**SearchMedia Reports Audited Financial Results
for the Full Year of 2010**

Form 20-F Filed with U.S. Securities and Exchange Commission

Shanghai, China, June 30, 2011 SearchMedia Holdings Limited (SearchMedia or the Company) (NYSE Amex: IDI, IDI.WS), one of China's leading nationwide multi-platform media companies, today reported audited financial results for the full year ended December 31, 2010. The Company filed its annual report on Form 20-F with the U.S. Securities and Exchange Commission.

Audited Financial Results for the Full Year Ended December 31, 2010

Revenue increased 30.0% to \$49.0 million in the full year of 2010 from \$37.7 million in the full year of 2009 primarily due to the continued expansion of the Company's outdoor billboard, elevator and transit platform, an increase in the amount of contracts and the addition of the Company's newly acquired subsidiary, Zhejiang Continental. The Company grew its number of advertising contracts by 7.6% to 1,509 contracts from 1,403 contracts in the prior year period and witnessed increased average revenue per customer as well. Revenue of \$49.0 million in the full year of 2010 differs from revenue of \$51.7 million discussed in the Company's preliminary results announced on March 28, 2011, mainly due to a contract modification from one of SearchMedia's subsidiaries as well as incremental sales tax accruals.

Gross profit increased 28.9% to \$12.5 million from \$9.7 million in the prior year period, reflecting growth proportional to that of revenue. Gross margin remained flat at 25.6% from 25.7% in the prior year period due to changes in the Company's revenue mix as well as costs associated with its network expansion. As the Company grows its occupancy rates and average revenue per contract, gross margins are expected to trend higher as well.

Total operating expenses for the full year of 2010 were \$16.7 million compared to \$17.2 million for the prior year period. Sales and marketing expenses increased 32.4% to \$4.5 million from \$3.4 million in the prior year period, primarily due to a proportional increase in sales commissions as well as greater investment in marketing expenses to drive business expansion. General and administrative expenses were \$12.2 million compared to \$13.8 million in the prior year period, reflecting an increase in salary expense as a result of acquisition activity, higher share-based compensation expense, offset by lower professional fees and other expenses compared to 2009.

Operating loss was \$4.2 million compared to a loss of \$7.5 million in the prior year period.

Other expenses for the full year of 2010 increased to \$41.1 million from \$10.8 million in the prior year period, primarily due to a loss on impairment of goodwill and intangible assets of \$39.4 million in 2010 compared to \$15.7 million in the prior year period. This asset impairment loss was incurred in conjunction with the Company's efforts to revalue historic acquisitions in order to lay a stronger foundation for future growth.

As a result, net loss for the full year of 2010 was \$46.6 million compared to a net loss of \$22.6 million in the prior year period. Net loss for the full year 2010 includes the impact of the following expenses, which management believes are unique to 2010 and not expected to impact the Company's financials on a normalized basis:

\$39.4 goodwill impairment which reflects the writedown of goodwill from certain acquisitions completed in 2008;

and \$4.6 million related to restructuring the headquarter elevator business, abandonment of leases and extraordinary corporate expenses related to severance fees, headcount reduction, extraordinary legal and auditing fees and certain bad debt reserves.

Net loss for the full year of 2010 also includes approximately \$4.1 million of ESOP and intangible amortization charges.

Excluding these items, the Company would have reported net income of \$1.5 million.

Additionally, SearchMedia is providing an understanding of net income from acquired subsidiaries, which excludes the Company's headquarter elevator business and corporate expenses. Preliminary acquired subsidiary net income of \$8.6 million was adjusted in the audit to \$6.1 million mainly as a result of additional bad debt reserve of \$0.9 million, additional sales tax accrual of \$0.7 million and a contract modification of \$0.5 million. Acquired subsidiary net income would have increased \$1.3 million with the inclusion of the full year of net income from the Company's Zhejiang Continental acquisition. Adjusted for the additional bad debt, which the Company believes are extraordinary charges, and including Zhejiang Continental's earnings on a full year basis, acquired subsidiary net income for 2010 was \$8.3 million.

As of December 31, 2010, cash and cash equivalents totaled approximately \$7.6 million. For the full year ended December 31, 2010, the Company had a weighted average number of basic and diluted shares outstanding of 20.8 million shares.

Wilfred Chow, Chief Financial Officer of SearchMedia, commented, "Through our hard work in the preceding quarters, we have built a solid foundation of productive assets and stronger internal controls. Moving forward, the Company aims to continue to drive growth by increasing our number of contracts as well as increasing organic growth by raising average revenue per customer."

Outlook

Paul Conway, Chief Executive Officer of SearchMedia, noted, "For the first quarter of 2011, we are pleased to announce that we expect all subsidiaries as well as the headquarter elevator business to be profitable. Moreover, we are extremely excited about the upcoming opportunities in China's media space and look forward to further building out our network through new concessions and accretive acquisitions."
