ITEM 2.02 Results of Operations and Financial Condition

On February 3, 2009, Pentair, Inc. (the Company) issued a press release announcing its earnings for the fourth quarter and fiscal year 2008 and a conference call in connection therewith. A copy of the release is furnished herewith as Exhibit 99.1 and incorporated herein by reference.

This press release refers to certain non-GAAP financial measures (adjusted operating income, adjusted margins, adjusted earnings per share and free cash flow) and a reconciliation of those non-GAAP financial measures to the corresponding financial measures contained in the Company's financial statements prepared in accordance with generally accepted accounting principles.

Adjusted operating income, adjusted margins and adjusted earnings per share eliminate (i) certain expenses incurred in the second, third and fourth quarters of 2008 and third and fourth quarters of 2007 to restructure certain operations of the Company by reducing capacity, closing facilities and reducing headcount, (ii) the impact of the additional reserve recorded for the Horizon litigation settlement and (iii) the gain on the transaction entered into with GE Water & Process Technologies, a unit of General Electric Company (GE), to combine GE's and the Company's respective global water softener and residential water filtration businesses. Adjusted earnings per share also eliminates the tax impact on the aforementioned items. Management utilizes these adjusted financial measures to assess the run-rate of its continuing operations against those of prior periods without the distortion of these factors. The Company believes that these non-GAAP financial measures will be useful to investors as well to assess the continuing strength of the Company's underlying operations in light of the downturn in these markets.

The Company uses free cash flow and free cash flow excluding certain items (pension, Horizon settlement and severance) to assess its cash flow performance. The Company believes free cash flow and free cash flow excluding certain items (pension, Horizon settlement and severance) are important measures of operating performance because they provide the Company and its investors a measurement of cash generated from operations that is available to pay dividends, repurchase common stock and repay debt. In addition, these measures are used as a criterion to measure and pay compensation-based incentives. The Company's measures of free cash flow and free cash flow excluding certain items (pension, Horizon settlement and severance) may not be comparable to similarly titled measures reported by other companies.

The information contained in this Current Report shall not be deemed to be filed for purposes of Section 18 of the Securities Exchange Act of 1934 (the Exchange Act) or otherwise subject to the liabilities of that section, nor shall it be incorporated by reference into a filing under the Securities Act of 1933, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.
