Notes to Consolidated Condensed Financial Statements
(Unaudited)

1. Organization and Business

Vail Resorts, Inc. (“Vail Resorts” or the “Parent Company”) is organized as a holding company and operates through various subsidiaries. Vail Resorts and its subsidiaries (collectively, the “Company”) currently operate in three business segments: Mountain, Lodging and Real Estate. In the Mountain segment, the Company owns and operates five world-class ski resort properties at the Vail, Breckenridge, Keystone and Beaver Creek mountain resorts in Colorado and the Heavenly Mountain Resort in the Lake Tahoe area of California and Nevada, as well as ancillary services, primarily including ski school, dining and retail/rental operations. These resorts operate primarily on Federal land under the terms of Special Use Permits granted by the USDA Forest Service (the “Forest Service”). The Company holds a 69.3% interest in SSI Venture, LLC (“SSV”), a retail/rental company. In the Lodging segment, the Company owns and/or manages a collection of luxury hotels under its RockResorts brand, as well as other strategic lodging properties and a large number of condominiums located in proximity to the Company’s ski resorts, the Grand Teton Lodge Company (“GTLC”), which operates three destination resorts at Grand Teton National Park (under a National Park Service concessionaire contract), Colorado Mountain Express (“CME”), a resort ground transportation company, and golf courses. Vail Resorts Development Company (“VRDC”), a wholly-owned subsidiary, conducts the operations of the Company’s Real Estate segment, which owns and develops real estate in and around the Company’s resort communities. The Company’s mountain business and its lodging properties at or around the Company’s ski resorts are seasonal in nature with peak operating seasons from mid-November through mid-April. The Company’s operations at GTLC and its golf courses generally operate from mid-May through mid-October. The Company also has non-majority owned investments in various other entities, some of which are consolidated (see Note 6, Variable Interest Entities).

2. Summary of Significant Accounting Policies

The Financial Accounting Standards Board (“FASB”) has established the FASB Accounting Standards Codification (“ASC”) as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the United States of America for financial statements of interim and annual periods ending after September 15, 2009. This standard does not alter current accounting principles generally accepted in the United States of America (“GAAP”), but rather integrates existing accounting standards with other authoritative guidance.

Basis of Presentation

Consolidated Condensed Financial Statements-- In the opinion of the Company, the accompanying Consolidated Condensed Financial Statements reflect all adjustments necessary to state fairly the Company's financial position, results of operations and cash flows for the interim periods presented. All such adjustments are of a normal recurring nature. Results for interim periods are not indicative of the results for the entire fiscal year. The accompanying Consolidated Condensed Financial Statements should be read in conjunction with the audited Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended July 31, 2009. Certain information and footnote disclosures, including significant accounting policies, normally included in fiscal year financial statements prepared in accordance with GAAP have been condensed or omitted. The July 31, 2009 Consolidated Condensed Balance Sheet was derived from audited financial statements.

Use of Estimates-- The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the balance sheet date and the reported amounts of revenue and expenses during the reporting

period. Actual results could differ from those estimates.

Noncontrolling Interests in Consolidated Financial Statements-- Effective August 1, 2009, the Company adopted Statement of Financial Accounting Standards (“SFAS”) No. 160, “Noncontrolling Interest in Consolidated Financial Statements – an Amendment of Accounting Research Bulletin No. 51” (“SFAS 160”). The guidance of this statement is now included in ASC Topic 810 “Consolidation.” This statement requires the presentation of net income or loss attributable to noncontrolling interests (previously referred to as minority interest) along with net income or loss attributable to the stockholders of the Company separately in its consolidated statement of operations. Additionally, noncontrolling interests in the consolidated subsidiaries of the Company are reported as a separate component of equity in the consolidated balance sheet, apart from the Company’s equity. However, redeemable noncontrolling interests in which the Company is subject to a put option under which it may be required to repurchase an interest in a consolidated subsidiary from a noncontrolling interest holder, must be classified outside of stockholders’ equity. Since the Company is subject to a put option with respect to SSV beginning August 1, 2010 and each year thereafter (see Note 8, Redeemable Noncontrolling Interest, of the Notes to Consolidated Condensed Financial Statements), the redeemable noncontrolling interest in SSV has been classified in the mezzanine section of the accompanying consolidated condensed balance sheets at the redemption value as prescribed in the SSV operating agreement at the end of each reporting period.

Upon adoption, the provisions of this statement have been applied to all noncontrolling interests prospectively, except for the presentation and disclosure requirements, which have been applied retrospectively for all periods presented. The retrospective impact of applying this guidance was a reclassification of \$15.4 million and \$25.5 million as of July 31, 2009 and January 31, 2009, respectively, of minority interest to redeemable noncontrolling interest, representing noncontrolling interest subject to the SSV put option, and a reduction in retained earnings of \$3.4 million as of January 31, 2009, representing the difference in the redemption value as of January 31, 2009 and the carrying value of the SSV noncontrolling interest. In addition, as of July 31, 2009 and January 31, 2010, the portion of noncontrolling interest, which is not subject to the SSV put option, has been reclassified as part of equity-noncontrolling interests. The following table summarizes the changes in total stockholders’ equity (in thousands):

	For the Six Months Ended January 31,					
	2010			2009		
	Vail Resorts Stockholders’ Equity	Noncontrolling Interests	Total Equity	Vail Resorts Stockholders’ Equity	Noncontrolling Interests	Total Equity

------------------------	----	---------	----	--------	----	---------	----	---------	----	-------	----	---------

Additionally, upon adoption of this statement, even though the Company's total provision (benefit) for income taxes did not change, the Company's effective tax rate calculation has changed because net income or loss attributable to noncontrolling interests is no longer included in the determination of pre-tax income or loss in calculating its effective tax rate.

Fair Value Instruments-- The recorded amounts for cash and cash equivalents, receivables, other current assets, and accounts payable and accrued liabilities approximate fair value due to their short-term nature. The fair value of amounts outstanding under the Employee Housing Bonds (Note 4, Long-Term Debt) approximate book value due to the variable nature of the interest rate associated with that debt. The fair value of the 6.75% Senior Subordinated Notes ("6.75%Notes") (Note 4, Long-Term Debt) is based on quoted market price. The fair value of the Company's Industrial Development Bonds (Note 4, Long-Term Debt) and other long-term debt have been estimated using discounted cash flow analyses based on current borrowing rates for debt with similar remaining maturities and ratings. The estimated fair value of the 6.75% Notes, Industrial Development Bonds and other long-term debt as of January 31, 2010 is presented below (in thousands):

	January 31, 2010	
	Carrying Value	Fair Value
6.75% Notes	\$390,000	\$387,075
Industrial Development Bonds	\$ 42,700	\$ 46,368
Other long-term debt	\$ 6,460	\$ 6,273

New Accounting Standards

Fair Value Measurements and Disclosures-- In September 2006, the FASB issued guidance which is included in ASC Topic 820, "Fair Value Measurements and Disclosures" (SFAS No. 157 "Fair Value Measurements") on fair value measurements and disclosures. This standard defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. The fair value guidance in this standard for financial assets and liabilities was effective for the Company on August 1, 2008. The Company adopted the guidance for nonfinancial assets and liabilities on August 1, 2009 and the provisions did not have a material impact on the Company's financial position or results of operations.

Business Combinations-- In December 2007, the FASB issued guidance which is included in ASC Topic 805, "Business Combinations" (SFAS No. 141R, "Business Combinations") which establishes principles and requirements on how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in an acquiree, including the recognition and measurement of goodwill acquired in a business combination. This standard also requires acquisition-related transaction expenses and restructuring costs be expensed as incurred rather than capitalized as a component of the business combination. The guidance was effective for the Company on August 1, 2009 and will be applied prospectively to business combinations.

Amendments to FASB Interpretation, Consolidation of Variable Interest Entities-- In June 2009, the FASB issued guidance which is included in ASC 810, "Consolidation" (SFAS 167 "Amendments to FASB No. 46(R)") which amends the consolidation guidance for variable interest entities. Under this new standard, entities must perform a qualitative assessment in determining the primary beneficiary of a variable interest entity which includes, among other things, consideration as to whether a variable interest holder has the power to direct the activities that most significantly impact the economic performance of the variable interest entity and the obligation to absorb losses or the right to

Edgar Filing: VAIL RESORTS INC - Form 10-Q

receive benefits of the variable interest entity that could potentially be significant to the variable interest entity. This standard is effective for the Company beginning August 1, 2010 (the Company's fiscal year ending July 31, 2011). The Company is currently evaluating the impacts, if any, the adoption of this new standard will have on the Company's financial position or results of operations.

Revenue Recognition Guidance for Arrangements with Multiple Deliverables-- In September 2009, the FASB issued Accounting Standards Update ("ASU") 2009-13, "Multiple-Deliverables Revenue Arrangements" (amendments to ASC Topic 605, "Revenue Recognition," and the Emerging Issues Task Force Issue No. 08-01 "Revenue Arrangements with Multiple Deliverables") which amends the revenue recognition guidance for arrangements with multiple deliverables. This new standard requires entities to allocate revenue in arrangements with multiple deliverables using estimated selling prices and eliminates the use of the residual method. The provisions of this new standard are effective for the Company beginning August 1, 2010 (the Company's fiscal year ending July 31, 2011); however, early adoption is permitted. The Company is currently evaluating the impacts, if any, the adoption of this new standard will have on the Company's financial position or results of operations.

3. Net Income (Loss) Per Common Share

Basic earnings per share ("EPS") excludes dilution and is computed by dividing net income (loss) attributable to Vail Resorts stockholders by the weighted-average shares outstanding during the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised, resulting in the issuance of shares of common stock that would then share in the earnings of Vail Resorts. Presented below is basic and diluted EPS for the three months ended January 31, 2010 and 2009 (in thousands, except per share amounts):

	Three Months Ended January 31,			
	2010		2009	
	Basic	Diluted	Basic	Diluted
Net income per share:				
Net income attributable to Vail Resorts	\$ 40,690	\$ 40,690	\$ 60,545	\$ 60,545
Weighted-average shares outstanding	36,245	36,245	36,570	36,570
Effect of dilutive securities	--	509	--	93
Total shares	36,245	36,754	36,570	36,663
Net income per share attributable to Vail Resorts	\$ 1.12	\$ 1.11	\$ 1.66	\$ 1.65

The number of shares issuable on the exercise of share based awards that were excluded from the calculation of diluted net income per share because the effect of their inclusion would have been anti-dilutive totaled 31,000 and 438,000 for the three months ended January 31, 2010 and 2009, respectively.

Presented below is basic and diluted EPS for the six months ended January 31, 2010 and 2009 (in thousands, except per share amounts):

6. Variable Interest Entities

The Company is the primary beneficiary of four employee housing entities (collectively, the “Employee Housing Entities”), Breckenridge Terrace, LLC, The Tarnes at BC, LLC, BC Housing, LLC and Tenderfoot Seasonal Housing, LLC, which are Variable Interest Entities (“VIEs”), and has consolidated them in its Consolidated Condensed Financial Statements. As a group, as of January 31, 2010, the Employee Housing Entities had total assets of \$34.8 million (primarily recorded in property, plant and equipment, net) and total liabilities of \$62.4 million (primarily recorded in long-term debt as “Employee Housing Bonds”). The Company’s lenders have issued letters of credit totaling \$53.4 million under the Company’s senior credit facility (the “Credit Facility”) related to Employee Housing Bonds. Payments under the letters of credit would be triggered in the event that one of the entities defaults on required payments. The

letters of credit have no default provisions.

The Company is the primary beneficiary of Avon Partners II, LLC (“APII”), which is a VIE. APII owns commercial space and the Company currently leases substantially all of that space. APII had total assets of \$5.5 million (primarily recorded in property, plant and equipment, net) and no debt as of January 31, 2010.

The Company, through various lodging subsidiaries, manages hotels in which the Company has no ownership interest in the entities that own such hotels. The Company has extended a \$2.0 million note receivable to one of these entities. These entities were formed by unrelated third parties to acquire, own, operate and realize the value in resort hotel properties. The Company managed the day-to-day operations of seven hotel properties as of January 31, 2010. The Company has determined that the entities that own the hotel properties are VIEs, and the management contracts are significant variable interests in these VIEs. The Company has also determined that it is not the primary beneficiary of these entities and, accordingly, is not required to consolidate any of these entities. Based upon the latest information provided by these third party entities, these VIEs had estimated total assets of approximately \$229 million and total liabilities of approximately \$151 million. The Company's maximum exposure to loss as a result of its involvement with these VIEs is limited to a \$2.4 million note receivable including accrued interest from one of the third parties and the net book value of the intangible asset associated with a management agreement in the amount of \$0.6 million as of January 31, 2010.

7. Fair Value Measurements

The FASB issued fair value guidance that establishes how reporting entities should measure fair value for measurement and disclosure purposes. The guidance establishes a common definition of fair value applicable to all assets and liabilities measured at fair value and prioritizes the inputs into valuation techniques used to measure fair value. Accordingly, the Company uses valuation techniques which maximize the use of observable inputs and minimize the use of unobservable inputs when determining fair value. The three levels of the hierarchy are as follows:

Level 1: Inputs that reflect unadjusted quoted prices in active markets that are accessible to the Company for identical assets or liabilities;

Level 2: Inputs include quoted prices for similar assets and liabilities in active and inactive markets or that are observable for the asset or liability either directly or indirectly; and

Level 3: Unobservable inputs which are supported by little or no market activity.

The table below summarizes the Company’s cash equivalents measured at fair value (all other assets and liabilities measured at fair value are immaterial) (in thousands):

Fair Value Measurements at Reporting Date Using	January 31, 2010	July 31, 2009	January 31, 2009
Level 1	\$ 8,698	\$ 47,915	\$ 93,036
Level 2	300	13,300	18,500
Level 3	--	--	--
Total	\$ 8,998	\$ 61,215	\$ 111,536

The Company’s cash equivalents include money market funds, U.S. government debt securities and time deposits.

8. Redeemable Noncontrolling Interest

The Company holds an approximate 69.3% ownership interest in SSV. Additionally, the Company holds call rights and GSSI LLC (“GSSI”), the noncontrolling interest holder in SSV, holds put rights for the remaining interest in SSV beginning August 1, 2010, as further discussed below, and GSSI has a management agreement which extends to coincide with the exercise of the put and call rights.

The Company’s and GSSI’s put and call rights are as follows: (i) beginning August 1, 2010 and each year thereafter, each of the Company and GSSI has the right to call or put, respectively, 100% of GSSI’s ownership interest in SSV to the Company during certain periods each year and (ii) GSSI has the right to put to the Company 100% of its ownership interest in SSV at any time after GSSI has been removed as manager of SSV or after an involuntary transfer of the Company’s ownership interest in SSV has occurred. The put and call pricing is generally based on a multiple of the trailing twelve month EBITDA (as defined in the operating agreement) of SSV for the fiscal period ended prior to the commencement of the put or call period, as applicable.

Since GSSI’s remaining interest in SSV has a redemption feature, as a result of the put option, the Company has classified the redeemable noncontrolling interest in SSV in the mezzanine section in the Consolidated Condensed Balance Sheets, outside of stockholders’ equity. The Company has recorded the redeemable noncontrolling interest at the redemption value as prescribed in the operating agreement at the end of each reporting period. At the end of each reporting period if the redemption value is below the carrying value of the noncontrolling interest, the difference is recorded in noncontrolling interests as a component of stockholders’ equity; however, if the redemption value exceeds the carrying value of the noncontrolling interest the difference is recorded in retained earnings. As of January 31, 2010, July 31, 2009 and January 31, 2009, the redemption value of the put/call option for the remaining noncontrolling interest was \$21.3 million, \$15.4 million and \$ 25.5 million, respectively.

9. Commitments and Contingencies

Metropolitan Districts

The Company credit-enhances \$8.5 million of bonds issued by Holland Creek Metropolitan District (“HCMD”) through an \$8.6 million letter of credit issued under the Company’s Credit Facility. HCMD’s bonds were issued and used to build infrastructure associated with the Company’s Red Sky Ranch residential development. The Company has agreed to pay capital improvement fees to Red Sky Ranch Metropolitan District (“RSRMD”) until RSRMD’s revenue streams from property taxes are sufficient to meet debt service requirements under HCMD’s bonds, and the Company has recorded a liability of \$1.8 million, \$1.9 million and \$1.5 million, primarily within “other long-term liabilities” in the accompanying Consolidated Condensed Balance Sheets, as of January 31, 2010, July 31, 2009 and January 31, 2009, respectively, with respect to the estimated present value of future RSRMD capital improvement fees. The Company estimates that it will make capital improvement fee payments under this arrangement through the year ending July 31, 2028.

Guarantees

As of January 31, 2010, the Company had various other letters of credit in the amount of \$85.3 million, consisting primarily of \$53.4 million in support of the Employee Housing Bonds, \$25.8 million of construction and development related guarantees and \$5.3 million for workers’ compensation and general liability deductibles related to construction and development activities.

In addition to the guarantees noted above, the Company has entered into contracts in the normal course of business which include certain indemnifications under which it could be required to make payments to third parties upon the occurrence or non-occurrence of certain future events. These indemnities include indemnities to licensees in connection with the licensees’ use of the Company’s trademarks and logos, indemnities for liabilities associated with the infringement of other parties’ technology and software products, indemnities related to liabilities associated with the use of easements, indemnities related to employment of contract workers, the Company’s use of trustees,

indemnities related to the Company's use of public lands and environmental indemnifications. The duration of these indemnities generally is indefinite and generally do not limit the future payments the Company could be obligated to make.

As permitted under applicable law, the Company and certain of its subsidiaries indemnify their directors and officers over their lifetimes for certain events or occurrences while the officer or director is, or was, serving the Company or its subsidiaries in such a capacity. The maximum potential amount of future payments the Company could be required to make under these indemnification agreements is unlimited; however, the Company has a director and officer insurance policy that should enable the Company to recover a portion of any future amounts paid.

Unless otherwise noted, the Company has not recorded any significant liabilities for the letters of credit, indemnities and other guarantees noted above in the accompanying Consolidated Condensed Financial Statements, either because the Company has recorded on its Consolidated Condensed Balance Sheets the underlying liability associated with the guarantee, the guarantee is with respect to the Company's own performance and is therefore not subject to the measurement requirements as prescribed by GAAP, or because the Company has calculated the fair value of the indemnification or guarantee to be immaterial based upon the current facts and circumstances that would trigger a payment under the indemnification clause. In addition, with respect to certain indemnifications it is not possible to determine the maximum potential amount of liability under these guarantees due to the unique set of facts and circumstances that are likely to be involved in each particular claim and indemnification provision. Historically, payments made by the Company under these obligations have not been material.

As noted above, the Company makes certain indemnifications to licensees in connection with their use of the Company's trademarks and logos. The Company does not record any liabilities with respect to these indemnifications.

Self Insurance

The Company is self-insured for claims under its health benefit plans and for the majority of workers' compensation claims, subject to a stop loss policy. The self-insurance liability related to workers' compensation is determined actuarially based on claims filed. The self-insurance liability related to claims under the Company's health benefit plans is determined based on analysis of actual claims. The amounts related to these claims are included as a component of accrued benefits in accounts payable and accrued liabilities (see Note 5, Supplementary Balance Sheet Information).

Legal

The Company is a party to various lawsuits arising in the ordinary course of business. Management believes the Company has adequate insurance coverage or has accrued for loss contingencies for all known matters that are deemed to be probable losses and estimable. As of January 31, 2010, July 31, 2009 and January 31, 2009 the accrual for the above loss contingencies was not material individually and in the aggregate.

10. Segment Information

The Company has three reportable segments: Mountain, Lodging and Real Estate. The Mountain segment includes the operations of the Company's ski resorts and related ancillary services. The Lodging segment includes the operations of all of the Company's owned hotels, RockResorts, GTLC, condominium management, CME and golf operations. The Real Estate segment owns and develops real estate in and around the Company's resort communities. The Company's reportable segments, although integral to the success of the others, offer distinctly different products and services and require different types of management focus. As such, these segments are managed separately.

Edgar Filing: VAIL RESORTS INC - Form 10-Q

The Company reports its segment results using Reported EBITDA (defined as segment net revenue less segment operating expenses, plus or minus segment equity investment income or loss and for the Real Estate segment plus gain on sale of real property), which is a non-GAAP financial measure. The Company reports segment results in a manner consistent with management's internal reporting of operating results to the chief operating decision maker (Chief Executive Officer) for purposes of evaluating segment performance.

Reported EBITDA is not a measure of financial performance under GAAP. Items excluded from Reported EBITDA are significant components in understanding and assessing financial performance. Reported EBITDA should not be considered in isolation or as an alternative to, or substitute for, net income (loss), net change in cash and cash equivalents or other financial statement data presented in the Consolidated Condensed Financial Statements as indicators of financial performance or liquidity. Because Reported EBITDA is not a measurement determined in accordance with GAAP and thus is susceptible to varying calculations, Reported EBITDA as presented may not be comparable to other similarly titled measures of other companies.

The Company utilizes Reported EBITDA in evaluating performance of the Company and in allocating resources to its segments. Mountain Reported EBITDA consists of Mountain net revenue less Mountain operating expense plus or minus Mountain equity investment income or loss. Lodging Reported EBITDA consists of Lodging net revenue less Lodging operating expense. Real Estate Reported EBITDA consists of Real Estate net revenue less Real Estate operating expense plus gain on sale of real property. All segment expenses include an allocation of corporate administrative expense. Assets are not allocated between segments, or used to evaluate performance, except as shown in the table below.

Following is key financial information by reportable segment which is used by management in evaluating performance and allocating resources (in thousands):

11. Stock Repurchase Plan

On March 9, 2006, the Company's Board of Directors approved the repurchase of up to 3,000,000 shares of common stock and on July 16, 2008 approved an increase of the Company's common stock repurchase authorization by an additional 3,000,000 shares. The Company did not repurchase any shares of common stock during the three and six months ended January 31, 2010. Since inception of its stock repurchase plan through January 31, 2010, the Company has repurchased 3,878,535 shares at a cost of approximately \$147.8 million. As of January 31, 2010, 2,121,465 shares remained available to repurchase under the existing repurchase authorization. Shares of common stock purchased pursuant to the repurchase program will be held as treasury shares and may be used for the issuance of shares under the Company's employee share award plans.

12. Guarantor Subsidiaries and Non-Guarantor Subsidiaries

The Company's payment obligations under the 6.75% Notes (see Note 4, Long-Term Debt) are fully and unconditionally guaranteed on a joint and several, senior subordinated basis by substantially all of the Company's consolidated subsidiaries (collectively, and excluding Non-Guarantor Subsidiaries (as defined below), the "Guarantor Subsidiaries") except for Eagle Park Reservoir Company, Gros Ventre Utility Company, Mountain Thunder, Inc., SSV, Larkspur Restaurant & Bar, LLC, Gore Creek Place, LLC and certain other insignificant entities (together, the "Non-Guarantor Subsidiaries"). APII and the Employee Housing Entities are included with the Non-Guarantor Subsidiaries for purposes of the consolidated financial information, but are not considered subsidiaries under the indenture governing the 6.75% Notes.

Presented below is the consolidated financial information of the Parent Company, the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries. Financial information for the Non-Guarantor Subsidiaries is presented in the column titled "Other Subsidiaries." Balance sheets are presented as of January 31, 2010, July 31, 2009 and January 31, 2009. Statements of operations are presented for the three and six months ended January 31, 2010 and 2009. Statements of cash flows are presented for the six months ended January 31, 2010 and 2009.

Investments in subsidiaries are accounted for by the Parent Company and Guarantor Subsidiaries using the equity method of accounting. Net income (loss) of Guarantor and Non-Guarantor Subsidiaries is, therefore, reflected in the Parent Company's and Guarantor Subsidiaries' investments in and advances to (from) subsidiaries. Net income (loss) of the Guarantor and Non-Guarantor Subsidiaries is reflected in Parent Company and Guarantor Subsidiaries as equity

Edgar Filing: VAIL RESORTS INC - Form 10-Q

in income (loss) of consolidated subsidiaries. The elimination entries eliminate investments in Other Subsidiaries and intercompany balances and transactions for consolidated reporting purposes.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended July 31, 2009 ("Form 10-K") and the Consolidated Condensed Financial Statements as of January 31, 2010 and 2009 and for the three and six months then ended, included in Part I, Item 1 of this Form 10-Q, which provide additional information regarding the financial position, results of operations and cash flows of the Company. To the extent that the following Management's Discussion and Analysis contains statements which are not of a historical nature, such statements are forward-looking statements which involve risks and uncertainties. These risks include, but are not limited to those discussed in this Form 10-Q and in the Company's other filings with the Securities and Exchange Commission ("SEC"), including the risks described in Item 1A "Risk Factors" of Part I of the Form 10-K.

Management's Discussion and Analysis includes discussion of financial performance within each of the Company's segments. The Company has chosen to specifically include Reported EBITDA (defined as segment net revenue less segment operating expense, plus or minus segment equity investment income or loss and for the Real Estate segment plus gain on sale of real property) and Net Debt (defined as long-term debt plus long-term debt due within one year less cash and cash equivalents), in the following discussion because management considers these measurements to be significant indications of the Company's financial performance and available capital resources. Reported EBITDA and Net Debt are not measures of financial performance or liquidity under accounting principles generally accepted in the United States of America ("GAAP"). The Company utilizes Reported EBITDA in evaluating performance of the Company and in allocating resources to its segments. Refer to the end of the Results of Operations section for a reconciliation of Reported EBITDA to net income (loss) attributable to Vail Resorts, Inc. Management also believes that Net Debt is an important measurement as it is an indicator of the Company's ability to obtain additional capital resources for its future cash needs. Refer to the end of the Results of Operations section for a reconciliation of Net Debt.

Items excluded from Reported EBITDA and Net Debt are significant components in understanding and assessing financial performance or liquidity. Reported EBITDA and Net Debt should not be considered in isolation or as an alternative to, or substitute for, net income (loss), net change in cash and cash equivalents or other financial statement data presented in the Consolidated Condensed Financial Statements as indicators of financial performance or liquidity. Because Reported EBITDA and Net Debt are not measurements determined in accordance with GAAP and are thus susceptible to varying calculations, Reported EBITDA and Net Debt as presented may not be comparable to other similarly titled measures of other companies.

Overview

The Company's operations are grouped into three integrated and interdependent segments: Mountain, Lodging and Real Estate. Resort is the combination of the Mountain and Lodging segments.

Mountain Segment

The Mountain segment is comprised of the operations of five ski resort properties as well as ancillary services, primarily including ski school, dining and retail/rental operations. The Company's five ski resorts are typically open for business from mid-November through mid-April, which is the peak operating season for the Mountain segment. The Company's single largest source of Mountain segment revenue is the sale of lift tickets (including season passes), which represented approximately 50% and 49% of Mountain segment net revenue for the three months ended January 31, 2010 and 2009, respectively.

Lift ticket revenue is driven by volume and pricing. Pricing is impacted by both absolute pricing as well as the demographic mix of guests, which impacts the price points at which various products are purchased. The demographic mix of guests is divided into two primary categories: (i) Destination guests and (ii) In-State guests. For the three months ended January 31, 2010, Destination guests comprised approximately 54% of the Company's skier visits, while In-State guests comprised approximately 46% of the Company's skier visits, which compares to approximately 52% and 48%, respectively, for the three months ended January 31, 2009.

Destination guests generally purchase the Company's higher-priced lift ticket products and utilize more ancillary services such as ski school, dining and retail/rental, as well as the lodging at or around the Company's resorts. Destination guest visitation is less likely to be impacted by changes in the weather due to the advance planning generally required for vacation trips, but can be more impacted by adverse economic conditions or the global geopolitical climate. In-State guests tend to be more value-oriented and weather sensitive. Prior to the 2008/2009 ski season, the Company primarily marketed season passes to In-State guests in an effort to offer a value option in turn for a commitment predominately prior to the beginning of the ski season by In-State guests to ski at the Company's resorts. This in turn has developed a loyal customer base that generally skis multiple days each season at the Company's resorts and provides a more stabilized stream of lift revenue to the Company. Given the success of In-State pass products, the Company introduced a new season pass product (the "Epic Season Pass") for the 2008/2009 ski season, marketed to its Destination guests (and also marketed to In-State guests) allowing pass holders unlimited and unrestricted access to all five of its ski resorts during the entire ski season. All of the Company's season pass products, including the Epic Season Pass, are sold predominately prior to the start of the ski season. Season pass revenue, although primarily collected prior to the ski season, is recognized in the Consolidated Condensed Statement of Operations ratably over the ski season. For the three months ended January 31, 2010 and 2009, approximately 40% and 39%, respectively, of the total lift revenue recognized was comprised of season pass revenue (of which revenue recognized represents approximately 52% of total season pass sales for each ski season; the remaining season pass sales will be recognized as lift ticket revenue in the Company's third fiscal quarter).

The cost structure of ski resort operations is primarily fixed, with variable expenses including, but not limited to, USDA Forest Service ("Forest Service") fees, credit card fees, retail/rental operations, ski school labor and dining operations; as such, profit margins can fluctuate greatly based on the level of revenues.

Lodging Segment

Operations within the Lodging segment include (i) ownership/management of a group of luxury hotels through the RockResorts brand, including several proximate to the Company's ski resorts; (ii) ownership/management of non-RockResorts branded hotels and condominiums proximate to the Company's ski resorts; (iii) Grand Teton Lodge Company ("GTLC"); (iv) Colorado Mountain Express ("CME"), a resort ground transportation company; and (v) golf courses.

Lodging properties (including managed condominium rooms) at or around the Company's ski resorts, and CME, are closely aligned with the performance of the Mountain segment and experience similar seasonal trends as the Mountain segment, particularly with respect to visitation by Destination guests. Lodging revenue from properties (including managed condominium rooms) at or around the Company's ski resorts, and CME, represented approximately 92% and 93% of Lodging segment revenue for the three months ended January 31, 2010 and 2009, respectively. Lodging segment revenue during the Company's first and fourth fiscal quarters is generated primarily by the operations of GTLC (as GTLC's operating season generally occurs from mid-May to mid-October), golf operations and seasonally low operations from the Company's other owned and managed properties.

Real Estate Segment

The Real Estate segment owns and develops real estate in and around the Company's resort communities and primarily engages in the vertical development of projects, as well as, occasionally the sale of land to third-party

developers, which often includes a contingent revenue structure based on the ultimate sale of the developed units. Revenue from vertical development projects is not recognized until closing of individual units within a project which occurs after substantial completion of the project. Contingent future profits from land sales, if any, are recognized only when received. The Company attempts to mitigate the risk of vertical development by often utilizing guaranteed maximum price construction contracts (although certain construction costs may not be covered by contractual limitations), pre-selling a portion of the project, requiring significant non-refundable deposits, and potentially obtaining non-recourse financing for certain projects. The Company's real estate development projects also may result in the creation of certain resort assets that provide additional benefit to the Mountain and Lodging segments. The Company's revenue from the Real Estate segment, and associated expense, fluctuate based upon the timing of closings and the type of real estate being sold, causing volatility in the Real Estate segment's operating results from period to period.

Recent Trends, Risks and Uncertainties

Together with those risk factors identified in the Company's Form 10-K, the Company's management has identified the following important factors (as well as risks and uncertainties associated with such factors) that could impact the Company's future financial performance or condition:

- The economic recession that has affected the U.S. and the global economy throughout calendar year 2009 and the uncertainty over its breadth, depth and duration have had a negative impact on overall trends in the travel and leisure industries and on the Company's results of operations. In this environment the Company's skier visitation and overall guest spend on ancillary services, including ski school, dining and retail/rental, has reflected declines for the periods including the 2009/2010 ski season to date through January 31, 2010 and the entire 2008/2009 ski season when compared to the similar periods of the previous two ski seasons prior to the economic recession. Additionally, the declines in skier visitation, in particular Destination guests, have negatively impacted occupancy at the Company's owned and managed lodging properties proximate to the Company's ski resorts. Furthermore, the Company continues to experience a change in booking trends such that guest reservations are being made much closer to the actual date of stay. The Company cannot predict the extent to which the effects of the current economic environment will continue, worsen or improve or the timing and nature of any changes to the macroeconomic environment, including the impact it may have on the Company's results of operations for the remaining 2009/2010 ski season.
- The timing and amount of snowfall can have an impact on Mountain and Lodging revenue particularly in regards to skier visits and the duration and frequency of guest visitation. To mitigate this impact, the Company focuses efforts on the sale of season passes prior to the beginning of the season to In-State guests and Destination guests. Additionally, the Company has invested in snowmaking upgrades in an effort to address the inconsistency of early season snowfall where possible. Snowfall, especially from the early season through mid January 2010, for the 2009/2010 ski season has been significantly lower than the historical average (with the exception of the Company's Heavenly resort), which the Company believes had a negative impact on visitation. The Company cannot predict the degree to which these snowfall trends will continue, or if snowfall will return to historical levels in similar future periods.
- The Company's season pass products provide a value option to its guests which in turn creates a guest commitment predominately prior to the start of the ski season resulting in a more stabilized stream of lift revenue for the Company. Total season pass sales (including the Epic Season Pass) increased by \$5.7 million as of January 31, 2010 for the 2009/2010 ski season over total season pass sales for the entire 2008/2009 ski season. Deferred revenue related to season pass sales was \$48.4 million as of January 31, 2010 (compared to \$45.9 million as of January 31, 2009) which will be recognized as lift revenue during the Company's third fiscal quarter ending April 30, 2010.
- Real Estate Reported EBITDA is highly dependent on, among other things, the timing of closings on real estate under contract, which determines when revenue and associated cost of sales is recognized. Changes to the anticipated timing or mix of closing on one or more real estate projects, or unit closings within a real estate project, could materially impact Real Estate Reported EBITDA for a particular fiscal quarter or fiscal year. The Company

has two real estate projects currently under development which are scheduled to be completed in the spring/summer of 2010 (One Ski Hill Place in Breckenridge) and the fall of 2010 (The Ritz-Carlton Residences, Vail) and expects to begin closing on units under contract beginning in the fourth quarter of fiscal 2010. The Company has increased risk associated with selling and closing real estate as a result of the continued instability in the capital and credit markets and slowdown in the overall real estate market, including the risk that certain buyers may be unable to close on their units due to a reduction in funds available to buyers and/or decreases in mortgage availability, as well as the potential of certain buyers being successful in seeking rescission of their contracts (see Part II Item 1. Legal Proceedings). As such, the Company cannot predict the ultimate number of units that it will sell and/or close, the ultimate price it will receive, or when the units will sell and/or close. Additionally, if a more severe prolonged economic downturn were to occur the Company may have to adjust its selling prices in an effort to sell and close on units currently under development, although it currently has no plans to do so.

- Over the past three years the Company's Real Estate segment results through July 31, 2009 have reflected the successful completion of several real estate projects including the Arrabelle at Vail Square, Vail's Front Door, Crystal Peak Lodge at Breckenridge, Gore Creek Place in Vail's Lionshead Village and Mountain Thunder in Breckenridge. Additionally, as mentioned above, the Company expects to complete One Ski Hill Place and The Ritz-Carlton Residences, Vail in the near future, of which revenue and profit from these projects are expected to be recognized beginning in the fourth quarter of fiscal year 2010 as units close. Although the Company continues to do planning and design work on future projects, it currently does not plan to undertake significant development activities on new projects until the current economic environment improves. The Company believes that due to its low carrying costs of real estate held for sale and investment combined with no third party debt being held associated with its real estate investments, that it is well situated to time the launch of future projects with a more favorable economic environment.
- The Company had \$58.0 million in cash and cash equivalents as of January 31, 2010 as well as \$308.1 million available under the revolver component of its senior credit facility (the "Credit Facility"). The Company plans to continue to self-fund its current real estate projects under construction (the Company estimates to incur between \$100 and \$120 million in cash expenditures subsequent to January 31, 2010 on the projects currently under construction) which has and may require the Company to borrow under the revolver component of its Credit Facility from time to time during fiscal 2010; however, the Company currently believes it has adequate capacity under its revolver to address potential borrowing needs, even in the event of a more sustained negative economic environment.
- Under GAAP, the Company is required to test goodwill for impairment annually, which the Company does so during the fourth quarter of each fiscal year. The Company evaluates the recoverability of its goodwill by estimating the future discounted cash flows of its reporting units and terminal values of the businesses using projected future levels of income as well as business trends, prospects and market and economic conditions. The Company evaluates the recoverability of indefinite-lived intangible assets using the income approach based upon estimated future revenue streams. The Company's fiscal 2009 annual impairment test did not result in a goodwill or indefinite-lived intangible asset impairment, however, if a more severe prolonged economic downturn were to occur it could cause less than expected growth and/or reduction in terminal values of the Company's reporting units which may result in a goodwill and/or indefinite-lived intangible asset impairment charge.

Total Mountain Reported EBITDA includes \$1.3 million and \$1.1 million of stock-based compensation expense for the three months ended January 31, 2010 and 2009, respectively.

Lift revenue increased \$2.4 million, or 1.9%, for the three months ended January 31, 2010 compared to the same period in the prior year, primarily due to a \$3.1 million, or 6.2%, increase in season pass revenue, partially offset by a decrease in lift revenue excluding season passes of \$0.7 million, or 0.9%. The increase in season pass revenue was due to an increase in season pass units sold. Total skier visitation was up 0.1% with overall visitation for the four Colorado resorts (excluding Heavenly) being down 1.6%. The four Colorado resorts were negatively impacted by significantly below average snowfall particularly in the early season up to mid-January 2010. Total skier visitation and to a lesser degree total lift revenue was favorably impacted by the timing of the current year quarter end compared to the prior year (the current year quarter ended on a Sunday versus the prior year quarter which ended on a Saturday). Despite the increase in season pass units sold, visitation for pass holders was relatively flat while visitation

Edgar Filing: VAIL RESORTS INC - Form 10-Q

excluding season pass holders was up slightly by 0.2%, as season pass holder visitation was impacted more by the earlier season historically low snowfall levels at the Company's Colorado resorts. In addition, ETP growth of 1.7% was driven by an increase in season pass revenue when combined with a decline in the average number of days skied by passholders, partially offset by a decline of 1.1% in ETP excluding season pass products.

Ski school revenue increased \$1.1 million, or 3.8%, in the three months ended January 31, 2010 compared to the same period in the prior year primarily due to a 3.7% increase in yield per skier visit as both group and private lessons benefited from higher guest spend and were also favorably impacted by new programs being offered in ski school this year. Dining revenue decreased \$0.5 million, or 2.4%, in the three months ended January 31, 2010 compared to the same period in the prior year, due to an approximate 5.6% decrease in the number of total on-mountain food and beverage transactions partially offset by a 4.2% increase in revenue per transaction. Dining operations were impacted by the significantly lower than average early season snowfall which resulted in delays in the opening of certain on-mountain dining venues. Additionally, fine dining was down approximately 4.4% driven by lower revenue per transaction. Revenue from retail/rental operations increased \$1.8 million, or 3.0%, primarily due to higher retail sales and rental volumes at the Company's Vail and Breckenridge mountain resort stores and San Francisco Bay area stores.

Other revenue mainly consists of private club revenue (which includes both club dues and amortization of initiation fees), other mountain activities revenue, marketing revenue, commercial leasing revenue, employee housing revenue, municipal services revenue and other recreation activity revenue. For the three months ended January 31, 2010 other revenues decreased \$2.3 million, or 9.9%, compared to the three months ended January 31, 2009, primarily due to a decrease in employee housing revenue especially at Breckenridge and Vail, strategic alliance marketing revenue and other revenue associated with parking and mountain ski area transportation services.

Operating expense decreased \$2.2 million, or 1.4%, during for the three months ended January 31, 2010 compared to the same period in the prior year. This decrease primarily resulted from a decrease in labor and labor-related benefits expense of \$2.0 million, or 3.3%, due to the impacts of cost reduction initiatives including the suspension of the Company's matching contribution to its 401(k) program effective January 2009 and a company-wide wage reduction plan implemented in April 2009 and lower workers' compensation costs; and a \$0.9 million, or 3.8%, decrease in retail cost of sales due to improved inventory management and lower average inventory costs resulting in improved gross margins. Additionally, other expenses decreased \$1.3 million, or 4.0%, due primarily to lower food and beverage cost of sales, supplies and fuel expense. All of the above decreases were partially offset by a \$2.0 million, or 8.1%, increase in general and administrative expenses primarily attributable to increased employee medical costs, as well as the timing of marketing spend, as more marketing expenditures occurred in the first quarter of the prior year as compared to the second quarter of the current year.

Mountain equity investment income primarily includes the Company's share of income from the operations of a real estate brokerage joint venture. The decrease in equity investment income for the three months ended January 31, 2010 compared to the three months ended January 31, 2009 is primarily due to decreased commissions earned by the brokerage due to a lower level of real estate closures primarily on multi-unit projects compared to the three months ended January 31, 2009.

Six months ended January 31, 2010 compared to the six months ended January 31, 2009

Total Mountain Reported EBITDA includes \$2.9 million and \$2.3 million of stock-based compensation expense for the six months ended January 31, 2010 and 2009, respectively.

As the Company's five ski resorts opened during the Company's second fiscal quarter, the results of the six months ended January 31, 2010 and 2009 for lift ticket revenue and ski school revenue are the same as the three months ended January 31, 2010 and 2009.

Dining revenue decreased \$1.0 million, or 3.9%, in the six months ended January 31, 2010 compared to the same period in the prior year, due to an approximate 5.3% decrease in the number of total on-mountain food and beverage transactions partially offset by an increase of 2.7% in revenue per transaction. Additionally, fine dining experienced a decrease of approximately 4.0% and 2.5% in the number of transactions and revenue per transaction, respectively. Revenue from retail/rental operations increased \$0.9 million, or 1.1%, primarily due to higher retail sales and rental volumes at the Company's Vail and Breckenridge mountain resort stores and San Francisco Bay area stores during the three months ended January 31, 2010 compared to the same period in the prior year.

Other revenue mainly consists of private club revenue (which includes both club dues and amortization of initiation fees), summer visitation and other mountain activities revenue, marketing revenue, commercial leasing revenue, employee housing revenue, municipal services revenue and other recreation activity revenue. For the six months ended January 31, 2010 other revenues decreased \$2.5 million, or 6.7%, compared to the six months ended January 31, 2009, primarily due to a decrease in employee housing revenue especially at Breckenridge and Vail, strategic alliance marketing revenue and other revenue associated with parking and mountain ski area transportation services, partially offset by an increase in private club operations resulting from the opening of the Vail Mountain Club in November 2008 and an increase in on-mountain summer activities in Breckenridge and Keystone as the prior year's on-mountain summer activities were negatively impacted by construction activities at the respective resorts. Operating expense decreased \$6.9 million, or 2.9%, for the six months ended January 31, 2010 compared to the same period in the prior year. This decrease primarily resulted from a decrease in labor and labor-related benefits expense of \$2.6 million, or 3.1%, due to the impacts of cost reduction initiatives including the suspension of the Company's matching contribution to its 401(k) program effective January 2009 and a company-wide wage reduction plan implemented in April 2009 and lower workers' compensation costs; and a \$1.6 million, or 4.3%, decrease in retail cost of sales due to improved inventory management and lower average inventory costs resulting in improved gross margins. Additionally, other expenses decreased \$2.1 million, or 3.9%, due primarily to lower food and beverage cost of sales, supplies, repairs and maintenance and fuel expense, partially offset by higher property taxes; and, general and administrative expenses decreased \$0.8 million, or 1.6%, primarily due to the timing of marketing spend and lower

employee housing costs, partially offset by higher employee medical costs.

Mountain equity investment income primarily includes the Company's share of income from the operations of a real estate brokerage joint venture. The decrease in equity investment income for the six months ended January 31, 2010 compared to the six months ended January 31, 2009 is primarily due to decreased commissions earned by the brokerage due to a lower level of real estate closures primarily on multi-unit projects compared to the six months ended January 31, 2009.

decrease in occupancy of 6.9 percentage points primarily due to significant declines in transient guest visitation. Revenue from managed condominium rooms decreased \$1.3 million, or 11.1%, for the three months ended January 31, 2010 compared to the three months ended January 31, 2009, primarily due to a decline in transient guest visitation at Keystone resulting in a decrease in revenue of \$0.7 million.

Dining revenue for the three months ended January 31, 2010 decreased \$0.5 million, or 9.4%, as compared to the three months ended January 31, 2009, mainly due to decreased occupancy and the temporary closing of one restaurant for renovation. Transportation revenue for the three months ended January 31, 2010 decreased \$0.2 million, or 2.5%, as compared to the three months ended January 31, 2009 primarily due to a slight decrease in revenue per passenger. Other revenue increased 0.2% due to an increase in revenue from managed properties.

Operating expense decreased \$0.9 million, or 2.3%, for the three months ended January 31, 2010 compared to the three months ended January 31, 2009, primarily due to (i) a decrease in labor and labor-related benefits of \$2.0 million, or 9.6%, primarily due to lower staffing levels associated with decreased occupancy and impacts of cost reduction initiatives including the suspension of the Company's matching contribution to its 401(k) program effective January 2009 and a company-wide wage reduction plan implemented in April 2009, and (ii) a decrease in other expense of \$0.1 million, or 0.5%, primarily due to decreased variable operating costs associated with lower revenue including lower food and beverage cost of sales and other operating expense partially offset by higher property taxes. The above decreases were partially offset by an increase in general and administrative expense of \$1.1 million, or 16.9%, primarily due to higher employee medical costs.

Total Lodging Reported EBITDA includes \$1.0 million and \$0.9 million of stock-based compensation expense for the six months ended January 31, 2010 and 2009, respectively.

Total Lodging net revenue for the six months ended January 31, 2010 decreased \$6.4 million, or 7.4%, compared to the six months ended January 31, 2009. Due to the acquisition of CME on November 1, 2008, Lodging net revenue for the six months ended January 31, 2009 includes only three months of operations for CME. Excluding the impact of CME revenue for the three months ended October 31, 2009, total Lodging net revenue decreased \$8.0 million, or 9.3% for the six months ended January 31, 2010 compared to the six months ended January 31, 2009.

Revenue from owned hotel rooms decreased \$1.7 million, or 8.1%, for the six months ended January 31, 2010 compared to the six months ended January 31, 2009, which was driven by a decrease in occupancy of 9.1 percentage points due to declines in group business and transient guest visitation, partially offset by an increase in ADR of 3.9%. The increase in ADR was primarily due to GTLC, as GTLC's ADR increased by 9.7%. Revenue from managed condominium rooms decreased \$2.0 million, or 11.6%, for the six months ended January 31, 2010 compared to the six months ended January 31, 2009, due to a decline in both transient guest visitation and group business at Keystone resulting in a decrease in revenue of \$1.0 million.

Dining revenue for the six months ended January 31, 2010 decreased \$2.0 million, or 13.0%, as compared to the six months ended January 31, 2009, due to decreased transient guest and group visitation primarily at the Company's Colorado mountain resorts. Golf revenues decreased \$1.2 million, or 15.3%, for the six months ended January 31, 2010 compared to the six months ended January 31, 2009, resulting from a 15% decrease in the number of golf rounds played combined with lower revenue per round. Other revenue decreased \$0.9 million, or 5.2%, in the six months ended January 31, 2010 compared to the six months ended January 31, 2009, primarily due to a decrease in revenue from spa and conference services, which were negatively impacted by lower occupancy from groups. Transportation revenues were up \$1.4 million, or 19.2%, due to a full six months of operations for CME included in the six months ended January 31, 2010 compared to only three months of operations for CME in the six months ended January 31, 2009.

Operating expense decreased \$3.2 million, or 3.8%, for the six months ended January 31, 2010 compared to the six months ended January 31, 2009. Due to the acquisition of CME on November 1, 2008, operating expenses for the six months ended January 31, 2010 included six months of CME operating expenses compared to only three months of CME operating expenses for the six months ended January 31, 2009. Excluding the impact of CME operating expenses for the three months ended October 31, 2009 of \$2.7 million, operating expenses decreased \$5.9 million, or 7.1%, primarily due to (i) a decrease in labor and labor-related benefits of \$4.1 million, or 10.0%, primarily due to lower staffing levels associated with decreased occupancy and the impacts of cost reduction initiatives including the suspension of the Company's matching contribution to its 401(k) program effective January 2009 and a company-wide wage reduction plan implemented in April 2009, and (ii) a decrease in other expense of \$2.4 million, or 8.4 %, primarily due to decreased variable operating costs associated with lower revenue including lower food and beverage cost of sales and a decrease in supplies and utilities expense. The above decreases were partially offset by an increase in general and administrative expense of \$0.6 million, or 4.3%, primarily due to higher employee medical costs.

Real Estate Segment

Three months ended January 31, 2010 compared to the three months ended January 31, 2009

Edgar Filing: VAIL RESORTS INC - Form 10-Q

Real Estate segment operating results for the three months ended January 31, 2010 and 2009 are presented by category as follows (in thousands):

	Three Months Ended		Percentage Increase (Decrease)
	January 31,		
	2010	2009	
Total Real Estate net revenue	\$ 870	\$ 89,157	(99.0) %
Total Real Estate operating expense	7,417	59,508	(87.5) %
Total Real Estate Reported EBITDA	\$ (6,547)	\$ 29,649	(122.1) %

Real Estate Reported EBITDA includes \$1.1 million of stock-based compensation expense for both the three months ended January 31, 2010 and 2009.

The Company's Real Estate operating revenue is primarily determined by the timing of closings and the mix of real estate sold in any given period. Different types of projects have different revenue and expense volumes and margins; therefore, as the real estate inventory mix changes it can greatly impact Real Estate segment net revenue, operating expense and Real Estate Reported EBITDA.

Three months ended January 31, 2010

Real Estate segment net revenue for the three months ended January 31, 2010 primarily included allocated corporate revenue. Operating expense for the three months ended January 31, 2010 primarily included general and administrative costs of approximately \$7.2 million (including \$1.1 million of stock-based compensation expense). General and administrative costs were primarily comprised of marketing expense for the real estate projects under development, overhead costs such as labor and labor-related benefits and allocated corporate costs.

Three months ended January 31, 2009

Real Estate segment net revenue for the three months ended January 31, 2009 was driven primarily by the closing of six Lodge at Vail Chalet ("Chalet") units (\$76.9 million of revenue with an average selling price per unit of \$12.8 million and an average price per square foot of \$2,689), three residences at Crystal Peak Lodge (\$3.7 million of revenue with an average selling price per unit of \$1.2 million and an average price per square foot of \$972) and the closing of one condominium at Arrabelle (\$7.7 million of revenue with an average price per square foot of \$1,533). The higher average price per square foot for the Chalet units was driven by their premier location at the base of Vail mountain in Vail Village and the fact that this development consisted of only 13 exclusive chalets. The Arrabelle average price per square foot is driven by its ski-in/ski-out location in Vail, and the comprehensive offering of amenities resulting from this project. The Crystal Peak Lodge average price per square foot though significantly lower than the Vail project real estate sales, is significantly higher than historical Breckenridge project real estate sales and is primarily driven by its ski-in/ski-out location at the base of Peak 7 in Breckenridge and close proximity to the BreckConnect Gondola.

Operating expense for the three months ended January 31, 2009 included cost of sales of \$44.5 million commensurate with revenue recognized, primarily driven by the closing of six Chalets units (\$36.6 million in cost of sales with an average cost per square foot of \$1,280), three residences at Crystal Peak Lodge (\$1.5 million in cost of sales with an average cost per square foot of \$416) and the closing of one condominium at Arrabelle (\$6.3 million in cost of sales with an average cost per square foot of \$1,251). The cost per square foot for the Chalets and Arrabelle are reflective of the high-end features and amenities associated with these projects and the relatively high construction costs associated with mountain resort development. The cost per square foot for Crystal Peak Lodge is reflective of its less complicated design features and fewer amenities associated with this project relative to the Chalets and Arrabelle. Operating expense also included sales commissions of approximately \$4.6 million commensurate with revenue recognized and general and administrative costs of approximately \$7.4 million (including \$1.1 million of

Edgar Filing: VAIL RESORTS INC - Form 10-Q

stock-based compensation expense). General and administrative costs were primarily comprised of marketing expense for the real estate projects under development (including those that have not yet closed), overhead costs such as labor and labor-related benefits and allocated corporate costs. In addition, the Company recorded \$3.0 million of costs in excess of anticipated sales proceeds for an affordable housing commitment resulting from the cancellation of a contract by a third party developer related to its Jackson Hole Golf & Tennis Club (“JHG&TC”) development, which is reflected in Real Estate segment operating expense in the three months ended January 31, 2009.

Six months ended January 31, 2010 compared to the six months ended January 31, 2009

Real Estate segment operating results for the six months ended January 31, 2010 and 2009 are presented by category as follows (in thousands):

	Six Months Ended		Percentage Increase (Decrease)

Gain on sale of real property	6,087	--	-- %
Total Real Estate Reported EBITDA	\$ (5,432)	\$ 45,022	(112.1) %

Real Estate Reported EBITDA includes \$2.5 million and \$2.0 million of stock-based compensation expense for the six months ended January 31, 2010 and 2009, respectively.

Six months ended January 31, 2010

Real Estate segment net revenue for the six months ended January 31, 2010 primarily included allocated corporate revenue. In addition, during the six months ended January 31, 2010 the Company sold a land parcel located at the Arrowhead base area of the Beaver Creek Resort for \$8.5 million and recorded a gain on sale of real property of \$6.1 million (net of \$2.4 million in related cost of sales).

Operating expense for the six months ended January 31, 2010 primarily included general and administrative costs of approximately \$12.3 million (including \$2.5 million of stock-based compensation expense). General and administrative costs were primarily comprised of marketing expense for the real estate projects under development (including those that have not yet closed), overhead costs such as labor and labor-related benefits and allocated corporate costs.

Six months ended January 31, 2009

Real Estate segment net revenue for the six months ended January 31, 2009 was driven primarily by the closing of 42 residences at Crystal Peak Lodge (\$54.9 million of revenue with an average selling price per unit of \$1.3 million and an average price per square foot of \$1,038), the closing of seven Chalet units (\$91.3 million of revenue with an average selling price per unit of \$13.0 million and price per square foot of \$2,718) and one condominium unit at Arrabelle (\$7.7 million of revenue with an average price per square foot of \$1,533). The higher average price per square foot for the Chalet units was driven by the premier location at the base of Vail mountain in Vail Village and the fact that this development consisted of only 13 exclusive chalets. The Arrabelle average price per square foot is driven by its ski-in/ski-out location in Vail, and the comprehensive offering of amenities resulting from this project. The Crystal Peak Lodge average price per square foot though significantly lower than the Vail project real estate sales, was significantly higher than historical Breckenridge project real estate sales and was primarily driven by its ski-in/ski-out location at the base of Peak 7 in Breckenridge and close proximity to the BreckConnect Gondola.

Edgar Filing: VAIL RESORTS INC - Form 10-Q

Operating expense for the six months ended January 31, 2009 included cost of sales of \$84.6 million commensurate with revenue recognized, primarily driven by the closing of seven Chalet units (\$43.9 million in cost of sales with an average cost per square foot of \$1,308), the closing of 42 residences at Crystal Peak Lodge (\$34.6 million in cost of sales with an average cost per square foot of \$660), and one condominium unit at Arrabelle (\$6.3 million in cost of sales with an average cost per square foot of \$1,251). The cost per square foot for the Arrabelle and Chalets are reflective of the high-end features and amenities associated with this project and the relatively high construction costs associated with mountain resort development. The cost per square foot for Crystal Peak Lodge is reflective of its less complicated design features and fewer amenities associated with this project relative to the Arrabelle and Chalets. Operating expense also included sales commissions of approximately \$8.8 million commensurate with revenue recognized and general and administrative costs of approximately \$14.5 million (including \$2.0 million of stock-based compensation expense). General and administrative costs were primarily comprised of marketing expense for the real estate projects under development (including those that have not yet closed), overhead costs such as labor and labor-related benefits and allocated corporate costs. In addition, the Company recorded \$3.0 million of costs in excess of anticipated sales proceeds for an affordable housing commitment resulting from the cancellation of a contract by a third party developer related to its JHG&TC development, which is reflected in Real Estate segment operating expense in the six months ended January 31, 2009.

Other Items

In addition to segment operating results, the following material items contributed to the Company's overall financial position.

Depreciation and amortization. Depreciation and amortization expense for the three and six months ended January 31, 2010 increased \$0.3 million and \$2.4 million, respectively, compared to the same periods in the prior year, primarily due to an increase in the fixed asset base due to incremental capital expenditures including a new gondola placed in-service within the last year, renovations to certain lodging properties and the acquisition of CME.

Investment income. Investment income decreased \$0.1 million and \$0.6 million for the three and six months ended January 31, 2010, respectively, compared to the same periods in the prior year, primarily due to a decrease in average invested cash during the period.

Interest expense, net. For the three and six months ended January 31, 2010, interest expense, net decreased \$3.1 million and \$6.3 million, respectively, compared to the same periods in the prior year primarily due to an increase in capitalized interest on self-funded real estate projects.

Income taxes. The effective tax rate for the three and six months ended January 31, 2010 was 35.4% and 115.7%, respectively, compared to the effective tax rate for the three and six months ended January 31, 2009 of 36.1% and 38.2%, respectively. The interim period effective tax rate is primarily driven by the amount of anticipated pre-tax book income for the full fiscal year adjusted for items that are deductible/non-deductible for tax purposes only (i.e. permanent items) and the amount of net income attributable to noncontrolling interest recorded during the period. Additionally, the Company recorded a \$0.3 million income tax benefit in the six months ended January 31, 2010 due to a reversal of an income tax contingency resulting from the expiration of the statute of limitations. Beginning August 1, 2009, the Company adopted a FASB statement regarding noncontrolling interest (see Note 2, Summary of Significant Accounting Policies, of the Notes to Consolidated Condensed Financial Statements) which requires that the net income or loss attributable to noncontrolling interest in the Company's consolidated subsidiaries no longer be included in the determination of pretax income or loss in the Company's effective tax rate calculation.

In 2005, the Company amended previously filed tax returns (for the tax years from 1997 through 2002) in an effort to remove restrictions under Section 382 of the Internal Revenue Code on approximately \$73.8 million of net operating losses ("NOLs") relating to fresh start accounting from the Company's reorganization in 1992. As a result, the Company requested a refund related to the amended returns in the amount of \$6.2 million and has reduced its Federal tax

Edgar Filing: VAIL RESORTS INC - Form 10-Q

liability in the amount of \$19.6 million in subsequent tax returns. In 2006, the Internal Revenue Service (“IRS”) completed its examination of the Company’s filing position in its amended returns and disallowed the Company’s request for refund and its position to remove the restriction on the NOLs. The Company appealed the examiner’s disallowance of the NOLs to the Office of Appeals. In December 2008, the Office of Appeals denied the Company’s appeal, as well as a request for mediation. The Company disagrees with the IRS interpretation disallowing the utilization of the NOLs and in August 2009, filed a complaint in the United States District Court for the District of Colorado seeking recovery of \$6.2 million in over payments that were previously denied by the IRS, plus interest. Due to the uncertainty surrounding the utilization of the NOLs, the Company has not reflected any of the benefits of the utilization of the NOLs within its financial statements; thus if the Company is unsuccessful in its action regarding this matter it will not negatively impact the Company’s results of operations.

LIQUIDITY AND CAPITAL RESOURCES

Significant Sources of Cash

The Company's second and third fiscal quarters historically result in seasonally high cash on hand as the Company's ski resorts are generally open for ski operations from mid-November to mid-April, from which the Company has historically generated a significant portion of its operating cash flows for the year. Additionally, cash provided by

operating activities can be significantly impacted by the timing of closings on and investment in real estate development projects.

In addition to the Company's \$58.0 million of cash and cash equivalents at January 31, 2010, the Company has \$308.1 million available under its Credit Facility (which represents the total commitment of \$400.0 million less certain letters of credit outstanding of \$91.9 million). The Company continued to self-fund its current real estate projects under construction (the Company estimates to incur between \$100 and \$120 million in cash expenditures subsequent to January 31, 2010) which has and may require the Company to borrow under the revolver component of its Credit Facility from time to time during fiscal 2010. The Company expects that its liquidity needs in the near term will be met by the utilization of cash flows generated by operating activities and borrowings under the Credit Facility. The Company believes the Credit Facility, which matures in 2012, provides adequate flexibility and is priced favorably with any new borrowings currently being priced at LIBOR plus 1.0%.

Six months ended January 31, 2010 compared to the six months ended January 31, 2009

The Company generated \$14.1 million of cash from operating activities in the six months ended January 31, 2010, a decrease of \$152.5 million when compared to the \$166.7 million of cash generated in the six months ended January 31, 2009. The decline in operating cash flows was primarily a result of real estate closings that occurred in the six months ended January 31, 2009 which generated \$116.8 million in proceeds. Additionally, investments in real estate increased \$28.6 million during the six months ended January 31, 2010 compared to the six months ended January 31, 2009. Further contributing to the decrease in cash provided by operating activities for the six months ended January 31, 2010 compared to the six months ended January 31, 2009 was the receipt of \$38.4 million of private club initiation fees for the Vail Mountain Club in the six months ended January 31, 2009 and a reduction in restricted cash of \$48.3 million in the prior year period which became available for general purpose use due to the payoff of the Company's non-recourse real estate financing. Partially offsetting the above items was a decrease in income tax payments of \$31.0 million, an increase in real estate development payables of \$11.4 million, an increase in trade payables of \$9.5 million, as well as, a reduction in accounts receivable primarily due to an increase in proceeds from the sale of season passes.

Cash used in investing activities decreased by \$88.6 million in the six months ended January 31, 2010 compared to the six months ended January 31, 2009 due to a decrease in resort capital expenditures of \$41.3 million, cash receipts of \$8.9 million primarily related to a land parcel the Company sold during the six months ended January 31, 2010 and the acquisition of CME on November 1, 2008 in the prior year.

Cash used in financing activities decreased \$75.8 million in the six months ended January 31, 2010 compared to the six months ended January 31, 2009 resulting from the \$58.4 million payoff of the Company's non-recourse real estate financings in the six months ended January 31, 2009 and no repurchases of common stock during the six months ended January 31, 2010, compared to repurchases of \$14.9 million during the six months ended January 31, 2009. Additionally, the Company paid \$15.0 million for a scheduled debt maturity during the six months ended January 31, 2009.

Significant Uses of Cash

The Company's cash uses currently include providing for operating expenditures and capital expenditures for assets to be used in operations and for real estate projects under construction.

The Company expects to spend approximately \$115 million to \$135 million in calendar year 2010 for real estate under development, including the construction of associated resort-related depreciable assets, of which approximately \$15 million was spent as of January 31, 2010, leaving approximately \$100 million to \$120 million to spend in the remainder of the calendar year 2010. The Company has entered into contracts with third parties to provide services to the Company throughout the course of project development; commitments for future services to be performed under

such current contracts total approximately \$65 million and are expected to be performed primarily over the next calendar year.

The Company has historically invested significant cash in capital expenditures for its resort operations, and expects to continue to invest in the future; however, plans for such investment were reduced in calendar year 2009 given the significant level of capital expenditures made in the previous few years including individually significant projects that do not annually re-occur such as gondolas and major hotel renovations coupled with the current economic environment. The Company has increased its level of expected resort discretionary investment for calendar year 2010 above the calendar year 2009 level, although such spending is still expected to remain well below the 2007 and 2008 calendar year levels. Current capital expenditure levels will primarily include investments that allow the Company to maintain its high quality standards, as well as certain incremental discretionary improvements at the Company's five ski resorts and throughout its owned hotels. The Company evaluates additional discretionary capital improvements based on an expected level of return on investment. The Company currently anticipates it will spend approximately \$75 million to \$85 million of resort capital expenditures for calendar year 2010, excluding resort depreciable assets arising from real estate activities noted above. Included in these capital expenditures are approximately \$37 million to \$42 million which are necessary to maintain appearance and level of service appropriate to the Company's resort operations, including routine replacement of snow grooming equipment and rental fleet equipment. Discretionary expenditures for calendar 2010 are expected to include a new high speed chairlift to serve Vail mountain's back bowls; a new on-mountain restaurant at Heavenly; a new coaster slide at Breckenridge; expansion of Vail mountain's adventure ridge; Keystone Lodge guest room renovation and new marketing campaign management software, among other projects. The Company currently plans to utilize cash on hand, borrowing available under its Credit Facility and/or cash flow generated from future operations to provide the cash necessary to execute its capital plans.

Principal payments on the vast majority of the Company's long-term debt (\$489.2 million of the total \$491.7 million debt outstanding as of January 31, 2010) are not due until fiscal 2014 and beyond. As of January 31, 2010 and 2009, total long-term debt (including long-term debt due within one year) was \$491.7 million and \$492.1 million, respectively. Net Debt (defined as long-term debt plus long-term debt due within one year less cash and cash equivalents) increased from \$352.9 million as of January 31, 2009 to \$433.7 million as of January 31, 2010 due primarily to the decrease in cash and cash equivalents.

The Company's debt service requirements can be impacted by changing interest rates as the Company had \$52.6 million of variable-rate debt outstanding as of January 31, 2010. A 100-basis point change in LIBOR would cause the Company's annual interest payments to change by approximately \$0.5 million. The fluctuation in the Company's debt service requirements, in addition to interest rate changes, may be impacted by future borrowings under its Credit Facility or other alternative financing arrangements, including non-recourse real estate financings, it may enter into. The Company's long term liquidity needs are dependent upon operating results that impact the borrowing capacity under the Credit Facility, which can be mitigated by adjustments to capital expenditures, flexibility of investment activities and the ability to obtain favorable future financing. The Company can respond to liquidity impacts of changes in the business and economic environment by managing its capital expenditures and the timing of new real estate development activity.

On March 9, 2006, the Company's Board of Directors approved the repurchase of up to 3,000,000 shares of common stock and on July 16, 2008 approved an increase of the Company's common stock repurchase authorization by an additional 3,000,000 shares. The Company did not repurchase any shares of common stock during the six months ended January 31, 2010. Since inception of its stock repurchase plan, the Company has repurchased 3,878,535 shares at a cost of approximately \$147.8 million, through January 31, 2010. As of January 31, 2010, 2,121,465 shares remained available to repurchase under the existing repurchase authorization. Shares of common stock purchased pursuant to the repurchase program will be held as treasury shares and may be used for the issuance of shares under the Company's employee share award plans. Acquisitions under the stock repurchase program may be made from time to time at prevailing prices as permitted by applicable laws, and subject to market conditions and other factors. The timing as well as the number of shares that may be repurchased under the program will depend on a number of factors,

including the Company's future financial performance, the Company's available cash resources and competing uses for cash that may arise in the future, the restrictions in the Company's Fourth Amended and Restated Credit Agreement, dated as of January 28, 2005, as amended, between The Vail Corporation (a wholly-owned subsidiary of the Company), Bank of America, N.A. as administrative agent and the Lenders party thereto (the "Credit Agreement") governing the Company's Credit Facility and the Indenture, dated as of January 29, 2004 among the Company, the guarantors therein and The Bank of New York Mellon Trust Company, N.A. as Trustee ("Indenture"), governing the 6.75% Senior Subordinated Notes due 2014 ("6.75% Notes"), prevailing prices of the Company's common stock and the number of shares that become available for sale at prices that the Company believes are attractive. The stock repurchase program may be discontinued at any time and is not expected to have a significant impact on the Company's capitalization.

Covenants and Limitations

The Company must abide by certain restrictive financial covenants under its Credit Facility and the Indenture. The most restrictive of those covenants include the following Credit Facility covenants: Net Funded Debt to Adjusted EBITDA ratio, the Interest Coverage ratio and Minimum Net Worth (each as defined in the Credit Agreement). In addition, the Company's financing arrangements, including the Indenture, limit its ability to incur certain indebtedness, make certain restricted payments, enter into certain investments, make certain affiliate transfers and may limit its ability to enter into certain mergers, consolidations or sales of assets. The Company's borrowing availability under the Credit Facility is primarily determined by the Net Funded Debt to Adjusted EBITDA ratio, which is based on the Company's segment operating performance, as defined in the Credit Agreement.

The Company was in compliance with all restrictive financial covenants in its debt instruments as of January 31, 2010. The Company expects it will meet all applicable financial maintenance covenants in its Credit Agreement, including the Net Funded Debt to Adjusted EBITDA ratio throughout the year ending July 31, 2010. However, there can be no assurance that the Company will continue to meet such financial covenants. If such covenants are not met, the Company would be required to seek a waiver or amendment from the banks participating in the Credit Facility. While the Company anticipates that it would obtain such waiver or amendment, if any were necessary, there can be no assurance that such waiver or amendment would be granted, which could have a material adverse impact on the liquidity of the Company.

OFF BALANCE SHEET ARRANGEMENTS

The Company does not have off balance sheet transactions that are expected to have a material effect on the Company's financial condition, revenue, expenses, results of operations, liquidity, capital expenditures or capital resources.

FORWARD-LOOKING STATEMENTS

Except for any historical information contained herein, the matters discussed in this Form 10-Q contain certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements relate to analyses and other information available as of the date hereof, which are based on forecasts of future results and estimates of amounts not yet determinable. These statements also relate to our contemplated future prospects, developments and business strategies.

These forward-looking statements are identified by their use of terms and phrases such as "anticipate," "believe," "could," "estimate," "expect," "intend," "may," "plan," "predict," "project," "will" and similar terms and phrases, including references to assumptions. Although we believe that our plans, intentions and expectations reflected in or suggested by such forward-looking statements are reasonable, we cannot assure you that such plans, intentions or expectations will be achieved. Important factors that could cause actual results to differ materially from our forward-looking statements include, but are not limited to:

- prolonged downturn in general economic conditions, including continued adverse affects on the overall travel and leisure related industries;
 - unfavorable weather conditions or natural disasters;
- adverse events that occur during our peak operating periods combined with the seasonality of our business;
 - competition in our mountain and lodging businesses;
 - our ability to grow our resort and real estate operations;
- our ability to successfully complete real estate development projects and achieve the anticipated financial benefits from such projects;
 - further adverse changes in real estate markets;
 - continued volatility in credit markets;
- our ability to obtain financing on terms acceptable to us to finance our real estate development, capital expenditures and growth strategy;
- our reliance on government permits or approvals for our use of Federal land or to make operational improvements;
 - adverse consequences of current or future legal claims;
 - our ability to hire and retain a sufficient seasonal workforce;
- willingness of our guests to travel due to terrorism, the uncertainty of military conflicts or outbreaks of contagious diseases, and the cost and availability of travel options;
 - negative publicity or unauthorized use of our trademarks which diminishes the value of our brands;
 - our ability to integrate and successfully operate future acquisitions; and
- implications arising from new Financial Accounting Standards Board (“FASB”)/governmental legislation, rulings or interpretations.

All forward-looking statements attributable to us or any persons acting on our behalf are expressly qualified in their entirety by these cautionary statements.

If one or more of these risks or uncertainties materialize, or if underlying assumptions prove incorrect, our actual results may vary materially from those expected, estimated or projected. Given these uncertainties, users of the information included in this Form 10-Q, including investors and prospective investors, are cautioned not to place undue reliance on such forward-looking statements. Actual results may differ materially from those suggested by the forward-looking statements that the Company makes for a number of reasons including those described in this Form 10-Q and in Part I, Item 1A “Risk Factors” of the Form 10-K. All forward-looking statements are made only as of the date hereof. Except as may be required by law, the Company does not intend to update these forward-looking statements, even if new information, future events or other circumstances have made them incorrect or misleading.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Interest Rate Risk. The Company's exposure to market risk is limited primarily to the fluctuating interest rates associated with variable rate indebtedness. At January 31, 2010, the Company had \$52.6 million of variable rate indebtedness, representing 10.7% of the Company's total debt outstanding, at an average interest rate during the three and six months ended January 31, 2010 of 0.9% and 1.0%, respectively. Based on variable-rate borrowings outstanding as of January 31, 2010, a 100-basis point (or 1.0%) change in LIBOR would have caused the Company's annual interest payments to change by \$0.5 million. The Company's market risk exposure fluctuates based on changes in underlying interest rates.

ITEM 4. CONTROLS AND PROCEDURES.

Disclosure Controls and Procedures

Management of the Company, under the supervision and with participation of the Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), have evaluated the effectiveness of the Company's disclosure controls and procedures

as such term is defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Act") as of the end of the period covered by this report on Form 10-Q.

Based upon their evaluation of the Company's disclosure controls and procedures, the CEO and the CFO concluded that the disclosure controls are effective to provide reasonable assurance that information required to be disclosed by the Company in the reports that it files or submits under the Act is accumulated and communicated to management, including the CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure and are effective to provide reasonable assurance that such information is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms.

The Company, including its CEO and CFO, does not expect that the Company's internal controls and procedures will prevent or detect all error and all fraud. A control system, no matter how well conceived or operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

Changes in Internal Control over Financial Reporting

There were no changes in the Company's internal control over financial reporting during the period covered by this Form 10-Q that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

The Canyons Ski Resort Litigation

During the fourth quarter of the year ended July 31, 2007, the Company entered into an agreement with Peninsula Advisors, LLC ("Peninsula") for the negotiation and mutual acquisition of The Canyons and the land underlying The Canyons. On July 15, 2007, American Skiing Company ("ASC") entered into an agreement to sell The Canyons to Talisker Corporation and Talisker Canyons Finance Company, LLC (together "Talisker"). On July 27, 2007, the Company filed a complaint in the District Court in Colorado against Peninsula and Talisker claiming, among other things, breach of contract by Peninsula and intentional interference with contractual relations and prospective business. The Company's request for a preliminary injunction to prevent the closing of the acquisition by Talisker of The Canyons from ASC was denied. Talisker filed an answer to the Company's complaint along with three counterclaims. Peninsula filed a motion to dismiss, which was denied. On October 21, 2009, the Company filed a Stipulated Motion to Dismiss ASC and agreed that it would not seek any relief that would have the effect of invalidating the sale by ASC to Talisker Canyons Finance Co, LLC. On January 12, 2010, Peninsula filed an answer to the Company's complaint and brought cross claims against Talisker and a third party complaint against Mark Robbins (Peninsula's former managing member), Jacob Bistricher (Talisker Corporation's CEO), and Talisker Canyons Acquisition Co. LLC. Talisker moved to strike Peninsula's answer, cross claims and third party complaint. The District Court subsequently vacated the previous scheduling order, which included the July 19, 2010 trial date and set a status conference date of March 26, 2010. The Company continues to pursue this action, but is unable to predict the ultimate outcome of the above described actions.

Internal Revenue Service Litigation

On August 24, 2009, the Company filed a complaint in the United States District Court for the District of Colorado against the United States of America seeking a refund of approximately \$6.2 million in federal income taxes paid for the tax years ended December 31, 2000 and December 31, 2001. The Company's amended tax returns for those years included calculations of net operating losses ("NOL") carried forward from prior years to reduce its tax years 2000 and 2001 tax liabilities. The Internal Revenue Service ("IRS") has disallowed refunds associated with those NOL carry

forwards and the Company disagrees with the IRS action disallowing the utilization of the NOLs. The IRS filed its answer on November 6, 2009 denying liability for the Company's claimed refunds. The Company is unable to predict the ultimate outcome of this matter.

Ritz-Carlton Residences, Vail

The holders of contracts to purchase 13 Ritz-Carlton Residences, Vail units have sent notices of breach of contract to the Company or have commenced an action in Eagle County, Colorado, District Court seeking rescission of their contracts based on a disputed delivery date included in their respective purchase and sale agreements.

The Company is a defendant in the following cases filed by holders of contracts to purchase seven Ritz-Carlton Residences, Vail units: Levy and Weidhorn v. RCR Vail, LLC, District Court, Eagle County, Colorado 09cv487 filed on August 6, 2009; AR Homes, LP and Castletop Capital Properties, LP v. RCR Vail, LLC District Court, Eagle County, Colorado 09cv527 filed on August 18, 2009; Masri and Assis v. RCR Vail, LLC District Court, Eagle County, Colorado 09cv543 filed on August 26, 2009; and Vail Ritz-Carlton, LLC v. RCR Vail, LLC District Court, Eagle County, Colorado 10cv122, filed on February 18, 2010. The plaintiffs' complaints allege similar causes of action, primarily breach of contract, based on the failure of the Company to deliver the units under the purchase and sale agreements by a certain specific disputed date. The plaintiffs seek rescission of their contracts and return of their deposits under the purchase and sale agreements. The Company disputes that it has breached its obligations under the purchase and sale agreements and denies that the contract holders are entitled to the relief that they are seeking.

The Company does not anticipate further breach of contract allegations based on the disputed delivery date as all other Ritz-Carlton Residences, Vail contract holders have signed contracts or amendments to contracts specifically acknowledging the delivery date.

ITEM 1A. RISK FACTORS.

There have been no material changes from risk factors previously disclosed in Item 1A to Part I of the Company's Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

None.

ITEM 4. RESERVED.

ITEM 5. OTHER INFORMATION.
