NUVEEN SENIOR INCOME FUND (NSL)

Managers' PERSPECTIVE

The Nuveen Senior Income Fund is managed by Gunther Stein and Lenny Mason of Symphony Asset Management, an affiliate of Nuveen Investments. This team has more than 25 years of combined investment management experience, much of it in evaluating and purchasing senior corporate loans and other high yield debt. Here Gunther and Lenny review the prevailing economic conditions and performance of NSL for the period ended July 31, 2003.

WHAT WAS THE GENERAL MARKET ENVIRONMENT FOR SENIOR CORPORATE DEBT OVER THE TWELVE MONTHS ENDED JULY 31, 2003?

The general market environment for senior corporate debt over the twelve months ended July 31, 2003, was characterized by periods of uncertainty and uneasiness as well as by periods of robust demand and strong market conditions. During the second half of 2002, the loan market felt the effects of generally deteriorating capital markets sentiment and decreased liquidity. From July to November 2002, the CSFB Leveraged Loan Index, a benchmark consisting of approximately \$150 billion of tradable term loans with at least one year to maturity and rated BBB or lower, posted a -2.93% return. In December, however, fundamentals began to

Edgar Filing: NUVEEN SENIOR INCOME FUND - Form N-CSR

improve. A growing belief in an economic recovery and an increased focus on yield led to greater demand for both high yield investments and senior loans, which caused the high yield and leveraged loan markets to begin to improve dramatically. The period from January 1, 2003, through July 31, 2003, was a good one for the loan market. Over this period, the CSFB Leveraged Loan Index posted a 7.25% return.

IN THIS ENVIRONMENT, HOW DID NSL PERFORM?

For the year ended July 31, 2003, the Nuveen Senior Income Fund produced a total return on net asset value (NAV) of 14.25%. This compares with the 8.92% total return posted by the CSFB Leveraged Loan Index over the same period.

The Fund's overall performance benefited from the solid performance of several stressed/distressed holdings. These included loans issued by Conseco, Centennial Cellular, RCN, AES and Century Cable (Adelphia). However, these results were offset to a degree by the weak performance of some of the Fund's holdings within the retail sector, including Micro Warehouse and Kmart.

2

WHAT STRATEGIES DID YOU EMPLOY IN MANAGING THE FUND?

Our team continued to pursue a value-oriented management strategy. We focused on what we judged to be high-quality loans with tangible assets that would help support the value of the loans. We employed an approach that began with a fundamental analysis to evaluate cash flow and asset quality, and we looked to leverage Symphony's extensive, proprietary quantitative evaluation and signaling tools. Over the course of the last six months of the reporting period, as the new-issue market became more robust, we focused on purchasing higher-quality new issue loans with strong asset coverage, solid business fundamentals and above average LIBOR spreads. We continuously evaluated the entire portfolio in an attempt to eliminate positions which, in our view, had the potential for credit problems, limited upside potential or significant downside risk.

WHAT IS YOUR STRATEGY GOING FORWARD?

Looking forward, we are optimistic about the prospects for continued improvement in the underlying fundamentals of the senior loan asset class. If the economy continues to recover, leveraged companies may enjoy improvements in their earnings power, which may cause default risks to subside. Additionally, if short term interest rates rise as the economy improves, the senior loan asset class may benefit since leveraged loans are floating rate instruments.

In this dynamic environment, we will continue to focus on investing in higher quality loans, seeking to purchase credits that may benefit from an economic recovery and looking to sell stressed holdings that have appreciated meaningfully and may have limited additional upside potential. Currently, we generally favor the gaming, consumer products and industrial segments, as asset levels remain strong and profitability is expected to continue to improve.

in the Fund's portfolio may occur. As a result, the actual remaining maturity of Senior Loans held in the Fund's portfolio may be substantially less than the stated maturities shown. The Fund estimates that the actual average maturity of the Senior Loans held in its portfolio will be approximately 18-24 months.

Notes to FINANCIAL STATEMENTS

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

Nuveen Senior Income Fund (the "Fund") is a non-diversified, closed-end management investment company registered under the Investment Company Act of 1940, as amended. The Fund's Common shares are listed on the New York Stock Exchange and trade under the ticker symbol "NSL". The Fund was organized as a Massachusetts business trust on August 13, 1999.

Edgar Filing: NUVEEN SENIOR INCOME FUND - Form N-CSR

The Fund seeks to provide a high level of current income by investing primarily in senior secured loans whose interest rates float or adjust periodically based on a benchmark interest rate index. The Fund seeks to increase the income available for distribution to Common shareholders by utilizing financial leverage.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements in accordance with accounting principles generally accepted in the United States.

Investment Valuation

The prices of senior loans, bonds and other securities in the Fund's investment portfolio are generally provided by one or more independent pricing services approved by the Fund's Board of Trustees. The pricing services typically value exchange-listed securities at the last sale price on that day; and value senior loans, bonds and other securities traded in the over-the-counter market at the mean of the highest bona fide bid and lowest bona fide ask prices when current quotations are readily available. The pricing services value senior loans, bonds and other securities for which current quotations are not readily available at fair value using a wide range of market data and other information and analysis, including the obligor's credit characteristics considered relevant by such pricing service to determine valuations. The Board of Trustees of the Fund has approved procedures which permit Nuveen Institutional Advisory Corp. (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc. (formerly, The John Nuveen Company), to determine the fair value of securities for which the applicable pricing service or services is not providing a price, using market data and other factors such as the obligor's credit characteristics, and to override the price provided by the independent pricing service in certain limited circumstances. Short-term investments which mature within 60 days are valued at amortized cost, which approximates market value.

The senior loans in which the Fund primarily invests are generally not listed on any exchange and the secondary market for those senior loans is comparatively illiquid relative to markets for other fixed income securities. Because of the comparatively illiquid markets for senior loans, the value of a senior loan, determined as described above, may differ significantly from the value that would have been determined had there been an active market for that senior loan.

Investment Transactions

Investment transactions are recorded on a trade date basis.

Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts, is recorded on an accrual basis. Interest income also includes paydown gains and losses on mortgage and asset-backed securities. Facility fees on senior loans purchased are treated as market discounts. Market premiums and discounts are amortized over the expected life of each respective borrowing. Fees consists primarily of amendment fees. Amendment fees are earned as compensation for evaluating and accepting changes to the original credit agreement.

Income Taxes

The Fund intends to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its net investment income to its shareholders. Therefore, no federal income tax provision is required.

Dividends and Distributions to Common Shareholders

The Fund intends to declare monthly income distributions to Common shareholders. Net realized capital gains from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders of net investment income and net realized capital gains, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from accounting principles generally accepted in the United States.

Taxable Auctioned Preferred Shares

The Fund has issued and outstanding 1,840 Series Th, \$25,000 stated value Taxable Auctioned Preferred shares. The dividend rate paid on the Taxable Auctioned Preferred shares may change every 28 days, as set pursuant to a dutch auction process by the auction agent, and is payable at or near the end of each rate period.

Derivative Financial Instruments

The Fund may invest in certain derivative financial instruments including futures, forward, swap and option contracts, and other financial instruments with similar characteristics. Although the Fund is authorized to invest in such financial instruments, and may do so in the future, it did not make any such investments during the fiscal year ended July 31, 2003.

Repurchase Agreements

In connection with transactions in repurchase agreements, it is the Fund's policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral by the Fund may be delayed or limited.

Custodian Fee Credit

The Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on the Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

Notes to FINANCIAL STATEMENTS (continued)

4. INCOME TAX INFORMATION

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to the treatment of paydown gains and losses on mortgage and asset-backed securities and timing differences in recognizing certain gains and losses on security transactions.

At July 31, 2003, the cost of investments owned was \$395,825,228.

The net unrealized depreciation of investments at July 31, 2003, aggregated \$21,556,344 of which \$5,229,258 related to appreciated securities and \$26,785,602 related to depreciated securities.

The tax components of undistributed net ordinary income and net realized gains at July 31, 2003, were as follows:

Undistributed net ordinary income *	\$ 2,019,827
Undistributed net long-term capital gains	--
=====	

* Net ordinary income consists of taxable income derived from dividends, interest and net short-term capital gains, if any.

The tax character of distributions paid during the fiscal years ended July 31, 2003, and July 31, 2002, was designated for purposes of the dividends paid deduction as follows:

2003

Distributions from net ordinary income *	\$16,734,378
Distributions from net long-term capital gains	--
=====	

2002

Distributions from net ordinary income *	\$22,353,020
Distributions from net long-term capital gains	--
=====	

Edgar Filing: NUVEEN SENIOR INCOME FUND - Form N-CSR

* Net ordinary income consists of taxable income derived from dividends, interest and net short-term capital gains, if any.

At July 31, 2003, the Fund had an unused capital loss carryforward of \$28,988,118 available to be applied against future capital gains, if any. If not applied, \$18,283,863 of the carryforward will expire in 2010 and \$10,704,255 will expire in 2011.

5. MANAGEMENT FEES AND OTHER TRANSACTIONS WITH AFFILIATES

Under the Fund's investment management agreement with the Adviser, the Fund pays an annual management fee, payable monthly, of .8500%, which is based upon the average daily managed assets of the Fund. "Managed Assets" means the average daily gross asset value of the Fund, minus the sum of the Fund's accrued and unpaid dividends on any outstanding Taxable Auctioned Preferred shares and accrued liabilities (other than the principal amount of any borrowings incurred, commercial paper or notes issued by the Fund and the liquidation preference of any outstanding Taxable Auctioned Preferred shares).

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Adviser has entered into a Sub-Advisory Agreement with Symphony Asset Management ("Symphony"), an indirect wholly owned subsidiary of Nuveen Investments, Inc. (formerly, The John Nuveen Company), under which Symphony manages the investment portfolio of the Fund. Symphony is compensated for its services to the Fund from the management fee paid to the Adviser.

The Fund pays no compensation directly to those of its Trustees who are affiliated with the Adviser or to their officers, all of whom receive remuneration for their services to the Fund from the Adviser or its affiliates.

16

The Adviser has agreed to waive part of its management fees or reimburse certain expenses of the Fund in an amount equal to .45% of the average daily Managed Assets for the period October 29, 1999 (commencement of operations) through October 31, 2004, .35% of the average daily Managed Assets for the year ended October 31, 2005, .25% of the average daily Managed Assets for the year ended October 31, 2006, .15% of the average daily Managed Assets for the year ended October 31, 2007, .10% of the average daily Managed Assets for the year ended October 31, 2008, and .05% of the average daily Managed Assets for the year ended October 31, 2009. The Adviser has not agreed to reimburse the Fund for any portion of its fees and expenses beyond October 31, 2009.

6. COMMITMENTS

Pursuant to the terms of certain of the variable rate senior loan agreements, the Fund had unfunded loan commitments of approximately \$8.0 million as of July 31, 2003. The Fund generally will maintain with its custodian, cash, liquid securities and/or liquid senior loans having an aggregate value at least equal to the amount of unfunded loan commitments.

7. SENIOR LOAN PARTICIPATION COMMITMENTS

The Fund invests primarily in assignments, participations, or acts as a party to the primary lending syndicate of a variable rate senior loan interest to corporations, partnerships, and other entities. If the Fund purchases a participation of a senior loan interest, the Fund would typically enter into a

Edgar Filing: NUVEEN SENIOR INCOME FUND - Form N-CSR

contractual agreement with the lender or other third party selling the participation, but not with the borrower directly. As such, the Fund assumes the credit risk of the Borrower, Selling Participant or other persons interpositioned between the Fund and the Borrower. At July 31, 2003, the Fund held participation commitments with Bear, Stearns & Co. Inc. and Morgan Stanley. At July 31, 2003, the par values of the commitments were \$2 million and \$1.64 million, respectively, while the market values were approximately \$1.7 million and \$1.4 million, respectively.

8. BORROWINGS

In accordance with its current investment policies, the Fund may utilize financial leverage for investment purposes in an amount currently anticipated to represent approximately 40% of the Fund's total assets, and in no event exceeding 50% of the Fund's total assets.

Through June 19, 2003, the Fund entered into a \$150 million commercial paper program with Nuveen Funding, LLC, a Delaware limited liability company whose sole purpose was the issuance of commercial paper. On June 20th, 2003, the commercial paper program with Nuveen Funding, LLC, was terminated. On June 20th, 2003, the Fund entered into a commercial paper program with Bank One's conduit financing agency, Falcon Asset Securitization Corp. ("Falcon"), whose sole purpose is the issuance of high grade commercial paper, the proceeds of which are used to make advances to the fund. The Fund is one of many borrowers who comprise Falcon's total borrowing base. For the fiscal year ended July 31, 2003, the average daily balance of borrowings under the commercial paper program agreement was \$103 million with an average interest rate of 1.57%.

The Fund has also entered into a \$110 million liquidity facility. If the facility is utilized, interest on the borrowings would be charged a variable interest rate. An unused commitment fee of .095% on 102% of the unused portion of the \$110 million facility is charged. There were no borrowings under the revolving credit agreement during the fiscal year ending July 31, 2003.

Cash paid for interest during the fiscal year ended July 31, 2003, was \$1,654,532.

9. SUBSEQUENT EVENT - DISTRIBUTIONS TO COMMON SHAREHOLDERS

The Fund declared a dividend distribution of \$.0430 per Common share from its net investment income which was paid on September 2, 2003, to shareholders of record on August 15, 2003.

Build Your Wealth
AUTOMATICALLY

Sidebar text: NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power compounding. It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

Edgar Filing: NUVEEN SENIOR INCOME FUND - Form N-CSR

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at 95% of the then-current market price or at net asset value, whichever is higher. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBILITY

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

GLOSSARY OF TERMS USED IN THIS REPORT

Average Annual Total Return: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return (including change in NAV and reinvested dividends) that would have been necessary on an annual basis to equal the investment's actual performance over the time period being considered.

Net Asset Value (NAV): A fund's NAV is calculated by subtracting the liabilities of the fund from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

The Fund intends to repurchase shares of its own common or preferred stock in the future at such times and in such amounts as is deemed advisable. No shares were repurchased during the fiscal year ended July 31, 2003. Any future repurchases will be reported to shareholders in the next annual or semiannual report.
