and supplies for small and medium businesses to efficiently create physical and digital mail and evidence postage for the sending of mail, flats and parcels in the U.S. and Canada.

International Mailing: Includes the revenue and related expenses from the sale, rental, financing and servicing of mailing equipment, software and supplies for small and medium businesses to efficiently create physical and digital mail and evidence postage for the sending of mail, flats and parcels in areas outside the U.S. and Canada.

Enterprise Business Solutions:

Production Mail: Includes the worldwide revenue and related expenses from the sale of production mail inserting and sortation equipment, high-speed production print systems, supplies and related support services to large enterprise clients to process inbound and outbound mail.

Presort Services: Includes revenue and related expenses from presort mail services for our large enterprise clients to qualify large mail volumes for postal worksharing discounts.

Digital Commerce Solutions:

Software Solutions: Includes the worldwide revenue and related expenses from the licensing of non-equipment-based mailing, customer information management, location intelligence and customer engagement solutions and related support services.

Global Ecommerce: Includes the worldwide revenue and related expenses from shipping solutions and cross-border ecommerce.

We determine segment earnings before interest and taxes (EBIT) by deducting from segment revenue the related costs and expenses attributable to the segment. Segment EBIT excludes interest, taxes, general corporate expenses and restructuring charges that are not allocated to a particular business segment. Management uses segment EBIT to measure profitability and performance at the segment level. Management believes segment EBIT provides a useful measure of our operating performance and underlying trends of the businesses. Segment EBIT may not be indicative of our overall consolidated performance and therefore should be read in conjunction with our consolidated results of operations.

5. Finance Assets

Finance Receivables

Finance receivables are comprised of sales-type lease receivables and unsecured revolving loan receivables.

Sales-type lease receivables are generally due in monthly, quarterly or semi-annual installments over periods ranging from three to five years. Loan receivables arise primarily from financing services offered to our customers for postage and supplies. Loan receivables are generally due each month; however, customers may rollover outstanding balances. Interest is recognized on loan receivables using the effective interest method and related annual fees are initially deferred and recognized ratably over the annual period covered. Customer acquisition costs are expensed as incurred.

Finance receivables at March 31, 2016 and December 31, 2015 consisted of the following:

	March 31, 2016			December 31, 2015		
	North America	International	Total	North America	International	Total
Sales-type lease receivables						
Gross finance receivables	\$1,181,780	\$299,214	\$1,480,994	\$1,212,390	\$308,099	\$1,520,489
Unguaranteed residual values	98,801	15,721	114,522	100,000	15,709	115,709
Unearned income	(246,061)	(69,164)	(315,225)	(252,522)	(68,965)	(321,487)
Allowance for credit losses	(6,010)	(3,146)	(9,156)	(6,735)	(3,614)	(10,349)
Net investment in sales-type lease receivables	1,028,510	242,625	1,271,135	1,053,133	251,229	1,304,362
Loan receivables						
Loan receivables	351,513	41,869	393,382	363,672	41,604	405,276
Allowance for credit losses	(9,072)	(1,552)	(10,624)	(9,896)	(1,518)	(11,414)
Net investment in loan receivables	342,441	40,317	382,758	353,776	40,086	393,862
Net investment in finance receivables	\$1,370,951	\$282,942	\$1,653,893	\$1,406,909	\$291,315	\$1,698,224

Allowance for Credit Losses

We estimate probable losses and provide an allowance for credit losses. Losses are based on historical loss experience, the nature and volume of our portfolios, adverse situations that may affect a client's ability to pay, prevailing economic conditions and our ability to manage the collateral. We continually evaluate the adequacy of the allowance for credit losses and make adjustments as necessary. The assumptions used in determining an estimate of credit losses are inherently subjective and actual results may differ significantly from estimated reserves.

We establish credit approval limits based on the credit quality of the client and the type of equipment financed. Our policy is to discontinue revenue recognition for lease receivables that are more than 120 days past due and for unsecured loan receivables that are more than 90 days past due. We resume revenue recognition when the client's payments reduce the account aging to less than 60 days past due. Finance receivables deemed uncollectible are written off against the allowance after all collection efforts have been exhausted and management deems the account to be uncollectible. We believe that our finance receivable credit risk is low because of the geographic and industry diversification of our clients and small account balances for most of our clients.

PITNEY BOWES INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited; table amounts in thousands unless otherwise noted, except per share amounts)

Activity in the allowance for credit losses for the three months ended March 31, 2016 and 2015 was as follows:

	Sales-type Lease Receivables		Loan Receivables		
	North America	International	North America	International	Total
Balance at January 1, 2016	\$6,735	\$ 3,614	\$9,896	\$ 1,518	\$21,763

Credit Quality

The extension of credit and management of credit lines to new and existing clients uses a combination of an automated credit score, where available, and a detailed manual review of the client's financial condition and, when applicable, payment history. Once credit is granted, the payment performance of the client is managed through automated collections processes and is supplemented with direct follow up should an account become delinquent. We have robust automated collections and extensive portfolio management processes. The portfolio management processes ensure that our global strategy is executed, collection resources are allocated appropriately and enhanced tools and processes are implemented as needed.

We use a third party to score the majority of the North America portfolio on a quarterly basis using a commercial credit score. We do not use a third party to score our International portfolio because the cost to do so is prohibitive, given that it is a localized process and there is no single credit score model that covers all countries.

The table below shows the North America portfolio at March 31, 2016 and December 31, 2015 by relative risk class (low, medium, high) based on the relative scores of the accounts within each class. The relative scores are determined based on a number of factors, including the company type, ownership structure, payment history and financial information. A fourth class is shown for accounts that are not scored. Absence of a score is not indicative of the credit quality of the account. The degree of risk, as defined by the third party, refers to the relative risk that an account in the next 12 month period may become delinquent.

• Low risk accounts are companies with very good credit scores and are considered to approximate the top 30% of all commercial borrowers.

• Medium risk accounts are companies with average to good credit scores and are considered to approximate the middle 40% of all commercial borrowers.

• High risk accounts are companies with poor credit scores, are delinquent or are at risk of becoming delinquent and are considered to approximate the bottom 30% of all commercial borrowers.

	March 31, 2016	December 31, 2015
Sales-type lease receivables		
Low	\$915,792	\$ 926,387
Medium	194,933	192,645
High	35,904	37,573
Not Scored	35,151	55,785

(Unaudited; table amounts in thousands unless otherwise noted, except per share amounts)

6. Acquisitions, Intangible Assets and Goodwill

Acquisitions

In June 2015, we acquired 100% of the outstanding shares of Borderfree. The results of operations of Borderfree are included in our consolidated results from the date of acquisition. Our consolidated operating results for the three months ended March 31, 2016 include revenue of \$25 million from Borderfree operations. On a supplemental pro forma basis, had we acquired Borderfree on January 1, 2015, our revenues would have been \$25 million higher for the three months ended March 31, 2015. The impact on our earnings would not have been material.

On January 12, 2016, we acquired Enroute for \$14 million in cash plus potential additional payments during the periods 2017-2019 based on the achievement of revenue targets during the periods 2016-2018. Enroute is a software-as-a-service enterprise retail and fulfillment solutions company and is reported within our Global Ecommerce segment.

Intangible Assets

Intangible assets consisted of the following:

	March 31, 2016			December 31, 2015		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Customer relationships	\$445,179	\$(283,209)	\$161,970	\$437,459	\$(272,353)	\$165,106
Software & technology	151,337	(137,215)	14,122	149,591	(135,198)	14,393
Trademarks & other	36,178	(28,223)	7,955	35,314	(27,435)	7,879
Total intangible assets	\$632,694	\$(448,647)	\$184,047	\$622,364	\$(434,986)	\$187,378

Amortization expense was \$11 million and \$8 million for the three months ended March 31, 2016 and 2015, respectively.

Future amortization expense for intangible assets as of March 31, 2016 was as follows:

Remaining for year ending December 31, 2016	\$28,051
Year ending December 31, 2017	28,294
Year ending December 31, 2018	25,695
Year ending December 31, 2019	22,606
Year ending December 31, 2020	17,795
Thereafter	61,606
Total	\$184,047

Actual amortization expense may differ from the amounts above due to, among other things, fluctuations in foreign currency exchange rates, impairments, acquisitions and accelerated amortization.

PITNEY BOWES INC.

7. Fair Value Measurements and Derivative Instruments

We measure certain financial assets and liabilities at fair value on a recurring basis. Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. An entity is required to classify certain assets and liabilities measured at fair value based on the following fair value hierarchy that prioritizes the inputs used to measure fair value:

Level 1 – Unadjusted quoted prices in active markets for identical assets and liabilities.

Level 2 – Quoted prices for identical assets and liabilities in markets that are not active, quoted prices for similar assets and liabilities in active markets or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity, may be derived from internally developed methodologies based on management's best estimate of fair value and that are significant to the fair value of the asset or liability.

The following tables show, by level within the fair value hierarchy, our financial assets and liabilities that are accounted for at fair value on a recurring basis at March 31, 2016 and December 31, 2015. Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Our assessment of the significance of a particular input to the fair value measurement requires judgment and may affect its placement within the fair value hierarchy.

Investment Securities

The valuation of investment securities is based on the market approach using inputs that are observable, or can be corroborated by observable data, in an active marketplace. The following information relates to our classification into the fair value hierarchy:

Money Market Funds / Commercial Paper: Money market funds typically invest in government securities, certificates of deposit, commercial paper and other highly liquid, low risk securities. Money market funds are principally used for overnight deposits and are classified as Level 1 when unadjusted quoted prices in active markets are available and as Level 2 when they are not actively traded on an exchange. Direct investments in commercial paper are not listed on an exchange in an active market and are classified as Level 2.

Equity Securities: Equity securities are comprised of mutual funds investing in U.S. and foreign common stock. These mutual funds are classified as Level 2 as they are not separately listed on an exchange.

Commingled Fixed Income Securities: Mutual funds that invest in a variety of fixed income securities including securities of the U.S. government and its agencies, corporate debt, mortgage-backed securities and asset-backed securities. The value of the funds is based on the market value of the underlying investments owned by each fund, minus its liabilities, divided by the number of shares outstanding, as reported by the fund manager. These commingled funds are not listed on an exchange in an active market and are classified as Level 2.

Debt Securities – U.S. and Foreign Governments, Agencies and Municipalities: Debt securities are classified as Level 1 where active, high volume trades for identical securities exist. Valuation adjustments are not applied to these securities. Debt securities valued using quoted market prices for similar securities or benchmarking model derived prices to quoted market prices and trade data for identical or comparable securities are classified as Level 2.

Debt Securities – Corporate: Corporate debt securities are valued using recently executed transactions, market price quotations where observable, or bond spreads. The spread data used are for the same maturity as the security. These securities are classified as Level 2.

Mortgage-Backed Securities / Asset-Backed Securities: These securities are valued based on external pricing indices. When external index pricing is not observable, these securities are valued based on external price/spread data. These securities are classified as Level 2.

Investment securities include investments held by The Pitney Bowes Bank (the Bank), whose primary business is to provide financing solutions to clients that rent postage meters and purchase supplies. The Bank's assets and liabilities

consist primarily of cash, finance receivables, short and long-term investments and deposit accounts.

PITNEY BOWES INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited; table amounts in thousands unless otherwise noted, except per share amounts)

Available-For-Sale Securities

Certain investment securities are classified as available-for-sale and recorded at fair value in the unaudited Condensed Consolidated Balance Sheets as cash and cash equivalents, short-term investments and other assets depending on the type of investment and maturity. Unrealized holding gains and losses are recorded, net of tax, in accumulated other comprehensive loss (AOCL).

Available-for-sale securities at March 31, 2016 and December 31, 2015 consisted of the following:

	March 31, 2016			
	Amortized cost	Gross unrealized gains	Gross unrealized losses	Estimated fair value
U.S. and foreign governments, agencies and municipalities	\$ 129,918	\$ 3,328	\$ (321)	\$ 132,925
Corporate notes and bonds	61,181	1,869	(379)	62,671
Commingled fixed income securities	1,542	14	—	1,556
Mortgage-backed / asset-backed securities	163,491	3,024	(1,161)	165,354
Total	\$ 356,132	\$ 8,235	\$ (1,861)	\$ 362,506
	December 31, 2015			
	Amortized cost	Gross unrealized gains	Gross unrealized losses	Estimated fair value
U.S. and foreign governments, agencies and municipalities	\$ 114,265	\$ 1,804	\$ (1,268)	\$ 114,801
Corporate notes and bonds	63,140	823	(1,079)	62,884
Mortgage-backed / asset-backed securities	177,821	1,901	(1,488)	178,234
Total	\$ 355,226	\$ 4,528	\$ (3,835)	\$ 355,919

At March 31, 2016, investment securities that were in a loss position for 12 or more continuous months had aggregate unrealized holding losses of \$1 million and an estimated fair value of \$39 million, and investment securities that were in a loss position for less than 12 continuous months had aggregate unrealized holding losses of \$1 million and an estimated fair value of \$59 million.

At December 31, 2015, investment securities that were in a loss position for 12 or more continuous months had aggregate unrealized holding losses of \$2 million and an estimated fair value of \$36 million, and investment securities that were in a loss position for less than 12 continuous months had aggregate unrealized holding losses of \$2 million and an estimated fair value of \$146 million.

We have not recognized an other-than-temporary impairment on any of the investment securities in an unrealized loss position because we do not intend to sell these securities, it is more likely than not that we will not be required to sell these securities before recovery of the unrealized losses and we expect to receive the contractual principal and interest on these investment securities.

Scheduled maturities of available-for-sale securities at March 31, 2016 were as follows:

	Amortized cost	Estimated fair value
Within 1 year	\$ 64,649	\$ 64,711
After 1 year through 5 years	78,466	79,906
After 5 years through 10 years	52,093	53,610
After 10 years	160,924	164,279

Total \$356,132 \$362,506

The expected payments on mortgage-backed and asset-backed securities may not coincide with their contractual maturities as borrowers have the right to prepay obligations with or without prepayment penalties.

PITNEY BOWES INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited; table amounts in thousands unless otherwise noted, except per share amounts)

We have not experienced any significant write-offs in our investment portfolio. The majority of our mortgage-backed securities are either guaranteed or supported by the U.S. Government. We have no investments in inactive markets that would warrant a possible change in our pricing methods or classification within the fair value hierarchy. Further, we have no investments in auction rate securities.

Derivative Instruments

In the normal course of business, we are exposed to the impact of changes in foreign currency exchange rates and interest rates. We limit these risks by following established risk management policies and procedures, including the use of derivatives. We use derivative instruments to limit the effects of exchange rate fluctuations on financial results and manage the related cost of debt. We do not use derivatives for trading or speculative purposes. We record our derivative instruments at fair value and the accounting for changes in the fair value depends on the intended use of the derivative, the resulting designation and the effectiveness of the instrument in offsetting the risk exposure it is designed to hedge.

The valuation of foreign exchange derivatives is based on the market approach using observable market inputs, such as foreign currency spot and forward rates and yield curves. We also incorporate counterparty credit risk and our credit risk into the fair value measurement of our derivative assets and liabilities, respectively. We derive credit risk from observable data in the credit default swap market. We have not seen a material change in the creditworthiness of those banks acting as derivative counterparties.

The fair value of derivative instruments at March 31, 2016 and December 31, 2015 was as follows:

Designation of Derivatives	Balance Sheet Location	March 31, 2016	December 31, 2015
Derivatives designated as hedging instruments			
Foreign exchange contracts	Other current assets and prepayments	\$ 122	\$ 217
	Accounts payable and accrued liabilities:	(661) (208
Derivatives not designated as hedging instruments			
Foreign exchange contracts	Other current assets and prepayments	23	1,499
	Accounts payable and accrued liabilities:	(4,846) (5,179
	Total derivative assets	\$ 145	\$ 1,716
	Total derivative liabilities	(5,507) (5,387
	Total net derivative liabilities	\$ (5,362) \$ (3,671

Foreign Exchange Contracts

We enter into foreign exchange contracts to mitigate the currency risk associated with the anticipated purchase of inventory between affiliates and from third parties. These contracts are designated as cash flow hedges. The effective portion of the gain or loss on cash flow hedges is included in AOCL in the period that the change in fair value occurs and is reclassified to earnings in the period that the hedged item is recorded in earnings. At March 31, 2016 and December 31, 2015, we had outstanding contracts associated with these anticipated transactions with notional amounts of \$16 million and \$13 million, respectively.

The amounts included in AOCL at March 31, 2016 will be recognized in earnings within the next 12 months. No amount of ineffectiveness was recorded in earnings for these designated cash flow hedges.

PITNEY BOWES INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited; table amounts in thousands unless otherwise noted, except per share amounts)

The following represents the results of cash flow hedging relationships for the three months ended March 31, 2016 and 2015:

Derivative Instrument	Three Months Ended March 31,		Gain (Loss)	
	2016	2015	Reclassified from AOCL to Earnings (Effective Portion)	
Foreign exchange contracts	\$(393)	\$(409)	Revenue	\$(380) \$(396)
			Cost of sales	225 (395)
				\$(155) \$(791)

We also enter into foreign exchange contracts to minimize the impact of exchange rate fluctuations on short-term intercompany loans and related interest that are denominated in a foreign currency. The revaluation of the intercompany loans and interest and the mark-to-market adjustment on the derivatives are both recorded in earnings. All outstanding contracts at March 31, 2016 mature within 12 months.

The following represents the results of our non-designated derivative instruments for the three months ended March 31, 2016 and 2015:

Derivatives Instrument	Location of Derivative Gain (Loss)	Three Months Ended March 31, Derivative Gain (Loss) Recognized in Earnings	
		2016	2015
Foreign exchange contracts	Selling, general and administrative expense	\$(5,977)	\$(208)

Credit-Risk-Related Contingent Features

Certain derivative instruments contain credit-risk-related contingent features that would require us to post collateral based on a combination of our long-term senior unsecured debt ratings and the net fair value of our derivatives. At March 31, 2016, the maximum amount of collateral that we would have been required to post had the credit-risk-related contingent features been triggered was \$5 million.

Fair Value of Financial Instruments

Our financial instruments include cash and cash equivalents, investment securities, accounts receivable, loan receivables, derivative instruments, accounts payable and debt. The carrying value for cash and cash equivalents, accounts receivable, loans receivable, and accounts payable approximate fair value because of the short maturity of these instruments.

The fair value of our debt is estimated based on recently executed transactions and market price quotations. These inputs used to determine the fair value of our debt were classified as Level 2 in the fair value hierarchy. The carrying value and estimated fair value of our debt at March 31, 2016 and December 31, 2015 were as follows:

	March 31, 2016	December 31, 2015
Carrying value excluding unamortized debt issuance costs	\$3,065,603	\$ 2,968,997
Fair value	\$3,203,797	\$ 3,102,890

PITNEY BOWES INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited; table amounts in thousands unless otherwise noted, except per share amounts)

8. Restructuring Charges

The tables below shows the activity in our restructuring reserves for the three months ended March 31, 2016 and 2015:

	Severance and benefits costs	Other exit costs	Total
Balance at January 1, 2016	\$43,700	\$3,722	\$47,422
Expenses, net	4,590	1,060	5,650
Cash payments	(19,956)	(1,700)	(21,656)
Balance at March 31, 2016	\$28,334	\$3,082	\$31,416
Balance at January 1, 2015	\$81,836	\$8,343	\$90,179
Expenses, net	(51)	(30)	(81)
Cash payments	(19,884)	(1,990)	(21,874)
Balance at March 31, 2015	\$61,901	\$6,323	\$68,224

The majority of the remaining restructuring reserves are expected to be paid over the next 12 to 24 months; however, due to certain international labor laws and long-term lease agreements, some payments will extend beyond 24 months. We expect to fund these payments from cash flows from operations.

9. Debt

At March 31, 2016 and December 31, 2015, total debt consisted of the following:

	Interest rate	March 31, 2016	December 31, 2015
Commercial paper	1.13%	\$269,550	\$90,000
Notes due January 2016	4.75%	—	370,914
Notes due September 2017	5.75%	385,109	385,109
Notes due March 2018	5.6%	250,000	250,000
Notes due May 2018	4.75%	350,000	350,000
Notes due March 2019	6.25%	300,000	300,000
Notes due March 2024	4.625%	500,000	500,000
Notes due January 2037	5.25%	115,041	115,041
Notes due March 2043	6.7%	425,000	425,000
Term loans	Variable	450,000	150,000
Other debt		5,770	15,758
Principal amount		3,050,470	2,951,822
Less: unamortized discount and debt issuance costs		25,630	23,617
Plus: unamortized interest rate swap proceeds		20,105	22,463
Total debt		3,044,945	2,950,668
Less: current portion long-term debt and notes payable		269,732	461,085
Long-term debt		\$2,775,213	\$2,489,583

In January 2016, we borrowed \$300 million under a term loan and used the proceeds to repay a portion of the \$371 million, 4.75% notes due January 15, 2016. The remaining portion of the loan was repaid using cash from operations.

The new term loan bears interest at the applicable Eurodollar Rate plus 1.25% and matures in December 2020. The applicable Eurodollar Rate at March 31, 2016 was .62%.

PITNEY BOWES INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited; table amounts in thousands unless otherwise noted, except per share amounts)

In October 2014, we received a loan from the State of Connecticut Department of Economic and Community Development (CDECD). The loan consisted of a \$15 million development loan and \$1 million jobs-training grant that was subject to certain conditions being met. We satisfied the conditions related to the \$1 million jobs-training grant during 2015. The loan agreement provided that \$10 million of the loan would be forgiven if we satisfied certain employment obligations. In March 2016, we satisfied all criteria to receive the \$10 million of loan forgiveness and, as a result, recorded the loan forgiveness as reductions of long-term debt and selling, general and administrative expenses.

10. Pensions and Other Benefit Programs

The components of net periodic benefit cost (income) were as follows:

	Defined Benefit Pension Plans				Nonpension Postretirement Benefit Plans	
	United States		Foreign		Three Months Ended	
	Three Months Ended	Three Months Ended	Three Months Ended	Three Months Ended	Three Months Ended	Three Months Ended
	March 31, 2016	March 31, 2015	March 31, 2016	March 31, 2015	March 31, 2016	March 31, 2015
Service cost	\$32	\$ 38	\$527	\$565	\$501	\$679
Interest cost	18,830	18,859	5,661	6,063	2,136	2,375
Expected return on plan assets	(25,589)	(26,044)	(8,472)	(8,839)	—	—
Amortization of transition credit	—	—	(2)	(2)	—	—
Amortization of prior service (credit) cost	(15)	2	(17)	(17)	74	74
Amortization of net actuarial loss	6,706	7,648	1,343	1,480	1,360	2,391
Settlement ⁽¹⁾	1,098	—	—	—	—	—
Net periodic benefit cost (income)	\$1,062	\$ 503	\$(960)	\$(750)	\$4,071	\$5,519

(1) Included in restructuring charges, net in the Condensed Consolidated Statements of Income.

Through March 31, 2016 and March 31, 2015, contributions to our U.S. pension plans were \$4 million and \$3 million, respectively, and contributions to our foreign plans were \$38 million and \$9 million, respectively. Nonpension postretirement benefit plan contributions were \$4 million and \$6 million through March 31, 2016 and March 31, 2015, respectively.

11. Income Taxes

The effective tax rate for the three months ended March 31, 2016 and 2015 was 37.1% and 37.3%, respectively. The effective tax rate for 2016 and 2015 each include a \$3 million charge from the write-off of deferred tax assets associated with the expiration of out-of-the-money vested stock options and the vesting of restricted stock units previously granted to our employees.

As is the case with other large corporations, our tax returns are examined each year by tax authorities in the U.S. and other global taxing jurisdictions in which we have operations. The IRS examinations of our consolidated U.S. income tax returns for tax years prior to 2012 are closed to audit. Additionally, various post-2005 U.S. state and local tax returns are subject to examination. In Canada, the examination of our tax filings prior to 2009 are closed to audit, except for the pending application of legal principles to specific issues arising in earlier years. Other significant jurisdictions in which we have, or have recently completed, tax examinations include France, closed through the end

of 2012, Germany closed through the end of 2011 and except for an item under appeal the U.K. is closed through the end of 2011. We have other less significant tax fillings currently subject to examination.

PITNEY BOWES INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited; table amounts in thousands unless otherwise noted, except per share amounts)

12. Noncontrolling Interests (Preferred Stockholders' Equity in Subsidiaries)

Pitney Bowes International Holdings, Inc. (PBIH), a subsidiary of the Company, has 300,000 shares of outstanding perpetual voting preferred stock valued at \$300 million held by certain institutional investors (PBIH Preferred Stock). The holders of PBIH Preferred Stock are entitled as a group to 25% of the combined voting power of all classes of capital stock of PBIH. All outstanding common stock of PBIH, representing the remaining 75% of the combined voting power of all classes of capital stock, is owned directly or indirectly by the Company. The PBIH Preferred Stock is entitled to cumulative dividends at a rate of 6.125% through April 30, 2016. Commencing October 30, 2016, the PBIH Preferred Stock is redeemable, in whole or in part, at the option of PBIH. If the PBIH Preferred Stock is not redeemed in whole on October 30, 2016, the dividend rate increases 50% and will increase 50% every six months thereafter. No dividends were in arrears at March 31, 2016 or December 31, 2015.

13. Commitments and Contingencies

In the ordinary course of business, we are routinely defendants in, or party to a number of pending and threatened legal actions. These may involve litigation by or against us relating to, among other things, contractual rights under vendor, insurance or other contracts; intellectual property or patent rights; equipment, service, payment or other disputes with clients; or disputes with employees. Some of these actions may be brought as a purported class action on behalf of a purported class of employees, customers or others. In management's opinion, the potential liability, if any, that may result from these actions, either individually or collectively, is not reasonably expected to have a material effect on our financial position, results of operations or cash flows. However, as litigation is inherently unpredictable, there can be no assurances in this regard.

14. Stockholders' Equity

Changes in stockholders' equity for the three months ended March 31, 2016 and 2015 were as follows:

	Preferred stock	Preference stock	Common stock	Additional paid-in capital	Retained earnings	Accumulated other comprehensive loss	Treasury stock	Total equity

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations
Forward-Looking Statements

This Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) contains statements that are forward-looking. We want to caution readers that any forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 may change based on various factors. These forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties and actual results could differ materially. Words such as "estimate," "target," "project," "plan," "believe," "expect," "anticipate," "intend" and similar expressions may identify such forward-looking statements. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Factors which could cause future financial performance to differ materially from the expectations as expressed in any forward-looking statement made by or on our behalf include, without limitation:

- declining physical mail volumes
- competitive factors, including pricing pressures, technological developments and introduction of new products and services by competitors
- our success in developing new products and services, including digital-based products and services, obtaining regulatory approval if required, and the market's acceptance of these new products and services
- our ability to successfully implement and transition to a new Enterprise Resource Planning (ERP) system without significant disruption to existing operations
- the success of our investment in rebranding the company, including advertising, to build market awareness and create new demand for our businesses
- changes in postal or banking regulations
- macroeconomic factors, including global and regional business conditions that adversely impact customer demand, access to capital markets at reasonable costs, changes in interest rates, foreign currency exchange rates and fuel prices
- the continued availability and security of key information systems and the cost to comply with information security requirements and privacy laws
- third-party suppliers' ability to provide product components, assemblies or inventories
- our success at managing the relationships with our outsource providers, including the costs of outsourcing functions and operations not central to our business
- the loss of some of our larger clients in the Global Ecommerce segment
- integrating newly acquired businesses including operations and product and service offerings
- intellectual property infringement claims
- our success at managing customer credit risk
 - significant changes in pension, health care and retiree medical costs
- income tax adjustments or other regulatory levies for prior audit years and changes in tax laws, rulings or regulations
- a disruption of our businesses due to changes in international or national political conditions, including the use of the mail for transmitting harmful biological agents or other terrorist attacks
- acts of nature

Overview

During the first quarter we continued to execute on our strategic priorities to stabilize and reinvent our mail business, drive operational excellence and grow our business through digital commerce. We acquired a software-as-a-service enterprise retail and fulfillment solutions company and exited certain geographic markets as part of our initiative to simplify our geographic footprint. We also launched a new advertising campaign and worked to implement our new global enterprise resource planning (ERP) system for our U.S. businesses while continuing to work to reduce costs globally.

The U.S. dollar remained strong against other currencies during the quarter, which adversely affected our reported revenues and profitability, both from a translation perspective and a competitive perspective. The cost of our international competitors' products and solutions improved relative to products and solutions manufactured or sold from the U.S. The current strength of the U.S. dollar relative to other currencies also affected demand for U.S. goods sold to consumers in other countries through our global ecommerce operations.

Financial Highlights for First Quarter 2016 compared to First Quarter 2015

Revenue for the first quarter of 2016 decreased 5% to \$845 million compared to \$891 million in the first quarter of 2015. Of this decrease, 1% is attributable to foreign currency translation and 1% from the exit of direct operations in Mexico, South Africa and five markets in Asia (Market Exits), which occurred during the first quarter of 2016 and fourth quarter of 2015.

Equipment sales declined 4% (1% from foreign currency translation, 2% from Market Exits), software declined 10% (3% from foreign currency translation), rentals revenue declined 9% (1% from foreign currency translation), financing revenue declined 8% (1% from foreign currency translation) and support services declined 8% (2% from foreign currency translation, 1% from Market Exits).

Small & Medium Business Solutions revenue decreased 5%. North America Mailing revenue was down 3% and International Mailing revenue was down 11% (4% from foreign currency translation and 2% from Market Exits).

Enterprise Business Solutions revenue decreased 3%. Production Mail decreased 12% (1% from foreign currency translation and 3% from Market Exits) and Presort Services increased 5%.

Digital Commerce Solutions revenue increased 9%. Software Solutions decreased 10% (3% from foreign currency translation) and Global Ecommerce increased 30% primarily due to expansion of our retail network, including the acquisition of Borderfree.

Revenue was negatively impacted by the absence of revenue from the 2015 sale of Imagitas.

Net income and diluted earnings per share from continuing operations for the first quarter of 2016 were \$58 million and \$0.30, respectively, compared to \$80 million and \$0.40, respectively, in 2015. The decreases were driven primarily by:

- The decline in revenue;
- Incremental costs related to our advertising campaign and new ERP system;
- The absence of earnings from the 2015 sale of Imagitas;
- Incremental expenses associated with Borderfree; and
- Disposition costs associated with the exit of certain geographic markets during the first quarter of 2016.

Cash and Cash Equivalents decreased \$38 million during the first quarter of 2016. In the quarter we:

- Generated cash from operations of \$58 million;
- Acquired Enroute for \$14 million;
- Paid dividends of \$36 million to our common stockholders;
- Spent \$128 million repurchasing our common stock; and
- Increased net borrowings by approximately \$100 million.

Outlook

During the first quarter of 2016, we continued experiencing the effects of a strong U.S. dollar. A continuing strong U.S. dollar for the remainder of the year could adversely affect our reported revenues and profitability, both from a translation perspective and a competitive perspective, as the cost of international competitors' products and solutions improves relative to our products and solutions sold from the U.S. A dollar that remains strong could also continue to affect demand for U.S. goods sold to consumers in other countries through our global ecommerce operations.

During the remainder of 2016, we will continue to invest in the implementation of our new ERP system and advertising campaign. We anticipate continued benefits from our restructuring actions, synergies from acquisitions, benefits from our go-to-market strategy in major markets and from the implementation of the new ERP system. We will continue to introduce new products and solutions across all of our businesses. In April, we launched our Pitney Bowes Commerce Cloud that will help our clients identify customers, locate new sales opportunities, enable communications with their existing and prospective customers, power shipping globally and manage payments for mailing and shipping.

In February 2016, we received authorization to repurchase an additional \$150 million of our common stock and expect to repurchase up to \$215 million of our common stock during 2016.

Within SMB Solutions, we expect the introduction of new solutions and services to help further stabilize revenue. Internationally, the implementation of our go-to-market strategy is now complete in our major markets and, as a result, we expect stabilizing trends in those markets.

Within Enterprise Business Solutions, we expect continued revenue and profitability growth in Presort Services due to client expansion and higher processed mail volumes; however, we anticipate that Production Mail revenue growth will be challenged by changes in the overall market and declining services revenue.

Within DCS, we anticipate future increased demand in Software Solutions due to expansion of our partner channel, improved sales efficiencies, new industry-specific solutions and the transition and training of a new sales group within the organization. We anticipate revenue growth in Global Ecommerce from our market place relationships, retail business and continued demand for our shipping solutions driven by new client acquisitions and expanded services.

RESULTS OF OPERATIONS

Revenue by source and the related cost of revenue are shown in the following tables:

	Three Months Ended March 31,		
	2016	2015	% change
Equipment sales	\$ 159,361	\$ 165,964	(4)%
Supplies	72,051	73,368	(2)%

Cost of rentals	20,495	20,701	19.7 %	18.2 %
Financing interest expense	14,915	18,770	15.3 %	17.8 %
Cost of support services	75,249	83,599	58.7 %	59.9 %
Cost of business services	135,538	139,919	66.0 %	68.0 %
Total cost of revenue	\$ 365,241	\$ 390,525	43.2 %	43.8 %

Revenue and Cost of Revenues - First Quarter 2016 compared to First Quarter 2015

Equipment sales

Equipment sales revenue decreased 4% in the quarter. Excluding unfavorable impacts from foreign currency translation of 1% and Market Exits of 2%, revenue decreased 1% primarily due to:

3% from lower installations of production mail inserter equipment mainly in the U.S. and U.K.; and

1% from lower mailing equipment sales internationally primarily in the U.K. and Nordics.

Partially offsetting the above decreases, was a 3% increase from North America mailing equipment sales growth of 5% due to improved go-to-market initiatives.

Cost of equipment sales as a percentage of equipment sales for the quarter improved to 44.9% primarily due to product mix.

Supplies

Supplies revenue decreased 2% in the quarter driven by unfavorable foreign currency translation.

Cost of supplies as a percentage of supplies revenue for the quarter improved to 28.7% primarily due to a greater mix of higher margin core supplies sales.

Software

Software revenue decreased 10% in the quarter. Excluding unfavorable impacts from foreign currency translation of 3%, revenue decreased 7%, primarily due to:

5% from lower worldwide licensing revenue reflecting fewer large licensing deals; and

1% from lower data revenue.

Cost of software as a percentage of software revenue for the quarter remained relatively flat at 34.4% compared to the prior year.

Rentals

Rentals revenue decreased 9% in the quarter. Excluding unfavorable impacts from foreign currency translation of 1%, rentals revenue decreased 8%. Of this decrease, 7% is attributable to our worldwide mailing businesses primarily due to the decline in the number of installed meters as well as a shift by certain customers to less-featured, lower cost machines.

Cost of rentals as a percentage of rentals revenue increased to 19.7% primarily due to product mix.

Financing

Financing revenue decreased 8% in the quarter. Excluding unfavorable impacts from foreign currency translation of 1%, revenue decreased 7%. Of this decrease, 6% is attributable to our worldwide mailing businesses primarily due to lower equipment sales in prior periods and a declining lease portfolio.

We allocate a portion of our total cost of borrowing to financing interest expense. In computing financing interest expense, we assume an 8:1 debt to equity leverage ratio (10:1 in 2015) and apply our overall effective interest rate to the average outstanding finance receivables.

Financing interest expense as a percentage of financing revenue decreased to 15.3% due to lower average outstanding finance receivables, a decrease in the effective interest rate and the change in the debt to equity leverage ratio.

Support Services

Support services revenue decreased 8% in the quarter. Excluding unfavorable impacts from foreign currency translation of 2% and Market Exits of 1%, revenue decreased 5% primarily due to:

4% from our worldwide mailing businesses driven by a lower number of mailing machines in service and a shift to less-featured, lower cost machines; and

1% from our production mail business reflecting lower maintenance revenue on production mail equipment as some in-house mailers moved their mail processing to third-party service bureaus who service some of their own equipment.

Cost of support services as a percentage of support services revenue improved to 58.7% due to expense reductions and productivity initiatives.

Business Services

Business Services revenue remained flat in the quarter. The growth in Ecommerce retail and presort services were offset by the loss of revenue from Imagitas.

Cost of business services as a percentage of business services revenue improved to 66.0% primarily due to product mix.

Selling, general and administrative (SG&A)

SG&A expense increased 4% in the quarter to \$327 million due to additional expenses of \$12 million for advertising and our ERP program, \$4 million of amortization expense related to the acquisition of Borderfree (see Note 6 to the Condensed Consolidated Financial Statements), and \$3 million related to the exit of certain geographic markets during the first quarter of 2016. Productivity initiatives and a \$10 million loan forgiveness related to a State of Connecticut development loan (see Note 9 to the Condensed Consolidated Financial Statements) partially offset the increases in expenses. Additionally, foreign currency translation reduced SG&A expense by \$4 million.

Income taxes

See Note 11 to the Condensed Consolidated Financial Statements.

Preferred stock dividends attributable to noncontrolling interests

See Note 12 to the Condensed Consolidated Financial Statements.

Business segment results - First Quarter 2016 compared to First Quarter 2015

The principal products and services of each of our reportable segments are as follows:

Small & Medium Business Solutions:

North America Mailing: Includes the revenue and related expenses from the sale, rental, financing and servicing of mailing equipment, software and supplies for small and medium businesses to efficiently create physical and digital mail and evidence postage for the sending of mail, flats and parcels in the U.S. and Canada.

International Mailing: Includes the revenue and related expenses from the sale, rental, financing and servicing of mailing equipment, software and supplies for small and medium businesses to efficiently create physical and digital mail and evidence postage for the sending of mail, flats and parcels in areas outside the U.S. and Canada.

Enterprise Business Solutions:

Production Mail: Includes the worldwide revenue and related expenses from the sale of production mail inserting and sortation equipment, high-speed production print systems, supplies and related support services to large enterprise clients to process inbound and outbound mail.

Presort Services: Includes revenue and related expenses from presort mail services for our large enterprise clients to qualify large mail volumes for postal worksharing discounts.

Digital Commerce Solutions:

Software Solutions: Includes the worldwide revenue and related expenses from the licensing of non-equipment-based mailing, customer information management, location intelligence and customer engagement solutions and related support services.

Global Ecommerce: Includes the worldwide revenue and related expenses from shipping solutions and cross-border ecommerce.

We determine EBIT by deducting from segment revenue the related costs and expenses attributable to the segment. Segment EBIT excludes interest, taxes, general corporate expenses, restructuring charges that are not allocated to a particular business segment. Management uses segment EBIT to measure profitability and performance at the segment level. Management believes segment EBIT provides a useful measure of our operating performance and underlying trends of the businesses. Segment EBIT may not be indicative of our overall consolidated performance and therefore, should be read in conjunction with our consolidated results of operations. See Note 2 to the Condensed Consolidated Financial Statements for a reconciliation of segment EBIT to income from continuing operations before income taxes. Revenue and EBIT for the three months ended March 31, 2016 and 2015 by reportable segment are presented below:

	Revenue			EBIT		
	2016	2015	% change	2016	2015	% change
North America Mailing	\$ 349,726	\$ 361,874	(3)%	\$ 155,915	\$ 163,665	(5)%

32

Small & Medium Business Solutions

North America Mailing

North America Mailing revenue decreased 3% in the quarter primarily due to:

2% from lower rentals revenue and 1% from lower support services revenue, primarily reflecting continuing decline in installed meters and shift to lower cost less featured machines; and

2% from lower financing revenue primarily from declining equipment sales in prior periods.

The above decreases were partially offset by a 2% increase from higher sales of equipment and supplies.

EBIT decreased 5% in the quarter in the quarter compared to the prior year, primarily due to the decline in high margin recurring revenue streams.

International Mailing

International Mailing revenue decreased 11% in the quarter. Excluding unfavorable impacts from foreign currency translation of 4% and Market Exits of 2%, revenue decreased 5%, primarily due to:

2% from lower equipment sales driven by a combination of lower renewal opportunities in the U.K. and higher equipment sales in France and Germany as sales productivity increased following the full implementation of the go-to-market strategy; and

1% each from lower rental, supplies and support services revenue, due to lower installed meter base.

Despite the decrease in revenue, EBIT increased 1% in the quarter compared to the prior year, primarily due to benefits of productivity and go-to-market initiatives, partially offset by a shift in product mix.

Enterprise Business Solutions

Production Mail

Production Mail revenue decreased 12% in the quarter. Excluding the unfavorable impacts from foreign currency translation of 1% and Market Exits of 3%, revenue decreased 8%, primarily due to:

5% from lower equipment sales primarily resulting from lower installations of inserter equipment; and

2% from lower support services revenue as some in-house mailers moved their mail processing to third-party service bureaus who service some of their own equipment.

EBIT decreased 24% in the quarter compared to the prior year, primarily due to lower sales of high margin inserting equipment.

Presort Services

Presort Services revenue increased 5% in the quarter primarily due to:

Higher volumes of mail processed; and

New client acquisitions.

EBIT increased 5% in the quarter compared to the prior year, primarily due to the increase in revenue and benefits from ongoing operational productivity initiatives, partially offset by higher mail processing costs.

Digital Commerce Solutions

Software Solutions

Software Solutions revenue decreased 10% in the quarter. Excluding the unfavorable impacts from foreign currency translation of 3%, revenue decreased 7%, primarily due to:

5% from lower worldwide licensing revenue reflecting fewer large licensing deals; and

1% from lower data revenue.

EBIT in the quarter was a loss of \$3 million compared to earnings of \$4 million in the prior year primarily due to lower high-margin licensing revenue and higher selling and marketing costs.

Global Ecommerce

Global Ecommerce revenue increased 30% primarily due to:

34% from expansion of our retail network, including the acquisition of Borderfree; and
6% from growth in the U.K. cross-border marketplace.

The above increases were offset partially by a decrease of 8% related to the one-time recognition of deferred cross-border delivery fees in 2015 and 1% from lower volumes of packages shipped from our U.S. outbound cross-border service facility, which continue to be pressured by a strong U.S. dollar.

EBIT decreased \$7 million compared to the prior year primarily due to the recognition of \$6 million of deferred cross-border delivery fees in 2015.

Other

Other includes Imagitas, our Marketing Services business, which was sold in May 2015.

LIQUIDITY AND CAPITAL RESOURCES

We believe that existing cash and investments, cash generated from operations and borrowing capacity under our commercial paper program will be sufficient to support our current cash needs, including discretionary uses such as capital investments, dividends, strategic acquisitions and share repurchases. Cash and cash equivalents and short-term investments were \$735 million at March 31, 2016 and \$768 million at December 31, 2015. We continuously review our credit profile through published credit ratings and the credit default swap market. We also monitor the creditworthiness of those banks acting as derivative counterparties, depository banks or credit providers.

Cash and cash equivalents held by our foreign subsidiaries were \$445 million at March 31, 2016 and \$470 million at December 31, 2015. Cash and cash equivalents held by our foreign subsidiaries are generally used to support the liquidity needs of these subsidiaries. Most of these amounts could be repatriated to the U.S. but would be subject to additional taxes. Repatriation of some foreign balances is restricted by local laws.

Cash Flow Summary - First Quarter 2016 compared to First Quarter 2015

Changes in cash and cash equivalents for the three months ended March 31, 2016 and 2015 were as follows:

	2016	2015	Change
Net cash provided by operating activities	\$58	\$104	\$(46)
Net cash used in investing activities	(60)	(65)	5
Net cash used in financing activities	(56)	(212)	156
Effect of exchange rate changes on cash and cash equivalents	20	(35)	55
Change in cash and cash equivalents	\$(38)	\$(208)	\$170

Cash flows from operations decreased \$46 million, primarily due to:

Lower income;

Higher pension plan contributions primarily resulting from a \$36 million contribution to the U.K. pension plan;

Higher tax payments; and

Payments associated with the launch of the ERP system and new advertising campaign.

Partially offsetting the above uses of cash were lower employee-related and interest payments.

Cash flows used in investing activities decreased \$5 million, primarily due to:

Higher proceeds from the sale of investment securities of \$15 million and lower capital expenditures of \$3 million.

Partially offset by net cash paid to acquire Enroute of \$14 million.

Cash flows used in financing activities decreased \$156 million, primarily due to:

Higher net borrowings of \$283 million (we increased total debt by \$109 million in 2016 compared to a net debt reduction of \$174 million in 2015).

Partially offset by \$128 million for repurchases of our common stock in 2016.

Financings and Capitalization

We are a Well-Known Seasoned Issuer within the meaning of Rule 405 under the Securities Act, which allows us to issue debt securities, preferred stock, preference stock, common stock, purchase contracts, depositary shares, warrants and units in an expedited fashion. We have a commercial paper program that is an important source of liquidity for us and a committed credit facility of \$1 billion to support our commercial paper issuances. The credit facility expires in January 2020. We have not drawn upon the credit facility.

At March 31, 2016, there was \$270 million of outstanding commercial paper borrowings with an effective interest rate of 1.13%. During the first quarter of 2016, the average daily amount of outstanding commercial paper borrowings was \$192 million at a weighted-average interest rate of 1.04% and the maximum amount outstanding at any time during the quarter was \$305 million. At March 31, 2015, there was \$100 million of outstanding commercial paper borrowings at an effective interest rate of 0.54%.

In January 2016, we borrowed \$300 million under a term loan and used the proceeds to repay a portion of the \$371 million, 4.75% notes due January 15, 2016. The remaining portion of the loan was repaid using cash from operations. The new term loan bears interest at the applicable Eurodollar Rate plus 1.25% and matures in December 2020. The applicable Eurodollar Rate at March 31, 2016 was .62%.

In October 2014, we received a loan from the State of Connecticut Department of Economic and Community Development (CDECD). The loan consisted of a \$15 million development loan and \$1 million jobs-training grant that was subject to certain conditions being met. We satisfied the conditions related to the \$1 million jobs-training grant during 2015. The loan agreement provided that \$10 million of the loan would be forgiven if we satisfied certain employment obligations. In March 2016, we satisfied all criteria to receive the \$10 million of loan forgiveness and, as a result, recorded the loan forgiveness as reductions of debt and selling, general and administrative expenses. The loan forgiveness did not impact cash flow.

In October 2016, the \$300 million of outstanding Preferred Stock of one of our subsidiaries is redeemable at our option. If we do not redeem the Preferred Stock, the dividend rate increases 50% and will increase 50% every six months thereafter. We are currently evaluating various alternatives to redeem or refinance the Preferred Stock. See Note 12 to the Condensed Consolidated Financial Statements.

Dividends and Share Repurchases

Through the three months ended March 31, 2016, we paid dividends to our stockholders of \$36 million. Each quarter, our Board of Directors considers our recent and projected earnings and other capital needs and priorities in deciding whether to approve the payment, as well as the amount, of a dividend. There are no material restrictions on our ability to declare dividends.

During the first quarter, we spent \$128 million on the repurchase of our common shares. In February 2016, we received authorization to repurchase \$150 million of outstanding stock and at March 31, 2016, had remaining authorization to repurchase up to \$90 million of our common shares. We expect to repurchase up to \$215 million of our common stock during 2016.

Regulatory Matters

There have been no significant changes to the regulatory matters disclosed in our 2015 Annual Report.

Item 3: Quantitative and Qualitative Disclosures about Market Risk

There were no material changes to the disclosures made in the 2015 Annual Report.

Item 4: Controls and Procedures

Disclosure controls and procedures are designed to reasonably assure that information required to be disclosed in reports filed or submitted under the Securities Exchange Act of 1934, as amended (Exchange Act) is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures are also designed to reasonably assure that such information is accumulated and communicated to management, including our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), as appropriate to allow timely decisions regarding required disclosure.

Under the direction of our CEO and CFO, we evaluated our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Exchange Act) and internal control over financial reporting. Our CEO and CFO concluded that, as of the end of the period covered by this report, such disclosure controls and procedures were effective to ensure that information we are required to disclose in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Exchange Act. In addition, no changes in internal control over financial reporting occurred during the fiscal quarter covered by this report that have materially affected, or are reasonably likely to materially affect, such internal control over financial reporting. It should be noted that any system of controls is based in part upon certain assumptions designed to obtain reasonable (and not absolute) assurance as to its effectiveness, and there can be no assurance that any design will succeed in achieving its stated goals. Notwithstanding this caution, the CEO and CFO have reasonable assurance that the disclosure controls and procedures were effective as of March 31, 2016.

We acquired Borderfree in a purchase business combination on in June 2015 as described in Note 6 to our Condensed Consolidated Financial Statements included in our Annual Report to Stockholders on Form 10-K for the year ended December 31, 2015. We are in the process of reviewing and evaluating the business and internal controls and processes of Borderfree and are implementing our internal control structure over this acquired business.

PART II. OTHER INFORMATION

Item 1: Legal Proceedings

See Note 13 to the Condensed Consolidated Financial Statements.

Item 1A: Risk Factors

There were no material changes to the risk factors identified in our 2015 Annual Report.

Item 2: Unregistered Sales of Equity Securities and Use of Proceeds

Repurchases of Equity Securities

We periodically repurchase shares of our common stock to manage the dilution created by shares issued under employee stock plans and for other purposes in the open market. In February 2016, we received authorization from the Board of Directors to repurchase an additional \$150 million of our common stock. The following table provides information about our purchases of our common stock during the three months ended March 31, 2016:

	Total Number of shares purchased	Average price paid per share	Total Number of shares purchased as part of publicly announced plans or programs	Approximate dollar value of shares that may be purchased under the plans or programs (in thousands)
Beginning balance				\$64,567
January 1, 2016 - January 31, 2016	1,855,458	\$18.84	1,855,458	\$29,603
February 1, 2016 - February 29, 2016	3,031,111	\$17.31	3,031,111	\$127,129
March 1, 2016 - March 31, 2016	1,920,344	\$19.42	1,920,344	\$89,837
	6,806,913	\$18.32	6,806,913
