FOR IMMEDIATE RELEASE

TOWER AUTOMOTIVE ANNOUNCES OPERATING RESULTS FOR THE SECOND QUARTER AND SIX MONTHS ENDED JUNE 30, 2001

GRAND RAPIDS, Mich., July 19-- Tower Automotive, Inc. (NYSE: TWR), today announced operating results for the second quarter and six months ended June 30, 2001.

For the second quarter of 2001, revenues were \$642 million, a six percent decrease, compared with \$681 million in the 2000 period. Operating income declined 42 percent to \$44 million from \$76 million reported last year. Net income for the second quarter of 2001 was \$17 million, or 35 cents per diluted share outstanding, versus \$39 million, or 68 cents per diluted share, in the comparable 2000 period.

For the six months ended June 30, 2001, revenues were \$1.3 billion, a seven percent decrease, compared with \$1.4 billion in the same period for 2000. Operating income declined 45 percent to \$82 million from \$148 million reported last year. Net income for the six months ended June 30, 2001 was \$30 million, or 63 cents per diluted share outstanding, versus \$76 million, or \$1.32 per diluted share, in the comparable 2000 period.

In commenting on second-quarter and six-month results, Dug Campbell, president and chief executive officer of Tower Automotive, said, "The first half of 2001 has been an especially trying period for Tower Automotive and the industry in general. However, this in no way has deterred us in our zeal to improve our long-term financial stability and invested capital positioning. Despite the sales and earnings shortfall relative to the same periods of 2000, we have successfully strengthened our balance sheet by tightening up our financial processes. We have aggressively managed working capital to provide significant positive cash flows for debt reduction of \$210 million during the second quarter 2001 and \$163 million during the first half

4

of 2001. We have remained compliant with our debt covenants for the first half of 2001 and are managing the business to ensure no relief from these covenants will be required.

"As expected, we improved second quarter 2001 sales and net income by \$14 million and \$4 million, respectively, over first quarter 2001, with an increase in diluted earnings per share of seven cents per share (or 24 percent). We anticipate that our volumes for the balance of 2001 will continue to be stressed relative to 2000 and initial 2001 expectations; however, we will get through this period with our new programs successfully launching and the Enterprise being better equipped to grow and prosper in 2002 and beyond."

Tower Automotive, Inc., produces a broad range of assemblies and modules for vehicle structures and suspension systems for the automotive manufacturers, including Ford, DaimlerChrysler, GM, Honda, Toyota, Nissan, Auto Alliance, Fiat, Kia, Hyundai, BMW and Volkswagen. Products include body structural assemblies such as pillars and package trays, control arms, suspension links, engine cradles and full frame assemblies. The company is based in Grand Rapids, Mich., and has its corporate office in Minneapolis, Minn.
