period plus, an additional twelve months for a total of seventeen months commencing in November 2004. EMEPMI retains its right to terminate the contract with at least 120 days notice period. The Company also announced that the RICHMOND has been awarded a contract by Helis Oil & Gas Company, L.L.C. to drill four firm wells plus options for drilling four additional wells. A copy of the press release announcing these contract is filed with this Form 8-K as Exhibit 99.1 and is incorporated herein by reference.

### ITEM 9. REGULATION FD DISCLOSURE

The ATWOOD EAGLE is in the process of completing its one firm well commitment for Apache Energy Limited in Australia and upon completing this well, the rig will immediately commence its drilling program for BHP Billiton Petroleum Pty. Ltd. ("BHP") which now includes three firm wells after BHP exercised the first of three option wells. The drilling of these three firm wells should take approximately 75 days to complete.

Additional information with respect to the Company's Contract Status Summary at April 15, 2004 is attached hereto as Exhibit 99.2 which is being furnished in accordance with Rule 101(e)(1) under Regulation FD and should not be deemed to be filed.

Statements contained in this report with respect to the future are forward-looking statements. These statements reflect management's reasonable judgment with respect to future events. Forward-looking statements involve risks and uncertainties. Actual results could differ materially from those anticipated as a result of various factors: the Company's dependence on the oil and gas industry; the risks involved in the construction of a rig; competition; operating risks; risks involved in foreign operations; risks associated with possible disruption in operations due to terrorism; risks associated with a possible disruption in operations due to war; and governmental regulations and environmental matters. A list of additional risk factors can be found in the Company's annual report on Form 10-K for the year ended September 30, 2003, filed with the Securities and Exchange Commission.

FOR IMMEDIATE RELEASE

Atwood Oceanics, Inc. (Houston-based International Offshore Drilling Contractor - NYSE: ATW) announced today that as stated in the Form 8-K filed on March 16, 2004 that ExxonMobil Exploration & Production Malaysia Inc. ("EMEPMI") and the Company will suspend the VICKSBURG contract upon completion of drilling on the current platform, which is expected to be early to mid May 2004, at which time, the rig will be immediately moved to Thailand to commence an approximately five months drilling program for Chevron Offshore (Thailand) Limited ("Chevron"). EMEPMI will reinstate the VICKSBURG contract immediately upon the rig being redelivered to Malaysia after completing the Chevron drilling program. The EMEPMI drilling commitment will include the estimated five months suspension period plus an additional twelve months, for a total of seventeen months commencing in November 2004. EMEPMI retains its right to terminate the contract with at least 120 days notice. The rig's current dayrate is \$64,500, with the Chevron contract providing for a dayrate of \$66,500. The dayrate once the rig returns to EMEPMI will be \$63,500. The VICKSBURG will remain on dayrate during the periods required to move the rig from Malaysia to Thailand and back to Malaysia.

The Company also announced that the RICHMOND has been awarded a contract by Helis Oil & Gas Company, L.L.C. ("Helis") to drill four firm wells plus options for drilling four additional wells. The rig will move to the first Helis drilling location immediately upon completing its current contract with Bois D'Arc Offshore Ltd., which should be completed in late June 2004. The drilling of the four firm wells is expected to take around 120 to 150 days to complete and if all four option wells are drilled, the contract could extend for around 240 to 300 days.

Statements contained in this release with respect to the future are forward-looking statements. These statements reflect management's reasonable judgment with respect to future events. Forward-looking statements involve risks and uncertainties. Actual results could differ materially from those anticipated as a result of various factors; the Company's dependence on the oil and gas industry; the risks involved in upgrade to the Company's rigs; competition; operating risks; risks involved in foreign operations; risks associated with possible disruptions in operations due to terrorism; and governmental regulations and environmental matters. A list of additional risk factors can be found in the Company's Annual Report on Form 10-K for the year ended September 30, 2003, filed with the Securities and Exchange Commission.
