# Magic Software Announces Fall Webinar Series To Promote Best Practices In Business Integration and Application Development

Ser	ies	Launch to	o Take	Place of	on Sei	otember	16th ii	n Con	iunction	with	ebizO

Irvine, California (September 3, 2003) - Magic Software Enterprises (NASDAQ: MGIC), a leading provider of state-of-the-art development and integration technology, announced today the launch of its Fall Webinar Series aimed at educating business and IT professionals about business process management (BPM) and integration, and application development. The Webinar series is free of charge for qualified professionals.

Further information and registration for the Fall Series is available at the Magic Software website - www.magicsoftware.com/home/webinars.

The first Webinar in the series Best Practices for Managing Complexity will be presented in conjunction with ebizQ on September 16th. Participants will be presented with best practices for managing complexity of data, application, and business process integration. They will learn how complexity effects integration requirements and the risks associated with increased complexity.

"Magic Software is excited to produce and host Webinar events and other key online services to educate IT and business professionals", said David Leichner, vice president of Worldwide Marketing at Magic Software. "Many professionals do not have the time to attend traditional seminars and need the ability to educate themselves online from their office or home. Our program has been designed to meet the needs of these busy professionals. We plan to deliver key online seminars and significantly expand our online educational tools.

Participants in the Webinar series will receive information on how to realize increased return on their investments, as well as means to modernize and integrate existing systems in a cost-efficient manner.

A list of upcoming topics includes:

\*

Rapid Business Process Development

\*

Business of Process Integration
*
Future Proofing the Enterprise for Business Change
*
XML, Components and Application Development
*
Building Business Integration Components
*
Service Oriented Development of Applications
*
Rapid Development of Web Services
About Magic Software Enterprises
Maria Softwara Enterprises a subsidiery of Formula Systems (Nasdag: FODTV), dayalans, markets and s

Magic Software Enterprises, a subsidiary of Formula Systems (**Nasdaq: FORTY**), develops, markets and supports software development, deployment and integration technology that enables enterprises to accelerate the process of building and deploying applications that can be rapidly customized and integrated with existing systems. Magic technology, applications and professional services are available through a global network of subsidiaries, distributors and Magic solutions partners in approximately 50 countries. The Company's North American subsidiary is located at 17310 Redhill Avenue #270, Irvine, CA 92614-5637, telephone (800) 345-6244, (949) 250-1718, fax (949) 250-7404, http://www.magicsoftware.com/.

Formula Systems is an international information technology company principally engaged, through its subsidiaries and affiliates, in providing software consulting services, developing proprietary software products and producing computer-based solutions.

Except for the historical information contained herein, the matters discussed in this news release include forward-looking statements that may involve a number of risks and uncertainties. Actual results may vary significantly based upon a number of factors including, but not limited to, risks in product and technology development, market acceptance of new products and continuing product conditions, both here and abroad, release and sales of new products by strategic resellers and customers, and other risk factors detailed in the Company s most recent annual report and other filings with the Securities and Exchange Commission.
