BANTA CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 28, 2002
(UNAUDITED)

1) Basis of Presentation

The unaudited condensed consolidated financial statements of Banta Corporation (the Corporation) included herein have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to such rules and regulations, although the Corporation believes that the disclosures are adequate to make the information presented not misleading. It is suggested that these condensed consolidated financial statements be read in conjunction with the financial statements and the notes thereto included in the Corporation's latest Annual Report on Form 10-K.

In the opinion of management, the aforementioned financial statements include all adjustments (consisting only of normal recurring adjustments) necessary for a fair presentation of the results for the interim periods. Results for the three and nine months ended September 28, 2002 are not necessarily indicative of results that may be expected for the year ending December 28, 2002.

2) Inventories

Inventories consist of the following (dollars in thousands):

	September 28, 2002	December 29, 2001
	-----	-----
Raw materials and supplies	\$31,555	\$38,432
Work-in-process and finished goods	35,156	32,647
	-----	-----
	\$66,711	\$71,079

Edgar Filing: BANTA CORP - Form 10-Q

=====

=====

3) Earnings Per Share of Common Stock

Basic earnings per share of common stock is computed by dividing net earnings by the weighted average number of common shares outstanding during the period. Diluted earnings per share of common stock is computed by dividing net earnings by the weighted average number of common shares and common equivalent shares outstanding during the period. The common equivalent shares relate entirely to the assumed exercise of stock options.

6

The weighted average shares used in the computation of earnings per share consist of the following (in millions of shares):

	Three Months Ended		Nine Months Ended	
	September 28, 2002	September 29, 2001	September 28, 2002	September 29, 2001
Basic	25.3	24.7	25.2	24.7
Diluted	25.7	24.9	25.6	24.9

4) Comprehensive Earnings

Comprehensive earnings consist of the following (dollars in thousands):

	Three Months Ended	
	September 28, 2002	September 29, 2001
Net earnings	\$19,539	\$18,748
Other comprehensive earnings (loss):		
Foreign currency translation adjustments	(457)	2,970
Comprehensive earnings	19,082	\$21,718

5) Goodwill

The Corporation adopted Statement of Financial Accounting Standards ("SFAS") No. 142, Goodwill and Other Intangible Assets, effective December 30, 2001. Under SFAS No. 142, goodwill and certain other intangible assets are no longer amortized but are reviewed for impairment. In connection with the adoption of SFAS No. 142, the Corporation has completed the first step of the transitional goodwill impairment test, which required the Corporation to compare the fair value of its reporting units to the carrying value of the net assets of the respective reporting units as of December 30, 2001. Based on this analysis, the Corporation has concluded that no impairment existed at the

Edgar Filing: BANTA CORP - Form 10-Q

time of adoption, and, accordingly, the Corporation has not recognized any transitional impairment loss.

Changes in the carrying amount of goodwill of (\$54,000) and \$872,000 for the three and nine months periods ended September 28, 2002, respectively, consist solely of translation adjustments for goodwill denominated in foreign currencies.

As required by SFAS No. 142, the results of operations for periods prior to its adoption have not been restated. The following table reconciles reported net earnings and earnings per share to pro-forma net earnings and earnings per share that would have resulted for the three and nine months ended September 28, 2002 if SFAS No. 142 had been adopted on December 31, 2000 (dollars in thousands, except per share amounts):

7

	Three Months Ended		Nine M
	September 28, 2002	September 29, 2001	September 28, 20
Reported net earnings	\$19,539	\$18,748	\$43,407
Goodwill amortization	-	461	-
	-----	-----	-----

Goodwill amortization	-	.02	-
	-----	-----	-----
Adjusted diluted earnings per share	\$0.76	\$0.77	\$1.70
	=====	=====	=====

6) Restructuring Charge

In the second quarter of 1999, the Corporation recorded a restructuring charge, including related asset writedowns, of \$55.0 million (\$38.5 million after tax). The restructuring primarily involved the Corporation's print segment and resulted in three facility closings and the elimination of certain under-performing business assets. The restructuring also resulted in workforce reductions of approximately 650 employees (350 employees at the three facilities closed) and the writedown of certain long-lived assets, including goodwill. With the exception of continued lease payments for certain of the closed facilities, all restructuring actions were substantially completed in fiscal 2000.

The restructuring charge consists of the following (dollars in thousands):

Edgar Filing: BANTA CORP - Form 10-Q

	Original Restructuring Charge	Used in 1999	Used in 2000	Used in 2001	Used Sept.
Writedown of intangible assets, including goodwill	\$ 15,600	\$ (15,600)	\$ -	\$ -	\$
Writedown of tangible assets	15,300	(15,300)	-	-	
Lease termination payments	11,500	(2,764)	(1,940)	(1,318)	
Employee severance and termination benefits	8,300	(6,588)	(1,712)	-	
Other facility exit costs	4,300	(2,799)	(1,501)	-	
Total	\$ 55,000	(43,051)	\$ (5,153)	\$ (1,318)	\$

8

7) Segment Information

The Corporation operates in two primary business segments, print and supply-chain management, with other business operations in healthcare products. Summarized segment data for the three and nine months ended September 28, 2002 and September 29, 2001 are as follows (dollars in thousands):

	Three Months Ended		Nine
	September 28, 2002	September 29, 2001	September 28, 2001
Net sales			
Print	\$ 267,157	\$ 272,236	\$ 739,712
Supply-Chain Management	62,849	80,929	205,476
Healthcare	22,070	24,652	73,118
Total	\$ 352,076	\$ 377,817	\$1,018,306
	=====	=====	=====
Earnings from operations			
Print	\$ 28,860	\$ 29,336	\$ 66,783
Supply-Chain Management	6,566	7,121	16,992
Healthcare	2,626	2,165	7,591
Total	\$ 38,052	\$ 38,622	\$ 91,366
	=====	=====	=====

The following table presents a reconciliation of segment earnings from operations to the totals contained in the consolidated condensed financial statements for the three and nine months ended September 28, 2002 and September 29, 2001 (dollars in thousands):

Edgar Filing: BANTA CORP - Form 10-Q

	=====	=====	=====

9

Item 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

RESULTS OF OPERATIONS

THIRD QUARTER AND FIRST NINE MONTHS OF 2002 COMPARED TO 2001

Net Sales

Net sales for the third quarter of 2002 totaled approximately \$352 million, 7% less than net sales for the third quarter of 2001. Net sales for the quarter by segment are shown below (dollars in thousands):

Segment	Quarter 3 2002	Quarter 3 2001	Increase (Decrease) %
Print	\$267,157	\$272,236	(2%)
Supply-Chain Management	62,849	80,929	(22%)
Healthcare	22,070	24,652	(10%)
Total	\$352,076	\$377,817	(7%)

Print sales for the third quarter were 2% lower than the comparable quarter in the prior year, with strength in the Book Group offset by lower revenues in Publications, Catalog and Direct Marketing. The key issues related to revenues in this segment were:

- o Book Group sales have been strong year to date, with third quarter revenues 5% above the prior year. The third quarter is historically a strong quarter for business-to-business catalogs and calendars, specifically day-to-day calendars. The business continues to expand its literature management

Edgar Filing: BANTA CORP - Form 10-Q

- services to a broader list of customers, and several major literature management customers were recently added, representing the healthcare, financial services and medical products industries.
- o The Catalog Group had strong volumes, with third quarter print production (as measured by impressions) up 5% from the prior year. This is the result of gaining market share with several new niche catalogs and a limited number of longer run catalogs. Pricing in this marketplace remains a challenge, however. As a result, Catalog Group revenues in the 2002 third quarter were down 6% from the comparable quarter in the prior year.
 - o The Publications Group continues to outperform the market adding new titles and generating record impression counts in a very tough economy. However, advertising page counts moved down in September for the 20th straight month. Revenues for this Group for the third quarter were down 3% from the comparable quarter in the prior year.
 - o Direct Marketing has been one of the fastest growing markets in the print industry, but in 2002 both the commercial and direct mail segments have been the hardest hit by slowness in the economy. Retailers, consumer package goods companies and several financial service companies became increasingly conservative in the number and amount of pieces mailed. The result has been a very challenging nine months for the Direct Marketing Group's customers, with revenues down 9% from the prior year.

Consolidated net sales for the Supply-Chain Management segment for the third quarter of 2002 continued to decline from 2001 levels, with the third quarter down 22% from the comparable quarter of the prior year. Ongoing softness within the technology sector continues to put downward pressure on revenues.

Healthcare net sales in the third quarter were \$22 million, down 10% versus the comparable period in 2001.

Net sales for the first nine months of 2002 were \$1.02 billion, a decrease of 7% from the first nine months of 2001. Print segment sales for the nine-month period were \$740 million compared to \$755 million in

10

the first nine months of 2001, a decrease of 2%. Sales for the supply-chain management segment in the first nine months of 2002 were \$205 million, down 20% from the prior year comparable period sales of \$258 million. Healthcare sales were slightly lower than the prior year, with \$73 million in the first nine months of 2002 versus \$77 million in the first nine months of 2001. Factors primarily affecting operating activity levels for the first nine months were similar to those described above for the third quarter.

Earnings from operations

Consolidated earnings from operations decreased by 3.4% to \$33.2 million in the third quarter of 2002 as compared with \$34.4 million in the third quarter of 2001. This decrease resulted from higher selling, general and administrative (SG&A) costs as compared with the third quarter of the prior year. SG&A costs in the third quarter of 2001 were unusually low due to cost cutting initiatives, including an adjustment to commission expense. SG&A costs in the third quarter of 2002 were consistent with prior quarters in fiscal 2002. Operating earnings as a percentage of sales increased from 9.1% in 2001 to 9.4% in 2002.

Segment operating margins were as follows for the third quarter:

Segment	2002	2001
Print	10.8%	10.8%
Supply-Chain Management	10.4%	8.8%

Edgar Filing: BANTA CORP - Form 10-Q

Healthcare

11.9%

8.8%

Operating margins for the print segment for the third quarter of 2002 were unchanged from operating margins in the comparable quarter of 2001.

Despite reduced revenue in the Corporation's Supply-Chain Management segment, operating performance and product mix generated an operating margin of 10.4% in the third quarter of 2002. Ongoing margins in the Supply-Chain Management segment with a normalized product mix would be expected to be in the 5.5% to 6.5% range. Several factors drove the strong 10.4% operating margin in the third quarter of 2002 in spite of the revenue shortage:

- o The percentage or amount of material pass-through to value-added services varies greatly by customer and product. Third quarter revenue contained a higher portion of value added work, thus allowing the Corporation to achieve better than expected margins due to a more favorable product mix. In addition, stringent cost controls and increased efficiencies contributed to the improved margin.
- o The release of \$1.2 million of reserves related to the shutdown of a facility in Fort Worth, TX completed during the quarter. Ongoing analysis of reserves in this sector will be completed in the fourth quarter.

The Healthcare segment improved operating margins in the third quarter of 2002 to 11.9%, as compared to 8.8% in the third quarter of 2001, the result of an increased number of products sourced from lower cost foreign suppliers and tight control of working capital.

Consolidated earnings from operations for the first nine months of 2002 were \$78 million, equal to the prior year period. Operating margins of 7.7% for the first nine months of 2002 were higher than the 7.2% for the same period in 2001. Print segment earnings in the 2002 nine-month period were equivalent to the 2001 results despite lower revenues. The 2002 performance was the result of stringent cost controls, utilization and mix factors. Earnings from operations for the supply-chain management segment were 7% lower for the current nine-month period compared to the prior year period primarily due to reduced sales volumes. Healthcare earnings from operations were consistent at approximately \$7 million for both the first nine months of 2002 and 2001, despite lower revenues.

11

The principal raw material used by the Corporation in the print segment is paper. Paper prices in the third quarter of 2002 were nearly 8% below the third quarter of 2001.

Interest Expense

Interest expense for the third quarter of 2002 was \$2.1 million, a reduction of 38% compared to interest expense of \$3.3 million in the prior year third quarter. The Corporation had no short-term debt outstanding in the third quarter, compared to \$16 million in short-term debt outstanding at the end of third quarter 2001. Long-term debt at September 28, 2002 of approximately \$133 million was down from \$179 million at the end of the 2001 third quarter. The reduction in interest expense is the result of the reduction in long-term and short-term debt. Essentially all of the Corporation's long-term debt is at fixed interest rates, so reduced interest rates in the market have not significantly impacted interest expense.

Interest expense for the first nine months of 2002 was \$8.1 million, a reduction of 25% compared to the first nine months of 2001. The decrease in interest expense is the result of the reduction in total debt.

Edgar Filing: BANTA CORP - Form 10-Q

Income Taxes

As indicated below, the Corporation's effective third quarter and nine-month tax rates for 2002 were slightly higher than the third quarter and nine-month 2001 rates. The 2001 tax rates were impacted by foreign earnings taxed at a lower rate and an investment write-off in the 2001 first quarter.

	Effective Tax Rate	
	2002	2001
	-----	-----
Third Quarter	38.8%	38.6%
First Nine Months	39.0%	38.7%

Liquidity and Capital Resources

The Corporation's net working capital (current assets less current liabilities) increased by approximately \$66 million at the end of the first nine months of 2002 compared to the end of fiscal 2001. Cash balances increased by approximately \$78 million, primarily the result of increased cash flow from operations, reduced capital expenditures and decreases in accounts receivable of \$11 million and inventory of \$4 million, as compared to December 29, 2001 balances. Free cash flow for the third quarter of 2002 was \$46 million, compared to \$44 million in the third quarter of 2001. Earnings before interest, taxes and depreciation totaled \$52 million in the third quarter of 2002, comparable to the \$53 million recorded in the third quarter of 2001.

The Corporation has in effect a stock repurchase program pursuant to which it may repurchase shares of its common stock on the open market or in privately negotiated transactions from time to time. During the quarter ended September 28, 2002, the Corporation did not effect any repurchases of common stock.

Capital expenditures were \$21 million during the first nine months of 2002, a decrease of \$19 million from the \$40 million spent during the first nine months of 2001. The Corporation reduced capital expenditures due to continued softness in the general economy. Capital expenditures for the full year are expected to be approximately \$35 - \$40 million and will be funded by cash provided from operations. Capital expenditures for 2001 were approximately \$50 million.

Total debt as a percentage of total capitalization at September 28, 2002 was 22%, compared to 28% at December 29, 2001.

Given cash and cash equivalents on hand as well as borrowing capacity currently in place, the Corporation believes it has sufficient liquidity to fund its operations for the foreseeable future.

12

The Corporation has estimated the fair value of plan assets and obligations as of December 31, 2002 of the primary defined benefit pension plans. At this time the Corporation anticipates a large unrecognized net loss due to asset performance and the decline in prevailing interest rates. However, the plans are adequately funded and the Corporation does not expect to incur a charge to other comprehensive income. Plan assets and obligations will be monitored closely through the balance of the year and the Corporation may consider an additional contribution in 2002.

Termination of Proposed Acquisition of Mentor Media

On October 21, 2002, the Corporation announced its intention to seek a court ruling for the termination of its proposed acquisition of Singapore-based Mentor Media Ltd. (Singapore Stock Exchange) due to, among other things, Mentor's

Edgar Filing: BANTA CORP - Form 10-Q

failure to satisfy certain material conditions required to close the transaction. The Corporation has consulted with the Singapore Securities Industry Council in connection with this intention, as required under the Singapore Takeovers Code. The Corporation has also commenced litigation in Singapore seeking termination of the acquisition agreement. The Corporation believes that it has meritorious grounds upon which to seek termination of the transaction. The proposed transaction was announced on June 20, 2002.

FUTURE OUTLOOK

Despite the persistence of a depressed economy and the lack of visibility in the marketplace, the Corporation currently believes that for the full-year 2002 it will exceed last year's net earnings and diluted EPS of \$2.31 per share (before the write-off of investment in Xyan.com). However, EPS guidance of \$2.40 to \$2.45, given July 26 when the Corporation released its 2002 second quarter earnings, now appears too optimistic given economic conditions. Given the continued sluggishness of the economy and the lack of signs for revenue recovery from the Corporation's customers until possibly the latter part of next year, the Corporation is currently examining all options to insure that its cost structure and capacity are properly aligned with revenue expectations.

CRITICAL ACCOUNTING POLICIES

The Corporation's accounting policies are more fully described in Note 1 to the consolidated financial statements included in the Corporation's Annual Report on Form 10-K for the fiscal year ended December 29, 2001. As disclosed in Note 1, the preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions about future events that affect the amounts reported in the financial statements and footnotes. Future events and their effects cannot be determined with absolute certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results inevitably will differ from those estimates, and such differences may be material to the financial statements.

The most significant accounting estimates inherent in the preparation of the Corporation's consolidated financial statements include estimates as to the recovery of receivables and the realization of inventories, plant and equipment, long term investments and goodwill. Significant assumptions are also used in the determination of liabilities related to pension and post-retirement benefits. The process of determining significant estimates is fact specific and takes into account factors such as historical experience, current and expected economic conditions, product mix, and in some cases, actuarial assumptions. The Corporation re-evaluates these significant factors as facts and circumstances dictate. Historically, actual results have not differed significantly from those determined using the estimates described above.

The Corporation believes the following critical accounting policies affect its more significant judgments and estimates used in the preparation of its consolidated financial statements:

- o Revenue Recognition. Revenues are recognized on products shipped to unaffiliated customers when the risk of loss transfers or when services are performed. The Securities and Exchange Commission's Staff Accounting Bulletin (SAB) No. 101, "Revenue Recognition" provides guidance on the application of accounting principles generally accepted in the United States to selected revenue recognition issues. In addition, revenues in the supply-chain management segment are recognized in accordance with Emerging Issues Task Force (EITF) Issue No. 99-19, which provides guidance on

Edgar Filing: BANTA CORP - Form 10-Q

whether revenue should be recorded gross as a principal or net as an agent. Each major contract is evaluated based on various criteria, with management judgment required to assess the importance of each criterion in reaching the final decision.

- o The Company adopted Statement of Financial Accounting Standards (SFAS) No. 142, "Goodwill and Other Intangible Assets," effective December 30, 2001. Under SFAS No. 142, goodwill and certain other intangible assets are no longer amortized but are reviewed for impairment. In connection with the adoption of SFAS No. 142, the Company has completed the first step of the transitional goodwill impairment test, which requires the Company to compare the fair value of its reporting units to the carrying value of the net assets of the respective reporting units as of December 30, 2001. Based on this analysis, the Company has concluded that no impairment existed at the time of adoption, and, accordingly, the Company has not recognized any transitional impairment loss.
- o Inventories. The Corporation's inventories are stated at the lower of cost or market using the first-in, first-out (FIFO) method. Inventories include material, labor and manufacturing overhead.

CAUTIONARY STATEMENTS FOR FORWARD-LOOKING INFORMATION

This document includes forward-looking statements. Statements that describe future expectations, including revenue and earnings projections, plans, results, or strategies, are considered forward-looking. Such statements are subject to certain risks and uncertainties, which could cause actual results to differ materially from those currently anticipated. Factors that could affect actual results include, among others, changes in customers' order patterns or demand for the Corporation's products and services, changes in raw material costs and availability, unanticipated changes in operation expenses, unanticipated production difficulties, issues related to the termination of Mentor Media acquisition, changes in the pattern of outsourcing supply-chain management functions by customers, and any unanticipated delay in the economic recovery. These factors should be considered in evaluating the forward-looking statements, and undue reliance should not be placed on such statements. The forward-looking statements included herein are made as of the date hereof, and the Corporation undertakes no obligation to update publicly such statements to reflect subsequent events or circumstances.

Item 3. Qualitative and Quantitative Disclosures About Market Risk

The Corporation is exposed to market risk from changes in interest rates and foreign exchange rates. As of September 28, 2002, the Corporation had no notes payable outstanding against lines of credit with banks. Since essentially all the Corporation's long-term debt is at fixed interest rates, exposure to interest rate fluctuations is minimal.

Exposure to adverse changes in foreign exchange rates is not considered material. Potential market risk associated with changes in foreign exchange is considered in contractual arrangements with customers.

Item 4. Controls and Procedures

Within the 90-day period prior to the filing of this report, an evaluation was carried out under the supervision and with the participation of the Corporation's management, including the Corporation's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Corporation's disclosure controls and procedures (as defined in Rule 13a-14(c) under the Securities Exchange Act of 1934). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded

Edgar Filing: BANTA CORP - Form 10-Q

that the design and operation of these disclosure controls and procedures were effective. No significant changes were made in the Corporation's internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation.

14

PART II: OTHER INFORMATION

Item 5. Other Information

The Corporation announced on October 29, 2002 that Daniel W. Kiener, Vice President and Chief Financial Officer, resigned due to a family medical issue that requires him to return to his home in Pittsburgh, PA. Mr. Kiener's resignation as Chief Financial Officer becomes effective following the Corporation's third quarter reporting cycle, which will conclude in mid-November. Succeeding Mr. Kiener as interim Chief Financial Officer will be Gerald A. Henseler, who retired as the Corporation's Executive Vice President and Chief Financial Officer on August 1, 2002.

Item 6. Exhibits and Reports on Form 8-K

(a) Exhibits -

4.1 - Amendment to Rights Agreement
99.1 - Written Statement of Chief Executive Officer
99.2 - Written Statement of Chief Financial Officer

(b) Reports on Form 8-K -

The Corporation filed a Current Report on Form 8-K, dated August 13, 2002, furnishing written statements of its principal executive officer and principal financial officer relating to certain of the Corporation's filings under the Securities Act of 1934.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

BANTA CORPORATION

/s/ Daniel W. Kiener

I, Stephanie A. Streeter, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Banta Corporation;

Edgar Filing: BANTA CORP - Form 10-Q

2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-13 and 15d-14) for the registrant and we have:
 - o designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - o evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the "Evaluation Date"); and
 - o presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - o all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and
 - o any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and
6. The registrant's other certifying officers and I have indicated in this quarterly report whether there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
