WESCO INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. ORGANIZATION

WESCO International, Inc. and its subsidiaries (collectively, "WESCO" or the "Company"), headquartered in Pittsburgh, Pennsylvania, is a full-line distributor of electrical, industrial and communications maintenance, repair and operating ("MRO") and original equipment manufacturers ("OEM") products, construction materials, and advanced supply chain management and logistics services used primarily in the industrial, construction, utility and commercial, institutional and government markets. WESCO serves over 80,000 active customers globally, through approximately 500 full service branches and nine distribution centers located primarily in the United States, Canada and Mexico, with operations in 14 additional countries.

2. ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited Condensed Consolidated Financial Statements of WESCO have been prepared in accordance with Rule 10-01 of Regulation S-X of the Securities and Exchange Commission (the "SEC"). The unaudited condensed consolidated financial information should be read in conjunction with the audited Consolidated Financial Statements and Notes thereto included in WESCO's 2015 Annual Report on Form 10-K as filed with the SEC on February 22, 2016. The Condensed Consolidated Balance Sheet at December 31, 2015 was derived from the audited Consolidated Financial Statements as of that date, but does not include all of the disclosures required by accounting principles generally accepted in the United States of America.

The unaudited Condensed Consolidated Balance Sheet as of March 31, 2016, the unaudited Condensed Consolidated Statements of Income and Comprehensive Income (Loss) for the three months ended March 31, 2016 and 2015, respectively, and the unaudited Condensed Consolidated Statements of Cash Flows for the three months ended March 31, 2016 and 2015, respectively, in the opinion of management, have been prepared on the same basis as the audited Consolidated Financial Statements and include all adjustments necessary for the fair statement of the results of the interim periods presented herein. All adjustments reflected in the unaudited condensed consolidated financial information are of a normal recurring nature unless indicated. The results for the interim periods presented herein are not necessarily indicative of the results to be expected for the full year.

During the first quarter of 2016, the Company adopted certain accounting pronouncements that were effective beginning this fiscal year. The adoption of such guidance, as described below, resulted in certain reclassifications to amounts previously reported in the Consolidated Balance Sheet at December 31, 2015.

Fair Value of Financial Instruments

The Company measures the fair value of financial assets and liabilities in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, "Fair Value Measurements and Disclosures," which defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements.

ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value and requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that are accessible at the measurement date.

Level 2 inputs include inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets and liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of assets or liabilities.

Level 3 inputs are unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

WESCO INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(CONTINUED)
(unaudited)

At March 31, 2016, the carrying value of WESCO's 6.0% Convertible Senior Debentures due 2029 (the "2029 Debentures") was \$178.9 million and the fair value was approximately \$663.9 million. At December 31, 2015, the carrying value of WESCO's 2029 Debentures was \$177.8 million and the fair value was approximately \$514.2 million. The reported carrying amounts of WESCO's other debt instruments approximate their fair values. The Company uses a market approach to fair value all of its debt instruments, utilizing quoted prices in active markets, interest rates and other relevant information generated by market transactions involving similar instruments. Therefore, all of the Company's debt instruments are classified as Level 2 within the valuation hierarchy. For all of the Company's remaining financial instruments, consisting of cash and cash equivalents, accounts receivable, accounts payable and other accrued liabilities, carrying values are considered to approximate fair value due to the short maturity of these instruments.

Recently Adopted Accounting Pronouncements

In April 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-03, Simplifying the Presentation of Debt Issuance Costs, which simplifies the presentation of debt issuance costs by requiring that debt issuance costs related to a recognized liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The Company adopted this new guidance on a retrospective basis effective January 1, 2016. Accordingly, the Company reclassified approximately \$17.7 million of debt issuance costs from other noncurrent assets to long-term debt in the balance sheet as of December 31, 2015.

In May 2015, the FASB issued ASU 2015-07, Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). This updated guidance removes the requirement to categorize investments for which fair value is measured using the net asset value (NAV) per share practical expedient within the fair value hierarchy. The amendments in this ASU are effective beginning in the first quarter of 2016 and will be applied retrospectively. This updated guidance will impact the Company's defined benefit plan disclosure in its Annual Report on Form 10-K for the fiscal year ending December 31, 2016. Specifically, investments for which fair value is measured using the NAV per share practical expedient will be removed from the fair value hierarchy in all periods presented.

In November 2015, the FASB issued ASU 2015-17, Balance Sheet Classification of Deferred Taxes. This ASU simplifies the presentation of deferred income taxes by requiring that all deferred tax assets and liabilities, along with any related valuation allowance, be classified as noncurrent in the balance sheet. The Company elected to early adopt this ASU on a prospective basis during the first quarter of 2016. The adoption of this ASU did not have a material impact on WESCO's financial position and it had no impact on its results of operations or cash flows.

Recently Issued Accounting Pronouncements

In August 2015, the FASB issued ASU 2015-14, Revenue from Contracts with Customers: Deferral of Effective Date. The Company previously reported that in May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, which provides a framework for addressing revenue recognition issues and replaces almost all existing revenue recognition guidance in current U.S. generally accepted accounting principles. The core principle of ASU 2014-09 is for companies to recognize revenue for the transfer of goods or services to customers in amounts that reflect the consideration to which the company expects to be entitled in exchange for those goods or services. ASU 2014-09 will also result in enhanced disclosures about revenue, provide guidance for transactions that were not previously addressed comprehensively, and improve guidance for multiple-element arrangements. The amendments in ASU 2015-14 defer the effective date of the new revenue recognition guidance to annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. Early adoption is permitted to the original effective date of December 15, 2016, including interim periods within that reporting period. Management is currently evaluating the future impact of this guidance on WESCO's consolidated financial statements and notes thereto.

In February 2016, the FASB issued ASU 2016-02, Leases, a comprehensive new standard that amends various aspects of existing accounting guidance for leases, including the recognition of a right-of-use asset and a lease liability on the balance sheet and disclosing key information about leasing arrangements. This guidance is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early adoption is permitted. The new leasing standard requires modified retrospective transition, which requires application of the new guidance at the beginning of the earliest comparative period presented in the year of adoption. Management is currently evaluating the impact of this new standard on WESCO's consolidated financial statements and notes thereto.

In March 2016 and April 2016, the FASB issued ASU 2016-08, Principal versus Agent Considerations (Reporting Revenue Gross versus Net), and ASU 2016-10, Identifying Performance Obligations and Licensing, respectively. The amendments in these ASUs clarify the implementation guidance on principal versus agent considerations and identifying performance obligations, respectively. Neither ASU changed the core principle in the revenue recognition standard outlined above. These

WESCO INTERNATIONAL, INC. AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(CONTINUED)
 (unaudited)

ASUs apply to all entities that enter into contracts with customers to transfer goods or services (that are an output of the entity's ordinary activities) in exchange for consideration. The effective dates and transition requirements for these ASUs are the same as the effective dates and transition requirements of the revenue recognition guidance outlined above. Management is currently evaluating the impact of these ASUs on WESCO's consolidated financial statements and notes thereto.

In March 2016, the FASB issued ASU 2016-09, Compensation—Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting, which simplifies several aspects of accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. The amendments in this ASU affect all entities that issue share-based payment awards to their employees. Management is currently evaluating the impact of this accounting standard on WESCO's consolidated financial statements and notes thereto.

Other pronouncements issued by the FASB or other authoritative accounting standards groups with future effective dates are either not applicable or are not expected to be significant to WESCO's financial position, results of operations or cash flows.

3. ACQUISITIONS

The following table sets forth the consideration paid for acquisitions:

	Three Months Ended March 31, 2016
(In thousands of dollars)	
Fair value of assets acquired	\$ 77,005
Fair value of liabilities assumed	25,005
Cash paid for acquisitions	\$ 52,000
Supplemental cash flow disclosure:	
Cash paid for acquisitions	\$ 52,000
Less: cash acquired	(1,652)
Cash paid for acquisitions, net of cash acquired	\$ 50,348

The fair values of assets acquired and liabilities assumed during the three months ended March 31, 2016 are based upon preliminary calculations and valuations. WESCO's estimates and assumptions for its preliminary purchase price allocation are subject to change as it obtains additional information for its estimates during the respective measurement period (up to one year from the respective acquisition date).

Acquisition of Atlanta Electrical Distributors, LLC

On March 14, 2016, WESCO Distribution, Inc. completed the acquisition of Atlanta Electrical Distributors, LLC ("AED"), an Atlanta-based electrical distributor focused on the construction and MRO markets from five locations in Georgia with approximately \$85 million in annual sales. WESCO funded the purchase price paid at closing with borrowings under its revolving credit facility. The purchase price was allocated to the respective assets and liabilities based upon their estimated fair values as of the acquisition date. In addition to the cash paid at closing, the purchase price includes a contingent payment that may be earned upon the achievement of certain financial performance targets over three consecutive one year periods. The fair value of the contingent consideration was determined using a probability-weighted outcome analysis and Level 3 inputs such as internal forecasts. This amount has been accrued at the maximum potential payout under the terms of the purchase agreement and it is included in the fair value of liabilities assumed as presented above. The preliminary fair value of intangibles was estimated by management and the allocation resulted in intangible assets of \$13.7 million and goodwill of \$41.1 million. Management believes that the majority of goodwill is deductible for tax purposes.

2015 Acquisitions of Needham Electric Supply Corporation and Hill Country Electric Supply, LP

On October 30, 2015, WESCO Distribution, Inc. completed the acquisition of Needham Electric Supply Corporation, an electrical distributor focused on the commercial construction and lighting national account markets from 24 locations in Massachusetts, New Hampshire and Vermont with approximately \$115 million in annual sales. WESCO funded the purchase price paid at closing with cash and borrowings under its Revolving Credit Facility. The purchase price was allocated to the respective assets and liabilities based upon their estimated fair values as of the acquisition date. The fair value of intangibles was estimated by management and the allocation resulted in intangible assets of \$31.0 million and goodwill of \$35.7 million.

WESCO INTERNATIONAL, INC. AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(CONTINUED)
 (unaudited)

The intangible assets include customer relationships of \$24.5 million amortized over 12 and 14 years, and trademarks of \$6.5 million amortized over 13 years. No residual value is estimated for the intangible assets being amortized.

Management believes that the majority of goodwill is deductible for tax purposes.

On May 1, 2015, WESCO Distribution, Inc. completed the acquisition of Hill Country Electric Supply, LP, an electrical distributor focused on the commercial construction market from nine locations in Central and South Texas with approximately \$140 million in annual sales. WESCO funded the purchase price paid at closing with borrowings under its prior revolving credit facility. The purchase price was allocated to the respective assets and liabilities based upon their estimated fair values as of the acquisition date. The fair value of intangibles was estimated by management and the allocation resulted in intangible assets of \$21.1 million and goodwill of \$15.8 million. The intangible assets include customer relationships of \$13.1 million amortized over 11 years, non-compete agreements of \$0.2 million amortized over 5 years, and trademarks of \$7.8 million amortized over 12 years. No residual value is estimated for the intangible assets being amortized. Management believes that the majority of goodwill is deductible for tax purposes.

4. GOODWILL

The following table sets forth the changes in the carrying value of goodwill:

	Three Months Ended	
	March 31, 2016	March 31, 2015
	(In thousands)	
Beginning balance January 1	\$ 1,681,662	\$ 1,735,440
Foreign currency exchange rate changes	39,918	(59,859)
Additions to goodwill for acquisitions	41,113	—
Ending balance March 31	\$ 1,762,693	\$ 1,675,581

5. STOCK-BASED COMPENSATION

WESCO's stock-based employee compensation plans are comprised of stock-settled stock appreciation rights, restricted stock units and performance-based awards. Compensation cost for all stock-based awards is measured at fair value on the date of grant and compensation cost is recognized, net of estimated forfeitures, over the service period for awards expected to vest. The fair value of stock-settled stock appreciation rights and performance-based awards with market conditions is determined using the Black-Scholes and Monte Carlo simulation models, respectively. The fair value of restricted stock units and performance-based awards with performance conditions is determined by the grant-date closing price of WESCO's common stock. The forfeiture assumption is based on WESCO's historical employee behavior that is reviewed on an annual basis. No dividends are assumed.

During the three months ended March 31, 2016 and 2015, WESCO granted the following stock-settled stock appreciation rights, restricted stock units and performance-based awards at the following weighted-average fair values:

	Three Months Ended	
	March 31, 2016	March 31, 2015
Stock-settled stock appreciation rights granted	703,510	394,182
Weighted-average fair value	\$ 12.88	\$ 21.68
Restricted stock units granted	143,168	78,292
Weighted-average fair value	\$ 42.44	\$ 69.54
Performance-based awards granted	91,768	59,661

Weighted-average fair value	\$47.00	\$ 67.81

The fair value of stock-settled stock appreciation rights was estimated using the following weighted-average assumptions:

	Three Months Ended March 31,	
	2016	2015
Risk free interest rate	1.2 %	1.6 %
Expected life (in years)	5	5
Expected volatility	32 %	32 %

The risk-free interest rate is based on the U.S. Treasury Daily Yield Curve rates as of the grant date. The expected life is based on historical exercise experience and the expected volatility is based on the volatility of the Company's daily stock prices over a five-year period preceding the grant date.

The following table sets forth a summary of stock-settled stock appreciation rights and related information for the three months ended March 31, 2016:

	Awards	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term (In years)	Aggregate Intrinsic Value (In thousands)
Outstanding at December 31, 2015	2,567,021	\$ 54.47		
Granted	703,510	42.50		
Exercised	—	—		
Forfeited	(5,490)	67.15		
Outstanding at March 31, 2016	3,265,041	51.86	5.5	\$ 31,627
Exercisable at March 31, 2016	2,269,315	\$ 52.01	3.7	\$ 23,021

The following table sets forth a summary of time-based restricted stock units and related information for the three months ended March 31, 2016:

	Awards	Weighted- Average Fair Value
Unvested at December 31, 2015	175,411	\$ 74.52

The fair value of the performance shares granted during the three months ended March 31, 2016 was estimated using the following weighted-average assumptions:

Weighted-Average Assumptions		
Grant date share price	\$42.44	
WESCO expected volatility	26.3	%
Peer group median volatility	24.2	%
Risk-free interest rate	0.89	%
Correlation of peer company returns	121.5	%

The unvested performance-based awards in the table above include 86,257 shares in which vesting of the ultimate number of shares is dependent upon WESCO's total stockholder return in relation to the total stockholder return of a select group of peer companies over a three-year period. These awards are accounted for as awards with market conditions; compensation cost is recognized over the service period, regardless of whether the market conditions are achieved and the awards ultimately vest.

Vesting of the remaining 86,257 shares of performance-based awards in the table above is dependent upon the three-year average growth rate of WESCO's net income. These awards are accounted for as awards with performance conditions; compensation cost is recognized over the performance period based upon WESCO's determination of whether it is probable that the performance targets will be achieved.

WESCO recognized \$3.6 million and \$3.8 million of non-cash stock-based compensation expense, which is included in selling, general and administrative expenses, for the three months ended March 31, 2016 and 2015, respectively. As of March 31, 2016, there was \$30.5 million of total unrecognized compensation cost related to non-vested stock-based compensation arrangements for all awards previously made, of which approximately \$11.4 million is expected to be recognized over the remainder of 2016, \$11.5 million in 2017, \$6.8 million in 2018 and \$0.8 million in 2019.

During the three months ended March 31, 2016 and 2015, the total intrinsic value of all awards exercised was \$2.2 million and \$7.7 million, respectively. The gross deferred tax benefit associated with the exercise of awards for the three months ended March 31, 2016 and 2015 totaled \$0.8 million and \$2.6 million, respectively, and was recorded as an increase to additional capital.

6. EARNINGS PER SHARE

Basic earnings per share is computed by dividing net income by the weighted-average number of common shares outstanding during the periods. Diluted earnings per share is computed by dividing net income by the weighted-average common shares and common share equivalents outstanding during the periods. The dilutive effect of common share equivalents is considered in the diluted earnings per share computation using the treasury stock method, which includes consideration of dilutive equity awards and contingently convertible debt.

The following table sets forth the details of basic and diluted earnings per share:

(In thousands, except per share data)	Three Months Ended	
	March 31, 2016	2015
Net income attributable to WESCO International, Inc.	\$36,053	\$47,031
Weighted-average common shares outstanding used in computing basic earnings per share	42,210	44,406
Common shares issuable upon exercise of dilutive equity awards	414	824
Common shares issuable from contingently convertible debentures (see below for basis of calculation)	4,189	6,966
Weighted-average common shares outstanding and common share equivalents used in computing diluted earnings per share	46,813	52,196
Earnings per share attributable to WESCO International, Inc.		

Basic	\$0.85	\$1.06
Diluted	\$0.77	\$0.90

For the three months ended March 31, 2016 and 2015, the computation of diluted earnings per share attributable to WESCO International, Inc. excluded stock-based awards of approximately 2.3 million and 0.9 million, respectively. These amounts were excluded because their effect would have been antidilutive.

Because of WESCO's obligation to settle the par value of the 2029 Debentures in cash upon conversion, WESCO is required to include shares underlying the 2029 Debentures in its diluted weighted-average shares outstanding when the average stock price per share for the period exceeds the conversion price of the debentures. Only the number of shares that would be issuable under the treasury stock method of accounting for share dilution are included, which is based upon the amount by which the average stock price exceeds the conversion price. The conversion price of the 2029 Debentures is \$28.87. Share dilution as of March 31, 2016 is limited to a maximum of 11,947,533 shares for the 2029 Debentures. For the three months ended March 31, 2016 and 2015, the effect of the 2029 Debentures on diluted earnings per share attributable to WESCO International, Inc. was a decrease of \$0.08 and \$0.14, respectively.

In December 2014, the Company's Board of Directors authorized the repurchase of up to \$300 million of the Company's common stock through December 31, 2017. During the year ended December 31, 2015, the Company entered into accelerated stock repurchase agreements (the "ASR Transactions") with certain financial institutions to purchase shares of its common stock. In exchange for up-front cash payments totaling \$150 million, the Company received 2,468,576 shares, of which 300,651 shares were received during the three months ended March 31, 2015. The total number of shares ultimately delivered under the ASR Transactions was determined by the average of the volume-weighted-average prices of the Company's common stock for each exchange business day during the respective settlement valuation periods. WESCO funded the repurchases with borrowings under its prior revolving credit facility. For purposes of computing earnings per share, share repurchases were reflected as a reduction to common shares outstanding on the respective share delivery dates.

7. EMPLOYEE BENEFIT PLANS

A majority of WESCO's employees are covered by defined contribution retirement savings plans for their services rendered subsequent to WESCO's formation. WESCO also offers a deferred compensation plan for select individuals. For U.S. participants, WESCO will make contributions in an amount equal to 50% of the participant's total monthly contributions up to a maximum of 6% of eligible compensation. For Canadian participants, WESCO will make contributions in an amount ranging from 3% to 5% of the participant's eligible compensation based on years of continuous service. In addition, for U.S. participants, employer contributions may be made at the discretion of the Board of Directors. For the three months ended March 31, 2016 and 2015, WESCO incurred charges of \$8.3 million and \$5.1 million, respectively, for all such plans. Contributions are made in cash to defined contribution retirement savings plans. The deferred compensation plan is an unfunded plan. Employees have the option to transfer balances allocated to their accounts in the defined contribution retirement savings plan and the deferred compensation plan into any of the available investment options.

In connection with the December 14, 2012 acquisition of EECOL, the Company assumed a contributory defined benefit plan covering substantially all Canadian employees of EECOL and a Supplemental Executive Retirement Plan for certain executives of EECOL.

The following table reflects the components of net periodic benefit costs for the Company's defined benefit plans:

	Three Months Ended March 31,	
(In thousands of dollars)	2016	2015
Service cost	\$923	\$1,171
Interest cost	926	1,042
Expected return on plan assets	(1,279)	(1,366)
Recognized actuarial gain	(10)	(4)

Net periodic benefit cost \$560 \$843

During the three months ended March 31, 2016 and 2015, the Company made aggregate cash contributions of \$0.5 million to its defined benefit plans.

8. COMMITMENTS AND CONTINGENCIES

WESCO is subject to the laws and regulations of states and other jurisdictions concerning the identification, reporting and escheatment (the transfer of property to the state) of unclaimed or abandoned funds, and is subject to audit and examination for compliance with these requirements. WESCO Distribution, Inc. is currently undergoing a compliance audit in the State of Delaware concerning the identification, reporting and escheatment of unclaimed or abandoned property. A third party auditor is conducting the audit on behalf of the State, and the Company has been working with an outside consultant during the audit process and in discussions with the auditors. The Company is defending the audit, the outcome of which cannot be predicted with certainty at this time. After the third party auditor completes its field work, it is expected to issue preliminary findings for review by the Company and the State, and thereafter the auditor is expected to issue a final report of examination. If the Company and State do not reach resolution after further discussion, the State issues a demand for payment, which the Company may either agree to pay or appeal, in full or in part. The Company has recorded a liability for unclaimed property based on the facts currently known to the Company.

In October 2014, WESCO was notified that the New York County District Attorney's Office is conducting a criminal investigation involving minority and disadvantaged business contracting practices in the construction industry in New York City and that various contractors, minority and disadvantaged business firms, and their material suppliers, including the Company, are a part of this investigation. The Company has commenced an internal review of this matter and intends to cooperate with the government investigation. The Company cannot predict the outcome or impact of the matter at this time, but could be subject to fines, penalties or other adverse consequences. Based on the facts currently known to the Company, it cannot reasonably estimate a range of exposure to potential liability at this time.

9. INCOME TAXES

The effective tax rate for the three months ended March 31, 2016 and 2015 was 31.9% and 29.4%, respectively. WESCO's effective tax rate is lower than the federal statutory rate of 35% due to benefits resulting from the tax effect of intercompany financing and lower rates on foreign earnings, which are partially offset by nondeductible expenses and state taxes. During the three months ended March 31, 2016, WESCO recognized a discrete item related to the settlement of an outstanding tax matter which increased the effective tax rate by 3.4 percentage points. There were no significant discrete items in the comparable prior year quarter.

The total amount of unrecognized tax benefits was reduced by \$2.3 million during the three months ended March 31, 2016 to \$3.1 million due to the settlement of outstanding tax matters and the expiration of statutes of limitation. At March 31, 2016, the amount of unrecognized tax benefits that would affect the effective tax rate if recognized in the consolidated financial statements was \$4.5 million. It is reasonably possible that the amount of unrecognized tax benefits will decrease by approximately \$1.0 million within the next twelve months due to the expiration of statutes of limitation and the settlement of state audits. Of this amount, \$0.3 million could impact the effective tax rate.

Revisions

The unaudited Condensed Consolidating Statement of Cash Flows for the three months ended March 31, 2015 was revised to appropriately present dividends paid by the non-guarantor subsidiaries and dividends received by WESCO Distribution, Inc. The revisions did not impact the consolidated amounts previously reported, nor did they impact the Company's obligations under the 2021 Notes or the 2029 Debentures.

As described in Note 1, the Company adopted certain accounting pronouncements during the first quarter of 2016 that were effective beginning this fiscal year. The adoption of such guidance resulted in certain reclassifications to amounts previously reported in the Condensed Consolidating Balance Sheet at December 31, 2015.

11. SUBSEQUENT EVENTS

The Company evaluated subsequent events and concluded that no subsequent events have occurred that would require recognition in the unaudited Condensed Consolidated Financial Statements or disclosure in the Notes thereto except as described below.

On May 3, 2016, the Company issued a press release announcing the resignation of its Chief Financial Officer with such resignation to be effective on May 31, 2016. The Company has appointed an interim Chief Financial Officer and has commenced a search process for a new Chief Financial Officer.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion should be read in conjunction with the information in the unaudited condensed consolidated financial statements and notes thereto included herein and WESCO International, Inc.'s Consolidated Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations included in its 2015 Annual Report on Form 10-K. The matters discussed herein may contain forward-looking statements that are subject to certain risks and uncertainties that could cause actual results to differ materially from expectations. Certain of these risks are set forth in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2015, as well as the Company's other reports filed with the Securities and Exchange Commission.

Company Overview

WESCO International, Inc., incorporated in 1993 and effectively formed in February 1994 upon acquiring a distribution business from Westinghouse Electric Corporation, is a leading North American based distributor of products and provider of advanced supply chain management and logistics services used primarily in industrial, construction, utility and commercial, institutional and government ("CIG") markets. We are a leading provider of electrical, industrial, and communications maintenance, repair and operating ("MRO") and original equipment manufacturers ("OEM") products, construction materials, and advanced supply chain management and logistics services. Our primary product categories include general electrical and industrial supplies, wire, cable and conduit, data and broadband communications, power distribution equipment, lighting and lighting control systems, control and automation, motors, and safety.

We serve over 80,000 active customers globally through approximately 500 full service branches located primarily in North America, with operations in 14 additional countries and nine distribution centers located in the United States and Canada. The Company employs approximately 9,300 employees worldwide. We distribute over 1,000,000 products, grouped into six categories, from more than 25,000 suppliers utilizing a highly automated, proprietary electronic procurement and inventory replenishment system.

In addition, we offer a comprehensive portfolio of value-added capabilities, which includes supply chain management, logistics and transportation, procurement, warehousing and inventory management, as well as kitting, limited assembly of products and system installation. Our value-added capabilities, extensive geographic reach, experienced workforce and broad product and supply chain solutions have enabled us to grow our business and establish a leading position in North America.

Our financial results for the first three months of 2016 reflect continued weakness in commodity-driven end markets and foreign exchange headwinds, partially offset by the benefits of ongoing cost reduction actions and organizational streamlining. Net sales decreased \$40.4 million, or 2.2%, over the same period last year. Cost of goods sold as a percentage of net sales was 80.0% and 79.8% for the first three months of 2016 and 2015, respectively. Selling, general and administrative ("SG&A") expenses as a percentage of net sales were 15.2% and 14.6% for the first three months of 2016 and 2015, respectively. Operating profit was \$69.5 million for the current three month period, compared to \$87.2 million for the first three months of 2015. Operating profit decreased primarily due to lower sales volume, lower supplier volume rebates, and higher variable compensation costs, partially offset by effective cost controls. Net income attributable to WESCO International, Inc. for the three months ended March 31, 2016 and 2015 was \$36.0 million and \$47.0 million, respectively.

Cash Flow

We generated \$78.6 million in operating cash flow for the first three months of 2016. Investing activities included net payments of \$50.3 million for the acquisition of Atlanta Electrical Distributors, LLC and capital expenditures of \$3.6 million. Financing activities consisted of borrowings and repayments of \$300.7 million and \$320.7 million, respectively, related to our revolving credit facility (the "Revolving Credit Facility") and borrowings and repayments of \$22.5 million and \$52.5 million, respectively, related to our accounts receivable securitization facility (the "Receivables Facility"). Financing activities for the first three months of 2016 also included borrowings and repayments on our various international lines of credit of approximately \$20.8 million and \$16.6 million, respectively. Free cash flow for the first three months of 2016 and 2015 was \$75.0 million and \$85.1 million, respectively.

WESCO INTERNATIONAL, INC. AND SUBSIDIARIES

The following table sets forth the components of free cash flow:

	Three Months Ended March 31,	
Free Cash Flow:	2016	2015
Cash flow provided by operations	\$78.6	\$ 90.1
Less: Capital expenditures	(3.6)	(5.0)
Free cash flow	\$75.0	\$ 85.1

Note: Free cash flow is a non-GAAP financial measure provided by the Company as an additional liquidity measure. Capital expenditures are deducted from operating cash flow to determine free cash flow. Free cash flow is available to fund the Company's financing needs.

Financing Availability

As of March 31, 2016, we had \$407.3 million in total available borrowing capacity under our Revolving Credit Facility, which matures in September 2020, and \$21.4 million in available borrowing capacity under our Receivables Facility, which matures in September 2018.

Critical Accounting Policies and Estimates

During the three months ended March 31, 2016, there were no significant changes to our critical accounting policies and estimates referenced in our 2015 Annual Report on Form 10-K. See Note 2 of our Notes to the Condensed Consolidated Financial Statements for information regarding our critical accounting policies.

Results of Operations

First Quarter of 2016 versus First Quarter of 2015

The following table sets forth the percentage relationship to net sales of certain items in our Condensed Consolidated Statements of Income and Comprehensive Income (Loss) for the periods presented:

	Three Months Ended March 31,	
	2016	2015
Net sales	100.0%	100.0%
Cost of goods sold (excluding depreciation and amortization)	80.0	79.8
Selling, general and administrative expenses	15.2	14.6
Depreciation and amortization	0.9	0.8
Income from operations	3.9	4.8
Interest expense, net	1.0	1.1
Income before income taxes	2.9	3.7
Provision for income taxes	0.9	1.1
Net income attributable to WESCO International, Inc.	2.0 %	2.6 %

Net sales were approximately \$1.8 billion for the first quarter of 2016 and 2015. Normalized organic sales decreased 6.7%; foreign exchange rates negatively impacted sales by 2.6%, and were partially offset by the positive impacts from acquisitions and number of workdays of 3.9% and 3.2%, respectively.

WESCO INTERNATIONAL, INC. AND SUBSIDIARIES

The following table sets forth normalized organic sales growth:

	Three Months Ended March 31, 2016
Normalized Organic Sales:	
Change in net sales	(2.2)%
Impact from acquisitions	3.9 %
Impact from foreign exchange rates	(2.6)%
Impact from number of workdays	3.2 %
Normalized organic sales growth	(6.7)%

Note: Normalized organic sales growth is a non-GAAP financial measure provided by the Company to give a better understanding of the Company's sales growth trends. Normalized organic sales growth is calculated by deducting the percentage impact from acquisitions, foreign exchange rates and number of workdays from the overall percentage change in consolidated net sales.

Cost of goods sold for the first quarter of 2016 and 2015 was approximately \$1.4 billion, and as a percentage of net sales was 80.0% and 79.8% in 2016 and 2015, respectively. The increase in cost of goods sold as a percentage of net sales was primarily due to lower supplier volume rebates compared to last year's comparable quarter.

SG&A expenses in the first quarter of 2016 totaled \$269.3 million versus \$264.6 million in last year's comparable quarter. As a percentage of net sales, SG&A expenses were 15.2% in the first quarter of 2016 compared to 14.6% in the first quarter of 2015. The increase in SG&A expenses was primarily due to the effect of acquisitions and higher variable compensation costs, partially offset by the savings from headcount reductions, branch closures and consolidations, and ongoing discretionary spending cost controls.

SG&A payroll expenses for the first quarter of 2016 of \$186.0 million increased by \$1.4 million compared to the same quarter in 2015.

Depreciation and amortization for the first quarter of 2016 and 2015 was \$16.4 million and \$15.9 million, respectively.

Interest expense totaled \$18.8 million for the first quarter of 2016 compared to \$20.9 million in last year's comparable quarter, a decrease of 9.9%. The following table sets forth the components of interest expense:

	Three Months Ended March 31, 2016	2015
	(In millions of dollars)	
Amortization of debt discount	\$1.2	\$1.7
Amortization of deferred financing fees	0.8	1.8
Interest related to uncertain tax provisions	0.1	0.3
Accrued interest	1.6	1.6
Non-cash interest expense	3.7	5.4
Cash interest expense	15.1	15.5
Total interest expense	\$18.8	\$20.9

Income tax expense totaled \$16.2 million in the first quarter of 2016 compared to \$19.5 million in last year's comparable quarter, and the effective tax rate was 31.9% compared to 29.4% in the same quarter in 2015. Our effective tax rate is impacted by the relative amounts of income earned in the United States and foreign jurisdictions, primarily Canada, and the tax rates in these jurisdictions. The increase in the effective tax rate in the first quarter of

2016 as compared to last year's quarter was primarily due to a discrete item related to the settlement of an outstanding tax matter.

For the first quarter of 2016, net income decreased by \$12.3 million to \$34.5 million compared to \$46.8 million in the first quarter of 2015.

WESCO INTERNATIONAL, INC. AND SUBSIDIARIES

Net loss of \$1.5 million was attributable to noncontrolling interests for the first quarter of 2016, as compared to net loss of \$0.2 million for the first quarter of 2015. The increase in the net loss attributable to noncontrolling interests was primarily due to unfavorable changes in foreign currency exchange rates.

Net income and diluted earnings per share attributable to WESCO International, Inc. were \$36.0 million and \$0.77 per share, respectively, for the first quarter of 2016, compared with \$47.0 million and \$0.90 per share, respectively, for the first quarter of 2015.

Liquidity and Capital Resources

Total assets were \$4.7 billion and \$4.6 billion at March 31, 2016 and December 31, 2015, respectively. Total liabilities were \$2.8 billion at March 31, 2016 and December 31, 2015. Stockholders' equity increased \$119.6 million to \$1.9 billion at March 31, 2016, due to \$82.3 million of foreign currency translation adjustments and net income of \$36.0 million.

Our liquidity needs generally arise from fluctuations in our working capital requirements, capital expenditures, acquisitions and debt service obligations. As of March 31, 2016, we had \$407.3 million in available borrowing capacity under our Revolving Credit Facility and \$21.4 million in available borrowing capacity under our Receivables Facility, which combined with our cash of \$96.2 million, provided liquidity of \$524.9 million. Cash included in our determination of liquidity represents cash in deposit and interest bearing investment accounts. We believe cash provided by operations and financing activities will be adequate to cover our current operational and business needs. In addition, the Company regularly reviews its mix of fixed versus variable rate debt, and the Company may, from time to time, issue or retire borrowings and/or refinance existing debt in an effort to mitigate the impact of interest rate fluctuations and to maintain a cost-effective capital structure consistent with its anticipated capital requirements. At March 31, 2016, approximately 52% of the Company's debt portfolio was comprised of fixed rate debt.

We monitor the depository institutions that hold our cash and cash equivalents on a regular basis, and we believe that we have placed our deposits with creditworthy financial institutions. We also communicate on a regular basis with our lenders regarding our financial and working capital performance, liquidity position and financial leverage. Our financial leverage ratio was 3.8 as of March 31, 2016 and December 31, 2015. In addition, we are in compliance with all covenants and restrictions contained in our debt agreements as of March 31, 2016.

The following table sets forth the Company's financial leverage ratio as of March 31, 2016 and December 31, 2015:

Financial Leverage:	Twelve months ended	
	March 31, 2016	December 31, 2015
	(In millions of dollars, except ratio)	
Income from operations	\$356.1	\$ 373.7
Depreciation and amortization	65.4	65.0
EBITDA	\$421.5	\$ 438.7
	March 31, 2016	
	December 31, 2015	
Current debt and short-term borrowings	\$49.5	\$ 44.3
Long-term debt	1,391.2	1,439.1
Debt discount and deferred financing fees ⁽¹⁾	180.2	182.0
Total debt	\$1,620.9	\$ 1,665.4
Financial leverage ratio based on total debt	3.8	3.8

(1) Long-term debt is presented in the condensed consolidated balance sheets net of deferred financing fees and debt discount related to the convertible debentures and term loan.

Note: Financial leverage is a non-GAAP financial measure provided by the Company to illustrate its capital structure position. Financial leverage ratio is calculated by dividing total debt, including debt discount, by EBITDA. EBITDA is defined as the trailing twelve months earnings before interest, taxes, depreciation and amortization.

At March 31, 2016, we had cash and cash equivalents totaling \$147.8 million, of which \$118.0 million was held by foreign subsidiaries. The cash held by some of our foreign subsidiaries could be subject to additional U.S. income taxes if repatriated.

WESCO INTERNATIONAL, INC. AND SUBSIDIARIES

We believe that we are able to maintain a sufficient level of liquidity for our domestic operations and commitments without repatriation of the cash held by these foreign subsidiaries.

We did not note any triggering events or substantive changes during the first quarter of 2016 that would require an interim evaluation of impairment of goodwill or indefinite-lived intangible assets. We will perform our annual impairment testing of goodwill and indefinite-lived intangible assets during the fourth quarter. To test for impairment, we estimate the fair value of our reporting units, which requires judgment and involves the use of significant estimates and assumptions. The determination of fair value could be negatively affected by the current weak market conditions, including the challenging macroeconomic indicators in the markets in which we operate and those where our customers are based.

Over the next several quarters, we plan to closely manage working capital, and it is expected that excess cash will be directed primarily at debt reduction, acquisitions and share repurchases. Our near term focus will be maintaining ample liquidity and credit availability. We believe our balance sheet and ability to generate ample cash flow provides us with a durable business model and should allow us to fund expansion needs and growth initiatives.

Cash Flow

Operating Activities. Cash provided by operating activities for the first three months of 2016 totaled \$78.6 million, compared with \$90.1 million of cash generated for the first three months of 2015. Cash provided by operating activities included net income of \$34.5 million and adjustments to net income totaling \$27.6 million. Other sources of cash in 2016 included: a decrease in other accounts receivable of \$24.9 million due mostly to the collection of supplier volume rebates; an increase in other current and noncurrent liabilities of \$14.4 million; a decrease in trade receivables of \$10.6 million resulting from the decrease in sales; and, a \$3.2 million increase in accounts payable. Primary uses of cash in 2016 included: \$17.5 million for the increase in inventory; \$14.5 million for the decrease in accrued payroll and benefit costs resulting primarily from the payment of management incentive compensation earned by employees in 2015; and, \$4.6 million for the increase in prepaid expenses and other assets.

Cash provided by operating activities for the first three months of 2015 totaled \$90.1 million, which included net income of \$46.8 million and adjustments to net income totaling \$31.3 million. Other sources of cash in 2015 were generated from a decrease in trade receivables of \$9.7 million resulting from lower sales in the latter part of the quarter, a decrease in other accounts receivable of \$12.1 million due mostly to the collection of supplier volume rebates, a \$21.5 million decrease in prepaid expenses and other assets, and an increase in accounts payable of \$20.6 million. Primary uses of cash in 2015 included: \$13.2 million for the increase in inventory; \$26.6 million for the decrease in accrued payroll and benefit costs resulting primarily from the payment of management incentive compensation earned by employees in 2014; and, a decrease in other current and noncurrent liabilities of \$12.1 million.

Investing Activities. Net cash used in investing activities for the first three months of 2016 was \$62.1 million, compared with \$4.2 million of net cash used during the first three months of 2015. Included in the first three months of 2016 were net acquisition payments of \$50.3 million. Capital expenditures were \$3.6 million for the three month period ended March 31, 2016 as compared to \$5.0 million for the three month period ended March 31, 2015.

Financing Activities. Net cash used in financing activities for the first three months of 2016 was \$34.8 million, compared to \$53.8 million used in the first three months of 2015. During the first three months of 2016, financing activities consisted of borrowings and repayments of \$300.7 million and \$320.7 million, respectively, related to our Revolving Credit Facility and borrowings and repayments of \$22.5 million and \$52.5 million, respectively, related to our Receivables Facility. Financing activities in 2016 also included borrowings and repayments on our various international lines of credit of approximately \$20.8 million and \$16.6 million, respectively.

During the first three months of 2015, financing activities consisted of borrowings and repayments of \$239.9 million and \$236.8 million, respectively, related to our Revolving Credit Facility, borrowings and repayments of \$80.0 million and \$87.5 million, respectively, related to our Receivables Facility, and repayments of \$20.0 million applied to our Term Loan Facility. Financing activities in 2015 also included borrowings and repayments on our various international lines of credit of approximately \$49.4 million and \$44.0 million, respectively. Additionally, financing

activities for the first three months of 2015 included the repurchase of \$25.0 million of the Company's common stock pursuant to the repurchase plan announced on December 17, 2014.

Contractual Cash Obligations and Other Commercial Commitments

There were no material changes in our contractual obligations and other commercial commitments that would require an update to the disclosure provided in our 2015 Annual Report on Form 10-K. Management believes that cash generated from operations, together with amounts available under our Revolving Credit Facility and the Receivables Facility, will be sufficient

WESCO INTERNATIONAL, INC. AND SUBSIDIARIES

to meet our working capital, capital expenditures and other cash requirements for the foreseeable future. However, there can be no assurances that this will continue to be the case.

Inflation

The rate of inflation, as measured by changes in the producer price index, affects different commodities, the cost of products purchased and ultimately the pricing of our different products and product classes to our customers. Our pricing related to inflation did not have a measurable impact on our sales for the three months ended March 31, 2016. Historically, price changes from suppliers have been consistent with inflation and have not had a material impact on the results of operations.

Seasonality

Our operating results are not significantly affected by seasonal factors. Sales during the first quarter are affected by a reduced level of activity. Sales during the second, third and fourth quarters are generally 5 - 7% higher than the first quarter. Sales typically increase beginning in March, with slight fluctuations per month through October. During periods of economic expansion or contraction our sales by quarter have varied significantly from this pattern.

Impact of Recently Issued Accounting Standards

See Note 2 of our Notes to the Condensed Consolidated Financial Statements for information regarding the effect of new accounting pronouncements.

Forward-Looking Statements

From time to time in this report and in other written reports and oral statements, references are made to expectations regarding our future performance. When used in this context, the words “anticipates,” “plans,” “believes,” “estimates,” “intend,” “expects,” “projects,” “will” and similar expressions may identify forward-looking statements, although not all forward-looking statements contain such words. Such statements including, but not limited to, our statements regarding business strategy, growth strategy, competitive strengths, productivity and profitability enhancement, competition, new product and service introductions and liquidity and capital resources are based on management’s beliefs, as well as on assumptions made by and information currently available to, management, and involve various risks and uncertainties, some of which are beyond our control. Our actual results could differ materially from those expressed in any forward-looking statement made by us or on our behalf. In light of these risks and uncertainties, there can be no assurance that the forward-looking information will in fact prove to be accurate. Certain of these risks are set forth in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2015, as well as the Company’s other reports filed with the Securities and Exchange Commission. We have undertaken no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Item 3. Quantitative and Qualitative Disclosures about Market Risks.

There have not been any material changes to our exposures to market risk during the quarter ended March 31, 2016 that would require an update to the relevant disclosures provided in our 2015 Annual Report on Form 10-K.

Item 4. Controls and Procedures.

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures as such term is defined under Rule 13a-15(e) promulgated under the Exchange Act. Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

Changes in Internal Control Over Financial Reporting

During the first quarter of 2016, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings.

From time to time, a number of lawsuits and claims have been or may be asserted against us relating to the conduct of our business, including routine litigation relating to commercial and employment matters. The outcomes of litigation cannot be predicted with certainty, and some lawsuits may be determined adversely to us. However, management does not believe, based on information presently available, that the ultimate outcome of any such pending matters is likely to have a material adverse effect on our financial condition or liquidity, although the resolution in any fiscal quarter of one or more of these matters may have a material adverse effect on our results of operations for that period.

See the information set forth in Note 8 Commitments and Contingencies in the Notes to Condensed Consolidated Financial Statements under Part 1, Item 1 of this Form 10-Q, which is incorporated by reference in response to this Item.

Item 1A. Risk Factors.

There have been no material changes to the risk factors previously disclosed in Item 1A. to Part 1 of WESCO's Annual Report on Form 10-K for the fiscal year ended December 31, 2015.
