\*\*Reflects Participation Rate equal to the minimum Participation Rate set forth herein, for illustrative purposes.

The “total return” as used above is the number, expressed as a percentage, that results from comparing the payment at maturity

per \$1,000 principal amount note to \$1,000.

The hypothetical returns shown above apply only at maturity. These hypotheticals do not reflect fees or expenses that would be

associated with any sale in the secondary market. If these fees and expenses were included, the hypothetical returns shown

above would likely be lower.
