CBS CORPORATION AND SUBSIDIARIES  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(Tabular dollars in millions, except per share amounts)

1) BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Business-CBS Corporation (together with its consolidated subsidiaries unless the context otherwise requires, the “Company” or “CBS Corp.”) is comprised of the following segments: Entertainment (CBS Television, comprised of the CBS Television Network, CBS Television Studios, CBS Studios International, and CBS Television Distribution; CBS Interactive and CBS Films), Cable Networks (Showtime Networks, CBS Sports Network and Smithsonian Networks), Publishing (Simon & Schuster) and Local Media (CBS Television Stations and CBS Local Digital Media).

Discontinued Operations-On February 2, 2017, the Company entered into an agreement with Entercom Communications Corp. (“Entercom”) to combine the Company’s radio business, CBS Radio, with Entercom in a merger to be effected through a Reverse Morris Trust transaction, which is expected to be tax-free to CBS Corp. and its stockholders. In connection with this transaction, the Company intends to split-off CBS Radio through an exchange offer, in which the Company’s stockholders may elect to exchange shares of the Company’s Class B Common Stock for shares of CBS Radio, which will then be immediately converted into shares of Entercom Class A common stock at the time of the merger. CBS Radio has been presented as a discontinued operation in the Company’s consolidated financial statements for all periods presented (See Note 3).

Basis of Presentation-The accompanying unaudited consolidated financial statements of the Company have been prepared pursuant to the rules of the Securities and Exchange Commission. These financial statements should be read in conjunction with the more detailed financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2016.

In the opinion of management, the accompanying unaudited financial statements reflect all adjustments, consisting only of normal and recurring adjustments, necessary for a fair statement of the financial position, results of operations and cash flows of the Company for the periods presented. Certain previously reported amounts have been reclassified to conform to the current presentation.

Use of Estimates-The preparation of the Company’s financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates, judgments and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amount of revenues and expenses during the reporting period. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Other Operating Items, Net-Other operating items, net for the six months ended June 30, 2016 included a gain from the sale of a business and a multiyear, retroactive impact of a new operating tax.

Net Earnings (Loss) per Common Share-Basic net earnings (loss) per share (“EPS”) is based upon net earnings (loss) divided by the weighted average number of common shares outstanding during the period. Diluted EPS reflects the effect of the assumed exercise of stock options and vesting of restricted stock units (“RSUs”) and market-based performance share units (“PSUs”) only in the periods in which such effect would have been dilutive. Excluded from the calculation of diluted EPS because their inclusion would have been anti-dilutive, were 4 million stock options for each of the three and six months ended June 30, 2017 and 6 million stock options for each of the three and six months

ended June 30, 2016.

CBS CORPORATION AND SUBSIDIARIES  
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)  
 (Tabular dollars in millions, except per share amounts)

The table below presents a reconciliation of weighted average shares used in the calculation of basic and diluted EPS.

(in millions)	Three		Six	
	Months		Months	
	Ended		Ended	
	June 30,		June 30,	
	2017	2016	2017	2016

Dilutive effect of shares issuable under stock-based compensation plans	5	4	6	4
Weighted average shares for diluted EPS	410	455	413	459

Other Liabilities-Other liabilities consist primarily of the noncurrent portion of residual liabilities of previously disposed businesses, participants' share and royalties payable, program rights obligations, deferred compensation and other employee benefit accruals.

Additional Paid-In Capital-For the six months ended June 30, 2017 and 2016, the Company recorded dividends of \$148 million and \$138 million, respectively, as a reduction to additional paid-in capital as the Company had an accumulated deficit balance.

#### Adoption of New Accounting Standards

##### Improvements to Employee Share-Based Payment Accounting

During the first quarter of 2017, the Company adopted amended Financial Accounting Standards Board ("FASB") guidance which simplifies several aspects of the accounting for employee share-based payment transactions. Under this amended guidance, all excess tax benefits and tax deficiencies are recognized as income tax expense or benefit in the income statement in the period in which the awards vest or are exercised. In the statement of cash flows, excess tax benefits are classified with other income tax cash flows in operating activities. As a result of the adoption of this guidance, the Company's excess tax benefits associated with the exercise of stock options and vesting of RSUs for the three and six months ended June 30, 2017 were recorded in the provision for income taxes on the Consolidated Statements of Operations. The guidance requires the income statement classification to be applied prospectively, and therefore, excess tax benefits for prior periods remain classified in stockholders' equity on the balance sheet. The Company elected to apply the cash flow classification provision of this guidance prospectively and therefore, excess tax benefits for prior periods remain classified as financing activities on the statements of cash flows. The amended guidance also gives the option to make a policy election to account for forfeitures as they occur. The Company, however, has elected to continue its existing practice of estimating forfeitures.

##### Simplifying the Accounting for Goodwill Impairment

During the first quarter of 2017, the Company early adopted amended FASB guidance which simplifies the accounting for goodwill impairment. This guidance removes Step 2 of the goodwill impairment test, which requires a hypothetical purchase price allocation. Under the amended guidance, a goodwill impairment charge is recognized for the amount by which the carrying value of a reporting unit exceeds its fair value, not to exceed the carrying amount of goodwill.

Recent Pronouncements

Stock Compensation: Scope of Modification Accounting

In May 2017, the FASB issued amended guidance on the accounting for stock-based compensation which clarifies when to account for a change to the terms or conditions of a share-based payment award as a modification. Under this guidance, modification accounting is required only if the fair value, the vesting conditions, or the classification of the award as equity or liability changes as a result of the change in the terms or conditions of a share-based payment award. This guidance, which is effective for interim and annual periods beginning after December 15, 2017, with early adoption permitted, is not expected to have an impact on the Company's consolidated financial statements.

Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost

In March 2017, the FASB issued amended guidance on the presentation of net periodic pension and postretirement benefit cost ("net benefit cost"). This guidance requires an employer to present on the statement of operations the service cost component of net benefit cost in the same line item(s) as other compensation costs of the related employees. The other components of net benefit cost will be presented in the statement of operations separately from the service cost component and below the subtotal of operating income. This guidance is required to be applied retrospectively and is effective for interim and annual reporting periods beginning after December 15, 2017, with early adoption permitted as of the beginning of an annual reporting period. Upon adoption, the Company's operating income will increase or decrease by an amount equal to the components of net benefit cost other than service cost, which are disclosed in Note 7.

Clarifying the Definition of a Business

In January 2017, the FASB issued amended guidance on the accounting for business combinations which clarifies the definition of a business and assists entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. Under this guidance, when substantially all of the fair value of gross assets acquired is concentrated in a single asset (or group of similar assets), the assets acquired would not represent a business. In addition, in order to be considered a business, an acquisition would have to include at a minimum an input and a substantive process that together significantly contribute to the ability to create an output. The amended guidance also narrows the definition of outputs by more closely aligning it with how outputs are described in FASB guidance for revenue recognition. This guidance is effective for interim and annual periods beginning after December 15, 2017, with early adoption permitted.

Intra-Entity Transfers of Assets Other than Inventory

In October 2016, the FASB issued amended guidance on the accounting for income taxes, which eliminates the exception in existing guidance which defers the recognition of the tax effects of intra-entity asset transfers other than inventory until the transferred asset is sold to a third party. Rather, the amended guidance requires an entity to recognize the income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs. This guidance, which is effective for interim and annual periods beginning after December 15, 2017, is not expected to have a material impact on the Company's consolidated financial statements.

Statement of Cash Flows: Classification of Cash Receipts and Cash Payments

In August 2016, the FASB issued amended guidance which clarifies how certain cash receipts and cash payments should be presented and classified in the statement of cash flows. The new guidance is intended to reduce the existing diversity in practice in how certain transactions are classified in the statement of cash flows. This guidance is effective for interim and annual periods beginning after December 15, 2017, with early adoption permitted.

CBS CORPORATION AND SUBSIDIARIES  
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)  
 (Tabular dollars in millions, except per share amounts)

Leases

In February 2016, the FASB issued new guidance on the accounting for leases, which supersedes previous lease guidance. Under this guidance, for all leases with terms in excess of one year, including operating leases, the Company will be required to recognize on its balance sheet a lease liability and a right-of-use asset representing its right to use the underlying asset for the lease term. The new guidance retains a distinction between finance leases and operating leases and the classification criteria is substantially similar to previous guidance. Additionally, the recognition, measurement, and presentation of expenses and cash flows arising from a lease by a lessee have not significantly changed. The Company is currently evaluating the impact of this guidance on its consolidated balance sheets. This guidance is effective for interim and annual reporting periods beginning after December 15, 2018, with early adoption permitted.

Revenue from Contracts with Customers

In May 2014, the FASB issued guidance on the recognition of revenues which provides a single, comprehensive revenue recognition model for all contracts with customers and supersedes most existing revenue recognition guidance. The main principle under this guidance is that an entity should recognize revenue at the amount it expects to be entitled to in exchange for the transfer of goods or services to customers. This guidance is effective for the Company beginning in the first quarter of 2018. The Company anticipates that it will apply the modified retrospective method of adoption with the cumulative effect of the initial adoption reflected as an adjustment to the opening balance of accumulated deficit as of the date of adoption. The Company has identified the predominant changes to its accounting policies and is in the process of quantifying the impact on its consolidated financial statements and evaluating the additional disclosures that may be required. The adoption of this guidance is not expected to have a significant impact on the Company's total revenues. The Company has identified changes to its revenue recognition policies primarily relating to two areas of content licensing and distribution revenues. First, revenues from certain distribution arrangements of third-party content will be recognized based on the gross amount of consideration received by the Company for such sale, with an associated expense recognized for the fees paid to the third-party producer. Under current accounting guidance, such revenues are recognized at the net amount retained by the Company after the payment of fees to the third-party producer. This change will not have an impact on the Company's operating income. Second, revenues associated with the extension of an existing licensing arrangement, which are currently recognized upon the execution of such extension, will be recognized at a later date once the extension period begins. This change is not expected to have a material impact on the Company's results on an annual basis, since extensions executed each year are generally offset by extensions for which the license period has begun.

2) STOCK-BASED COMPENSATION

The following table summarizes the Company's stock-based compensation expense for the three and six months ended June 30, 2017 and 2016.

CBS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Tabular dollars in millions, except per share amounts)

During the six months ended June 30, 2017, the Company granted 2 million RSUs for CBS Corp. Class B Common Stock with a weighted average per unit grant-date fair value of \$66.78. RSUs granted during the first six months of 2017 generally vest over a one- to four-year service period. Compensation expense for RSUs is determined based upon the market price of the shares underlying the awards on the date of grant. For certain RSU awards the number of shares an employee earns ranges from 0% to 120% of the target award, based on the outcome of established performance conditions. Compensation expense is recorded based on the probable outcome of the performance conditions. During the six months ended June 30, 2017, the Company also granted awards of market-based PSUs. The number of shares that will be issued upon vesting of the PSUs is based on the Company's stock price performance over a designated measurement period, as well as the achievement of established operating goals. The fair value of the PSUs is determined on the grant date using a Monte Carlo simulation model and is expensed over the required employee service period. The fair value of the PSU awards granted during the six months ended June 30, 2017 was \$23 million.

During the six months ended June 30, 2017, the Company also granted 1 million stock options with a weighted average exercise price of \$66.31. Stock options granted during the first six months of 2017 vest over a four-year service period and expire eight years from the date of grant. Compensation expense for stock options is determined based on the grant date fair value of the award calculated using the Black-Scholes options-pricing model.

Total unrecognized compensation cost related to unvested RSUs and PSUs at June 30, 2017 was \$270 million, which is expected to be recognized over a weighted average period of 2.5 years. Total unrecognized compensation cost related to unvested stock option awards at June 30, 2017 was \$51 million, which is expected to be recognized over a weighted average period of 2.6 years.

3) DISCONTINUED OPERATIONS

On February 2, 2017, the Company entered into an agreement with Entercom to combine the Company's radio business, CBS Radio, with Entercom in a merger to be effected through a Reverse Morris Trust transaction, which is expected to be tax-free to CBS Corp. and its stockholders. In connection with this transaction, Entercom will issue up to 105 million shares of its Class A common stock on a fully diluted basis, and the Company intends to split-off CBS Radio through an exchange offer, in which the Company's stockholders may elect to exchange shares of the Company's Class B Common Stock for shares of CBS Radio, which will then be immediately converted into shares of Entercom Class A common stock at the time of the merger. The Company expects the transaction to be completed during the fourth quarter of 2017, subject to customary approvals and closing conditions. CBS Radio has been classified as held for sale and presented as a discontinued operation in the Company's consolidated financial statements for all periods presented.

FASB Accounting Standards Codification ("ASC") 360 requires that an asset classified as held for sale be measured each reporting period at the lower of its carrying amount or fair value less cost to sell. The ultimate value of the transaction with Entercom will be determined based on Entercom's stock price at the closing of the transaction. The Company recorded noncash charges of \$365 million and \$1.08 billion for the three and six months ended June 30, 2017, respectively, to record a valuation allowance to adjust the carrying value of CBS Radio to the value indicated by the stock valuation of Entercom. In accordance with ASC 360, the valuation allowance will continue to be adjusted based on the trading price of Entercom's stock, which could result in future gains or losses. A 10% change to Entercom's stock price would change the carrying value of CBS Radio by approximately \$100 million.

The following table presents CBS Radio's long-term debt.

	At June 30, 2017	At December 31, 2016
Term Loan due October 2023, net of discount	\$950	\$ 955

Revolving Credit Facility	34	10
Deferred financing costs	(18 )	(20 )
Total long-term debt, including current portion	\$1,366	\$ 1,345

CBS Radio's senior secured term loan ("Term Loan") bears interest at a rate equal to 3.50% plus the greater of the London Interbank Offered Rate ("LIBOR") and 1.00%. The Term Loan is part of CBS Radio's credit agreement which also includes a \$250 million senior secured revolving credit facility (the "Revolving Credit Facility") which expires in 2021. Interest on the Revolving Credit Facility is based on either LIBOR or a base rate plus a margin based on CBS Radio's Consolidated Net Secured Leverage Ratio. The Consolidated Net Secured Leverage Ratio reflects the ratio of CBS Radio's secured debt (less up to \$150 million of cash and cash equivalents) to CBS Radio's consolidated EBITDA (as defined in the credit agreement). The Revolving Credit Facility requires CBS Radio to maintain a maximum Consolidated Net Secured Leverage Ratio of 4.00 to 1.00.

In connection with financing for the transaction with Entercom, on March 3, 2017, CBS Radio entered into Amendment No. 1 to its credit agreement, dated as of October 17, 2016, to, among other things, create a tranche of Term B-1 Loans in an aggregate principal amount not to exceed \$500 million. The Term B-1 Loans are expected to be funded on the closing date of the transaction, subject to customary conditions.

of the NAI voting interest held by the SMR Trust will pass to seven trustees, who will include CBS Corporation directors Ms. Shari Redstone and Mr. David R. Andelman. No member of the Company's management is a trustee of the SMR Trust.

Viacom Inc. As part of its normal course of business, the Company licenses its television content, leases production facilities and sells advertising spots to various subsidiaries of Viacom Inc. Viacom Inc. also distributes certain of the Company's television programs in the home entertainment market. The Company's total revenues from these transactions were \$19 million and \$31 million for the three months ended June 30, 2017 and 2016, respectively, and \$73 million and \$67 million for the six months ended June 30, 2017 and 2016, respectively.

The Company places advertisements with and leases production facilities from various subsidiaries of Viacom Inc. The total amounts for these transactions were \$4 million for each of the three months ended June 30, 2017 and 2016 and \$9 million and \$11 million for the six months ended June 30, 2017 and 2016, respectively.

The following table presents the amounts due from Viacom Inc. in the normal course of business as reflected on the Company's Consolidated Balance Sheets. Amounts due to Viacom Inc. were minimal at June 30, 2017 and December 31, 2016.

Other Related Parties. The Company has equity interests in two domestic television networks and several international joint ventures for television channels from which the Company earns revenues primarily by selling its television programming. Total revenues earned from sales to these joint ventures were \$20 million and \$24 million for the three months ended June 30, 2017 and 2016, respectively, and \$49 million and \$56 million for the six months ended June 30, 2017 and 2016, respectively. At June 30, 2017 and December 31, 2016, total amounts due from these joint ventures were \$40 million and \$47 million, respectively.

The Company, through the normal course of business, is involved in transactions with other related parties that have not been material in any of the periods presented.

6) BANK FINANCING AND DEBT

The following table sets forth the Company's debt.

	At June 30, 2017	At December 31, 2016
Commercial paper	\$ 263	\$ 450
Senior debt (1.95% - 7.875% due 2017 - 2045) <sup>(a)</sup>	8,853	8,850

Total debt	9,184	9,375
Less commercial paper	263	450
Less current portion of long-term debt	23	23
Total long-term debt, net of current portion	\$ 8,898	\$ 8,902

(a) At June 30, 2017 and December 31, 2016, the senior debt balances included (i) a net unamortized discount of \$49 million and \$52 million, respectively, (ii) unamortized deferred financing costs of \$41 million and \$43 million, respectively, and (iii) an increase in the carrying value of the debt relating to previously settled fair value hedges of \$2 million and \$5 million, respectively. The face value of the Company's senior debt was \$8.94 billion at both June 30, 2017 and December 31, 2016.

In July 2017, the Company issued \$400 million of 2.50% senior notes due 2023 and \$500 million of 3.375% senior notes due 2028. The Company used the net proceeds from these issuances to repay its \$400 million outstanding 1.95% senior notes that matured on July 1, 2017 and to redeem all of its \$300 million outstanding 4.625% senior notes due May 2018. The remaining proceeds were used for general corporate purposes, including the repayment of short-term borrowings, including commercial paper.

At June 30, 2017, the Company classified \$400 million of debt which matured in July 2017 and \$300 million of debt due May 2018 as long-term debt on the Consolidated Balance Sheet, as a result of the above-mentioned debt refinancing.

Commercial Paper

The Company had outstanding commercial paper borrowings under its \$2.5 billion commercial paper program of \$263 million and \$450 million at June 30, 2017 and December 31, 2016, respectively, each with maturities of less than 45 days. The weighted average interest rate for these borrowings was 1.42% at June 30, 2017 and 0.98% at December 31, 2016.

Credit Facility

At June 30, 2017, the Company had a \$2.5 billion revolving credit facility (the "Credit Facility") which expires in June 2021. The Credit Facility requires the Company to maintain a maximum Consolidated Leverage Ratio of 4.5x at the end of each quarter as further described in the Credit Facility. At June 30, 2017, the Company's Consolidated Leverage Ratio was approximately 2.9x.

The Consolidated Leverage Ratio is the ratio of the Company's indebtedness from continuing operations, adjusted to exclude certain capital lease obligations, at the end of a quarter, to the Company's Consolidated EBITDA for the trailing four consecutive quarters. Consolidated EBITDA is defined in the Credit Facility as operating income plus interest income and before depreciation, amortization and certain other noncash items.

(Tabular dollars in millions, except per share amounts)

The Credit Facility is used for general corporate purposes. At June 30, 2017, the Company had no borrowings outstanding under the Credit Facility and the remaining availability under the Credit Facility, net of outstanding letters of credit, was \$2.49 billion.

## 7) PENSION AND OTHER POSTRETIREMENT BENEFITS

The components of net periodic cost for the Company's pension and postretirement benefit plans were as follows:

(a) Reflects amounts reclassified from accumulated other comprehensive income (loss) to net earnings (loss).

## 8) STOCKHOLDERS' EQUITY

During the second quarter of 2017, the Company repurchased 4.7 million shares of its Class B Common Stock under its share repurchase program for \$300 million, at an average cost of \$63.64 per share. During the six months ended June 30, 2017, the Company repurchased 12.3 million shares of its Class B Common Stock for \$800 million, at an average cost of \$65.08 per share, leaving \$3.31 billion of authorization at June 30, 2017.

During the second quarter of 2017, the Company declared a quarterly cash dividend of \$.18 on its Class A and Class B Common Stock, resulting in total dividends of \$73 million, which were paid on July 1, 2017.

9) INCOME TAXES

The provision for income taxes represents federal, state and local, and foreign income taxes on earnings from continuing operations before income taxes and equity in loss of investee companies.

	Three Months		Six Months	
	Ended June 30,		Ended June 30,	
	2017	2016	2017	2016

Provision for income taxes	\$(169)	\$(173)	\$(307)	\$(379)
Effective income tax rate	29.2 %	31.2 %	25.9 %	31.0 %

(a) Reflects excess tax benefits associated with the exercise of stock options and vesting of RSUs. During the first quarter of 2017, the Company adopted FASB guidance which requires that the difference between the tax benefit from stock-based compensation expense and the deduction on the tax return be recognized within the income tax provision on the statement of operations. Previously, such difference was recognized in stockholders' equity on the balance sheet. This difference occurs because stock-based compensation expense is recorded based on the grant-date fair value of the award, whereas the tax deduction is based on the fair value on the date the stock option is exercised or the RSU vests. This guidance requires the income statement classification to be applied prospectively, and therefore, excess tax benefits for prior periods remain classified in stockholders' equity.

(b) For the six months ended June 30, 2017, primarily reflects tax benefits from the resolution of certain state income tax matters.

10) COMMITMENTS AND CONTINGENCIES

Guarantees

The Company has indemnification obligations with respect to letters of credit and surety bonds primarily used as security against non-performance in the normal course of business. At June 30, 2017, the outstanding letters of credit and surety bonds approximated \$101 million and were not recorded on the Consolidated Balance Sheet.

In the course of its business, the Company both provides and receives indemnities which are intended to allocate certain risks associated with business transactions. Similarly, the Company may remain contingently liable for various obligations of a business that has been divested in the event that a third party does not live up to its obligations under an indemnification obligation. The Company records a liability for its indemnification obligations and other contingent liabilities when probable and reasonably estimable.

Legal Matters

General. On an ongoing basis, the Company vigorously defends itself in numerous lawsuits and proceedings and responds to various investigations and inquiries from federal, state, local and international authorities (collectively, "litigation"). Litigation may be brought against the Company without merit, is inherently uncertain and always difficult to predict. However, based on its understanding and evaluation of the relevant facts and circumstances, the Company believes that the below-described legal matters and other litigation to which it is a party are not likely, in the aggregate, to have a material adverse effect on its results of operations, financial position or cash flows. Under the Separation Agreement between the Company and Viacom Inc., the Company and Viacom Inc. have agreed to defend and indemnify the other in certain litigation in which the Company and/or Viacom Inc. is named.

Claims Related to Former Businesses: Asbestos. The Company is a defendant in lawsuits claiming various personal injuries related to asbestos and other materials, which allegedly occurred principally as a result of exposure caused by various products manufactured by Westinghouse, a predecessor, generally prior to the early 1970s. Westinghouse was neither a producer nor a manufacturer of asbestos. The Company is typically named as one of a large number of defendants in both state and federal cases. In the majority of asbestos lawsuits, the plaintiffs have not identified which of the Company's products is the basis of a claim. Claims against the Company in which a product has been identified principally relate to exposures allegedly caused by asbestos-containing insulating material in turbines sold for power-generation, industrial and marine use.

Claims are frequently filed and/or settled in groups, which may make the amount and timing of settlements, and the number of pending claims, subject to significant fluctuation from period to period. The Company does not report as pending those claims on inactive, stayed, deferred or similar dockets which some jurisdictions have established for claimants who allege minimal or no impairment. As of June 30, 2017, the Company had pending approximately 33,240 asbestos claims, as compared with approximately 33,610 as of December 31, 2016 and 34,790 as of June 30, 2016. During the second quarter of 2017, the Company received approximately 1,030 new claims and closed or moved to an inactive docket approximately 1,390 claims. The Company reports claims as closed when it becomes aware that a dismissal order has been entered by a court or when the Company has reached agreement with the claimants on the material terms of a settlement. Settlement costs depend on the seriousness of the injuries that form the basis of the claims, the quality of evidence supporting the claims and other factors. In 2016, the Company's costs for settlement and defense of asbestos claims after insurance and taxes were approximately \$48 million. In 2015, as the result of an insurance settlement, insurance recoveries exceeded the Company's after tax costs for settlement and defense of asbestos claims by approximately \$5 million. The Company's costs for settlement and defense of asbestos claims may vary year to year and insurance proceeds are not always recovered in the same period as the insured portion of the expenses.

The Company believes that its reserves and insurance are adequate to cover its asbestos liabilities. This belief is based upon many factors and assumptions, including the number of outstanding claims, estimated average cost per claim, the breakdown of claims by disease type, historic claim filings, costs per claim of resolution and the filing of new claims. While the number of asbestos claims filed against the Company has remained generally flat in recent years, it is difficult to predict future asbestos liabilities, as events and circumstances may occur including, among others, the number and types of claims and average cost to resolve such claims, which could affect the Company's estimate of its asbestos liabilities.

Other. The Company from time to time receives claims from federal and state environmental regulatory agencies and other entities asserting that it is or may be liable for environmental cleanup costs and related damages principally relating to historical and predecessor operations of the Company. In addition, the Company from time to time receives personal injury claims including toxic tort and product liability claims (other than asbestos) arising from historical operations of the Company and its predecessors.

11) RESTRUCTURING CHARGES

During the year ended December 31, 2016, in a continued effort to reduce its cost structure, the Company initiated restructuring plans across several of its businesses, primarily for the reorganization of certain business operations. As a result, the Company recorded restructuring charges of \$30 million, reflecting \$19 million of severance costs and \$11 million of costs associated with exiting contractual obligations and other related costs. During the year ended December 31, 2015, the Company recorded restructuring charges of \$45 million, reflecting \$24 million of severance costs and \$21 million of costs associated with exiting contractual obligations and other related costs. As

of June 30, 2017, the cumulative settlements for the 2016 and 2015 restructuring charges were \$53 million, of which \$34 million was for severance costs and \$19 million was for costs associated with contractual obligations.

## 12) FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS

The Company's carrying value of financial instruments approximates fair value, except for notes and debentures, which are not recorded at fair value. At June 30, 2017 and December 31, 2016, the carrying value of the Company's senior debt was \$8.85 billion and the fair value, which is estimated based on quoted market prices for similar liabilities (Level 2) and includes accrued interest, was \$9.77 billion and \$9.51 billion, respectively.

The Company uses derivative financial instruments primarily to modify its exposure to market risks from fluctuations in foreign currency exchange rates. The Company does not use derivative instruments unless there is an underlying exposure and, therefore, the Company does not hold or enter into derivative financial instruments for speculative trading purposes.

### Foreign Exchange Contracts

Foreign exchange forward contracts have principally been used to hedge projected cash flows, in currencies such as the British Pound, the Euro, the Canadian Dollar and the Australian Dollar, generally for periods up to 24 months. The Company designates forward contracts used to hedge committed and forecasted foreign currency transactions as cash flow hedges. Gains or losses on the effective portion of designated cash flow hedges are initially recorded in other comprehensive income and reclassified to the statement of operations when the hedged item is recognized. Additionally, the Company enters into non-designated forward contracts to hedge non-U.S. dollar denominated cash flows.

At June 30, 2017 and December 31, 2016, the notional amount of all foreign exchange contracts was \$356 million and \$433 million, respectively.

The fair value of the Company's derivative instruments was not material to the Consolidated Balance Sheets for any of the periods presented.

The following tables set forth the Company's assets and liabilities measured at fair value on a recurring basis at June 30, 2017 and December 31, 2016. These assets and liabilities have been categorized according to the three-level fair value hierarchy established by the FASB, which prioritizes the inputs used in measuring fair value. Level 1 is based on publicly quoted prices for the asset or liability in active markets. Level 2 is based on inputs that are observable other than quoted market prices in active markets, such as quoted prices for the asset or liability in inactive markets or quoted prices for similar assets or liabilities. Level 3 is based on unobservable inputs reflecting the Company's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

Liabilities:

Deferred compensation	\$	—\$ 347	\$	—\$347
Foreign currency hedges	—	1	—	1
Total Liabilities	\$	—\$ 348	\$	—\$348

The fair value of foreign currency hedges is determined based on the present value of future cash flows using observable inputs including foreign currency exchange rates. The fair value of deferred compensation liabilities is determined based on the fair value of the investments elected by employees.

## Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition.

(Tabular dollars in millions, except per share amounts)

Management's discussion and analysis of the results of operations and financial condition of CBS Corporation (the "Company" or "CBS Corp.") should be read in conjunction with the consolidated financial statements and related notes in the Company's Annual Report filed on Form 10-K for the fiscal year ended December 31, 2016.

## Overview

## Business overview and strategy

The Company operates businesses which span the media and entertainment industries, including the CBS Television Network, cable networks, content production and distribution, television stations, internet-based businesses, and consumer publishing. The Company's principal strategy is to create and acquire premium content that is widely accepted by audiences and generate both advertising and non-advertising revenues from the distribution of this content on multiple media platforms and to various geographic locations. The Company continues to increase its investment in both Company-owned and acquired premium content to enhance its opportunities for revenue growth, which include exhibiting the Company's content on multiple digital platforms, including the Company's owned digital streaming services as well as third-party live television streaming offerings; expanding the distribution of its content internationally; and securing compensation from multichannel video programming distributors ("MVPDs") and television stations affiliated with the CBS Television Network. The Company also seeks to grow its advertising revenues by monetizing all content viewership as industry measurements evolve to reflect viewers' changing habits. The Company's continued ability to capitalize on these and other emerging opportunities will provide it with incremental advertising and non-advertising revenues.

For the second quarter of 2017, the Company's results benefited from growth in retransmission revenues and station affiliation fees as well as an increase in television licensing sales, reflecting a higher volume of titles available for sale as a result of recent increased investment in internally-produced series. However, the comparison with the prior year was impacted by the high-margin international licensing of five Star Trek library series in the second quarter of 2016.

For the three months ended June 30, 2017, the 9% increase in revenues reflects growth across all of the Company's major revenue streams, led by 16% growth in affiliate and subscription fee revenues, which was driven by 25% growth in station affiliation fees and retransmission revenues, as well as growth from new initiatives, including the Company's owned streaming subscription services, CBS All Access and the Showtime digital streaming

subscription offering, and third-party live television streaming services. Advertising revenues increased 4% as a result of the broadcast of the semifinals and finals of the NCAA Division I Men's Basketball Championship ("NCAA Tournament"), which are broadcast on the CBS Television Network every other year through 2032 under the current agreements with the NCAA and Turner Broadcasting System, Inc. Content licensing and distribution revenues benefited from a higher volume of television licensing sales and increased 12%, despite the international licensing sales of Star Trek library programming in the second quarter of 2016.

Operating income for the three months ended June 30, 2017 increased 3%, primarily driven by the growth in affiliate and subscription fee revenues, partially offset by lower non-sports advertising revenues. The operating income margin decreased one point to 21% for the second quarter of 2017 from 22% for the second quarter of 2016, primarily as a result of the mix of revenues. 2016 included higher-margin television licensing sales of Star Trek library programming, and 2017 was impacted by lower-margin revenues from the NCAA Tournament. Net earnings from continuing operations increased 6% and diluted earnings per share ("EPS") from continuing operations increased 18%, reflecting the higher operating income. Diluted EPS from continuing operations also benefited from lower weighted average shares outstanding in the second quarter of 2017 as a result of the Company's ongoing share repurchase program. Net earnings for the three months ended June 30, 2017 of \$58 million included a noncash charge of \$365 million, or \$.89 per diluted share, in discontinued operations to reduce the carrying value of CBS Radio to the value indicated by the stock valuation of Entercom Communications Corp. ("Entercom"). CBS Radio is classified as held for sale and therefore, in accordance with Financial Accounting Standards Board ("FASB") guidance, its carrying value will continue to be adjusted based on the trading price of Entercom's stock, which could result in future gains or losses.

For the six months ended June 30, 2017, revenues increased 1% despite a difficult comparison to 2016, which included CBS's broadcast of Super Bowl 50 and international licensing sales of five Star Trek library series. The growth was driven by 16% higher affiliate and subscription fee revenues, led by 27% growth in station affiliation fees and retransmission revenues, as well as growth from new initiatives, including the Company's owned streaming

subscription services, CBS All Access and the Showtime digital streaming subscription service, and third-

party live television streaming services. In addition, content licensing and distribution revenues increased 14%, reflecting growth in domestic television licensing sales and strong demand for the Company's content internationally, partially offset by the aforementioned 2016 sales of Star Trek library programming. Operating income decreased 3% for the six months ended June 30, 2017, primarily as a result of a mix of lower-margin revenues in 2017 compared to 2016. Net earnings from continuing operations increased 4% and diluted EPS from continuing operations increased 16%, as a result of tax benefits in 2017 from the resolution of certain state income tax matters and from the exercise of stock options and vesting of restricted stock units ("RSUs") as a result of the adoption of new accounting guidance during the first quarter of 2017, partially offset by lower operating income. Diluted EPS from continuing operations also benefited from lower weighted average shares outstanding in 2017 as a result of the Company's ongoing share repurchase program. Adjusted net earnings from continuing operations and adjusted diluted EPS from continuing operations, which exclude a tax benefit of \$22 million, or \$.05 per diluted share, from the resolution of state income tax matters, increased 2% and 13%, respectively. The Company reported a net loss of \$194 million for the six months ended June 30, 2017, which included a noncash charge of \$1.08 billion, or \$2.62 per diluted share, in discontinued operations to reduce the carrying value of CBS Radio to the value indicated by the stock valuation of Entercom. CBS Radio is classified as held for sale and therefore, in accordance with FASB guidance, its carrying value will continue to be adjusted based on the trading price of Entercom's stock, which could result in future gains or losses. Adjusted net earnings from continuing operations and Adjusted diluted EPS from continuing operations are non-GAAP financial measures. See pages 36 - 37 for details of the discrete items excluded from financial results, along with reconciliations of adjusted results to the most directly comparable financial measures in accordance with GAAP.

The Company generated operating cash flow from continuing operations of \$909 million for the six months ended June 30, 2017 compared with \$1.14 billion for the six months ended June 30, 2016. Free cash flow for the six months ended June 30, 2017 was \$841 million compared with \$1.07 billion for the same prior-year period. These decreases were driven by the benefit in 2016 from CBS's broadcast of Super Bowl 50, and discretionary pension contributions of \$100 million made during the first quarter of 2017 to prefund the Company's qualified plans. Free cash flow for the three and six months ended June 30, 2017 benefited from higher affiliate and subscription fee revenues. Free cash flow is a non-GAAP financial measure. See "Free Cash Flow" on pages 51 - 52 for a reconciliation of net cash flow provided by (used for) operating activities, the most directly comparable GAAP financial measure, to free cash flow.

#### Recent Developments

In connection with the Company's previously announced agreement to combine CBS Radio with Entercom in a merger following the separation of CBS Radio through a tax-free split-off, CBS Radio filed a registration statement on Forms S-4 and S-1 with the Securities and Exchange Commission ("SEC") on April 13, 2017, and two subsequent amendments to such registration statement, with the most recent amendment filed on July 10, 2017. The Company expects the transaction to be completed during the fourth quarter of 2017, subject to customary approvals and closing conditions. CBS Radio has been presented as a discontinued operation in the consolidated financial statements for all periods presented.

In July 2017, the Company issued \$400 million of 2.50% senior notes due 2023 and \$500 million of 3.375% senior notes due 2028. The Company used the net proceeds from these issuances to repay its \$400 million outstanding 1.95% senior notes which matured on July 1, 2017, and to redeem all of its \$300 million outstanding 4.625% senior notes due May 2018. The remaining net proceeds were used for general corporate purposes, including the repayment of short-term borrowings, including commercial paper. Subsequent to the July 2017 issuances, repayment and redemption of senior notes, the Company had \$9.04 billion of long-term debt outstanding, excluding capital leases, at

a weighted average interest rate of 4.43%.

#### Share Repurchases and Dividends

During the second quarter of 2017, the Company repurchased 4.7 million shares of its Class B Common Stock under its share repurchase program for \$300 million, at an average cost of \$63.64 per share. During the six months ended June 30, 2017, the Company repurchased 12.3 million shares of its Class B Common Stock for \$800 million, at an average cost of \$65.08 per share, leaving \$3.31 billion of authorization at June 30, 2017.

During the second quarter of 2017, the Company declared a quarterly cash dividend of \$.18 on its Class A and Class B Common Stock, resulting in total dividends of \$73 million, which were paid on July 1, 2017.

#### Reconciliation of Non-GAAP Measures

Results for the three and six months ended June 30, 2017 and the six months ended June 30, 2016 included discrete items that were not part of the normal course of operations. The following tables present non-GAAP financial measures, which exclude the impact of these discrete items, reconciled to the most directly comparable financial measures in accordance with GAAP. The Company believes that presenting its financial results adjusted for the impact of discrete items is relevant and useful for investors because it allows investors to view performance in a manner similar to the method used by the Company's management and provides a clearer perspective on the underlying performance of the Company.

Edgar Filing: CBS CORP - Form 10-Q

For the three months ended June 30, 2017, the 4% increase in advertising revenues reflects 7% growth in network advertising revenues, driven by CBS's broadcast of the semifinals and finals of the NCAA Tournament, partially offset by a decline in non-sports advertising revenues. The semifinals and finals of the NCAA Tournament are broadcast on the CBS Television Network every other year through 2032 under the current agreements with the NCAA and Turner Broadcasting System, Inc. For the six months ended June 30, 2017, the 13% decrease in advertising revenues primarily reflects the impact of two noncomparable sporting events that benefited 2016: the

broadcast of Super Bowl 50 and one additional NFL playoff game on the CBS Television Network, as well as lower political and non-sports advertising sales. These decreases were partially offset by the previously mentioned broadcast of additional NCAA Tournament games in the second quarter of 2017.

The Company recently completed the CBS Television Network's upfront advertising sales ("Upfront") for the 2017/2018 television broadcast season, which runs from the middle of September 2017 through the middle of September 2018. A significant portion of advertising spots for the CBS Television Network's non-sports programming is sold during May through July in the Upfront each year. This year's Upfront concluded with increases in pricing compared with the prior broadcast season, and a majority of the Company's deals will be based on a live-plus-seven day viewing window, which are expected to benefit advertising revenues during the 2017/2018 broadcast season. However, overall advertising revenues for the Company will be dependent on ratings for its programming and market conditions, including demand in the scatter advertising market, which is when advertisers purchase the remaining advertising spots closer to the broadcast of the related programming. Additionally, in the second half of 2017, the advertising revenue comparison with the prior year will continue to be negatively affected by the benefit in 2016 from strong political advertising.

#### Content Licensing and Distribution

For the three months ended June 30, 2017, content licensing and distribution revenues benefited from a higher volume of television licensing sales and increased 12%, despite the international licensing sales of five Star Trek library series in the second quarter of 2016. For the six months ended June 30, 2017, the 14% increase in content licensing and distribution revenues was driven by growth in domestic television licensing sales and strong demand for the Company's content internationally, partially offset by the licensing sales of Star Trek in 2016. Content licensing and distribution revenues for the three and six months ended June 30, 2017 benefited from additional titles available for sale as a result of the Company's recent increased investment in internally-produced series.

For the remainder of 2017, the content licensing and distribution revenues comparison will be impacted by fluctuations resulting from the timing of when Company-owned television series are made available for multiyear licensing agreements. Television license fee revenues are recognized at the beginning of the license period in which programs are made available to the licensee for exhibition.

#### Affiliate and Subscription Fees

For the three and six months ended June 30, 2017, the increase in affiliate and subscription fees of 16% in each period reflects growth in station affiliation fees and retransmission revenues, and higher revenues from new initiatives, including the Company's owned streaming subscription services, CBS All Access and the Showtime digital streaming subscription offering, and third-party live television streaming offerings.

Affiliate and subscription fees for the third quarter of 2017 are expected to include revenues from the Floyd Mayweather/Conor McGregor pay-per-view boxing event.

Over the next few years, the Company expects to benefit from the renewal of several of its agreements with station affiliates and MVPDs as well as from agreements with new distributors of live television streaming offerings. In addition, the Company's existing agreements with station affiliates and MVPDs include annual contractual increases. Together, these factors are expected to result in continued growth in affiliate and subscription fees over the next several years.

#### International Revenues

The Company generated approximately 15% and 19% of its total revenues from international regions for the three months ended June 30, 2017 and 2016, respectively, and generated approximately 14% and 15% of its total revenues from international regions for the six months ended June 30, 2017 and 2016, respectively.

#### Operating Expenses

Operating Expenses by Type	Three Months Ended June 30,						Increase/(Decrease)

Other	660	16	633	16	27	4		
Total Operating Expenses	\$4,078	100 %	\$4,030	100 %	\$ 48	1 %		

For the three months ended June 30, 2017, the 24% increase in programming expenses was driven by higher sports programming costs, mainly associated with CBS's broadcast of the semifinals and finals of the NCAA Tournament. For the six months ended June 30, 2017, the 8% decrease in programming expenses was driven by lower sports programming costs, as 2016 included costs associated with the broadcast of Super Bowl 50, which were partially offset by costs associated with the 2017 broadcast of additional NCAA Tournament games.

For the three and six months ended June 30, 2017, the increases in production expenses of 15% and 9%, respectively, reflect higher costs associated with the increase in television licensing revenues and a higher investment in internally-produced television series. For the six months ended June 30, 2017, these increases were partially offset by lower sports production costs as the first quarter of 2016 included CBS's broadcast of Super Bowl 50.

For the three and six months ended June 30, 2017, the increases in participation, distribution and royalty costs of 2% and 6%, respectively, primarily reflect higher residuals resulting from the increase in television licensing revenues.

Provision for income taxes	\$(169)	\$(173)	(2)	%	\$(307)	\$(379)	(19)	%
Effective income tax rate	29.2	%	31.2	%	25.9	%	31.0	%

(a) Reflects excess tax benefits associated with the exercise of stock options and vesting of RSUs. During the first quarter of 2017, the Company adopted FASB guidance which requires that the difference between the tax benefit from stock-based compensation expense and the deduction on the tax return be recognized within the income tax provision on the statement of operations. Previously, such difference was recognized in stockholders' equity on the balance sheet. This difference occurs because stock-based compensation expense is recorded based on the grant-date fair value of the award, whereas the tax deduction is based on the fair value on the date the stock option is exercised or the RSU vests. This guidance requires the income statement classification to be applied prospectively, and therefore, excess tax benefits for prior periods remain classified in stockholders' equity.

(b) For the six months ended June 30, 2017, primarily reflects tax benefits from the resolution of certain state income tax matters.

Diluted EPS from continuing operations	\$.97	\$.82	18	%	\$2.06	\$1.78	16	%

For the three months ended June 30, 2017, the 6% increase in net earnings from continuing operations was primarily the result of higher operating income. For the six months ended June 30, 2017, the 4% increase in net earnings from continuing operations reflects the previously mentioned tax benefits, which were partially offset by lower operating income. In addition to the higher earnings, the increases in diluted EPS from continuing operations for the three and six months ended June 30, 2017 of 18% and 16%, respectively, reflect lower weighted average shares outstanding as a result of the Company's ongoing share repurchase program.

(a) CBS Radio has been classified as held for sale beginning in the fourth quarter of 2016. Under ASC 360, assets held for sale are not depreciated or amortized.

FASB Accounting Standards Codification ("ASC") 360 requires that an asset classified as held for sale be measured each reporting period at the lower of its carrying amount or fair value less cost to sell. The ultimate value of the transaction with Entercom will be determined based on Entercom's stock price at the closing of the transaction. The Company recorded noncash charges of \$365 million and \$1.08 billion for the three and six months ended June 30, 2017, respectively, to record a valuation allowance to reduce the carrying value of CBS Radio to the value indicated by the stock valuation of Entercom. In accordance with ASC 360, the valuation allowance will continue to be adjusted based on the trading price of Entercom's stock, which could result in future gains or losses. A 10% change to Entercom's stock price would change the carrying value of CBS Radio by approximately \$100 million.

For the three and six months ended June 30, 2017, CBS Radio recorded a restructuring charge of \$7 million associated with the reorganization of certain business operations, reflecting severance costs and costs associated with exiting contractual obligations.

Segment Results of Operations

The Company presents operating income (loss) excluding restructuring charges and other operating items, net, each where applicable, ("Segment Operating Income") as the primary measure of profit and loss for its operating segments in accordance with FASB guidance for segment reporting. The Company believes the presentation of Segment Operating Income is relevant and useful for investors because it allows investors to view segment performance in a manner similar to the primary method used by the Company's management and enhances their ability to understand the Company's operating performance. The reconciliation of Segment Operating Income to the Company's consolidated Net earnings (loss) is presented in Note 13 (Reportable Segments) to the consolidated financial statements.

Capital expenditures	\$24	\$24	\$ —	— %

For the three months ended June 30, 2017, the 12% increase in revenues was driven by 38% growth in affiliate and subscription fees, led by higher station affiliation fees and growth from new initiatives, including CBS All Access and third-party live television streaming services. Content licensing and distribution revenues benefited from a higher volume of television licensing sales and grew 12%, despite the difficult comparison with the second quarter of 2016, which included international licensing sales of five Star Trek library series. Advertising revenues increased 6%, reflecting the broadcast of the semifinals and finals of the NCAA Tournament on the CBS Television Network in the second quarter of 2017, partially offset by a decline in non-sports advertising revenues.

For the three months ended June 30, 2017, operating income decreased 1%, primarily driven by the mix of revenues, reflecting higher-margin revenues in the second quarter of 2016, including the licensing of Star Trek, and lower-margin revenues from the NCAA Tournament in the second quarter of 2017.

Capital expenditures	\$38	\$37	\$ 1	3 %

For the six months ended June 30, 2017, revenues were comparable with the same prior-year period, despite the benefit in 2016 from the broadcast of Super Bowl 50. Affiliate and subscription fees increased 33%, reflecting higher station affiliation fees and growth from new initiatives, including CBS All Access and third-party live television streaming services. Content licensing and distribution revenues grew 16%, led by higher domestic licensing sales and strong demand for the Company's content internationally, due in part to increased investment in internally-produced series. These increases were partially offset by the benefit to 2016 from the sales of Star Trek library programming.

For the six months ended June 30, 2017, the 7% decrease in operating income was mainly a result of higher-margin revenues in 2016.

For the three months ended June 30, 2017, the 7% increase in revenues was driven by higher affiliate and subscription fees, led by subscription growth for the Showtime digital streaming subscription offering. The revenue growth also reflects higher international television licensing sales of Showtime original series. As of June 30, 2017, subscriptions totaled 73 million for Showtime Networks (including Showtime, The Movie Channel and Flix), 52 million for CBS Sports Network and 31 million for Smithsonian Networks.

For the three months ended June 30, 2017, the 11% increase in operating income primarily reflects revenue growth.

Cable Networks revenues for the third quarter of 2017 are expected to include revenues from the Floyd Mayweather/Conor McGregor pay-per-view boxing event.

For the three months ended June 30, 2017, the 4% increase in revenues was driven by growth in retransmission revenues. Advertising revenues benefited from CBS's broadcast of the semifinals and finals of the NCAA Tournament in the second quarter of 2017; however, advertising revenues decreased 2% mainly due to lower political advertising sales.

For the three months ended June 30, 2017, the 2% decrease in operating income mainly reflects the mix of revenues. Retransmission revenues have associated network affiliation costs paid to the CBS Television Network, whereas political advertising sales have a high operating income margin.

During the second half of 2017, the revenue comparison will continue to be negatively impacted by the benefit in 2016 from strong political advertising associated with U.S. federal and state elections.

The lower advertising revenues were partially offset by growth in retransmission revenues.

For the six months ended June 30, 2017, the 11% decrease in operating income primarily reflects the lower revenues, as well as the mix of revenues compared to the same prior-year period.

#### Free Cash Flow

Free cash flow is a non-GAAP financial measure. Free cash flow reflects the Company's net cash flow provided by (used for) operating activities before operating cash flow from discontinued operations and less capital expenditures. The Company's calculation of free cash flow includes capital expenditures because investment in capital expenditures is a use of cash that is directly related to the Company's operations. The Company's net cash flow provided by (used for) operating activities is the most directly comparable GAAP financial measure.

Management believes free cash flow provides investors with an important perspective on the cash available to the Company to service debt, make strategic acquisitions and investments, maintain its capital assets, satisfy its tax obligations, and fund ongoing operations and working capital needs. As a result, free cash flow is a significant measure of the Company's ability to generate long-term value. It is useful for investors to know whether this ability is being enhanced or degraded as a result of the Company's operating performance. The Company believes the presentation of free cash flow is relevant and useful for investors because it allows investors to evaluate the cash generated from the Company's underlying operations in a manner similar to the method used by management. Free cash flow is one of several components of incentive compensation targets for certain management personnel. In addition, free cash flow is a primary measure used externally by the Company's investors, analysts and industry

Management's Discussion and Analysis of  
Results of Operations and Financial Condition (Continued)  
(Tabular dollars in millions, except per share amounts)

peers for purposes of valuation and comparison of the Company's operating performance to other companies in its industry.

As free cash flow is not a measure calculated in accordance with GAAP, free cash flow should not be considered in isolation of, or as a substitute for, either net cash flow provided by (used for) operating activities as a measure of liquidity or net earnings (loss) as a measure of operating performance. Free cash flow, as the Company calculates it, may not be comparable to similarly titled measures employed by other companies. In addition, free cash flow as a measure of liquidity has certain limitations, does not necessarily represent funds available for discretionary use and is not necessarily a measure of the Company's ability to fund its cash needs. When comparing free cash flow to net cash flow provided by (used for) operating activities, the most directly comparable GAAP financial measure, users of this financial information should consider the types of events and transactions that are not reflected in free cash flow.

The following table presents a reconciliation of the Company's net cash flow provided by operating activities to free cash flow.

	Six Months Ended June 30,	
	2017	2016
Net cash flow provided by operating activities	\$938	\$1,251
Capital expenditures	(68 )	(69 )
Exclude operating cash flow from discontinued operations	29	112
Free cash flow	\$841	\$1,070

#### Repurchase of Company Stock and Cash Dividends

During the second quarter of 2017, the Company repurchased 4.7 million shares of its Class B Common Stock under its share repurchase program for \$300 million, at an average cost of \$63.64 per share. During the six months ended June 30, 2017, the Company repurchased 12.3 million shares of its Class B Common Stock for \$800 million, at an average cost of \$65.08 per share, leaving \$3.31 billion of authorization at June 30, 2017.

During the second quarter of 2017, the Company declared a quarterly cash dividend of \$.18 on its Class A and Class B Common Stock, resulting in total dividends of \$73 million, which were paid on July 1, 2017.

Capital Structure

The following table sets forth the Company's debt.

	At June 30, 2017	At December 31, 2016
Commercial paper	\$263	\$ 450
Senior debt (1.95% – 7.875% due 2017 – 2045)	8,853	8,850
Obligations under capital leases	68	75
Total debt	9,184	9,375
Less commercial paper	263	450
Less current portion of long-term debt	23	23
Total long-term debt, net of current portion	\$8,898	\$ 8,902

(a) At June 30, 2017 and December 31, 2016, the senior debt balances included (i) a net unamortized discount of \$49 million and \$52 million, respectively, (ii) unamortized deferred financing costs of \$41 million and \$43 million, respectively, and (iii) an increase in the carrying value of the debt relating to previously settled fair value hedges of \$2 million and \$5 million, respectively. The face value of the Company's senior debt was \$8.94 billion at both June 30, 2017 and December 31, 2016.

In July 2017, the Company issued \$400 million of 2.50% senior notes due 2023 and \$500 million of 3.375% senior notes due 2028. The Company used the net proceeds from these issuances to repay its \$400 million outstanding 1.95% senior notes that matured on July 1, 2017 and to redeem all of its \$300 million outstanding 4.625% senior notes due May 2018. The remaining proceeds were used for general corporate purposes, including the repayment of short-term borrowings, including commercial paper.

At June 30, 2017, the Company classified \$400 million of debt which matured in July 2017 and \$300 million of debt due May 2018 as long-term debt on the Consolidated Balance Sheet, as a result of the above-mentioned debt refinancing.

Commercial Paper

The Company had outstanding commercial paper borrowings under its \$2.5 billion commercial paper program of \$263 million and \$450 million at June 30, 2017 and December 31, 2016, respectively, each with maturities of less than 45 days. The weighted average interest rate for these borrowings was 1.42% at June 30, 2017 and 0.98% at December 31, 2016.

Credit Facility

At June 30, 2017, the Company had a \$2.5 billion revolving credit facility (the "Credit Facility") which expires in June 2021. The Credit Facility requires the Company to maintain a maximum Consolidated Leverage Ratio of 4.5x at the end of each quarter as further described in the Credit Facility. At June 30, 2017, the Company's Consolidated Leverage Ratio was approximately 2.9x.

The Consolidated Leverage Ratio is the ratio of the Company's indebtedness from continuing operations, adjusted to exclude certain capital lease obligations, at the end of a quarter, to the Company's Consolidated EBITDA for the trailing four consecutive quarters. Consolidated EBITDA is defined in the Credit Facility as operating income plus interest income and before depreciation, amortization and certain other noncash items.

Results of Operations and Financial Condition (Continued)  
(Tabular dollars in millions, except per share amounts)

The Credit Facility is used for general corporate purposes. At June 30, 2017, the Company had no borrowings outstanding under the Credit Facility and the remaining availability under the Credit Facility, net of outstanding letters of credit, was \$2.49 billion.

#### Liquidity and Capital Resources

The Company continually projects anticipated cash requirements for its operating, investing and financing needs as well as cash flows generated from operating activities available to meet these needs. The Company's operating needs include, among other items, commitments for sports programming rights, television and film programming, talent contracts, operating leases, interest payments, and pension funding obligations. The Company's investing and financing spending includes capital expenditures, share repurchases, dividends and principal payments on its outstanding indebtedness. The Company believes that its operating cash flows; cash and cash equivalents; borrowing capacity under the Credit Facility, which had \$2.49 billion of remaining availability at June 30, 2017; and access to capital markets are sufficient to fund its operating, investing and financing requirements for the next twelve months.

The Company's funding for short-term and long-term obligations will come primarily from cash flows from operating activities. Any additional cash funding requirements are financed with short-term borrowings, including commercial paper, and long-term debt. To the extent that commercial paper is not available to the Company, the existing Credit Facility provides sufficient capacity to satisfy short-term borrowing needs. The Company routinely assesses its capital structure and opportunistically enters into transactions to lower its interest expense, which could result in a charge from the early extinguishment of debt.

Subsequent to the refinancing of \$700 million of debt in July 2017, the Company's long-term debt obligations due over the next five years of \$2.10 billion is expected to be funded by cash generated from operating activities and the Company's ability to refinance its debt.

#### Legal Matters

**General.** On an ongoing basis, the Company vigorously defends itself in numerous lawsuits and proceedings and responds to various investigations and inquiries from federal, state, local and international authorities (collectively, "litigation"). Litigation may be brought against the Company without merit, is inherently uncertain and always difficult to predict. However, based on its understanding and evaluation of the relevant facts and circumstances, the Company believes that the below-described legal matters and other litigation to which it is a party are not likely, in the aggregate, to have a material adverse effect on its results of operations, financial position or cash flows. Under the Separation Agreement between the Company and Viacom Inc., the Company and Viacom Inc. have agreed to defend and indemnify the other in certain litigation in which the Company and/or Viacom Inc. is named.

**Claims Related to Former Businesses: Asbestos.** The Company is a defendant in lawsuits claiming various personal injuries related to asbestos and other materials, which allegedly occurred principally as a result of exposure caused by various products manufactured by Westinghouse, a predecessor, generally prior to the early 1970s. Westinghouse was neither a producer nor a manufacturer of asbestos. The Company is typically named as one of a large number of defendants in both state and federal cases. In the majority of asbestos lawsuits, the plaintiffs have not identified which of the Company's products is the basis of a claim. Claims against the Company in which a product has been identified principally relate to exposures allegedly caused by asbestos-containing insulating material in turbines sold for power-generation, industrial and marine use.

Claims are frequently filed and/or settled in groups, which may make the amount and timing of settlements, and the number of pending claims, subject to significant fluctuation from period to period. The Company does not

report as pending those claims on inactive, stayed, deferred or similar dockets which some jurisdictions have established for claimants who allege minimal or no impairment. As of June 30, 2017, the Company had pending approximately 33,240 asbestos claims, as compared with approximately 33,610 as of December 31, 2016 and 34,790 as of June 30, 2016. During the second quarter of 2017, the Company received approximately 1,030 new claims and closed or moved to an inactive docket approximately 1,390 claims. The Company reports claims as closed when it becomes aware that a dismissal order has been entered by a court or when the Company has reached agreement with the claimants on the material terms of a settlement. Settlement costs depend on the seriousness of the injuries that form the basis of the claims, the quality of evidence supporting the claims and other factors. In 2016, the Company's costs for settlement and defense of asbestos claims after insurance and taxes were approximately \$48 million. In 2015, as the result of an insurance settlement, insurance recoveries exceeded the Company's after tax costs for settlement and defense of asbestos claims by approximately \$5 million. The Company's costs for settlement and defense of asbestos claims may vary year to year and insurance proceeds are not always recovered in the same period as the insured portion of the expenses.

Filings include claims for individuals suffering from mesothelioma, a rare cancer, the risk of which is allegedly increased by exposure to asbestos; lung cancer, a cancer which may be caused by various factors, one of which is alleged to be asbestos exposure; other cancers, and conditions that are substantially less serious, including claims brought on behalf of individuals who are asymptomatic as to an allegedly asbestos-related disease. The predominant number of claims against the Company are non-cancer claims. The Company believes that its reserves and insurance are adequate to cover its asbestos liabilities. This belief is based upon many factors and assumptions, including the number of outstanding claims, estimated average cost per claim, the breakdown of claims by disease type, historic claim filings, costs per claim of resolution and the filing of new claims. While the number of asbestos claims filed against the Company has remained generally flat in recent years, it is difficult to predict future asbestos liabilities, as events and circumstances may occur including, among others, the number and types of claims and average cost to resolve such claims, which could affect the Company's estimate of its asbestos liabilities.

Other. The Company from time to time receives claims from federal and state environmental regulatory agencies and other entities asserting that it is or may be liable for environmental cleanup costs and related damages principally relating to historical and predecessor operations of the Company. In addition, the Company from time to time receives personal injury claims including toxic tort and product liability claims (other than asbestos) arising from historical operations of the Company and its predecessors.

Cautionary Statement Concerning Forward-Looking Statements

This quarterly report on Form 10-Q, including "Item 2 - Management's Discussion and Analysis of Results of Operations and Financial Condition," contains both historical and forward looking statements. All statements other than statements of historical fact are, or may be deemed to be, forward looking statements within the meaning of section 27A of the Securities Act of 1933 and section 21E of the Securities Exchange Act of 1934. These forward looking statements are not based on historical facts, but rather reflect the Company's current expectations concerning future results and events. These forward-looking statements generally can be identified by the use of statements that include phrases such as "believe," "expect," "anticipate," "intend," "plan," "foresee," "likely," "will," "may," "other similar words or phrases. Similarly, statements that describe the Company's objectives, plans or goals are or may be forward looking statements. These forward looking statements involve known and unknown risks, uncertainties and other factors that are difficult to predict and which may cause the actual results, performance or achievements of the Company to be different from any future results, performance and achievements expressed or implied by these statements. These risks, uncertainties and other factors include, among others: advertising market conditions generally; changes in the public acceptance of the Company's content; changes in technology and its effect on competition in the Company's markets; changes in the federal communications laws and regulations; the impact of piracy on the Company's products; the impact of consolidation in the market for the Company's content; the impact of negotiations or the loss of affiliation agreements or retransmission agreements; the impact of union activity, including possible strikes or work stoppages or the Company's inability to negotiate favorable terms for contract renewals; the ability to achieve the separation of the Company's radio business through a merger of CBS Radio with a subsidiary of Entercom Communications Corp. on the anticipated terms, which is subject to regulatory and Entercom stockholder approvals, an exchange offer and other customary closing conditions, and fluctuations in the market values of Entercom's Class A common stock and the Company's Class B Common Stock; other domestic and global economic, business, competitive and/or regulatory factors affecting the Company's businesses generally; and other factors described in the Company's filings made under the securities laws, including, among others, those set forth under "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2016 and in our Quarterly Reports on Form 10-Q, and in the Company's recent Current Reports on Form 8-K. There may be additional risks, uncertainties and factors that the Company does not currently view as material or that are not necessarily known. The forward looking statements included in this document are made as of the date of this document and the Company does not have any obligation to publicly update any forward looking statements to reflect subsequent events or circumstances.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have been no significant changes to market risk since reported in the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

Item 4. Controls and Procedures.

The Company's chief executive officer and chief operating officer have concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) of the Securities Exchange Act of 1934, as amended) were effective, based on the evaluation of these controls and procedures required by Rule 13a-15(b) or 15d-15(b) of the Securities Exchange Act of 1934, as amended.

No change in the Company's internal control over financial reporting occurred during the Company's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

## PART II – OTHER INFORMATION

## Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

## Company Purchases of Equity Securities

In November 2010, the Company announced that its Board of Directors approved a program to repurchase \$1.5 billion of the Company's common stock in open market purchases or other types of transactions (including accelerated stock repurchases or privately negotiated transactions). Since then, various increases totaling \$16.4 billion have been approved and announced, including most recently, an increase to the share repurchase program to a total availability of \$6.0 billion on July 28, 2016. Below is a summary of CBS Corp.'s purchases of its Class B Common Stock during the three months ended June 30, 2017 under this publicly announced share repurchase program.
