Fellow Employees,

Earlier this morning, we announced that Bio-Reference has entered into an agreement where 100% of Bio-Reference stock will be acquired by OPKO Health, Inc. in an all-stock merger. This is a transformational transaction that will allow Bio-Reference not only to grow but will allow us to extract the greatest value out of our laboratory enterprise while at the same time enabling laboratory operations to continue seamlessly with an unchanged management structure and the continuation of the Bio-Reference culture that has defined us over the past thirty years. Our services will be enhanced by the OPKO pipeline of diagnostic products and the current diagnostic services of OPKO will complement the Bio-Reference Laboratories operations throughout the country.

OPKO is a biopharmaceutical and diagnostics company engaged in the discovery, development and commercialization of novel and proprietary technologies in the United States and internationally. OPKO was founded by Dr. Phil Frost, who like me, is a clinician, a dermatologist, in fact, who has established himself as one of the most

successful and visionary leaders in the pharmaceutical industry. We share many qualities, not the least of which is an understanding of what makes sense for physicians and patients. This is a transformational transaction that will create a combined company that we believe will be able to leverage Bio-Reference's and OPKO's outstanding capabilities to improve the lives of patients. It will allow OPKO

1

to utilize the national sales, marketing and distribution capability of Bio-Reference to enhance sales of its diagnostic products, including its 4Kscore test, a blood test that delivers a patient-specific personalized risk score for having aggressive prostate cancer. It will allow Bio-Reference to leverage its unmatched sequencing capabilities in genetics and cancer to facilitate all aspects of new drug discovery.

The transaction is expected to close in the second half of 2015. Until then, it is business as usual. We ask that you do not contact OPKO or discuss business with OPKO employees unless you are instructed to do so. In addition, if you are contacted by the media or investors, please refrain from comment and refer them immediately to Tara Mackay in our investor relations department.

As always, I want to thank all of you for your dedication, hard work and loyalty. This transaction is a testament to the great company that the employees at Bio-Reference have built over the years. This is also the beginning of the next chapter in this great company. This merger opens a whole new range of opportunities for Bio-Reference and makes it more possible than ever before for us to have a positive impact in the world and to advance diagnostic discovery and development to improve patients' lives.

Best regards,
