Revenues for the quarter were \$15.7 million compared to \$24.4 million for the same period last year. Operating loss for the quarter was \$1.5 million compared with operating income of \$1.5 million for the same period last year.

The third quarter revenue reflects lower shipments of BA-5390 batteries to the U.S. military, as anticipated. Gross margins for the quarter were 15% compared to 20% in the same quarter last year, reflecting lower production volumes. Operating expenses were \$3.9 million compared with \$3.3 million last year, reflecting an increased commitment to new product development and higher administrative costs. Income taxes in the third quarter of 2005 amounted to a benefit of \$0.4 million. The net loss for the third quarter of 2005 was \$1.3 million, or \$0.09 per share, compared with net income of \$1.4 million, or \$0.09 per diluted share, for the same period a year ago.

For the nine-month period ended October 1, 2005, revenues totaled \$52.7 million compared with \$79.8 million reported for the same period last year, resulting mainly from lower shipments of BA-5390 batteries to the U.S. military, and offset in part by higher commercial revenues and other military-related sales. The company reported an operating loss of \$3.0 million for the first nine months of 2005 compared to operating income of \$8.5 million last year, reflecting the revenue decline and higher operating expenses. The net loss for the first nine months of 2005 was \$4.3 million, or \$0.30 per share, compared to net income of \$4.3 million, or \$0.28 per diluted share, for 2004.
