The board of directors of CNOOC Limited ("Company") (the "Board") hereby announces certain selected unaudited key operational statistics of the Company and its subsidiaries (the "Group") for the first quarter of 2005 (ended 31 March 2005). The comparative statistics for the first quarter for 2004 (ended 31 March 2004) are also disclosed in this announcement.

The Company's oil and gas revenue for the first quarter of 2005 amount to RMB11.42 billion (equivalent of US\$1.380 billion), representing an increase of 48.1% when compared to the same period in 2004. The Company also reported total net daily production of 411,424 barrels of oil equivalent (BOE), an increase of 13.4% from the same period in 2004.

The offshore China net production of the Company experienced growth of 19% in the first quarter of 2005 from the same quarter last year reaching the level of 373,984 barrels of oil equivalent (BOE) per day. Crude oil and liquids production offshore China of the Company was 327,755 barrels per day. The increase of 20% in crude oil and liquids production was largely due to increases of production volume from Bohai Bay and Eastern South China Sea. Gas production was 266 million cubic feet per day offshore China representing an increase of 7.7%.

Total unaudited revenues were RMB11.48 million (equivalent of US\$1.387 billion) for the first quarter of 2005, a 47.6% increase from the first quarter of 2004. This revenue growth was a result of large production volume and higher realized oil and gas prices. The realized oil price in the first quarter of 2005 was US\$41.73 per barrel.

The Company's development capital expenditures increased 65.8% to RMB2.99 billion (equivalent to US\$361 million) as a result of active development activities while exploration capital expenditures were flat at RMB0.34 billion (equivalent to US\$41.7 million).

LD10-1, an independent field in Bohai Bay, came on stream in early 2005, ahead of schedule and outperformed the initial target. The Company also completed the acquisition of a 16.69% stake in MEG Energy Corp, a Canada based pure oil sand company in the first quarter of 2005.
