WESCO International, Inc. filed a Current Report on Form 8-K on October 4, 2005 to report (i) the amendment and restatement of WESCO Distribution, Inc.'s revolving credit facility on September 28, 2005, (ii) the completion of WESCO International, Inc.'s acquisition of Carlton-Bates Company on September 29, 2005 and (iii) an amendment to WESCO Distribution, Inc.'s accounts receivable securitization facility on October 4, 2005. Pursuant to Item 9.01(a)(4), this Amendment No. 1 to Form 8-K is being filed in order to include the required historical financial statements of Carlton-Bates Company and the related pro forma financial information not later than 71 calendar days after October 5, 2005, the date that the initial Current Report on Form 8-K was required to have been filed to report the completion of the acquisition of Carlton-Bates Company. In accordance with Securities Exchange Act Rule 12b-15, Items 2.01 and 9.01 are amended and restated in their entirety.

Item 2.01 Completion of Acquisition or Disposition of Assets.

On September 29, 2005, WESCO International, Inc. (the "Company") completed its acquisition of Carlton-Bates Company ("Carlton-Bates") from the shareholders of Carlton-Bates, pursuant to which a wholly-owned subsidiary of WESCO Distribution, Inc. ("WESCO Distribution") merged with and into Carlton-Bates, which became a wholly-owned subsidiary of WESCO Distribution. The Company paid at closing a cash merger price of approximately \$250 million, of which \$25 million is held in escrow to address up to \$5 million of post-closing adjustments relating to working capital and up to \$20 million of potential indemnification claims, with all distributions from the escrow to be made within 30 months. To fund the merger price paid at closing, WESCO Distribution used the net proceeds of the previously announced private offering of \$150 million aggregate principal amount of senior subordinated notes by WESCO Distribution and funds available under the revolving credit facility. The acquisition was completed pursuant to the terms and conditions of the Agreement and Plan of Merger, dated August 16, 2005 (the "Merger Agreement"), by and among Carlton-Bates, the shareholders of Carlton-Bates signatory thereto, the Company Representative (as defined therein), WESCO Distribution and C-B WESCO, Inc. The Merger Agreement was attached as Exhibit 10.3 to the Current Report on Form 8-K filed by the Company on October 4, 2005.

On September 29, 2005, the Company issued a press release regarding the completion of its acquisition of Carlton-Bates. A copy of that press release was filed as Exhibit 99.1 to the Current Report on Form 8-K filed by the Company on October 4, 2005.

The required historical financial statements of Carlton-Bates and the related pro forma financial information are contained herein under Item 9.01 of this report.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors

Carlton-Bates Company and Subsidiaries:

We have audited the accompanying consolidated balance sheet of Carlton-Bates Company and Subsidiaries (the Company) as of September 30, 2004, and the related consolidated statements of loss and comprehensive loss, stockholders' deficiency, and cash flows for the year then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Carlton-Bates Company and Subsidiaries as of September 30, 2004, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America. As discussed in Note 16, the accompanying financial statements have been restated.

CARLTON-BATES COMPANY AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

AS OF AND FOR THE YEAR ENDED SEPTEMBER 30, 2004, AS RESTATED

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation The consolidated financial statements for the year ended September 30, 2004, present the financial statements of Carlton-Bates Company and Subsidiaries (the Company). All significant intercompany balances and transactions have been eliminated in consolidation.

Description of Business The Company is engaged in the sale of electronic, electrical and industrial parts and supplies, primarily to industrial businesses, and presently operates facilities in 17 states within the United States and in Mexico.

Basis of Accounting The Company prepares its consolidated financial statements using the accrual basis of accounting and in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Cash Equivalents The Company considers all highly liquid debt instruments with maturity at acquisition of three months or less to be cash equivalents.

Derivative Financial Instrument Policy-Interest Rate Swaps The Company has entered into an interest rate swap agreement to manage its interest rate exposure on variable rate debt. Interest rate swaps are agreements to exchange interest payment streams based on a notional principal amount. Net interest differentials to be paid or received are recorded currently as adjustments to interest expense and the swap is carried on the balance sheet at its fair value based on available pricing information at the reporting date. Adjustments to the fair value of the swap are recognized net of tax in other comprehensive income.

Call Options Call options result from the terms of the Company's preferred stock agreement. Each share of preferred stock includes a call option that permits the holder to convert that share of preferred stock into shares of common stock or, at the redemption date, a cash payment equivalent to the underlying common shares as if the preferred shares had been converted. The terms of the call option represent a financial derivative embedded into the preferred share agreement. Due to the holder's choice of receiving a cash payment based on the Company's common shares, fair value accounting is used. This right of the preferred shareholders to have a call on the Company's common stock is referred to in these consolidated financial statements as the call option. Call options are stated at fair value at the date of issuance. Subsequent changes in fair values are reported within increase in fair values of call options in the consolidated statement of loss and comprehensive loss and represents a permanent difference for tax purposes.

Inventories Merchandise inventories are stated at the lower of cost or market value. Cost is determined using the first-in, first-out method while market value is based on management estimates of the net realizable value of the goods. Inventories are reduced to net realizable values by charges to cost of sales, in the period that such excess costs are identified.

Debt Issuance Cost Debt issuance cost is being amortized using the interest method over the life of the related debt.

Depreciation Depreciation is calculated, using both accelerated and straight-line methods, over the estimated useful lives of the assets. Estimated useful lives for the major asset categories are five to seven years

F-8

Table of Contents

for furniture, fixtures, and equipment and three to five years for transportation equipment. Leasehold improvements are amortized over the shorter of the estimated useful life of the leased asset or the lease term.

Goodwill Goodwill is reviewed for impairment at least annually and whenever events or changes in circumstances indicate that the carrying value may not be recoverable. If this evaluation indicates that an asset is impaired, the Company records a charge to operations to reduce the asset's carrying value to fair value.

Intangible Assets Intangible assets which are separately identifiable from goodwill are recorded at their fair values at the time of acquisition. If an estimated life can be assigned to an intangible asset, the assets are amortized over their estimated useful lives. The intangible is reviewed annually for impairment when it is not possible to estimate its useful life. Intangible assets are tested for recoverability when events or changes in circumstances indicate that the carrying value may not be recoverable.

Uncleared Disbursement Checks Outstanding checks representing book overdrafts are reflected as uncleared disbursement checks in the consolidated balance sheet. Changes in this account are reflected as an operating activity in the statement of cash flows.

Stock Compensation Plans The Company applies the provisions of APB Opinion No. 25 to account for its employer stock options (SOP). Had compensation cost for these plans been determined based on the fair value at the grant dates for awards under the SOP, net loss for the year ended September 30, 2004, would have been as follows:

Net Loss

As reported	\$ (6,292,217)
Stock compensation, as reported net of tax	13,507
Stock compensation, at fair value net of tax	(175,689)
Pro forma	\$ (6,454,399)

In determining the above pro forma disclosure, the fair value of options granted during the year ended September 30, 2004, was estimated on the date of grant using the Black-Scholes pricing model with the following weighted average assumptions: expected life of options seven years, risk-free interest rate 3.77% to 4.00%, no volatility and no expected dividends.

Revenue Recognition Revenue is recognized from the sale of merchandise at the time of shipment (FOB Shipping Point) and when all other revenue recognition criteria have been met.

Preferred Stock Dividends Dividends on preferred shares are generally settled by periodic issuance of preferred shares. The accrual of such dividends prior to the issuance of shares is accounted for as an increase in the carrying value of preferred stock.

Shipping and Handling Costs Amounts billed to customers for shipping and handling are included in sales. Costs incurred for shipping and handling are included in selling, general and administrative expenses. Costs for shipping and handling were approximately \$3,059,000 for the year ended September 30, 2004.

Reclassification The Company has reclassified the placement of preferred stock on the balance sheet in accordance with the presentation rules of the U.S. Securities and Exchange Commission.

2. ACQUISITION

Effective July 17, 2003, the Company acquired certain assets of LADD Industries, Inc. (LADD), in exchange for (1) \$41,000,000 in cash, (2) a deposit of \$2,000,000 in a holdback account, of which \$1,782,000 was paid during fiscal year 2004, (3) the assumption of certain liabilities and (4) an agreement to issue up to 37,333.33 shares of Company stock, valued at approximately \$59,050,000 at September 30, 2004, subject to certain limitations, terms and conditions as set forth in an earn-out agreement between the sellers of LADD s assets and the Company. Any additional consideration in the form of such stock is

F-9

Table of Contents

to be issued over a five-year period. This additional consideration, if any, will be recorded upon resolution of the earn-out contingency as an addition to goodwill. During 2004, 7,540 shares of company stock, valued at approximately \$11,926,000, were issued in accordance with the earn-out agreement, and cash owed to LADD was fully remitted. See additional goodwill recorded in Note 3.

LADD was involved, as is the Company, in the sale of electronic, electrical and industrial parts and supplies. The Company believes that the addition of LADD's service territory and customer base will broaden the Company's overall sales capability and enhance its market position. The operating results from the acquisition are included in the Company's results of operations since July 17, 2003.

3. GOODWILL AND INTANGIBLE ASSETS

The Company performed an annual impairment test as of September 30, 2004, and concluded there was no impairment to the carrying value of the Company's goodwill. Absent any impairment indicators, the Company expects to perform its next impairment test as of September 30, 2005.

Changes in the carrying amount of goodwill for the years ended September 30, 2004 and 2003, were as follows:

Balance September 30, 2003	\$ 5,286,765
Addition related to the earn-out agreement related to acquisition of LADD	11,925,943
Addition related to fees relative to acquisition of LADD	58,327
Balance September 30, 2004	\$ 17,271,035

The carrying values of the Company's acquired intangible assets are as follows:

The line of credit and term loan agreements contain various financial covenants with which the Company must comply. The Company was in compliance with such covenants at September 30, 2004.

5. INTEREST RATE SWAP

The Company is party to an interest rate swap agreement through December 31, 2007 with notional amounts of

Table of Contents

\$13,000,000 at September 30, 2004. The agreement provides that the Company would pay a fixed interest rate of 2.78% and receive a variable rate. The variable rate was 1.975% September 30, 2004, calculated on the notional amount. The variable rate is based on LIBOR, as determined at quarterly intervals. Net receipts or payments are accounted for as part of interest expense.

The Company is exposed to credit loss in the event of counterparty nonperformance, but, at September 30, 2004, does not anticipate any such loss.

6. LEASE AGREEMENTS

The Company leases real property at the various locations from which it conducts its operations. Several of the lease agreements are with a related company. Minimum payments due under non-cancelable operating lease agreements with all lessors as of September 30, 2004 are as follows:

Year Ending September 30	Related Lessor	Unrelated Lessor	Total
2005	\$ 836,205	\$ 2,449,021	\$ 3,285,226

 Total	 \$ 3,246,693	 \$ 9,464,307	 \$ 12,711,000

Rental expense amounted to \$3,238,348 for the year ended September 30, 2004.

7. EMPLOYEE BENEFIT PLANS

The Company contributes to an employee profit-sharing plan covering substantially all employees. Company contributions are at the discretion of the Board of Directors, subject to limitations contained in the plan. There were no contributions made by the Company for the years ended September 30, 2004.

The Company also has a qualified plan under section 401(k) of the Internal Revenue Code. Under this plan, eligible employees may elect to contribute from 2% up to 20% of their compensation to the plan, subject to a maximum dollar limitation set each year by the IRS. The Company, at its discretion, may make matching contributions equal to a percentage of elective contributions made by participants and also may make additional discretionary contributions, subject to certain limitations. Company contribution expense related to the plan was approximately \$412,000 for the year ended September 30, 2004.

Additionally, the Company has deferred compensation plans with certain employees providing for payments after the employees' retirement dates. The Company has recorded a liability in the amount of \$518,050 at September 30, 2004.

The Company has entered into employment agreements with certain senior officers which commit the Company to compensate these individuals as specified in the agreements.

The Company maintains a Stock Option Plan (SOP) that provides for a committee of the Company s Board of Directors to grant stock options representing up to 10,000 shares of Company common stock. The options granted vest over a five year period from the grant date. Stock options granted expire in ten years.

Under the SOP, options have been granted to directors and key employees to purchase common stock of the Company. Options granted are summarized as follows:

9. MANDATORILY REDEEMABLE CONVERTIBLE PREFERRED STOCK

The Company's articles of incorporation authorize 250,000 share of preferred stock, including 70,000 shares of Series A preferred stock (the "preferred stock"). Other than the Series A preferred shares issued as noted above, there are no other preferred shares outstanding as of September 30, 2004. Dividends are to be paid by issuance of preferred stock with the number of shares computed by applying the 8% rate to the sum of the initial proceeds of \$29,350,000 and \$1,000 per share for shares subsequently issued as dividends.

In August 2001, the Company issued 29,350 shares of 8% Series A cumulative preferred stock (the "preferred stock"). Dividends are to be paid by issuance of preferred stock with the number of shares computed by applying the 8% rate to the sum of the initial proceeds of \$29,350,000 and \$1,000 per share for shares subsequently issued as dividends. The preferred stock is convertible substantially at 1.33 common shares for each preferred share with modifications for dilutive effects of subsequent issuances of preferred stock, if any. Preferred shareholders are entitled to the number of votes equal to the number of common shares that would result upon conversion. If not converted, the Company is obligated to redeem the outstanding preferred shares in August 2008 at the greater of \$1,000 per share or upon a formula as provided for in the Company's articles of incorporation. If the Company fails to comply with the provisions of the preferred stock, the preferred shareholders may be entitled to increase the number of common shares that may be obtained in conversion, earlier redemption of the preferred may be required or other remedies may be available.

This conversion feature qualifies as a derivative financial instrument as defined by Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities, and has been bifurcated from the host contract and recorded on the consolidated balance sheet as call options, at fair value. The call options are valued annually and any change in fair value is recognized as increase (decrease) in fair values of call options in the consolidated statement of loss and comprehensive loss.

At September 30, 2004, there were 36,019 call options outstanding with a fair value of \$53,656,868, which is recorded as call options and other liabilities on the consolidated balance sheet. The increase in fair value of call options for the year ended September 30, 2004, was \$18,743,192 and is reported as part of other expense on the consolidated statement of loss and comprehensive loss.

The carrying value of the preferred stock is accreted to the redemption value through August 2008 using the interest method. Total redemption value of preferred stock outstanding at September 30, 2004 is \$36,019,000.

No dividends may be paid with respect to the Class A Common Stock so long as any shares of Series A preferred stock are issued and outstanding.

10. LITIGATION

The Company is engaged in various legal proceedings in the ordinary course of business. The resolution of these matters is not expected to have a material adverse effect on the Company's financial position, cash flows or

F-14

results of operations.

11. RELATED PARTY TRANSACTIONS

The Company leases real property at Little Rock and six other locations from a company controlled by a Company stockholder. Rentals paid under these operating lease agreements amounted to \$836,566 for the year ended September 30. Future rentals are subject to annual adjustment, based on changes in the consumer price index (also see Note 6).

For the year ended September 30, 2004, the Company purchased certain assets and paid for repair services from a vendor owned by a Company stockholder in the amount of \$110,703. The Company also sold real property to a Company stockholder for approximately \$64,000 which was its carrying value during the year ended September 30, 2003.

The Company has an agreement to retain the services of a company affiliated with its preferred shareholder to provide financial advisory and management consulting services to the Company. The agreement expires in August 2008. The Company is required to pay \$10,000 per month for such services. The monthly fee can be increased to \$20,000 in the event certain financial benchmarks are met. Fees for such services amounted to \$120,000 for the year ended September 30, 2004. The same company was also paid approximately \$43,000 for reimbursement of various expenses for the year ended September 30, 2004, and \$900,000 for consulting services provided in conjunction with the acquisition of LADD (see Note 2).

12. CONCENTRATION RISK

In addition to the interest rate swap agreements discussed in Note 5, other financial instruments, which potentially subject the Company to concentration of credit risk, consist principally of trade accounts receivable. The Company performs ongoing credit evaluations of its customers but, generally, does not require collateral.

Also, the Company is the exclusive distributor for a product which provided approximately \$63,268,000 of total sales revenue during the year ended September 30, 2004.

13. SUPPLEMENTAL CASH FLOW DISCLOSURES

Interest paid totaled \$2,434,509 during the year ended September 30, 2004. Income taxes paid during the year ended September 30, 2004, totaled approximately \$6,954,039.

During the year ended September 30, 2004, the Company engaged in noncash financing activities as follows:

Preferred stock issued as dividends	\$ 419,846
Issuance of common stock recorded as goodwill	11,925,943
Preferred stock accretion	2,024,936

14. FAIR VALUE OF FINANCIAL INSTRUMENTS

The following financial instruments have a fair value approximately equal to their carrying value because of their short term nature as of September 30, 2004: cash and cash equivalents, trade receivables, and trade accounts payable. Debt related financial instruments have a fair value approximately equal to their carrying value as the interest rates are variable. The call options are stated at estimated fair value based on current conversion factors, common stock price, volatility factors, discount rate, dividend rate, expected life, etc., using the Black-Scholes method.

15. SUBSEQUENT EVENT

Effective December 1, 2004, the Company acquired certain assets of Motion Control Systems, Inc. (MCS). MCS also sells electronic, electric, and industrial parts and supplies. In exchange for the assets, the Company paid (1) \$1,600,000 in cash and (2) assumed all trade accounts payable of MCS. The cash paid upon closing was

F-15

Table of Contents

reduced by a holdback amount of approximately \$46,000 (Holdback Amount) as a reserve for potentially uncollectible accounts receivable. On the first day of the month following the month in which 90% of the accounts receivable acquired are collected, the Company intends to release from the Holdback Amount collections in excess of 90%. As of June 30, 2005, substantially all of the Holdback had been settled with MCS.

On September 29, 2005, the common stock of the Company was purchased by WESCO Distribution, Inc. (WESCO), a subsidiary of WESCO International, Inc. WESCO is a full-line distributor of electrical supplies and equipment and is a provider of integrated supply procurement services with domestic and foreign operations.

16. RESTATEMENT

Subsequent to issuing its consolidated financial statements for the year ended September 30, 2004, the Company determined that the preferred stock agreement included an embedded derivative (the call options) that had not been bifurcated and stated at fair value. Preferred stock, other liabilities, deferred income taxes were misstated at September 30, 2004 and increase in fair values of call options, net income and comprehensive income were misstated for the year ended September 30, 2004, all due to the call options not being stated at fair value. The Company also determined that it should restate its statement of cash flows for the year ended September 30, 2004, to correct for an error in the presentation of restricted cash. The impact of the corrections is as follows:

CARLTON-BATES COMPANY AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
JUNE 30, 2005

1. GENERAL INFORMATION

The condensed consolidated financial information of Carlton-Bates Company and Subsidiaries (the Company), included herein is unaudited; however the information reflects all adjustments (consisting of normal recurring adjustments) that are, in the opinion of management, necessary for the fair presentation of the consolidated financial position, results of operations and cash flows for the interim periods. The consolidated financial statements should be read in conjunction with the consolidated financial statements for the year ended September 30, 2004. The results of operations for the nine months ended June 30, 2005 and 2004 are not necessarily indicative of the results to be expected for the full year.

2. TRADE RECEIVABLES

Trade receivables are carried at original invoice amount less an estimate made for doubtful receivables based on a review of all outstanding amounts on a monthly basis. Management determines the allowance for doubtful accounts by evaluating individual customer receivables and considering a customer's financial condition, credit history, and current economic conditions. Trade receivables are written off when deemed uncollectible. Recoveries of trade receivables previously written off are recorded when received. A trade receivable is considered to be past due if any portion of the receivable balance is outstanding for more than 30 days.

3. DEFERRED TAXES

Deferred taxes are provided on the liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards, and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax basis. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

4. RECENT ACCOUNTING PRONOUNCEMENTS

The Financial Accounting Standards Board had issued Statement of Financial Accounting Standard (SFAS) No. 150, *Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity*. SFAS No. 150 requires that certain freestanding financial instruments be reported as liabilities in the balance sheet.

The Company's preferred stock must be redeemed in August 2008 if the stockholders have not exercised their conversion option. The Company has reported the preferred stock outside of total common stockholders' equity. The carrying value of the preferred stock has been increased at each reporting date for accretion and dividends earned to that date with a corresponding charge to accumulated deficit.

Upon adoption of SFAS 150 for the period beginning October 1, 2005, the Company will transfer the carrying value of the preferred stock to long-term liabilities. This change will have no effect on previously reported results of operation.

5. ACQUISITION

Effective December 1, 2004, the Company acquired certain assets of Motion Control Systems, Inc. (MCS). MCS also sells electronic, electric, and industrial parts and supplies. In exchange for the assets, the Company paid (1) \$1,600,000 in cash and (2) assumed all trade accounts payable of MCS. The cash paid upon closing was reduced by a holdback amount of approximately \$46,000 (Holdback Amount) as a reserve for potentially uncollectible accounts receivable. On the first day of the month in which 90% of the accounts receivable are collected, the Company intends

to release from the Holdback Amount collections in excess of 90%. As of June 30, 2005, substantially all of the Holdback Amount has been settled with MCS. The operating results from the acquisition are included in the Company's results of operations since December 1, 2004, the date of acquisition.

6. GOODWILL AND INTANGIBLE ASSETS

Changes in carrying amount of goodwill for the nine months ended June 30, 2005, were as follows:

Balance, October 1, 2004	\$ 17,271,035
Addition related to the stock earn-out agreement related to LADD	11,920,740
Addition related to the acquisition of MCS	203,825
Balance, June 30, 2005	\$ 29,395,600

7. LONG-TERM DEBT

Long-term debt consists of the following at June 30, 2005:

\$34,000,000 bank line of credit; due July 16, 2008; interest payable quarterly; variable interest rate equal to (1) the greater of the Prime Rate and the Federal Funds Rate plus .50% or (2) if selected, the London Interbank Offered Rate (LIBOR) plus 1.50%; 4.43% to 6.00% at June 30, 2005, collateralized by substantially all assets.	\$ 18,392,607
Bank term loan; due quarterly through December 31, 2007, in installments of \$1,000,000. plus interest; variable interest rate based on the LIBOR plus 2%; 4.93% June 30, 2005, collateralized by substantially all assets	10,000,000
	28,392,607

2008	2,000,000
2009	18,392,607
Total	\$ 28,392,607

8. EMPLOYEE BENEFIT PLANS

On October 1, 2004, the Carlton-Bates Company Profit Sharing Plan was merged with the Carlton-Bates Company 401(k) Plan. Under the merged Plan, eligible employees may elect to contribute from 1% up to 75% of their compensation on a pre-tax basis, subject to maximum dollar limitation set each year by the IRS.

9. INCOME TAXES

NOTES TO UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL INFORMATION

1. BASIS OF PRESENTATION

The Unaudited Pro Forma Condensed Combined Financial Statements have been prepared using the purchase method of accounting as if the transaction had been completed as of January 1, 2004 for purposes of the Unaudited Pro Forma Condensed Combined Statements of Income and on June 30, 2005 for the purposes of the Unaudited Pro Forma Condensed Combined Balance Sheet.

WESCO's fiscal year end is December 31 and Carlton-Bates fiscal year end is September 30. For purposes of arriving at the Historical Condensed Combined Statement of Income for the six months ended June 30, 2005, the Carlton-Bates Statement of Income for the three months ended December 31, 2004 was subtracted from the Carlton-Bates Statement of Income for the nine months ended June 30, 2005 to arrive at the Carlton-Bates Statement of Income for the six months ended June 30, 2005.

The Unaudited Pro Forma Condensed Combined Financial Statements should be read in conjunction with the separate historical Consolidated Financial Statements and accompanying notes included in WESCO's Annual Report on Form 10-K for the year ended December 31, 2004 and Quarterly Reports on Form 10-Q for the three months ended March 31, 2005, three and six months ended June 30, 2005 and three and nine months ended September 30, 2005 and Carlton-Bates audited financial statements for the year ended September 30, 2004 and the unaudited consolidated financial statements for the nine months ended June 30, 2005. The Unaudited Pro Forma Condensed Combined Financial Statements are not intended to be indicative of the consolidated results or operations or the financial condition of WESCO that would have been reported had the merger been completed as of the dates presented and should not be taken as representative of the future consolidated results of operations or financial condition of WESCO. The accompanying Unaudited Pro Forma Condensed Combined Financial Statements are presented in accordance with Article 11 of the U.S. Securities and Exchange Commission Regulation S-X.

Under the purchase method of accounting, the purchase price is allocated to the underlying assets acquired and liabilities assumed based on their respective fair market values, with any excess purchase price allocated to goodwill. The pro forma purchase price allocation has been derived from estimates of the fair value of the tangible and intangible assets and liabilities of Carlton-Bates based upon WESCO's management's estimates using valuation techniques. Certain assumptions have been made with respect to the fair value of identifiable intangible assets as more fully described in the accompanying notes to the unaudited pro forma condensed combined financial statement. The total purchase price of Carlton-Bates has been allocated on a preliminary basis to identifiable assets acquired and liabilities assumed based upon valuation procedures performed to date. This allocation is subject to change pending the results of an independent company to assist in the valuation of the total purchase price paid, including the direct costs of the acquisition and the estimated fair value of the assets acquired and liabilities assumed; however WESCO does not believe that the impact of these changes will be material.

The Unaudited Pro Forma Condensed Financial Statements do not reflect any effect of operating efficiencies, cost savings, and other benefits anticipated by WESCO's management as a result of the merger. Additionally, certain integration costs may be recorded subsequent to the acquisition that will be expensed as incurred. These costs have not been reflected in these unaudited pro forma condensed combined statements of income.

2. PRO FORMA ADJUSTMENTS

The pro forma adjustments give effect to the acquisition of Carlton-Bates by WESCO.

Balance Sheet-June 30, 2005

- (a) Derived from the unaudited WESCO condensed consolidated balance sheet as of June 30, 2005.
- (b) Derived from the unaudited Carlton-Bates condensed consolidated balance sheet as of June 30, 2005.
- (c) The following table summarizes the estimated allocation of the purchase price for Carlton-Bates

Table of Contents

Fair value of assets acquired and liabilities assumed:

The acquisition was funded as follows:

Borrowings under WESCO's existing revolving credit facility	\$ 100,300
Issuance of Senior Subordinated Notes due 2017	150,000
Total purchase price	\$ 250,300

Property and equipment are depreciated over an average of five years. Intangible assets include customer relationships of \$17.2 million, distribution agreements of \$16.0 million, trade names of \$5.6 million and non-compete agreements of \$2.0 million. Distribution agreements and customer lists are being amortized over 9 years and non-compete agreements are being amortized over 5 years.

Interest on the revolving credit facility is at the London Interbank Offered Rate (LIBOR) adjusted by a margin that will range from -.25% to -.50% depending upon the amount of excess availability. The average interest rate was 5.5% for the year ending December 31, 2004 and 6.7% for the six months ending June 30, 2005.

Interest on the senior subordinated notes due 2017 bear interest at a stated rate of 7.50%.

Deferred financing fees related to the issuance of the Senior Subordinated Notes due 2017 were \$3,738 resulting in net proceeds of \$146,262. Amortization of the deferred financing fees is over 144 months and \$311 annually.
