Report of Independent Registered Public Accounting Firm

Lincoln National Corporation Plan Administrator
Lincoln National Corporation

We have audited the accompanying statements of net assets available for benefits of the Lincoln National Corporation Employees' Savings and Profit-Sharing Plan as of December 31, 2005 and 2004, and the related statements of changes in net assets available for benefits for each of the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2005 and 2004, and the changes in its net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2005, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

In addition to each participant's pre-tax contributions, Employer matching contributions to the Plan are provided in the form of a basic match of \$0.50 for each dollar a participant contributes, not to exceed 6% of eligible earnings, and an annual discretionary match of up to \$1.00 for each dollar contributed by an eligible participant, not to exceed 6% of eligible earnings. Participants employed on the last day of the plan year are eligible to receive the discretionary match, as are participants who retired, died, became disabled or whose job was eliminated during the plan year. The amount of the discretionary match varies according to whether LNC has met certain performance-based criteria, as determined by the Compensation

Committee of
LNC's Board of
Directors.

**2. Description
of the Plan
(continued)**

Participants' pre-tax, other contributions, and earnings thereon are fully vested at all times. Employer contributions vest based upon years of service as defined in the Plan document as follows:

Years of Service	Percent Vested
1	0%
2	50%
3 or more	100%

As a result of changes in participants' employment status, \$593,909 and \$3,588,680 were transferred to

an affiliated Lincoln Life plan during 2005 and 2004, respectively.

Participants direct the Plan to invest their contributions and the basic Employer matching contributions in any combination of the investment options offered under the Plan. Discretionary Employer contributions are initially invested in the LNC Common Stock Account; however, participants can immediately direct the investment of the discretionary Employer matching contributions to other investment options.

The Employer has the right to discontinue contributions at any time and terminate the Plan subject to the provisions

of ERISA. In the event of termination of the Plan, all amounts allocated to participants' accounts shall become fully vested.

Participants have the option of either receiving payment of dividends earned with respect to shares in the LNC Common Stock Account or having the dividends reinvested in the LNC Common Stock Account.

The Plan may make loans to participants in amounts up to 50% of the vested account value to a maximum of \$50,000 but not more than the total value of the participant's accounts excluding Employer contributions that have not been in the Plan for two full years, less the highest

outstanding loan balance in the previous twelve month period. Interest charged on new loans to participants is established monthly based upon the prime rate plus 1%. Loans may be repaid over any period selected by the participant up to a maximum repayment period of 5 years except that the maximum repayment period may be 20 years for the purchase of a principal residence.

Upon termination of service due to disability, retirement or job elimination, a participant or beneficiary, in case of the participant's death, may elect to receive either a lump-sum amount equal to the entire value of the participant's account or an installment

option if certain criteria are met. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Vested account balances less than \$1,000 are immediately distributable under the terms of the Plan, without the Participant's consent, unless the participant has made a timely election of rollover to an Individual Retirement Account ("IRA") or other qualified arrangement.

Each participant's account is credited with the participant's contributions, Employer contributions, and applicable investment earnings thereon, and is charged with

3. Investments

The fair value of individual investments that represent 5% or more of the Plan's net assets are as follows:

	December 31, 2005		December 31, 2004	
	Number of Shares, Units or Par Value	Fair Value	Number of Shares, Units or Par Value	Fair Value
Common stock--Lincoln National Corporation	2,701,460	\$ 143,258,423	2,955,554	\$ 137,965,261
Pooled separate accounts--Lincoln Life:

Medium Capitalization Equity Account	1,763,506.626	24,266,380	1,939,138.175	24,332,305

* Individual investment does not represent 5% or more of the Plan's assets but is presented for comparative purposes.

The investment contracts (Guaranteed Fund) earned an average interest rate of approximately 4.0% in both years. The credited interest rates for new contributions, which approximate the current market rate, were 4.0% at

both December 31, 2005 and 2004, respectively. The rate on new contributions is guaranteed through the three succeeding calendar year quarters. The credited interest rates for the remaining contract value balance was 4.0% at both December 31, 2005 and 2004 and were determined based upon the performance of the Lincoln Life's general account. The credited interest rates can be changed quarterly. The minimum guaranteed rate is 4.0%. The guarantee is based on Lincoln Life's ability to meet its financial obligations from the general assets of Lincoln Life. Restrictions apply to the aggregate movement of funds to other investment options. The fair value of the investment contracts approximates contract value. Participants are allocated interest on the investment contracts based on the average rate earned on all Plan investments in the investment contract.

During 2005 and 2004 the Plan's investments (including investments bought, sold, as well as held during the year) appreciated in fair value as follows:

	2005	2004
Fair value as determined by quoted market price:		
Common stock	\$ 18,890,001	\$ 19,144,475

Lincoln National Corporation
Employees' Savings and Profit-Sharing Plan

Notes to Financial Statements (continued)

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated April 30, 2004, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

6. Tax Implications to Participants

Federal (and most state) income tax is deferred on participants' pre-tax contributions, the Employer's contributions, and income earned in the Plan until actual distribution or withdrawal from the Plan.

7. Transactions with Parties-in-Interest

The Plan has investments in common stock of LNC and in pooled separate accounts and investment contracts with Lincoln Life. Lincoln Life charges the Plan for certain administrative expenses including trustee and audit fees. Total administrative expenses charged were \$301,755 and \$230,468 in 2005 and 2004, respectively.

8. Concentrations of Credit Risks

The Plan has investments in common stock of LNC, pooled separate accounts, and unallocated investment contracts with Lincoln Life of \$143,258,424, \$272,402,495 and \$56,188,550 respectively, at December 31, 2005 (28.46%, 54.11% and 11.16% of net assets, respectively). The same investments at December 31, 2004 were \$137,965,261, \$242,834,251 and \$56,154,139, respectively (29.67%, 52.22% and 12.08% of net assets, respectively). LNC and Lincoln Life operate predominately in the insurance and investment management industries.

The Plan invests in various investment securities. Investment securities are exposed to various risks including, but not limited to, interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

9. Subsequent Events

On Monday, October 10, 2005, Lincoln National Corporation, the parent company of the Lincoln Financial Group of companies, and Jefferson Pilot Corporation, the parent company of the Jefferson Pilot Financial Group of companies, announced a definitive merger agreement. The merger of the two companies was effective April 3, 2006, with the merger of the 401(k) plans effective June 1, 2006. The merged company will operate under the brand name Lincoln Financial Group.
