Milwaukee, Wis. January 20, 2011 Marshall & Ilsley Corporation (NYSE: MI) (M&I) today reported a 2010 fourth quarter net loss of \$133.4 million, or \$0.25 per share, as compared to a net loss of \$259.5 million, or \$0.54 per share, in the fourth quarter of 2009. For the year ended December 31, 2010, M&I reported a net loss of \$616.9 million, or \$1.18 per share, as compared to a net loss of \$858.8 million, or \$2.46 per share, for the year ended December 31, 2009.

Our fourth quarter results were substantially better than the same period last year, said Mark Furlong, president and CEO, Marshall & Ilsley Corporation. We continue to make steady progress in addressing credit challenges, posting six consecutive quarters of asset quality improvement, and we continue to remain diligent in improving our credit profile.

Net Interest Income

The Corporation's net interest income (FTE) was \$375.9 million for the fourth quarter of 2010, down \$30.2 million or 7 percent compared to the fourth quarter of 2009. The net interest margin was 3.15 percent, up 20 basis points from the fourth quarter of 2009, and up 1 basis point from the prior quarter. During the fourth quarter of 2010, M&I's net interest margin benefited from changes in deposit mix, but continued to be penalized by a high cash balance.

Asset Quality

M&I continued to proactively address credit quality in the fourth quarter of 2010 by identifying and writing down troubled assets, selling problem loans, reducing exposure to construction and development loans, and maintaining loan loss reserves.

Provision for loan and lease losses was \$429.1 million in the fourth quarter of 2010, down \$209.9 million or 33 percent versus the fourth quarter of 2009. Net charge-offs for the period were \$429.7 million, falling \$142.6 million or 25 percent compared to the same quarter last year.

Construction and development (C&D) exposure declined from the third quarter of 2010 to 8.65 percent of total loans. Arizona C&D exposure fell 79 percent since the fourth quarter of 2007.

Allowance for loan and lease losses at quarter-end was \$1.4 billion, or 3.75 percent of total loans and leases, an increase of 40 basis points from the same quarter last year.

Asset quality trends demonstrated further stabilization through lower early stage delinquencies, nonperforming loan inflows, and nonperforming loans.

Early stage delinquencies fell 20 percent from the same quarter last year, and declined 15 percent from the prior quarter.

Nonperforming loan inflows decreased 32 percent from the fourth quarter of 2009 to \$638 million, and dropped 10 percent from the third quarter of 2010.

Nonperforming loans decreased \$477.1 million, or 23 percent from the fourth quarter of 2009 the sixth consecutive quarterly decline and down 35 percent from the high point set in the second quarter of 2009.

Nonperforming loans and leases were 4.24 percent (or 2.58 percent excluding nonperforming loans and leases less than ninety days past due) of total loans and leases at December 31, 2010, compared to 4.62 percent at December 31, 2009.

Non-Interest Income

The Corporation's non-interest income was \$255.9 million for the fourth quarter of 2010 compared to \$239.8 million for the fourth quarter of 2009. Net investment securities gains were \$54.4 million for the current quarter versus \$40.6 million in the same quarter last year. After adjusting for net investment securities gains, M&I's non-interest income increased \$2.1 million or 1 percent versus the fourth quarter of 2009. Wealth Management revenue was \$72.9 million for the current quarter, exceeding the same quarter last year by \$3.0 million or 4 percent. Assets under management and assets under administration were \$33.6 billion and \$134.2 billion, respectively, at December 31, 2010, compared to \$32.9 billion and \$122.3 billion, respectively, at December 31, 2009.

Non-Interest Expense

M&I's non-interest expense was \$400.4 million for the fourth quarter of 2010 compared to \$405.4 million for the fourth quarter of 2009. Net credit-related expenses (meaning expenses associated with collection efforts and carrying nonperforming assets) were \$45.3 million for the current quarter versus \$65.1 million in the same quarter last year. Non-interest expense in the fourth quarter of 2010 included expenses associated with the recently announced transaction with BMO Financial Group. In addition, M&I incurred increases in expenses in the fourth quarter of 2010 compared to the fourth quarter of 2009 for severance and retiring wholesale CDs. After adjusting for net credit-related expenses, deal fees, severance, and non-cash expenses related to retiring wholesale CDs, M&I's non-interest expense amounted to \$335.2 million in the fourth quarter of 2010 compared to \$335.6 million in the fourth quarter of 2009 and was relatively unchanged. The Corporation's adjusted efficiency ratio was 59.0 percent in the current quarter after adjusting for net credit-related expenses and other one-time items.

Loan and Deposit Growth

M&I's average loans and leases totaled \$38.7 billion for the fourth quarter of 2010, decreasing \$6.6 billion or 15 percent compared to the fourth quarter of 2009. When adjusted for the targeted reduction in the Corporation's construction and development portfolio, loans fell \$4.0 billion or 10 percent versus the same quarter last year. Loan balances continued to be negatively impacted by lower utilization rates on commercial lines of credit and the depressed real estate markets.

The Corporation's average deposits totaled \$38.6 billion for the fourth quarter of 2010, falling \$3.0 billion or 7 percent versus the fourth quarter of 2009 due to the decline in wholesale deposits. M&I's bank-issued deposits rose \$0.9 billion or 3 percent over the past year, reflecting successful growth in transaction accounts. The Corporation's transaction deposits totaled \$24.8 billion for the fourth quarter of 2010, increasing \$2.8 billion or 13 percent compared to the fourth quarter of 2009. M&I's wholesale deposits totaled \$7.0 billion for the fourth quarter of 2010, down \$3.9 billion or 36 percent compared to the same quarter last year.
