LUCENT AND ALCATEL PROVIDE UPDATE ON ONGOING INTEGRATION WORK; LUCENT COMMENTS ON PRELIMINARY RESULTS FOR THIRD QUARTER OF FISCAL 2006

Today, Lucent issued two news releases, the first being a joint announcement with Alcatel providing an update on our ongoing integration work. The announcement said that we are on track to complete our merger by the end of calendar year 2006, and also contained updates on the combined company's organization structure, regulatory milestones and cost synergies.

The second news release announced that Lucent expects third quarter fiscal 2006 revenues, which ended June 30, to be approximately \$2.04 billion, subject to the completion of our quarterly closing process. This compares with revenues of \$2.14 billion in the second quarter of fiscal 2006 and \$2.34 billion in the year-ago quarter.

Following are links to the news releases, more information, and talking points to be used with customers surrounding these announcements.

- o The Enterprise Business Group will be headed by Hubert de Pesquidoux. o The Service Business Group will be headed by John Meyer.
- o The company will have four geographic regions:

### 3Q06 PRELIMINARY RESULTS ANNOUNCEMENT

### What to Tell Customers:

- o The sequential and year-over-year declines were due primarily to lower sales of current-generation wireless solutions to North American mobility customers.
- o Overall, our year-to-date results also have been affected to some extent by delays in spending that we believe are attributable to the consolidation efforts of certain customers
- o While consolidation among some of our largest customers and the transition period that accompanies the adoption of next-generation technologies are two factors putting pressure on our revenues, we also believe that consolidation will provide new opportunities going forward as service providers look to us to help them integrate their large, complex networks.
- o On a preliminary basis, we expect to report earnings of approximately 2 cents per diluted share for Q306, as compared with earnings of 4 cents per share in the second quarter of fiscal 2006 and earnings of 7 cents per diluted share in the year-ago quarter.
- o We believe that telecom is an industry undergoing tremendous change and is still ripe with fruitful opportunity.
- o We expect investment in both CDMA and UMTS to increase going forward, driven by the introduction of EV-DO RevA and HSDPA solutions.

ss. We recently announced contracts with Verizon Wireless and Telecom New Zealand for our EV-DO RevA solution, which we expect to make commercially available in late September.

- o Our customers continue investing in IMS, and we continue to see opportunities in the market that align with our strengths and investments in IMS, 3G mobile, services, next-gen optical and access, and applications.
- o We have the right people, products and services to capitalize on those opportunities before us.
