Chairman's  
LETTER TO SHAREHOLDERS

Once again, I am pleased to report that over the 12-month period covered by this  
report your Fund continued to provide you with monthly tax-free income and an  
attractive total return. For more details about the management strategy and  
performance of your Fund, please see the Portfolio Manager's Comments and  
Performance Overview sections of this report.

As I noted in my last letter to you, many market observers are wondering whether  
longer-term interest rates will soon begin to rise substantially, mirroring the  
rise that has taken place over the past year in shorter-term rates. If  
longer-term rates do begin to rise significantly, some have suggested that this  
would be a signal to begin adjusting your holdings of fixed-income investments.

"IN FACT, A WELL-DIVERSIFIED PORTFOLIO MAY ACTUALLY HELP TO REDUCE YOUR OVERALL  
INVESTMENT RISK OVER THE LONG TERM."

Nobody knows what the market will do in the future. But from our experience, we  
do know that a well-balanced portfolio, structured and carefully monitored with  
the help of a trusted investment professional, can be an important component in  
helping you achieve your long-term financial goals. In fact, a well-diversified  
portfolio may actually help to reduce your overall investment risk over the long  
term. That is one reason why we believe that a municipal bond investment like  
your Nuveen Fund can be an important building block in a comprehensive  
investment program designed to perform well in a variety of market conditions.

As in past reports, I urge you to consider receiving future Fund reports and other Fund information by e-mail and the Internet. Not only will you be able to receive the information faster, but this also may help lower your Fund's expenses. Sign up is quick and easy - see the inside front cover of this report for instructions.

Earlier in 2005, The St. Paul Travelers Companies, Inc., which owned 79% of Nuveen Investments, Inc. (the parent of your Fund's investment adviser), sold a substantial portion of its stake in Nuveen. More recently, St. Paul sold the balance of its shares in Nuveen to us or to others. Please be assured that these transactions only affect Nuveen's corporate structure, and they do not have any impact on the investment objectives or management of your Fund.

At Nuveen Investments, our mission continues to be to assist you and your financial advisor by offering investment services and products that can help you to secure your financial objectives. We are grateful that you have chosen us as a partner as you pursue your financial goals, and we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

/s/ Timothy R. Schwertfeger

Portfolio Manager's  
COMMENTS

Portfolio manager Paul Brennan reviews the economic and municipal market environments, key investment strategies and the performance of these Nuveen Funds. Paul, who has 14 years of investment experience, including 8 years with Nuveen, has managed the New Jersey and Pennsylvania Funds since 2003.

WHAT FACTORS AFFECTED THE U.S. ECONOMY AND MUNICIPAL MARKET DURING THE 12-MONTH PERIOD ENDED JUNE 30, 2005?

One factor affecting nearly all fixed-income investments over this reporting period was the general flattening of the yield curve. Between June 30, 2004, and June 30, 2005, the Federal Reserve implemented nine quarter-point increases in the fed funds rate, raising this short-term rate benchmark to 3.25% from 1.00% (On August 9, 2005, after the close of this reporting period, the fed funds rate was raised to 3.50%.) These fed funds rate increases led to increases in many shorter-term municipal market rates over the 12-month reporting period. At the same time, longer-term yields declined. The yield on the benchmark 10-year U.S. Treasury note stood at 3.92% on June 30, 2005, compared with 4.59% one year earlier. Longer-term yields in the municipal market followed a similar pattern. The yield of the Bond Buyer 25 Revenue Bond Index, a widely-followed measure of longer-term municipal market rates, declined by approximately 60 basis points during this 12-month reporting period.

This rise in shorter-term rates and decline in longer-term rates generally helped the performance of bonds with longer effective maturities and tended to hurt the performance of securities with shorter maturities or short call dates.

Despite the increases in shorter-term rates and an upsurge in energy costs, the economic expansion continued through the reporting period. After expanding at an annualized rate of 4.0% in the third quarter of 2004, the U.S. Gross Domestic Product (GDP) grew by an annualized rate of 3.8% in the fourth quarter of 2004 and 3.8% again in the first three months of 2005. (On July 29, 2005, after the close of this reporting period, the Commerce Department said the GDP grew at an annualized rate of 3.4% in the second quarter of the year.)

4

The year-over-year increase in the Consumer Price Index (CPI) as of June 30, 2005, was a relatively mild 2.5%. The national unemployment rate dropped to 5.0% in June 2005, its lowest level since September 2001. Over the 12-month period, municipal new issue supply nationwide remained strong, as \$377.1 billion in new securities came to market. The flattening yield curve increased the attractiveness of refundings, which were 57% higher during January-June 2005 than in the same six-month period of 2004.

#### HOW ABOUT ECONOMIC AND MARKET CONDITIONS IN NEW JERSEY AND PENNSYLVANIA?

New Jersey continued to benefit from its strong and diverse economic base, led by the pharmaceutical, biotech and finance sectors. Over the 12-month period, the state's economy outperformed the nation as a whole, adding jobs in the financial services, business services and healthcare sectors. In June 2005, the unemployment rate in New Jersey was 4.0%, down from 4.8% in June 2004. Despite structural imbalances and legal challenges, preliminary numbers indicated that New Jersey ended fiscal 2005, with a surplus of \$1.2 billion to \$1.5 billion, due largely to tax revenues that exceeded expectations. As of June 30, 2005, New Jersey's general obligation debt carried Aa3/AA- ratings with stable outlooks from Moody's and Standard & Poor's, respectively, reflecting downgrades from Aa2 and AA, respectively in July 2004. (On July 19, 2005, after the close of this reporting period, S&P returned New Jersey to an AA rating, citing the fiscal 2006 budget that "makes significant strides toward structural balance.") During the 12-month period ended June 30, 2005, the issuers in the state offered \$18.9 billion of new municipal debt, an increase of 47% from the previous 12-month period, making New Jersey the fourth largest state issuer in the country.

Over this period, Pennsylvania's mature economy exhibited modest but steady recovery, led by the education, healthcare, manufacturing and retail trade sectors. Business services and construction also were strong, although the old-line manufacturing sector,

5

while somewhat improved, continued to lag. Despite the healthier economy, steel production, which is important in western Pennsylvania, remained flat. In June 2005, Pennsylvania's unemployment rate was 5.0%, down from 5.5% in June 2004. As of June 30, 2005, Moody's and S&P rated Pennsylvania's general obligation debt at Aa2/AA, respectively, with stable outlooks. During this 12-month reporting period, municipal issuance in Pennsylvania jumped \$16.9 billion, an increase of 24% from the previous 12-month period, ranking the commonwealth as the sixth largest issuer in the nation.

#### WHAT KEY STRATEGIES WERE USED TO MANAGE THE NEW JERSEY AND PENNSYLVANIA FUNDS

DURING THE 12 MONTHS ENDED JUNE 30, 2005?

With many market participants anticipating higher interest rates, our focus in the New Jersey and Pennsylvania Funds throughout this period centered on finding bonds that we believed would add immediate value to the Funds' portfolios and that, in our judgment, also had the potential to perform well under a variety of future market scenarios, regardless of economic or interest rate trends.

In general, our purchase activity in these Funds emphasized bonds in the intermediate part of the yield curve - that is, bonds that mature in 10 to 20 years. In our opinion, this part of the curve generally offered more attractive opportunities and the best values during this period. For most of the Funds, these purchases resulted in relatively small changes in their overall yield curve positioning. In NNJ and NPY, which were more heavily weighted in bonds with shorter effective maturities than the other Funds, we sold some of these short maturity bonds and reinvested the proceeds in longer-term bonds (i.e., 20 years or longer) to bring the overall yield curve exposures of these two Funds more closely in line with our desired positioning. Conversely, NQP had a relatively heavy exposure to the longest part of the curve, and we sold some of the longer maturity bonds from this Fund's portfolio and replaced them with intermediate maturity securities.

6

For all of the Funds in this report, we continued to place an emphasis on purchasing premium bonds - those with prices above par and coupons above current market rates. These bonds have been in great demand recently, since historically they have held their value better than current coupon bonds when long-term interest rates rise.

Both NUJ and NXM had several concentrated positions in relatively lower-rated holdings, and we worked during this period to reduce the overall risk of these Funds by trimming these concentrated positions and adding more diversification by purchasing other lower-rated securities. On the other hand, NNJ and NVY began the period with relatively small positions in bonds rated BBB or lower, and we watched the market for suitable opportunities to add lower-rated bonds to their portfolios. These efforts in the Pennsylvania Funds were aided by an increased number of smaller lower-rated and non-rated offerings in the commonwealth. As a result, for several of the Funds we were able to purchase B+ rated bonds issued by the Pennsylvania Economic Development Financing Authority (EDFA) for Reliant Energy, non-rated bonds issued by Allegheny County for the Pittsburgh Mills shopping mall, and non-rated bonds issued by Lebanon County for Pleasant View Retirement Community. NXJ also had a very large concentrated position in A rated bonds issued for Robert Wood Johnson University Hospital, which we cut by more than 60% over this period. Although this holding had performed well for the Fund, we believed it was prudent to trim our exposure and increase diversification within the Fund by redeploying some of these assets among other lower-rated credits.

As discussed in our last shareholder report, in late 2004 we began using forward interest rate swaps, a type of derivative financial instrument, in an attempt to hedge some of the interest rate risk in NXJ, NUJ, NXM and NVY. It is important to note that the hedges were not used in an attempt to profit from correctly predicting the timing and direction of interest rate movements. Instead, our sole objective was to reduce the durations of these four Funds (and therefore their price sensitivity to interest rate changes) without having a negative impact on the Funds' income streams or common share dividends over the short term. The gain or loss from each Fund's hedging activity

was reflected as an addition or subtraction to the Fund's net asset value (NAV) as the market value of each hedge fluctuated. The hedges were effective in achieving their intended goal of helping to reduce the NAV volatility of these Funds. However, they did have negative impacts on each Fund's total return during this period because declining long-term interest rates caused the value of the hedges to decline as the value of each Fund's portfolio rose. All of the hedges for these Funds were removed before the end of the reporting period because their interest rate risk exposures and durations had achieved our desired levels.

- 1 The Lehman Brothers Municipal Bond Index is an unleveraged, unmanaged national index comprising a broad range of investment-grade municipal bonds. Results for the Lehman index do not reflect any expenses.
- 2 The Lipper New Jersey Municipal Debt Funds category average is calculated using the returns of all closed-end exchange-traded funds in this category for each period as follows: 1 year, 13 funds; 5 years, 8 funds; and 10 years, 6 funds. The Lipper Pennsylvania Municipal Debt Funds category average is calculated using the returns of all closed-end exchange-traded funds for each period as follows: 1 year, 12 funds; 5 years, 9 funds; and 10 years, 7 funds. Fund and Lipper returns assume reinvestment of dividends.

8

For the 12 months ended June 30, 2005, the total returns on NAV for all eight of these Funds outperformed the return on the Lehman Brothers Municipal Bond Index. NUJ also outperformed the average return for the Lipper New Jersey peer group, and NQP, NXM and NVY beat their Lipper Pennsylvania group average. NQJ, NNJ, NXJ and NPY trailed their respective Lipper group averages.

One of the primary factors benefiting the 12-month performance of these Funds relative to that of the unleveraged Lehman Brothers index was the Funds' use of financial leverage. While leveraging can add volatility to the Funds' NAVs and share prices, especially during periods when interest rates rise, this strategy can also provide opportunities for additional income and total returns for common shareholders when short-term interest rates remain relatively low and long-term rates fall or remain fairly constant.

As noted earlier, yields fell - and therefore prices rose - for many longer-term bonds over the course of this reporting period. Quite often, these longer-term bonds had longer durations, which meant they had relatively more price volatility as interest rates changed. More exposure to bonds with longer durations helped the performances of NXJ, NUJ, NXM and NVY. To a lesser extent, this also helped the return of NQJ over this period. While we made strides in increasing the average durations of NNJ and NPY, their relatively greater exposure to bonds with shorter effective maturities or short embedded call option provisions over this period hampered their performances when compared with the other Funds in this report.

All of the Funds benefited from their allocations of lower quality bonds during this period, since bonds rated BBB and lower generally outperformed higher credit quality sectors as the economy improved and demand for these bonds increased. Among the sectors making positive contributions to the Funds' 12-month returns were several that tended to have a greater number of lower-quality bonds, such as healthcare (including hospitals), industrial development and resource recovery. Bonds backed by the 1998 master tobacco settlement agreement also produced solid performance during this period, as the litigation environment improved and supply/demand dynamics drove tobacco bond prices higher. As

9

of June 30, 2005, the New Jersey Funds held between 3% and 4% of their portfolios in unenhanced and uninsured New Jersey tobacco bonds. (The Pennsylvania Funds did not hold any tobacco credits.) In addition to the tobacco

bonds, the New Jersey Funds benefited from their holdings of BBB rated cigarette tax bonds issued by the state and backed by excise taxes on cigarettes purchased in New Jersey. NXJ and NUJ also held small positions in B rated bonds issued by the New Jersey Economic Development Authority for Continental Airlines, which had double-digit returns during this 12-month period.

As mentioned earlier, refinancings rose during this period, and the performances of these Funds were boosted by several advance refundings of their holdings, which resulted in price appreciation as well as enhanced credit quality. In New Jersey, major refunding transactions involved bonds issued by the New Jersey Turnpike Authority, the New Jersey Transportation Trust Fund Authority, and the Delaware River and Bay Authority. Each of the New Jersey Funds held one or more of these pre-refunded issues. In Pennsylvania, in addition to large refundings by the commonwealth (Pennsylvania general obligation debt) and by Allegheny County, a number of smaller issuers engaged in pre-refunding transactions that benefited the Pennsylvania Funds to varying degrees.

At the same time, however, the Funds' holdings of older pre-refunded bonds tended to underperform the general municipal market, due primarily to the shorter effective maturities of these bonds. This was especially true in NPY. Housing was another sector that lagged the market during this period, largely as the result of the increased risk of prepayments and bond calls in the current interest rate environment.

HOW WERE THE FUNDS POSITIONED IN TERMS OF CREDIT QUALITY AND BOND CALLS AS OF JUNE 30, 2005?

Given the current geopolitical and economic environment, we continued to believe that maintaining strong credit quality was an important requirement. As of June 30, 2005, all eight of these Funds continued to offer excellent credit quality, with allocations of bonds

10

rated AAA/U.S. Guaranteed and AA ranging from 68% in NUJ to 73% in NXM, 78% in NXJ, 82% in NQJ and NVY, 83% in NPY, 84% in NNJ and 87% in NQP.

As of June 30, 2005, potential call exposure for the period July 2005 through the end of 2006 ranged from 1% in NVY to 3% in NNJ and NXJ, 4% in NUJ, NQP and NXM, 6% in NQJ and 8% in NPY. The number of actual bond calls in all of these Funds depends largely on future market interest rates.

11

#### Dividend and Share Price INFORMATION

All eight of these Funds use leverage to provide opportunities for additional income for common shareholders. The extent of this benefit is tied in part to the short-term rates the Funds pay their MuniPreferred(R) shareholders. During periods of low short-term rates, leveraged Funds generally pay lower dividends to MuniPreferred shareholders, which can leave more earnings to support common share dividends. However, when short-term interest rates rise, as they did during this reporting period, the Funds' borrowing costs also rise. While leveraging can still provide benefits for common shareholders as short-term

rates rise, the extent of the benefit may be less. Over the 12-month period ended June 30, 2005, NXM experienced one dividend cut, while the dividends of NQJ, NNJ, NXJ, NQP and NPY were cut twice and NVY had three reductions in its dividend. The dividend of NUJ remained unchanged during this period.

In addition, due to normal portfolio management activity, common shareholders of the following Funds received capital gains and/or net ordinary income distributions at the end of December 2004 as follows:

	LONG-TERM CAPITAL GAINS (PER SHARE)	ORDINARY INCOME (PER SHARE)
NQJ	\$0.1097	--
NNJ	\$0.2176	\$0.0003
NUJ	\$0.0526	--
NQP	\$0.1412	\$0.0010
NPY	\$0.1791	\$0.0055
NXM	\$0.3631	\$0.0060
NVY	\$0.0429	--

The relatively large distributions from several of these Funds represented important parts of the Funds' total returns for this period. Generally, these distributions were generated by bond calls or by sales of appreciated securities that occurred in the course of normal portfolio management activities. The proceeds of these calls or sales then were reinvested in bonds paying lower, current interest rates. On balance, this had a slight negative impact on these Funds' earning power per share and was a minor factor in the dividend reductions noted above.

All of the Funds in this report seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund

may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of June 30, 2005, NQJ, NNJ, NXJ, NUJ, NPY and NXM all had positive UNII balances for both financial statement and income tax purposes. NQP and NVY had negative UNII balances for financial statement purposes and positive UNII balances for income tax purposes.

At the end of the reporting period, the Funds' shares were trading at premiums or discounts to their NAVs as shown in the accompanying chart:

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds' internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of June 30, 2005, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial positions of Nuveen New Jersey Investment Quality Municipal Fund, Inc., Nuveen New Jersey Premium Income Municipal Fund, Inc., Nuveen New Jersey Dividend Advantage Municipal Fund, Nuveen New Jersey Dividend Advantage Municipal Fund 2, Nuveen Pennsylvania Investment Quality Municipal Fund, Nuveen Pennsylvania Premium Income Municipal Fund 2, Nuveen Pennsylvania Dividend Advantage Municipal Fund and Nuveen Pennsylvania Dividend Advantage Municipal Fund 2 at June 30, 2005, and the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended, and their financial highlights for the periods indicated therein in conformity with U.S. generally accepted accounting principles.

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The state funds (the "Funds") covered in this report and their corresponding Common share stock exchange symbols are Nuveen New Jersey Investment Quality Municipal Fund, Inc. (NQJ), Nuveen New Jersey Premium Income Municipal Fund, Inc. (NNJ), Nuveen New Jersey Dividend Advantage Municipal Fund (NXJ), Nuveen New Jersey Dividend Advantage Municipal Fund 2 (NUJ), Nuveen Pennsylvania Investment Quality Municipal Fund (NQP), Nuveen Pennsylvania Premium Income Municipal Fund 2 (NPY), Nuveen Pennsylvania Dividend Advantage Municipal Fund (NXM) and Nuveen Pennsylvania Dividend Advantage Municipal Fund 2 (NVY). Common shares of New Jersey Investment Quality (NQJ), New Jersey Premium Income (NNJ), Pennsylvania Investment Quality (NQP) and Pennsylvania Premium Income 2 (NPY) are traded on the New York Stock Exchange while Common shares of New Jersey Dividend Advantage (NXJ), New Jersey Dividend Advantage 2 (NUJ), Pennsylvania Dividend Advantage (NXM) and Pennsylvania Dividend Advantage 2 (NVY) are traded on the American Stock Exchange. The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end management investment companies.

Each Fund seeks to provide current income exempt from both regular federal and applicable state income taxes by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities within a single state.

Effective January 1, 2005, Nuveen Advisory Corp. ("NAC"), the Funds' previous Adviser, and its affiliate, Nuveen Institutional Advisory Corp. ("NIAC"), were merged into Nuveen Asset Management ("NAM"), each wholly owned subsidiaries of Nuveen Investments, Inc. ("Nuveen"). As a result of the merger, NAM is now the Adviser to all funds previously advised by either NAC or NIAC.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles.

Investment Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Directors/Trustees. When price quotes are not readily available (which is usually the case for municipal

securities), the pricing service establishes fair market value based on yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers, evaluations of anticipated cash flows or collateral and general market conditions. Prices of derivative investments are also provided by an independent pricing service approved by each Fund's Board of Directors/Trustees. If the pricing service is unable to supply a price for a derivative investment each Fund may use a market quote provided by a major broker/dealer in such investments. If it is determined that market prices for an investment are unavailable or inappropriate, the Board of Directors/Trustees of the Funds, or its designee, may establish a fair value for the investment. Temporary investments in securities that have variable rate and demand features qualifying them as short-term securities are valued at amortized cost, which approximates market value.

#### Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from transactions are determined on the specific identification method. Securities purchased on a when-issued or delayed delivery basis may have extended settlement periods. Any securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At June 30, 2005, New Jersey Investment Quality (NQJ), New Jersey Premium Income (NNJ), Pennsylvania Premium Income 2 (NPY), and Pennsylvania Dividend Advantage 2 (NVY) had outstanding when-issued and/or delayed delivery purchase commitments of \$10,321,025, \$5,912,620, \$7,853,181, and \$785,411, respectively. There were no such outstanding purchase commitments in any of the other funds.

#### Notes to

#### FINANCIAL STATEMENTS (continued)

#### Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also includes paydown gains and losses, if any.

#### Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal and applicable state taxes, to retain such tax-exempt status when distributed to shareholders of the Funds. All monthly tax-exempt income dividends paid during the fiscal year ended June 30, 2005, have been designated Exempt Interest Dividends. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

#### Dividends and Distributions to Common Shareholders

Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed

available capital loss carryforwards. Distributions to Common shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

Preferred Shares

The Funds have issued and outstanding Preferred shares, \$25,000 stated value per share, as a means of effecting financial leverage. Each Fund's Preferred shares are issued in one or more Series. The dividend rate on each Series is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable weekly at the end of each rate period. The number of Preferred shares outstanding, by Series and in total, for each Fund is as follows:

	NEW JERSEY INVESTMENT QUALITY (NQJ)	NEW JERSEY PREMIUM INCOME (NNJ)	NEW JERSEY DIVIDEND ADVANTAGE (NXJ)

Forward Swap Transactions

The Funds may invest in certain derivative financial instruments. The Funds' use of forward interest rate swap transactions is intended to mitigate the negative impact that an increase in long-term interest rates could have on Common share net asset value. Forward interest rate swap transactions involve each Fund's agreement with the counterparty to pay, in the future, a fixed rate payment in exchange for the counterparty paying the Fund a variable rate payment. The amount of the payment obligation is based on the notional amount of the forward

swap contract, and would increase (or decrease) in value based primarily on the extent to which long-term interest rates for bonds having a maturity of the swaps' termination date were to increase (or decrease). The Funds may close out a contract prior to the effective date at which point a realized gain or loss would be recognized. When a forward swap is terminated, it does not involve the delivery of securities or other underlying assets or principal, but rather is settled in cash on a net basis. Each Fund intends, but is not obligated to, terminate its forward swaps before the effective date. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the credit risk associated with a counterparty failing to honor its commitment to pay any realized gain to the Fund upon termination. To minimize such credit risk, all counterparties are required to pledge collateral daily (based on the daily valuation of each swap) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when any of the Funds have an unrealized loss on a swap contract, the Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the swap valuations fluctuate, either up or down, by at least the predetermined threshold amount. At June 30, 2005, the Funds did not have any forward swap contracts outstanding.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Indemnifications

Under the Funds' organizational documents, its Officers and Directors/Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

4. INCOME TAX INFORMATION

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to the treatment of paydown gains and losses on investments, timing differences in recognizing income on taxable market discount securities and timing differences in recognizing certain gains and losses on investment transactions.

At June 30, 2005, the cost of investments was as follows:

	NEW JERSEY INVESTMENT QUALITY (NQJ)	NEW JERSEY PREMIUM INCOME (NNJ)	NEW JERSEY DIVIDEND ADVANTAGE (NXJ)

5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

As approved by the Board of Directors/Trustees, effective August 1, 2004, a complex-wide management fee structure was adopted for all funds sponsored by the Adviser, or its predecessor and its affiliates. This fee structure separates each fund's management fee into two components - a complex-level component, based on the aggregate amount of all fund assets managed by the Adviser, and a specific fund-level component, based only on the amount of assets within each individual fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser. Under no circumstances will this pricing structure result in a fund paying management fees at a rate higher than would otherwise have been applicable had the complex-wide management fee structure not been implemented. As of July 31, 2005, the complex-level fee rate was .1899%; that is, the funds' effective management fees were reduced by approximately .0101%.

Edgar Filing: NUVEEN PENNSYLVANIA INVESTMENT QUALITY MUNICIPAL FUND INC - Form N-CSR

Effective August 1, 2004, the annual fund-level fee, payable monthly, for each of the Funds is based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

Notes to  
FINANCIAL STATEMENTS (continued)

Effective August 1, 2004, the annual complex-level fee, payable monthly, which is additive to the fund-level fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund assets managed as follows:

COMPLEX-LEVEL ASSETS (1)	COMPLEX-LEVEL FEE RATE
For the first \$55 billion	.2000%
For the next \$1 billion	.1800
For the next \$1 billion	.1600
For the next \$3 billion	.1425

For the next \$5 billion	.1200
For the next \$5 billion	.1175
For the next \$15 billion	.1150
For Managed Assets over \$91 billion (2)	.1400

(1) The complex-level fee component of the management fee for the funds is

calculated based upon the aggregate Managed Assets ("Managed Assets" means the average daily net assets of each fund including assets attributable to all types of leverage used by the Nuveen funds) of Nuveen-sponsored funds in the U.S.

- (2) With respect to the complex-wide Managed Assets over \$91 billion, the fee rate or rates that will apply to such assets will be determined at a later date. In the unlikely event that complex-wide Managed Assets reach \$91 billion prior to a determination of the complex-level fee rate or rates to be applied to Managed Assets in excess of \$91 billion, the complex-level fee rate for such complex-wide Managed Assets shall be .1400% until such time as a different rate or rates is determined.

Each Fund paid through July 31, 2004, an annual management fee, payable monthly, at the rates set forth below, which were based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

AVERAGE DAILY NET ASSETS (INCLUDING NET ASSETS ATTRIBUTABLE TO PREFERRED SHARES)	NEW JERSEY INVESTMENT QUALITY (NQJ)	MANAGEMENT FEE RATE

For the next \$1 billion		.6000
For net assets over \$2 billion		.5750

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Directors/Trustees who are affiliated with the Adviser or to their officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Directors/Trustees has adopted a deferred compensation plan for independent Directors/Trustees that enables Directors/Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised Funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised Funds.

For the first ten years of New Jersey Dividend Advantage's (NXJ) and Pennsylvania Dividend Advantage's (NXM) operations, the Adviser has agreed to reimburse the Funds, as a percentage of average daily net assets (including net assets attributable to Preferred shares), for fees and expenses in the amounts and for the time periods set forth below:

YEAR ENDING MARCH 31,		YEAR ENDING MARCH 31,

The Adviser has not agreed to reimburse New Jersey Dividend Advantage 2 (NUJ) and Pennsylvania Dividend Advantage 2 (NVY) for any portion of their fees and expenses beyond March 31, 2012.

6. ANNOUNCEMENT REGARDING PARENT COMPANY OF ADVISER

In early April, 2005, The St. Paul Travelers Companies, Inc. ("St. Paul Travelers"), which owned 79% of Nuveen, (A) completed a public offering of a substantial portion of its equity stake in Nuveen, (B) sold Nuveen \$200 million of its Nuveen shares, (C) entered into an agreement with Nuveen to sell an additional \$400 million of its Nuveen shares on a "forward" basis with payment for and settlement of these shares delayed for several months, and (D) entered into agreements with two unaffiliated investment banking firms to sell an amount equal to most or all of its remaining Nuveen shares for current payment but for future settlement. Transactions (C) and (D) above were settled in late July, which effectively reduced St. Paul Travelers' controlling stake in Nuveen and was deemed an "assignment" (as defined in the 1940 Act) of the investment management agreements between the Funds and the Adviser, which resulted in the automatic termination of each agreement under the 1940 Act. In anticipation of such deemed assignment, the Board of Directors/Trustees had approved new ongoing

investment management agreements for each Fund and the submission of those agreements for approval by each respective Fund's shareholders, which shareholder approval was received prior to the settlement of transactions (C) and (D). The new ongoing management agreements took effect upon such settlement.

ANNUAL INVESTMENT  
MANAGEMENT AGREEMENT  
APPROVAL PROCESS

At a meeting held on May 10-12, 2005, the Board of Trustees of each Fund, including the independent Trustees, unanimously approved the Investment Management Agreement between each Fund and NAM.

#### APPROVAL PROCESS

To assist the Board in its evaluation of an advisory contract with NAM, the independent Trustees received a report in adequate time in advance of their meeting which outlined, among other things, the services provided by NAM; the organization of NAM, including the responsibilities of various departments and key personnel; the Fund's past performance as well as the Fund's performance compared to funds of similar investment objectives compiled by an independent third party (a "Peer Group") and if available, with recognized or, in certain cases, customized benchmarks; the profitability of NAM and certain industry profitability analyses for advisers to unaffiliated investment companies; the expenses of NAM in providing the various services; the advisory fees of NAM, including comparisons of such fees with the management fees of comparable funds in its Peer Group as well as comparisons of NAM's management fees with the fees NAM assesses to other types of investment products or accounts, if any; the soft dollar practices of NAM; and the expenses of each Fund, including comparisons of the Fund's expense ratios (after any fee waivers) with the expense ratios of its Peer Group. This information supplements that received by the Board throughout the year regarding Fund performance, expense ratios, portfolio composition, trade execution and sales activity.

In addition to the foregoing materials, independent legal counsel to the independent Trustees provided, in advance of the meeting, a legal memorandum outlining, among other things, the duties of the Trustees under the 1940 Act as well as the general principles of relevant state law in reviewing and approving advisory contracts; the requirements of the 1940 Act in such matters; an adviser's fiduciary duty with respect to advisory agreements and compensation; the standards used by courts in determining whether investment company boards of directors have fulfilled their duties and factors to be considered by the board in voting on advisory agreements.

At the Board meeting, NAM made a presentation to and responded to questions from the Board. After the presentations and after reviewing the written materials, the independent Trustees met privately with their legal counsel to review the Board's duties in reviewing advisory contracts and consider the renewal of the advisory contract. It is with this background that the Trustees considered each Investment Management Agreement with NAM. The independent Trustees, in consultation with independent counsel, reviewed the factors set out in judicial decisions and SEC directives relating to the renewal of advisory contracts. As outlined in more detail below, the Trustees considered all factors they believed relevant with respect to each Fund, including the following: (a) the nature, extent and quality of the services to be provided by NAM; (b) the investment performance of the Fund and NAM; (c) the costs of the services to be provided and profits to be realized by NAM and its affiliates from the relationship with the Fund; (d) the extent to which economies of scale would be realized as the Fund grows; and (e) whether fee levels reflect these economies of scale for the benefit of Fund investors.

#### A. NATURE, EXTENT AND QUALITY OF SERVICES

In evaluating the nature, extent and quality of NAM's services, the Trustees reviewed information concerning the types of services that NAM or its affiliates provide and are expected to provide to the Nuveen Funds; narrative and statistical information concerning the Fund's performance record and how such performance compares to the Fund's Peer Group and, if available, recognized benchmarks or, in certain cases, customized benchmarks (as described in further detail in Section B below); information describing NAM's organization and its various departments, the experience and responsibilities of key personnel, and available resources. In the discussion of key personnel, the Trustees received materials regarding the changes or additions in personnel of NAM. The Trustees further noted the willingness of the personnel of NAM to engage in open, candid discussions with the Board. The Trustees further considered the quality of NAM's investment process in making portfolio management decisions, including any refinements or improvements to the portfolio management processes, enhancements

to technology and systems that are available to portfolio managers, and any additions of new personnel which may strengthen or expand the research and investment capabilities of NAM. In their review of advisory contracts for the fixed income funds, the Trustees also noted that Nuveen won the Lipper Award for Best Fund Family: Fixed Income-Large Asset Class, for 2004. Given the Trustees' experience with the Funds, other Nuveen funds and NAM, the Trustees noted that they were familiar with and continue to have a good understanding of the organization, operations and personnel of NAM.

In addition to advisory services, the independent Trustees considered the quality of the administrative or non-advisory services provided. In this regard, NAM provides the Fund with such administrative and other services (exclusive of, and in addition to, any such services provided by others for the Funds) and officers and other personnel as are necessary for the operations of the respective Fund. In addition to investment management services, NAM and its affiliates provide each Fund with a wide range of services, including: preparing shareholder reports; providing daily accounting; providing quarterly financial statements; overseeing and coordinating the

90

activities of other service providers; administering and organizing Board meetings and preparing the Board materials for such meetings; providing legal support (such as helping to prepare registration statements, amendments thereto and proxy statements and responding to regulatory inquiries); and performing other Fund administrative tasks necessary for the operation of the respective Fund (such as tax reporting and fulfilling regulatory filing requirements). In addition, in evaluating the administrative services, the Trustees considered, in particular, NAM's policies and procedures for assuring compliance with applicable laws and regulations in light of the new SEC regulations governing compliance. The Trustees noted NAM's focus on compliance and its compliance systems. In their review, the Trustees considered, among other things, the additions of experienced personnel to NAM's compliance group and modifications and other enhancements to NAM's computer systems. In addition to the foregoing, the Trustees also noted that NAM outsources certain services that cannot be replicated without significant costs or at the same level of expertise. Such outsourcing has been a beneficial and efficient use of resources by keeping expenses low while obtaining quality services.

In addition to the above, in reviewing the variety of additional services that NAM or its affiliates must provide to closed-end funds, such as the Funds, the independent Trustees determined that Nuveen's commitment to supporting the secondary market for the common shares of its closed-end funds is particularly noteworthy. In this regard, the Trustees noted Nuveen's efforts to sponsor numerous forums for analysts and specialists regarding the various Nuveen closed-end funds, its creation of a new senior position dedicated to providing secondary market support services and enhancing communications with investors and analysts, and its advertising and media relations efforts designed to raise investor and analyst awareness of the closed-end funds.

With respect to services provided to municipal funds, such as the Funds, the Trustees also noted, among other things, the enhancements NAM implemented to its municipal portfolio management processes (e.g., the increased use of benchmarks to guide and assess the performance of its portfolio managers); the implementation of a risk management program; and the various initiatives being undertaken to enhance or modify NAM's computer systems as necessary to support the innovations of the municipal investment team (such as, the ability to assess certain historical data in order to create customized benchmarks, perform attribution analysis and facilitate the use of derivatives as hedging

instruments). With respect to certain of the Funds with a less seasoned portfolio, the Trustees also noted the hedging program implemented for such Funds and the team responsible for developing, implementing and monitoring the hedging procedures. The hedging program was designed to help maintain the applicable Fund's duration within certain benchmarks.

Based on their review, the Trustees found that, overall, the nature, extent and quality of services provided (and expected to be provided) to the Funds under the Investment Management Agreements were of a high level and were quite satisfactory.

#### B. THE INVESTMENT PERFORMANCE OF THE FUND AND ADVISER

As previously noted, the Board received a myriad of performance information regarding each Fund and its Peer Group, if available. Among other things, the Board received materials reflecting a Fund's historic performance, the Fund's performance compared to its Peer Group and, if available, its performance compared to recognized and, in certain cases, customized benchmarks. Further, in evaluating the performance information, in certain limited instances, the Trustees noted that the closest Peer Group for a Fund still would not adequately reflect such Fund's investment objectives and strategies, thereby limiting the usefulness of the comparisons of such Fund's performance with that of the Peer Group.

For state municipal funds, such as the Funds, the performance data included, among other things, the respective Fund's performance relative to its peers. More specifically, a Fund's one, three and five year total returns (as available) for the periods ending December 31, 2004 were evaluated relative to the unaffiliated funds in its respective Peer Group (including the returns of individual peers as well as the Peer Group average) as well as additional performance information with respect to all the funds in the Peer Group, subject to the following. Certain state municipal Funds do not have a corresponding Peer Group in which case their performance is measured against a state-specific municipal index compiled by an independent third party. Such indices measure bond performance rather than fund performance. The closed-end Funds that utilize such indices are from Connecticut, Georgia, Maryland, Missouri, North Carolina, Texas and Virginia. Based on their review, the Trustees determined that each Fund's absolute and relative investment performance over time had been satisfactory.

#### C. FEES, EXPENSES AND PROFITABILITY

##### 1. FEES AND EXPENSES

In evaluating the management fees and expenses that a Fund is expected to bear, the Trustees considered the Fund's current management fee structure and the Fund's expected expense ratios in absolute terms as well as compared with the fees and expense ratios of the unaffiliated funds in its Peer Group. The Trustees reviewed the financial information of NAM, including its respective revenues, expenses and profitability. In reviewing fees, the Trustees, among other things, reviewed comparisons of the Fund's gross management fees (fees after fund-level and complex-wide level breakpoints but before reimbursement and fee waivers), net management fees (after breakpoints and reimbursements and fee waivers) and total expense ratios (before and after waivers) with those of the unaffiliated funds in the Peer Group and peer averages. In this regard, the Trustees noted that the relative ranking of the Nuveen Funds on fees and expenses was aided by the significant level of fee reductions provided by the fund-level and complex-wide breakpoint schedules, and the fee waivers and reimbursements provided by Nuveen for certain Funds launched since 1999. The complex-wide breakpoint schedule was instituted in 2004 and is described in further detail below in Section D entitled "Economies of Scale." In their review of the fee and expense information provided, including, in particular, the expense ratios of the unaffiliated funds in the respective Peer Group, the Trustees determined that each Fund's net total expense ratio was within an acceptable range compared to such peers.

2. COMPARISONS WITH THE FEES OF OTHER CLIENTS

The Trustees further compared the fees of NAM to the fees NAM assessed for other types of clients investing in municipal funds (such as municipal managed accounts). With respect to such separately managed accounts, the advisory fees for such accounts

91

ANNUAL INVESTMENT MANAGEMENT  
AGREEMENT APPROVAL PROCESS (continued)

are generally lower than those charged to the comparable Fund. The Trustees noted, however, the additional services that are provided and the costs incurred by Nuveen in managing and operating registered investment companies, such as the Funds, compared to individually managed separate accounts. For instance, as described above, NAM and its affiliates provide numerous services to the Funds including, but not limited to, preparing shareholder reports; providing daily accounting; preparing quarterly financial statements; overseeing and coordinating the activities of other service providers; administering and organizing Board meetings and preparing the Board materials for such meetings; providing legal support; and administering all other aspects of the Fund's operations. Further, the Trustees noted the increased compliance requirements for funds in light of new SEC regulations and other legislation. These services are generally not required to the same extent, if at all, for separate accounts. In addition to the differences in services, the Trustees also considered, among other things, the differences in product distribution, investment policies, investor profiles and account sizes. Accordingly, the Trustees believe that the nature and number of services provided to operate a Fund merit the higher fees than those to separate managed accounts.

3. PROFITABILITY OF ADVISER

In conjunction with its review of fees, the Trustees also considered NAM's profitability. The Trustees reviewed NAM's revenues, expenses and profitability margins (on both a pre-tax and after-tax basis). In reviewing profitability, the Trustees recognized that one of the most difficult issues in determining profitability is establishing a method of allocating expenses. Accordingly, the Trustees reviewed NAM's assumptions and methodology of allocating expenses. In this regard, the methods of allocation used appeared reasonable but the Board noted the inherent limitations in allocating costs among various advisory products. The Trustees also recognized that individual fund or product line profitability of other advisers is generally not publicly available. Further, profitability may be affected by numerous factors including the types of funds managed, expense allocations, business mix, etc. and therefore comparability of profitability is somewhat limited. Nevertheless, to the extent available, the Trustees considered NAM's profit margin compared to the profitability of various publicly-traded investment management companies and/or investment management companies that publicly disclose some or all of their financial results compiled by three independent third-party service providers. The Trustees also reviewed the revenues, expenses and profit margins of various unaffiliated advisory firms with similar amounts of assets under management for the last year prepared by NAM. Based on their review, the Trustees were satisfied that NAM's level of profitability from its relationship with each Fund was reasonable in light of the services provided.

In evaluating the reasonableness of the compensation, the Trustees also considered any other revenues paid to NAM as well as any indirect benefits (such as soft dollar arrangements, if any) NAM and its affiliates are expected to receive that are directly attributable to their management of the Funds, if any. See Section E below for additional information. Based on their review of the overall fee arrangements of the applicable Fund, the Trustees determined that the advisory fees and expenses of the respective Fund were reasonable.

D. ECONOMIES OF SCALE AND WHETHER FEE LEVELS REFLECT THESE ECONOMIES OF SCALE

In reviewing the compensation, the Trustees have long understood the benefits of economies of scale as the assets of a fund grows and have sought to ensure that shareholders share in these benefits. One method for shareholders to share in economies of scale is to include breakpoints in the advisory fee schedules that reduce fees as fund assets grow. Accordingly, the Trustees received and reviewed the schedules of advisory fees for each Fund, including fund-level breakpoints thereto. In addition, after lengthy negotiations with management, the Board in May, 2004 approved a complex-wide fee arrangement pursuant to which fees of the funds in the Nuveen complex, including the Funds, are reduced as the assets in the fund complex reach certain levels. The complex-wide fee arrangement was introduced on August 1, 2004 and the Trustees reviewed data regarding the reductions of fees for the Funds for the period of August 1, 2004 to December 31, 2004. In evaluating the complex-wide fee arrangement, the Trustees considered, among other things, the historic and expected fee savings to shareholders as assets grow, the amount of fee reductions at various asset levels, and that the arrangement would extend to all Funds in the Nuveen complex. The Trustees also considered the impact, if any, the complex-wide fee arrangement may have on the level of services provided. Based on their review, the Trustees concluded that the breakpoint schedule and complex-wide fee arrangement currently was acceptable and desirable in providing benefits from economies of scale to shareholders.

E. INDIRECT BENEFITS

In evaluating fees, the Trustees also considered any indirect benefits or profits NAM or its affiliates may receive as a result of its relationship with each Fund. In this regard, the Trustees considered any benefits from soft dollar arrangements. The Trustees noted that although NAM manages a large amount of assets, it has very little, if any, brokerage to allocate. This is due to the fact that NAM

typically manages the portfolios of the municipal funds in the Nuveen complex and municipal bonds generally trade on a principal basis. Accordingly, NAM does not currently have any soft dollar arrangements and does not pay excess brokerage commissions (or spreads on principal transactions) in order to receive research services. In addition to soft dollar arrangements, the Trustees also considered any other revenues, if any, received by NAM or its affiliates. With respect to Funds with outstanding preferred shares and new Funds, the Trustees considered revenues received by Nuveen for serving as agent for broker-dealers at its preferred trading desk and for acting as co-manager in the initial public offering of new closed-end exchange-traded funds.

F. OTHER CONSIDERATIONS

Nuveen, until recently, was a majority-owned subsidiary of St. Paul Travelers. As noted, St. Paul earlier this year announced its intention to divest its equity stake in Nuveen. Nuveen is the parent of NAM. Pursuant to a series of transactions, St. Paul has begun to reduce its interest in Nuveen which will ultimately result in a change of control of Nuveen and therefore NAM. As

mandated by the 1940 Act, such a change in control would result in an assignment of the advisory agreement with NAM and the automatic termination of such agreement. Accordingly, the Board also considered for each Fund the approval of a New Investment Management Agreement with each Fund in light of, and which would take effect upon, the anticipated change of control. More specifically, the Board considered for each Fund a New Investment Management Agreement on substantially identical terms to the existing Investment Management Agreement, to take effect after the change of control has occurred and the contract has been approved by Fund shareholders. In its review, the Board considered whether the various transactions necessary to divest St. Paul's interest will have an impact on the various factors they considered in approving NAM, such as the scope and quality of services to be provided following the change of control. In reviewing the St. Paul transactions, the Board considered, among other things, the impact, if any, on the operations and organizational structure of NAM; the possible benefits and costs of the transactions to the respective Fund; the potential implications of any arrangements used by Nuveen to finance certain of the transactions; the ability of NAM to perform its duties after the transactions; whether a Fund's fee structure or expense ratio would change; any changes to the current practices of the respective Fund; any changes to the terms of the advisory agreement; and any anticipated changes to the operations of NAM. Based on its review, the Board determined that St. Paul's divestiture would not affect the nature and quality of services provided by NAM, the terms of the Investment Management Agreement, including the fees thereunder, and would not materially affect the organization or operations of NAM. Accordingly, the Board determined that their analysis of the various factors regarding their approval of NAM would continue to apply after the change of control.

#### G. APPROVAL

The Trustees did not identify any single factor discussed previously as all-important or controlling. The Trustees, including a majority of independent Trustees, concluded that the terms of the Investment Management Agreements were fair and reasonable, that the respective Fund Adviser's fees are reasonable in light of the services provided to each Fund, that the renewal of the NAM Investment Management Agreements should be approved, and that the new, post-change of control NAM Investment Management Agreements be approved and recommended to shareholders.

Reinvest Automatically  
EASILY AND CONVENIENTLY

Sidebar text: NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS  
DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

#### EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

#### HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

#### FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

#### Other Useful INFORMATION

sold the majority of its controlling equity interest in Nuveen Investments, Inc. ("Nuveen") to the general public. Nuveen is the parent of Nuveen Asset Management ("NAM"), which is each Fund's investment manager. This sale was deemed to be an "assignment" of the investment management agreement between each Fund and NAM and, if applicable, of the sub-advisory agreement between NAM and the Fund's sub-adviser. As required by law, the shareholders of each Fund were asked to approve a new investment management agreement and, if applicable, a new subadvisory agreement that reflected this change in ownership. The shareholders of each Fund voted this approval at a Shareholders' Meeting on July 26, 2005. There were no changes to the investment objectives or management of any Fund as a result of these actions.

#### QUARTERLY PORTFOLIO OF INVESTMENTS AND PROXY VOTING INFORMATION

Each Fund's (i) quarterly portfolio of investments, (ii) information regarding how the Funds voted proxies relating to portfolio securities held during the 12-month period ended June 30, 2005, and (iii) a description of the policies and procedures that the Funds used to determine how to vote proxies relating to portfolio securities are available without charge, upon request, by calling Nuveen Investments toll-free at (800) 257-8787 or on Nuveen's website at [www.nuveen.com](http://www.nuveen.com).

You may also obtain this and other Fund information directly from the Securities and Exchange Commission ("SEC"). The SEC may charge a copying fee for this information. Visit the SEC on-line at <http://www.sec.gov> or in person at the SEC's Public Reference Room in Washington, D.C. Call the SEC at 1-202-942-8090 for room hours and operation. You may also request Fund information by sending an e-mail request to [publicinfo@sec.gov](mailto:publicinfo@sec.gov) or by writing to the SEC's Public References Section at 450 Fifth Street NW, Washington, D.C. 20549.

#### CEO CERTIFICATION DISCLOSURE

Each Fund's Chief Executive Officer has submitted to the New York Stock Exchange the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual.

Each Fund has filed with the Securities and Exchange Commission the certification of its Chief Executive Officer and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act.

#### GLOSSARY OF TERMS USED IN THIS REPORT

**AVERAGE ANNUAL TOTAL RETURN:** This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

**AVERAGE EFFECTIVE MATURITY:** The average of all the maturities of the bonds in a Fund's portfolio, computed by weighting each maturity date (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions.

**LEVERAGE-ADJUSTED DURATION:** Duration is a measure of the expected period over which a bond's principal and interest will be paid, and consequently is a measure of the sensitivity of a bond's or bond Fund's value to changes when market interest rates change. Generally, the longer a bond's or Fund's duration, the more the price of the bond or Fund will change as interest rates change. Leverage-adjusted duration takes into account the leveraging process for a Fund and therefore is longer than the duration of the Fund's portfolio of bonds.

**MARKET YIELD (ALSO KNOWN AS DIVIDEND YIELD OR CURRENT YIELD):** An investment's current annualized dividend divided by its current market price.

NET ASSET VALUE (NAV): A Fund's common share NAV per share is calculated by subtracting the liabilities of the Fund (including any MuniPreferred shares issued in order to leverage the Fund) from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

TAXABLE-EQUIVALENT YIELD: The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.

## ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. There were no amendments to or waivers from the Code during the period covered by this report. The registrant has posted the code of ethics on its website at [www.nuveen.com/etf](http://www.nuveen.com/etf). (To view the code, click on the Investor Resources drop down menu box, click on Fund Governance and then click on Code of Conduct.)

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's Board of Directors or Trustees determined that the registrant has at least one "audit committee financial expert" (as defined in Item 3 of Form N-CSR) serving on its Audit Committee. The registrant's audit committee financial expert is Jack B. Evans, Chairman of the Audit Committee, who is "independent" for purposes of Item 3 of Form N-CSR.

Mr. Evans was formerly President and Chief Operating Officer of SCI Financial Group, Inc., a full service registered broker-dealer and registered investment adviser ("SCI"). As part of his role as President and Chief Operating Officer, Mr. Evans actively supervised the Chief Financial Officer (the "CFO") and actively supervised the CFO's preparation of financial statements and other filings with various regulatory authorities. In such capacity, Mr. Evans was actively involved in the preparation of SCI's financial statements and the resolution of issues raised in connection therewith. Mr. Evans has also served on the audit committee of various reporting companies. At such companies, Mr. Evans was involved in the oversight of audits, audit plans, and the preparation of financial statements. Mr. Evans also formerly chaired the audit committee of the Federal Reserve Bank of Chicago.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Nuveen Pennsylvania Investment Quality Municipal Fund, Inc.

The following tables show the amount of fees that Ernst & Young LLP, the Fund's auditor, billed to the Fund during the Fund's last two full fiscal years. For engagements with Ernst & Young LLP entered into on or after May 6, 2003, the Audit Committee approved in advance all audit services and non-audit services that Ernst & Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule 2-01 of Regulation S-X (the "pre-approval exception"). The pre-approval exception for services provided directly to the Fund waives the pre-approval requirement for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid by the Fund to its accountant during the fiscal year in which the services are provided; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE FUND

FISCAL YEAR ENDED	AUDIT FEES BILLED TO FUND	AUDIT-RELATED FEES BILLED TO FUND

Percentage approved pursuant to pre-approval exception	N/A	0%

June 30, 2004	\$ 13,969	\$ 0
Percentage approved pursuant to pre-approval exception	N/A	0%

The above "All Other Fees" are fees paid to audit firms to perform agreed upon procedures required by the rating agencies to rate fund preferred shares. The above "Tax Fees" were billed for professional services for tax advice, tax compliance, and tax planning.

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE ADVISER AND AFFILIATED FUND SERVICE PROVIDERS

The following tables show the amount of fees billed by Ernst & Young LLP to Nuveen Asset Management ("NAM" or the "Adviser"), and any entity controlling, controlled by or under common control with NAM ("Control Affiliate") that provides ongoing services to the Fund ("Affiliated Fund Service Provider"), for engagements directly related to the Fund's operations and financial reporting, during the Fund's last two full fiscal years.

The tables also show the percentage of fees subject to the pre-approval exception. The pre-approval exception for services provided to the Adviser and any Affiliated Fund Service Provider (other than audit, review or attest services) waives the pre-approval requirement if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid to Ernst & Young LLP by the Fund, the Adviser and Affiliated Fund Service Providers during the fiscal year in which the services are provided that would have to be pre-approved by the Audit Committee; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the Fund's audit is completed.

June 30, 2004	\$ 0	\$ 0	
Percentage approved pursuant to pre-approval exception	N/A	N/A	

Edgar Filing: NUVEEN PENNSYLVANIA INVESTMENT QUALITY MUNICIPAL FUND INC - Form N-CSR

The above "Tax Fees" are primarily fees billed to the Adviser for Fund tax return preparation.

NON-AUDIT SERVICES

The following table shows the amount of fees that Ernst & Young LLP billed during the Fund's last two full fiscal years for non-audit services. For engagements entered into on or after May 6, 2003, the Audit Committee is required to pre-approve non-audit services that Ernst & Young LLP provides to the Adviser and any Affiliated Fund Services Provider, if the engagement related directly to the Fund's operations and financial reporting (except for those subject to the de minimis exception described above). The Audit Committee requested and received information from Ernst & Young LLP about any non-audit services that Ernst & Young LLP rendered during the Fund's last fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating Ernst & Young LLP's independence.

FISCAL YEAR ENDED	TOTAL NON-AUDIT FEES BILLED TO FUND	TOTAL NON-AUDIT FEES BILLED TO ADVISER AND AFFILIATED FUND SERVICE PROVIDERS (ENGAGEMENTS RELATED DIRECTLY TO THE OPERATIONS AND FINANCIAL REPORTING OF THE FUND)	TOTAL BILLED AFFIL PRO
June 30, 2005	\$ 3,143	\$ 282,575	
June 30, 2004	\$ 2,926		\$ 0

The above "Non-Audit Fees billed to Adviser" for 2005 include "Tax-Fees" billed to Adviser in the amount of \$282,575 from previous table.

Audit Committee Pre-Approval Policies and Procedures. Generally, the audit committee must approve (i) all non-audit services to be performed for the Fund by the Fund's independent accountants and (ii) all audit and non-audit services to be performed by the Fund's independent accountants for the Affiliated Fund Service Providers with respect to operations and financial reporting of the Fund. Regarding tax and research projects conducted by the independent accountants for the Fund and Affiliated Fund Service Providers (with respect to operations and financial reports of the Fund) such engagements will be (i) pre-approved by the audit committee if they are expected to be for amounts greater than \$10,000; (ii) reported to the audit committee chairman for his verbal approval prior to engagement if they are expected to be for amounts under \$10,000 but greater than \$5,000; and (iii) reported to the audit committee at the next audit committee meeting if they are expected to be for an amount under \$5,000.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant's Board of Directors or Trustees has a separately designated audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (the "Exchange Act") (15 U.S.C. 78c(a)(58)(A)). The members of the audit committee are Robert P. Bremner, Lawrence H. Brown, Jack B. Evans, William J. Schneider and Eugene S. Sunshine.

ITEM 6. SCHEDULE OF INVESTMENTS.

See Portfolio of Investments in Item 1.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

In the rare event that a municipal issuer held by the Fund were to issue a proxy or that the Fund were to receive a proxy issued by a cash management security, the Adviser would either engage an independent third party to determine how the proxy should be voted or vote the proxy with the consent, or based on the instructions, of the Fund's Board of Directors or Trustees or its representative. In the case of a conflict of interest, the proxy would be submitted to the applicable Fund's Board to determine how the proxy should be voted. A member of the Adviser's legal department would oversee the administration of the voting, and ensure that records were maintained in accordance with Rule 204-2(c)(2) under the Investment Advisers Act of 1940 (17 CFR 275.204-2(c)(2)), reports were filed with the SEC on Form N-PX, and the results were provided to the Board of Directors or Trustees and made available to shareholders as required by applicable rules.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable at this time.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's Board implemented after the registrant last provided disclosure in response to this Item.

ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.

- (a)(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to

Edgar Filing: NUVEEN PENNSYLVANIA INVESTMENT QUALITY MUNICIPAL FUND INC - Form N-CSR

satisfy the Item 2 requirements through filing of an exhibit: Not applicable because the code is posted on registrant's website at [www.nuveen.com/etf](http://www.nuveen.com/etf) and there were no amendments during the period covered by this report. (To view the code, click on the Investor Resources drop down menu box, click on Fund Governance and then Code of Conduct.)

(a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: Ex-99.CERT Attached hereto.

(a)(3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons. Not applicable.

(b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference. Ex-99.906 CERT attached hereto.
