Chairman's  
LETTER TO SHAREHOLDERS

Once again, I am pleased to report that over the six-month period covered by this semiannual report your Fund continued to provide you with monthly tax-free income and an attractive total return. For more details about the management strategy and performance of your Fund, please see the Portfolio Manager's Comments and Performance Overview sections of this report.

As I noted in my last letter to you, our conversations with financial advisers and investors suggest that many of you may be wondering whether longer-term interest rates will soon begin to rise substantially, mirroring the rise that has taken place over the past year in shorter-term rates. If longer-term rates do begin to rise significantly, some of you also may be wondering if that makes this a good time to adjust your holdings of fixed-income investments. We can't answer these questions for you - no one knows what the future will bring.

"IN FACT, A WELL-DIVERSIFIED PORTFOLIO MAY ACTUALLY HELP TO REDUCE YOUR OVERALL INVESTMENT RISK."

From our experience, we do know that a well-balanced portfolio, structured and carefully monitored with the help of a trusted investment professional, can be an important component in helping you achieve your long-term financial goals. In fact, a well-diversified portfolio may actually help to reduce your overall investment risk. That is one reason why we believe that a municipal bond investment like your Nuveen Fund can be an important building block in a comprehensive investment program designed to perform well in a variety of market conditions.

As in past reports, I urge you to consider receiving future Fund reports and other Fund information by e-mail and the Internet. Not only will you be able to receive the information faster, but this also may help lower your Fund's expenses. Sign up is quick and easy - see the inside front cover of this report for instructions.

Some of you may have heard that in April, 2005, The St. Paul Travelers Companies, Inc., which had owned 79% of Nuveen Investments, Inc. (the parent of your Fund's investment adviser) completed a public offering of a substantial portion of its equity stake in Nuveen. At the same time, St. Paul Travelers also entered into agreements to sell the balance of its shares in Nuveen to us or to others at a future date.

## Edgar Filing: NUVEEN NEW YORK DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSRS

These transactions will have no impact on the investment objectives or management of your Fund. However, taken as a whole they are considered to be an "assignment" of your Fund's investment management agreement. This means that you and your fellow Fund shareholders soon will be asked to formally approve the continuation of your Fund's management contract with Nuveen. We will be sending you more information about this process in the coming weeks.

At Nuveen Investments, our mission continues to be to assist you and your financial advisor by offering investment services and products that can help you to secure your financial objectives. We are grateful that you have chosen us as a partner as you pursue your financial goals, and we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

/s/ Timothy R. Schwertfeger

Nuveen New York Municipal Closed-End Exchange-Traded Funds  
(NNY, NNP, NAN, NXK)

Portfolio Manager's  
COMMENTS

Portfolio manager Paul Brennan reviews key investment strategies and the semiannual performance of these four New York Funds. Paul, who has 14 years of investment experience, including 8 years with Nuveen, has managed NNY, NNP and NAN since 1999, and NXK since its inception in 2001.

WHAT KEY STRATEGIES WERE USED TO MANAGE THESE FUNDS DURING THE SIX MONTHS ENDED MARCH 31, 2005?

Between October 2004 and March 2005, the Federal Reserve implemented four quarter-point increases in the fed funds rate, raising this short-term interest rate target to 2.75% from 1.75%. (On May 3, 2005, after the close of this reporting period, the fed funds rate was raised to 3.00%.) With the market anticipating increases in interest rates throughout the period, our focus centered on finding bonds that, in our judgment, would add immediate value to the Funds' portfolios and that also had the potential to perform well under a variety of future market scenarios.

Overall, our purchase activity focused on finding bonds in the long-intermediate part of the yield curve - that is, bonds that mature in 20 years or more. In our opinion, this part of the yield curve generally offered the most attractive opportunities and the best values during this reporting period.

During this six-month reporting period, municipal issuance in New York jumped 67% over that of the previous six months, with almost \$23 billion in new issues during this period. As a result, we found a number of opportunities to make trades that we believed would benefit the Funds. The majority of our new purchases over this time period were in insured or highly-rated securities, reflecting the high overall quality of the new issue supply. One example included the insured bonds issued by Sales Tax Asset Receivable Corporation

Edgar Filing: NUVEEN NEW YORK DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSRS

(STAR Corp.), which were added to all four of the Funds. Other additions during this period included insured New York City bonds and insured Puerto Rico debt which, like bonds from New York issuers, provide New York residents with income free

4

from federal, state and local taxes. Some of these additions were financed with the proceeds from sales of pre-refunded bonds and bonds with shorter maturities, which generally tended to underperform in the interest rate environment of the six month period.

Despite the large amount of new issues, the municipal market in New York did not provide many opportunities to purchase bonds rated BBB and lower during this period. Despite this, we sought to maintain some exposure to lower credit quality securities, which tended to help overall performance since lower-rated bonds were generally among the best performers during this reporting period.

HOW DID THE FUNDS PERFORM?

Individual results for the Nuveen New York Funds, as well as for comparative indexes, are presented in the accompanying table.

\* Six-month returns are cumulative; returns for one year, five years, and ten years are annualized.

Past performance is not predictive of future results. Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares.

For additional information, see the individual Performance Overview for your Fund in this report.

1 NNY is an unleveraged Fund; the remaining three Funds are leveraged.

2 The Lehman Brothers New York Tax-Exempt Bond Index is an unleveraged,

unmanaged index comprising a broad range of investment-grade New York municipal bonds. Results for the Lehman index do not reflect any expenses.

- 3 The Lipper New York Municipal Debt Funds category average is calculated using the returns of all closed-end exchange-traded funds in this category for each period as follows: 6 months, 22 funds; 1 year, 22 funds; 5 years, 11 funds; and 10 years, 9 funds. Fund and Lipper returns assume reinvestment of dividends.

5

For the six months ended March 31, 2005, the cumulative returns on net asset value (NAV) for all four of the New York Funds covered in this report outperformed the return on the Lehman Brothers New York Tax-Exempt bond Index. Each of the Funds underperformed the average return for the Lipper New York Municipal Debt Funds over this period.

One of the primary factors benefiting the six-month performance of NNP, NAN and NXX relative to that of the Lehman Brothers index was these Funds' use of financial leverage. NNY, like the Lehman Brothers index, is unleveraged. While leveraging can add volatility to the Funds' NAVs and share prices, especially during periods when interest rates rise, this strategy can also provide opportunities for additional income and total returns for common shareholders when short-term interest rates remain relatively low and long-term rates fall or remain fairly constant, as they did during this reporting period.

Although short-term rates remained relatively low, they did begin to rise over this six-month period in response to increases in the fed funds rate. At the same time, longer-term interest rates ended the six-month period at virtually the same level as they began it. This meant that bonds with longer maturities generally tended to perform better than securities with shorter maturities over this reporting period, since bond prices move in the opposite direction from interest rates. This affected the performance of NNY in particular, since this Fund had more exposure to the short end of the yield curve than the other three Funds.

As noted, all of the Funds benefited from their allocations of lower quality bonds during this period, with bonds rated BBB and below investment-grade generally outperforming higher credit quality sectors as the economy improved. Among the lower-rated holdings making positive contributions to the Funds' cumulative six-month returns were hospital

6

bonds. The healthcare sector ranked second in terms of performance among the Lehman municipal revenue sectors for the period. In addition, each of the Funds had a small exposure to bonds issued for British Airways and/or American Airlines, which posted exceptionally strong performance for the six months. Bonds backed by the 1998 master tobacco settlement agreement also produced solid performance during this period, as the litigation environment improved and the supply/demand situation drove tobacco bond prices higher. As of March 31, 2005, all of these Funds held between 4% and 5% of their portfolios in uninsured and unenhanced tobacco bonds.

The performance of each of these Funds was also helped to some extent by several advance refundings of their holdings during this period, which resulted in price

appreciation as well as enhanced credit quality. At the same time, however, their holdings of older pre-refunded bonds tended to underperform the general municipal market during this period, due primarily to the shorter effective maturities of these bonds.

Finally, all of the portfolios were impacted positively during this period by Moody's November 2004 upgrade of the credit rating on New York State general obligation bonds to A1 from A2. That rating was reconfirmed in February 2005, as was Standard & Poor's AA rating for the state. In addition, on April 4, 2005, following the end of this reporting period, Moody's upgraded the rating on New York City general obligation debt to A1 from A2, the highest rating ever given to the city by Moody's. The rating agency cited New York City's ability to make difficult budgetary and fiscal policy decisions in recovering from one of the most serious fiscal crises in decades as the primary reason for the upgrade.

7

HOW WERE THE FUNDS POSITIONED IN TERMS OF CREDIT QUALITY AND BOND CALLS AS OF MARCH 31, 2005?

We continued to believe that, given the current geopolitical and economic climate, maintaining strong credit quality was an important requirement. As of March 31, 2005, all four of these Funds continued to offer excellent credit quality, with allocations of bonds rated AAA/U.S. guaranteed and AA ranging from 75% in NNY, NNP and NXK to 79% in NAN.

As of March 31, 2005, potential call exposure for the period April 2005 through the end of 2006 ranged from 1% in NAN and NXK to 4% in NNP and 8% in NNY. The number of actual bond calls in all of these Funds depends largely on future market interest rates.

8

Dividend and Share Price  
INFORMATION

As short-term interest rates remained relatively low, the leveraged structures of NAN and NXK continued to support their dividend-paying capabilities, and the dividends on these two Funds remained stable throughout this six-month reporting period. The extent of the benefit of leverage is tied in part to the short-term rates leveraged Funds pay their MuniPreferred(R) shareholders. During periods of low short-term rates, leveraged Funds generally pay lower dividends to their MuniPreferred shareholders, which can leave more earnings to support common share dividends. In NNP, however, the combination of the Federal Reserve's increases in short-term interest rates--which led to higher borrowing costs for the Fund--and greater levels of trading activity put pressure on NNP's dividend, resulting in a single dividend cut in March 2005. The unleveraged NNY paid a steady dividend over this period.

In addition, due to capital gains generated by normal portfolio activity, common shareholders of the following Funds received capital gains and/or net ordinary income distributions at the end of December 2004 as indicated:

LONG-TERM  
CAPITAL GAINS

NNY	\$ --	\$0.0012
NNP	\$0.0798	\$0.0021
NXK	\$0.0618	\$0.0006

All of the Funds in this report seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of March 31, 2005, all of the Funds in this report had positive UNII balances for both financial statement and tax purposes.

At the end of the reporting period, the Funds' share prices were trading at discounts to their NAVs as shown in the accompanying chart:

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The New York funds (the "Funds") covered in this report and their corresponding Common share stock exchange symbols are Nuveen New York Municipal Value Fund, Inc. (NNY), Nuveen New York Performance Plus Municipal Fund, Inc. (NNP), Nuveen New York Dividend Advantage Municipal Fund (NAN) and Nuveen New York Dividend Advantage Municipal Fund 2 (NXK). All of the Funds' Common shares trade on the

## Edgar Filing: NUVEEN NEW YORK DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSRS

New York Stock Exchange, with the exception of New York Dividend Advantage 2's (NXX) Common shares which trade on the American Stock Exchange. The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end management investment companies.

Each Fund seeks to provide current income exempt from both regular federal and New York state income taxes by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities within the state of New York.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles.

### Investment Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Directors/Trustees. When price quotes are not readily available (which is usually the case for municipal securities), the pricing service or, in the absence of a pricing service for a particular security, the Board of Directors/Trustees of the Funds, or its designee, may establish fair market value using a wide variety of market data including yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from securities dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant by the pricing service or the Board of Directors'/Trustees' designee. Temporary investments in securities that have variable rate and demand features qualifying them as short-term securities are valued at amortized cost, which approximates market value.

### Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from transactions are determined on the specific identification method. Securities purchased on a when-issued or delayed delivery basis may have extended settlement periods. Any securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At March 31, 2005, New York Value (NNY), New York Performance Plus (NNP) and New York Dividend Advantage (NAN) had outstanding when-issued purchase commitments of \$781,695, \$1,954,238 and \$3,110,007, respectively. There were no such outstanding purchase commitments in New York Dividend Advantage 2 (NXX).

### Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also includes paydown gains and losses, if any.

### Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal and New York state income taxes, to retain such tax-exempt status when distributed to shareholders of the Funds. Net realized capital gains and ordinary income distributions paid

by the Funds are subject to federal taxation.

Notes to  
FINANCIAL STATEMENTS (Unaudited) (continued)

Dividends and Distributions to Common Shareholders

Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

Preferred Shares

New York Value (NNY) is not authorized to issue Preferred shares. The Funds below have issued and outstanding Preferred shares, \$25,000 stated value per share, as a means of effecting financial leverage. Each Fund's Preferred shares are issued in one or more Series. The dividend rate on each Series is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable weekly at the end of each rate period. The number of Preferred shares outstanding, by Series and in total, for each Fund is as follows:

	NEW YORK PERFORMANCE PLUS (NNP)	NEW YORK DIVIDEND ADVANTAGE (NAN)	NEW YORK DIVIDEND ADVANTAGE 2 (NXX)

Derivative Financial Instruments

The Funds may invest in certain derivative financial instruments including futures, forward, swap and option contracts, and other financial instruments with similar characteristics. Although the Funds are authorized to invest in such financial instruments, and may do so in the future, they did not make any such investments during the six months ended March 31, 2005.

Custodian Fee Credit

Edgar Filing: NUVEEN NEW YORK DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSRS

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Indemnifications

Under the Funds' organizational documents, its Officers and Directors/Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Effective January 1, 2005, Nuveen Advisory Corp. ("NAC"), the Funds' previous Adviser, and its affiliate, Nuveen Institutional Advisory Corp. ("NIAC"), were merged into Nuveen Asset Management ("NAM"), each wholly owned subsidiaries of Nuveen Investments, Inc. ("Nuveen"). As a result of the merger, NAM is now the Adviser to all funds previously advised by either NAC or NIAC.

As approved by the Board of Directors/Trustees, effective August 1, 2004, a complex-wide management fee structure was adopted for all funds sponsored by the Adviser, or its predecessor and its affiliates. This fee structure separates each fund's management fee into two components - a complex-level component, based on the aggregate amount of all fund assets managed by the Adviser, and a specific fund-level component, based only on the amount of assets within each individual fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser. Under no circumstances will this pricing structure result in a fund paying management fees at a rate higher than would otherwise have been applicable had the complex-wide management fee structure not been implemented. As of April 30, 2005, the complex-level fee rate was .1915%; that is, the funds' effective management fees were reduced by approximately .0085%.

Effective August 1, 2004, New York Value (NNY) pays an annual fund-level fee, payable monthly, of .15% of the average daily net assets of the Fund, as well as 4.125% of the gross interest income of the Fund.

Effective August 1, 2004, the annual fund-level fee, payable monthly, for each of the Funds (excluding New York Value (NNY)) is based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

AVERAGE DAILY NET ASSETS (INCLUDING NET ASSETS ATTRIBUTABLE TO PREFERRED SHARES)	NEW YORK PERFORMANCE PLUS (NNP) FUND-LEVEL FEE RATE
For the first \$125 million	.4500%

For the next \$1 billion	.4000

Edgar Filing: NUVEEN NEW YORK DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSRS

For net assets over \$2 billion .3750  
 =====

Effective August 1, 2004, the annual complex-level fee, payable monthly, which is additive to the fund-level fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund assets managed as follows:

COMPLEX-LEVEL ASSETS (1)	COMPLEX-LEVEL FEE RATE
For the first \$55 billion	.2000%
For the next \$1 billion	.1800
For the next \$1 billion	.1600
For the next \$3 billion	.1425
For the next \$3 billion	.1325
For the next \$3 billion	.1250
For the next \$5 billion	.1200
For the next \$5 billion	.1175
For the next \$15 billion	.1150
For Managed Assets over \$91 billion(2)	.1400

(1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets ("Managed Assets" means the average daily net assets of each fund including assets attributable to all types of leverage used by the Nuveen funds) of Nuveen-sponsored funds in the U.S.

(2) With respect to the complex-wide Managed Assets over \$91 billion, the fee rate or rates that will apply to such assets will be determined at a later date. In the unlikely event that complex-wide Managed Assets reach \$91 billion prior to a determination of the complex-level fee rate or rates to be applied to Managed Assets in excess of \$91 billion, the complex-level fee rate for such complex-wide Managed Assets shall be .1400% until such time as a different rate or rates is determined.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Directors/Trustees who are affiliated with the Adviser or to their officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Directors/Trustees has adopted a deferred compensation plan for independent Directors/Trustees that enables Directors/Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised Funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised Funds.

For the first ten years of New York Dividend Advantage's (NAN) operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily net assets (including net assets attributable to Preferred shares), for fees and expenses in the amounts and for the time periods set forth below:

6. ANNOUNCEMENT REGARDING PARENT COMPANY OF ADVISER

In early April, 2005, The St. Paul Travelers Companies, Inc. ("St. Paul Travelers"), which owned 79% of Nuveen, (A) completed a public offering of a substantial portion of its equity stake in Nuveen, (B) sold Nuveen \$200 million of its Nuveen shares, (C) entered into an agreement with Nuveen to sell an additional \$400 million of its Nuveen shares on a "forward" basis with payment for and settlement of these shares delayed for several months, and (D) entered into agreements with two unaffiliated investment banking firms to sell an amount equal to most or all of its remaining Nuveen shares for current payment but for future settlement. The settlement of transactions (C) and (D) above would likely be deemed to be an "assignment" (as defined in the 1940 Act) of the investment management agreements between the Funds and NAM, which would result in the automatic termination of each agreement under the 1940 Act. The Board of Directors/Trustees will consider approval of new ongoing investment management agreements for each Fund and the submission of those agreements for approval by each respective Fund's shareholders. Those agreements, if approved by a Fund's shareholders, would take effect upon such approval. There can be no assurance that these approvals will be obtained.

7. SUBSEQUENT EVENT -- DISTRIBUTIONS TO COMMON SHAREHOLDERS

Reinvest Automatically  
EASILY AND CONVENIENTLY

Sidebar text: NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS  
DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

## Edgar Filing: NUVEEN NEW YORK DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSRS

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

### EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

### HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

### FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

GLOSSARY OF TERMS USED IN THIS REPORT

**AVERAGE ANNUAL TOTAL RETURN:** This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

**AVERAGE EFFECTIVE MATURITY:** The average of all the maturities of the bonds in a Fund's portfolio, computed by weighting each maturity date (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions.

**LEVERAGE-ADJUSTED DURATION:** Duration is a measure of the expected period over which a bond's principal and interest will be paid, and consequently is a measure of the sensitivity of a bond's or bond Fund's value to changes when market interest rates change. Generally, the longer a bond's or Fund's duration, the more the price of the bond or Fund will change as interest rates change. Leverage-adjusted duration takes into account the leveraging process for a Fund and therefore is longer than the duration of the Fund's portfolio of bonds.

**MARKET YIELD (ALSO KNOWN AS DIVIDEND YIELD OR CURRENT YIELD):** An investment's current annualized dividend divided by its current market price.

**NET ASSET VALUE (NAV):** A Fund's common share NAV per share is calculated by subtracting the liabilities of the Fund (including any MuniPreferred shares issued in order to leverage the Fund) from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

**TAXABLE-EQUIVALENT YIELD:** The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.
