Table of Contents**MGM MIRAGE AND SUBSIDIARIES****CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)****NOTE 1 ORGANIZATION AND BASIS OF PRESENTATION**

Organization. MGM MIRAGE (the Company) is a Delaware corporation, incorporated on January 29, 1986. As of March 31, 2007, approximately 56% of the outstanding shares of the Company's common stock were owned by Tracinda Corporation, a Nevada corporation wholly owned by Kirk Kerkorian. MGM MIRAGE acts largely as a holding company and, through wholly-owned subsidiaries, owns and/or operates casino resorts.

The Company owns and operates the following casino resorts in Las Vegas, Nevada: Bellagio, MGM Grand Las Vegas, Mandalay Bay, Mirage, Luxor, Treasure Island (TI), New York-New York, Excalibur, Monte Carlo, Circus Circus Las Vegas and Slots-A-Fun. Other Nevada operations include Circus Circus Reno, Colorado Belle and Edgewater in Laughlin (the Laughlin Properties), Gold Strike in Jean, and Railroad Pass in Henderson. The Company has a 50% investment in Silver Legacy in Reno, which is adjacent to Circus Circus Reno. In addition, the Company owns 50% interests in the entities developing The Signature at MGM Grand, which is adjacent to MGM Grand Las Vegas. The Signature is a condominium-hotel development, with two towers open and a final tower currently under construction. The Company also owns Shadow Creek, an exclusive world-class golf course located approximately ten miles north of its Las Vegas Strip resorts, and Primm Valley Golf Club at the California/Nevada state line.

In October 2006, the Company entered into an agreement to sell Buffalo Bills, Primm Valley, and Whiskey Pete's casino resorts, collectively the Primm Valley Resorts, not including the Primm Valley Golf Club. The Company completed the sale of Primm Valley resorts in April 2007, with net proceeds to the Company of approximately \$398 million. Also in October 2006, the Company entered into an agreement to sell the Laughlin Properties for \$200 million. The Company expects to complete the sale of the Laughlin Properties in the second quarter of 2007, and the agreement is subject to regulatory approval and other customary closing conditions. In February 2007, the Company entered into an agreement to contribute Gold Strike, Nevada Landing (which closed in March 2007) and surrounding land, collectively the Jean Properties, to a joint venture. The joint venture's purpose is to develop a mixed-use community on the site. See Note 2 for further discussion of these transactions.

The Company and its local partners own MGM Grand Detroit, LLC, which operates a casino in an interim facility located in downtown Detroit, Michigan. MGM Grand Detroit, LLC is currently developing a permanent casino facility, expected to open in late 2007 at a construction cost of approximately \$725 million, excluding preopening, land, and license costs. Preopening costs are estimated to be \$30 million. The permanent casino is located on a 25-acre site with a carrying value of approximately \$50 million. In addition, the Company recorded license rights with a carrying value of \$100 million as a result of MGM Grand Detroit's obligations to the City of Detroit in connection with the permanent casino development agreement.

The Company also owns and operates two resorts in Mississippi: Beau Rivage in Biloxi and Gold Strike Tunica. Beau Rivage reopened in August 2006, after having been closed due to damage sustained as a result of Hurricane Katrina in August 2005.

The Company has 50% interests in two resorts outside of Nevada: Borgata and Grand Victoria. Borgata is a casino resort located on Renaissance Pointe in the Marina area of Atlantic City, New Jersey. Boyd Gaming Corporation owns the other 50% of Borgata and also operates the resort. The Company owns additional land adjacent to Borgata, a portion of which consists of common roads, landscaping and master plan improvements, a portion of which is being utilized for an expansion of Borgata, and a portion of which is available for future development. Grand Victoria is a riverboat in Elgin, Illinois: an affiliate of Hyatt Gaming owns the other 50% of Grand Victoria and also operates the resort.

Table of Contents

The Company owns 50% of MGM Grand Paradise Limited, a joint venture with Pansy Ho Chiu-king that is constructing and will operate a hotel-casino resort, MGM Grand Macau, in Macau S.A.R. Construction of MGM Grand Macau is estimated to cost approximately \$775 million, excluding preopening, land rights and license costs. Preopening costs are estimated to be \$75 million. The land rights are estimated to cost approximately \$60 million. The subconcession agreement, which allows MGM Grand Paradise Limited to operate a casino in Macau, cost \$200 million. The resort is anticipated to open in late 2007.

The Company is developing CityCenter on the Las Vegas Strip, between Bellagio and Monte Carlo. CityCenter will feature a 4,000-room casino resort designed by world-famous architect Cesar Pelli; two 400-room non-gaming boutique hotels, one of which will be managed by luxury hotelier Mandarin Oriental; approximately 470,000 square feet of retail shops, dining and entertainment venues; and approximately 2.3 million square feet of residential space in approximately 2,700 luxury condominium and condominium-hotel units in multiple towers. The overall construction cost of CityCenter is estimated at approximately \$7.4 billion, excluding preopening and land costs. Preopening costs are estimated to be \$200 million. CityCenter is located on a 67-acre site with a carrying value of approximately \$1 billion. After estimated proceeds of \$2.7 billion from the sale of residential units, net construction cost is estimated at approximately \$4.7 billion. CityCenter is expected to open in late 2009.

Financial statement impact of Hurricane Katrina. The Company maintained insurance covering both property damage and business interruption as a result of wind and flood damage sustained at Beau Rivage. Business interruption coverage covered lost profits and other costs incurred during the construction period and up to six months following the re-opening of the facility.

Non-refundable insurance recoveries received in excess of the net book value of damaged assets, clean-up and demolition costs, and post-storm costs have been recognized as income in the period received based on the Company's estimate of the total claim for property damage and business interruption compared to the recoveries received at that time.

As of March 31, 2007, the Company had received insurance recoveries of \$411 million. This amount exceeds the \$260 million total of net book value of damaged assets, clean-up and demolition costs, and post-storm operating costs by \$151 million; therefore no write-down or demolition expense was recorded and post storm operating costs were offset by expected recoveries within General and administrative expenses. Depreciation of non-damaged assets was classified as Depreciation and amortization. Of the \$151 million excess, \$86 million was received on a non-refundable basis and was reported as income within Property transactions, net during the fourth quarter of 2006. The remaining \$65 million has been deferred because the related payments were submitted to the Company under reservation of rights on behalf of the insurance carriers; such amounts are included in Other accrued liabilities in the accompanying consolidated balance sheet as of March 31, 2007.

Insurance recoveries are classified in the statement of cash flows based on the coverage to which they relate. Recoveries related to business interruption are classified as operating cash flows and recoveries related to property damage are classified as investing cash flows. However, the Company's insurance policy includes undifferentiated coverage for both property damage and business interruption. Therefore, the Company classified insurance recoveries as being related to property damage until the full \$160 million of damaged assets and demolition costs were recovered and classified additional recoveries up to the amount of the post-storm costs incurred as being related to business interruption. Insurance recoveries beyond that amount have been classified as operating or financing based on the total proceeds received to date compared to the total expected recoveries to be received upon final settlement of our insurance claims. During the three months ended March 31, 2007, insurance recoveries of \$7 million have been classified as operating cash flows. During the three months ended March 31, 2007 and 2006, insurance recoveries of \$48 million and \$4 million, respectively, have been classified as investing activities.

Table of Contents

Adoption of FIN 48. Effective January 1, 2007, the Company adopted Financial Accounting Standards Board Interpretation No. 48, Accounting for Uncertainty in Income Taxes an Interpretation of FASB Statement No. 109 (FIN 48). FIN 48 requires that tax positions be assessed using a two-step process. A tax position is recognized if it meets a more likely than not threshold, and is measured at the largest amount of benefit that is greater than 50 percent likely of being realized. Uncertain tax positions must be reviewed at each balance sheet date. Liabilities recorded as a result of this analysis must generally be recorded separately from any current or deferred income tax accounts, and are classified as current (Other accrued liabilities) or long-term (Other long-term liabilities) based on the time until expected payment. A cumulative effect adjustment to retained earnings was not required as a result of the implementation of FIN 48.

As of January 1, 2007, the Company had a total of \$97 million of unrecognized tax benefits. The total amount of these unrecognized tax benefits that, if recognized, would affect the effective tax rate is \$20 million.

As of March 31, 2007 the Company had a total of \$67 million of unrecognized tax benefits. The total amount of these unrecognized tax benefits that, if recognized, would affect the effective tax rate is \$21 million. The net decrease in the amount of unrecognized tax benefits from the date of adoption resulted primarily from the closure during the first quarter of 2007 of an Internal Revenue Service (IRS) examination of federal income tax returns for the years ended December 31, 2001 and 2002. The Company agreed to an additional assessment of taxes and associated interest of \$2 million and will protest at IRS Appeals certain issues that remained un-agreed at the closure of the examination. The Company reduced unrecognized tax benefits in the amount of \$33 million and recorded corresponding reductions in goodwill related to the acquisition of Mirage Resorts, Incorporated and income tax expense of \$29 million and \$4 million, respectively. We do not expect a significant increase or decrease in unrecognized tax benefits over the next twelve months.

The Company recognizes accrued interest and penalties related to unrecognized tax benefits in income tax expense. This policy did not change as a result of the adoption of FIN 48. The Company had \$3 million in interest, net of federal benefit, related to unrecognized tax benefits accrued as of January 1, 2007 and no amounts were accrued for penalties as of such date.

The Company files income tax returns in the U.S. federal jurisdiction, various state & local jurisdictions, and foreign jurisdictions, although the taxes paid in foreign jurisdictions are not material. As of January 1, 2007, the Company was no longer subject to examination of its U.S. federal income tax returns filed for years ended prior to 2001. While the IRS examination of the 2001 and 2002 tax years closed during the first quarter of 2007, the statute of limitations for assessing tax for such years has been extended in order for the Company to complete the appeals process for issues that were not agreed upon at the closure of the examination. The IRS is currently examining the Company's federal income tax returns for the 2003 and 2004 tax years. The tax returns for subsequent years are also subject to examination.

As of January 1, 2007, with few exceptions, the Company was no longer subject to examination of its various state and local tax returns filed for years ended prior to 2003. During the first quarter of 2007, the City of Detroit initiated an examination of a Mandalay Resort Group subsidiary return for the pre-acquisition year ended April 25, 2005. No other state or local income tax returns are under examination.

Basis of presentation. As permitted by the rules and regulations of the Securities and Exchange Commission, certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. These consolidated financial statements should be read in conjunction with the Company's 2006 annual consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2006.

In the opinion of management, the accompanying unaudited consolidated financial statements contain all adjustments which include only normal recurring adjustments necessary to present fairly the Company's financial position as of March 31, 2007 and the results of its operations and cash flows for the three month periods ended March 31, 2007 and 2006. The results of operations for such periods are not necessarily indicative of the results to be expected for the full year. Certain reclassifications, which have no effect on previously reported net income, have been made to the 2006 financial statements to conform to the 2007 presentation.

Table of Contents**NOTE 2 ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS**

The sale of the Primm Valley Resorts in April 2007 resulted in an estimated pre-tax gain of approximately \$200 million, which will be recorded in the second quarter of 2007. The Company expects to recognize gains on the sale of the Laughlin Properties and the contribution of the Jean Properties to a joint venture.

The assets and liabilities of the Primm Valley Resorts, the Laughlin Properties, and the Jean Properties are classified as held for sale at March 31, 2007 and December 31, 2006 (Primm Valley Resorts and Laughlin Properties only) in the accompanying consolidated balance sheets. Nevada Landing closed in March 2007 and the carrying value of its building assets were written-off. These amounts are included in Property transactions, net in the accompanying consolidated statement of income for the three month period ended March 31, 2007 see note 10 for further discussion.

The following table summarizes the assets held for sale and liabilities related to assets held for sale in the accompanying consolidated balance sheets:

The results of the Laughlin Properties and Primm Valley Resorts are classified as discontinued operations in the accompanying consolidated statements of income for all periods presented. Due to our continuing investment in the Jean Properties, the results of these operations have not been classified as discontinued operations in the accompanying consolidated statements of income.

Net revenues of discontinued operations were \$97 million and \$104 million, respectively, for the three month periods ended March 31, 2007 and 2006. Included in income from discontinued operations is an allocation of interest expense based on the ratio of net assets of the discontinued operations to total consolidated net assets and debt of the Company. Interest allocated to discontinued operations was \$4 million and \$5 million for the three month periods ended March 31, 2007 and 2006, respectively. The cash flows of discontinued operations are included with the cash

flows of continuing operations in the accompanying consolidated statements of cash flows.

Turnberry/MGM Grand Towers The Signature at MGM Grand (50%)	(3,766)	11,661
	\$ 1,082,423	\$ 1,092,257

The Company's investment in MGM Grand Paradise Limited consists of equity and subordinated debt. The Company is committed to lending the venture up to an additional \$8 million, which will be treated as an additional investment in the venture.

During 2006, The Signature at MGM Grand had closed sales on all of the units in Tower 1 and substantially all of the units in Tower 2. Accordingly, the Company recognized its share of profits from sales of these units during 2006. During the three months ended March 31, 2007, the Company recognized \$7 million for its share of the profits from additional sales of units in Tower 2. The Company also recognized a gain of \$1 million for the three month period ended March 31, 2007 on land contributed to the venture. No sales had closed as of March 31, 2006; therefore, no income was recognized during the three month period ended March 31, 2006. As of March 31, 2007, the Company had deferred income related to its land contributions, primarily related to Tower 3, of \$8 million, which is classified as

Other long-term obligations in the accompanying consolidated balance sheets. As of March 31, 2007, the Company had a negative investment balance due to cumulative distributions exceeding cumulative profits and the carrying value of land contributed. Therefore, the investment balance as of March 31, 2007 was also classified in Other long-term obligations.

The Company recorded its share of the results of operations of unconsolidated affiliates as follows:

Three months ended March 31,	2007	2006

The senior credit facility has a total capacity of \$7 billion, which matures in 2011. The Company has the ability to solicit additional lender commitments to increase the capacity to \$8 billion. The components of the senior credit facility include a term loan facility of \$2.5 billion and a revolving credit facility of \$4.5 billion. At March 31, 2007, the Company had approximately \$2.3 billion of available borrowing capacity under the senior credit facility.

The Company's long-term debt obligations contain customary covenants requiring the Company to maintain certain financial ratios. At March 31, 2007, the Company was required to maintain a maximum leverage ratio (debt to EBITDA, as defined) of 6.5:1 and a minimum coverage ratio (EBITDA to interest charges, as defined) of 2.0:1. At March 31, 2007, the Company's leverage and interest coverage ratios were 5.0:1 and 2.8:1, respectively.

In May 2007, the Company entered into an agreement to issue \$750 million of 7.5% senior notes due 2016, with closing scheduled for May 17, 2007.

Table of Contents**NOTE 5 COMMITMENTS AND CONTINGENCIES**

The Signature at MGM Grand. The Company provided guarantees for the debt financing on Towers 1, 2 and 3 of The Signature at MGM Grand. The loan amounts for Towers 1 and 2 have been completely repaid, relieving the Company's guaranty obligation for Towers 1 and 2. The Company's obligation on Tower 3 generally provides for a guaranty of 25% of the principal and 50% of the interest. An additional 25% of principal and 50% of interest is guaranteed by affiliates of the venture's other investor. The Company and the affiliates have also jointly and severally provided a completion guaranty.

The maximum borrowings allowed for Tower 3 is \$186 million. At March 31, 2007, the Company had recorded a guaranty obligation liability of \$1 million for Tower 3, classified in "Other long-term obligations" in the accompanying consolidated balance sheet.

The M Resort. The Company has committed, subject to certain conditions, to finance \$160 million of the development cost of The M Resort in the form of a subordinated convertible note. The M Resort is a planned casino resort, ten miles south of Bellagio. The note matures eight years from its effective date and contains certain optional and mandatory redemption provisions. The Company has the right to convert such note into a 50% equity interest in The M Resort beginning 18 months after the note's issuance if not repaid.

Land Acquisitions. In April 2007, the Company entered into an agreement to purchase a 26-acre parcel of land, located on the Las Vegas Strip north of its Circus Circus Las Vegas property, for approximately \$444 million, which is expected to close in the second quarter of 2007. Separately, the Company agreed to purchase several parcels of adjacent land, totaling approximately eight acres, for approximately \$131 million, which closed in May 2007.

Stock repurchases. In the three months ended March 31, 2007, the Company repurchased 2.5 million shares of common stock at a total cost of \$175 million, leaving 5.5 million shares available for repurchase under a July 2004 authorization. In the three months ended March 31, 2006, the Company repurchased one million shares of common stock at a total cost of \$38 million.

NOTE 9 STOCK-BASED COMPENSATION

The Company adopted an omnibus incentive plan in 2005 which allows it to grant stock options, stock appreciation rights, restricted stock, and other stock-based awards to eligible directors, officers and employees. The plans are administered by the Compensation Committee (the Committee) of the Board of Directors. Salaried officers, directors and other key employees of the Company and its subsidiaries are eligible to receive awards. The Committee has discretion under the omnibus plan regarding which type of awards to grant, the vesting and service requirements, exercise price and other conditions, in all cases subject to certain limits, including:

The omnibus plan allowed for the issuance of up to 20 million shares or share-based awards;

For stock options and stock appreciation rights, the exercise price of the award must equal the fair market value of the stock on the date of grant and the maximum term of such an award is ten years.

To date, the Committee has only awarded stock options and stock appreciation rights under the omnibus plan. The Company's practice has been to issue new shares upon the exercise of stock options. Under the Company's previous plans, the Committee had issued stock options and restricted stock. Stock options and stock appreciation rights granted under all plans generally have either 7-year or 10-year terms, and in most cases are exercisable in either four or five equal annual installments. Restrictions on restricted shares granted under a previous plan lapsed 50% on the third anniversary date after the grant and 50% on the fourth anniversary date after the grant.

As of March 31, 2007, the aggregate number of share-based awards available for grant under the omnibus plan was 4.4 million. A summary of activity under the Company's share-based payment plans for the three months ended March 31, 2007 is presented below:

Stock options and stock appreciation rights

	Shares (000 s)	Weighted Average Exercise Price
Outstanding at January 1, 2007	30,532	\$ 25.37
Granted	744	65.04
Exercised	(2,119)	17.19
Forfeited or expired	(155)	30.42
Outstanding at March 31, 2007	29,002	26.97
Exercisable at March 31, 2007	11,740	17.92

The total intrinsic value of stock options and stock appreciation rights exercised during the three month periods ended March 31, 2007 and 2006 was \$111 million and \$23 million, respectively. The total income tax benefits from stock option exercises during the three month periods ended March 31, 2007 and 2006 were \$38 million and \$8 million, respectively. As of March 31, 2007, there was a total of \$100 million of unamortized compensation related to stock options and stock appreciation rights, which cost is expected to be recognized over a weighted-average period of 2.3 years.

Table of Contents

The Company adopted Statement of Financial Accounting Standards No. 123 (revised 2004), Share-Based Payment (SFAS 123(R)) on January 1, 2006 using the modified prospective method. The Company recognizes the fair value of awards granted under the Company's omnibus plan in the income statement based on the fair value of these awards measured at the date of grant using the Black-Scholes model. For awards granted prior to adoption, the unamortized expense is being recognized on an accelerated basis, since this was the method used for disclosure purposes prior to the adoption of SFAS 123(R). For awards granted after adoption, such expense is being recognized on a straight-line basis over the vesting period of the awards. Forfeitures are estimated at the time of grant, with such estimate updated periodically and with actual forfeitures recognized currently to the extent they differ from the estimate.

The following table shows information about compensation cost recognized:

Three months ended March 31,	2007	2006

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
Results of Operations

Overview

At March 31, 2007, our primary operations consisted of 22 wholly-owned casino resorts and 50% investments in three other casino resorts, including:

Las Vegas, Nevada: Bellagio, MGM Grand Las Vegas, Mandalay Bay, Mirage, Luxor, TI, New York-New York, Excalibur, Monte Carlo, Circus Circus Las Vegas and Slots-A-Fun. Boardwalk closed in early 2006 in preparation for CityCenter see Other Factors Affecting Liquidity.

Other domestic: The Primm Valley Resorts (Whiskey Pete's, Buffalo Bill's and Primm Valley Resort) in Primm, Nevada; Circus Circus Reno and Silver Legacy (50% owned) in Reno, Nevada; Colorado Belle and Edgewater in Laughlin, Nevada (the Laughlin Properties); Gold Strike in Jean, Nevada; Railroad Pass in Henderson, Nevada; MGM Grand Detroit; Beau Rivage in Biloxi, Mississippi and Gold Strike Tunica in Tunica, Mississippi; Borgata (50% owned) in Atlantic City, New Jersey; and Grand Victoria (50% owned) in Elgin, Illinois.

Other operations include the Shadow Creek golf course in North Las Vegas; two golf courses south of Primm, Nevada at the California state line; Fallen Oak golf course in Saucier, Mississippi; a 50% investment in The Signature at MGM Grand, a condominium-hotel development adjacent to MGM Grand Las Vegas; and a 50% investment in MGM Grand Paradise Limited, which is constructing a casino resort in Macau.

In October 2006, we agreed to sell the Primm Valley Resorts, not including the two golf courses. Also in October 2006, we entered into an agreement to sell the Laughlin Properties. We completed the sale of the Primm Valley Resorts in April 2007. In February 2007, we entered into an agreement to contribute Gold Strike and Nevada Landing (the Jean Properties) and surrounding land to a joint venture, and we closed Nevada Landing in March 2007. See Other Factors Affecting Liquidity.

We operate primarily in one segment, the operation of casino resorts, which includes offering gaming, hotel, dining, entertainment, retail and other resort amenities. Over half of our net revenue is derived from non-gaming activities, a higher percentage than many of our competitors, as our operating philosophy is to provide a complete resort experience for our guests, including non-gaming amenities which command a premium price based on their quality. We believe that we own several of the premier casino resorts in the world, and a main focus of our strategy is to continually reinvest in these resorts to maintain that competitive advantage.

As a resort-based company, our operating results are highly dependent on the volume of customers at our resorts, which in turn impacts the price we can charge for our hotel rooms and other amenities. We also generate a significant portion of our operating income from high-end gaming customers, which can cause variability in our results. Key performance indicators related to revenue are:

Gaming revenue indicators table games drop and slots handle (volume indicators); win or hold percentage, which is not fully controllable by us. Our normal table games win percentage is in the range of 18% to 22% of table games drop and our normal slots win percentage is in the range of 6.5% to 7.5% of slots handle;

Hotel revenue indicators hotel occupancy (volume indicator); average daily rate (ADR, price indicator); revenue per available room (REVPAR), a summary measure of hotel results combining ADR and occupancy rate.

Most of our revenue is essentially cash-based, through customers wagering with cash or paying for non-gaming services with cash or credit cards. Our resorts generate significant operating cash flow. Our industry is capital intensive and we rely heavily on the ability of our resorts to generate operating cash flow to repay debt financing, fund maintenance capital expenditures and provide excess cash for future development.

Table of Contents

We generate a majority of our net revenues and operating income from our resorts in Las Vegas, Nevada, which exposes us to certain risks outside of our control, such as competition from other recently opened or expanded Las Vegas resorts, and the impact from expansion of gaming in California. We are also exposed to risks related to tourism and the general economy, including national and global economic conditions and terrorist attacks or other global events.

Our results of operations do not tend to be seasonal in nature, though a variety of factors may affect the results of any interim period, including the timing of major Las Vegas conventions, the amount and timing of marketing and special events for our high-end customers, and the level of play during major holidays, including New Year and Chinese New Year. We market to different customer segments to manage our hotel occupancy, such as targeting large conventions to ensure mid-week occupancy. Our results do not depend on key individual customers, though our success in marketing to customer groups, such as convention customers, or the financial health of customer segments, such as business travelers or high-end gaming customers from a particular country or region, can impact our results.

Financial Results

The following discussion is based on our consolidated financial statements for the three months ended March 31, 2007 and 2006. On a consolidated basis, the most important factors and trends contributing to our operating performance for the periods were:

Continued year-over-year increases in room pricing and stable occupancy at our resorts, leading to strong hotel results.

Ongoing investments in new restaurants, lounges, entertainment venues and other resort amenities, leading to strong non-gaming revenues.

The closure of Beau Rivage in August 2005 as a result of Hurricane Katrina and the reopening of the property in August 2006. For the three months ended March 31, 2007, Beau Rivage earned operating income of \$16 million.

Recognition of our share of profits from the sale of units of The Signature at MGM Grand. The venture records revenue and cost of sales as units close. Profits related to Tower 1 and Tower 2 were recognized as the buildings were completed and the sale of the units closed beginning with the completion of Tower 1 in May 2006. Sales of units in Tower 3 are expected to begin to close in the second quarter of this year. For the three months ended March 31, 2007, we recognized income of approximately \$8 million related to units closed and the recognition of deferred profit on land contributed to the venture. Such income is classified in *Income from unconsolidated affiliates* in the accompanying consolidated statements of income.

Our net revenue increased 9% in the first quarter over the prior year period. Excluding Beau Rivage, net revenue increased 3%. In addition to added revenues from Beau Rivage, the key drivers for the increase in revenues were strong room pricing and increased revenues from new restaurants, night clubs, and shows at several of our resorts. Our customer mix consisted of a higher percentage of convention customers in 2007, a factor which was partially responsible for strong room pricing, but also likely negatively impacted gaming results. The 3% same-store revenue increase was achieved despite having 98,000, or 3%, fewer room nights available on a same-store basis due to room remodel activity.

Operating income increased 8% for the quarter to \$445 million as a result of the positive impacts described above and the profit recognition on Tower 2 of the Signature at MGM Grand. Operating margins were consistent with the prior year period. As discussed further below in *Operating Results Details of Certain Charges*, during the first quarter of 2007 we had lower property transactions partially offset by an increase in preopening and start-up expenses. Income from continuing operations increased 17% over the 2006 quarter primarily as a result of the above factors.

Table games revenue decreased 3% from the prior year quarter, 10% excluding Beau Rivage, primarily due to a 7% decrease in table games volume at our Las Vegas Strip resorts. Table games hold percentages were near the mid-point of the Company's normal range in both periods. Slots revenue decreased 2% excluding Beau Rivage. Increases in slot revenues at Bellagio and MGM Grand Las Vegas were offset by decreases at several of our other resorts. These results were impacted by room remodel activity and a higher percentage of convention customers. In addition, our mid-market resorts may have been impacted by economic concerns among consumers such as the slow down in housing in many markets.

Non-casino revenue increased in 2007 primarily due to a 6% increase in room rates and new amenities, primarily new restaurants and nightclubs, at several resorts. Entertainment revenues benefited from the addition of *Love*, the newest Cirque du Soleil show located at The Mirage, which opened in July 2006. Additionally, other revenue in 2007 includes \$11 million from the room rental program for Towers 1 and 2 at The Signature at MGM Grand. Room revenues increased 8% overall, 5% on a same-store basis despite having 98,000 less available room nights in the current year due to remodel projects, primarily at Mandalay Bay and Excalibur. Average rates increased 8% at our Las Vegas Strip resorts. Las Vegas Strip REVPAR increased 9%, led by double-digit percentage increases at Mandalay Bay, The Mirage, and TI. The following table shows key hotel statistics for our Las Vegas Strip resorts:

Three months ended March 31,	2007	2006

Edgar Filing: MGM MIRAGE - Form 10-Q

Preopening and start-up expenses were \$14 million in the 2007 quarter versus \$6 million in 2006, and included amounts related primarily to CityCenter, MGM Grand Macau, the permanent facility at MGM Grand Detroit and The Signature at MGM Grand.

Property transactions, net consisted of the following:

Three months ended March 31,	2007	2006
	<i>(In thousands)</i>	
Write-downs and impairments	\$ 5,097	\$ 23,466
Demolition costs		14
Net (gains) losses on sale or disposal of fixed assets	(78)	5
	\$ 5,019	\$ 23,485

Write-downs and impairments in 2007 primarily related to the write-off of the carrying value of the Nevada Landing building assets due to its closure in March 2007.

Table of Contents

Write-downs and impairments in 2006 included \$22 million related to the write-off of the tram connecting Bellagio and Monte Carlo, including the stations at both resorts, in preparation for construction of CityCenter. CityCenter will feature a state-of-the-art people mover system that will reconnect Bellagio with Monte Carlo, with the stations at each resort completely redesigned as well.

Non-operating Results

Net interest expense decreased to \$184 million in the 2007 first quarter from \$193 million in the 2006 period. Gross interest was higher due to larger average balances outstanding and higher rates, but was offset by increased capitalized interest due to construction of CityCenter and the MGM Grand Detroit permanent casino.

Liquidity and Capital Resources

Cash Flows Operating Activities

Operating cash flow was \$256 million for the three months ended March 31, 2007, an increase from \$140 million in the prior year period. This increase was primarily due to the increase in operating income and lower income tax payments. Tax payments in the prior year included a \$112 million payment for the gain on the sale of MotorCity Casino in Detroit, part of the acquisition of Mandalay Resort Group. In the first quarter of 2007, real estate under development increased \$56 million related to construction of the CityCenter residential components. At March 31, 2007, we held cash and cash equivalents of \$314 million.

Cash Flows Investing Activities

Capital expenditures in the three months ended March 31, 2007 primarily consisted of the following, excluding capitalized interest:

CityCenter \$244 million;

MGM Grand Detroit permanent casino/hotel \$66 million;

Beau Rivage rebuilding \$40 million.

Remaining 2007 capital expenditures consisted of approximately \$65 million on room remodel projects primarily at Excalibur and Mandalay Bay, expenditures for corporate aircraft, and routine capital expenditures at the Company's resorts. Offsetting these expenditures was \$48 million in insurance recoveries related to Hurricane Katrina property damage.

In 2006, capital expenditures were \$321 million, and included expenditures for the Mirage theatre, CityCenter, the permanent casino in Detroit, and rebuilding at Beau Rivage.

Cash Flows Financing Activities

In the three months ended March 31, 2007, we borrowed net debt of \$252 million. The increase in net debt was due primarily to the level of capital expenditures and share repurchases. At March 31, 2007 our senior credit facility had an outstanding balance of \$4.6 billion, with available liquidity of \$2.3 billion.

We repurchased 2.5 million shares of our common stock in the three months ended March 31, 2007 at a cost of \$175 million, leaving 5.5 million shares available under our current share repurchase authorization. We received proceeds of \$36 million from the exercise of stock options in the three months ended March 31, 2007.

Table of Contents*Other Factors Affecting Liquidity*

Long-term Debt Payable in 2007. We have a total of \$1.4 billion in senior notes and senior subordinated notes that we expect to repay at maturity in the second and third quarters of 2007.

Issuance of Long-term Debt in 2007. In May 2007, we entered into an agreement to issue \$750 million of 7.5% senior notes due 2016, with closing scheduled for May 17, 2007.

Distributions from The Signature at MGM Grand. Tower 1 of The Signature at MGM Grand was completed in the second quarter of 2006. We received distributions totaling \$51 million related to Tower 1. Distributions for Tower 2 began in 2006 and as of March 31, 2007, we had received \$64 million of such distributions. We expect to receive additional minor distributions on Tower 2, as well as the majority of distributions on Tower 3, in 2007. Tower 3 is expected to be completed in the second quarter of 2007 and closings will begin shortly thereafter.

Sale of Primm Valley Resorts and Laughlin Properties. In October 2006, we entered into an agreement to sell Colorado Belle and Edgewater for \$200 million and an agreement to sell the Primm Valley Resorts for \$400 million. In April 2007 we completed the sale of Primm Valley Resorts with net proceeds to us of \$398 million. The pending sale of the Laughlin Properties is subject to regulatory approval and other customary closing conditions, and we expect the sale to be completed by the end of the second quarter.

CityCenter. In November 2004 we announced a plan to develop a multi-billion dollar urban metropolis, CityCenter, on the Las Vegas Strip between Bellagio and Monte Carlo. CityCenter will feature a 4,000-room casino resort designed by world-famous architect Cesar Pelli; two 400-room boutique hotels, one of which will be managed by luxury hotelier Mandarin Oriental; approximately 470,000 square feet of retail shops, dining and entertainment venues; and approximately 2.3 million square feet of residential space in approximately 2,700 luxury condominium and condominium-hotel units in multiple towers.

We believe CityCenter will cost approximately \$7.4 billion, excluding preopening and land costs. Preopening costs are estimated to be \$200 million. CityCenter is located on a 67-acre site with a carrying value of approximately \$1 billion. After estimated proceeds of \$2.7 billion from the sale of residential units, we believe the net construction cost will be approximately \$4.7 billion. We expect the project to open in late 2009.

Detroit Permanent Casino. The MGM Grand Detroit permanent casino resort is expected to open in late 2007 at a cost of approximately \$725 million, excluding preopening, land and license costs, and will feature a 400-room hotel, 100,000-square foot casino, numerous restaurant and entertainment amenities, and spa and convention facilities. Preopening costs are estimated to be \$30 million. The permanent casino is located on a 25-acre site with a carrying value of approximately \$50 million. In addition, we recorded license rights with a carrying value of \$100 million as a result of MGM Grand Detroit's obligations to the City of Detroit in connection with the permanent casino development agreement.

Macau. We own 50% of MGM Grand Paradise Limited, an entity which is developing, and will operate, MGM Grand Macau, a hotel-casino resort in Macau S.A.R. Pansy Ho Chiu-king owns the other 50% of MGM Grand Paradise Limited. MGM Grand Macau is located on a prime site and will feature at least 375 table games and 900 slots with room for significant expansion. Other features will include approximately 600 rooms, suites and villas, a luxurious spa, convention space, a variety of dining destinations, and other attractions. MGM Grand Macau is estimated to cost approximately \$775 million, excluding preopening, land rights and license costs. Preopening costs are estimated to be \$75 million. The land rights are estimated to cost approximately \$60 million. The subconcession agreement, which allows MGM Grand Paradise Limited to operate a casino in Macau, cost \$200 million. Construction of MGM Grand Macau began in the second quarter of 2005 and the resort is anticipated to open in late 2007. We have invested \$266 million in the venture and are committed to lending the venture up to an additional \$8 million. The venture has obtained a \$700 million bank credit facility which, along with equity contributions and shareholder loans, is expected to be sufficient to fund the construction of MGM Grand Macau.

Table of Contents

MGM Grand Paradise Limited recently announced that it has been engaged in discussions with the Government of Macau S.A.R concerning the development of its second major resort project in Macau to be located in Cotai. The site, scope and financing related to this project are still being evaluated.

New York Racing Association. In 2005, we entered into a definitive agreement with the New York Racing Association (NYRA) to manage video lottery terminals (VLTs) at NYRA 's Aqueduct horseracing facility in metropolitan New York which was subject to receipt of requisite New York State approvals. We were not able to come to an agreement with NYRA and the state of New York and announced in April 2007 that we have decided not to pursue this project further.

Mashantucket Pequot Tribal Nation. We have entered into a series of agreements to implement a strategic alliance with the Mashantucket Pequot Tribal Nation (MPTN), which owns and operates Foxwoods Casino Resort in Ledyard, Connecticut. Under the strategic alliance, we are consulting with MPTN in the development of a new \$700 million casino resort currently under construction adjacent to the existing Foxwoods casino resort. The new resort will utilize the MGM Grand brand name and is scheduled to open in Spring 2008. We have also formed a jointly owned company with MPTN Unity Gaming, LLC to acquire or develop future gaming and non-gaming enterprises. We will provide a loan of up to \$200 million to finance a portion of MPTN 's investment in joint projects.

Jean Properties. We have entered into an operating agreement to form a 50/50 joint venture with Jeanco Realty Development, LLC. The venture will master plan and develop a mixed-use community in Jean, Nevada. We will contribute the Jean Properties and surrounding land to the joint venture. The value of this contribution per the operating agreement will be \$150 million. We expect to receive a distribution of \$55 million upon transfer of the Jean Properties and surrounding land to the venture, which is subject to the venture obtaining necessary regulatory and other approvals, and \$20 million no later than August 2008. Nevada Landing closed in March 2007.

Land Acquisitions. We have entered into an agreement to purchase a 26-acre parcel of land, located on the Las Vegas Strip north of our Circus Circus Las Vegas property, for approximately \$444 million, which is expected to close in the second quarter of 2007. Separately, we agreed to purchase several parcels of adjacent land, totaling approximately eight acres, for approximately \$131 million, which closed in May 2007.

The M Resort. We have committed, subject to certain conditions, to finance \$160 million of the development cost of The M Resort in the form of a subordinated convertible note. The M Resort is a planned casino resort, 10 miles south of Bellagio. The note matures eight years from its effective date and contains certain optional and mandatory redemption provisions. We have the right to convert such note into a 50% equity interest in The M Resort beginning 18 months after the note 's issuance if not repaid.

Critical Accounting Policies

Management 's discussion and analysis of our results of operations and liquidity and capital resources are based on our consolidated financial statements. To prepare our consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, we must make estimates and assumptions that affect the amounts reported in the consolidated financial statements. We regularly evaluate these estimates and assumptions, particularly in areas we consider to be critical accounting estimates, where changes in the estimates and assumptions could have a material impact on our results of operations, financial position and, generally to a lesser extent, cash flows. Senior management and the Audit Committee of the Board of Directors have reviewed the disclosures included herein about our critical accounting estimates, and have reviewed the processes to determine those estimates.

A complete description of our critical accounting policies and estimates can be found in our Annual Report on Form 10-K for the year ended December 31, 2006. We present below a discussion of our policies related to income taxes, which has been updated from the discussion included in our Annual Report.

Table of Contents*Income Taxes*

We account for income taxes in accordance with Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes (SFAS 109). SFAS 109 requires the recognition of deferred tax assets, net of applicable reserves, related to net operating loss carryforwards and certain temporary differences. The standard requires recognition of a future tax benefit to the extent that realization of such benefit is more likely than not. Otherwise, a valuation allowance is applied. Except for certain New Jersey state net operating losses, certain other New Jersey state deferred tax assets, a foreign tax credit carryforward and certain foreign deferred tax assets, we believe that it is more likely than not that our deferred tax assets are fully realizable because of the future reversal of existing taxable temporary differences and future projected taxable income.

Our income tax returns are subject to examination by the Internal Revenue Service (IRS) and other tax authorities. While positions taken in tax returns are sometimes subject to uncertainty in the tax laws, we do not take such positions unless we have substantial authority to do so under the Internal Revenue Code and applicable regulations. We may take positions on our tax returns based on substantial authority that are not ultimately accepted by the IRS.

Effective January 1, 2007, we adopted Financial Accounting Standards Board Interpretation No. 48, Accounting for Uncertainty in Income Taxes an Interpretation of FASB Statement No. 109 (FIN 48). FIN 48 requires that tax positions be assessed using a two-step process. A tax position is recognized if it meets a more likely than not threshold, and is measured at the largest amount of benefit that is greater than 50 percent likely of being realized. As required by the standard, we review uncertain tax positions at each balance sheet date. Liabilities we record as a result of this analysis are recorded separately from any current or deferred income tax accounts, and are classified as current (Other accrued liabilities) or long-term (Other long-term liabilities) based on the time until expected payment. Additionally, we recognize accrued interest and penalties related to unrecognized tax benefits in income tax expense, a policy that did not change as a result of the adoption of FIN 48.

We file income tax returns in the U.S. federal jurisdiction, various state & local jurisdictions, and foreign jurisdictions, although the taxes paid in foreign jurisdictions are not material. We are no longer subject to examination of its U.S. federal income tax returns filed for years ended prior to 2001. While the IRS examination of the 2001 and 2002 tax years closed during the first quarter of 2007, the statute of limitations for assessing tax for such years has been extended in order for us to complete the appeals process for issues that were not agreed upon at the closure of the examination. The IRS is currently examining the federal income tax returns for the 2003 and 2004 tax years. The tax returns for subsequent years are also subject to examination.

With few exceptions, we are no longer subject to examination of our various state and local tax returns filed for years ended prior to 2003. During the first quarter of 2007, the City of Detroit initiated an examination of a Mandalay Resort Group subsidiary return for the pre-acquisition year ended April 25, 2005. No other state or local income tax returns are under examination.

Market Risk

Market risk is the risk of loss arising from adverse changes in market rates and prices, such as interest rates and foreign currency exchange rates. Our primary exposure to market risk is interest rate risk associated with our variable rate long-term debt. We attempt to limit our exposure to interest rate risk by managing the mix of our long-term fixed rate borrowings and short-term borrowings under our bank credit facilities.

As of March 31, 2007, long-term fixed rate borrowings represented approximately 65% of our total borrowings. Assuming a 100 basis-point change in LIBOR at March 31, 2007, our annual interest cost would change by approximately \$46 million.

Forward-looking Statements

(Cautionary Statements Under the Private Securities Litigation Reform Act of 1995)

This Form 10-Q contains some forward-looking statements. Forward-looking statements give our current expectations or forecasts of future events. You can identify these statements by the fact that they do not relate strictly to historical or current facts. They contain words such as anticipate, estimate, expect, project, intend, plan, may, could, might and other words or phrases of similar meaning in connection with any discussion of future operating or financial performance. In particular, these include statements relating to future actions, new projects, future performance, the outcome of contingencies such as legal proceedings and future financial results. From time to time, we also provide oral or written forward-looking statements in our Forms 10-K, Annual Reports to Stockholders, Forms 8-K, press releases and other materials we release to the public. Any or all of our forward-looking statements in this Form 10-Q and in any other public statements we make may turn out to be wrong. They can be affected by inaccurate assumptions we might make or by known or unknown risks and uncertainties. Many factors mentioned in this Form 10-Q for example, government regulation and the competitive environment will be important in determining our future results. Consequently, no forward-looking statement can be guaranteed. Our actual future results may differ materially.

We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. You are advised, however, to consult any further disclosures we make on related subjects in our Forms 10-K, 10-Q and 8-K reports to the Securities and Exchange Commission. This discussion is provided as permitted by the Private Securities Litigation Reform Act of 1995.

You should also be aware that while we from time to time communicate with securities analysts, we do not disclose to them any material non-public information, internal forecasts or other confidential business information. Therefore, you should not assume that we agree with any statement or report issued by any analyst, irrespective of the content of the statement or report. To the extent that reports issued by securities analysts contain projections, forecasts or opinions, those reports are not our responsibility.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We incorporate by reference the information appearing under **Market Risk** in Part I, Item 2 of this Form 10-Q.

Item 4. Controls and Procedures

Our Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer) have concluded that the design and operation of our disclosure controls and procedures are effective as of March 31, 2007. This conclusion is based on an evaluation conducted under the supervision and with the participation of Company management. Disclosure controls and procedures are those controls and procedures which ensure that information required to be disclosed in this filing is accumulated and communicated to management and is recorded, processed, summarized and reported in a timely manner and in accordance with Securities and Exchange Commission rules and regulations.

During the quarter ended March 31, 2007, there were no changes in our internal control over financial reporting that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
